THE population of the United States as corrected by the latest returns, is 38, 307,399. These figures are subject to some slight revision, but they are substantially correct. This shows an increase in ten years of 6,864,678, or 21.4 per cents New York has increased by nearly 1,00, 000, or more than 12 per cent., nearly, if if not quite the whole of the increase being in the cities, showing the country to be stationary. Then, when the New York papers see Canada increase at the rate of 10 per cent, in a decade, they turn upon us and abuse us for being slow.

MARRIED.

NICHOLL—HORNE—At the residence of T. F. Nicholl, Chicago, December 27, 1870, by the Rev. Dr. Fowler, T. J. Nicholl, C. E. P. K. & Pacific Railroad, to Ellen M., eldest daughter of John Gamble Horne, Esq., late of Toronto.

DIED

At her residence, Asphodel, on the 3rd instant, Adeline Reynolds, wife of T. Robertson, Esq., aged 50 years.

"Time tries all Things," and has proved that *Dr. Wistar's Balsam of Wild Cherry* is the remedy par excellence for the cure of coughs, colds croup, whooping-cough bronchitis, asthma, phthisic, sore throat, and influenza. It cures coughs and colds instantly! In short the first dose relieves the inflammation; and even consumption itself yields to its magic influence.

RUSSELL, OF THE TIMES, DENOUNCED.—Mr. Russell, of the *Times*, does not appear to have given satisfaction either to the Northern or Southern; but you do not hear of any one being dissatisfied with the Canadian Pain Destroyer, which is sufficient proof that it is all it is represented to be. Price only 25 cents per Bottle.

ONE HUNDRED DOLLARS A WORD.

For every word in the following certificate found untrue, after writing to the parties named; and to the U. S. Consul, at Rio Janeiro, the sum of one hundred dollars will be paid.

Rio de Janeiro, Feb. 28th, 1866.

Messrs. Raymunda C. Leite & Bro:

Gentlemen:—While a son of my friend Mr. Francisco de Mattos Pimenta [a large proprietor in the Cidad de Campos] was staying at my house he was attacked with intermittent fever immediately I sent for the very clever Dr Tanner, who is thought a good deal of in Campos, but the fever instead of diminishing, increased, continued, and typhoid, the boy (14 years old) could no speak, would not take the bottles, and it required a great deal of coaxing to make him swallow the medicines. Dr Tanner declared that there was not the slightest hopes of saving the boy's life; that it would be advisable to write to his father and inform him of the state of his son's health. At that moment I thought of the well spoken Dr. Radway & Co's medicaments, and applied them in the following manner: One teaspoon of Relief in a tumbler of water, dividing it three doses a day; injections with the relief pure on the chest. Pack and wrists; three of Radway's Pills every day, and well covered so that he might perspire. The second day, half an hour after meals, one dessert-spoon of Resolvent and water. In the fourth day he was able to get up from bed to the astonish ment of every one who witnessed the merical of Dr. Radway & Co's medicaments.

I remain, gentlemen, yours very obedient servant

Joaquim Pinto Filcao, Merchant.

Dr Raday's Remedies are sold by Druggists and County Merchants. See *Dr. Radway's Almanac* for 1870.

Loss of Appetite in Horses.

Horses lose their appetite from various causes, but most frequently by the approach of some disease, this circumstance ought not to be overlooked by those who own horses, but should be immediately to us by so doing the disease may be checked, and the life of the horse saved. Tonic which we are positive there is nothing equal to "Carley's Condition Powders and Arabian Heave Remedy;" it purifies the blood, correct all derangement of the digestive organs, and as a necessary consequence the appetite is restored, the skin becomes soft and shining appearance. Remember the name, and see that the signature to Hurd & Co is on each package—Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers.

It is essential that the nervous system should be perfect and the nerves; when other diseases exhausted through overwork or other imprudence disease in some organ is developed. The remedy this is removing the cause. By using FELLOW'S COMPOUND SYRUP OF HYPOPHOSPHITES the tone and vigor is soon restored to the brain and the whole nervous system while diseases of the implicated organs disappear.

Price $1 50 a bottle; 6 for $7 50 Sold by apothecaries and by F. Cundill & Co., wholesale agents Montreal.

SOCIAL.

A Second Social, in connection with St. John's Church Parsonage, will be held on FRIDAY, 13th inst., at Mr. J. J. HALL'S.

BUSINESS EDUCATION

BRANCH OF THE [illegible] College and Telegraphic Institute. The only representative in Ontario of the Bryant & Stratton International Chain of Colleges.

The Theory Department is thoroughly adapted to those who wish to lay the foundation of a sound business education.

The Practical Department is a miniature business world, where each Student performs all the routine duties of office work, such as buying, selling, chipping, commission, and drawing notes, drafts and checks. A regular Bank of issue is in connection with this department with beautifully engraved bank notes, which is as perfect in its details as the best organized institution in the Country.

Thorough instruction in Telegraphy. Life Scholarship good in forty Colleges. For terms address,

ODELL & TROUT, Toronto.

ALEXANDER SMITH,
Agent at Peterboro.

DR. A. TRASK'S

MAGNETIC OINTMENT!

CURES CROUP OR RATTLES.

Dr. Dingham of Utica, New York, says:—"I have used Dr. A. Trask's Magnetic Ointment in my practice a number of years, and can say with pleasure I deem it one of the greatest discoveries of the age for the cure of Inflammation of the Lungs, Inflammation of the Bowels, Inflammatory Rheumatism, and in Child Bed Fever, it operates with perfect success. In cases of Burns, Bruises, Frozen Limbs, it acts like a charm."

Dr J. P. Kennedy, of Chittenango, N. Y., says:—"It has stood the *test trio* and has not been found wanting. Its astonishing cures of Inflammation of the Lungs and Croup, and the wonderful success in subduing the torturing pains of Rheumatism, and relieving Nervous Affections, entitle it to a high rank in the list of Remedies for these complaints."

Dr A. S. Belding, of Knowlesville, N. Y., says:—"I have used it in several cases of Specific Irritation, and for the worst cases of Piles and sundry other complaints, and find it a superior article, and well worthy the attention of all."

Purchasers should be sure and ask for Dr. A Trask's Magnetic Ointment, and see that the words "A Trask's Magnet' Ointment" are on the wrapper.

NORTHROP & LYMAN,
Newcastle, Ontario, General Agents for the Canadas.

Sold in Peterborough by Dr Taylor, A. W. Kempt, Wm Coulter and Ormond & Walsh; in Keene by A Campbell Campbell McNeil & Co.; in Lindsay by C. Britton, and all Medicine Dealers.

INSOLVENT ACT OF 1869.

In the matter of WILLIAM COULTER, an Insolvent.

PUBLIC NOTICE is hereby given, that under, and by virtue of the powers vested in me, as Assignee of the estate and effects of the above named Insolvent, under the provisions of the above Act, I the undersigned, will offer, or cause to be offered for sale by

PUBLIC AUCTION,
ON

Friday, 3rd of February next,

AT TWELVE O'CLOCK NOON,

AT THE COURT HOUSE
IN THE
TOWN OF PETERBOROUGH,

In the County of Peterborough, all the right title and interest of the Insolvent, and of myself, as his Assignee, in, and to the following property:—

1. Part of Lot number One, East of Water Street, and South of Hunter Street, Plan of Peterborough, forty feet frontage on Hunter Street, eighty feet deep. Lot is opposite office of Messrs. Dennistoun, Fairbairn & Cassels.

2. Part of Lot number One, East of Communication Road, Township of South, County of Peterborough, ten acres; has small dwelling house, lies immediately North of residence of Mrs. Margaret Dixon, adjacent to the Corporation of Peterborough. Is suitable for a Market Garden.

3. LEASEHOLD. Unexpired term of Lease dated 15th May, 1863, running 21 years, from 1st April, 1864, of part of Lot number One East of George Street, and North of Simcoe Street, Town of Peterborough, frontage 2×50.6 —ground rent $60 per annum. Two-thirds of value of improvements, to be paid for at expiration of Lease. Two Brick Shops on Property which rent for $430 per annum.

4. LEASEHOLD.—Unexpired term of Leases running 21 years, from 1st October, 1863, of part of Lot number one East of George Street and North of Simcoe Street, Town of Peterborough, County of Peterborough, 62½ feet frontage on George Street is covered by four Brick Shops, which rent for $1300 per annum, ground rent $5.74 per annum. Two-thirds value of improvements to be paid for at expiration of Lease.

5. The East Half of Lot 24, in 9th Concession of the Township of Ops, County of Victoria, 100 acres.

6. Lots 14, 15 and 16, North of Durham Street, in the Town of Lindsay, County of Victoria.

TERMS OF SALE.

Ten per-cent cash at the time of sale, and the balance in ten days thereafter, when the purchaser will be let into Possession.

Further particulars will be made known on day of sale. Title Deeds, Leases, &c., may be seen, and other information may be obtained from the undersigned.

D. W. DUMBLE,
Assignee.

Dated at Peterborough, this 25th day of November, 1870.

WILSON, BOWMAN & CO.

Hamilton, Ontario,

MANUFACTURERS OF THE CELEBRATED

LOCKMAN SEWING MACHINE,

Take pleasure in announcing that the popularity of the Sewing Machine manufactured by them is still on the increase. They are now turning them out at the rate of 600 per month and yet have been compelled within the last two weeks to increase their facilities to a capacity of one thousand per month.

The Lockman Machine, from its capacity to sew the heaviest fabrics with linen thread, as well as the finest cambrics with No. 150 Cotton, is pre-eminently the Farmer's Favorite Family Friend.

It is so exceedingly simple in its parts, and so strongly and durably made, that it does not require a mechanical genius for its management.

The manufacturers challenge the world to produce its equal, and yet its price is from Forty to Fifty per cent. Lower than that of any other first-class Shuttle lock-stitch Sewing Machine.

EVERY MACHINE IS WARRANTED.

☞ Sole Agent for the County of Peterborough—

T. DONNELLY,
George Street.

P. S.—ROOMS OVER THE STORE.

Peterboro, May 11, 1870. 19

The Friends of Long Ago.

They come to me shadowy throngs
The friends of long ago;
I catch a note of their thrilling songs
Soft, magical, and low.
And on my cheek, I almost feel
Their breath come and go,
Though death's long night
Has veiled from sight
The friends of long ago.

There with me when the moosebeams play
On mountain, vale and tree.
And in the morning's misty grey
Their fitting forms I see.
I fancy I hear their voices sweet
In the river's gentle flow;
The clear blue skies reflect the many eyes
That I loved so long ago.

I can see a cheek of peachy bloom
And a brown that is spotless fair,
Oft I catch a glimpse of the snowy plume
And a lock of the nut brown hair.
But I may not pillow that manly head
That sleeps so cold and low,
Sweet be his rest in the earth's cold breast
With the friends of long ago.

But when I cross the mystic stream
And land on the other shore;
I shall meet him there, in a world that's fair
Who a short time has gone before.
Then oh 'twill be sweet that last hour
When I leave all earth's scenes; to know
That I shall rest in the land of the blest
With those friends of long ago.

Basis of a Constitution For A Spanish Church.

"There is proclaimed and established in Spain a free national Christian Church which will be guided by the following constitution until the re-union of a national Assembly:—

Article I.—This Church receives, confesses, and believes every doctrine contained in the Holy Scriptures, the Apostles Creed, the Nicene of Constantinople, and that of St. Athanasius, embodied in the first four Councils of the Church.

II.—This church possesses the faith of all churches truly christian, will have its own proper discipline, which may be amended according to conditions of time and place.

III.—This Church at present will be governed in everything disciplinary by a Council of twelve Presbyters and one President, who are all to be elected by the General Assembly, to meet every five years if no shorter period be thought necessary by the majority of the Council.

IV.—The towns will elect their governing or parish ministers, who shall be previously examined, ordained and acknowledged by the Council.

V.—As soon as two hundred Presbyters are convened together, they will be cited to form a Council of the first General Assembly, which will re-elect or re-name a new Council to establish the mode or form of the celebration of Provincial Assemblies or Synods, as to give a decision approval, addition, or correction of these bases, including, however, the one in reference to that of questions of faith.

VI.—The ecclesiastical ministrations will be dispensed gratis in this church as done and ordered by Jesus Christ and the Apostles, in virtue whereof there is abolished the payments at marriage, baptism and burial; yet the ministers of this church shall be watchful and ready, night and day, to fulfil their duties.

VII.—The ministers of this church are prohibited from receiving any salary from the State.

VIII.—No persons can be ministers of this Church who do not live moral lives, and are of good manners, and whose religious and political principles are not clearly presentable.

IX.—The ministers of this Church are in every sense on a level with the members of their flock in the scale of rank and social standing, and will be called guiding brothers, in conformity with the works and doctrine of Jesus Christ and the Apostles.

X.—The Council will publish the necessary regulations—one to the nation, another to the Chambers, and another to the clergy—through the official Gazette.

XI.—Each Presbyter will sign a copy in duplicate of this constitution, returning it to the Council for the purpose of being registered.

I can hear the sundry remarks that will follow these articles but you have them just as they are decreed, and they emanate from Spain!—"British Bible Society Reporter for August."

A Mother's Love.

Children, look in those eyes, listen to that dear voice, notice the feeling of even a single touch that is bestowed upon you by the gentle hand! Make much of it, while yet you have that most precious of all good gifts—a loving mother. Read the unfathomable love of those eyes; the kind anxiety of that tone and look, however slight your pain. In after life you may have friends, fond, dear kind friends, but never will you have again the inexpressible love and gentleness lavished upon you, which none but a mother bestows. Often do I sigh in my struggles with the hard uncaring world, for the sweet deep security I felt, when of an evening nestling to her bosom, I listened to some quiet tale suitable to my age, read in her tender and untiring voice. Never can I forget her sweet glances cast upon me when I appeared to sleep; never her kiss of peace at night. Years have passed away since we laid her beside my father in the old church-yard; yet still her voice whispers from the grave, and her eyes watches over me as I visit spots long since hallowed to the memory of my mother.

ALCOHOL.

It undergoes no change from being introduced into the stomach. This is fully established by recent and most thorough chemical investigation. If you take it pure it diffuses itself at once through every important organ, attacks every one, irritates the stomach, inflames the blood and stings the very brain. If you take it mixed with other fluids, as in wine and ale, it is still the same. It cannot be enticed into the digestion but, according to the amount taken, immediately sets itself to work as an irritant, a narcotic, and a poison.

Then, when we think of its effects upon the brain, the seat of the soul, and through it upon the soul itself; beginning with simple unnatural excitement but ending in the furies of inhuman cruelty, we cannot find language strong enough to warn men against it.

Let men seek pleasure, if they will, by lacerating their flesh, and tearing out the hairs of their heads; for these external wounds may not affect the seat of life and reason; but let them not willingly corrupt the blood and scorch the lungs, deaden the nerves and infuriate the brain, or they cannot be held guiltless of the crime of self murder.

In reply to the colored canadian butting challenge, which we published a few days ago, a hard-headed colored citizen of Detroit haf responded that he would like to, but——

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

PRACTICAL AND ANALYTICAL CHEMISTS,

LOWELL, MASS.

PRICE $1.00.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of scrofulous disease, where the system seemed saturated with corruption, have been punished and cured by it. Scrofulous affections and complaints, which seemingly aggravated by the scrofulous constitution upon which they fasten, have been radically cured by this powerful alterative. Under its influence even the most destructive forms of internal disease yield to the power of this antidote. Being purely vegetable, it may be taken with perfect safety by children. Its sugar coating makes it pleasant to take, and it is the cheapest blood medicine in the market. Every one knows when he needs a cathartic, and what cathartic to take. This compound is the best purifier of the blood, and the safest cathartic for children to take, that can be employed. Hence it is the duty of every one to get it when he requires any medicine.

PREPARED BY
J. C. AYER & Co., Lowell, Mass.,
Practical and Analytical Chemists.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier, alternative stomach tonic, unsurpassed in the *history of medical preparations. It seldom* fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phathisic or Asthma, and restores to vital activity the system debilitated in suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat coughs, Diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum, dysentery, &c.

Price only thenty-five cents per bottle.

NORTHROP & LYMAN,
Newcastle, C. W.
General Agents for Canada.

Wind in the Bowels,
and all Internal Pains.

Travellers should always carry a bottle of Radway's Ready Relief with them. A few drops in water will prevent sickness or pain from change of water.

IT IS BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

FEVER AND AGUE.

Fever and Ague Cured.
Fever and Ague Cured.
Fever and Ague Cured.
Bilious Fever Cured.
Ship Fever Cured.
Yellow Fever Cured.
And Prevented.
And Prevention.

FEVER & AGUE CURED

FOR FIFTY CENTS.

There is not a remedial agent in this world that will cure Fever and Ague, and all other Malarious, Bilious, remittent, Typhoid, Yellow and other Fevers (aided by RADWAY'S PILLS), so quick as RADWAY'S READY RELIEF.

RADWAY'S READY RELIEF has proved infallible, and will cure these terrible fevers quicker, and without exhausting the system like Peruvian Bark, Quinine, Calomel, Arsenic, Blue Pill, or any other mineral poison. Not a dollar's worth of Quinine, Mercury, Arsenic, and other destructive drugs are necessary when using RADWAY'S READY RELIEF and RADWAY'S PILLS.

HEALTH! BEAUTY!!

Strong, Pure and Rich Blood — Increase of Flesh and Weight — Clear Skin and Beautiful Complexion, secured to ALL.

RADWAY'S

SARSAPARILLIAN RESOLVENT

has made the most astonishing cures. So quick so rapid are the changes made by its energetic and healing influence on the blood, by this only WONDERFUL MEDICINE, that

Every Day an Increase in Flesh and Weight is Seen and Felt.

Scrofula, Consumption, Syphilis, inherited and badly treated Very unlucky Mercurial Diseases, Glandular Diseases, Ulcers in the Throat, Mouth, Tumors, Sores in the Eyes, Blotches, Boils, Carbuncles, Ring Worms, Scaly Eruptions, Skin Diseases, Sore Eyes, Scrofulous Inflammations, Diseases of the Kidneys, Liver Complaints, Dropsy, Dyspepsia, Female Complaints, Dysentery, Diarrhœa, Chronic Rheumatism, Gout, Neuralgia, Tetter, Salt Rheum, Erysipelas, Canker, Chronic Diseases of the Womb, Piles, Fistula, Fever Sores, Scald Head, Ringworm, Consumption, Bronchitis, Coughs, Colds, Asthma, and all Weaknesses and Painful Diseases of the Kidneys, Bladder, Nervousness, Debility, Dimness of Vision, Pain in the Back, Hot Flashes, Sudden Flushes of Heat, Burning in the Flesh, and all kindred complaints, are the first to yield to the healing influence of the Sarsaparillian Resolvent, and when the use of a few days proves to the sufferer that every dose is helping to make new, sound, healthy flesh, and to purify and invigorate the blood with new life, there is no reason for the continued use of any other medicine.

Not only does the Sarsaparillian Resolvent, at all times and seasons, in all cases, and under all circumstances, control and subdue all Chronic, Scrofulous Constitutional Diseases, but it is the only positive remedy in the World for Kidney and Bladder Complaints, Urinary Diseases, Gravel, Diabetes, Dropsy, Retention of Water, Incontinence of Urine, Albuminous Appearances, and Sediments like the white of an egg, or Threads like silk, often in the Urine, Pain in the Back, Loins and Kidneys, Dull Heavy Pain in the Region of the Kidneys, Scanty Secretions, Brick Dust Deposits, Mucous Flakes, and Particles in the Urine, Stone or Gravel in the Kidneys, Bladder, Prostate Gland, Stricture of the Urethra, Calculus, Pain in the Passage of the Water, Inflammation, Ulceration, Catarrh of the Bladder, Retention of Urine, Incontinence of Urine, Diseases of the Prostate Gland, Female Complaints, Leucorrhœa, or Whites, Ulceration of the Womb, Uterine Diseases, Chronic Inflammation of the Womb, Falling of the Womb, Change of Life, Monthly Irregularities, Suppressions, Painful Menstruation, Sterility, Impotency, Nervousness, Lassitude, Universal Lassitude of the Muscular System, Hysterics, Fits, Epilepsy, Nervous Headache, Nervous Diseases of Females, Sleeplessness, Dyspepsia, Indigestion, Biliousness, Jaundice, Heartburn, Palpitation of the Heart, Pain in the Region of the Heart, Pain in the Side, Chest, Limbs and Joints, Rheumatism, Gout, Neuralgia, Tetter, Salt Rheum, Erysipelas

Lines on the Past Year
BY A. GRAHAM, OTONABEE.

As moments fly, and days pass by,
And months and years in time roll on,
To pass through life, changes are rife,
And felt by those whose friends are gone.

Cheerful and gay, last New Year's Day,
Were parents with their children dear;
But death has come, and laid low some
Within the tomb, since last New Year.

We often meet upon the street,
Those who deep mourning dresses wear,
Whose looks or words, as well their dress,
Tell they have lost their partners dear.

Short as a span, the life of man,
Altho' long life at long to have,
In many a case short is the race
Between the cradle and the grave.

Altho among the busy throng,
From this to death men pass away,
They're soon forgot, when comes their lot,
To mix in death with kindred clay.

Partners may grieve as long as they live,
And children mourn the orphan's lot.
But in among the busy throng,
The dead are very soon forgot.

In the year past, Was it hath cast
From our land death's dark mourning weed,
On her both come the judgement hour,
As she to other nations did.

That war may cease, this year bring peace,
Is meet and be our sincere prayers;
The art of war men learn no more,
But beat their swords into plow shares.

Nations she'll see from war set free,
When men Christ's spirit shall embrace,
And seek to know, that mercies flow,
Thro' God's love for all the human race.

Selections.

A Blindfold Marriage.

The elite of the court of Louis, then XVI. the great monarch of France, were assembled in the chapel of the great Trainnon, to witness the nuiptals of Louis Count of Franche Comdeee—a natural son of the King—with Loydonie Duchess de Beliverne, a wealthy heiress.

The single feature of the ceremony was that the bridgroom's eyes were bandaged with a white handkerchief.

This circumstance excited the wonder of all. Had the bride been old and ugly they would not have been surprised. On the contrary she was young and quite pretty.

The King alone understood this strange freak of the bride-groom, and though much enraged, he prudently held his peace and suffered the ceremony to proceed.

A few words will explain the motive of the bridegroom.

When Louis the XVI, came back from his great campaign in the Palatinete, he determined to unite his son, whose valor and daring in the war had greatly pleased him, to one of the wealthy wards of the crown.

He proposed the union to the young Duc de Baliverne, and found her favorably inclined.

She had just come to Court, having just emerged from the convent where she had completed her education.

She had seen the young Count often, though he had never designated to cast a glance upon her. She knew he was brave and noble, and she thought handsome. The bar sinister in his escutcheon was no objection She accepted him

Unfortunately, Louis of France Compte who, like his father, was something of a reprobate, would not accept her.

My son, said the king, I have resolved that you shall marry.

My worthy sire and most excellent father returned the count, I have resolved to do no such thing!

The King frowned. He was not in the habit of being contradicted.

I have made a formal proposition in your name, for the Duchess of Baliverne, and she has accepted you, he said gravely.

Doubtless, sneered the young scapegrace, her taste is excellent, and how could she refuse me! Perhaps it would have been as well to have consulted my inclination in the matter. I do not wish to marry.

Are you in love with my one?

No.

Then love my Duchess. She is noble and wealthy.

I am your son—that is nobility enough he bowed low as he spoke, and the King smiled at the compliment, and the Jews trust me—what could I do with more gold?

She is the prittiest woman in my court

I'm tired of pretty women, they are always fools!

Could you see her you would be sure to fall in love with her.

I never will see her, answered the Duke determinedly.

See her or not, you shall marry her, cried the King in a rage.

If I do I'll marry her with my eyes shut! returned the Count.

The King grew purple with passion.

Hark ye, boy! You owe me obedience as subject and as son. It is my will that you bestow your hand upon the Duchess de Baliverne. The wedding shall take place this day fortnight. Submit to my will with a good grace and I will create you a duke on your wedding day. Dare to disobey me, and I will strip you of your title, and the lands you hold from me, and cast you into the Bastile.

This is what had brought the Count of Blanche Comple blindfolded to be married.

The King smiled grimly, but said nothing.

The Count placed the ring upon the finger of his bride, but he did not salute her, and when the ceremony was over he turned his back upon her and took the handkerchief from his eyes and walked deliberately out of the chapel.

Lydonie pouted her pretty lips and was almost ready to cry with vexation.

The King took her in charge, escorted her to her carriage and they were conveyed to the hotel her husband occupied.

Here you are, my dear, said the King, conducting her through the apartments he had expressly furnished for reception, here you are at home.

But where's my husband! asked Lydonie Silly boy! muttered the King, looking much annoyed. Never mind my dear, he is your husband; the rest will come in time.

What's the use of having a husband if he won't look at you! pouted Lydonie.

He shall look at you or I'll cast him into the Bastile.

Oh no, cried Lydonie, do not force him look at me. If he had not curiosity enough to see what kind of a wife he has I'm sure I do not wish to oblige him.

look at me. I see how it is, she continued; a sad expression stealing over her countenance. Sir, you have forced that Count into that union!

The King laughed, and looked guilty.

Oh! cried Lydonie, with anguish—he never loved me!

Way should you care!

Because I love him, answered Lydonie, innocently.

Love him!

Oh, so dearly; that is why I married him. I have loved him from the moment I beheld him. And now I am his wife he will not look at me.

Lydonie burst into a flood of tears and sank upon a sofa.

The King pitied her sincerely, but what could he do! He had forced his son to marry her, but he could not make him love her.

He thought of the Bastile. It would not make him love her to send him there.

Well, well, as soon as you are his wife I will make him a duke, and I dare say you'll find him be as before morning.

With these words the King withdrew.

Lydonie was left alone with her sorrow. But she was not to droop long. She soon dried her tears and looked all the better for them, like a rose after a shower.

Her old nurse came in, and together they inspected her new home, which Lydonie found entirely to her satisfaction. The count did not come home that night.

A week passed by and he did not make his appearance. Lydonie came to the conclusion that he never would come.

She knew it was useless to appeal to the King. He had made Franche Compete a duke but he could do nothing for her.

She determined to ascertain what her husband was about.

She dispatched a trusty servant for her intelligence, and, and like all wives who place a spy upon their husband's movements, she was not at all pleased with the news that she received.

The Duke was plunging into all kinds of dissipation He was making love to all the pretty daughters of the shopkeepers of the Rue. St. Antoine.

In fact for a newly married man, his conduct was shameful.

To leave me to run after such cuddle! exclaimed Lydonie.

She paused suddenly. An idea entered her brain. She determined to act upon it.

While she is meditating upon it, let us see what our duke is about.

One night about eight days after his marriage, the duke, plainly attired and muffled in a cloak, roamed through the Farbourg St., Antoine it was his want in quest of adventures.

As he turned the corner of one of those narrow lanes that intersected that quarter at that time, a shriek burst upon his ear, mingled with suffocating cries for assistance.

The Duke's sword was out in an instant. He was brave to rashness. Without a moment's thought he plunged into the lane.

He beheld a female struggling in the grasp of a man.

The man fled precipitately at his approach, and the girl sank into his arms convulsively exclaiming.

Save me! oh save me!

The duke sheathed his sword and endeavored to calm her fears.

He led her beneath the lamp that swung at the corner.

Why, you are a perfect little beauty! he cried rapturously, and in surprise.

The girl cast down her eyes and blushed deeply, and the duke felt the little hand that rested on his arm tremble. But she did not seem displeased.

Do you reside at Paris?

Yes; but we have only been here a short time we came from Belleville — mother and I.

From the country, eh! Where do you live my pretty blossom?

In the Rue St. Helene.

Why, that is some distance from here. will you permit me to escort you home? These streets are dangerous, as you have found to one as beautiful as you are.

I would very much like to have you see me home—if—

She paused and appeared confused.

If what! asked the duke, eagerly.

If you would only be so good—as to promise not to try—to kiss me again—if you please, sir, replied the girl innocently.

The duke was charmed. There was simplicity, a freshness about the girl which pleased him.

I give you my word as a gentleman that no action of mine shall displease you, if you accept my escort.

She came to his side and took his arm with confidence. I am not afraid of you, she said with sweet simplicity: I know you are too good to injure me.

The duke blushed for the first time in—he couldn't remember how many years—he knew he was receiving better character than he deserved.

What is your name! he asked, as they proceeded on their way.

Bergerouette, she replied.

What a pretty name! And so you live in Paris here all alone with your mother.

Yes.

I dare say you have plenty of sweethearts!

No. I haven't one.

What, no one that loves you?

None, replied Bergerouette, quite sadly

Would you not like a sweetheart?

Perhaps.

You must be particular in your choice, or you would have had a sweetheart before now. What kind of a one would like now.

Those sparkling, grey eyes were silent for a moment.

I would like one if you please, like—

Like what?

Like you.

Then thought the duke, I am getting on nicely. Now, in this dawning of simplicity.

He walked on for some time in silence.

Bergerouette checked the duke before a cottage with a garden in front. There was a wicket gate leading into the garden.

Here is where I live and said.

She took a key and unbuckled her girdle and unlocked the gate.

Good-night, sir, said Bergerouette, and many thanks for your kindness.

Shall I never have the pleasure of seeing you again, said the duke.

Do you wish it she said earnestly.

Most sruently.

I'll ask my mother.

An oath rose to the duke's lips, but he prudently checked it.

Will you receive me to-morrow?

You may come if my mother is willing—yes.

I will be here, sure.

You will have forgotten me by to-morrow.

I shall never forget you!

I have heard my mother say the men always protest more than they mean.

Your mother is—the duke paused and bit his lip.

What is she! demanded Bergerouette, archly.

She is—is right. But I mean what I say. As surely as the morrow comes, so will I.

Come. Good-night.

She turned from him and was about to enter the garden.

Bergerouette, he said quickly, one kiss before I go. Surely my forbearance to you deserves it.

She made no answer, but she inclined her head gently towards him. For a moment she lingered in his arms, and then tore herself from his embrace and passed quickly through the gate.

The duke determined to follow her. When he placed his hand against the gate he found it securely fastened. For Bergerouette had prudently locked it after her.

So the duke went to his lodgings—he had taken handsome apartments on his wedding day—in the name of Bergerouette.

The next day he went to the cottage in Rue St. Helene.

He was received by Bergerouette timidly, and introduced by her to her mother, a fine matronly dame, who sat quietly spinning in the corner, and allowed the young people to rove about the garden at will.

The duke departed, at the end of the three hours, more in love than ever.

He came every day for a fortnight, and every day he pressed his suit.—But there was only one way Bergerouette could be won—an honorable marriage.

The duke was in despair at wit's end, he had a stormy scene with the king, who threatened to send him to the Bastile if he did not return to the Duchess.

So he came to Bergerouette, on the fourteenth day, to make a final effort to obtain her. They were alone together in the garden.

Hear me Bergerouette, he cried when he had exhausted every argument and found her still firm.

I swear to you. I will confess all to you I have told you that I am a duke, but not my title. Now you shall know all. I am the Duke de Franche Compete, and—I am already married!

Married! echoed Bergerouette with a smothered scream.

I was forced into this command. I do not love my wife. I have never seen her face—I left her at the altar's foot, and we have never met since. She possesses my title, but you alone possess my heart. Fly with me. In some distant land we will live in happiness, blessed with each other's society.—Time will remove the obstacle to our union death may befriend us, a divorce may be obtained, and then I swear by every saint in Heaven, you shall become my Duchess.

I have pledged you my word.

I believe you!

Will you fly with me?

I will.

Dear Louis, she murmured, for so he had taught her to call him, I also have something to impart to you. My name is not Bergerouette and I am not what you take me to be!

What do you mean?

I have a title equal to your own.

Then this old woman?

Is not my mother, but my nurse.

And the man who assaulted you?

Was my lackey, instructed for the purpose.

The Duke looked bewildered.

And like you, she continued, I am—Married!

I'll cut your husband's throat! exclaimed the Duke wildly.

I don't think you will when you know him.

Who is he then, and who are you?

I am Lydonie, Duchess de Franche Compte; and you are he!

The Duke was thunderstruck.

Lydonie knelt at his feet.

Forgive me for this little plot, she pleaded: it was to gain your love. If it has succeeded I am happy—if it has failed, with my own lips I will sue to the King for our divorce.

Up—up to my heart! cried the Duke joyfully as he caught her in his arms; you have ensured our mutual happiness. Ah! none are so blind as those who will not see. Little did I think when I stood blindfolded by your side at the altar that I was rejecting such a treasure!

They passed their honeymoon in the little cottage, and the Duke was not sent to Bastile.

Valuable Old Maids.

Speaking of heiresses and heiress-hunters, I must say that, beyond all comparison some of the best and brightest women I have known have been heiresses—but with an important qualification. They are heiresses who have never been married.—They have been clever enough to avoid all the arts and crafts of the heiress hunter. Perhaps they have been a great deal too clever. They have been so anxious to escape a simulated affection that they have lost a true one. They have imputed, or have been persuaded to impute, motives where none existed. In early life they have allowed themselves to be governed too much by "a little hoard of maxims preaming down a daughter's heart." They never allow themselves to fall in love with the tutor, after the magnificent precedents of the Sidney of Charlotte Bronte, and the Lady Geraldine of Mrs. Browning. Perhaps they have so acted good men by their riches that they have never had the chance of mating with an equal mind, and any other chance they have righteously despised. I think myself that the old maids are at least as good as the matrons, and the heiress are the pleasant variety of old maids. You see they are old maids by their own free will. If they have not married for the mere sake of getting settled, as is the case with many women. Their sweetness is not of that acidulated kind which is the generic flavor of spinsters. Frequently they have a singular wide and generous range of sympathies. To give and forgive seems the very air they draw. They have more culture than most women have, the result of larger means and greater leisure, and very frequently they are fond of friends and of society, largely indulging avowed tastes. They will give you sympathy, appreciation, allowance, when perhaps some others will say every clergyman knows where the stream of bounty will run amplest and least stained by selfish motives. Now and then you hear that such a one has married. People lift up their eyes and their hands. It seems almost as if nature were avenging a line of common sense by an act of tremendous absurdity. But I don't see why they should not. An immortal spirit never grows old. I know a brilliant old lady of seventy who is younger in heart and mind than most girls of seventeen. When Louis XIV asked a very old woman at what age women ceased to love he was told that he must ask some one else than herself. Of one thing you might be quite sure—that this sort of heiress never marries an heiress hunter.

Horace Greeley thinks it an oversight that his statue is not alongside of Franklin's in Printing House Square.

The Wealth of Canada.

The material wealth of any country is usually indicated by the value of its annual products. The wealth of Canada may be estimated after a perusal of an article contributed to the *New York Tribune* by James Young, Esq., M. P. This gentleman, who is one of the pluckiest of the Reformers, and of facts and figures are gratifying in the extreme.

Notwithstanding that a large portion of our territory is a barren and inhospitable wilderness, there remains, says Mr. Young, an area of fertile territory capable of supporting a population of a hundred million souls. He estimates that nearly three hundred thousand miles are covered by pine forests and thinks the placing of our annual production of lumber at $20,023,-000 entirely too low, as the amount exported in the year 1868-9 was $19,858,963

Of course our chief wealth and chief source of wealth are in our agriculture. The value of the farms in the Dominion Mr. Young estimates at $872,000,000; live stock $150,000,000; agricultural implements $31,000,000; and the yearly yield of agricultural produce at $120,789,000. "When it is remembered," he says "that in 1861 there were only 13,000,000 of acres under cultivation, and that this comprises but a small portion of the arable lands of the four provinces, to say nothing of the millions of acres of rich lands in Manitoba and the Northwest, some idea may be formed of the wealth of our undeveloped agricultural resources."

The annual produce of our fisheries is about $12,000,000 one-fourth of which is consumed at home, and the rest is exported. Fifty thousand men and fifteen thousand vessels and fishing boats are engaged in this branch of industry.

Our mineral resources have been but little developed, and the present yield does not exceed $2,500,000 a year; but there are immense deposits of the miner of coal, iron and gold in the Maritime Provinces; iron, copper, silver and gold in Ontario, and Quebec; and of gold and coal in the Northwest.

The total realized wealth of the country Mr Young places at $400 a head, or $1,-713,241,000. In the United States, Mr. Wells, late special commissioner of revenue, estimates the realized wealth at $800, but it must be borne in mind that most property there is estimated at an inflated and often fictitious rate, owing to the disturbance of values, and the altogether conventional worth of the currency. In England the rate per capital is about $1,000. In saving banks and other monied institutions our people have invested about $31,000,000. Ten years ago the sum so invested did not exceed $20,000,000

As great progress has been made in our commerce. In 1850 our total trade was $30,000,000; in 1860 it had increased to $35,000,000; the last return shows a business of more than $110,000,000; and Mr. Young is of opinion that during the year now closed it exceeded $130,000,000.

In canals we have expended $200,000,000 and the improvement now in contemplation will involve the outlay of other large sums. In railways we have completed 2,950 miles, which cost $165,000,000; and 1,898 more are under construction, which will cost $40,000,000.

In tonnage we rank fourth among the nations, being surpassed only by Great Britain, France and the United States.

The debt of the Dominion is $43,330,-937, representing an annual per capita interests of 68 cents; that of Great Britain costs her people $4.28 each; and of the United States $1.75. To pay the national debt would require $122 per head; of France $73; of the United States 64; but about $22 a head would pay our debt. Our annual taxation for all purposes of Dominion and Provincial revenue amounts to about $3.75 a head; in England $14; in France $10; and in the United States $9.-50.—But in the latter country there is a State tax to be added, so that the people of the State of New York pay each $11.10 annually. We commend this latter fact to the attention of those Canadians who are all for going to annex to the States, we would be much better off in the Union than we are. When they can convince us that $11.10 is a much less sum than $3.75 we will probably be in a mood to listen further to their arguments.—*Ex.*

The French Army.
WHAT IT HAS COST AND LOST.

The manner in which France has been deprived of her regular army, by losses in battle and in captivity, is astonishing. She commenced the war with 430,000 regular troops.

This is what has become of them:

Captured at Wissimburg	1,000
Captured at Woerth	6,000
Captured at Spicheren	2,500
Captured at Saargemund, Haguenau and Litchenberg	1,777
Captured at Vionville	2,000
Captured at Gravelotte	3,000
Captured at Vitry	850
Captured at Beaumont	2,856
Captured at Sedan	84,450
Captured at Leon	2,000
Captured at Toul	2,240
Captured at Strasbourg	15,374
Captured at Schelestadt, &c.,	3,000
Captured at Metz	155,000
Total	235,700

The losses by death in action and in hospital by wounds and sickness, have been 81,300 men. There remains consequently of the 430,000 only 93,000 men, and of these 50,000 are in Paris and others are with General Aurelles on the Loire. Besides the loss in men, France has had taken from her since the war began more than 1,500 cannon and 25,000 horse. In the loss of men are not included the National Guards and Guards Mobiles taken prisoners in various places, nor the garrison at Metz, but simply the soldiers of the regular army. The Boys sums up the enormous loss of France from the beginning of the war until this time as follows—

War expenditure from 1854 to 1870, £10,-000,000; fortifications destroyed which will have to be rebuilt, £60,000,000; losses of munitions, cannons and other war material destroyed or captured, 60,000,000; destruction of houses and fields by both sides, £30,000,000; total or partial ruin of manufactures and proprietors, £40,000,000; war indemnity to Germany, £100,000,000; losses in consequence of the influence of these disasters, £80,000,000; total, £430,-000,000.

A New York paper heads its report of the Syracuse tragedy with "A well known farmer commits suicide and then murder"

A casket containing 200,000 worth of jewels was recently found on a Bavarian railway, and for it no owner has yet appeared.

The pews in Mr. Beecher's church were sold on Tuesday: The highest price paid was $530—or something over $11 for each Sunday: and the total receipts for pews amounted to $36,418.

The editor of an Arkansas newspaper explains that the deficiency of leading articles in his issue of the preceding day was owing to an unusual number of ducks which had accumulated on his hands, until he was obliged to give an entire day to setting them.

Soldiering in France, with the thermometer six degrees below zero, can hardly be considered an amusement just now.

John Mayn was a German artist distinguished by the length of his whiskers, which reached the ground when he stood up.

On Monday, 2nd January, 1871,

A GREAT CLOSING SALE,

which he will continue from day to day until everything is sold off. At this sale he will offer EVERYTHING IN STOCK

AT COST PRICE or LESS THAN COST

He will commence on the Evening of SATURDAY, JANUARY 14th,

A Great Auction Sale,

To assist in clearing out the balance of the stock.

The Auction will commence at Three o'clock in the afternoon of that day, and will be continued every Saturday until the lasts of the stock is disposed of. Buyers can thus purchase what they want either at or during the day, or at the auction every Saturday. As the principal part of the stock is New, and all in Good Condition, this will afford an opportunity rarely offered for laying in supplies.

GEORGE EVANS.

Keene, December 31, 1870. 1-3ins.

The Peterborough Examiner

PETERBOROUGH, JAN. 19, 1871.

Editorial Items.

The monthly Public Prayer Meeting of the Y. M. C. A. will be held in their rooms on Monday Evening next commencing at 8 o'clock.

PARLIAMENT.—Very little has been done at Toronto since last issue. Many members left on Saturday for their homes among the rest our representatives. The School Bill has been before the committee of the whole, and is being amended freely.

Why has Mr. Carnegie failed to send us a copy of his proposed amendments to the Haliburton Railway Bill? Is he afraid the public should know what he is doing? We have a dread of the secret working of Railroad Presidents.

Death is still doing its work amongst us. Last week Mr. J. Moffatt, after a long illness was taken to his last resting place. And this week Mr. David Carlyle, so long street and bridge inspector, and health officer, and who was esteemed by all who knew him, was also removed by death. Who shall go next? only the All-wise knoweth.

MASQUERADE SKATING CARNIVAL.—Mr. Rackett, Band Master, has made arrangements with the Curling Club, for a benefit on their Rink, to take place on Friday, the 3rd of February. The benefit night to be a Masquerade Skating Carnival. For any information Masqueraders can apply to Mr. Rackett. Admission to all parts of rink 25 cents. This being the first of the kind in Peterboro, a success is anticipated.

CANADA AIR LINE RAILWAY:—Mr. Carroll is advertising for 300 men. He is building 25 miles of the Canada Air Line Railway.—Men requiring employment had better see him at once. Mr. Carroll is well known in the county of Peterboro having been engaged by the Government in building the Burleigh road. Those who have been formerly employed by him will be happy to hear that he is once more in the field.

We would draw the attention of our customers and the public, to the special inducements offered by the large and enterprising firm of W. Fairweather & Co Mr. F., the principle of the firm, has returned again from the markets, rather late we should say, for the season. The inducements offered to the ladies and gentlemen are great. We advise giving them a call and inspecting their goods.

The January number of the *Canadian Literary Journal* is before us. The contents, besides being national in tone, are ably written, and of such a nature as to commend the *Journal* to the support of all Canadians. The table of contents for the present number is as follows:—"Why the Croziers came to Canada," by W. F. Munro, author of "Backwoods Life," &c "Tale of Two Neighbors," by Robert Ridgway, Toronto; "Humbug;" "Man,—Whence is He?" stating the Darwinian theory of the origin of man, and showing its falsity; "A Tale of British Columbia;" besides other interesting articles. The *Journal* is the only one in Ontario devoted to native literature; and the price being placed at the moderate sum of 75 cents per annum, it will no doubt meet with the hearty support of our readers. The publishers are MESSRS. FLINT & VAN NORMAN, Toronto.

LECTURES.

The Rev. Mr. Mitchell, Millbrook, delivered an excellent lecture in the Good Templars Hall, on Thursday evening last, under the auspices of the Young Men's Christian Association; subject, "The Influence of Christianity on Mankind. The audience was not so large as it should have been, but it was very respectable. The lecture was over an hour in delivery, and was well received. At the close T. M. Fairbairn, Esq., proposed seconded by Principal Dixon, a vote of thanks to the Rev. Lecturer for his able, exhaustive and excellent lecture.

The Rev. Mr. Allen, of Millbrook, will soon favor the society with a lecture, also, Mayor Scott. They will be announced in due time, no doubt.

Principal Dixon delivered a very excellent lecture in the Music Hall, on Tuesday evening. The hall was very well filled, although the annual lunch of the officers of the Fire Company kept several away that would have been there. The subject, "The Dignity of Labor" was very ably handled, in a lecture of over an hour's duration. It was attentively listened too, and the lecturer was several times warmly applauded.

Mr. Dixon will deliver another lecture in about two or three weeks. The lecturer's reputation will, no doubt, induce a full house. Still, every effort should be made to avoid collision with entertainments, on the same evening. Every citizen should endeavor to attend the whole course. The dignity of labor has an able advocate in Mr Dixon, and the Directors of M. I. deserve our sincere thanks for securing his services.

A despatch from Laval on the 19th says that reinforcements were to be sent from Cherbourg to the army of the North, and that fresh recruits, were continually arriving at Cherbourg.

Firemen's Annual Lunch.

The officers of Protection Fire Company No. 1, gave the members of the Fire Company, and numerous friends a lunch on Tuesday evening, in the Firemen's Hall. The spread was got up by——— and was a very good one.

Capt. J. O'Donnell presided, and on his right was Dr. Kincaid, Mr. Calcutt and Dr. Geo. Burnham; on his left the Mayor, Mr. Carnegie, M. P. P. and Sheriff Hall. In the house we noticed councillors Dennistoun, Edmison and Henthorn. There were about 75 Firemen and friends present. After the lunch had received due attention, the secretary read letters of apology from Capt. Turver, Mr. C. F. Henderson, J. Edwards, Capt. J. Z. Rogers, Jas. Stevenson, Wm. Helms, Esqrs. and Lieut. Col. Poole, all expressing their regret at their inability to be present.

The usual Loyal toasts on such occasions were first disposed of by Capt O Donnell. He gave the Army, Navy and Volunteers. Dr. Kincaid returned thanks on behalf of the Volunteers.

The Legislature of Ontario, responded to by Mr. Carnegie.

Our Guests; responded to by Sheriff Hall, Mr. Calcutt, J. B. Ormond, Wm. Croft, D Haggart.

The Mayor and Corporation, by the 1st Vice, Mr. Gibbs; responded to by the Mayor, and Councillors Dennistoun, Edmison and Henthorn.

The Bar; responded to Messrs. Scott and Dennistoun.

The Medical Profession, responded to by Dr. Kincaid and Dr. Geo. Burnham.

By second Vice-Chair, Mr. Comstock. The Agricultural, Manufacturing and Commercial interests of Canada; responded to by Messrs. J. R. Ormond and Calcutt.

The Press; responded to by Mr. Stratton of this paper.

The Ladies, by Messrs. Dunsford, Haggart and Dr. Geo Burnham.

Mr. Haggart then proposed, The officers and members of the Fire Company, paying a very fitting tribute to Capt. O'Donnell, the officers, and all the members responded to by Capt. O Donnell Gibbs, Comstock and Marshall.

The toasts and speeches were interspersed with songs by Messrs. Mitchell, Dunsford, Wm. Henthorn and Hutchinson. The evening was, like all spent with the Firemen, a very pleasant one, all felt happy and pleased, and parted, hoping to meet with the officers of Protection Fire Company often, and Capt. O'Donnell still occupying the honorable position he now does.

Horticultural.

The annual meeting of the members of this Society was held on Saturday, in the Council Chamber.

Mr. Dumble was elected President, Mr. Kampt Vice-President; Mr. A. Smith Treasurer; Mr. Barlee Secretary. Directors, Sheriff Hall, Stratton, McClelland, Best, Dunlop, A. H. Campbell, Edwards, Tyrell and Rev. V. Clementi. Mr. Patterson declined acting as director this year.

Rev. Mr. Clementi was appointed to represent the society at the Provincial society

Messrs. A. B. Kidd and J. A. Hall auditors.

It was agreed to hold two shows this year; one in June and one in September.

The meeting adjourned till Monday evening, at 4 o'clock, to receive the Report of the Secretary and Treasurer.

Monday evening the Report was submitted.

Agricultural.

The annual meeting of the West Riding Society, was held in the Council Chamber, on Tuesday. There were about 25 members present.

Isaac Garbutt, Esq. was elected President.

M. Sanderson, Esq., 1st Vice President, H. Collins, Esq., 2nd Vice President, and Mr. Carnegie Secretary and Treasurer.

Messrs. George Tully, Wm Helm, Wm Rutherford, Hugh Anderson, Aaron Mann, Thos. Hall, Jas. Elliott, John Whyte and Alex. Scott, Directors.

Auditors—Messrs. Edwards & Coulter.

A very full and favorable report from John Riddell, Esq., Secretary of the South Monaghan Agricultural Society, was read, indicating progess in that little township.

The secretary then read a letter from Mr. N. Choate, requesting the nomination of the society for the Board of Agriculture

A vote was then taken for a representation at the Provincial Board, and resulted in the selection of Mr. Walton, again. He made a few brief remarks in reference to the board, and read a letter from the Treasurer, that in the cause against the late treasurer, Mr. Dennistoun, the judges had rendered a verdict in favor of the Board, and that thus, after a great deal of trouble, the whole sum in default would be obtained.

The Secretary reported the

Total receipts of the year	$973,21
Consisting of balance on hand	1.50
Members	68.00
Government	700.00
Secretary and Treasurer	66.00
Collection about	129.71
Total	973.21
The sums paid out amounted to	825.60
Leaving a balance on hand of	15,61
And premiums yet to pay	34.00

The secretary here explained that in reference to the $65 paid by him it was necessary to explain, and it might as well be done then. He found when reporting to the government that there were only $69 subscribed by members. This amount would get but a small apportionment, and in order to remedy that, he had put $5 to the $69, and represented this sum as paid into the society as it made no difference how paid, if paid.

By this means he was enabled to draw $700. Otherwise they would now be $135 in debt.

He said, he, of course, expected to be re-paid these $65.

It was then agreed to repay him this sum, and also, pay him $25 a year for his services.

Mr. Walton and one or to others, objected to getting money from the government in the way it had been done. Mr. Collins said that money was generally obtained by hook or by crook, and this was obtained by *hook*. The society had received the benefit.

A vote of thanks was then tendered to Mr. Walton, retiring president, and to Mr. Carnegie, Secretary.

Was It Right?

The Agricultural Society of the West Riding of this County, in 1870, consisted of 69 members who would, of course, pay into the society 69 dollars.

By Sub-section 1, Sec. 43, of the Act, "No grant shall be made unless one hundred dollars be first subscribed and paid to the Treasurer of the County Society, and to the Treasurers of the Township Societies within its limits." Sub-section No. 2, limits the entire grant to $700 in one year. And Section 46, limits the amount under $700 to three times the amount subscribed by members to the agricultural societies and returned paid before the 1st of June.

The Secretary of the West Riding reported, at the annual meeting "that he found that the sums actually paid would only draw about $408.61 from the Govt. instead of $700. To ensure the full amount of $700, he paid into the funds, (expecting to get it back) the sum of $65, and thus succeeded in drawing about $293.61, more than he otherwise would have done. Now, we simply ask was it right?

On Tuesday, (see report of meeting), the members voted the re-payment of the $65. These $65 never were intended to remain as part of the funds of the Society.

We ask the honest farmers who were present, and the members of the Society, are they satisfied to thus take, contrary to the Statute, this sum? Do they think it right to pay in do a blind, the sum of $65, in order to obtain between $200 and $300 more than should be obtained. We say $200 or $300 for the Secretary Treasurer represents $167,61 of a balance on hand, and said that but for what he had done they would be $136 in debt; these two sum $293.61, therefore must be the sum obtained, unjustly, shall we say?

Let us suppose a case:—That the Society can collect only $60. This would entitle it to nothing. Then suppose the Treasurer should place, temporarily, to the credit of the Society, (merely in the report) $133, this would enable him to draw $700. He could then repay himself and have for the Society $517. Would the members consider this right?

Surely our farmers are not so fond of money as to encourage any thing like that. Then suppose such Treasurer should make the following oath, which must be annexed to each report to the government:—

I. A. B., Treasurer of the County Agricultural Society of Peterborough, (as the case may be,) make oath and say that the sum of $97.83 has been reported to be by the Treasurers of the Township Agricultural Societies of the said County, under oath, as provided for in section 48 of the act relating thereto, as and for the members' subscriptions for this year, and that the sum $135.50 has been paid into my hands *as subscriptions* for this year, by members of the said County Society, and that the said sums amount in the whole to the sum of $233,33½, and that the moments received as subscription to the County Society now remain in my hands, or have been disposed of according to law Sworn before me, &c.

A. B.,
Treasurer

J. P.

And all this while it is intended to take back the amount paid in as a blind! Do the honest yeomanry of Ontario wish to obtain $300 by such means, or should their Sec. Treasurer wince in making such a report? We leave those things with themselves.

The Horticultural Society was last year deprived of its just share, $140, through the ill feeling of the Secretary of the County Agricultural Society. The act contemplates that it should receive three times the amount subscribed by members provided a proper report be made by June each year. This report was delayed a few days and the Secretary took advantage of this to withhold the proportion due to the Horticultural Society.

We would advise the Secretary this year to report in time, and if he *has not enough* members' subscriptions (received), he can pay over, under that head, enough to draw the $140. It makes no matter the Secretary of the County Society sail on Tuesday at the annual meeting, how the amount is obtained, if reported. Get money is the order of the day. Let the Horticultural Society try every means to get it. But let all remember that "He that is unjust in the least is unjust also in much."—See The Book.

THE WAR IN FRANCE

Jan. 19.—The *Pall Mall Gazette's* special says the bombardment was general on Saturday. The French accuse the Prussians of using petroleum shells.

London, Jan. 18, 4:30 p. m.—A despatch from Bordeaux says that in the fight at Gien, as the result of which the enemy were driven from that place, several Prussian officers were killed.

Gen. Chanzy announces the appearance of the enemy's columns in the vicinity of his forces on Sunday night, and that an engagement took place with their vanguard. The general has issued an order of day to the army of Loire, explanatory of the recent disaster, and calling for the display of their soldiery qualities in an effort for its reparation. He attributes the abandonment of Le Mans by the army, to an inexplicable panic among some of the troops, and to the loss of important positions which compromised the safety of the entire army, and the failure to execute certain orders given by himself. He says, nevertheless, that a supreme effort on the part of the army may yet save the country, and appeals in strong terms to the soldiers to rally to the support and fight with renewed vigor for liberty and the Republic.

Berlin, Jan. 17.—King William telegraphs to Queen Augusta on the 16th:—The number of the prisoners captured in and since the battles of Le Mans is fully 20,000. Four locomotives and four hundred waggons are among the spoils.

A despatch from Versailles says a German detachment was attacked at Briare on the 14th by a superior French force, but succeeded in cutting its way through the enemy's lines.

Advices from the Laval on the 16th state that the army of Gen Chanzy arrested in excellent order, and reached its new positions on the 14th. 50,000 French troops had left Cherbourg to reinforce Chanzy, and others were to be sent at once to the front.

A despatch from Versailles on the 16th, says that the details of the pursuit of Chanzy are coming to hand. On the 13th when ten miles west of Le Mans, the French were driven into a disorderly retreat, with the loss of the entire movement of 20 guns. Gen. Curlin was taken prisoner. The firing of a few shots; but the large of materiel of war recently there had been carried away by the retreating French. Beaumont was occupied without noticable resistance, and there 1,000 prisoners were taken.

Smith Council.

Smith, January 16th, 1871

The newly elected members of the Municipal council of the Township of Smith, viz: John Walton, Reeve, Michael Sanderson, Deputy Reeve; and George Fitzgerald, Andrew Montgomery and George Nelson, Councillors met; at the Town Hall, Bridgenorth, in conformity with the provisions of Statute.

After making and subscribing the declarations of qualification and office and depositing the same with the proper officer the Reeve took the chair.

The minutes of the last meeting was read and confirmed.

A by-law was passed appointing certain Township Officers and fixing their remuneration as follows:

Auditors, John Black and Lewis Davis, $4.00 each.

Assessors, Samuel McKibbin, $75.00.

Collector, Richard Waram, $80.

Inspector, Richard Waram, $20.

The Treasurer was directed to pay Mr. Romaine, the sum of $18.04; and the sum of $14 25 to Mr Stratton, for advertising, printing and stationery.

The Council then adjourned till Monday the 6th day of February, next, then to meet to appoint overseers of highways, pound keepers and fence viewers for the current years.

North Monaghan Council.

January 16th, 1871.

The Members elect met at 12 o'clock, when Henry Collins, Esq., Reeve, and councillors, Tully, Birney, Robson, and Bronscombe, severally made and subscribed to their declarations of office.

At the suggestion of the Reeve "the rules of the council" were read, and without amendment, adopted for the present year.

COLLECTORS ROLL.

The Resident Collectors Roll for 1870 showed $2036.56 as levied, of which the entire was collected save $4.00 on land whereon no property could be found, and two small sums amounting to $1.63 allowed as charities. This, we believe, is the closest collection ever made in the township. Mr. Haggart had his bonds returned.

BY-LAWS.

A by-law appointing James Edwards & Wm. Coulter, Esqs., auditors for the township accounts for the present year, received its several readings.

By-laws stating the remuneration to be given to the Deputy Registrar of the township for Registration of births, death and marriages. Limiting the number of taverns in the municipality, and naming the amount to be paid for certificates for licenses, &c., and for appointing township officers, were read a first time.

ORDERS ON THE TREASURER

The Reeve for $9.50 for insurance of Town Hall from 23rd day of November 1870, for three years. Arch'd Mooney, $12 to assist in hiring a team to convey his family to Cardiff where he has a farm on the Free Grant Settlement. William Griffin, for $5 and Mrs. Keefe $8.00.—Charities.

Fire at Lakefield

(*From Our Correspondent.*).

This evening about 4:30 p. m. a fire broke out in a building known as the Tannery and owned by Messrs. Smith & Boyd, and on their mill property. The part of the building was fitted up for a Grist Mill, and at present leased by Mr Reid, of Peterborough, who had about 60 bushels of wheat in the mill, but before the second floor could not be saved the other part of the mill was fitted up for a carding, weaving and fulling mill, and leased by Messrs Fisher and Martin who are also heavy losers in the shape of machinery, the fire originated in the roof of the carding mill, it is thought from defective stove-pipes. The machinery in the carding mill was almost totally destroyed. In the grist mill all the flour on the lower floor was saved, still the loss to both parties is heavy. I have not heard how much; no insurance, I believe. I this is not in time for press this week I will furnish all particulars by next week.

Lakefield January 17th, 1871.

Since writing the above, we learn that the loss is about $2,000; insurance $4,500.

Sad Accident In Leskard.

On Monday last a Mr. Lemerge, second miller in Mr. Caruth's mill, while engaged in the lower part thereof, observed a leather belt loosely around the base of a rapidly revolving shaft driven by a level wheel, which he picked up, and carlessly tightening it against the shaft he was instaneously drawn against and rapidly revolved around the shaft. The right arm was twisted off near the shoulder, and several ribs broken; his legs coming in contact with other parts of the machinery both thighs were broken and the ends of the bones were protruded through large lacerated wounds. He was released from this position by Mr. Henry, the lessee of the mill, in a speechless state. Having been removed to his home, Drs. Roswick, Herriman and Fielding were soon in attendance, and did all in their power for him; but pronced the injuries fatal, and left him after a few hours in a dying state.—The man emigrated from the Isle of Wight only last spring, and leaves a young widow to mourn his loss.

Prince Esterhazy has sold his picture gallery to the Hungarian government for $525,000.

In consequence of the strong recommendation of Earl Spencer, the Lord-Lieutenant of Ireland, Government have decided that the Irish Militia shall be called out for training next year.

H R H. Prince Arthur, Lieutenant Rifle Brigade, will leave duty at Woolwich, on the 20th inst., on leave of absence for three weeks, during which time he will remain with Her Majesty the Queen.

New Hampshire calculates that it has forty five marriageable women to the square mile, outside of towns and cities.

An egg a day for three hundred and sixty-five days in the achievements of a Vermonter when valued at ten dollars.

A young lady who has been practicing "Let me kiss him for his mother," says the more she tries it the better she likes it.

The Empress Eugenie held a New Year's reception to the French Exiles in England. Among the guests were the Duc de Fasigny the Marquis de la Valette and M. Rouger.

Talk two letters from money and there will be one left. We have heard of a fellow who took money from two letters and there was none left.

An Irishman being asked why he refused to pay a certain bill said—Sure, he didn't give me anything but some cheese, and no one would stop in my stummick, at all, at all.

The Lost Children.

Lines written some time since on the occasion of the loss of two children, in N. B.

On the cold rugged mountain side
With bleakness spreading far and wide
The little wanderers lay;
Crossed in affection's fond embrace
Which soon death would not efface
From the cold lifeless clay.

Ah! who can tell what doubts and fears,
What bitter unavailing tears,
Their sinking hearts invade!
While through the forest lone and dear,
Affrighted at each noise they hear,
Their weary footsteps strayed.

No shelter from the freezing storm,
And no fond mother's bosom warm
Their little heads to rest.
In vain all human aid implore,
Exhausted, sink to rise no more,
By death too sorely pressed.

Now hundreds gaze upon that scene,
With tearful eye and mournful mien,
And hearts with sorrow riven;
To see around the brow of death
Affection bind her holy wreath,
In blossoms meet for heaven.

All ye who bask in wealth, yet pine,
Your sinful murmurings all resign,
Nor check the rising tear;
Think on the tender babes who died
On the cold rugged mountain side,
With no kind parent near,

To soothe the grief, to pour the balm,
Their anxious troubled hearts to calm,
Nor watch the parting breath:
But speak with hunger, pain and care,
They each the same cold pillow share,
And sleeping, sink in death.

To the Editor of the Peterboro' Examiner.

DEAR SIR,—I see in the *Review* of Jan'y 6th, some remarks in regard to my course on the Railroad By-law, which require a reply.

In the first place I do not suppose that I should complain about the Editor of the *Review* Mr. Carnegie's attack on me for daring to exercise my right to think and act for myself, for it appears to me from its course in and through the *Review* for the last few weeks, that he believes that his particular duty in this world is to try and write down every man who dares presume to think and act contrary to his, (Mr. C's) enlightened views. But as I am not elected to consider Mr. Carnegie's interests, but the interests of the Township of Minden, I fail to see what difference it is to me whether Mr. Carnegie pays me his valuable compliments or not. Now in regard to the Railroad By law, Mr. Carnegie would like to make it appear that I am to a certain extent responsible for the By-law being laid over, and still he knows perfectly well that I could no nothing except in case of a tie. I never spoke on the question while it was before the Council, and I fail to see wherein I had anything to do with the vote of the County Council. Unless he is of the opinion that I have a number of the County Councillors under the same subjection as the Premier has his followers in the Local Legislature. I admit frankly that I raised no objections to submitting the By-law to the people, knowing it to be in part illegal; and I also frankly admit that when I saw the result of the voting in each municipality that the By-law was just as unjust as it was illegal and ought not to be ratified for I prefer to do without our road to the North, if we cannot get it without forcing the Townships of Monaghan, Smith Eamamore, Douro, Dummer, Belmont, Burleigh, Anstruther, Chandos and Cardiff to help pay for it and the Grand Junction, contrary to their wish just expressed. And had I known the views of the people of the County as well at the time of the submission of the By-law as I do now, I certainly would have opposed the submission of it, believing as I do after seeing the result of the vote, that the municipalities interested in the Grand Junction should give such bonuses as they see fit, and those interested in the P. & H. R. R. do likewise—the views of the man who has an eye to the $25,000 to the contrary notwithstanding. In regard to altering the wording of the By-law and putting back the voting one week, I would like Mr Carnegie to say whether after consultation with him, (as well as others) he did not advise what he now accuses me of doing. Mr. Carnegie says the objection I now raise to the By-law, I should have raised at the time the By-law was before the County Council, at its first reading and not afterwards, which doctrine I think bad and not at all suited for Mr. Carnegie (not according to his practice,) nor to myself. I think there is an old and true saying "that for a man to admit to day that he sees a thing in a different light than he did yesterday", goes to show that he had a head capable of learning something—and the only difference I see between Mr. Carnegie and myself is, that I am not as expert in jumping "Jim Crow," as he is, for it takes me some time to see my errors, but he can see a thing to be entirely unjust now, and in five minutes afterwards see it to be perfectly right and just, and vote accordingly, as he did on the famous 13th resolution of Mr. Blake. In regard to my reasons why I did not think the By-Law could have been got legalized. I did not suppose there was a man in the Local Legislature that would (by a round about way, as Mr. Carnegie proposes) have sanctioned the passing of an act to legalize an illegal By-law, which would force all the Townships in his county to pay a heavy tax for the next twenty years, while being directly opposed to their wish, just expressed. But I am inclined to believe that Mr Carnegie has much more interest in the $25,000 *and what he intends shall follow through the act he now has before the Legislature*, than he has for the interest of his constituents.

Mr. Carnegie finds fault and says we should not have submitted the By-law, if we did not intend to ratify it; to which I might say, why did he in his canvass say that he would vote for continuing Government aid to superior Educational Institutions, when he did not intend to vote for it? I frankly admit, Mr. Editor, that I think the Council was very remiss in their duty in submitting the By-law, until the matter had been more fully known and understood; and I also admit that we do not look close enough after those Railroad sharpers who infest our Council Chamber, and are so ready to threaten to compel us to do his or their bidding. In conclusion, Mr. Editor, I think I may safely say, (although not claiming to represent the views of the people in the north) that when the proper time comes, we in this part of this County will be prepared to grant such bonuses as will be equivalent to the benefits to be derived from Railway connection; and should the amount we can afford to give, in connection with what the Government purpose to give, not be sufficient to build the road, we will be prepared to do without it.

Yours very truly,

A. B. PECK.

Minden, Jan'y 17th, 1871.

London, Jan. 17.—Mr. Washburne communicated to Gen. Trochu a complaint from count Bismarck that the French had fired on a flag of truce. Gen. Trochu in reply says the fire was accidental, and cited similar accidents on the German side.

BIRTHS

SARNEY.—On the 12th inst., the wife of Mr. Chas. Sarney of a son.

FRASER.—On Monday, the 9th inst., the wife of Mr. Thomas Fraser, of a son.

MARRIED.

On the 3rd inst., by the Rev. Mr. Simpson, at the residence of the bride's father, Mr. George Alfred Johnston, of Norwood, to Miss Eliza Head, daughter of Henry Head, Esq., of Colborne.

On the 11th inst., by the Rev. W. C. Young, Mr. M. Nicoll, to Miss Elizabeth Ann Harper, all of Norwood.

DIED

At Peterboro, on Tuesday, 17th inst., Lewis Redmor, youngest son of Mr. Wm. Hodgen, aged 13 months and 21 days.

In Belleville, on Monday the 16th inst., with a blessed assurance of a glorious 'immortality', Phœbe Ann, the beloved wife of Mr. W. J. Smythe, aged 32 years.

TWO QUESTIONS EASILY ANSWERED.—Why should men wear beards? Because they are a great protection to throat and lungs, and add much to their personal appearance. Why should we use "Bryan's Pulmonic Wafers"—because when used for coughs, colds, ticklish in the throat, hoarseness, &c., they act like a charm. Ministers and Lawyers use them, physicians recommend them, and singers and public speakers say they are the very best medicine in existence for the cure of such complaints. Sold by all medicine dealers, at 25cts per box.

"Time tries all Things," and has proved that *Dr. Wistar's Balsam of Wild Cherry* is the remedy *par excellence* for the cure of coughs, colds, croup, whooping-cough bronchitis, asthma, phthisic, sore throat, and influenza. It cures coughs and colds *instanter!* It sooth the irritated parts; it heals the inflammation; and even consumption itself yields to its magic influence.

Loss of Appetite in Horses.

Horses lose their appetite from various causes, but most frequently by the approach of some disease, this circumstance ought not to be overlooked by those who own horses, but should be immediately to as by so doing the disease may be checked, and the life of the horse saved. To this which we are positive there is nothing equal to "Carley's Condition Powders and Arabian Heave Remedy;" it purifies the blood, correct all derangement of the digestive organs, and as a necessary consequence the appetite is restored, the skin becomes soft and shining appearance. Remember the name, and see that the signature to Hurd & Co is on each package—Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers.

ONE HUNDRED DOLLARS A WORD.

For every word in the following certificate found untrue, after writing to the parties named: and to the U. S. Consul, at Rio Janeiro, the sum of one hundred dollars will be paid.

Rio de Janeiro, Feb. 28th, 1866.

Messrs. Raymundo C. Leite & Bro:

Gentlemen:—While a son of my friend Mr. Francisco de Matos Pinreira [a large proprietor in the Ciidad de Campos] was staying at my house he was attacked with Intermittent fever. Immediately I sent for the very clever Dr. Tosoco, who as thought a good deal of in Campos, but the fever instead of diminishing, turned, continued, and typhoid, the boy (14 years old) could not speak, would not take the broths, and it required a great deal of cousin, to make him swallow the medicines. Dr. Tosoco declared that there was not the slightest hopes of saving the boy's life; that it would be advisable to write to his father and inform him of the state of his son's health. At that moment I thought of the well spoken Dr. Radway & Co's medicaments, and applied them in the following manner: One teaspoon of Relief in a tumbler of water, dividing it three doses a day; frictions with the relief pure on the chest, back and wrists; three of Radway's Pills every day, and well covered so that he might perspire. Second day, half an hour after meals, one dessert-spoon of Resolvent and water. In the fourth day he was able to get up from bed to the astonishment of every one who witnessed the success of Mr. Radway & Co's medicaments.

I remain, gentlemen, yours very obedient servant

Joaquim Pinto Filcao, Merchant.

Dr Raday's Remedies are sold by Druggists and County Merchants. See Dr. Radway's Almanac for 1870.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier, alternative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phathsis or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, Diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, by lues, sprains, chilblains, cholera morbus, bilious colic, cholera infantum, dysentery, &c.

Price only twenty-five cents per bottle.

NORTHROP & LYMAN.

Dated this 10th day of January, 1871.

D. W. DUMBLE.
Assignee of the estate of the said William Coulter.

DR. A. TRASK'S

MAGNETIC OINTMENT!

CURES CROUP OR RATTLES.

Dr. Dingham, of Utica, New York, says:—"I have used Dr. A. Trask's Magnetic Ointment in my practice a number of years, and can say with pleasure I deem it one of the greatest discoveries of the age for the cure of Inflammation of the Lungs, Inflammation of the Bowels, Inflammatory Rheumatism, and in Child Bed Fever, it operates with perfect success. In cases of Burns, Bruises, Frozen Limbs, it acts."

Dr J. P. Kennedy, of Chittenango, N. Y., says:—"It has stood the *test test* and has not been found wanting. Its astonishing cures of Inflammation of the Lungs and Croup, and the wonderful success in subduing the torturing pains of Rheumatism, and relieving Nervous Affections, entitle it to a high rank in the list of Remedies for these complaints."

Dr A. V. Belding, of Knowlesville, N. Y., says:—"I have used it in several cases of Specific Irritation, and for the worst cases of Piles, and sundry other complaints, and find it a superior article, and well worthy the attention of all."

Purchasers should be sure and ask for Dr. A. Trask's Magnetic Ointment, and see that the words "A Trask's Magnet Ointment" are on the wrapper.

NORTHROP & LYMAN,
Newcastle, Ontario, General Agents for the Canadas.

CHANCERY.

NOTICE TO CREDITORS.

Pursuant to an order of the Court of Chancery made in the matter of the estate of Gideon Campbell, deceased, and in a suit

Campbell against Campbell.

The creditors of Gideon Campbell, late of the Township of Douro, in the County of Peterborough, who died on or about the month of June 1870, are, on or before the

21st DAY OF JANUARY, 1871,

to send by post, prepaid to Frederick Bonnar, one of the Town of Peterborough, the solicitor of the defendants, Robert E. Denny Peterson and James Campbell, the solicitors of the said, their Christian and Surnames, addresses and descriptions, the full particulars of their claims, a statement of their accounts, and the nature of the securities (if any) held by them, or in default thereof they will be peremptorily excluded from the benefit of the said order.

Every Creditor holding any security is to produce the same before me, at my Chambers, at the Court House, in the Town of Peterboro, on the

4th DAY OF FEBRUARY, 1871,

at ten o'clock in the forenoon, being the time appointed for adjudication on the claims.

Dated this 14th day of December, 1870.

W. B. WILLER.

DENNISTOUN, FAIRBAIRN & CASSELS,
Solrs. Plaintiffs Solicitors.

FOR HORSES AND CATTLE.

A NEVER-FAILING REMEDY.

THIS valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient properties for the cure of Fresh Wounds, Sprains, Bruises, Galls of all kinds, Cracked Heels, Ring Bone, Spavin, Callus, Fistula, Sweeney, External Poisons, Scratches or Grease, Strains, Lameness, Mange, Whitlows, Corns, Sand Cracks, Founder of Feet, Foul Distemper, Swellings, and many other diseases which horses and cattle are subject to.

This celebrated Liniment has been used for many years and its curative properties thoroughly tested, and it is conceded to be the cheapest and most reliable remedy for all external complaints ever offered to the public—it never fails when timely used and faithfully applied.

To be had of all Druggists and Country Merchants throughout the Dominion. Price 25c. per bottle.

CONCERTINAS AND VIOLINS,

A very large assortment. The attention of the Musical Public is solicited to the fact that they can procure the best PIANOS and MELODEONS without going outside of Peterboro.

A. B. KIDD is Agent for

THE CELEBRATED BRADBURY PIANO.

The successful rival of the Steinway, &c. He is also Agent for

W. BELL & CO'S PRIZE MELODEONS,

The Melodeons that carried off the prizes at the Provincial Exhibition. ☞ Both Pianos and Melodeons kept on hand.

PIANOS AND MELODEONS!

THE BRADBURY PIANO,

Which has met with triumphant success, and has successfully competed with the best Pianos in the world, and has received the highest testimonials from Gottschalk, Satori, Sanderson, Pattison, Berge, Zundell, Heller, Fraget and others,

IS SOLD IN PETERBOROUGH BY A. B. KIDD.

He also sells the WEBER PIANO, which, to those who wish a cheap instrument, is one of the best in any of its class.

W. Bell & Co's Melodeons are supplied by A. B. Kidd.

These instruments received First Prizes at the Ontario Provincial Exhibitions for 1868 and 1869; also at the Quebec Provincial Exhibition held in Montreal, September, 1870. At the Ontario Provincial Exhibition held in Toronto, October, 1870 W. BELL & Co. received the First Prize and Diploma for the best Harmonium or Large Cabinet Organ, and the First Prize for the best Melodeon. It is universally acknowledged that in the manufacture of Melodeons W. BELL & Co. excel all other Canadian makers, having taken the First Prize or Melodeons at the last three Provincial Exhibitions. As to Organs or Harmoniums it must be remembered that The Diploma just received by W. Bell & Co. is the only one awarded during the last seven years at any Provincial Exhibition. ☞ All instruments warranted for five years, and satisfaction guaranteed.

PAPER BAGS AND WRAPPING PAPERS

Are supplied by A. B. KIDD at Montreal Prices.

Dealers will find it to their advantage to give this establishment a call, as I have made arrangements with one of the largest firms in the Dominion, which enables him to supply Paper and Bags at Wholesale Prices.

Peterboro, November 15, 1870. 46-tf

Select Poetry.

Welcome to H. R. H. the Princess Louis.

Air—"Think ye hae long leezie."

You're welcome, fair lassie, tae the Highlands ane braw;
Frae the North ocher tae the Sea o' Lochaw,
The Campbells, the Sco o cess, M'Donalds an' a',
Will welcome ye hame o' the Argyll's princely ha'
For each gallant clanfaten will muster his clan,
Your ain Highland laddie the first in the van;
Still under the tartan are hee to leal and true,
And the best o' them beats, royal maiden, for you.

Your welcome, &c.

Your mither aye trusted the sons of the Gael,
They're dour an' they're loyal an' their love will not fail,
Their honor is bright, like the flash of their steel;
They have strength to fight and they have warm hearts to feel.
Then welcome, thrice welcome, fair lady, to Lorne!
May your life be as bright as a fair simmer morn
May fortune attend ye, wherever ye be,
When ye come to the land o' the free

D. Have ourselves, Oban Times

Some Poetic Conundrums.

Who was the tallest poet? Lee-shelow.

Who realized the value of words? Wordsworth.

Who was the most warlike poet? Shakespear.

Who worked in precious metals? Goldsmith.

Who was permitted to unlock the muses' territory? Key.

Who was rich in minerals? Coleridge.

What poet supposed he was infallible? Pope.

What poet was a great sufferer? Paine.

Who was a musical poet? Campbell.

What poet was not a "goose?" Drake.

What poet never was a "blue?" Greene.

What poet was troubled with Milliner's bile? Hood.

What poet is well acquainted with the latest fashions for men's wear? Taylor.

What poet was not a colored man? White.

All About Girls Names.

If you are a very precise man and wish to be certain of what you get never marry a girl named Ann; for we have the authority of Lindly, Murry, and others, that "Ann is an indefinite article."

If you like to have a wife who is one of a thousand, you should marry an Emily or an Esmo for any painter can tell you that "ems," are count'd by the thousands.

If you do not wish to have a bustling, trashout wife, you should not marry a Jenny for every cotton spinner knows that jennies are always turning.

If you have a wife named Cordelia, you should never drop any old acquaintances; for he who has the deal never cuts.

The most incessant writer in the world, is he who is always bound to Ad-a-line.

You may adore your wife, but you will be surpassed in love when your wifes a Dora.

Unless you would have the evil one for a father-in-law, you should not marry a lady named Elizabeth; for the devil is the father of Lies—(lies.)

If you wish to succeed in life, as a porter, you should marry a Caroline and treat her very kindly; for so long as you continue to do this, you will be good to Carry.

Many men of high moral principle, and who would not Gamble for the world, still have not refused to take a Bet.

A Curious Sentence.

The following sentence, 'Mater arepo teret opera rotae,' is not first-class Latin, but may be freely translated: 'I cease from my work: the mower will wear his wheels.' It is, in fact, something like nonsense verse, but as the peculiarities: 1. It spells backward and forwards the same. 2. The first letter in each word spells the first word. 3 All the second letters of each word spell the second word. 4. All the third letters spell the third word, and so on through the fourth and fifth. 5 The reverse process, commencing with the last letter of each word, spells the first word. 6. Then the next to the last word and so on through. The fact that somebody must have wasted in the construction of this curiosity infinitely more time and labor than it is worth, does not make it any the less remarkable.

Examination of Attorneys.

The following racy examination of a candidate for admission to the bar is taken from the Western Law journal, and is decidedly a good hit:

The examination commenced with

'Do you smoke sir?'

'I do, sir.'

'Have you a spare cigar?'

'Yes, sir.' (extending a short six.)

'Now, sir, what is the first duty of a lawyer?'

'To collect fees.'

'Right. What is the second?'

'To increase the number of his clients.'

'What is the position towards your client?'

'When making out a bill of cost.'

'Explain.'

'We then copy the antagonistic position—I assume the plaintiff and he becomes defendant.'

'A suit decided, how do you stand with the lawyer conducting the other bill?'

'Cheek by jowel.'

'Enough, sir, you promise to become an ornament to your profession, and I wish you success. Now, are you aware of the duty you owe me?'

'Perfectly.'

'Describe it.'

'It is to invite you to drink.'

'But suppose I decline?'

(Candidate, scratching his head.)

'There is no instance of the kind on record in the books. I cannot answer the question.'

'You are right; and the confidence with which you make the assertion shows that you have read law attentively. Let's take a drink, and I will sign your certificate.'

Wild cats are so thick in Alabama, that ours come home streaked like a pane of stained glass.

The Kentucky supreme court has decided that a man may be killed with impunity or other valuable means.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, but was ever any believed so universally adapted to the case, in every community and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that when it does cure it does always—that it never fails through any fault or neglect of its compositions. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Dissiness or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhœa, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

As occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy *for pulmonary complaints*. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector *against them*. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of *cases* where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Iron, nor any other mineral or poisonous substance whatever, it is purely inocuous nor patient. The sufferer may feel unacquainted with its power in the agu dists, are literally beyond account, and we believe Ptient a parallel in the history of Ague medicine, or noble is so well sed by the permanent cures of the radical cures effected in obstinate ses, and where other remedies had wholly failed. Unacclimated persons, either resident in, or visiting promptly miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is a excellent remedy, producing many truly remarkable cures, where other medicines had failed. Prepared by Dr. J. C. AYER & Co., Practical & Analytical Chemists, Lowell, Mass., and sold around the world.

T. W. DAVIS.

June 30, 1870. 24-1y

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
Liver, Kidneys, Skin,
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS,
Perfectly Tasteless,
ELEGANTLY COATED.

Dr. Radway has completed one of the most extraordinary discoveries in medical chemistry in the combination of vegetable substances, for the purpose of a PURGATIVE APERIENT, COUNTER-IRRITANT ALTERATIVE PILL that can be taken with safety in connection with the absolute certainty of producing THOROUGH EVACUATION OF ALL DECAYED AND DECOMPOSING Elements of the Bodily Body, and are safe to take as the most innocent of the vegetable substances of which they are composed. In cases where the gastric secretions of the internal viscera are suffering from Catarrhal Inflammation, as from

LIVER,
Gastric, Biliary, Pancreatic Complaints,
DR. RADWAY'S PILLS
supply the only Vegetable substitute for
CALOMEL or MERCURY.

In RADWAY'S PILLS you have one medicine that will remove quicker more thorough and better results than will be given in from three or more divisions prescriptions of the medical practitioner As a proof of this: You are seized with a Bilious attack! Doctor prescribes Blue Pills or Calomel and some Drastic Aloine Pill or Powders to work off the effects of the Blue Pill. This penetrates your soul a long as next given, or a cruise upon the Ocean. *OUR BOOK OF* RADWAY'S PILLS will do all the work that the three or more prescriptions are given for, without running any risk from mercurializing or entirely ruining the system.

RADWAY'S PILLS.

In RADWAY'S PILLS *the true principle of* purgation is secured—not alone to the effect of thoroughly the faeces and excrements from the bowels but those humors that are elsewhere stopped in their passage through the *Skin, Kidneys, Liver, and all* excreting and secreting functions; for in these excrementious and other corruptions according to the skin, liver, lungs, kidneys are interrupted in their escape they become products of decay and decomposition and must be passed from the living body through the proper channels: hence the purgative quality of RADWAY'S PILLS—attend to the requirements of the SKIN, KIDNEYS, LIVER, &c.; whereas not one of the advertised Pills claims to act beyond the bowels

How to Take Radway's Pills.
THEIR DAILY USE.

In doses of one or two pills by all persons of a full habit of body, subject to giddiness, rush of blood to the head palpitation of the heart, and all those subject to fits will not only keep the blood from becoming congested or clogged up in the blood vessels but will equalize its circulation, and prevent sudden attacks of apoplexy, diseases of the heart, consumption. Persons who will take one of these pills every day will not suffer from *Sick Nausea, Dizziness, Dyspepsia, Indigestion, Sick Pills, Pain, Nausea, Sleepless Nights, Vomiting, Sick Headache, Pain in the Stomach, Fever, Inflammation, Piles, Pain in the Kidneys, and a hundred other disagreeable symptoms*

DYSPEPSIA.

One of RADWAY'S PILLS two or three hours before dinner taken daily will keep the system free from DYSPEPSIA INDIGESTION CONSTIPATION, COSTIVENESS, &c.

Bear in Mind,

RADWAY'S PILLS are the only purgative that will restore an alterative, diuretic, deobstruent and tonic influence.

They are the only vegetable substitutes for Calomel or Mercury

They are elegantly Coated with Gum, perfectly Tasteless, and free from Smell.

SARSAPARILLIAN RESOLVENT.
POISONED BLOOD.

When the blood becomes poisoned by the presence of an excess of BILE, UREA, CARBONIC ACID, and the excrementious excretions of the SKIN—SORES, PIMPLES, BLOTCHES, SPOTS, ULCERS, and HUMORS of all kinds break out on the surface.

RADWAY'S READY RELIEF

is the best, cheapest, and safest remedy that can be used for Fever and Ague, Bilious and other Fevers.

NOT ONE

person need suffer, be they ever so much exposed to Fever and Ague, if they will only take Radway's Ready Relief, and keep their *bowels open with Radway's Pills*. Hundreds in the West, who have hitherto been doctoring at the rate of one and two *hundred dollars for a few months' treatment*, are keeping themselves and families free from Fever and Ague, Chills and Fevers, Rheumatism, &c., for one or two dollars a year, spent for Radway's Ready Relief and Radway's Pills (central).

The Ready Relief will afford *instant ease to all*. Price only 25 cents per bottle.

N B—Be sure that every bottle has an India Rubber Stopper. Sold at all Druggists, and at Dr. Radway's Offices, No 87 Maiden Lane, New York, and 68 St. Paul Street, Montreal, Canada.

SARSAPARILLIAN RESOLVENT.
NEW PRINCIPLES OF CURE

Of all Wasting Scrofulous, and Eruptive Diseases of the Eyes Nose Mouth, Throat, Ears, Heart, LUNGS, Kidneys, Bladder.

THE SKIN MADE PURE, CLEAR, SMOOTH, AND BEAUTIFUL.

Dr. Radway's Sarsaparillian Resolvent establishes a new principle of Cure of all Chronic diseases, and proves to the medical world that Consumption and other scrofulous diseases are curable This fact has been demonstrated in over

One Hundred Cases of Confirmed Consumption,

where no lung is now seen to exist, cases was destroyed and diseased matter is gone.

IN CASES OF SUSPECTED CONSUMPTION

Dr. Radway's Sarsaparillian Resolvent, published to the world a new remedy, the Blood is the several stages of its formation, discovering to every stage, that wasting tubercle-bone matter existed in the Lungs and other organs, as in the known, Liver, Spleen Blood vessels, &c. In every case of Pulmonary Consumption or Tubercle, we find Blood in the weak pale watery, and in the midst of such environments as fibrin, Albumen, Phosphorus, and the rich red coloring matter of the Blood Corpuscles. In the above cases of consumption the Blood the Blood is exhausted of its strength and red corpuscle and whenever there is certain amount it supports Disease and consumption it has not the power to hold in solution its natural constituents and Ulcers, cases Tumors Cancers and Virulent Humors are formed the presence of which causes inflammation gathering, and consequent suppuration.

The reason of the true cause of the formation of Tubercles was not known. Dr. Radway was the first to announce his theory of the cause of Consumption, and to combat diseases and prepared the Radway's Sarsaparillian Resolvent to supply the Blood with such constituents it was deficient of, in these conditions of system, and to give it the nourishment and strength to hold its natural constituents in solution. Dr. Radway's theory was published in England France Germany and America, and was seized upon by the scientific men of both hemispheres. From his text medical books have been since published by medical writers, claiming to have discovered the cause of Consumption but have *failed* to produce the remedy to cure. Dr Radway was the first to advance this theory, and the first and only discoverer of a medicine *that will cure*. In fact to say a *Sarsaparillian Resolvent* to expel the public have a remedial agent that will cure Consumption and all diseases of the Lungs, Blood, Glandular Secretory, Bloody, Watery, Tubercle, Glandular, and Urinary Organs.

In all Wasting Discharges, such as Involuntary Loss of Sperm, Emissions, Weakness of the Genital Glands, Leucorrhea, and all Uterine difficulties Gravel, Lime Stone, Brick Dust Uric Acid, and Calculous Concretions, the Sarsaparillian Resolvent is a positive cure. In Propy, Diabetes, Impaired Venereal, Syphilis in its many forms, it cures when all other methods fail

EVERY DAY

an increase of flesh weight, and strength is experienced. It is Fat-tissue Caloric or Heat-making. It is to the blood what oxygen is to the atmospheric air it supplies the life principle. It *per* Day removes from the surface all spots Blemishes, Pustules Tetters, Rash, Flesh Worms, Sores, &c., imparting a transparent Beautiful Complexion to all.

CERTIFICATE OF BEAUTY.

The following letter is from a highly-gifted lady well known in the "circles of our best society."

[LADY'S NAME.] Jersey City, [blank]

I had not much confidence in your SARSAPARILLIAN RESOLVENT. Having been disfigured for the last four months with BLOTCHES and PIMPLES, I resolved, as all agents, to try it, and took TWO TEASPOONFULS three times a day, as directed. It is not quite ONE MONTH since I commenced taking it, and, Today there is not a BLOTCH, spot, blemish, or discoloration of any kind on my pure skin.

SARAH B. TRIMMING.

Jersey City P.O.

Price $1 per Bottle. 6 Bottles $5.

Dr. RADWAY'S Remedies are sold by Druggists and General Storekeepers Principal Office, 68 St. Paul Street, Montreal.

Hamilton, Ontario.
MANUFACTURERS OF THE CELEBRATED
LOCKMAN SEWING MACHINE,

Take pleasure in announcing that the popularity of the Sewing Machine manufactured by them is still on the increase. They are now turning them out at the rate of 600 per month and yet have been compelled within the last two weeks to increase their facilities to a capacity of one thousand per month.

The Lockman Machine, from its capacity to sew the heaviest fabrics with linen thread, as well as the finest cambrics with No. 150 Cotton, is pre-eminently the Farmer's Favorite and Family Friend.

It is so exceedingly simple in its parts and so strongly and durably made, that it does not require a mechanical genius for its management.

The manufacturers challenge the world to produce its equal, and set its price is from Forty to Fifty per cent. Lower than that of any other first-class Shuttle Lock-stitch Sewing Machine

HUMBUG EXPOSED.

THE Subscriber begs to inform his customers and the public generally, particularly those intending to buy Furs, NOT TO RETAIN their orders, as there never was a better chance to select Furs than at my store. The stock consists of my own manufacture, and of nothing but the real article. I have none, nor ever had any of the so called German Mink, French Seal, Sea Otter, British Sable, and numerous other high sounding, fictitious names, by which trashy imported articles are disposed of at fabulous prices. Is it not also true that Russian and Western Mink, being colored, is disposed of as Canada Mink? Goods made up for wholesale trade are of inferior quality.

Whether my own manufacture compares favorably with city manufactures, the following will show for itself. It was my own workmanship which secured to Mr. McIver, of Montreal, the First Prize for a set of Ladies' Furs, at the exhibition in 1868, held in the Grand Trunk Sheds at Montreal, against the following competitors:—Messrs Greene & Sons, Brabazh, Henderson, Brown, and several others, Mr. F. W. Lessack, of New York, being one of the Judges for Furs. The same Lady's set was sold to a Baltimore lady for the handsome sum of nearly $400 I believe myself capable of doing now, as I did then.

An Examination of my Stock is solicited.

The Highest Price Paid for RAW FURS.

W. LECH.

Peterboro, October 19, 1870. 42-17in

Choice Poetry.

The Winter of Life.

The snow of winter gently falls
And whitens o'er the ground;
Thus, with the snowy wreaths of time
The brow of age is bound.

It never melts, but slowly falls,
Silent and scarcely seen:
Until the beads of those we love
Glitter with silvery sheen.

Time never heeds the pain or grief
Which human nature feels;
No backward movement ever makes,
But onward rolls its wheels.

Regardless of the bitter wail,
Of hearts by anguish driven:
The song of youth, the plaints of age,
Unheeded, rise to heaven.

Oh, could we find the fabled spring
Which would our youth restore;
Or gaze, like travellers outward bound,
On the receding shore.

But all in vain—the boundless wave
Still bears us from the strand;
The mystic water's power is naught
But a tale of fairy land.

Better to bear with cheerful heart
The change that time may bring;
And garner treasure for old age,
Than sigh for endless Spring.

Treasures of faith, and hope and love.
Freely to mortals given;
Death will restore your youthful bloom,
Therein no old age in heaven.

Selections.

A NICE SERVANT.

PERILS OF A YOUNG HOUSEKEEPER.

Mr. George Augustus Sala, relates in *Belgravia* the story of a young housekeeper in search of a good servant.—After many unpleasant experiences, the lady whose name was Houselamb, engaged a certain Ellen Catt, with the following results:—

It happened when she had been with us seven months—we never kept a servant so long before—that Mr. Houselamb being away to Paris on business, I went visiting a good deal, always leaving Our Nice Servant, in whom I had the most implict trust and confidence, at home. It was Sunday, and I was dining with the Grisby's (Mrs. Grisby is a charming woman, but nothing to look at, and has an absurd idea that she can write poetry). It was just as I was sitting down to dinner that I discovered—I had rather hurried myself in dressing that morning—that I had left my gold watch and chain on my toilet table at home.

They were very handsome trinkets and had been presented to me, not a fortnight ago, by Mr. Houselamb, who was just beginning to get along in the world. I felt rather nervous at this discovery, and told the Grisbys of it, adding, however, that I ought not to trouble my mind about it, seeing that we had such a very nice servant. Mrs. Grisby, who was always full of her poetry nonsense, began to lisp out something about having "saith in one another;" but Mr. Grisby, a thorough man of business, shook his head, and asked where our nice servant came from. I said the workhouse. He shook his head again, and remarked that paupers were a bad lot. I remembered the words of the matron to be of the same effect; but still I shrank from doubting the honesty of Ellen Catt.

Things passed on and, but I was very nervous all the afternoon. It was half-past nine o'clock when I reached home. I let myself in with my latch key—it had once been Mr. Houselamb's but I had taken it away from him, and never let him have it again after that shocking affair of his deserting his house and home for the Garricks Head. Passing softly into the hall I heard the voice of somebody in the kitchen singing. The voice was so deep that at first it sounded like a man's and my mind at once jumped at the suspicion of followers; but on listening a little longer I was convinced that it was our nice servant. It was Sunday evening; but O dear me! It was no hymn that Ellen Catt was singing. So far as I can recollect, the words of her frightful song ran thus:—

"My flash man's in quad
And I'm the woman that's willin':
So I'd muzzle a bloke to-night,
And draw him of every shillin'."

Chorus: (she sang this almost in a yell,)

"Toural, loural, loo!
What are wealth's possessions!
Bless the cove we love
And blow the Middlesex Sessions!"

I crept down stairs more dead than alive, entered the kitchen, and this was the sight I saw. The candle was glittering down into the socket, and in front of the fire, with her feet on the fender, sat Our Nice Servant. There was a pewter pot, containing something, upon the table, also a black bottle; and—I shudder as I write the words—when Our Nice Servant had finished a verse of her song, she took a short black pipe of the table and began to puff at it.

"Ellen Catt!" I began, reproachfully.

"Ellen Catt!" she repeated with a long bitter laugh.

"Don't you Ellen Catt me, Missis; I'm Tiger Bett—ask in Blue Anchor Fields if I ain't. I've broke out, I have. Sit down there and I'll make your flesh creep."

The wretched woman was evidently tipsy, but she made no violent gestures, merely swaying her head from side to side, and now and then slaping her hands on one or the other of her knees. I thought I might get her to bed quietly if I humored her a little; so I sat down in a chair by the fire, and asked her if she was ill.

"Ill," she replied, "I'm jolly well, I am, I'm all there, missis. I went to the Load of Hay this evening, and I met some pals, and they had me to rights.—And I topped off with a deep thinker.—Do you know what a deep thinker is?"

I confessed, feeling quite sick at heart that I did not.

"O, you young innocence," went on Our Nice Servant. "Rum and old ale, and a red hot poker in it—that's a deep thinker. You, poor woman, you don't know nothing. You're a baby! Do you know who I am—what I am?

"Non-no Ellen," I murmured.

"I'm bad," she continued, "as bad as can be. They don't make them worse than me. I gammoned the work-house coves. I was put in there as a stall, and to be kept out of the way that I shouldn't go up and give hevidonce against Jem."

My flesh really crept at those dreadful words.

"He only got three months on the stepper," she went on, "and now he's out, and says he'll do me mischief. That's what upsets me. That's why I broke out. That's why I've had a deep thinker."

I thought deeply myself that she had a good many deep thinkers that evening for she was quite intoxicated.

"Now look you here!" she said suddenly turning her face towards mine; "you ain't lost nothin' since I've been here."

"I certainly have not, Ellen," I replied, turning away my face, however, in some terror.

"Right you are!" she returned, giving one knee a sounding slap, "and you won't while I'm here, which won't be long. Don't be frightened you Chickabidy, I won't do you no harm, I might a done it over and over again if I'd liked. Over and over again has the kiddies been at me to leave a window open, or a door unfastened, to crack this crib."

My blood ran cold: for somehow, I had an idea that "cracking a crib" meant house-breaking.

"But I wouldn't," Our Servant pursued; "I wouldn't—no; not for the Bank of England. You stick by me, and I'll stick by you. But its time the gaff was blown. Don't you go getting such another bad bargain as me. Look here you innocent!"

As she spoke she rapidly untwisted her back hair, flung off her cap, bent down her head, and showed me, at the back of her scalp, a great deep white furrow.

"A black cook did that," she said, 'with a chopper. I'd aggerwated him in consequence of his wool. He was from New Orleans, and the Judge he gave him seven years penal. Look here," she resumed, baring her throat and showing a long livid mark low down on her breast. That was my Tom. He's broke three of my ribs, too. He's broke my jaw. I ain't got a sound tooth in my head. Look here," and she bared her right arm to the shoulder, and showed it to me all covered with scars.—"That's foreign sailors with their knives. Look here—"

How far she might have continued hith the exhibition of her wounds I don't know; but at this point she fell forward into the fender insensible.

There was nothing the matter with her but too many Deep Thinkers. I put her to bed as well as I could, and sat by her side all night trembling. She slept very soundly, and about seven o'clock in the morning, and in a very quiet and respectful tone, begged me to go down stairs and get some rest myself. She added that I had been a very kind mistress to her; but that she knew she had disbehaved herself, and that she must go.

This strange woman exercised so strong a fascination over me that I was debating in my mind whether it wouldn't be as well to look over that scene in the kitchen allow her to resume her duties as Our Nice Servant; when about ten o'clock in the morning she came to me.

'There's a cab at the door,' she said 'and my traps are in it. Give me my wages and let me stop it. What's bred in the bone will come out in the flesh, and I was bred to willany. If I was to stop I should have a Deep Thinker too many some night and rob and murder the whole bilin' of you. I ain't got nothin' to say agin you; but a happy home's not my line, and I'm goin' to take my Hook.'

She took her book; that is to say, she went away in the cab with the trunk, and from that day to this I never saw any more of her. But of all the servants I have since had—nursemaids at sixteen, and cooks at two-and-twenty pounds a year—I have found one, who for industry, neatness, willingness, honesty and fidelity, could compare with Our Nice Servant.

A Living Hell in Sugar.

Last night we saw the hidden wonders of raw sugar as they were revealed to us by a microscope of uncommon power and great detective ability, which will forever set us against all sweetness in that form with an intensity of horror such as no man can conceive who has not been behind the scenes. We saw the living hell in it however, in less than a quarter of an ounce of raw sugar. There were myriads, apparently, of horrible insects, large as beetles, having the appearance of crabs. Four dreadful legs, with clawpinches at the end of them, jointed in four parts as with armor, and bristling with sharp pointed spears, were, in front of the monster, and his head was of a long pyrimidal form in two joints, with finger tips at the terminus where the mouth ought to have been. The body was oval-shaped, and marked almost exactly like that of a crab, only upon the rims of an inner circle, upon the back, there were twelve more of those long sharp spears, with two at the tail, and four snake like tentacula exceedingly fine in articulation, and no doubt intended like puss' whiskers, to be feelers, to warn the hinder and contiguous parts of danger.

The reverse side showed the ugliness of the beast even more than the obverse; but it also showed mechanical genius in the make of it.

Each limb was paddled by a mass of muscle at the base, (visible thro' a case of transparent armor) which gave the immense relative power.

Talk about lively beasts, and lively they were. Eager, restless ravenous, always falling foul of each other or attacking great joints of sugar, as large in reality, as a mathematical point. With the pincers attached to the end of each proboscis they caught hold of one another, and tore one another, repeating in their small way the enormous tragedies of Tennyson's primal monsters.

The way these marvels came to light was this.

A spoonful of raw, coarse sugar was dissolved in about three times the quantity of water, when, as with a conjurer's rod the animalculæ sprang to the surface, and floated there, swimming about, and up and down, like the beasts that wriggle in soft water tabs, and finally turn into flies resembling mosquitoes, but harmless.—These sugar animalcules, or *acarus sacchari*, as the scientibbmen call them, were then gathered up in a spoon, and placed under a glass magnifying about 300 times. They could be seen, however, with the naked eye, to begin with, but not in their entire hideousness until the object glass brought it out. It has been proved that in every pound of *unrefined* raw sugar there are 100,000 of these acari. In fifteen grains' weight, Dr. Hasfel, of London, found 100 of the insects; and Dr. Barker, 1,400 forty five grain's weight, or 268,800 in a pound.

Worse still, as a matter of esthetics, this is the very same insect that broke into the skin of its victims in Scotch beds, and treats to a taste of the 'Scotch fiddle,' *alias* the itch.—*N. Y. Sun.*

HE THOUGHT HE KNEW HER.—Old Judge B——, of New Hampshire, was what Artemus Ward would have called a "sociable cuss" of the bench, and was noted for claiming acquaintance with any one whose appearance happened to please him. Entering a car on the Boston and Maine railroad one day, his honor found the only unoccupied seat to be by the side of a smartly dressed young woman. Ascertaining that the seat was not then engaged, the Judge comfortably seated himself in it, and turned with his accustomed bland, fatherly smile to his fair companion, and said—"Your face seems familiar to me, my dear; I think I must know you."

"I should think you might," said the unknown, in a hoarse, husky, contralto voice, turning a vindictive pair of eyes on the astonished judge. "I should think you might; you sent me to the House of Correction three months last winter, you infernal old scoundrel!" The Judge did not press the acquaintance any further in that quarter.

A THOUGHTFUL BOY.—The Albany Evening Journal publishes the following item and remarks thereon:—"A precious youth of Altoona, Penn., having surreptitiously obtained a package of powder and a cigar-stump, the other evening soon realized the fact that the way of transgressor was hard. While smoking the cigar-stump, he saw his mother coming toward him, and at once slid the cigar into the pocket containing the powder. His hand, the cigar, and the powder got out of that pocket "quicker'n thought,' and the youthful hero is now 'bottled up' for a few days rest at home." This Altoona boy was thoughtful beyond his years. Realizing that he had no right to be smoking, he provided the means to blow himself up, and thus saved his mother that trouble. How few children are thus careful to keep unnecessary care from their parents. And when we remember how much anxiety in the tender years of infancy, etc., etc.

NOTICE has been given in the *Canada Gazette* that application will be made at the next session of the Dominion Parliament for Acts incorporating companies that intend to extend the Canadian railway system to Manitoba, and across the continent. One charter is for a railway proposed to run from Pembina by way of Fort Garry to Lake Winnipeg, or some place on the Saskatchewan near its mouth. The same company will ask for power to improve the navigation of the Saskatchewan. The other project is the Dominion Pacific Railway, from some point on Lake Superior across the "fertile belt" to British Columbia. It is likewise intended to improve the navigation of Rainy Lake and Lake of the Woods, and other waters in that line.

A NEW weapon on the model of the mitrailleuse is to be adopted in the British Army, as the War Department has ordered sixty batteries of Gattling guns of the smaller kind to be manufactured for distribution among the infantry regiments or to special corps. The destructive power, of this weapon is very great for, though it has a bore of only 0 42 inch, each battery, it is proved by trials, will strike, wound, or kill amongst broken infantry, on uneven ground, at ranges from 200 to 1,000 yards at the rate of 900 per minute, and in close columns of infantry a battery would hit 1,200 men a minute.

A SAD calamity happened to a family at Bover, N. B., on the night of the 26th ult. A fire broke out in the house of a man named McFarlane, who with his wife attempted to save their two children up stairs. The wife stood below waiting for the children to be handed down to her, but to her sorrow neither husband nor children were ever seen again. They perished in the smoke and flames.

WHAT helpless nonentics our "young women of the period" are making of themselves, with bunches apon the lip like elephantiasis, a kink in the back that suggests croup in the stomach, a lolling of the hands in front like a puppy on his hind legs trying to "beg," and a general look of crooked, distorted fatuousness. They half creep, half amble along the sidewalk, like sick kittens with their eyes just opened.

THE deaths by violence in New York for the past year numbered 1250. Of these 112 were suicides and 40 homicide. The number of infants found dead in the street was 169. The total of violent deaths from all causes is nearly as great as in London, with more than three times the population

A Mother's Death.

Few who have lost their first and "dearest friend" can read the following with unmoistened eyes:—

Death comes unsought to every board, and at its spectral bidding some beloved one goes to his mysterious home.

Time and philosophy may teach resignation unto the hearts made desolate by his coming; but they can never fill the vacancy therein, when she that was our mother no longer casts a halo about our darkened hearth.

A mother's place—so loved, so worshiped—once empty must be forever so. A breast once panged by a mother's death, no medicince can reach with healing.

No mind, however sacred, no heart, however hardened, can forget the gentle being whose sufferings begot his life.

A mother is truly our guardian spirit upon earth. Her goodness shields and protects; she walks with our infancy, our youth and mature age—ever sheltering us with her all-sorbing love, and expiatiating our many sins with her blessed prayers.

And when our mother with all our burden of love, her angelic influence, her saintly care, ceases her beauteous life, how much we lose at home, of happiness, of Heaven, no one can reckon; for our mother was none but ours, and we only can know how holy she was—how sacred her memory must ever be.

But may we not borrow consolation from the thought that our loss is Heaven's gain; that surely one angel watches over us erasing with greatful tears the records of our sin and making easy our path to her with blessed and blessing prayers.

A woman who never owned a Bible supposed she was quoting it when she greeted her son, who came home to keep Thanksgiving, in the following words:—"Here comes the fatted calf."

"You ought to acquire the faculty of being at home in the best of society," said a fashionable aunt to an honest nephew. "I manage that easily enough," responded the nephew, "by staying at home with my wife and children."

There will be fifty-three Sundays in the year 1871—the year beginning and ending on Sunday. It ought to be a good year and a happy one.

There is no truth in the rumor of the retirement of Sir John A. Campbell from the Post-master Generalship.

Boy Love.

One always remembers all the great things to think of in after life, of his boy. No another does a boy acquire a tolerable stature than he begins to imagine himself a man. He casts sly glances at all the tall girls he may meet, becomes a regular attendant at church, carries a cane, holds his head erect, starts a little in his walk. Presently he falls in love; yes, falls is the proper word, because it best indicates his happy delirious self-abasement. He lives only in a hazy region, however, with it. He perfumes his hair with fragrant oils, scatters cambrac over his handkerchief, and desperately shaves and anoints for a beard. He quotes poetry in which "love" and "dove" "heart" and "dart" peculiarly predominate; and he plunges deeper into the delicious labyrnth, his fancies filled with the divine afflatus, and suddenly breaks into a scarlet rash—or rhyme. He feeds upon the looks of his beloved; is raised to the seventh heaven if she speaks a pleasant word; is betrayed into the most astonishing contacies by a smile; and is plunged in gloomiest regions of misanthropy by a frown. He believes himself the most devoted lover in the world. There never was such another. There never will be. He is the one great idolater. Wealth—he despises the grovelling thought. Poverty wish the adorable beloved, he rapturously apostrophises as the first of all earthly blessings; and "love in a cottage, with water and crust" is his beau-ideal of a Paradise of dainty delighter

BISMARCK lately received a letter marked "private." It was opened by his confidential clerk, who had read only a few lines, when he was seized with violent pains in the head, and left work in a swoon. Another clerk took it up and felt the same symptoms. After a few time they recovered, and carried the document to a chemist, who soon ascertained that the letter had been poisoned with veratine, a subtle and dangerous substance, the odor of which mounts into the brain, and is very liable to produce death or insanity.

NEAT DODGE.—Rascality seeks out many inventions. The last trick, most novel of all, occurred in a New York jewelery store. A well dressed man asked to see diamonds and other rich jewellery; every now and then during his deliberate examination stepping to the door and crying out "whoa" to an imaginary horse, standing in an imaginary buggy. After making his selection of a diamond ring and a set of jewellery, coming $225, he out with a Turkey morocco wallet, apparently very plethoric, and laying it on the counter put the selected valuables in his pocket. Then turning to draw out the bills, suddenly heard his restive horse, and leaving his pocket book stepped out of the door, crying "whoa, whoa." Not coming back the clerk looked in the wallet and found its stuffing not greenbacks. The man, at last accounts, had not overtaken his horse.

L'Evenement gravely asserts that a letter has been received in Quebec to the effect that the news of Riel's death has been confirmed, and that it was brought about by means of a communication containing some poison so remarkably powerful that he, on opening the package, immediately fell dead. The *Manitoban* of the 21th ult. contains the following reference to his alleged death:—"Letters were received Wednesday to the effect that Riel is dead. The story goes that he received an anonymous letter, and while reading it he fell down insensible, and shortly after expired. We give the rumor for what it is worth, waiting further information. One thing is believed to be certain, he was very sick after having received a letter of some sort. It is said the letter contained some poisonous substance. A first-class sensation has been created in town by the rumor."

ALL ABOUT A CANARY.—An incident really deserving the epithet of tragio-comic took place lately at Antwerp. Madame, a young married woman, had a canary, which Monsieur, her young husband, had neglected to feed, a forgetfulness which to the grief and rage of the lady, resulted in the death of her pet. Resolved, however, on retribution, she began so soon as her first access of grief was spent, upbraiding her lord and master with bitter reproaches, and presently, on his adding fuel to the flame, dashed a pot of milk upon the floor. This was followed by a general smash of crockery, on both sides, and at length Madame went so far as to take a very effective shot with a fragment at Monsieur, who presently was bathed in blood. On seeing this the woman rushed from the house shrieking—"I have murdered my husband," and positively threw herself into the river, but a boatman hauled her out just as the husband came panting to the scene. Like the fairy stories, it all ends very happily, for the two fools returned home, where the husband, who lit a big fire to dry her, will probably recognize the soundness of the advice.—"Never quarrel with your wife, as you will only have to make it up, and pay for the reconciliation."

A Domestic Story.

An editor says; 'An aunt of ours concluded to try the effect of a pleasant smile and a kind word upon her husband when he returned from his work. She had read a home should be pleasant, and the wife should be pleasant, and the wife should always meet her husband with a joyful smile. The success she had is best given in the shape of a dialogue.

[Enter husband, almost exhausted, and very hungry withal; throws his hat on the floor and drops heavily into a seat. Wife preparing tea, looks up with a smile, and is so glad to see him]

Wife—Well, my dear, it is so nice to have you here at meal times. [A long smile.]

Husband—Yes, I suppose so.

Wife—How has your business prospered to-day? [Another smile.]

Husband about so so.

Wife—Come, my dear, supper is ready, let me draw your chair. [Another smile.]

Husband, gruffly—I am too tired to stir.

Wait till I warm my feet.

Wife—Do as you choose, my dear. [Another sweet smile.]

Husband—Look o'here, old woman; before any more fuss is made about it, I should like to know what you are grinning at.

Aunt sighed and relinquished her sweet smiles from that date. Uncle was not one of the romantic sort, and didn't understand such things.

WHAT should you like to be when you become a man? said a mother to a young hopeful. "Would you like to be a merchant, or doctor, or lawyer, or preacher?" "I think, mamma," said the urchin, "I'd rather be a candy shop."

KARL, aged five, has a brother ten days old. Nelly, a little one of nine, greeting him, asked him if he was glad to have a little brother to play with. With a shrug of his shoulders, Master Karl replied, "To play with. He can't walk, can he?"

The Peterborough Examiner

PETERBOROUGH, JAN. 26, 1871.

Editorial Items.

A fire in Millbrook last week consumed the furniture rooms of Mr. Gillet, a Dr's. office, a shoe maker's shop, and some other property—partly insured, we believe.

The Scugog Hotel, Lindsay, was consumed by fire, on Monday night. Professor Jenkinson, so long round Peterboro' was sleeping in a garret at the time the fire commenced, was forgotten for a time, when got out he was so badly burned that he is not expected to recover.

Mr. John Walton was chosen to represent the West Durham Agricultural Society, at the Council of Agricultural and Art Association. Mr. N. Choate was chosen by the East Durham Agricultural Society, and Mr. A. A. Burnham, by the West Northumerland Agricutural Society.

A wag asked us if Mr. Carnegie intends getting his report of the Agricultural proceedings for 1870 legalised during thisession; such foolish questions! How can we tell? The Haliburton Railway Amendment Bill requires legalising, just now, we understand, and he is engaged night and day on that. Agricultural matters comes after.

Peter's Musical Monthly, for February, has been received; it contains no less than 15 pieces of New Music, worth at least $4.50. It is a marvel of cheapness, costing only 30cts. The 30 cents may be sent to the publisher, S. S. Peters, 599 Broadway, N. Y. Or Mr. Kidd or Menzies, Peterborough. It is only $3.00 a year.

The Manufacturer and Builder is also before us, and is an excellent number. This periodical deserves to be liberally patronised.

The weather for the last three or four days has been intensely cold. The oldest inhabitant begins to think he remembers nothing like it.

Through the kindness of Mr. O'Beirne, we are enabled to give the following table of temperatures.

	7 A. M.	1 P. M.	9 P. M.	MEAN.
Sunday	13.3 below 0	7.3	17.5	12.36
Monday	24 "	14	16.3	16.1
Tuesday	2.4 "	1.6 ab.	16 ab.	3.06
Wednesday	8.3 "			

Min. Temp. on Sunday night, 29.8 below 0
" Monday " 16.3 "

The War.

The Prussians are still successful in almost every encounter. The army of the north is almost deabanded, being scattered everywhere. Garabaldi too is disheartened and inactive. Trochu is considered incompetent in the position he occupies; provisions too, are becoming scarce in Paris, a franc being given for a potato. In this state the city must ere long fall into the hands of the Germans, either by capitulation or otherwise. The amount of suffering the poor and helpless must be undergoing, none can tell. We who enjoy the blessing of peace should be very thankful, and use it for the good of all.

PARLIAMENTARY.

The division of the surplus has not yet come up. John Sandfield keeps the money bags dangling before the eyes of incorrigible members and says, support me and you will get in your hand for a grab; but oppose me and not a chance for you, not a cent. In this state things will remain until after the next election.

The school Bill is still before the committee of the whole and is being considerably modified. What it may be before final passing few can tell. It is useless to speculate on results till they are known. After coming from the committee it would be wise to delay the date of its becoming law to give teachers and others time to prepare to comply with its enactments. Dr. Ryerson is very ill at present, and, of course, cannot take a very active part in favor of his Bill, But we can hardly think that he contemplates sudden changes without considering the evil results that must accrue to teachers and to the country, at present there are not too many teachers in the country, and certainly sweeping changes would not increase the numbers, and the consequences would be—hundreds of vacant schools.

The gradual introduction of an increased standard of qualification would best meet the requirements of the country. Let us, however, hope for the best.

A Mysterious Murder.

The Sherbrooke *Gazette* says: an inquest was held on Monday and Wednesday last, on the body of Matilda Watson, wife of Andrew Hill, of Belvidere, who came to her death under suspicious circumstances. The story of the principle witness examined points clearly, and conclusively to the hand of violence, and that the violence was by the hand of her husband, Andrew Hill or John Grace, or both.

The details of this awful affair are too revolting for the public prints, but were of a nature that demands, in the ends of justice, the most thorough investigation which we feel confident it will commans.

That some person or persons were directly the cause of this woman's death, appears to be beyond question, who it was remains to be proven. The finger of suspicion, coupled with the testimony of competent medical authority, (Drs. Worthington & Austin,) as to the position she must have been in to receive this peculiar wound, the story of the witnesses (with the above exception) which common sense refuses to entertain, and the iron poker—a heavy flat piece of iren with a crooked end, which fits exactly to the wound—points to a person or persons present. The blow, which was of necessity a severe one, did not perforate the skin but inflicted an internal wound some two or more inches deep, cutting several small arteries and causing her death from bleeding. It was impossible, say the doctors, for to have received the wound—which was near the thigh—by falling upon anything in the room, but that she must have received a powerful blow from the poker (shown at the inquest), in the hands of some person, and circumstances point strongly to the husband as that person. Wherever is the guilty party we hope he will be found out, and receive the punishment merited by the enormity of the offence. Hill and Grace have both been committed to take their trial at the next term of Queen's Bench in March.

Town Council.

The new Council met on Monday, 16th instant.

Present, His worship the Mayor, and Messrs. Smith, Morrow, English, Dennistoun, Henthorn, Landy, Stevenson, Edmison and Rutherford.

The Clerk stated that he had received from the returning officers the names of the Councillors lately elected as follows.—

North Ward:—Messrs. Edmison, Rutherford and Toole.

Centre Ward:—Messrs. Stevenson, Doharty and Henthorn.

South Ward:—Messrs. O'Beirne, Smith and English.

East Ward:—Messrs. Morrow, Landy and Dennistoun. And, also, that those present had, each, taken and subscribed the necessary declaration of qualification and office.

The minutes of the previous meeting were then read and confirmed.

On motion of Mr. Stevenson, seconded by Mr. Edmison, a By-law was introduced for appointing auditors for the current year. It was read three times and passed.

Messrs. Edg. Pearce and J. A. Hall are the auditors appointed.

On motion of Mr. Dennistoun, seconded by Mr. Stevenson, the TownCouncil Chamber was placed at the disposal of the Mayor, for the purpose of holding a meeting on Tuesday, the 24th inst., for taking into consideration the testimonial to Sir John A. McDonald.

In the evening the Council met.

The minutes of the previous meeting were read and confirmed.

A communication was read from H. J. Hubetus, of Ottawa, informing the Mayor that he had projected a railway from Carlton Place to Toronto through Peterboro, stating that Mr. Givin, M. P., had told him that this County would give $100,000 bonus. The communication was received.

Communications were also received from Mr. J. R. Benson, asking to be appointed Inspector of Weights and Measures.

From Mr. E. Burnham, asking the Council to pay an account of his incurred several years ago.

Both communications were received.

Mr. O'Beirne, Chairman of the last Finance Committee, read and submitted the following report, which was received and adopted.

"The Finance Committee beg leave to report as follows:

"As to the application of Mr. Green to be relieved from the taxes payable on account of the soap factory, on Simcoe street, some time since destroyed by fire, your Committee would recommend that ten dollars be remitted from the amount of taxes payable by Mr. Green.

As to Mr. E. C. Hill's account for the occasional use of the Music Hall, and for the plans for the extension of the building your committee consider that the council has nothing whatever to do with any charge for the plans, but they would recommend payment to Mr. Hill of nine dollars in full of his other charges.

"Your committee consider that the application of Mr. Henthorn for remission of his taxes, ought not to be retained.

"Your Committee recommend payment of Mr. Clementi's account of $5, less, however, amount due by him, say $2.50 to the corporation, being balance payable to him $1.50.

"All of which is respectfully submitted.

(Signed) IVAN O'BEIRNE."

A discussion arose as to the validity of the first reading of the By-law introduced by Mr. Rutherford at a previous meeting of the late council.

On motion of Mr. Rutherford, seconded by Mr. Smith, the By-law was read a first time.

The Bouncil went into Committee of the whole on the second reading of the By-law.

After discussion, the Council resumed.

Messrs. Dennistoun, Smith, Landy, Stevenson, O'Beirne and Edmison were named a special committee to make standing committees.

The Council adjourned for one week.

Monday 23rd January,

Council met.

Present,—His Worship the Mayor in the chair. Messrs. O'Beirne, English, Morrow, Landy, Edmison, Stevenson, Doharty, Dennistoun, Henthorn, Smith, Toole, Ratherford.

The minutes of last meeting were read over and confirmed.

Communications were read from D. B. Robertson, Secretary of the Grand Junction Railway Company, Belleville, informing the Council that the Town Council of that Town had given the Company a bonus of $100,000, and the Township of Seymour $35,000, that other municipalities are taking steps to assist in the undertaking in a similar way and expressing the hope that Peterborough will also assist by granting a bonus also. The Communication was received. From His Worship the Mayor calling the attention of the council to the fact of a By-law requiring the Mayor to sign cheques for the payment of money, and suggesting the amendment of the By-law, also as to the state of police force and recommending improvements. Referred to the Committee on appointment to office.

From Dr. Kincaid asking the council to pay a bill of his amounting to $11 for attendance upon Mrs. Williams. Referred to Finance Committee. From Captain O'Donnell complaining of snow and wood in front of the Engine House door. Referred to the Fire Committe.

Applications for Offices held by the late Mr. Carlile were received from John Ritchie, William Cumming, John Hewitt and Angus Williams and referred to the committe on appointments to office.

A communication from Morice Tagney complaining of want of diligence on the part of the constable not making the taxes due by a tennant of his, was referred to the Finance committee.

The following report of the Committee appointed to strike the standing committees for the year was read and on motion was received and adopted.

FINANCE AND ASSESSMENT:

Messrs. O'Beirne, Edminson, Stevenson, Dennistoun and Smith.

LICENSES:

Ratherford, Doharty, English, Lundy.

STREETS AND BRIDGES:

Doharty, Toole, O'Beirne, Morrow.

CHARITIES:

Morrow, Doharty, English, Edmison.

FIRE:

Smith, Toole, Dennistoun, Stevenson Landy, Henthorn.

PRINTING AND PETITIONS:

Rutherford, Henthorn, Landy.

APPOINTMENTS TO OFFICE:

Toole, Dennistoun, Smith, English, Stevenson.

COURT OF REVISION:

Dennistoun, O'Beirne, Toole, Morrow, Stevenson.

On motion of Mr. Stevenson, seconded by Mr. Toole, Mr. Edwards was appointed Grammar School Trustee, in place of Mr. Burnham.

The Treasurer was directed to pay the officers of the Battallion one hundred dollars to assist in paying the Bandmaster.

Moved by Mr. O'Beirne, seconded by Mr. Stevenson, that the council desire to express the deep feeling of regret and sorrow at the decease of Mr. David Carlile, late Inspector of Streets, and holder of many other offices of trust and responsibility under the Corporation and further also to give expression to the strong respect and esteem entertained for him by every member of this council.

That this council are sensible of the loss of Mr. Carlile's services, as his activity, practical knowledge and experience and strict honesty made him invaluable for his position.

The Council then adjourned for one week.

The Warden.

Mr. Rogers, Reeve of Ashburnham, is duly elected Warden of the County for the year 1871. As Mr. Rogers was Warden before, in the year 1865, he will no doubt fulfil the duties of the office in a manner that will give general satisfaction. He is well versed in Municipal Law—has long been Reeve of the Village which he represents, and has a large stake in the County. Besides the honour done our little Village in thus electing its Reeve to the highest position in the County, we believe the Council has elected an honourable and upright gentleman.

The Ex-Warden, Mr. Peck, has been in the Warden's chair so long that he felt he had a strong claim again. But he could not hope to fill the office always. He did so during the last three years in a very creditable manner to himself, always affable, approachable and obliging, and there is no doubt that Railway politics had a fair share in his defeat. Railways are the mania of the day. Mr. Peck began to see the different Railway By-laws in his own way—but the friends of the Railways seeing things with a different eye, and no doubt with an eye to the advantage of their different localities, acted to suit their own purposes, and who can blame them? not one. While each Member represents *the whole County*, he, in a more special manner represents his own Township, and must see after everything that concerns it.

Except in Railway matters Mr. Peck served the County well, and up to the great Railway excitement, in the most satisfactory manner. We have no doubt that he feels that the honor of the Wardenship is due sometimes to others, and that he will do his utmost to aid the present Warden and members in getting through the business of the year.

THE COUNCIL.

We notice the absence of our old friend, Mr. Garbutt, who so long represented Smith as Deputy Reeve. He had to give way to anti-railway feeling in his township. Nevertheless he was a good Councillor, an attentive member, and a good worker, carrying great influence in all that he did or said. We trust that Mr. Sanderson, his successor, may catch his falling mantle. Mr. Sanderson is a clear headed, upright man, and will endeavour to do his duty faithfully. When in the harness a while, he will be a useful member too.

Mr. Brown, Ex-Deputy Reeve of Asphodel, is also missing—those fatal Railway interests were at work in A phodel also, and Hastings was too strong for Norwood. Mr. Brown was a good useful member.—Mr. Harrison who has taken his place will no doubt look carefully after the affairs of Asphodel. The man whom the majority choose deserves the honor. At the best it is short lived—popularity is very changeable.

Mr. Ross, of Dummer, is an old new Councillor. Dummer by consent has sent Mr. Rose again to see that it be not taxed for more stones than there are really in the Township. They are willing to pay for soil where it can be found, but land that will not sell for the taxes they think is no land at all. Mr. Rose must see after that, and he will too.

One man is missing entirely. Death, not worldly interests removed him. Mr. Gilmour, late Reeve of North Monaghan, will no more contend for worldly honours. He was esteemed by all his colleagues, beloved by every one who had business to do with him, and his sudden decease is universally lamented. Had he lived till to-day, he would have been Warden by general consent. Henry Collins, Esq., occupies his seat, and Mr. Collins will be found alive to the interests of North Monaghan. He is quick in perception, understands business matters well, and will not be behind in the advocacy of what he believes to be his rights, as representative of Monaghan.

Then there are Mr. McFarlane, of Dysart, Mr. Parker, of Harvey, and Mr. Meloney, of Douro, all new men. Mr. McFarlane takes Mr. McDonald's place, and Mr. Parker taking Mr. Wood's place, and Mr. Meloney occupies a new nich; he is the first Deputy-Reeve of Douro.—These new men will soon learn the way to see after the interests of their municipalities, and it is hoped will be found proper men to succeed the late men. It will not do to flatter, and as yet there can be no cause for blame, let them keep Railway Sharpers out, and there will be less cause for feelings and strife within. If the Council wish to submit money By-laws, let them; but let them begin, carry on, and complete these matters in the way their own interests and the Statutes direct. This thing of getting the Council's doings legalised every session of Parliament, deserves consideration. May we say, to be dreaded, legalising illegal By-laws may get the County in for it some day.

The old councillors returned to this Council are all well known. Their acts in Council are their recommendations to office; to say anything about them would be a work of supererrogation.

County Concil.

R. D. ROGERS, Esq., Warden.

The Reeves, and Deputy Reeves, of the different Municipalities met on Tuesday as provided by law.

They are as follows:—

ASPHODEL:
Timothy Coughlan, Reeve.
R. Harrison, Deputy Reeve.

BELMONT AND METHUEN:
W. W. Armstrong, Reeve.

BURLEIGH, ANSRUTHER, &c.:
Sidney Wm. Clegg, Reeve.

DUMMER:
D. Rose, Reeve.

DOURO;
William Moher, Reeve.
—— Moloney, Dep'y Reeve.

DYSART, GUILFORD, &c.:
D. MacFarlane, Reeve.

ENNISMORE:
Jer. McCarthy, Reeve.

GALWAY AND CAVENDISH:
John Hunter, Reeve.

HARVEY:
Lewis Parker, Reeve

MONAGHAN:
Henry Collins, Reeve.

MINDEN:
S. S. Peck, Reeve.

OTONABEE:
James Millar, Reeve.
Thomas Blezard, Deputy.

SMITH:
John Walton, Reeve.
M. Sanderson, Deputy.

SNOWDON AND GLAMORGAN:
Francis Peck, Reeve.

STANHOPE:
Thomas Buck, Reeve.

ASHBURNHAM VILLAGE:
R. D. Rogers, Reeve.

After depositing with the Clerk the necessary certificates, and after a little feeling of pulses of members, they proceeded to ballot for warden, which resulted in fourteen ballots for Mr. Rogers. Reeve of Ashburnham, and six for Mr. Peck, the late Warden. The Clerk therefore declared Mr. Rogers duly elected. He thon made and subscribed the required oath of office, and Mr. Millar, Reeve of Otonabee, conducted him to the warden's chair.

Mr. Rogers briefly thanked the Council for the honor thus conferred on him, and said that he would endeavour to perform the duties of the office in a straight-forward manner, and carry out the instructions of the Council impartially.

It was then moved by Mr. Millar, seconded by Mr. Hunter, that Mr. J. Stratton, be cessional Clerk.—*Carried.*

Moved by Mr. Millar, seconded by Mr. Blezard,—that J. J. Hall, Esq., be auditor.—*Carried.*

The Warden appointed Mr. C. Burton, of Smith, second auditor.

Moved by Mr. Armstrong, seconded by Mr. Rose,—That Messrs. Millar, Walton, Coughlan, McCarthy, F. Peck, Moher, Clegg and Mover, and seconded be a special committee to draft standing Committee.—*Carried.*

The Council adjourned till ten o'clock on Wednesday.

WEDNESDAY.

The Council met, R. D. Rogers, Esq., Warden, in the chair.

All the members present.

The minutes of the previous meeting, were read over by the Clerk and approved.

On Motion of Mr. F. Peck, certain accounts and claims were referred to the Finance Committee, also that sundry other communications were referred to the respective committies to which they referred.

On motion of Mr. Rose, Mr. Armstrong read the report of special committee on standing Committies.

On motion of Mr. Armstrong, seconded by Mr. F. Peck,—The report was adopted.

The following gentlemen compose the standing committee for the year:

County Property.—Messrs. Walton, Collins, Millar, Coughlan, Moher, McCarthy, and Armstrong.

Roads and Bridges.—Messrs. Millar, McCarthy, Rose, F. Peck, Moher, Clegg, Sanderson, Harrison, Hunter, and Armstrong.

Schools.—Messrs. McFarlane, Parker, Moloney, Clegg, Harrison, Sanderson, Blezard, F. Peck and Armstrong.

Finance.—Messrs. S. S. Peck, Millar, Coughlan, Moher, Walton, Rose, McCarthy, Clegg, Coughlan and Armstrong.

Petitions.—Messrs. Blezard, McFarlane, Parker, Moloney, Rose, Sanderson, McCarthy and Coughlan.

Printing.—Messrs. S. S. Peck, Hunter, Buck, Harrison, McFarlane, Moleney and Armstrong.

Appointments.—Messrs. S. S. Peck, Collins, Clegg, Sanderson, McCarthy, Rose, Coughlan, Parker and F. Peck.

On motion of Mr. Armstrong, seconded by Mr. Rose, the names of P. M. Grover, Esq., and Dr. Ford, were submitted to the committe on appointment to office as Trustees of the Norwood Grammar School.

On motion of Mr. Collins, seconded by Mr. Walton, Dr. Geo. Burnham, Senior was named trustee of the Peterboro Grammar School in the room of the retiring trustee. This was referred to the committee on appointment to office.

Mr. Sanderson moved, seconded by Mr. Collins,—That Messrs. Walton, Millar and McCarthy be the advisory committee with the Warden.

Dr. Clegg thought it was the duty of the committee on appointment to office.

Mr. S. S. Peck thought it was the duty of the special committee to name the committee.

Mr. Coughlin asked the chairman if he had omitted this committee from his report, and why.

Mr. Armstrong explained that this committee had been ommitted, thinking it was the duty of the committee on appointments He would support the motion if the committee was the same as mentioned in the committee last evening. The motion was carried; the committee being the same.

Moved by Mr. Coughlin, seconded by Mr. Harrison,—That Mr. Stratton be re-appointed Supt. of Schools for the current year, for the same distruct as last year: referred to the committee on appointments.

Moved by Mr. Armstrong, seconded by Mr. McCarthy,—That the sum of $450 be granted by this Council to build a bridge across the River Trent, at the "narrows" provided that the municipalities interested and the Government, give like sums—and that the motion be referred to the committee on roads and Bridges.—*Carried.*

The Council adjourned till 2 o'clock.

AFTERNOON SESSION.

Moved by Mr. McFarlane, seconded by S. S. Peck,—That the propriety of granting a sum of money for the purpose of building a Lock-up at Minden, be referred to the committee on Finance.

Mr. Peck supported the motion because of the distance from the County Jail, and instanced the case of sending a prisoner costing the County about $20.

Mr. McFarlane also said that he had plans for a Council Chamber, which would be built next summer.—Referred.

On motion of Mr. Blezard, seconded by Mr. McCarthy,—The committee on Roads and Bridges reported.

They recommending the payment of the following sums:

For erecting a bridge across the River Trent at the Narrows, $450. Provided the municipalities interested and the government grant like sums.

To the different Municipalities as follows:

Asphodel	$224
Ashburnham	86
Belmont	116
Dummer	191
Douro	217
Ennismore	86
Monaghan	143
Otonabee	493
Smith	388
Harvey	100
Galway	50
Snowdon	50
Minden	50
Stanhope	50
Dysart	130
Burleigh	100

The report was adopted.

On motion of Mr. Armstrong, seconded by Mr. S. S. Peck, a memorial praying for an amendment in the Assessment law was read a first time.

Moved by Mr. Rose, seconded by Mr. Harrison,—That all County Commissioners be required to furnish detailed statements of moneys expended and balance on hand at the end of the year, and that the seal of this corperation be attached to this resolution.

Mr. Walton recommended that the resolution be amended by requiring vouchers for the payments.

Mr. Clegg thought that if each Commissioner would give an order on the Treasurer for the different amounts for each job of work, this would surely be a voucher.

Mr. Millar thought the motion of Mr. Rose deserved consideration.

Mr. S. S. Peck thought that if the Commissioners gave orders on the Treasurer's for work done, it would do.

Mr. Walton said it was a hardship to bring men to town for such small sums as are often to be paid, and this motion would meet this by allowing the commissioners to draw the money and let them take vouchers for payments.

Mr. Blezard thought that if each commissioner was forced to give a detailed statement, and if it be printed; it will be a good way to keep commissioners careful, and the people also could see how the money is spent.

Mr. McCarthy explained his plan, and stated that he had vouchers for all money spent by him.

Mr. Hunter thought it would be better to pay nothing until the work be done.

Mr. Coughlan remarked that every man appointed represented the people, and had taken oath of office, and surely he would do his duty. Why this fuss?

Mr. Harrison urged that as small sums were often paid to parties, these would not come to town for it. The Commissioners took it to to parties doing the work and should give a statement.

Mr. Collins said that this arose out of the Auditors' report. And it will be easy for an honest man to give a statement.

The recommendation of Mr. Walton was agreed to the motion was passed.

Moved by Mr. Coughlan, seconded by Mr. Harrison,—That the sum of $160 be paid to the Norwood Grammar School, and that this motion be referred to the committee on Finance.—Carried.

Mr. S. S. Peck explained in reference to the Mud Lake and Pigeon creek bridges, that the committee would be prepared to report at the June session. He would also report in June on the $2.000 apportioned to the Bobcaygeon Road in full for every cent.

AGRICULTURAL.—The following were elected officers of the Minden, Snowden and Stanhope Agricultural Society:

S. S. Peck, *President*,
John Jopling, Vice President.
Dr. Curry, Secretary.
F. Peck, Treasurer.
Geo. Andrews and A. McIntosh, Auditors.
D. Buck, Jr., R. C. Garratt, H. Oggle-stone, W. Herron, Jos. Bell, R. Bateson, D. McCarthy, John Noice and S. Eastman, Directors.

Mr. Galletly's concert last night was a decided success. There was a full house, the chief thing on such occasions, and the singing of Miss M'Farlane and Mr. Galletly was deservedly applauded. Two little children, one Mr. W. G. Thompson's, and the other Mr. Galletly's, sung a piece to the delight of all. Mr. Telford also read a poetic address for the occasion, which met with general applause. We hope to be able to give it next week.

Not being able to remain all through, we can give but a partial report.

There was a meeting of Sir John A. McDonald's admirers in the Council Chamber, on Tuesday evening. Both Law and Gospel was represented. A. H. Campbell occupied the Chair. Mayor Scott, J. F. Dennistoun, Esq., Judge Dennistoun and Rev. V. Clementi moved, seconded and supported the resolution. All the Speakers waxing eloquent on Sir John's Statesmanlike acts and poverty for his Country's weal, and Exemplary character.—A committee was appointed to collect funds.

A Frenchman named Baptiste Frenier, was killed in Otonabee, on Monday, by a falling tree. The tree fell on another, and either it or a falling limb struck him and killed him instantly.

The Hamilton *Times* states, that a meeting of the Ontario Cabinet was held on *Sunday* to consider the School Bill, "at which the Rev. Dr. Ryerson was present!" Can this be possible,

SIR A. T. GALT has been airing his *independence* again, this time at a missionary meeting. Some wag placed sulphur on the stove as a practical *illustration of* the favor with which the worthy knight's principles would be received by the people of Canada. The result was a break up of the meeting, thoroughly disgusted.—Ex.

CORRECTIONS.—In our report of the Council of North Monaghan, last week, we regret that two mistakes crept in, a 6 got into the place of a 9, which really made a difference of $300. The following paragraph, from being on the second side of the manuscript paper, was omitted.

"The clerk tendered his resignation which was allowed to lie over to next meeting of Council."

"The council adjourned to meet on the 10th of February at ten o'clock to meet for the appointment of township officers and other business."

Under Agricultural, instead of the name of Mr. Sanderson as 1st Vice President, it should be Joseph Walton. In correcting proof sheet these were overlooked.

THE WAR.

London, Jan. 24.—Paris advise of the 22nd states that the losses of the French in the sortie on the 19th have been officially ascertained, and sum up no less than 3,000 killed, wounded and missing. Gen. Trochu has issued an order, in which he speaks in terms of the highest eulogy of the officers and soldiers who participated in the engagement.

London, Jan. 24.—A Lillie dispatch of the 23rd says:—Gambetta has received a telegram to the effect that the Garabaldians gained a victory on Sunday near Dijon, and the enemy abandoned the strong position previously held, together with a large amount of materials of war. Many prisoners fell into the hands of the Garabaldians, who are actively pursuing the enemy.

Gen. Faidherbe has made a long report to Gambetta, concerning the recent operation of the army of the north. He says he lost no artillery or prisoners in the battle of St. Quenton, and the only persons captured by the enemy were stragglers. Gambetta left Lille on Monday night, and will make a visit to Chanzy, at Laval, before proceeding to Bordeaux.

1,000 Germans have been expelled from Marseilles.

The French army of the north is arriving at Arras, Donai and Lille in a totally disbanded and discouraged condition. The citizens of Lille are indignant against Gambetta, whom they charge with deceiving them as to the state of the army and the country.

A despatch from Lille on the 23 says the bombardment of Cambra by the Germans has commenced.

The Paris correspondent of the *Times*, under date of the 21st, says Trochu is generally considered incompetent. The council of Defence only failed to accept his resignation because they were unable to find a successor. It is impossible to make the *Parisians consider the question of surrendering.* They are anxious to fight under a competent leadership. The ration of flour is now half a pound daily per man. The poorest people receive bread gratis, with a pint of wine each and a little soup, daily. The middle classes suffer most of all. Potatoes are sold at a franc apiece, and dog flesh is worth one dollar a pound.

Death of Mrs. T. D McGee.

The Montreal *Gazette* of the 19th inst, contains the announcement of the death of Mrs. McGee, the widow of our lamented statesman, the Hon. T. D. McGee. Married to him at an early age she shared in all the vicissitudes of his love. By her soundness of judgement and firmness of character as well as in his eventual career in Irsland, as in his more peaceful and successful course in America, she sustained him in all his trials and animated him in his high hopes. She never recovered from the awful shock of his death, and soon shewed symptoms of heart disease, which was to her friends a source of constant anxiety, and it was only last week that her medical adviser, Dr. Schmidt, informed her that she was liable to a serious attack at any moment; alas! that his warning should have been so soon verified. Two daughters, whom may God comfort, now mourn the untimely loss of an illustrious father and that of a beloved and affectionate mother.

The farmers of the Eastern Township would do well to plant as many Early Rose potatoes this year as possibe. They sell in Portland for export, for 30 cents per bushel more than any other kind. They yield largely, and the United State are obliged to buy of us, as we can raise them cheaper than they. Some 25 cars of Potatoes have been shipped from Compton and Coaticook last year, and it would be a good and profitable trade to raise potatoes for the best American market. So we would advise the farmer to be sure and raise the Early Rose.—*Sherbrook Gazette.*

PRIZE CONUNDRUM.—The Toronto *City Press* lately offered prizes for the best conundrums. The first prize was awarded to "Pattie,"—viz.: a copy of Chambers' Encyclopedia, the following is the conundrum: At what period of his life was John Sandfield in the coal business? When he was a Cornwall miner (minor.) He is now in the *Cabinet* line, and uses *Wood* for *coal*-ition purposes.

FOR THE EXAMINER.

Reformers of the County of Peterborough:

In a recent communication upon the duties of reformers in view of the approaching election. I urged upon you, as your first and most important duty your immediate organization. I told you that the elections for the Ontario Legislature must take place during the ensuing summer, and I felt it necessary to endeavor to impress upon your minds the importance of early preparation. I pointed out as an example worthy of your imitation, the conduct of *reformers in former years*, when, to be a reformer was not so easy as it is now, and I showed how—*despite all obstacles*—they had their organizations, how easily they carried the day. I also, called your attention to the laxity and indifference of the party of late years, and how, as a consequence, it has lost power. There are men who will read these words who know their truth and who, along with myself, have lamented the apathy and lukewarmness, and I will add, the selfishness of the new generation which has grown up since then, a generation whose path has been made smooth by the labors of those who went before and whose aspirations were truly patriotic, and who desired to leave to their successors, and who have left them civil, political and religious privileges which were denied themselves, and which, *therefore, they valued all the more highly.* Not having had to experience the trials and difficulties which they had to endure, enjoying advantages which their exertions have conferred upon you, you apparently do not feel the same need for watchfulness and activity, as you should do, and you are sure to forget "the price of liberty is eternal vigilance."

If you have any desire to succeed at the next election you must begin work now. your first duty is to organize thoroughly by county, township and ward associations. The township associations to be made up of the ward delegates and the county associations to be composed township and town delegates. Any school section can organize its own association at once and the different school sections or wards in a township must do this in order to form the township association. And so the township must organise so as to be able to form the county society. The machinery is very simple and easy to work and should be put in operation at once. Let a beginning, therefore, be made without delay. Once begun it will spread until the whole system is complete. When this is done the rest of the business will be easy. There will then be union, and union you know is strength. Do not forget that your time is short, that in the course of three or four months, at most, the elections will be upon you, and now, let me ask, do you expect to succeed if you have done no preparation. You are able to answer these questions if you take the right [illegible] is to thoroughly organize [illegible] day. Let us see who will first begin the good work.

A.

ALDERMAN ARGEMAN.—The *Globe's* Montreal correspondent gives words of rumors, some of them old enough, with regard to the upward leanings of some of our public men:—"Some curious rumors are afloat anent electoral matters. Alderman Rodden, Chirman of the Finance Committee of the Council, it is said, aspires to the Local House, and is already feeling his way in view of the contemplated retirement of Mr. A. W. Ogilvie, who is now in the old country. Further, Mr. Rodden, having acquired considerable knowledge of finance and rhetoric in the Council, deems himself the very man to succeed Mr. Treasurer Robertson, who with Mr. Dunkin before him, is looking to Ottawa. Hence Mr. Rodden's discoveries that nunneries ought to be exempted from municipal taxation. Alderman Bernard, it is said, hopes to succed Mr. Carter in Montreal Centre, and hence the decided stand he has made on the City Hall question, and his insisting that it shall built on the site of the Government Gardens. Alderman David is credited with the design of ousting Sir George Cartier at the next local election from Montreal East, Lanctot having killed himself by becoming a Baptist."

Mrs. Stover, the daughter of Andy Johnston, who presided with so much quiet dignity for three years at the White House, is now Mrs. Brown, the wife of a country store-keeper in Greenville, Tenn. Mr. Brown is an elderly looking gentleman, well to-do in the world through his dealings in dry goods, groceries, and notions. Andy Johnson's only living son, a youth seventeen or eighteen years of age, is a clerk in Mr. Brown's store.—*American Paper.*

Mr. Beecher has finally accepted the $20,000 salary which his congregation has repeatedly offered him. Who believed he wouldn't?

BIRTH

PEARSE—At Peterborough, on the 14th inst., the wife of Mr. E. Pearse, of a daughter.

MARRIED.

On Tuesday morning 24th instant in Hasting, by the Rev. Mr. Quirk, Mr. J. C. Morrissey of St. Paul, to Miss B. A. O'Callahan, of Norwood,

On the 18th instant, by the Rev. Mr. Smithett, at the Westwood Church, Asphodel, Mr. Christopher Lancaster, of Otonabee, to Miss Jane Christie, daughter of Hugh Christie, Esq., of Asphodel.

R. R. R.

BRAZILIAN LADIES' BLESSING S

[Extracts from a letter of a distinguished gentleman in Rio de Janeiro]

Radway's Ready Relief, Renovating Resolvent, and Regulating Pills.

RIO DE JANEIRO March 24, 1866.

DOCTOR RADWAY & CO.:

DEAR FRIENDS:— * * * My wife blesses these preparations, when she thinks that after three nights and days of suffering of violent pains in the stomach, brought on by overdoses of Quinine, by the use of four drops of "Ready Relief" in some water, she was able to sleep tranquil all night, and the next day she was completely re-established. I have also cured a slave from heart disease with "Ready Relief" and "Pills," and have also cured sore throat, rheumatic pains, toothache, headache, &c. With the "Resolvent" I have cured Erysipelas Skin diseases, &c.

It is my full impression that the "Pills" are the best purgative that can be found, not alone for the facility with which they can be taken, but also as they do not cause griping or make you feel sick.

I have a son of five years old now, who took the "Ready Relief" when 4 months old, as he suffered from some irregularity in the bladder, preventing him from making urine. The following was the treatment: 20 drops of "Relief" in a cup of water, and divide into portions of a tablespoon, which he took every ten minutes which cured him. He has since had colic, which I treated in the same way, and also rub the stomach with it (pure.)

Major Joaquim Vieira do Silva Pinto, proprietor, in the Chiado Leopoldina, can prove that after more than ten years suffering from Paralysis, through the medium of your remedies he obtained that which he had been deprived, and thought at the time that he would never be able to get, and that was the use of his legs.

You can fully believe that there are a great many people in this vast empire who truly confess that they owe their life to the use in time of your precious medicines. You can make use of this as you think proper.

I remain, dear friend,
Your obedient, &c.,
Signed BIANO DE SANTAVO LEITE

On inquiring for these Remedi s ask for Radway's, as the country is flooded with imitations, Sold by Druggists and Country Merchants.

See Radway's Almanac for 1870.

IT IS NO WONDER that invalids lost faith in all specifics, when so many worthless medicines are advertised for the cure of various diseases but which, when tried, are "found wanting;" We have yet to learn, however, of the first failure of *Dr Wistar's Balsam of Wild Cherry* to cure coughs, colds, and pulmonary disease

HORSES SAVED.—The lives of thousands of horses have been saved during the past year, and the credit is due to "Darley's Condition Powders and Arabian Heave Remedy." This preparation is being extensively used, and extracts from all the highest praise. Nothing of the kind has ever before been half as successful or given such universal satisfaction, it cannot be equalled. We can confidently recommend it, and would advise all who own horses to keep a supply of it on hand—it may be the means of saving your horse's life. Remember the name and see that the signature of Huld & Co., is on each package. Northrop & Lyman, Newcastle, Ont., Proprietors for Canada. Sold by all Medicine Dealers.

INDEBTEDNESS.—If idleness does not produce vice or malevolence, it commonly produces melancholy; therefore let every man be occupied, occupy in the highest employment of which his nature is capable: and if he is suffering from rheumatic pains, colds or summer complaint, and desirous of getting immediate relief, let him try a bottle of the "Canadian Pain Destroyer." It can be had at and Druggists, and most of the country merchants in the Dominion, at 25 cents per bottle.

☞ Twenty years experience in using Bryan's Pulmonic Wafers have proved them to be the most effectual remedy for coughs, and irritation of the throat, caused by cold, or unusual exertion of the vocal organs; public speakers and singers will find them most beneficial. The entire freedom from all deleterious ingredients renders Bryans Pulmonic Wafers, or Cough and Voice Lozenges, a safe remedy for the most delicate person, and has caused them to be held in high esteem by all who have used them. Sold by all medicine dealers at 20 cts. per box.

SITUATION WANTED.

By a person who has had considerable experience in working a sewing machine.

Apply at this office.

Peterboro, Jan. 17, 1870. 3-3ins.

A CARD.

E. BAKEWELL, having made an engagement with Mr Bradburn, may be found, by his former Patrons and Customers, at the store lately occupied by M. Moloney, where he hopes by his usual attention to business, and with increased facilities for giving satisfaction, still to merit and receive their patronage.

E. BAKEWELL.

Peterboro, Dec. 19, 1870. 51-tf.

EXECUTOR'S NOTICE.

County Council Meeting

The Janunry Session

Of the County Council will commence on

TUESDAY 24th of JANUARY

At 12 o'clock noon. All parties having accounts or claims against the County of Peterborough, are required to present them on or before the first day of the Session, in order that they may be approved and ordered to be paid.

EDG. PEARSE,
County Clerk's Office, *County Clerk.*
1th January, 1871. 2-td.

NOTICE.

ALL persons are hereby warned against purchasing or negotiating any of the following securities, namely: A Promissary Note for $1,000, made by Charles Coultish, of Lindsay, in favour of William Coulter, of Peterborough; A Promise Note, or Due Bill, made by L. Lipsel, to the said William Coulter, for $60, or thereabouts; A Promissary Note, or Due Bill, made by A. W. Lasher, to the said William Coulter, for $80, or thereabouts; A Promissary Note, or Due Bill, made by Henry Collins, to the said William Coulter, for $25, or thereabouts; as the same are the property of the undersigned, the Assignee in Insolvency of the said William Coulter.

Dated this 10th day of January, 1871.

D. W. DUMBLE.

Assignee of the estate of the said William Coulter.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier, alternative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phathisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, Diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum, dysentery, &c.

Price only thenty-five cents per bottle.

NORTHROP & LYMAN,
Newcastle, C. W.
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, Wm. Coulter and Ormond & Walsh, in Keene by A. Campbell, Campbell McNeil & Co., C. Britton, Lindsay, and all Medicine Dealers.

How necessary that the nervous apparatus should be perfect and the nervous; when either becomes exhausted through overwork or other imprudence disease in some organ is developed. The remedy lies in removing the cause. By using FELLOW'S COMPOUND SYRUP OF HYPOPHOSPHITES the tone and vigor is soon restored to the brain and the whole nervous system, while diseases of the implicated organs disappear.

Price $1 50 a bottle; 6 for $7 50 Sold by apothecaries and by F. Caudill & Co., wholesale agents Montreal.

CHANCERY.

NOTICE TO CREDITORS.

Pursuant to an order of the Court of Chancery made in the matter of the estate of GEORGE CAMPBELL, deceased, and in a cause

Campbell against Campbell.

The creditors of GEORGE CAMPBELL, late of the Township of Monaghan, in the County of Peterborough, who died on or about the month of June, 1870, are, on or before the

21st DAY OF JANUARY, 1871,

to send by post, pre-paid, to FREDERICK E. BURNHAM, of the Town of Peterborough, the Solicitor of the defendants, Robert E. Campbell and James Campbell, the administrators of the deceased, their Christian and Sir names, addresses and description, the full particulars of their claims, a statement of their accounts, and the nature of the securities (if any) held by them, or in default thereof they will be peremptorily excluded from the benefit of the said order.

Every Creditor holding any security is to produce the same before me, at my Chambers, at the Court House, in the Town of Peterboro, on the

4th DAY OF FEBRUARY, 1871,

at ten o'clock in the forenoon, being the time appointed for adjudication on the claims.

Dated this 14th day of December, 1870.

W. H. WELLER.

DENNISTOUN, FAIRBAIRN & CASSELS,
50-td. Plaintiffs Solicitors.

A very large assortment. The attention of the Musical Public is solicited to the fact that they can procure the best PIANOS and MELODEONS without going outside of Peterboro.

A. B. KIDD is Agent for

THE CELEBRATED BRADBURY PIANO.

The successful rival of the Steinway, &c. He is also Agent for

W. BELL & CO'S PRIZE MELODEONS,

The Melodeons that carried off the prizes at the Provincial Exhibition. ☞ Both Pianos and Melodeons kept on hand.

PIANOS AND MELODEONS!

THE BRADBURY PIANO,

Which has met with triumphant success, and has successfully competed with the best Pianos in the world, and has received the highest testimonials from Gottschalk, Mason, Sanderson, Pattison, Berge, Zundell, Heller, Fredel and others,

IS SOLD IN PETERBOROUGH BY A. B. KIDD.

He also sells the WEBER PIANO, which, to those who wish a cheap instrument, is equal to any of its class.

W. Bell & Co's Melodeons are supplied by A. B. Kidd.

These Instruments received First Prizes at the Ontario Provincial Exhibitions for 1868 and 1869; also at the Quebec Provincial Exhibition held in Montreal, September, 1870. At the Ontario Provincial Exhibition held in Toronto, October, 1870. W. BELL & Co. received the First Prize and Diploma for the best Harmonium or Large Cabinet Organ, and the First Prize for the best Melodeon. It is universally acknowledged that in the manufacture of Melodeons W. BELL & Co. excel all other Canadian makers, having taken the First Prize on Melodeons at the last three Provincial Exhibitions. As to Organs or Harmoniums it must be remembered that The Diploma just received by W. Bell & Co. is the only one awarded during the last seven years at any Provincial Exhibition. ☞ All instruments warranted for five years, and satisfaction guaranteed.

PAPER BAGS AND WRAPPING PAPERS

Are supplied by A. B. KIDD at Montreal Prices.

Dealers will find it advantageous to give him their orders, as he has made arrangements with one of the largest firms in the Dominion, which enable him to supply Bags and Wrapping Paper at Wholesale Prices.

Peterboro, November 15, 1870. 46-tf

Select Poetry.

A MESSAGE.

After the battle of Forbach a French officer of Cuirassiers was found dead with a letter crumpled in his hands.

It was only a crumpled letter,
In a careless girlish hand;
It was only a childish message
From the sunkissed southern land.
It was only a brief memorial
Of the tears the absent shed;
It was a trifle from the living,
But a message to the dead!

"Father, dear, you are gone to battle,
But I think incessantly
As I miss your morning blessing,
What sore sufferings must be?"
So she wrote, and so held it,
With a blessing on her head—
When the token of the living
Was a message to the dead!

"I'm so good, dear—oh, so steady—
You would wish me to be so;
If I'm quiet half your dangers
Dear mamma need never know.
So, good bye, papa! God bless you!
Guard and keep you evermore—
See! I send you fifty kisses
From an ever ready store!"

It was only a crumpled letter
In a dead man's hand that day,
Just to show how hearts are aching
In his own land far away.
It was only a loving message
From a loving child that sped,
But the words the living penciled
Were a message to the dead!

Take it not from his fingers—
Lay it with him in the grave—
If it be a consolation,
'Tis the last he will have.
For I think the bullet reached him
As the tender words were read;
So that when the angels told it
'Twas no message to the dead!

He saw Her but a Moment.

The other day, as a young man was walking on one of the principal streets of a Western city, he saw something which made him blush the "color of the rose." The young fellow thus relates the story of his outraged modesty:

"She wore a handsome chrinoline the day when first we met; she scuded like a schooner with a cloud of canvas set, as she swept along the pavement, with a grandeur fit to kill.—I saw her but a moment, yet methinks I see her still. The wind was on a bender and as saucy as a witch, and it played the dickins with dust dimity and sick. The gaters were delicious which her feet were made to fill—I saw her but a moment, yet methinks I see her still. I shut my eyes tremendous, I did not want to see a display of pretty ankles when it wasnt mean't for me; and untill I loose my senses, I am sure I never will—I saw her but a moment, yet methinks I see her still."

Too Much Noise

The night of the steamboat explosion at Oswego a guest at one of the hotels requested to be called at five o'clock in the morning and on being aroused by the explosion, with the rattling of the windows and wash pitchers, he sprang out of bed promptly, calling out to the supposed porter. "That will do you needn't make such a noise about it."

'Dey does say, that way down in Georgia, they makes poor nigga work twenty-five hours ebbery day. Now, looke hea, I'se been told that day has'nd got no more nor twenty-four hours, an' I wants you, Mr. Jonsing, to 'splain to dis chile, how they make 'em work twenty-five hours.'

'Golly mighty, what ignoramusses nigga you is, Scipio; why, away down dare, they make poor nigga get up one hour store day— dosen't that make 'em twenty-five? Scipio was convinced.

Mas-red dyn, the Turkish Aesop, appriate the conquering Tamerlane, proposed to carry him some fruit. 'Hold,' said he, 'two heads are better than one; I will ask my wife whether I had better carry quinces or figs.'

His wife replied—'Quinces will please him best, because they are larger and finer.

'However useful the advice of others may be,' rejoined Mas-red-dyn, 'I am determed to take figs.'

When he arrived in the camp, Tamerlane amused himself with throwing the figs at his bald head.

At every blow Mas-red-bye exclaimed 'God be praised.'

Tamerlane inquired what he meant.

'I am thanking God that I did not follow, my wife's advice,' replied Mas-red dyn: for if I had brought quinces instead of figs, I should certainly have a broken head.'

'Now, you must mind your P's and Q's Miss Eliza,' said an elder sister to a young er. 'Indeed! then I suppose I'm to be Pert and Quarrelsome,' replied Eliza No,' answered a third, 'your to be Polite and Quite.'

A JOKE TURNED.

The Evansville [Ind,] Journal relates that a number of young men, residents of Daviess County, returning from a dance just before daylight, a short time ago, thought it would be funny to make those whom they might meet perform a donble shuffle, or bigeon-wing for their an usement. Accordingly they 'executed orders to two or three wayfarers, and saw them executed to their deligat. Just about daylight they met a horseman coming towards them, and apprized him of the rule they had made, and refused to listen to him when he pol tely declined. The stranger dismounted with great appareut reluctaure, and tied his horse to the fence. Now, boys, said he, I want to furnish my music, and drawing a large revolver pointed it at the head of one of the disciples of Terpischore.—Now, you rascals, said the traveller, dance! The boys looked at each other in dismay, and then commenced. Heel and toe, double shuffle, essence of old Virginia break-down, hornpipe, and every other variety of the Terpischorean'yrt known to the rustic jobbers, was performed for about an hour, when the grim equestrian mounted his horse and rode off, leavin the young jokers tired and covered with prespiration, dust and humiliation.

A MAN driving a team along the road at Gurney, Ohio, overtook a well-dressed lady, who asked to ride. He took her in, but by an accident discovered she had on men's boots, when he had visions of robbers, dropped his whip, and asked her to get out and pick it up. When she alighted, he whiped up his horses and left her, and finally examined a muff she left, and found two revolvers in it.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy luetre and a grateful perfume.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The repetition this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. In inveterate cases of scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were a terror and a disgrace to the science, and loathsome contamination and they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, like unseen and unfelt tenant of the house, it undermines the constitution, and invites the attack of crowding or fatal diseases, without exciting a single hint of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of it hideous forms, either on the surface or among the vitals. In the latter, tubercles may be stedfastly deposited in the lungs or heart, or it may be found in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the accompanying use of a bottle of this *Sarsaparilla* in scrofulous cases, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this SARSAPARILLA: *Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other erruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Derangement of the Liver, Kidney Complaints, Dropsy, Heart Disease, Fits, Epilepsy, Catarrh*, and the endless *Forms* and varieties of the blood, lar and nervous systems.

Syphilitic Venereal and *Mercurial Diseases* are cured by it, though a long time is required for subduing those obstinate maladies, as mercury will but be continued use of this medicine will eradicate it. *Leucorrhœa, Whites, Irregularities*, and *Female Diseases*, are made soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by constitutional forms of exhaustion in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising from obstructions of the gall duct, or from the redundance of bile in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are *Tunnoiled* and *Debilitated, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the effects or consequents of *Dissipation*, will find immediate relief and everlasting evidence of its restorative powers upon trial.

RADWAY'S READY RELIEF

Cures the Worst Pains

IN FROM ONE TO TWENTY MINUTES.

NOT ONE HOUR

After reading this advertisement, need any one Suffer with Pain.

RADWAY'S READY RELIEF

IS A CURE FOR EVERY PAIN.

It was the first, and is

The Only Pain Remedy

That instantly stops the most excruciating pains. ALLAYS INFLAMMATIONS AND CURES CONGESTIONS,

Whether of the Lungs, Stomach, Bowels, or other glands and organs, by one application.

In from One to Twenty Minutes.

No matter how violent or excruciating the pain, the RHEUMATIC Bed-ridden, Infirm, Crippled, Nervous, Neuralgic, or prostrated with disease may suffer,

RADWAY'S READY RELIEF

will, in from ONE to TWENTY MINUTES, *afford ease and comfort*; and this inedevine, so rapid in stopping pain, can be purchased for 25 cents per bottle at almost every druggist's and country merchant's store on this continent, and within one hour's distance of almost every habitation in this country

RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.

If those who are now suffering Pain—no matter what the cause may be—or by what name it is called—of external apply the Radway's Ready Relief to the part of the body where the pain is present. If internal,

20 Drops Diluted in Water,

As a drink: whether Cramps, Spasms, Inflammation, Congestion, Asiatic Cholera, Chills and Fever, the most violent, excruciating, and torturing pains will be stopped

In from One to Twenty Minutes.

PAINFUL ATTACKS WHERE

RADWAY'S READY RELIEF

WILL AFFORD INSTANT EASE—

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart,
Hysterics, Croup, Diphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the *READY RELIEF* to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops in a half tumbler of water will, in a few moments, cure

Cramps, Spasms, Sour Stomach,
Heartburn, Sick Headaches
Diarrhœa, Dysentery, Colic
Wind in the Bowels,
and all Internal Pains.

Travellers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

IT IS BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

FEVER AND AGUE.

Fever and Ague Cured.
Fever and Ague Cured.
Fever and Ague Cured.
Bilious Fever Cured.
Malt Fever Cured.
Yellow Fever Cured.
And Prevented.

FEVER & AGUE CURED

FOR FIFTY CENTS.

There is not a remedial agent in this world that will cure FEVER & AGUE, and all other Malarious, Bilious, Scarlet, Typhoid, Yellow, and other Fevers (aided by Radway's Pills), so quick as Radway's Ready Relief.

RADWAY'S READY RELIEF

has proved infallible, and will cure these terrible fevers quicker, and without entailing the frightful penalties of Engorged Liver, Fat Spleen, Disordered Kidneys, and Sallow-Colored Skin, that are sure to follow the use of the "Cholinguous," "Ague Cures" and other agents of the heroic Quinine, Mercurial, Arsenic, and other treatments where the medicines used *accumulate*, and become domiciled in the system.

HEALTH! BEAUTY!!

Strong, Pure and Rich Blood — Increase of Flesh and Weight — Clear Skin and Beautiful Complexion, Secured to ALL.

RADWAY'S

SARSAPARILLIAN RESOLVENT

has made the most astonishing cures. So quick, so rapid are the changes the body undergoes under the influence of this truly WONDERFUL MEDICINE, that

Every Day an Increase in Flesh and Weight is Seen and Felt.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal, in its many forms, Glandular disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands, and other parts of the System, Sore Eyes, Strumous Discharges from the Ears, Eruptive Diseases of the Eyes, Nose, Mouth, and the worst forms of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all Weakening and Painful Discharges, Night Sweats, Loss of Sperm and all wastes of the life principles are within the curative power of Radway's Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of disease, its potent power to cure them.

Not only does the Sarsaparillian Resolvent excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional Skin and Syphilitic diseases, but it is the only positive remedy for Kidney, Bladder, Urinary, and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's disease, Albuminuria, and in all cases where there is brick dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid dark, bilious appearance, and white bone dust deposits, and where there is a pricking, burning sensation when passing water, and pain in the Small of the Back, and along the Loins. In all these conditions Radway's Sarsaparillian Resolvent, aided by the application of Radway's Ready Relief to the Spine and Small of the Back, and the Bowels regulated with one or two of Radway's Regulating Pills per day, will soon make a complete cure. In a few days the patient will be enabled to hold and discharge his water naturally without pain, and the Urine will be restored to its natural clear, and amber or sherry color.

THE WASTES OF THE BODY are supplied with new, healthy and vigorous blood, that furnishes sound structure. Hence all suffering from WASTING Diseases, either MALE or FEMALE, of the Womb, Uterus, or other organs, whether Leucorrhœa, Sperm, or Eruptive discharges of every kind, or from violence or "self-abuse," in the Genital Glands, or Venereal discharges, or Ulcers, or sores, though the reparative process of Radway's Sarsaparillian are aroused, and the ruptured organs healed.

THE TRUE THEORY OF CURE.

Radway's Sarsaparillian Resolvent supplies the system, through the blood, urine, sweat, and structure-making constituents, with Tissue-making, Flesh-making, Heat or Valort, and Fat-making elements. All of its constituents are *nourishing, purifying, and strengthening. It Repairs, Builds, Recruits, and draws out of the body* the products of Decay and Corruption. CONSUMPTION, WHITE SWELLING, DROPSY, SYPHILIS, CANCERS, TUMORS, &c., are all of a scrofulous diathesis, and as such are within the curative range of the Sarsaparillian Resolvent.

That Scrofula, by whatever name designated, is the result of deposits from the blood, induced or caused by Chronic inflammation. That three deposits take place when the blood is *poor, weak, watery*, and incapable of holding in solution its proper constituents, or from the presence of some virus or poison in the blood, as Mercury, Calomel, Corrosive Sublimate, which is the Corrosive Chloride of Mercury, or other agents given in medicines and which enter largely in the common advertised Sarsaparillas, NOT ABSORBED OR CHANGED FROM THEIR NATURAL CONDITION.

That unless the repairs of nutriments are greater than the wastes, first decomposition and decay will supervene, and the powers of life become exhausted.

That the dying body cannot be sustained on any treatment of medication that exhausts the system, or fails to nourish the blood, the only medium through which the *vital* forces are preserved, and on which the growth of the body depends.

That Radway's Sarsaparillian Resolvent supplies a want never before possessed or known to exist in medicine; that this new and principle in Chemical science, which has been brought to such a perfect system of cure, is exhibited as follows:

1. Its great power in assimilating the food in its first stage of distillation: the process of digestion, as chyme and chyle with the nourishing elements of blood, separating from these liquids refuse and inert qualities before they are taken up by the lacteals and are formed into blood. Here we see that by its wonderful power it charges the system with the very essence or principle that forms the vital powers of the body, and its chemical action on the blood in its primitive and complete condition separates every atom of refuse material or element, out of which the virus of disease is formed.

TEACHER WANTED.

A Male Teacher, holding a Second Class Certificate, for School Section No. 3, Dysart, known as the Haliburton School, to whom liberal wages will be given. School to commence immediately. Applications to be made, or addressed, to the undersigned, in Haliburton.

J. R. ERSKINE,
Sec.-Treas., S. S. No. 3, Dysart.

Haliburton, Jan, 13, 1871. 3

WILSON, BOWMAN & CO.

Hamilton, Ontario,

MANUFACTURERS OF THE CELEBRATED

LOCKMAN SEWING MACHINE,

Take pleasure in announcing that the popularity of the Sewing Machine manufactured by them is still on the increase. They are now turning them out at the rate of 600 per month and yet have been compelled within the last two weeks to increase their facilities to a capacity of one thousand per month.

The Lockman Machine, from its capacity to sew the heaviest fabrics with linen thread, as well as the finest cambrics with No. 150 Cotton, is pre-eminently the Farmer's Favorite Family Friend.

It is so exceedingly simple in its parts, and so strongly and durably made, that it does not require a mechanical genius for its management.

The manufacturers challenge the world to produce its equal, and yet its price is from Forty to Fifty per cent. Lower than that of any other first-class Shuttle Lock-stitch Sewing Machine.

EVERY MACHINE IS WARRANTED.

NEW SADDLERY!

The Subscriber wishes to inform his friends—old and new—that he has re-commenced the

Saddlery and Harness Business,

In the Shop next to the Toronto Bank,

Lately occupied by the Telegraph and Express Companies, opposite to Messrs. Nicholls & Halls, Simcoe Street,

Where he will at all times keep on hand or have made to order by first class workmen, everything usually kept in first class establishmen'ts, such as

GENTS' SADDLES, LADIES' DO,
Harness, Single and Double, Coarse, Heavy and Fine,
TRAVELLING BAGS, TRUNKS, SATCHELLS,
WHIPS, MATS, HORSE CLOTHING, &c.

☞ Grateful for past favors in his various lines of business during the last 20 years, he asks his friends to inspect his stock before purchasing elsewhere.

Peterboro, May 18, 1870. 20 D. HOPKINS.

HUMBUG EXPOSED.

THE Subscriber begs to inform his customers and the public generally, particularly those intending to buy Furs, NOT TO RETAIN their orders, as there never was a better chance to select Furs than at my store. The stock consists of my own manufacture, and of nothing but the real article. I have none, nor ever had any of the so called German Mink, French Seal, Sea Otter, British Sable, and numerous other high sounding, fictitious names, by which trashy imported articles are disposed of at fabulous prices. Is it not also true that Russian and Western Mink, being colored, is disposed of as Canada Mink? Goods made up for wholesale trade are of inferior quality.

Whether my own manufacture compares favorably with city manufactures, the following will show for itself. It was my own workmanship which secured to Mr. McIver, of Montreal, the First Prize for a set of Ladies' Furs, at the exhibition in 1858, held in the Grand Trunk Sheds at Montreal, against the following competitors:—Messrs Greene & Sons, Brahadi, Henderson, Brown, and several others, Mr. F. W. Lassak, of New York, being one of the Judges for Furs. The same Lady's set was sold to a Baltimore lady for the handsome sum of nearly $400. I believe myself capable of doing now, as I did then.

An Examination of my Stock is solicited.

The Highest Price Paid for RAW FURS.

W. LECH.

Peterboro, October 19, 1870. 42-17in

50-6ins. Hunter Street, Old Stand.

Select Poetry.

(Written for The Examiner.)

Scotlands Bard's.

Ancient an' modern Poets, they
Ha' sung o' Scotland, mony a lay,
They've wauld the Burn, an' climbed the Brae.
Nature to know.
An' lov'd by river banks to stray
Whar' waters flow.

They've sung o' thistles, an' o' flowers,
Traversed the gleze, an' shadow'd bowers,
An' sailed o'er lochs, an' rear'd auld towers
Whar' chiefs liv'd once;
An' Kirk, whar the deels music powers
Made witches dance.

O' kings an' beggars they ha' sung,
An' queen's beheaded, rebels hung,
Likewise o' witches, auld and young,
Wha' walk't abroad
At night, when they their cantrips flung,
An' broomsticks rode.

They've scan'd the beauties o' creation,
Peer'd into life in every station:
The mouse left without habitation,
They've wrote upon it,
An' scan'd the raptile's situation
O' miss's Bonnet.

They likewise prais'd the barley bree
An' said it made their muss run free:
Tho' gallows' proof they oft did see
Near and broad,
They still would argue, it to be
Creature o' God,

Tho' Cadger Will shud coup his cart
Webster Jock, break his mither's heart
Or Tailor Tam, be in the dirt
A whole night through;
The moderate folk wi' it wouldna' part
Tho' some got fu'

In days o' yore folk couldna' see
As we, the ills o' barley bree,
But now, its fruitsis proved to be
Disease an' death;
Who'd live in health, a bad end free,
Now wisdom saith.

Touch not nor taste, what aye doth fill
Our country with all kinds o' ill,
An' finally sends off souls to Hell
An' lastingwo';
For there God's words us plainly tell
All drunkard's go.

We hope, Scotch Bards, will na' more sing
O' Barley Bree: nor to it cling
Some o' them's felt the adder's sting
An' serpents bite,
Whose songs, to Scotchmen aye shall bring
Heartfelt delight.

A. GRAHAM, Otonabee.

Selections.

THE BEAUTIFUL TEMPTRESS;
A SKETCH FROM REAL LIFE.
BY R. R. ENGLE.

Thousands of instances are on record of the powerful influence wielded over men by women whom they love, admire, or respect. Ever since the hapless day since our Mother Eve tempted her lord to partake of the forbidden fruit, there has been no end to the number who have followed her example, and have exerted their power for good or for evil over the sterner sex. On the night of which we write, one of the fashionable palaces of Stuyvesant Square, in the city of New York, was brilliantly illuminated from the third story to the basement. The magnificent brown stone front seemed a blaze of light. On each side of the avenue luxurious coaches, drawn by richly caparisoned steeds, were drawn up in waiting, while the liveried coachman reclined in listless ease upon the

It was a radiant night in radiant October, for the watering places were forsaken, and New York was once more "in town," before the glory had all departed from earth and sky. The bright young men looked lovingly down from a sky of marvelous clearness and beauty, and the air was filled with that subtle influence which no other season can boast of possessing, and which belongs to no other country than ours. I have said it was a radiant night; it was also, as the reader may suppose, a gala night, for in that aristocratic mansion was to be commemorated the nineteenth birthday of the peerless Blanche Aurelian: and here were assembled all the *elite* of that fashionable locality—enough "beauty and chivalry," indeed, to dazzle one's eyes and linger in dreams for many a day.

Within the mansion all was splendor and festivity. The dance was convened; "fair women and brave men" glided through the intricacies of the German, while others roamed through conservatories, stood in rapt admiration under some o'erhanging paintings of an Italian nook, or by windows watching the revelers.

Among all who helped to make up the throng of youth and beauty, there were none who could rival our heroine, the glorious Blanche Aurelian. She belonged to an ancient French family, on her paternal side, but her mother was Spanish, one of the lovely children of far-famed Andalusia.

How they came to New York but few could tell; but as they were known to be possessed of princely wealth, not many cared to question their right to mingle in the best society New York could boast. Blanche inherited all the most desirable personal characteristics of her father and mother. She had her fathers golden hair, his fair complexion, and her mothers melancholy eyes of dark and lustrous light.

She moved among her guests a queen in her own right, a being to all appearance too fair and lovely for earth, and yet one without whose presence earth would seem dark and lone where she had been and was no more. How many suitors had plead for her hand, and plead in vain! Ah, the number would be great; all these years since she had first learned to think of love as a probability in her own case, her heart had yielded to no appeals, though manly grace and noble worth had begged for an encouraging smile. She had indeed, yielded to none, but within the last two months her hitherto unsmitten heart had felt the shaft of Cupid, though she scarcely acknowledged the fact even to herself. It is said that a woman can read the thoughts of the man who loves her, and Blanche had, since she walked the beach of Long Branch, in the summer just past, with David Stuart, read in his eyes, in each act of courtesy to her, that he loved her better than he loved aught else in the world beside. And he was her peer in every quality that would recommend him to the affection of a high-bred and beautiful creature like her.

He was the soul of honor, yet of an impetuous and fiery temperament, and who once set in any course of action, or once induced into yielding to a habit, would with utmost difficulty restrain himself. Especially was he conscious of this weakness of his nature—noble and lofty as it was—in regard to the use of intoxicating liquors. From his earliest youth, he had been taught to "touch not, taste not, handle not" the unclean thing. All his father's ancestors for three successive generations had been victims of the rum fiend; and although their lives had not been required at the hands of the accursed demon until old age, yet they had seen their thousands swept away by the yielding to that eager thirst for stimulants which seemed to be a curse handed down by some fell avenger.

Davids father had escaped this curse—if curse it was—though by constant wrestling with the tempter; and his son and heir, who was to inherit all his princely wealth, his good name, and his undying love and blessing—it had been the one hope of his life that this one strong young branch from the parentt tree might be protected from the foul fiend of intemperance, and escape the fate of his ancestors.

The father early saw that his sons organization was—how fine, how high—strong and nervous, and hence the jealous care with which he had been guarded from the tempter's power. And it was not until he was sent to college that he was, as a surer safeguard, entrusted with the sad history of his forefathers.

Mercifully he was preserved through the ten plations of those wild days, and as he entered upon his profession and gradually ascended the ladder of fame and renown, and come to be recognized as one of the rising stars in his profession, it was with no little pride that his gray-haired parents looked upon their son and thanked the Lord that he had been brought unscathed through the treacherous pathways of youth, and landed safely on the mountain of strong, resisting manhood.

Alas! they knew not his most rare temptations was yet to come, nor what the result would be. Well for their peace they could not even with their all-absorbing affection, pierce the veil which hid the mysteries of the future from their gaze.

Twenty-five he was; that summer he went with a party of boon companions, to Long Branch. They had gone down to escape the hot streets and burning sun, which seemed hotter in the city than anywhere else, not because he expected to see anybody in particular, but to idle away the sultry days in bathing, and whatever else might chance to offer pastime.

It happened one morning, as the bathers, in their quaint costumes were sporting with the waves, that suddenly a sharp cry of distress proceeded from some one who had ventured beyond the rest. In an instant all eyes were turned towards the place from which the cry came, when, horror of horrors! what should they behold but a monstrous shark making all headway towards the fair creature farthest from the land, and who had been all unconscious of the cruel monster's approach, until he was almost close upon her.

The lady was an expert swimmer, or she would not have ventured so far, but all knew she could scarcely compete with the murderous fiel and regain the beach before her hungry pursuer.

"For the love of God," exclaimed the lady bathers, "cannot some one help her?" All seemed in a panic of frenzy, and none appeared to be able to do anything in their fright.

But very soon, from a party of gentlemen who were bathing at some distance from the others, one hearing the commotion, struck out boldly for the scene, as soon as he discovered the course of alarm, he plunged at once after the unfortunate lady.

Oh, what a time of suspence was that! the shark was rapidly gaining on his prey, and the race for life seemed sure to end in vain. On came the huge sea monster, and nearer came the gentleman to the rescue, and just before the shark was about to make the final plunge to secure his prize, the fainting, gasping form of the beautiful girl was clasped in a strong arm and borne triumphantly towards the beach; while the foiled shark turned himself back towards his more accustomed haunts.

Then came a profusion of thanks from the friends of the rescued girl to her noble deliverer from the jaws of death; all of which were received almost mechanically by David Stuart, for one glance from the eyes of Blanche Aurelian had sealed his doom. He loved her madly, wildly, passionately, as such natures always love—not a passion that burns intensely for a time and exhausts itself, but one whose intensity is only equal to its truth and stability.

From this, as was natural, an acquaintance sprung up; and, instead of wondering about aimlessly for the rest of the season, young Stewart had an object in life—one that was all the world to him, and one which was a guiding-star and one that might lead him to immeasurable heights of glory and fame; or—alas! alas!—plunge him into perdition. For his whole fires, intense soul was swallowed up in this love. Oh, the heavenly days, the nights born of Paradise, that made up the rest of that season on the seaside! The world seemed born anew to Stuart. He saw beauty in everything, for he beheld all with eyes made radiant with love. A bright, bright time, ending all too soon, as all happy seasons end. And it came to an end without David Stuart's making a formal declaration of love to Blanche Aurelian.

* * * * * * * *

The banquet hall at Louis Aurelian's mansion, on the night on which our sketch opens, was at last entered by the gay crowd assembled there on Blanche's birth-night. Opposite the fair Blanche sat Mr. Stuart; and while the exquisite cut glasses beside all the rest were often drained of their contents, those of Stuart remained untouched by him. At length this became noticed, and a remark reaching Blanche's ear, she said:

"Why do you not drink Mr. Stuart?"

"I never drink wine, thank you Miss Aurelian."

"Never drink wine, indeed!" exclaimed all at that part of the table.

"Why I hope you are not a fanatical temperance man, Mr. Stuart."

"I am, nevertheless, and from principal," said the young man.

'Well, surely,' Miss Aurelian said, 'you will not refuse me on this occasion? You will pledge me on my birth-day in this glass of Bordeaux?'

'I must beg you to excuse me, Miss Aurelian.'

'Oh, but I cannot indeed, Mr. Stuart,' and the glorious eyes were upon him in more than their wonted brilliancy—raised to his, too, in such an appealing look that he could with the utmost difficulty resist. Would he not yield anything—even almost heaven itself—for the lovely countenance?

'Come, now, Mr. Stuart; just this once, for my sake.'

"For you be it, then,' said he. And this time the tempter triumphed, and fiends laughed and exulted over the victory. Stuart drank the glass of Bordeaux—but not that one alone. One—two more—and his brain was fired. That fine, exquisitely sensitive temperament of his was subjected to the terrible ordeal, and he was lost! He proposed that night and was accepted. Oh, how brilliant he was under the stimulating effect of those glasses of wine! He never knew before what an exhilerating effect it would have. How eloquently did he plead his cause with the chosen one of his heart! He was under a spell, a potent, wonderful spell; and his words of love came in a torrent, as if he had been inspired by the gods.

Time passed on. The spirit of fashion engulfed there two, and at every hop they were present; and he not only drank at these, but elsewhere.

Oh, let us not linger over his downward, fatal career. It was all for the love of her. The work of destruction was swift and sure. How can I portray the fall of such a noble specimen of God's handiwork as he was? 'Tis sad enough, God knows, to record the fall of one obscure, ungifted, and one around whom no fond hopes of future greatness cluster; but for such as him! oh, the angels in heaven, in their purity and love, must weep bitter over the downfall of such a one. They were to have been married. The day was set, and the wedding was to have been in beautiful grace church. The Aurelian mansion surpassed it possible, in brilliency, any former occasion.

Gradually the hour drew near in which happy bridal party were to leave for the consecrated altar. The bride to be was simply glorious in her bridal robes; bridesmaids in abundance were no less richly attired, and all were looking forward with happy expectation towards the brilliant denouement.

But why does not the bridegroom come? Surely, he would be here before *this*; yet the train on the Hudson Railway might be late. Could any one tell whether it had arrived? Alas! yes.

What means that dark, mysterious messenger who asks to speak privately with Mr. Aurelian?

He is ushered into the library, to the wonderment of all who see him; and when he emerges therefrom, a groan is heard to proceed from there also, and the words, "Oh, my God! have mercy on my child!"

* * * * * * * *

The train had left Tivington with the bridegroom and his attendants on board. They had all partaken more or less freely of liquor, to nerve them, as they thought, for the coming occasion. Stuart, though he had not drank as much, was visibly affected by what he had taken, for he could not stand as much as those of more lymphatic temperament. His companions should have spared him, knowing this; but at a station below, when it was proposed to get off and take something more, he would not refuse—he was not permitted to, really. He got off: he drank to his own happiness and that of his companions, until at the end of the ten minutes, when the whistle was sounded, he could with difficulty sustain himself on his feet. His friends, not being aware of his condition, rushed hastily for the train, already in motion. By the time Stuart reached it, the wheels were revolving rapidly. The bystanders called "take care," but he heeded not the warning, so eager was he to board the train. Oh, he thought of that one he loved so well, and of the bliss in store for him, and he could well afford to brave every danger. He clutched the railing, but his hold was unsteady, and—oh, heaven! with one lucid cry of "God, save me!" all was over with that bright and beautiful existence.

The house of joy was turned into a house of mourning and lamentation—and all through the influence of one woman! She had done it all. Say not, O skeptic and scoffer, that it was his fault. Say not that you have no influence over those around you, especially those you love and who love you. A man like David Stuart, so highly gifted with everything calculated to ensure success in life, is the most easily led into temptation. He can hardly resist the influence of the woman he loves beyond all computation, however much his conscience may warn him.

Poor human nature, unsustained by grace and all good human influences, is truly as a reed in a storm. Shall we not, oh, friends of the temperance cause, be spurred onward to vigorous action by these sad, sad instances of the evils we strive to combat? Oh, let not the appeal be in vain. And you, oh, sisters! you who have husbands, brothers, or lovers, be watchful and guarded in your influence over those you love. See that you exert none of your power for evil, and instead of seeking to gratify your vanity by seeing men yield to you in these things, seek to win the reward of an approving conscience; and in the day when you bid farewell to earth, the noblest epitaph a true woman can desire is that it may be said to her,

"She hath done what she could."

Newspapers and Periodicals.

We learn from the *Canadian Dominion Directory*, to be published in a few days, that on the 1st of January, 1871, there were 446 publications issued in the Dominion of Canada and the Provinces of Newfoundland and Prince Edward Island, divided as follows:

	Ont.	Que.	N. Sco	New Brk	Prov.	Man.	P. E. I.
Daily	24	12	3	3	1		0
Tri-weekly	2	11	6	2	2		0

Clerical View of King William.

The English papers contain the report of a sermon preached at St. David's, near Liverpool, on Christmas day, by the rector of Merthyr Tydvil, in Wales. In the course of his sermon, the preacher said:—The age they lived in seemed to be rolled back into the very middle of the dark ages. Men were raging one against another as though they were devils—tearing and killing each other with a degree of hatred as it Jesus had never been born. At the head of all this was an old, old man, 75 years of age, with one foot in the grave and the other half paralized out of it. Yet there he is, mocking God with his thanks and his hyp crisy, as though God, the father of our Lord and Saviour Jesus Christ, were the god of Tophet, who took delight in drinking the blood of children—or of Moloch, who caused them to pass through the fire, and then went to prayers! Oh, the hoary-headed old Pharisee, clothed in purple and fine linen, wearing a crown dripping with the blood of innocents! Does he ever consider what sort of a place that God whom he is for ever mocking will reserve for him in another world, when he has done with all these cruelties? Does he ever see the lesson that is read to him in the very spot where he is now revelling in blood and slaughter? Those of you who have been at Versailles will remember that one of the most remarkable sights connected with that place is the wonderfull series of pictures recording the battles, the sieges, the stormings, the surprises, and all the other forms of wholesale and retail murder which France has ever taken part in. There they are in rows upon rows. I might say almost in miles upon miles! Such an array of painted canvass was perhaps never seen before in one gallery As you enter you will also remember the inscription over the door is, "To all the glories of France." Poor France! When she painted all that canvass over and wrote above it that vainglorious legend, she little thought how bad it was to glory in anything so wicked as that which is the result and consequences of war. Instead of this it were better far to wipe them off memory altogether; to let Christianity cast a veil over them. However, she has now had to pay dearly for her vanity. Her so-called glories are trodden in the dust, trampled upon by the iron heel of the invader—that pious monarch, whose prayers are lengthened in proportion to the number of men and women, and priests, and children, whom he has slaughtered. I often wonder, when he reads this legend—as he cannot but do, day by day, as he goes in and out of that palace—whether the thought ever comes across him that fortune is but a fickle goddess; that the battle is not always even to the strong; that the goddess may give her wheel yet another turn, and that the mercy which he now ruthlessly withholds from down-trodden France may yet be withheld from him when a Mightier and a Stronger than he shall take the field, and judge him for his deeds. Possibly he thinks of no such thing. Most probably, indeed, he only thinks that when he gets to his palace-home at the Unter den Linden he, too, will have a Versailles there, and that the legend over the door will be, "To all the glories of Berlin!" May be so. But for me, I do not hesitate to say, far better concentrate a slaughter-house—a shambles—to all the glories of a butcher; for a greater butcher of men, women and children never yet walked in purple and fine linen.

VARIETTIES.

Lorenzo Dow.—The best anecdote of Lo-Dow that we have seen, is, that being one evening at a Hotel, kept by one Bush, in Delhi, N. Y., the residence of the late General Root, he was importuned by the gentleman, in the presence of the landlord, to describe heaven. "You say a good deal about heaven, sir," said the general, "pray tell us how it looks." Lorenzo turned his grave face and long waving beard toward the General and Mr. Bush, and replied with imperturable gravity,—"Heaven, my friends, is a vast extent of smooth territory. There's not a "knot" or "bush" in it, and there never will be."
(Gem.)

How To Ruin A Son.—1 Let him have his own way.
2 Allow him a free use of money.
3 Suffer him to roam where he pleases on the Sabbath.
4 Give him free access to wicked companions.
5 Call him to no account for his evenings.
6 Furnish him with no stated employment.

When an extravagant friend wishes to borrow your money, consider which of the two you would rather lose.

Editorial Items.

MASQUERADE SKATING CARNIVAL:—Mr. Rackett's Masquarade in the Curling rink, will be held on Friday evening next. We understand the arrangements will be orderly, and sufficient to command the patronage of Mr Rackett's lady friends, as well as those of the opposite sex.

The monthly public meeting of the Y. M. C. A. will be held in their Hall, on Monday evening, 6th inst., at 8 o'clock, when Mr. Fairbairn will read an Essay on "The Benefits to be derived from the Study of Unfulfilled Prophecy"; beside which there will be readings and music. A charge of ten cents will be made for admission.

The committee of the Protestant Home acknowledge with thanks the following donations for January:—Mr. Kingan, knob, glass and lock for door; Mrs. J. J. Hall, from social, chickens, turkies, cakes, bread, &c.; John Laing, bag of potatoes; Mrs. Patton, lock for cellar door; Mr. White, quarter of mutton; Mr. Erskine, parcel of goods; omitted last month, Mrs. Robert Nicholls, quantity of groceries and a turkey

"GALLETLY, SCOTTISH VOCALIST."—We have great pleasure in informing our numerous subscribers throughout the County of Peterborough, that David Drummond Galletly, Scottish Vocalist, and Choirster Canada Presbyterian Church, Peterboro, intends giving Concerts chiefly of "Scottish Song," through all the principal places and villages in this County. Mr. Galletly makes no pretensions to equal Kennedy, as a humorist, as a story teller, (in which Kennedy is inimitable,) or in the bold bravura style of songs; but in the soft, tender love songs, such as "Afton Water," "Of a' the airts the win' can blaw," "The Murmur of the Shell," &c., Mr. Galletly equals, and comparing voices in sweetness of tone, surpasses the celebrated Kennedy. Mr. Galletly will have a party along with him which will give variety to the entertainments. English and Irish songs will form part of the programme. As the above entertainment will be no ordinary treat to the villages who have seldom the privilege of listening to songs sung with so much taste, sweetness, careful expression and correct enunciation, pathos and spirited boldness, where necessary to rightly interpret the sentiments of the poetry. In fact, Mr. Galletly's whole soul seems to feel the sentiments he so beautifully warbles, with his round toned flexible voice. We would advise all Mr. Galletly's brither Scots who reside in the County, and who may wish to spend a nicht wi' the bards o' Scotland, to send in their communications, naming place, night, hall accommodation, &c., to this office at once.

Paris Surrondered.

The news reached here on Monday that Paris had surrondered, and that the French leaders were treating with the Germans in regard to the terms to ensure peace. The latest telegrams we give in another column, and they will no doubt, be read with interest. This war has not had its equal in modern times, perhaps not at any time heretofore. A few months ago, Napoleon and France controlled, to a great degree the affairs of Europe; Spain dare not elect a king without the consent of the French Emperor.

The Italians were not allowed to control their own affairs, not to choose their ruler for fear of French bayonets. In all great enterprises of commerce or of war, the opinion of the French people were first canvassed, and the probable course of the Emperor of the French ascertained. In arms she was supposed to have no equal single handed, and the compactness of her territory, the skill of her generals, the bravery of her soldiers, the prestige of her military glory, all combined to make her dreaded as an enemy and courted as an ally. How strange then to think—to know that to her honor is laid in the dust, her proud Emperor a prisoner of war, her capital in the hands, so to speak, of Prussia, and the proud, valorous and noble French, suing for terms from the grasping Bismarck—yet so it is. The spectacle that meets the traveller in every part of the country when the contending armies passed must be heart rending in the extreme. Homes desolated, vineyards, gardens, houses, store-houses, and homes destroyed and tenantless. The widows, orphans and bereaved parents that must be met with everywhere, must be truly appalling. Highways cut up, fields made into thoroughfares, plantation cut down, palaces and cottages destroyed; and mourning sadness and despair depicted in every face, are spectacles that meet the eye everywhere, no doubt.

This, too, all caused by the ambition of one man, the Emperor of France. The towns and villages too must be sadly defaced. The cemeteries of the noble dead that have been built and filled in a day will long remain places of attraction to the curious traveller or the sorry peasant.—Paris the pride of France, is laid waste, and her beauty marred in such a manner, that a century will be required to reinstate her in all former grandeur.

The lovers of peace everywhere will learn with delight that an armistice of three weeks has been agreed upon to admit of time to form a treaty of peace. Already the terms, are almost if not altogether agreed upon. Alsace and Loraine are to be given up to Prussia. The municipalities are to guarantee indemnity. The Prussians are not to enter Paris. The national guards only remain armed to maintain order in the City. Provisions are being forwarded to the starved population, and the Prussians are dividing their stores to supply the demands of those who are in need.

Peace may therefore be now looked upon as a fixed fact. The people will soon be enabled to return to their usual avocations, but the suffering yet to be endured, no one can fortell. Manufactories destroyed, industries paralyzed; the rich impoverished—and worse still, thousands of the bone and sinew of the country slain.—A century will not restore to her her manufactures. May this terrible ordeal be the means of elevating, and may good come out of all this evil.

PARTYISM.

It is more than amusing—nay it is ludicrous to find the whole Conservative press landing the action of the Combination on the School question, while they never attempt to give any other reason than that the Government said; Mr. Cameron said; Mr. E. B. Wood, replied, &c., or the venerable Chief Superintendent's experience. These things may be convincing to the poor creatures who are subsisting on the pap of the Government of the day, and are glad to pick the crumbs that fall from John Sandfield's table, but they cannot convince the thoughtful and candid reader.

Few teachers will be satisfied with the clause that calls in their certificates and leaves them at the mercy of men who do not know them and who care but little about any thing but the dictum of the man who appointed them.

The clause that is sought to be introduced to compel them to pay $4 a year out of their already scanty pittance, will meet with but little favour from the men who are so poorly paid at present.

It is not what Mr. *Blake* or Mr. *Cameron* says or thinks, that should induce favorable or unfavourable newspaper criticism; but are the measures calculated to benefit the country, or are they not? Instead of taking $4 a year from our teachers, something requires to be added to their salaries, to enable them to maintain a moderately respectable appearance; and an additional $50,000 a year added to the Legislative grant with the clause requiring an equal amount from the municipalities retained, would do more for the country than half the legislation talked of.

It is a fact that an intelligent man can make more at any other profession than as a teacher. Now if the new law, when enacted, should compel him to undergo an examination to all intents and purposes before men in Toronto, as their papers will have to be examined there. How many of our first class teachers will submit to this? Will they not rather leave the profession altogether?

The compulsory clause too will be a dead letter, a nullity, as well as the law relating to township Boards of Trustees.

The small Grammar Schools will ere five years be killed by the Inspector's raising the entrance test, as in that way their average can be reduced, and government aid withdrawn, on account of small attendance, and all this to force the students to Toronto, or the Cities.

We are told there is an immense surplus. Why do they not then aid the people by large grants for school purposes, and thus enable them to secure good teachers, and maintain them?

Dr. Ryerson has been the friend of Education in Canada. He has done much to raise the status of the teacher, and to provide for his being fairly remunerated; but it is to be feared that the present Bill which is calculated to so materially affect all first class teachers, is not in the interest of the teachers, nor yet of the people.

The tendency of all regulations have been to foster a certain class of teachers. This may have been right, but not a few hold contrary opinions.

The Normal School has been of great advantage to the country in preparing teachers for the profession, but to suppose that all who have gone or may go, to that Institution have become, or will become ornaments to their profession, is presuming a good deal. Many of them have been, but not a few have not been even moderately successful teachers. Aptitude to teach is not so much acquired, as it is a natural gift; without which the best education is vain.

The folly of too many has been to land to the heavens everything done by their party, and perhaps on the other hand too often the good of Dr. Ryerson is evil spoken of. But if as a Minister, and as a Chief Superintendent he had attended to the duties of the two offices more closely, and intermeddled less in politics, he would to day be admired by all, instead of abused by many.

The By-Law.

The railway by-law was again defeated by the new County Council. It was brought up on motion of Mr. Millar, and supported by the friends of the railway enterprise. The Warden ruled it out of order on the legal ground that it should have been passed or rejected at a special meeting, called for the purpose.

Mr. Peck as Ward[illegible] the decision of the Warden, so as to give promoters of the scheme a chance to test the new Council on the matter.

The Council sustained the appeal, and in consequence a vote was taken on the by-law, when it was found there was a tie; nine members voted for the by-law and nine against it. The Reeve of Ennismore was absent. This cast the onus on the Warden, of deciding its fate, which he did by declaiming it lost.

The Warden took this stand because of the dangerous precedent it would be setting to allow one Council to take up a money by-law, that had been defeated by the old Council; and there can be very little doubt that he was right.

There were grave reports that a deputation from Belleville were using their influence in a way that it was thought would produce favorable results, but the effect was not as anticipated. The considoration offered may in some places prove successful, but they certainly were not here.

WHAT SHALL BE DONE?

Is the question of the day, since the defeat. Is this the end of the Grand Junction to Belleville? We certainly think not—It may delay the enterprise, but cannot utterly defeat it

It is now the duty of the friends of railways, but especially, of the friends of this railway enterprise, to go anew to work, and either get up a new by-law and submit it to the Council at the June Sessions, or, submit one to the municipalities interested.

There can be no doubt but that the new Townships owe it to the older ones, for their fostering care, to pay a little to the present enterprise, and after due consideration they will see their way to do it. But the question of route, had a good deal to do in the defeat sustained; let a new by-law be submitted and leave the matter of route an open question, and a handsome bonus will be the result.

THE MANIA.

for railways has taken possession of the Canadian public. There is one in course of construction from Whitby to Lake Scugog. The indefatigable John Fowler, is talking about a railway from Bowmanville to Bobcaygeon, which would intersect the Midland near Omemee. Then the proposed Haliburton R. R. from Peterborough to Haliburton, and the Grand Junction, are all projected for this section of country—but will not all be completed in our day.

In the interest of Peterboro, the Haliburton Railway, as far as Buckhorn or the Lakes, is needed, and if it should reach its proposed destination all the better, but it is generally conceded that the route proposed last, is not the right one, and this fact led to the defeat of the by-law proposing a bonus to it. It could not be expected that Galway, Minden and Snowdon would support it when it did not even touch those Townships. If the road should run to Nogies Creek, a mile or two of a branch to Bobcaygeon would serve all the purpose of a road to that village, and secure the co-operation of the Reeves of the Townships on the Bobcaygeon road, and would completely answer all the back country; and a branch *terminus* at Bobcaygeon would do more for that village than a road running through it, as it would then become the centre of the lake trade, and of the back country trade.

In the East of the county the route must be left an open question, to be settled by engineers. The matter, however, should not rest. The directors should communicate with the Municipalities on the route, from which a bonus equal to what was asked from the County would certainly be obtained.

Town Council.

The Council met. Present His Worship the Mayor, and Messrs. English, Morrow, Dennistoun, Smith, Stevenson, Doharty, Lundy, Toole, O'Bierne, Henthorn and Edmison.

The minutes of the last meeting were read and confirmed.

An opinion from C. A. Weller, Esq., on the matters referred to him as to the way to force the Midland Railway, to make them comply with the requirements of the Statute, in having the rails higher than required by law; and as to the liability of the Company to pay the interest specified in the By-law, for the benefit of the property holders on Bethune Street.

On the first question, he considered that if the Company have rails on the streets higher than the lawful height, the remedy was by indictment. In respect to the second question, he considered the company not legally bound to pay anything to the persons whose property may have been injured, and that the Council could not compel the company to pay the interest mentioned in the By-law. The communication was received.

Two communications from J. T. Henthorn, Esq., complaining of the Constables of the Town, were read, and on motion received.

A petition from Wm. Armstrong, was read, asking the Council to remit a fine imposed on him for selling liquor without license; it was received.

A complaint from Wm. H Hall, for over assessment, and an account from A. B. Kidd, together with the communications from Mr. Henthorn, were referred to the Committee on Finance.

A report from the committee on appointments to office, was read by the Chairman, and on motion for adoption the vote was:—

YEAS—Messrs. Toole, Stevenson, Henthorn, Dennistoun, Lundy, English, Morrow, Smith and O'Bierne.—9.

NAYS—Messrs. Rutherford, Edmison and Doharty.—3.

A By-law was then read making the appointments.

The blanks were filled in committee of the whole, as follows:—

For Chief Constable and Street Inspector, George Johnston, salary $475. Assistant Constable, John Howden, salary $400. Constable North Ward, John Irwin. Constable East Ward, Wm. Arnott. Constable South Ward, John Howden. Constable West Ward, Thos. Davis; to receive $1.50 per day when called out by the Mayor; and their fees on other occasions, except John Howden, who has a fixed salary. All the officers to hold office during the pleasure of the Council.

The recommendation of appointments as Assessors, was referred to the committee on appointments.

On motion of Mr. Edmison, the securities of officers of the Corporation requiring to furnish such, were referred to the committee on Finance.

The Council adjourned for one week.

County Council.—Continued.

Thursday, 26th January, 1871.

The Council met.

R. D. Rogers, Esq., Warden, in the chair. All the members present.

The minutes of Wednesday's proceedings were read and confirmed.

On motion of Mr. Millar, seconded by Mr. Blezard, a By-law to confirm By-law No. 364 of the township of Otonabee, was read a first time. Mr. Millar explaining the reason of the requirement of this By-law.

On motion of Mr. Millar the council went into committee of the whole on the second reading of the By-law. The By-law was read without amendment.

On motion of Mr. Coughlan, seconded by Mr Sanderson, the By-law was read a third time and passed.

Moved by Mr. Rose, seconded by Mr. Armstrong, that this council grant the sum of $50 to be spent on the boundary line between Belmont and Dummer. Mr. Millar thought this should be dropped as it would open the way to numerous applications. Mr. Hunter said he had made a similar application yesterday for a similar purpose but it was not granted, and if this was granted he would again apply.

Mr. Coughlan would support a grant even larger, perhaps double the amount.

Dr. Clegg had also a claim for aid for a bridge absolutely needed, and although the council had been liberal, all was needed, and he hoped they would continue their liberality, as about $70 was required for repairing approaches to the bridge over Eels Creek.

Several members spoke in favor of special grants; several against them.

Mr. McCarthy remarked that the committee thought their report was final. If the report should be amended, he would go for it, if every township should receive proportionally, but he would prefer to stick by the report of yesterday, which was adopted.

Mr. Armstrong said no money had ever been spent on these boundaries. Belmont was not prepared to spend much, on this boundary, as already several jobs had been let and completed in Belmont &c., and the contractors have to wait till the taxes of 1871 are collected. He was prepared, however, to accept the report or to establish the custom of each Municipality raising money for its own roads.

Mr. Rose agreed to withdraw his motion.

On motion of Mr. S. S. Peck, seconded by Mr. Farlane, the committee on appointments reported.

It was moved to recommit it to the committee Mr. S.S Peck, seconded by Mr. Buck moved that the report be adopted.

Moved by Mr. Armstrong, seconded by Mr. Rose, that the report be amended by substituting the name of James McWilliams in the place of Mr. R. H. Norton.

Mr. Coughlan had also an amendment in reference to the Inspector of weight and measures. He would, however, agree to take it up in upon council. He referred to Mr. Stephenson as appointed at the June sessions. Mr. Stephenson never had obtained the standard weights and measures, and this council had to direct the Warden to compel the delivery of these standard weight and measures. It is not fair nor right to dismiss him until he had an opportunity of showing that he can do his duty.

Mr. Collins rose to a point of order, as the matter was the insertion of Mr. McWilliams instead of Mr. Norton.

Mr. Armstrong spoke to his own motion urging that Mr. McWilliams was a man fully competent for the duty; while he thought not one of the Councillors would appoint Mr. Norton to take care of his property, and certainly he would not.

Mr. Walton thought it would be a pity to appoint Mr. Norton, as some of the officials would not or could not trust him.

Mr. S. S. Peck would support the report, as if Mr. Norton had given up drink he was qualified for the office.

Mr. Collins asked if the Sheriff had any prerogative in the appointment; if he had, why is he not here to assert his right. He has been an imbiber, but this should not disqualify him if he is now a sober man.

Mr. Millar respected Mr. Norton, but he could not vote him into this office. He would vote him a sum of money, but not to this office.

On motion of Mr. Armstrong, it was then put and carried, to appoint Mr. McWilliams.

Mr. Coughlan's motion was then amended to the effect, that the report be amended by inserting the name of Mr. Stephenson in the place of Mr. Benson as Inspector of weights and measures.

Mr. Coughlan replied to Mr. S. S. Peck remarks in the matter of the appointment of Inspector. Mr. Millar thought Mr. Benson had explained the matter satisfactorily.

Mr. Rose thought Mr. Benson had not used the council courteously in refusing to give up the articles.

There was then a general discussion by Mr. Walton, Hunter, Rose, McFarlane, S. S. Peck, Harrison, Mr. Peck reading the receipt for the articles given to Mr. Stephenson.

Mr. Millar asked if Mr. Benson had demanded six months pay before he would give up the measures. Mr. Peck said pay was demanded but there was no threat.

Mr. Harrison would like to know if Mr. Benson had given up the short yard measure or long one, as he was in possession, he believed, at present, of one of them.

Mr. Clegg would like to know what the articles are Mr. Benson obtained.

The motion to place Mr. Stephenson's name in the report was put and lost. Mr Coughlan moved for yeas and nays.

The report was then adopted as amended.

Mr. Blezard moved, seconded by Mr. Millar that the inspector receive his salary half yearly, not in advance. Carried.

Mr. Armstrong moved, seconded by Mr. Rose, that the memorial to amend the assessment act be read a second time in committee of the whole. The committee rose asking leave to sit again.

Moved by Mr. S. S. Peck, second by Mr. McFarlane, that M. Charles Stephenson be paid the sum of $30 in consideration of his services and troubles as inspector of weights and measures for last year.

Mr. Millar thought $15 enough. Mr. Armstrong [illegible] Mr. Stephenson, which named $30 a year as his salary. He would vote for Mr Peck's motion.

On recommendation of Mr. Walton the motion was referred to the Finance Committee.

Moved by M. Rose, seconded by Mr. Harrison, that the inspector of weights and measures file a complete list of all articles used by him and for which this council has had to pay.—Carried.

On Motion of Mr. Peck the council adjourned till ten o'clock to-morrow to allow the committees to get to work.

FRIDAY.

The Council met. All the members present, the warden, R. D. Rogers, in the chair.

The Minutes of yesterday were read and approved.

Moved by Mr. Walton, seconded by Mr. Sanderson,—That the Warden and Treasurer be, and they are hereby authorized to make, sign and endorse, and negotiate on behalf of this County all notes which shall be required to carry on the necessary business of the County.

Moved by Mr. Coughlan, seconded by Mr. McCarthy,—That the sum of one hundred and fifty dollars be granted to aid in building a County Lock-Up at the Village of Hastings, provided the Municipality of Asphodel give a like sum, and complete said Lock-Up, said sum to be paid by the County Treasure, on the certificate of the Reeve of Asphodel that the Lock-Up is completed, and that this motion be referred to the Finance Committee;—Referred.

The Warden read a communication from Dr. Kincaid requesting to be allowed to address the council.

On motion of Mr. Peck Dr. Kincaid was heard in reference to the appointment of Jail Surgeon.

On motion of Mr. Armstrong the council went into committee of the whole on the second reading of a memorial to the legislative assembly, praying for the amendment of Sub. Sec. No. 2, of Cap. 27, 33 Vic. Ontario—the assessment act, by adding a clause, that will enable a man to become the purchaser of lands sold for less than the taxes, by paying the taxes and cost. The memorial was read without amendment. It was also read a third time and passed.

On motion of Mr. Hunter, seconded by Mr. Rose a memorial was read praying the Legislature to grant power to County Councils to sell lands for taxes, yearly.

On motion of Mr. Hunter, it was read in committee of the whole without amendment.

On motion of Mr. Hunter it was read a third time and passed.

On motion of Mr. Armstrong, seconded by Mr. Moher, a By-law, providing for granting License to Peddlers, Hawkers and Auctioneers, was read a first time.

On motion of Mr. Armstrong the council went into committee of the whole on the second reading of the By-law, the committee rose and reported, asking leave to sit again.

Moved by Mr. Millar, seconded by Mr. Coughlin,—That whereas, at the last session of the Municipal Corporation of the County Council of the County of Peterborough, the third reading of the By-law granting $75,000 in aid of the Grand Junction and $25,000 in aid of the Peterboro and Haliburton Railway, was by resolution passed by said corporation, in session assembled, postponed until the present sessioned, and whereas, the said By-law submitted to the Ratepayers of the County of Peterborough, in accordance with the provisions of the Municipal act, and a majority of the votes cast being in favor of said By-law, be it therefore resolved that the said By-law be now read a third time; passed, numbered, and the Corporation seal attached thereto.

The Warden stated that in his opinion the motion was not in order.

Moved by Mr. Peck, seconded by Mr. Millar,—That the decision of the Warden in ruling the third reading of the Railway By-laws out of order be not sustained; the motion was submitted. Year, the entire Council except Mr. McCarthy, absent, Mr. Millar's motion was then put by the warden, with the following result:

YEAS:—Messrs. Coughlan, McFarlane, Harrison, Rose, Buck, Parker, Blezard, Millar, Clegg. 9.

NAYS.—Messrs. Moher, Moloney, Peck, Armstrong, S. S. Peck, Hunter, Collins, Walton and Sanderson, 9.

The warden declared the motion lost.

On motion of Mr. S. S. Peck a By-law appointing County officers, was read a first time. On motion of the same the council went into committee of the whole on the second reading of the by-law—the by-law was read without amendment.

On motion of Mr. S. S. Peck the By-law was read a third time; the name of Dr. Kincaid being substituted for that of Dr. Harvey, as Jail Surgeon.

On motion of Mr. Coughlan, Mr. Myers, of Trenton, addressed the council on railroad matters.

Moved by Mr. Moher, seconded by Mr. Moloney,—That the commissioners of last year be requested to furnish the Treasurer of the municipality with detailed statements, with vouchers for the same by the June sessions, so as to have the statements made public, for the satisfaction of the ratepayers. Lost.

The council adjourned.

SATURDAY.

The Council met. All the members present. The Warden, R. D. Rogers, Esq., in the chair.

The minutes of yesterday were read and confirmed.

On motion of Mr. Walton, seconded by Mr. Sanderson, the committee on county property reported. The report was adopted.

On motion of S. S. Peck, the special committee to whom was referred the property of granting aid to Dysart to build a Lock-up at Haliburton reported. The report was in favor of the grant for the purpose

The report was read and adopted.

On motion of Mr. S. S. Peck, seconded by Mr. Harrison, the committee on Printing reported, and on motion of Mr. Millar the report was adopted.

On motion of Mr. F. Peck, the clerk was to get the Standing Rules of the Council printed in short form for the use of the members.

On motion of Mr. S. S. Peck, seconded by Mr. Millar, the committe on Finance reported, the report was adopted.

On motion of S. S. Peck, a by-law was [illegible] for paying certain accounts and claims.

It was read a second and third time and passed.

On motion of Mr. Armstrong, a by-law was read a first time to amend by-law imposing a duty on pedlars, auctioneers, &c. It was read a second time, blanks filled in, and then a third time and passed.

We will give the by-law as amended next week.

Dr. Clegg, seconded by Mr. McFarlane, moved for a supplementary grant of $100 for the municipality of Burleigh, for rebuilding the approaches to the bridge on Eels Creek, as the commissioners to spend the $1,000 last year had done nothing to it. Lost.

On motion of Dr. Clegg, seconded by Mr. Millar, a by-law providing for the expenditure of certain sums in roads and bridges, was read a first second and third time and passed.

The Auditors handed in abstract statement of receipts and payments of the County for the year. It was ordered to be filed. The Council then adjourned.

Burns' Anniversary.

LINES DEDICATED TO THE MEMORY OF BURNS ON HIS ANNIVERSARY NIGHT.

Poetic genius! brichtly shine!
Inspire my muse wi' thoughts sublime;
I wish the haf' o' his wis mine—
His flights an' turns;
This nicht a wreath I wad entwine
For Robbie Burns.

Born wi' great poetic lore
That few has now—none had before—
On wings o' fancy he cou'd soar
Up to the lift,
Or depths o' miseries explore,
His pen was deft.

His twa bit dogs shows talents rare—
How rich an' poir mann daily share;
The language o' the Brigs o' Ayr
Is fu' o' truth;
Their arguments be discompare—
Auld age an' youth.

Wi' grief he cud the sleekit mouse
When he ploughed up its cosie house;
He tried to shame the big fat louse
Upon the plays,
Where his pen gave had imagined bruse;
Then Hornbook a victim fell
To his sharp lash—
He cood his drugs an his ancel
Pair wabens trash.

Some fo ks condemn His Holy Fair,
An' sneers at Holy Willie's Prayer;
They pay he trampe religion mair
In guilty days
Sic sceneh, sic mean aye, an' far mair
Theirs noo a days.

Nature an' grains baith unite
To paint the Cotter's Saturday Nicht;
He gripe comparison nae richt
At every turn—
What cosmo grief, what genee duteiht,
An' makes men mourn.

The tricks an' pranks o' Hallowees,
Around the stack Jach chases Jean,
Ha disna mise an fun that's seen—
Black-coats or no,
Auld Nick himsel ha disna esnuse,
Nor place or woo.

Their's Tom O'Shanters tallest Meg
An' Cuttie Sark nae fierce an' gleg,
Or Duncan Gray's could hearted Peg,
He hits them fair;
Fra' King doon to the chaps that beg,
He paints them fair.

O' Cakes an' Paritch the cound sing,
The mackle Haggis he cared king;
The Cequabough was jest the thing
To mak' him rhyme,
To curse the toothache's awful sting
He thought na crime.

In field at plough, he there cou'd find
The scenes to cultivate his mind;
His thoughts wi' Nature was entwined
Like kindred twain;
He lifts the mountain daisy pined,
By his plough slain

Sic power or fancy he displays,
When love or lasses marks his lays!
The bower, the woods, the banks, the braes
O' Ballochmyle;
Her form, her face, her een like skees,
Or wlanin' smile.

He sighed upon the banks o' Ayr,
For Mary he did ever see mair;
He soared in fancy through the air
In grief oppress'd;
A tear wish he craved, to ken, to share,
Her place o' rest.

The flowers may bloom on braes o' Doon,
The birds may sing fra morn till noon—
Alas! thes birds that raised their tune
In ashes lies;
His works, his name still stands a boon
Like nane that tries.

Auld Scotia's harp noo lies unstrung,
At Robbie's death she lost her toungue;
The pens o' auld, the strains o' young,
Has na his art;
His poems, or sangs, when read or sung
Gangs to our heart.

His gifts at times, twas hard to guid them—
He had his faults but did he hide them—
Fake cloaks, ar screene, he could na hide them,
But stripped them bare;
The hypocrites—o' woe betide them—
He skelpt them sair.

An' hundred years has been its flight,
Since first his muses flashed to light,
Scot's' tis your duty an' your richt,
As it returns,
To celebrate the natal nicht
O Robbie Burns.

WILLIAM TELFORD, Smith.

Officers of the Otonabee Agricultural Society.

T. Blezard, President; Daniel Moore, Vice President; George Read, Treasurer; James Drummond, Secretary; Wm. Laing and James Stewart Auditors.

DIRECTORS:—John Gillespie, Alex. McFee, Wm. Laing, Peter McNeil, R. Renwick, A. Nelson, J. Smithson, John Millar and James Millar.

SUICIDE.—A lamentable case of suicide occurred in Otonabee, near Keene, on Friday night last—the unfortunate man being D. McFarlane—a well-to-do farmer. We learn that he committed the act about one o'clock at night, by placing the muzzle of a rifle in his mouth, and drawing the trigger with his foot. His wife was in bed at the time, but not asleep. She heard something fall, and went where it appeared to be, and found that her husband had shot himself. Although the affair took place in the same house, it is said his wife did not hear the shot. An inquest was held, and a verdict of "Temporary insanity" returned.

Narrow Escape from Death.

On Friday night last, Mr. H—— and family of the Village of Warsaw, had a very narrow escape from the fatal effects of charcoal-vapour, under the following circumstances, viz.—The cold had been so intense for some days, that it threatened to freeze up things in Mr. H's cellar, and in order to ward off this calamity, a sugar kettle, with some burning charcoal in it, was deposited in the cellar.

The charcoal had been kept burning with some intermission, for three days.

All this time the family complained of headache, and of a feeling of general depression, but on the night in question, Mr. H. felt worse than usual, and declared he would faint unless he could get out immediately into cold air, and in attempting to get out, he fell on the floor, in a state of insensibility. Now it is highly probable that he would not have recovered from this condition, had it not been for the courageous exertions of his wife, who instantly let in plenty of pure air, and also pulled her husband about in such a general way, that he soon awoke to consciousness. Two of the neighbours had now arrived on the scene of action, and as the suspicions of all parties present fell upon the sugar kettle in the cellar, as being the cause of all the mischief; the determination was to pitch it out; this of course was done as soon as it was safe to venture down cellar.

It is fearful to think that if this family had gone to sleep that night before the danger was observed, they would in all probability, have been found dead in the morning.

And as many people are in the habit of warming their sleeping apartments with pots and pans, filled with burning coals, the case we have just given should serve as a warning to them not to engage in such dangerous experiments; for every body ought to know that the gas which is extricated during the combustion of charcoal, acts as a poison upon any person who breathes it.

And in connection with this subject we may observe that as vast sums of money are paid every year for the support of our Public Schools, we think we are fairly entitled to expect that every child who attends these schools should there acquire so much knowledge, at least of the properties of matter, as would qualify the individual to act his part in life intelligently, without ever endangering his own life or the lives of others by such a dangerous experiment as the heating lids, as the one we have described.

WARSAW.

January 30th, 1871.

To the Editor of the Peterboro' Examiner.

SIR,—I wish, through your paper, to thank the merchants of this town, on behalf of my good clerks for the manner in which they have closed their stores, making, as it does, the hours of labour shorter and pleasanter, and also tending to increase the interest they take during working hours, and to inform the merchants that not a few of them are making the most of their long evenings in improving themselves, both mentally and physically. For recreation there is no excuse, now that we have such a splendid skating rink, one which, I am sure, Peterboro may well be proud of, as it will compare favorably with any in Ontario (except the big city, Toronto), readers judge for yourselves by going to the rink of an evening and see the pleasant and happy faces,' from the child of eight, to Captain Jinks and Miss Jones, jogging round hand in hand, or some one of the skaters in a corner, putting on plantarmagazine of his own selection; or, perhaps, you will see one of those fair creatures help, and ever she goes, to the delight of her friends, who enjoy the fun, much to her chagrin; and he will see a favored few envying each other as to who shall pick Miss so and so up—the darling. But to return to my subject, there is one complaint I wish to make, and that is the confounded bell, which is never rung six days in succession without deviating of several minutes, consequently the stores are not closed at six o'clock sharp, as they ought to be. How is this? has he a watch? and is it from the "Gould" country? or, the land o'cakes. I presume its stops are often full ones, and starts to suit his imagination. Hoping, Mr. Editor, I have not trespassed on your columns.

I am yours truly

ONE OF THE FAVOURED.

THE FALL OF PARIS.

TERMS OF SURRENDER—THREE WEEKS ARMISTICE—REJOICING IN BERLIN.

LONDON, Jan. 20, 4:30 p. m.—Emperor William has sent the following telegraphic despatch to the Empress Augusta:—"VERSAILLES, 2. p. m., Sunday.—Last night an armistice for three weeks was signed. The regulars and Mobiles are to remain in Paris as prisoners of war. The National Guard will undertake the maintenance of order. We occupy all the forts. Paris remains invested, but will allowed to revictual as soon as the arms are surrendered. The National Assembly is to be summoned to meet at Bordeaux in a fortnight. All the armies in the field will retain their respective positions. The ground between the opposing lines to be neutral. This is the reward of patriotism, heroism, and great sacrifice. Thank God for this fresh mercy. May peace soon follow.

Signed "WILLIAM."

LONDON, Jan 27, 5 p. m.—There is a rumor on the stock exchange of the capitulation of Paris, but as yet there is no authentic intelligence confirmatory of the report.

LONDON, Jan, 27.—The *World's* special says:—M. Favre was in conference with Bismarck at midnight. Bismarck carried his point. The capitulation involves the cession of Alsace and Lorraine, and part of the fleet. The money indemnity is to be guaranteed by municipalities; a portion of the German army to return home, and the war to cease. It is necessary that some territory be retained to secure the fulfilment of the compact. The Mobiles are to be sent home. The Emperor will return immediately to Berlin.

VERSAILLES, Jan 27.—The *World's* special says the terms of capitulation of Paris provide for the possession of the forts around Paris by the Germans, but no occupation of the city by them; and the Prince Imperial to be the future Emperor, with the Empress as Regent. A large force will be immediately despatched despatched in pursuit of Gen. Chanzy.

WASHINGTON, Jan 29.—Secretary Fish has received the following telegram:—From Mr. Morris, our Charge d'Affaires at London, dated London, Sunday morning, Jan. 29. The German Ambassador here has officially informed me that the capitulation of all the Paris forts and an armistice of three weeks by land and sea was signed about eight o'clock last evening at Versailles by Bismark and Jules Favre. The army of Paris will remain prisoners of war in the city; but it is not known whether they are to be ill armed or not. No details have yet been received.

Count Bernstorff thinks it is an important fact that the Armistice extends over the Sea, and that it should be made known as widely as possible.

VERSAILLES, Jan. 27.—The *World's* special says:—The articles of capitulation have been signed. Its terms are the surrender of the garrison of Paris and the summoning of the National Assembly.

LONDON, Jan. 27.—An official despatch from Versailles on Friday morning says there has been no firing on either sides since midnight on Thursday.

The terms of peace offered by Bismarck are the surrender of Paris, the cession of Alsace and Lorraine, the payment of one million francs, and the surrender of forty war ships and of one colony.

The money indemnity must be guaranteed by the municipalities. If this be refused, the property of rich individuals will be held in possession as a guarantee of payment.

On the 23rd at noon a letter arrived from Favre addressed to Bismarck, requesting permission to come to Versailles. Bismarck replied that he might come, under the distinct understanding that no mention would be made of the Italian conference; that subject having to be disposed of. The reply reached Favre at half past one p.m., accompanied by Bismarck's private carriage. Favre arrived at eight in the evening, and drove straight to the Rue Provence. Bismarck had finished his dinner, but sent Favre to the royal kitchen, where a handsome entertainment was given him. At ten o'clock Bismarck applied to the Emperor for an interview. Favre spent the night at the quarters of a lieutenant of police. A council of war was held next forenoon to consider Favre's mission. The Emperor, Bismarck, Von Moltke and the Crown Prince were present. The Emperor presided. The council sat for two hours and the result of its deliberations was announced to Favre, who returned to Paris at half-past four.

As he was being driven in his carriage down the avenue leading to the Sevres road, Bismarck, who was taking his daily ride, encountered him, turned his horse's head, and rode by the window, conversing with Favre all the way to the town gates. It is understood the Favre that the army in Paris be allowed to march out with full honors and take up a position in some unoccupied district of France, under his management, and not to resume hostilities for a term of months to be agreed upon, and that there won'd be no triumphal entry into Paris by Germans. These terms were refused by the council, which informed Favre that the only basis of surrender would be the same as at Sedan and Metz.

The state of Paris is terrible. The political clubs arms are at arms, and a sortie of 200,000 was demanded. and Vinoy refusing to allow the useless butchery, General Lodo was put in his place. The reds demanded a new government, 240 members of the National Guards have been chosen for that purpose. Three new batteries were open to-day between LeGrand Drancy and Le Bourget, mowing 25 batteries to full extent.

has ever negotiated for a restoration of the Bonapartes, or that he intends to interfere in the domestic concerns of France.

Sermons on peace were delivered, and prayers of thanksgiving for it were offered before and after morning services in the churches. An immense crowd gathered in front of the palace, and the ladies of the royal household appeared at the windows and waved their acknowledgements to the people. The scenes in the streets are beyond description. Every person on his way to church as he met his neighbor stopped and embraced, and the women were congratulating each other with tears in their eyes. The news of the capitulation certainly creates in the public mind here a charitable feeling, and there is a strong desire to act generously towards the fallen foe.

London, Jan. 29, 2.30 p. m.—A Versailles despatch just received says the Twelfth Saxon Corps as ten o'clock this morning occupied Romainville, Noisy, Rosny, and Nogent; the Bavarians, Clarenton, Mont Rouge and Vanvres, and the Silesian Corps Ivry and Bicetre. Paris is to pay 200,000,000 francs.

London, Jan. 29.—Berlin is rejoicing today over the news from Versailles. No confirmation of the reports of the capitulation were received last night, and it was only this morning the announcement of the actual signing of the terms of surrender was received. The first official despatch was read in the churches.

It is stated in diplomatic circles that the negotiations for the capitulation of of Paris would have been concluded earlier had not Bismarck insisted on the acceptance of conditions of peace.

Berlin, Jan. 29, 2 p. m.—The city is in a perfect frenzy of excitement now that the certainty of the capitulation of Paris is known. To-day the church bells were rung since daybreak, and several services in the churches were attended by crowds of worshipers.

BORDEAUX, Jan. 27.—It is officially announced that Gen. Clinchant has been appointed to the command of the first army in the place of Bourbaki, who is no longer able to perform active service. The latter seems to have, in a moment of mental aberration, attempted to commit suicide with a pistol.

BRUNTRUT, Switzerland, Jan. 28, —Gen. Bourbaki is in a critical position. His head-quarters on Friday were at Roulans, near Besanron. The Germans occupied Salines. The 24th French corps has reached Pont Arlier, and is marching southward The Prussians had occupied Pont Remide, and are advancing through St. Hippolyte and Maiche on Mortean and point Arlier.

LONDON, Jan. 23.—Gen. Bourbaki attempted to kill himself after his defeat at Belfort. His injuries are so severe that his life is despaired of. Many bands of soldiers who have repassed from the French armies are scattered along the west Frontier.

VERSAILLES, Jan. 28.—St. Denis was on fire yesterday at fourteen different places and now it is nearly destroyed. The Cathedral is still burning.

Chanzy has been reinforced with 30,000 men from Cherbourg. It is the intention of the Germans to occupy the whole coast from Nantes to Cherbourg. Severe measures will be taken with the population, especially in requisitions and contributions of money. The Northern quadrilateral will not be attacked. Faidherbe's army will be driven over the Belgian frontier.

The flight of the French to the Island of Jersey is unabated.

There is continual skirmishing around Dijon, with indecisive results.

LONDON, Jan. 29.—The *World's* special says:—A strong influence is at work favouring the restoration of the Imperial family under a regency composed of the Empress, Trochu and Favre. The Emperor of the many will not enter Paris, but will return to Berlin on Tuesday, leaving the Crown Prince in command. Provisions for Paris are being forwarded via Dolppe. To-night there is intense excitement among the French in London.

The *Herald's* Versailles despatch of the 29th says:—Mont Valerian was entered last night by Prussian engineers to draw the mines. Heavy guns will immediately be moved into the forts, as the *enciente* is strongly armed, and no confidence can be placed in the fickle population of Paris until after the general disarming. Strong forces of infantry and artillery moved forward to cover the working parties.

Elections will be permitted in all departments, together with free circulation of deputies through the country. The army of Paris, regiments of the line, marines, and Mobiles are to be prisoners of war, with the exception of 12,000 men who are required to maintain order in Paris. All the corps of Franc-tireurs are to be dissolved; but the National Guard will remain armed. The French troops will deliver up their arms, and flags, and artillery within fourteen days, all of which will be collected at Suran. The French troops may retire into paris unarmed. The cannon of the forts are to be delivered up, but the *enciente* guns are to be disarmed the carriages to be delivered to the Prussians, but the guns themselves to be left; A line of demarcation is drawn between the *enciente* and the forts the French position to extend to the *enciente* only, and the Prussian portion to extend 500 paces from the *enciente*, with certain topographical modifications. Fort Valencinnes will remain in the hands of the French Three railway lines will be repaired, and permitted to convey sufficient supplies for the daily nourishment of the population of Paris. Bourbaki's army and the fourteen of Belfort are not comprehended in the armastic. The Prussian line of demarcation for the Southern armies is to be the line of the Loire. Favre returned to Paris yesterday. The object of the armistic is to spare further bloodshed, and give an opportunity to the French people through the assembly representative at Bordeaux to decide for war or peace.

Alarming rumours prevail of serious rioting Paris since the certainty of the capitulation has been made known.

It is reported that not more than a week's rations remain in Paris at the present time.

By the latest reports of the negotiations it appears that Bismark demands two provinces, one colony, twenty war ships, ten million francs, as the final terms of peace The capitulation will only be regarded as a military act apart from all political negotiations. Communication from Paris is provisionally restricted.

LONDON, Jan. 29 10 p. m.—One division of the line, besides the National Guard, will not be required to disarm.

There is no prospect now that Favre will come to London, and no other person has been accredited to represent France at the conference.

Great numbers of cattle have been collected by the Germans at Rouen, Gournay, and Lagny, to be driven into Paris as soon as it capitulates.

HAVRE, Jan. 27.—A considerable force of the enemy is echelonned between Brionne and Rouen, and detachments have entered Candebec.

LONDON, Jan. 26.—A letter from Guizot to Mr. Gladstone is published to day, in which the former argues at length the question of the proper conditions for peace. He urges England to at least protest in favour of peace, and expresses the belief that such action on her part would not be in vain.

An official statement from the government at Paris shows the French strength at the sortie of the 19th to have been 100,000 men.

A fine of 100,000,000 francs has been imposed upon the citizens of Nancy and the surrounding district on account of the attempt on the railroad last week. Today

ORDER AND SYSTEM.—In every branch of cultivation—whether in the field, the orchard, the vineyard or the garden, there must be order and system to insure successful results, and this truth is firmly established by actual experience. Another great truth has also been established by the same means, which is: That as a preventative medicine, or a medicine for the cure of colds, coughs, rheumatism and common complaints, the "Canadian Pain Destroyer" is the most reliable. For sale by all Druggists and country dealers. Price 25 cent per bottle.

B. B. R. in BRAZIL.

We refer the reader to the following testimony in favor of Dr. Radway's Remedies, from gentlemen of high character in Brazil. Persons doubting the genuineness of the same are requested to write to the parties, also to the U. S. Consul at Rio, as to the correctness of the statements and status of the writers. For every word not true they are of one hundred dollars will be paid:

RIO DE JANEIRO, March 22cd, 1866.

MESSRS. RAYMUNDO C. LEITE & BRO:

GENTLEMEN:—In answer to your favor of 20th instant, asking my opinion in regard to the efficacy of Dr. Radway & Co's preparations I am happy to say that I consider the Relief, and Pills the best remedies ever known, and so form such an opinion, I am obliged to prove it, which I will do willingly, viz: I suffered so much from "colic" that when I was attacked it pained me so much that I preferred *death* to such sufferings, I took everything that was recommended, but it was of no use; at last I took 4 of Radway's Pills after which the pains were very moderate, and then I thought that I was cured, but the pains were still more violent (which I attribute to the negligence in my part in not following it up as directed,) that I was obliged to give into my friend's request to take some "Relief" which he gave me in a dose of one tablespoon in a tumbler of water. In the interval of three minutes I felt relieved immediately, and fifteen minutes after the pain ceased. It is three months since I had an attack, and should I feel any symptoms of it I take the "Relief" I will do all in my power to convince the Doctors of the good results of these medicaments, so that they may prescribe them.

I am, gentlemen, your obedient servant

LUIZ JOZE DA SILVA, CAMPOS.

Invalides Street, No. 58

Hide Bound Horses.

A Horse is said to be hide-bound when his skin will not slip under the pressure of the hand, but sticks as if it was glued, which condition is always dependent on a derangement of the stomach and digestive organs, by correcting which, and giving to them a healthy tone and condition, the disease or complaints will disappear. Experience has proved that the means best adapted to this end is "Darley's Condition Powders and Arabian Heave Remedy," it has been used in numerous case with complete success, generally effecting a cure in a few days. It is the best condition medicine known, and may be given with perfect safety at all times, and does not require that the horse be kept from work.

Remember the name, and see the that the signature of Lloid & Co., is on each package, Northrop & Lyman, Newcastle, Ont., Proprietors for Canada. Sold by all Medicine Dealers.

☞ Two or three colds in succession will, with many constitutions, securely establish the seeds of consumption in the system, thus converting what was originally a simple, curable affection, into one generally fatal. Ordinary prudence therefore makes it the business of everyon to take care of a cold until it is got rid of.—Fortunately "Bryan's Pulmonic Wafers" are thoroughly adapted to remove speedily all coughs and colds and are equally effective in the primary stages consumption, asthma and Bronchitis. Sold by all Druggists and country dealers. Price 25 cts, per box.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier, alterative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phythisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, Diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious cholic, cholera infantum, dysentery, &c.

Price only thenty-five cents per bottle.

IS SOLD IN PETERBOROUGH BY A. B. KIDD.

He also sells the WEBER PIANO

Select Poetry.

The Pious Braham and His Neighbors.

A pious Braham made a vow
Upon a certain day
To sacrifice a fatted sheep,
And so, his vow to pay,
One morning to the market-place
The Braham took his way.

It chanced three cunning neighbors,
Three rogues of brazen brow,
Had formed the wicked purpose,
(My tale will tell you how)
To cheat the pious Braham,
And profit by his vow.

The leader of these cunning knaves
Went forth upon the road,
And bearing on his shoulders
What seemed a heavy load,
He met the pious Braham
Not far from his abode.

"What have you there?" the Braham said;
"Indeed," the man replies,
"I have the finest, fattest sheep—
And of the largest size;
A sheep well worthy to be slain
In solemn sacrifice!"

And then the rogue laid down his load,
And from a rag drew forth
A scurvy dog!—"See there!" he cried,
"The finest sheep on earth!—
And you shall have him, if you will,
For less than he is worth!"

"Wretch!" cried the pious Braham,
"To call a beast so mean
A goodly sheep! 'Tis but a dog
All scurred and unclean;
The foulest, leanest, lamest cur
That ever yet was seen!"

Just then the second rogue came up;
"What luck?" (he said) "to find
So soon a sheep in flesh and fleece
Exactly to my mind!"
"A sheep?" exclaimed the Braham,
"Then I am sorely blind!"

"You must be very blind indeed,
Or fond of telling lies,
To say the beast is not a sheep!"
The cunning rogue replies;
"Go get a leech to mend your tongue,
Or else to mend your eyes!"

Now while these men disputed thus,
The other rogue drew near,
And all agreed this honest man
Should make the matter clear.
"O stranger!" cried the Braham,
"What creature have we here?"

"A goodly sheep!" the stranger said,
"Alas!" the Braham cried,
"A moment since I would have sworn
This honest fellow lied;
But now I know it is a sheep,
Since thus you all decide!"

And so it was the cunning knaves
Prevailed in their device;
The pious Braham bought the dog,
Nor haggled at the price:

A pleasing sacrifice!"

But ill betide the fatal hour
His filthy blood was shed;
It brought no benison, alas!
Upon the Brahams head;
The gods were angry at the deed
And sent a cure instead!

The meaning of this pleasant tale
Is very plainly shown;
The man is sure to fail, at last
Who doesn't stand alone;
Don't trust to other people's eyes,
But learn to mind your own.

Anecdotes of Avarice.

My Lord Harwich, the late Lord Chancellor, who is said to be worth £800,000, sets the same value on a half crown now, as he did when he was worth only £100. That great captain, the Duke of Marlborough, when he was in the last stage of life, and very infirm, would walk from the public room in Bath to his lodgings, on a cold dark night, to save a sixpence in chair hire. If the Duke who left at his death, more than a million and a half sterling, could have foreseen that all his wealth and honors were to be inherited by a grandson of My Lord Trever's who had been one of his enemies, would he have always saved a sixpence?

Sir James Lowther, after changing a piece of silver in George's coffee house and paying for his dish of coffee, was helped into his chariot, for he was lame and infirm, and went home; some time after he returned to the same coffee-house on purpose to acquaint the woman who kept it that she had given him a bad half-penny and demanded another in change for it.

Sir James had about 48,000 per annum, and was at alloss whom to appoint his heir. I knew one Sir Thomas Colby, who lived in Kensington, and was, I think, in the Victualing Office: he billed himself by rising in the middle of the night, when he was in a profuse sweat, the effect of a medicine which he had taken for that purpose, and walking down stairs to look for the key of his cellar, which he had inadvertently left on a table in his parlour; he was apprehensive that his servants might seize the key and rob him of a bottle of port wine. This man died intestate, and left more than £1,200,000 in the funds, which was shared among five or six day laborers who were his nearest relations.

Sir William Smythe, Bedfordshire, was my own kinsman. When he was near 70 he was wholly deprived of his sight; he was persuaded to be couched by Taylor the oculist, who by agreement was to have sixty guineas if he restored his patient to any degree of sight. Taylor succeeded in his operation, and Sir William was able to read and write without the use of spectacles during the rest of his life; but as soon as the operation was performed, and Sir William saw the good effect of it, instead of being overjoyed as any other person would have been, he began to lament the loss (as he called it) of his sixty guineas. His contrivance, therefore, was how to cheat the oculist; he pretended he could not see perfectly; for that reason the bandage on his eye was continued a month longer than the usual time. By this means he obliged Taylor to compound the bargain and accept of twenty

Dr. Kings anecdotes of his own times.

Cunning.—A mid-Lothian farmer observing to his ploughboy that there was a fly in the milk—"Oh, ne'er mind sir,' said the boy 'it wunna drown there's nae see mickle o't 'Gudewife.' said the farmer,' Jock says he has ower little milk.' 'There's milk enough for a' my braid," observed the sly rogue.

Patrick, said an employer the other morning to his workman, you came too late this morning; the men were at work an hour before you. Sure, and I'll be even with them to-night then. How Patrick! How 'faith I'll quite an hour before' em a ll sure.

A servant girl being asked if her master was within, replied, "No." "When will he return?" "Oh, when master gives orders to say he is not at home, we never know when he will come in."

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion**, **Listlessness**, **Loss of Appetite** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache**, **Sick Headache**, **Jaundice** or **Green Sickness**, **Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Worms**, and **Worm Symptoms** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

DR. J. C. AYER & CO., Practical Chemists,

General Agents for Ontario.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

THE TRUE THEORY OF PURGATION

APPLIED TO THE

Liver, Kidneys, Skin, STOMACH & BOWELS.

DR. RADWAY'S PERFECT PURGATIVE PILLS,

Perfectly Tasteless,
ELEGANTLY COATED.

Dr. Radway has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING Elements of the human body, and also safe to take in the most malignant of Eruptive Fevers. In cases where the mucous membranes of the internal viscera are suffering from Ulceration, Inflammation, or from

LIVER,
Gastric, Biliary, Pancreatic Complaints,

DR. RADWAY'S PILLS

supply the only Vegetable substitute for

CALOMEL or MERCURY.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three to nine different prescriptions of the medical practitioner. As a proof of this—You are seized with a Bilious attack! Doctor prescribes Blue Pills or Calomel next, some Drastic Aperient Pill or Powders to work off the effects of the Blue Pill—the prescriptions you send a tonic in next given, or a gentle Aperient whereas ONE DOSE OF RADWAY'S PILLS will *do all the work that the three or more prescriptions* are given for, without running any risk from mercurialising or salivating the system.

RADWAY'S PILLS.

In RADWAY'S PILLS, *the true principle of purgation* is secured and aided to the effects of eliminating the forces and excrements from the bowels, but those humors that are checked or stopped in their passage through the *Skin, Kidneys, Lungs*, and all excreting and secreting functions, for in these excrementious secretions belonging to the skin liver, lungs, kidneys, are interposed in their passage they become products of decay and decomposition, and must be purged from the living body through their proper channels; hence the purgative qualities in RADWAY'S PILLS extend to the excretions of the SKIN, KIDNEYS, LIVER, &c.; whereas not one of the advertised Pills claim to act beyond the bowels

How to Take Radway's Pills.
THEIR DAILY USE.

In doses of one or two pills, by all persons of a fe habit of body, subject to giddiness, rush of blood to the head, palpitation of the heart, and all those subject to fits, will not only keep the blood from becoming coarse, but excited up in the blood vessels, it will optimize its circulation, and prevent sudden attacks of apoplexy, disease of the heart, congestion. Persons who will take one of these pills every day will not suffer from Headaches, Dizziness, Dyspepsia, Fainting Fits, etc. Pains across the Hearts, and a hundred other disagreeable symptoms

DYSPEPSIA.

One of RADWAY'S PILLS, two or three hours before dinner, taken daily, will keep the system free from DYSPEPSIA, INDIGESTION, CONSTIPATION, COSTIVENESS, &c.

Bear in Mind,

RADWAY'S PILLS are the only purgative that will secure an alterative, diuretic, sudorific, aperient and tonic influence.

They are the only vegetable substitutes for Calomel or Mercury.

They are elegantly Coated with Gum, perfectly Tasteless, and free from Smell.

SARSAPARILLIAN RESOLVENT.

POISONED BLOOD.

and the excrementious exceptions of the SKIN: SORES, PIMPLES, BLOTCHES, BOILS, ULCERS, and HUMORS of all kinds break out on the surface

RADWAY'S READY RELIEF

is the best, cheapest, and safest remedy that can be used for **Fever and Ague, Bilious** and other **Fevers.**

NOT ONE

person need suffer, be they ever so much exposed to Fever and Ague, if they will only take **Radway's Ready Relief,** and keep their *bowels open with Radway's Pills.* Hundreds in the West, who have hitherto been doctoring at the rate of one and two hundred dollars for a few months' treatment, are keeping themselves and families free from Fever and Ague, Chills and Fever, Rheumatism, &c., for one or two dollars a year, spent for **Radway's Ready Relief** and **Radway's Pills** (coated).

The **Ready Relief** will afford *instant ease to all.* Price only 25 cents per bottle.

N.B.—See that every bottle has an India Rubber Stopper. Sold at all Druggists, and at Dr. Radway's Offices, No. 87 Maiden-Lane, New York, and 439 St. Paul Street, Montreal, Canada.

SARSAPARILLIAN RESOLVENT.

NEW PRINCIPLES OF CURE

Of all Wasting, Scrofulous, and Eruptive Diseases of the Eyes, Nose, Mouth, Throat, Lungs, Heart, LUNGS, Kidneys, Bladder.

THE SKIN MADE PURE, CLEAR, SMOOTH, AND BEAUTIFUL.

Dr. Radway's Sarsaparillian Resolvent establishes a new principle of Cure of all Chronic diseases, and proves to the medical world that Consumption and other Scrofulous diseases are curable. This fact has been demonstrated in over

One Hundred Cases of Confirmed Consumption,

where one lung in over seventy cases was destroyed and dried up, and in over

500 CASES OF SUSPECTED CONSUMPTION

Dr. Radway, three years since, published to the world his analysis of the Blood in the several stages of Consumption, showing in every stage, that where tubercles become deposited in the Lungs and other organs, as in the Kidneys, Liver, Spleen, Bronchial Glands, Intestines, establishing Consumption of these organs, the Blood is thin, weak, pale, watery, and is deficient of such constituents as fibrin Albumen, Phosphorus, and the rich red coloring discs of the Blood Corpucles. In the absence of these constituents in the Blood, the Blood is exhausted of strength and nourishment, and wherever there is inflammation, it deposits tubercles and decomposition, it has not the power to hold in solution its natural constituents, and Ulcers, Sores, Tumors, Cancers, and Virulent Humors are formed, the presence of which causes inflammation, gathering, and consequent suppuration.

The reader, is the true cause of the formation of Tubercles and Consumption. Dr. Radway was the first to advance this theory of the cause of Consumption and its kindred diseases, and prepared the **Radway's Resolvent** to supply the Blood with such constituents it was deficient of, in these conditions of system, and to give it the nourishment and strength to hold its natural constituents in solution. Dr. Radway's theory was published in England, France, Germany, and America, and was seized upon by the scientific men of both hemispheres. From his text medical books have been since published by medical writers, claiming to have discovered the cause of Consumption, but have *failed* to produce the remedy to cure. Dr Radway was the first to advance this theory, and the first and only discoverer of a medicine *that will cure.* In **Radway's Sarsaparillian Resolvent** the public have a remedial agent that will cure Consumption and all diseases of the **Lungs, Bronchial, Kidneys, Bladder, Womb, Throat, Glands, and Urinary Organs.**

In all Wasting Discharges, such as Involuntary Loss of Sperm, Emissions, Weakness of the Genital Glands, Leucorrhea, and all Uterine difficulties, Gravel, Lime Stone, Brick Dust, Urin Acids, and Calculous Concretions, the **Sarsaparillian Resolvent** is a positive cure. In Dropsy, Diabetes, uncured Venereal, Syphilis in its many forms, it cures when all other medicines fail.

EVERY DAY

an increase of flesh, weight, and strength is experienced. It is Fat-tissue, Fabric or Heat-making. It is to the blood what oxygen is to the atmosphere air—it supplies the life principle. It swiftly removes from the surface all Spots, Blemishes, Pustules, Tetters, Rash, Flesh Worms, Sores, &c., imparting a **Clear & Beautiful Complexion** to all.

CERTIFICATE OF BEAUTY.

The following letter is from a highly-gifted lady, well known in the "circles of our best society."

I had set much confidence in your SARSAPARILLIAN RESOLVENT. Having been disfigured for the last four months with BLOTCHES and PIMPLES, I resolved, at all events, to try it, and took TWO TEASPOONFUL three times a day, as directed. It is not quite ONE MONTH since I commenced its use. To-day there is not a BLOTCH, spot, blemish, or defection of any kind on my person.—SARAH H. TREMBLEY, Jersey City P.O.

Price $1 per Bottle. 6 Bottles $5.

Dr. RADWAY'S Remedies are Sold by Druggists and General Storekeepers. Principal Office, 439 St. Paul Street, Montreal.

TEACHER WANTED.

WILSON, BOWMAN & CO.

Hamilton, Ontario,

MANUFACTURERS OF THE CELEBRATED

LOCKMAN SEWING MACHINE,

Take pleasure in announcing that the popularity of the Sewing Machine manufactured by them is still on the increase. They are now turning them out at the rate of 600 per month and yet have been compelled within the last two weeks to increase their facilities to a capacity of one thousand per month.

The Lockman Machine, from its capacity to sew the heaviest fabrics with linen thread, as well as the finest cambrics with No. 150 Cotton, is pre-eminently the Farmer's Favorite Family Friend.

It is so exceedingly simple in its parts, and so strongly and durably made, that it does not require a mechanical genius for its management.

The manufacturers challenge the world to produce its equal, and yet its price is from Forty to Fifty per cent. Lower than that of any other first-class Shuttle Lock-stitch Sewing Machine

EVERY MACHINE IS WARRANTED.

☞ Sole Agent for the County of Peterborough—

HUMBUG EXPOSED.

THE Subscriber begs to inform his customers and the public generally, particularly those intending to buy Furs, NOT TO RETAIN their orders, as there never was a better chance to select Furs than at my store. The stock consists of my own manufacture, and of nothing but the real article. I have none, nor ever had any of the so called German Mink, French Seal, Sea Otter, British Sable, and numerous other high sounding, fictitious names, by which trashy imported articles are disposed of at fabulous prices. Is it not also true that Russian and Western Mink, being colored, is disposed of as Canada Mink? Goods made up for wholesale trade are of inferior quality.

Whether my own manufacture compares favorably with city manufactures, the following will show for itself. It was my own workmanship which secured to Mr. McIver, of Montreal, the First Prize for a set of Ladies' Furs, at the exhibition in 1858, held in the Grand Trunk Sheds at Montreal, against the following competitors:—Messrs Greene & Sons, Brabadi, Henderson, Brown, and several others, Mr. F. W. Lascock, of New York, being one of the Judges for Furs. The same Lady's set was sold to a Baltimore lady for the handsome sum of nearly $400. I believe myself capable of doing now, as I did then.

An Examination of my Stock is solicited.

The Highest Price Paid for RAW FURS.

W. LECH.

Peterboro, October 19, 1870. 42-17in

Peterboro, May 11, 1870. 19

WILLIAM TOOLE,
Being about to REMOVE his Manufacturing Establishment from the Ashburnham Mill Race to his own Factory in course of erection,
On Murray Street, Immediately West of the Drill Shed,
Where he is fitting up with almost entire NEW MACHINERY, NEW MEN of long city experience, and, in fact, New Everything, begs to return thanks to his numerous town and country patrons for the very liberal patronage which he has enjoyed for the past fifteen years, and hopes by constant attention to business and fair, liberal treatment of customers, to continue in the enjoyment of the same. He would also intimate to his country friends, that he is manufacturing a few of
The Celebrated McKenzie Fanning Mills,
THE BEST MILL IN THE DOMINION,
Which he will sell at a very moderate price, and take in exchange any kind of FARM PRODUCE.
Peterboro, Feb. 9, 1870. 6

The Lonely Grave.

Near a murmuring spring in a shady dell,
Where blooms in its beauty the sweet blue-bell
Where the sunlight plays at the close of day,
And the nightingale chants her evening lay,—
The wide-spread boughs of an elm tree wave
And cast their deep shades o'er a lonely grave

No marble pile rises proudly to tell
How the lone grave came in this shaky dell;
The [illegible]
And soft zephyrs sigh through the leafy trees;
Flowers shed their sweets on the morning air
But breath not a word of the sleeper there.

A mourner oft comes in the dewy eve
A token of love on the grave to leave,
To shed a sad tear, and to promise truth
To love he had cherished in sunny youth.
Sadly he raises his voice in prayer.
And murmers the name of "Ella" there.

'Twas not long ago when their sun of life
Was beaming on prospects of pleasure rife.
When each youthful blossom was free from care,
And Hope pictured the bright and fair;
When, hand clasped in hand, as the twilight fell,
They plighted their hearts in that shady dell.

And then a sweet spell 'round their hearts was cast,
A spell far too happy and pure to last.
Disease laid its hand on the maiden's form—
Like a rose it fell 'neath a winter storm!'
Then a parting sad, and a farewell kiss,
And her pure soul fled to the realms of bliss.

The lover felt all his joys depart,
And bent o'er clay with a broken heart.
Now oft he comes where they laid her to rest,
And piled the dark earth on her spotless breast,
In the spot where love on their young hearts fell,
By the murm'ring spring in that shady dell.

Selections.

The Robbers Foiled.

We were five passengers in all—two ladies on the back seat, a middle aged gentleman and a Quaker or the middle, and myself on the one in front.

The two ladies might have been mother and daughters, aunt and niece, governess and charge, and might have sustained any other relationship which made it proper for two ladies to travel together unattended.

The middle aged gentleman was spirited and talkative. He soon got up an acquaintance with the ladies, toward whom, in his zeal to do, he rather overdid the agreeable—bowing, and smiling, and chatting over his shoulder in a way painfully suggestive at his time of life, of a "crick" in the neck. He was evidently a gay Lothario.

The quaker wore the uniform of his sect, and confined his speech, as many a parliamentarian would save his credit by doing, to ample 'yeas' and 'nays.' As for myself, I made it an invariable rule of the road to be merely a looker on and a listener.

Towards evening I was aroused from one of these reveries into which a man without either being a poet or a lover, will occasionally fall, by the abrupt query from the talkative gentleman:

'Are you armed, sir?'

'I am not,' I answered, astonished, no doubt visibly, at the question.

'I am sorry to hear it he replied, 'for before reaching our stopping-place it will be several hours in the night, and we must pass over a portion of the road, on which more than one robbery has been committed.'

The ladies turned pale, and the stranger did his best to reassure them.

'Not that I think there is the slightest danger at present,' he resumed; 'only, when one is responsible for the safety of ladies, you know such a thing as a pistol in reach would materially add to one's confidence.'

'Your principles, my friend,' addressing the Quaker, 'are as much opposed to carrying as to using carnal weapons?'

'Yea,' was the response.

'Have the villains murdered any of their victims?' the eldorly lady nervously enquired.

Or, have they contented themselves with—with plundering them?' added the younger in a timorous voice.

'Decidedly the latter,' the amiable gentleman hastened to give assurance; and as we are none of us peopared to offer resistence in case of an attack, nothing worse than robbery can befall us.'

Then, after having blamed himself for having unnecessarily introduced a disagreeable subject, the gentleman quite excelled himself it efforts to raise the spirits of the campany, and succeeded so well by the time night set in that all had quite forgotten, or only remembered their fears to laugh at them.

Our genial gentleman fairly talked himself hoarse. Perceiving which, he took from his pocket a package of newly invented cough candy, and after pass ing it to the ladies, he helped himself to the balance out of the window.

He was in the midst of high ecomiums on the new nostrum, more than half the efficacy of which, he persisted, depended on its being taken by suction, when a shrill whistle was heard, and almost immediately the coach stopped, while two faces, hidiously blackened presented themselves at the coach window.

'Sorry to trouble you,' said the man on right, acknowledging, with a bow, two lady-like screams from the back seat; but business is business, and ours will be over if things go on smoothly.'

'Of course gentlemen you will as far as is consistent with your disagreeable duty, spare the feelings of these ladies,' appealed the polite passenger, in his blandest manner.

'Oh! certainly; they shall be first attended to, and shall not be required to leave their seats or to submit to a search, unless their conduct renders it necessary.'

'And now ladies, continued the robber—the barrel of his pistol gleamed in the light of coach lamp—'be so good as to pass out your purses, watches, and such other trinkets as you may be accessible without too much trouble.'

The ladies came down handsomely, and were no further molested.

One by one of the rest of us was compelled to get out—the middle aged gentleman's turn came first. He submitted with a winning grace, and was robbed like a very Chesterfield.

My own affair, like the sum I lost was scarcely worth mentioning. The Quaker's turn came next. He quietly handed over his pocket-book and also his watch, and when asked if he had any other valuables, said 'nay.'

A Quakers word is good, even with thieves; so, after a hasty good night, the robber thrust his pistol into his belt, and with his two companions, one of whom held the reins of the horses, was about taking his departure.

'Stop!' exclaimed [illegible], in a tone more of command than entreaty.

'Stop: what for?' replied the other in evident surprise.

'For it least one good [illegible]' reply, emphasized [illegible] Blood [illegible]

'Stop!' the Quaker again exclaimed; 'and if one of thy sinful companions advance a step to thy relief, the Spirit will surely move me to knock thy brains out.'

The robber at the opposite window and the one at the leaders' heads, thought it a good time to leave.

'Now get in friend,' said the Quaker, still covering his man, and take the middle seat; but first deliver up thy pistol.'

The other hesitated.

'Thee had better not delay; I feel the Spirit beginning to move my right forefinger.'

The robber did as he was directed, and the Quaker took his seat by his side, giving the new comer a seat in the middle.

The driver, who was frightend half out of his wits, now set forward at a rapid rate. The lively gentleman soon recovered his vivacity. He was especially facetious on the Quaker's powers.

'You're a rum Quaker, you are. Why you don't quake worth a cent.'

'I'm not a shaking Quaker, if that's what thee means.'

'Of the 'Hickery,' or rather of the 'Old Hickory' stripe. I should say,' retorted the lively man. But the Quaker relapsed into his usual monosyllables, and the conversation flagged.

Time sped, and sooner than we expected the coach stopped where we were to have supper and a change of horses. We had deferred a redistribution of our effects until we had arrived at this place as the dim light of the coach lamp would have rendered the process somewhat difficult before.

It was now necessary, however, that it should be attended to at once, as our jovial companion had previously announced intention of leaving us at that point. He proposed a postponement till after supper.

'Nay,' urged the Quaker, with an approach of abruptness, and laying his hand on the other's arm: 'business before pleasure, and for business there is no time like the present.'

'Will thee be good enough to search the prisoner!' he said to me, still keeping his hand in a friendly way upon the passenger's arm.

I did so, but not one of the articles could be found.

'He must have gotten rid of them in the coach,' the gay man suggested, and immediately offered to go and search.

'Stop!' thundered the Quaker tightening his grasp.

The man turned pale, and struggled to release his arm. In an instant one of the Derringers was levelled at his heart.

'Stir a hand or a foot and you are a dead man!'

The Quaker must have been awfully excited so completely to have forgotten the language and the principles of his persuasion.

Placing the other pistol in my hand with directions to fire on the first of the two men that made suspicious movement he went to work on Lotharic, from whose pockets, in less time than it takes to tell it, he produced every item of the missing property, to the utter amazement of the two ladies, who had begun inno measured terms to remonstrate against the shameful treatmeut the gentleman was receiving.

The Quaker, I scarcely need add, was no Quaker at all, but a shrewd detective who had been sent on the track of a band of desperadoes, of whom our middle-aged friend—who didn't look near so old when wig was off,—was the chief. The robbery was adroitly planned. The leader of the gang had taken passage in the coach, and after learning, as he supposed, our defenceless condition, had given the signal to his companions by throwing out the scrap of paper already mentioned. After the capture of the first robber, it was attempted to save the booty by secretly passing it to the accomplice, still believed to be unsuspected, who counted on being able to make off with it at the next stopping place.

The result was that both, for a season 'did the state some service.'

How a Hawick Watty Eluded his Meg.—One day lately, a hand-loom weaver, whose originality of character might be illustrated by many good stories took it into his head to make a holiday at the beershop, and was soon snugly seated beside some cronies. Somehow intelligence of the event reached home, and his good dame, lamenting the waste of time and money, went to the publichouse and remonstrated with her droughty lord. The result was that the penitent transgressor walked quitely home, and after a good wash and some dinner, went away to his loom. Knowing well the temptation that might befall him on his way, his wife accompanied him: and after seeing him safely on his loom, said by way of warning, that she would keep watch over the weaving shop door untill the six o'clock bell sent the factory hands home for the evening. Accordingly she sat herself under a tree on a wooden brae oppsite the door, and that her watch might not be broken, she directed that her tea might be sent to her under the greenwood. The guid wife set all afternoon knitting stockings and musing on the griefs of those coupled to unthinking mates, and actually had her tea sent to her in order that she might be maintained. When the evening bell rang she watched for her husband coming down the stair, but watched invain.

Vain as he never appeared to thank her for all her care. Thinking something must be wrong, she made inqury of the men, and was told that the deliquent had been down the town drinking since half-past three o'clock. Further inquiries brought out the facts that the clever fellow had got into a large basket used for carrying bobbins from the spinning mules, and in it two of his companions had carried him right past his wife's nose to the back of the factory, from which he soon found a clear run down Union street.—*Hawick Advertiser.*

The Rev. Mr. Johnstone was one of those rough but quaint preachers of the former generation who were fond of visiting and good living. While seated at the table of a good lady in a neighbouring parish, she asked him if he took milk in his tea.—"Yes, ma'am, when I can't get cream," was the ready reply

'Father, what does printers live on?—'Why, child?' 'Because you said you hadn't paid for four years, and still take the Paper. Wife put that child to bed.'

Eloquent, but inarticulate:—A little while ago we noticed a half-hour in a village grave-yard, reading the inscriptions on those tablets of the law of "dust to dust."

Upon one of them, carved in marble, was a chain. Of the nine links composing it, one was broken.

How legible the characters! How intelligible the language! In that fatally three were nine countless beautiful chain of affection, richer than gold, but death had broken one link, and the broken jewelry of the hearth and the heart had glittered with the dews distilled from loving eyes.

Broken jewelry! How many such tribute of sympathy and affection [illegible] reply, emphasized [illegible] Blood [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] its hand is laid. Joy may elevate, ambition glorify, but sorrow can consecrate.—*New York Tribune.*

Men Wanted.—The great want of this age is men. Men who are not for sale. Men who are honest, sound from center to circumference, true to the heart's core. Men, who will condemn wrong in friends to foe, in themselves as well as others. Men whose consciences are as steady as the needle to pole. Men who will stand for the right if the heavens totter and the earth reels. Men who can tell the truth and look the world and the devil right in the eye. Men that neither brag nor run. Men that neither flag nor flinch. Men who can have courage without *shouting* to it. *Men* in whom the courage of everlasting life runs still, deep and strong. Men who do not cry nor cause their voices to be heard on the streets, but who will not fail nor be discouraged till judgment be set in the earth. Men who know their message and tell it. Men who know their own business. Men who know their places and fill them. Men who will not lie. Men who are not too lazy to work, nor too proud to be poor. Men who are willing to eat what they have earned, and wear what they have paid for. Those are the men to move the world!

A Sad Story

Here is a story of the saddest side of New York life:

Not many days ago there was a fashionable marriage in one of our up-town churches. The bridegroom was a remarkably handsome man, of nearly 30 years of age, well known in what is called fashionable society as an agreeable, liberal bachelor and "clever man." The bride was a lovely girl belonging to one of our best-known families and endowed her character as much as admired for her beauty. The friends of both were present; and nothing surprising occured at the ceremony save that all present remarked upon the appearance of the bridegroom. He was apparently so opposed by some great sorrow or anxiety that he could not smile nor command a cheerful word.

The pair had spent but a few days together when the husband, after an interview with his young wife which left her almost crushed in mind, hastily called at his late bachelor rooms, which he had not yet given up, turned a large number of papers, packed up a few precious articels, and so kindly disappeared; and no one of his friends now knows where he is to be found.

But one dreadfull truth reached their ears too quickly. At one of our new hotels in the city, but a few blocks from the church where the marrage was performed, there were found a woman and several children bearing his name and she found difficulty in establising her right to it. She is many years elder then he. They ware married when he was scacely more then a boy, and have never published their marsage but they never quarreled or seperated. He still supported and visited her; and on the very day of the second marrage, at noon, he made her a long visit in his usual manner

This event has been a sudden shock to both families, and the absolute concealment of his marrage from all his friends for many years, while his wife and children openly bore his name in public hotels in the city is as unaccountable to them as it will be to others. The young man for many years an internal revenue officer in this city but for some years past has been employed in a bank down town. He has paid $3,900 a year for the board of his wife and children while, receiving a salary of only $2,000; and and has yet maintained his bachelor life with lavish expenditure. In his rooms are said to have laid not far from a hundred suits of clothes, expensive books and many other evidences of wealth. But accounts at the bank and entirely correct. His full understanding of what he was doing appears from the fact that he carried to the altar a pistol, with the fixed purpose, as he afterwards said said of blowing out his brains there if the ceremony should be interfered with.

A writer in the *Maine Farmer* says that cows should be salted every morning, and it in the stable, before foddering, but never after taking water. This is the practice of the best stock keepers in Switzerland, and he thinks much preferable to salting them once or twice a week or to keeping it constantly within their reach.

An old stable keeper in England says he has never had a bad foot on his horses since he commenced bedding them on sawdust. Pine sawdust he finds the best.

"Good greacious, Matilda, but it's cold! My teeth are actually chattering." "Well aunt, don't let 'em chatter too much, or they may tell where you bought 'em"

"Pat," said Judge Tiff to his neighbor in a sleeping, "you would have remained a long time in the old country before you could have slept with a judge." "Yes, yer Honor; and you would have been a long time in the country before ye'd been *Judge.*"

Feeding Potatoes to Milch Cows.

In view of the fact that potatoes are so abundant this year that they are scarcely worth carrying to the market for the price they bring, those who have cows in good milk during the cold season, will find it of great advantage to give them potatoes daily They are the best root that can be given to cause cows to give an abundant flow of milk of a rich qurlity, and free from disagreeable flavor. Some years ago, when potatoes were cheap, we knew of a farmer who fed them to his milch cows along with good clover hay, and they gave an increased quantity of butter of fine flavor, and as yellow as that made in summer time. The potatoes ought to be sound and free from rot, which is injurious, though if slightly frosen the cows well eat them without suffering any injury. They should be free from dirt when fed out.

"I am deeply convinced that the evils of intemperances can never cese till the virtuous in society shall unite in prodounncing the man who attempts to accumulate wealth by dealing out poison and death to his neighbor, as infamous."—*John Pierpont.*

Two well-dressed shoemakers being in the company of some gentlemen, were asked there profession. Says one of them, "I practice the heel-ing art," and I says to the other, "labor for the good of man's soles:"

Estate of the Late John Moffat—Christina Moffat.
Wanted—R. Casement.
Official Assignee—Edg. Pearse.
Abstract Statement—Municipality of Ashburnham.

The Peterborough Examiner

PETERBOROUGH, FEB. 9, 1871.

Editorial Items.

The excise officers have seized an illicit whiskey still at Arthur.

Professor Jenkinson died from the effects of the burn he received during the fire in the Scugog Hotel, Lindsay.

A strong feeling exists among Germans, because England's manufactures have supplied France with means of prolonging the war.

POLITICAL.—We have good authority for stating that P. Pearse, Esq., will be a candidate for political honors at the coming election for the Local House.

From the Sarnia *Observer* we learn that the McKenzie testimonial is to be in the shape of a Homestead, wherever Mr. McKenzie may choose. It will, no doubt, be in the County that reposes confidence in him, and returns him at present to Parliament; and so it should.

Messrs. Lazarus, Morris, & Co., have requested us to state that Dr. Taylor is now appointed Agent for their celebrated Perfected Spectacles and Eye Glasses, see their advertizement. Dr. Taylor, will no doubt be glad to wait on all who require any of those "Eye Preservers."

GRAND SKATING MASQUERADE.—We understand that it is the intention of the 57th Battalion Band to give another of those entertainments, similar to that of last week. The success of the first augurs well for that of another, and a pleasant and enjoyable time may be expected.—The Band will furnish music on the occasion. The date will be announced next week.

CONCERT.—A very interesting Concert will be given in Hill's Music Hall, on Wednesday next, 15th inst., in aid of the Building Fund of the Church of England, Bobcaygeon. Performers and singers are all from a distance, and will appear for the first time before a Peterboro audience. Tickets can be obtained at Mr. Cluxton's store.

The *Commercial Advertiser* is the name of a new newspaper at St. Catherines, published by Messrs. Gibbs & Sherwood. It is neatly got up, contains a fair share of reading matter, of a healthy tone, and is cheap, being only 50 cents in advance: 75 cents if not paid for in six months, and $1.00 if not paid till the end of the year. The *Advertiser* is commercial, not political.

In France peace prospects are still in the ascendant but the fickle French people are not likely to be able to enjoy a peace. They will kill each other it is feared. King William has returned to Berlin. Food is being taken to the Parisians abundantly. The people every where desire a peace, and we hope they may get it and that it shall be lasting.

The grain market had a slight tendency upwards last week. This week it is quiet with a downward tendency. Our markets are corrected up to the very moment of going to press.

Toronto, on Tuesday, spring wheat was $1.30 to 1.31; sale $1.39 to $1.40; oats 53c peas 78c barley 60c to 62 cents.

The $1.00,000 By-law lately defeated in the County Council, will, it is said, be legalized by the Legislature. The Legislature is setting aside even sane men's last wills and testaments, John Sandfield takes upon him to Legislature on every known and a great many hitherto unknown subjects, and now the Railway Committee of the House proposes to pass this By-law over the County Council. Should they do so, the sooner the Country is rid of a curse, so oppressive, and a House so void of a sense of right, the better. Surely their cup is about full.

LECTURE.—We would remind our readers that Principal Dixon will deliver another of his very able and popular Lectures, on "The Dignity of Labour," on Tuesday evening next, in the Music Hall, at 7.30, p. m. Admission only 10 cents. Every citizen should hear these Lectures. The Directors of the Mechanics Institute deserve the greatest praise for having arranged for these Lectures, and for their united zeal on behalf of the Institute, and also in the cause of providing useful information for the members.

PRESBYTERIAN.—The Anniversary services of the Canada Presbyterian Church, (Mr. Roger's,) will be on Sunday, 12th instant. Rev. Mr. Campbell, of Toronto, will preach morning and evening. A Soiree will be held on Monday, in the basement of the Church, tea at 6.30 p. m. After which addresses will be delivered by the Revs. Mr. Campbell, Toronto, Donald of Port Hope, Mitchell, of Millbrook, and the resident Ministers. The proceeds of these services to be in aid of the building fund.

There was an extensive fire in Cobourg, on Saturday morning, about one o'clock. It commenced in the rear of Mr. Sutherland's store, and resulted in the destruction of two fine blocks, McCallum & Son, J. Sutherland & Co., The Express Office, Telegraph office, Jeffery & Co's and the bank of Toronto, were destroyed, McCallum's block was insured for $12,000 their stock was worth $50,000; was insured for $20,000, Mr. Sutherland's stock was insured for $4,000 and Mr. Jefferies stock $16,000.

The Keene Curlers beat the Peterboro' Curlers on Tuesday by 11 points. This, we believe is the third year in succession that the Keene Curlers have been the victors, they will therefore claim the medal. But the Peterborough people think that as the Medal was not on the ice on Tuesday, there will be another contest for its permanent location. According to the Rules of the "roaring" game it may not by decided, but it is certain that Keene has beaten Peterborough three successive years.

NIGHT SCHOOL.

THE NIGHT SCHOOL WILL

OPEN ON FRIDAY NIGHT,

AT 7.30, P. M., IN THE

Union School House, Peterborough.

All those intending to become pupils will please bring nothing but pens and paper the first night.

JOHN H. McFAUL.

February 8, 1871. 6

UNFAILING EYE PRESERVERS.

LAZURUS, MORRIS & Co's

CELEBRATED

Perfected Spectacles!

AND EYE GLASSES.

The large and increasing sales of these Perfected Glasses is a sure proof of their superiority. We were satisfied that they would be appreciated here as elsewhere, and that the reality of the advantages offered to wearers of our beautiful lenses, viz: the ease and comfort, the assured and readily ascertained improvement of the sight, and the brilliant assistance they give in all cases, were in themselves so apparent on trial, that the result could not be otherwise than it has, in the almost general adoption of our Celebrated Perfected Spectacles by the residents of this locality.

With a full knowledge of the value of the assertion, we claim that they are the most perfect optical aids ever manufactured. To those needing Spectacles, we afford at all times an opportunity of procuring the best and most desirable.

DR. W. H. TAYLOR

Corner of George and Hunter Streets,

Has always on hand a full assortment, suitable for every difficulty.

We take occasion to notify the public that we employ no pedlars, and to caution them against those pretending to have our goods for sale.

Peterboro, February 8, 1871 6

WANTED.

IMMEDIETELY, an Assistant Teacher for the Lakefield School. Apply to

R. CASEMENT, Sec'y-Treas. N. Douro.

North Douro, Feb. 4, 1871. 6

EDG. PEARSE,

OFFICIAL ASSIGNEE. Office — Court House, Peterborough. 6-1y

Union School Board.

The Board of Trustees met on Tuesday Evening. This year the members are :—

Messrs. Dr. Burnham, Dumble, Clarke, Edwards, Stevenson, Toole, Dunlop and Coulter, (old,) and Messrs. A. Smith, Geo. Edmison, J. McClelland and Sheriff Hall, newly elected.

Dr. Burnham was re-elected Chairman, unanimously.

On motion of Mr. Stevenson, seconded by Mr. Dunlop, Mr. O'Beirne was appointed Secretary-Treasurer, salary same as last year.

The Standing Committees are :

FINANCE,—Messrs. Dumble, Coulter and Smith.

PROPERTY,—Messrs. Toole, McClelland, Hall and Stevenson.

APPOINTMENTS,—Dr. Burnham, and Messrs. Cluxton, Dumble, Hall and Edwards.

AUDITORS,—Messrs. J. J. Hall and J. A. Hall.

LOCAL SUPERINTENDENT,—J. Stratton.

VISITING COMMITTEES.

February.—Messrs. Hall and Edwards.
March.—Messrs. Cluxton and Coulter.
April.—Messrs. Toole and McClelland.
May.—Messrs. Stevenson and Dunlop.
June.—Messrs. Smith and Edmison.
September.—Messrs. Hall and Edwards.
October.—Messrs. Coulter and Cluxton.
Nov.—Messrs. Toole and McClelland.
Dec.—Messrs. Stevenson and Dunlop.
January.—Messrs. Smith and Edmison.

A communication was read from Mr. McFaul, asking for an increase of salary, and also for the use of a room for an Evening Class.

The communication was received, and on motion of Mr. Toole, seconded by Mr. Coulter, the matter of increase of salary was referred to the Committee on Finance, and the use of the room was granted. The matter of refunding $5 to Mr. McFaul for Penmanship Tablets, purchased by him for the use of the School, was referred to the Finance Committee.

On motion of Mr. Toole, after some discussion, the standing rules of last year were adopted for this year.

Mr. Stevenson spoke of an application of Miss Hatton, for increase of salary, and gave notice that at next meeting he would move a resolution to that effect.

Mr. Toole also gave notice of a motion to increase Mr. Taylor's salary.

It was said that the new school building will be ready for occupation, in part, by the end of next week.

The monthly report of the Principal was then read. It gives a very favorable account of attendance, and other important matters.

REPORT.

To the Board of Trustees of the Peterboro Union and Grammar Schools.

The following was the attendance of pupils for the month :

	Boys.	Girls.	Average.
Primary Division	30	26	48
N. Ward do	9	7	11
Second Division	61	0	50
do	0	48	44
Third Division	0	55	49
do	67	0	62
Fourth	0	35	32
do	28	0	27
Junior Grammar	0	41	39
do	43	0	38
Principals	36	0	33

Total attendance Com. School 362, av. 320
do Gram. do 120, av. 110

This is the largest attendance yet reported at the Grammar School. (*Ed. Ex.*)

In making out the report of 1870 I find we had in the Common School, 754 pupils.
Grammar do 193
Total on Register, 952

In the Grammar School the average was 99.

I find also that since my appointment the Government Grant has increased from $570, to $1576, and advance of $1006. An additional teacher is needed in the Grammar School department, not only in view of our becoming a Collegiate Institute before long, but also on account of the very large number of pupils in attendance; the recent changes made by the Medical Board, and the desirability of teaching the Elements of the "Natural Sciences," and a thorough English and Commercial course.

During the month I have examined all the divisions in reading and spelling, and I intend to devote special attention to these subjects for some time.

The Janitor's work is better done than it was at the time of my last report.

In conclusion, I beg to direct your attention to the fact that we need a few good boarding places for those pupils who do not live in or near the Town. They have now to pay $3 per week here, but in Cobourg or Belleville students seldom pay as high as $2.50 a week.

Respectfully Yours,
J. B. DIXON, M. A.

February 7th, 1871.

John Sandfield's celebrated surplus has at last been brought before the House.—He proposes to set apart $1,500,000 for railroad purposes, and out of this to give from $2,000 to $4,000 a mile, according to minister's ideas of the commercial value of the undertaking, which will always be based upon the subservicncy of members. This will be held out as an inducement to support the Combination again for the 'grab.' This sum will not be spent before the elections; John Sandfield will be defeated and the work of distribution will then fall into wiser and more upright hands. Let all the electors remember that the government that is successful will have the right of granting favors. But, really, who would sell himself and his constituency for a mess of pottage. Let us send honest men, and all the funds will be wisely laid out; but Ontario would save money by losing the whole sum to get rid of the men who now control its affairs: men without principle except the love of office and of gain, and who would sell their Saviour to maintain the control of the money bags.

WANTS AN ASSISTANT. — Sandfield is hard up. He wants an outside assistant. A contemporary says he is coquetting with McDougall, and wants one of the "martyrs" to make way for the ex-Governor at the next election. Sandfield recently gave McDougall a railway trusteeship, and now (in defiance of precedent and rule) he has given him the Crown Council business at the Toronto assizes. It is believed that Sandfield is anxious to sacrifice one of his present colleagues for McDougall. Poor Sandfield! William McDougall is surely not fool enough to be sacrificed a second or a third time. John A. did it once, nay, twice: first, in drawing him into the coalition in 1867; second, in his appointing him to the Governorship of the North-west Territory; and now, Sandfield wants to sacrifice him again. We would suggest, as an old friend of Mr. McCougall, to be wise; don't be tricked again. Better stick to your first love. Be a Reformer still.—*Ham. Times.*

Ashburnham.

The Council met on Monday evening; all the members present.

A communication from the Country Registrar was read and received, and the Reeve was authorized to get a map of a plan of the Village and make all arrangements for the purpose.

On motion Mr. J. Z. Rogers, Jonathan Stephenson, was appointed assessor for this year.

On motion of Mr. J. Z. Rogers, seconded by Mr. Burnham, Joseph Valoise was appointed Pound-Keeper.

On motion of Mr. Burnham, seconded by Mr. Calcutt, twenty dollars were granted to the Protestant Home, Peterborough, and thirty dollars were placed in the hands of the Reeve for purposes of pressing charity.

The Reports of the auditors' were received, and the Abstract ordered to be published according to law.

The time for collecting some trifling arrears of taxes, which the collector believed he could secure, was extended till next meeting of council,

D. McDonald, Esq., was appointed Inspector of Licenses with power to grant certificates to those who should comply with the Statues and By-Laws of the Municipality.

The Council adjourned till the 1st Monday of March.

OBITUARY.

In last week's issue we chronicled the decease of John Galvin, Esq., of the Township of Smith, at the age of 65 years. Deceased was a native of the County of Limerick, Ireland. He emigrated with his parents to Canada, in the year 1825, when he was about 20 years of age, and after remaining here a short time, he went to the United States to seek more remunerative employment—as 45 or 46 years ago this part of Canada was not a very promising place to settle in. After remaining in the United States about 2 years, he, at the urgent solicitation of his father, returned to Canada, and located the farm in Smith, the homestead on which he resided till his death. He was twice married. By the first wife, a very intelligent and faithful partner, he had two sons and one daughter. Mr. Garret Galvin, of Lakefield, being the eldest son. The sons only survive him.—By the second marriage he had ten children, most of whom are living.

Mr. Galvin was a man of great industry and perseverance, and by those means succeeded in making for himself a very comfortable home in the back woods, and also assisted his sons to make a very fair start in the world. He was much respected by his neighbours, and was elected by them to serve in the Township Council for 7 years, and one year in the County Council, as Deputy-Reeve of his Township. He was also a great friend of Education in his neighbourhood, and did much to maintain a school in the neighbourhood before the present excellent school system was enacted; and even before the days of schools in Smith, spent a great deal of the time he stole from hard labour clearing his farm and erecting comfortable buildings for himself, in teaching his children; as he had received a tolerably good education in his native country.

There is one event in Mr. Galvin's history that we cannot pass over in silence.—He was brought up in the Roman Catholic faith, to which faith all his brothers and sisters are still firm adherents.

The subject of our sketch at a very early period of his youth had his faith in the religion of his fathers somewhat shaken, and his thoughtful and penetrating mind never again rested satisfied in the Roman Catholic Religion, and long before he openly left that Church, he taught his children his doubts, and led them to believe the doctrines which afterwards he freely avowed and believed and consistently acted up to. He sent his children to Sabbath School before he became a member of a Protestant church, and thus did what he could to establish them in the truth of God's word in their infancy. Although often listening to the preaching of the Rev'd Mr. Gilmour, it was under the labours of the Rev. Mr. Roberts that Mr. Galvin decided to openly declare his having put on the Lord Jesus Christ, which he did by being publicly immersed, about 18 years ago, and during the period ever since, he has been a consistant and faithful member of the Baptist Church, and died in the faith he had adopted.

During his last severe illness, his elder brother, showed his great attachment to him by remaining with him nearly two weeks day and night, till his death, and showed that brotherly affection cannot be destroyed always by adverse opinions of faith. Mr. Galvin departed this life a firm believer in the Protestant faith, and his remains were followed to the grave near Lakefield, by a large concourse of relatives and neighbours.

The following reports of committees and memorials were passed in county council at its last session, which we give for information of our readers. Next week we will try and give the statement of the auditors in abstract.

The Committee on Finance beg leave to report that they have carefully examined the following accounts and claims and recommend payment:

Thomas Lannin, things for Jail and Court House	$52.03
Thomas Burke, Printing	3.10
J. James & Son, table	3.50
Nicholls & Halls, things for Court House and council chamber	28.70
Geo. Stethem, Lock and glass	4.93
S. J. Carver, postage	10.20
A. B. Kidd, stationery	3.20
Western board of Instruction	60.08
Eastern do do	49.35
James Stratton, By-law, &c.	59.75
James Stevenson, Stoves, Pipes, and Boxes	93.80
Dennistoun, Fairbairn & Cassels	3.00

In regard to the application from widow Houran for aid your committee, recommend that she receive $15.

Your committee cannot recommend a grant of $150 toward building a lock-up at Hastings.

Your committee recommend $400 to be given the 57th battallion in aid of the band.

Your committee recommend that each returning officer for taking the Railway Vote, receive from the County Treasurer the following amounts: Two dollars for taking votes, one dollar for making his returns, and one dollar for use of room and fuel.

Your committee further recommend that Charles Stephenson receive the sum of $30.00 in compensation for time lost in connection, with the office of Inspector of Weight and Measures.

Your committee have duly considered the communication from his honor the County Judge, the Sheriff and County Attorney, any cannot recommend and appropriation of money for the maintainance of Barbara Robinson in the asylum. All of which respectfully submitted.

S. J. PECK, Chairman.

REPORT OF COMMITTEE ON ROADS AND BRIDGES.

The committee on roads and bridges beg leave to report that they recommend the expenditure of the sum of four hundred and fifty dollars to aid in building a bridge across the Trent at the narrows on condition that the municipalities interested and the government grant like sums.

In regard to the communication from the department regarding the swing in the bridge at Whitla's Rapids, your committee would recommend the Warden and Advisory committee correspond with the government in the matter.

You recommend that the sums to each municipality for roads and bridges be the same as last year, viz.:

Asphodel	$224.00
Belmont	116.00
Ashburnham	86.00
Dummer	191.00
Douro	217.00
Ennismore	80.00
Monaghan	148.00
Otonabee	493.60
Smith	388.00
Harvey	100.00
Galway	50.00
Snowdon	50.00
Minden	50.00
Stanhope	50.00
Dysart	130.00
Burleigh	100.00

All of which is respectfully submitted.

JAMES MULLAR, Chairman.

The Reeves and Deputy Reeves are to be commissioners for expending the above respectively.

REPORT OF COMMITTEE ON APPOINTMENT TO OFFICE.

The committee on appointment to office beg leave to report recommending the following persons to be appointed to fill the respective officers herein named.

Trustees of the Norwood Grammar school P. M. Grover, Esq., and Rev. M. Smithett of Hastings.

Trustees of the Peterborough Gramma School, Dr. George Burnham in the place of retiring trustee and sheriff Hall in the place of the late Mr. Gilmour.

Superintendent of schools for the Townships of Monaghan, Smith, Ennismore, Otonabee, Douro, Dummer, Belmont, Methuen Harvey, Burleigh, Anstruther, Chandos, Cardiff and Asphodel, James Stratton.

For the townships of Galway, Snowdon, Minden, Stanhope, Dysart, Dudly, Guilford, Harcourt and Brenton, Rev. F. Burt.

SUB-TREASURERS OF SCHOOL MONIES.

Asphodel, W. H. Stephenson.
Belmont, Philip J. Garrison.
Dummer, John Rose.
Douro, County Treasurer.
Monaghan, County Treasurer.
Harvey, H. Hall.
Ennismore, F. Moloney.
Galway, C. Irwin.
Snowden, J. R. Calvert.
Minden, George Andrews.
Stanhope, Alfred Moore.
Burleigh, County Treasurer.
Dysart, &c., J. R. Erskine.
Smith, County Treasurer.
Sessional Clerk, James Stratton.
Inspector of Weights and Measures, R. Benson.
County Engineer, James Bird.
Advisary Committee, John Walton, Jas. Millar, J. McCarthy.
Jail Surgeon, Dr. Harvey.
Board of Audit, John Walton and John Carnegie.
Caretaker of Court, James McWilliams.

All of which is respectfully submitted.

S. S. PECK, Chairman.

In the By-law during the third reading the name of Dr. Kincaid was substituted for Dr. Harvey.

The names of auditors J. J. Hall and C. Burton were also inserted in By-law.

THE COMMITTEE ON PRINTING

Beg leave to report. They have considered the matter of the printing and recommend that it be let by tender to the lowest bidder and that the clerk furnish each printing establishment in the county with blank tenders for printing.

All of which is respectfully submitted.

S. S. PECK, Chairman.

MEMORIALS—PASSED.

To the honorable legislative assembly of the Province of Ontario in Parliament assembled.

The memorial of the Municipal Council of the county of Peterborough.

Humbly sheweth: That great injustice is being done to many of those municipalities in which lands are sold for arrears of taxes, as by the present assessment act, at the adjourned sale the owners are enabled to purchase their own lands for less than the taxes due, and owners of non-resident lands taking advantage of this clause in the act, permit their arrears of taxes to increase. Now they can buy the lands back for less than taxes: a manifest injustice to the municipalities concerned.

Your memorialists, therefore, pray that your honorable body will be pleased to amend the act so as to prevent this by amending the sub-sect. 2 of cap. 27, vic. 33 by adding after the words taxes in the 11th line, the following:—"but whenever any lands have been sold for less than the taxes due and costs, any person who may pay to the County Treasurer the full amount of taxes and costs before one year from the day of sale shall become the purchaser and take his place.

And your memorialists as in duty bound will ever pray.

To the Honorable Legislative Assembly of the Province of Ontario in Parliament assembled.

The memorial of the Municipal Council of the county of Peterborough, humbly sheweth: That the present assessment act only allows lands in arrears of taxes to be sold after three years.

That this is oppressive to the resident ratepayers who have to advance all moneys for school and county purposes and can get no return for the sums levied against non-resident lands for three years.

That very often a large portion of those lands will not bring at the public sale the amount so advanced.

That from the knowledge of this council in this matter.

Your memorialists pray that power be granted to county councils to sell lands in arrears for taxes yearly, if they may deem it for the interest of those municipalities in which those lands are situate.

And your memorialists will ever pray.

Report of the Special Committee to whom was referred the resolution in regard to granting to the municipality of Dysart to build a lockup at the village of Haliburton, beg leave to report, That we have carefully considered the matter and in consequence of the great distance of the said village from the county jail over seventy miles, and the very heavy cost it would be to bring offending parties to the county Jail believe it would be a saving financially to this county if such a lock up was built besides rendering very great assistance in the suppression of rowdyism in that part of the county, and would earnestly recommend that a grant of one hundred and fifty dollars be made to assist the Municipality to build said lock-up.

All of which is respectfully submitted.

S. S. PECK, Chairman.

The committee on the county property beg leave to report as follows:

A communication from the sheriff requesting the council to provide a vault in his office having been read, It was resolved that the warden and Mr. Walton be authorized to arrange this matter with the sheriff.

That the warden be instructed to see the Clerk of the Peace, and ascertain whether he intends to occupy the office provided for him.

All of which is respectfully submitted.

JOHN WALTON, Chairman.

Dr. Kincaid lately favored us with some Manitoba newspapers, but before we got a reading of them, some kind friends claimed them in our absence. We, nevertheless tender the Dr. our thanks for them, and hope the reading of them will do some one or more good.

MANITOBA ELECTIONS.—The elections of members of the Manitoba Legislature took place on the 30th of December, when the following were returned:—Angus Mackay, Dr. Bird, Mr. Norquay, Mr. Spencer, Mr. Doubles, Mr. Royal, editor of the Montreal *Nouveau Monde*, Mr. Bruce, First President Provincial Government, Mr. Taylor, Mr. Clark, Q. C., Mr. Burke, Schmidt, Hon. Mr. Girard, Mr. Bampanion, Mr. Demay Mr. Dolerme, Mr. Klyne, Mr. McTavish, Mr. Donald Smith, Mr. Sutherland, Mr. Bird, Mr. Hayes Gunn, Hon. A. Boyd, T. C. Begg, Capt. Howard. All passed of quietly except in Winnipeg and St. John's division, in which there are seventy-three legitimate voters, and one hundred and seventy-three were polled. The supporters of Dr. Schultz burned Mr. Smith in effigy. Mr. St. John of the *Globe*, and Mr. Cunningham of the *Telegraph*, were both defeated.

All the above named are to make laws for about 16,000 persons, a representative for about every 500 souls or for every 100 families.

A GRAND "COUP" TO BE STRUCK.—The Toronto correspondent of the Hamilton *Times* says two important caucuses of the Ontario Reform Party have been held there during the past week. The prospect of the coming campaign were talked over, and from the accounts received—especially from the west—most cheering anticipations were indulged in. A grand coup is to be struck, and now or never will be the watch-word at the polls. A long lease of power is confidently spected if Mr. Blake with an honest Government can be installed in the Toronto Parliament Buildings. It is bruited that M. C. Cameron intends to resign his seat in the Cabinet, and not again contest in Toronto. He is tired of being a mere recorder of Sandfield's decrees.

North Monaghan Council.

February 4th, 1871.

The council met at ten o'clock.

All the members present.

The Reeve in the chair. Minutes of last meeting read and signed.

The Reeve gave certain explanations respecting the meeting of the county council, He referred particularly to the Railway By-law. He considered—under the circumstances—there was only one course open to him, and that was to vote against the By-law, which he did, and he was much pleased to find since, that his action in the matter was generally approved of.

Several applications for this office were received. The following appointments were made: Mr W. Wood, clerk, Mr. J. Dobbin, Treasurer; Mr. Joseph Benett, Inspector of Taverns. Salaries same as last year. Mr. Robt. Goodfellow, assessor, salary, $33.50.

BY-LAWS

Respecting tavern licenses, and for other purposes in connexion therewith, as well as a by-law naming the amount to be paid for registration of births, &c., registered in 1871, were read a second and third time.

Only one tavern is to be allowed license for the present year, of which $20—exclusive of Provincial impost—is to be charged.

By-laws to appoint overseers of Highways, Pound-keepers and Fence-viewers and a By-law to provide remuneration for councillors when attending Council meetings and when in discharge of any township duties, were read a first time.

ORDERS ON TREASURER.

Mr. John Haggart, $14.00; William Griffin, $10;—charity, councillor Brownscombe to take charge of the same.

ASSESSMENT ROLL.

Moved by Mr. Birney, seconded by Mr. Tully that the assessor be, and is hereby limited to the 1st day of April, next, to have the assessment roll completed and delived to the clerk of the municipality, and should the clerk find that any part is not properly filled up, and the totals carried out, he will at once point out the same to the assessor for correction or amendment, so that unnecessary delay and consequent trouble may be avoided at the court of revision.—Carried.

On motion of Mr. Robson the council adjourned to the 24th day of February, at 10 o'clock, then to meet for the appointment of overseers of highways, pound-keepers and fence-viewers.

COM.

Correspondence.

To the Editor of the Peterboro Examiner.

DEAR SIR:—

I clipped the following from your issue of last week:—

PRIZE CONUNDRUM.—The Toronto *City Press* lately offered prizes for the best conundrums. The first prize was awarded to "Pattie,"—viz.:—a copy of Chambers' Encyclopedia, the following is the conundrum: At what period of his life was John Sandfield in the coal business? When he was a Cornwall miner (minor.) He is now in the *Cabinet* line, and uses *Wood* for *coal*-ition purposes.

If the sole test of the quality of the conundrum consists in difficulty of solution, I admit that Pattie cannot be beaten; for no one who knows any thing of the geological formation of Cornwall, (England, of course, is meant), could possibly guess at the answer which Pattie furnished, inasmuch as those who are entirely ignorant of the subject could not connect coal mining with Cornwall. However, I ought not to be severe on Pattie and the editors who awarded the prize; their ignorance may be the result of their having been educated in some one of our common schools, in which, until within the last few years an American geography was used, in which more space was devoted to describing the State of Maine and its products, than was set apart for the description of the whole British Empire.

I submit a conundrum which I think better than Pattie's, because there is some possibility of it being answered by others than myself,—viz:—"At what period of his life was John Sanfield in the metal *business;*" *ans.*—When he was a Cornwall (minor) miner," where he is supposed to have worked in *copper* and *tin*, which fully accounts for his possessing so much brass. hardness of the mine in which he worked necessitating the continual sharpening of his *tools*; this will also explain his *axe grinding* propensities. The Cornish are proverbial for their sympathy with those who suffer for conscience sake. This spirit is fully exhibited in the old ballad so popular at the time of the celebrated trial of the seven Bishops, the chorus of which was—

"And shall Trelawney die, and shall Trelawney die;
Then thirty thousand Cornish men will know the reason why."

Doubtless to the influence exerted by those early associations may be attributed his sympathies for the nine martyrs of Ontario, who have suffered from exemplifying very fully the "axe grinding" propensities of their leader.

Peterboro, Feb. 4th, 1871. CON.

To the editor of the Peterboaough Examiner

DEAR SIR:—

In all ages of the world when men are caught breaking the law, disobeying commands or neglecting duty, they are, generally speaking, quite willing to shirk the responsibility of their disobedience or negligence to saddle it upon somebody else.

This was the case with our first parents; and the gentleman who represents the Norwood *Register* does not seem to be an exception.

This will appear from the following extract, which I copy from his issue of yesterday:

Under the heading of "County Council," he says:—

"We regret that owing to an unfortunate slip of the memory on the part of a certain individual, we are unable to give the proceedings of the last two days of the Council in this issue."

Now I am satisfied that the "cap fits," and that I am the "certain individual" at which this insinuation is thrust. That I am correct will appear, I think, from the following circumstance: Last Tuesday between eleven and twelve o'clock, the proprietor of the Norwood stage called at my place, on his way to Marmora, and told me that the publisher of the Norwood *Register* wished me to send him a copy of the proceedings of the County Council, continuing from what had been published in the *Register* of the week before, and that he would call for it on his return in the afternoon. This I would have willingly done, had time and memory permitted. But I found that only about one day's proceedings of the Council had been published, and not expecting to be called upon to act in the capacity of special Reporter for the *Register*, I kept no written notes, and finding that at least three day's proceedings were required, which, under the circumstances, would be no small two or three hours' job, I gave up the attempt and told the gentleman on his return that I could not remember all the proceedings of the Council, with all the attending circumstances, so as to give a correct copy thereof.

Thus you perceive, that I can readily understand who is intended as "a certain individual."

But I cannot understand why the proprietor of the *Register* should attempt to hold me or my "unfortunate memory" responsible for his omissions or neglect, or for what does or does not appear in his paper.

It is true that in many instances the master or proprietor has been held responsible for the acts of his servants or agents, but I cannot tell why the *Register* should consider me as such, unless it is because I have taken a deep interest in its success, and have tried to induce many of my neighbors' to become subscribers, and also endeavored, as a member of the committee on County Printing, to secure for it a share of the work.

Again, it is a common custom in all civilized countries to attribute the acts and operations of those who are under the government and direction of another, to him by whom they are directed or governed. But I claim no such relative position to the *Register*, and cannot, on this account, be responsible for any of its acts or operations.

It may not be out of place to state, that some other "individual" has made, "an unfortunate slip of memory," for the *Register* gives an incorrect statement of the negative vote taken on the railway By-law.

In conclusion, I have to say, that I entertain no ill felling toward the Register, but in view of its youthfulness, I forgive it, and will continue to be its friend and supporter.

Yours Truly,
W. W. ARMSTRONG.

Blairton, 3rd Feb., 1871.

A peasant of Prussia, has lost three sons and four-sons-in-law during the war, and has thus been forced into the profession of six widows and twenty-one children.

PROSPECTS OF PEACE.

LONDON, Feb. 6.—The *Times* contains a Berlin despatch which says that previous to the capitulation of Paris the Government of England suggested to the powers the expediency of taking action in the interest of peace, and recommended the granting of lenient terms to France. To facilitate the requisite negotiations the powers were asked to give such instructions to their representatives in the conference as would enable them to take action on the whole subject.

The Paris correspondent of the London *Telegraph* writes on the 3rd of February that since the conclusion of the armistice tranquility has prevailed and a general expression of satisfaction and relief is shown by everyone. The suppression of the nightly clubs led to many out door meetings. On more than one occasion women addressed the crowds, inviting assaults on the Hotel de Ville and angerly inveighing against the men. Their harangues, however, were generally received with apathy and indifference. An attempt was made on Sunday morning, at Belles Centrales, to institute a universal pillage, the National Guard was called out and its members availed themselves of the opportunity to fill their own pockets. Several proclamations signed by obscure individuals have appeared on the walls, inciting resistance to the Government and refusing to accept the armistice; although generally read they are treated with indifference. A general topic of public interest is furnished by the elections.

Crowds of French peasants attend daily at the bridge of Neuilly in the hope of being able to pass the Prussian out-post, but without success.

The Government refuses to give any but personal passes, which are obtained with great difficulty.

BRUSSELS, Feb. 6.—The *Independence Belge* publishes the following list of candidates for the Constituent Assembly, named in Paris on Wednesday of last week: —Jules Favre, Isaac Adulphe Cremieux, Alex. Glais, Bezoine, Louis Joseph Ernest Picard, Jules Simon, Pierre Clement, Eugene Pelctan, Emanuel Arge, Louis Antoine, Garnier Pages, Jules Ferry, Henri Rochefor, Admiral Saisotts, Admiral De La Roudere, De Noury, Admiral Polthouas.

From other parts of France prominent French financers, civial engineers, and journalists, including the editor of the *Debats*, have been put in nomination.

BORDEAUX, Feb. 9.—The demonstration to-day in favor of the Bordeaux Government and the decree disqualifying office holders under the Empire from election to the National Assembly, was of a quite unimportent character. The procession consisted of about 700 persons and was headed by a Garabaldian colonel named Middleton; the rest of the crowd on the streets were mere spectators. The Prefect of Bordeaux received the deputation. Gambetta being engrossed with public duties, the Prefect read the following declaration from Gambetta on behalf of the Bordeaux delegation.

Faithful to the programme of the nation and of freedom, to arms as well as to the ballot boxes, we are now occupied in a council of war deliberating upon the means of profiting by the armistice.

Cremieux left this city last night for Paris.

LONDON, Feb. 6.—A number of journals of the north of France denounce the recent decree of Gambetta, and urged that the country needs and desires peace. Henri Rochefort announces that the forthcoming issue of a new paper entitled, "The Mot d'Ordre," which will advocate re-gicide.

The official "Journal" of Paris says that no conditions of Peace have, as yet, been discussed. The elections in Paris are postponed until the 8th.

The delivery of arms has commenced at Severan, and is proceeding rapidly in consequence of article 9 of the convention providing for a delivery of arms before the revictualling of Paris. The exchange of wounded and prisoners is proceeding to-day at the gates of Versailles.

Arrangements are being made at Berlin for the Emperor's arrival. He will be in Berlin by the 8th of March at the latest, His Majesty will leave Versailles on the 4th, and pass through Munden and Magdeburgh on his way to the capital. The whole army of the investment will march through the Arcde Triomphe, the Avenue de l'Imperatrice, the Rue de Rivoli, and the Rue St. Antoine, for the purpose of passing through Paris. The houses on either side of the route will be cleared of the inhabitants and occupied by German troops.

Inspector General Inais, of the English army, carrying provisions for the relief of the French, entered the city yesterday.

LONDON, Feb. 7.—A complete rupture has taken place between the Paris Government and Gambetta.

Jules Favre has resigned the Ministry of the interior, but will remain Minister of Foreign Affairs.

Another *emeute* is reported to have occured in Paris. The people in large numbers appeared before the Hotel de Ville, and made a demand upon the Government for more sorties, accompanying the demand with the cry "To Berlin." The rising was suppressed by the troops, who fired upon the mob several of whom were killed and wounded.

Rumored Cabinet Changes.—Respecting Cabinet changes, rumors are rife. It is more than probable that some of the leading members of the Government will retire, either during, or immediately after the Session. Mr. Morris, it is now asserted, is to go to Manitoba as Chief Justice, and it is hinted Sir John A. has determined to retire from political life. A leading Quebec member is also spoken of as likely to go out. The coming men for Ontario are "ye saint" of Cornwall, (who never uses profane language, by the bye) Mr. Brydges is to take the lead of the Quebec Station, and will have Sir A.T. Galt as aide de camp in chief. Should Sandfield be taken in, as at present contemplated, Mr. Ex-Governor McDougall is to be premier of Ontario. Such is the gist of rumors afloat, and we are inclined to believe a good many of the changes above mooted will become realities before many months pass. The "Brydges-Sandfield Macdonald" Cabinet would be even more distasteful to the people of Ontario than the present Coalition. — Chatham Banner.

DIED

At Peterborough, on the 7th instant, Miss Jessie Millar, youngest daughter of Andrew Millar, Esq. Aged 37 years,

ONE HUNDRED DOLLARS A WORD.

For every word in the following certificate found untrue, after writing to the parties named: and to the U. S. Consul, at Rio Janerio, the sum of one hundred dollars will be paid.

Rio de Janeiro, Feb. 28th, 1866.

Messrs. Raymundo O. Leite & Bro:

Gentlemen:—While a son of my friend Mr. *Francisco de Mattos Pimenta* [a large proprietor, in the Cidad de Campos] was staying at my house he was attacked with intermittent fever. Immediately I sent for the very clever Dr. Tenoco, who is thought a good deal of in Campos, but the fever instead of diminishing, turned, continued, and typhoid, the boy (14 years old) could not speak, would not take the baths, and it required a great deal of coaxing *to make him swallow the medicines*. Dr Tenoco declared that there was not the slightest hopes of saving the boy's life; that it would be advisable to write to his father and inform him of the state of his son's health. At that moment I thought of the well spoken Dr. Radway & Co's medicaments, and applied them in the following manner: One teaspoon of Relief in a tumbler of water, dividing it three doses a day; frictions with the relief pure on the chest, back and wrists; three of Radway's Pills every day, and well covered so that he might perspire. Second day, half an hour after meals, one desert-spoon of Resolvent and water. In the fourth day he was able to get up from bed to the astonishment of every one who witnessed the miracle of Dr. Radway & Co's. medicaments.

I remain, gentlemen, your very obedient servant

Joaquim Pinto Filcao, Merchant.

Dr Radway's Remedies are sold by Druggists and County Merchants. See Dr. Radway's Almanac for 1870.

Very Natural.

when a person has praised an article and found it good, and answering the purpose for which it is intended, he will not readily abandon it for one of doubtful reputation or concerning which he knows nothing. We are led to make those remarks owing to the course always pursued by those who have used that celebrated and truly valuable horse medicine Heavy Remedy." All are so well pleased with it that they will not use any other; many have waited several weeks until the agent would obtain a new supply. There is complaint affecting the wind of horses.

Remember the name, and see that the signature of Hurd & Co., is on each package. Northrop & Lyman, Newcastle, Ont., Proprietors for Canada. Sold by all Medicine Dealers.

Hide Bound Horses.

A Horse is said to be hide-bound when his skin will not slip under the pressure of the hand, but sticks as if it was glued, which condition is always dependent on a deranged state of the stomach and digestive organs, by correcting which, and giving to them a healthy tone and condition, the disease or complaint will disappear. Experience has proved that the means best adapted to this end is "Darley's Condition Powders and Arabian Heave Remedy." It has been used in numerous case with complete success, generally effecting a cure in a few days. It is the best condition medicine known, and may be given with perfect safety at all times, and does not require that the horse be kept from work.

☞ A common cough or cold should never be trifled with, often when neglected it is converted into a serious and generally fatal pulmonary disease. The more prudent, aware of this, promptly use "Bryan's Pulmonic Wafers" a curative which has sustained its reputation for over twenty years—they are always efficacious and exert a most beneficial influence on all the Bronchial and pulmonary organs. Sold by all Druggists and country dealers. Price 25 cts. per box.

SCIENTIFIC ITEMS.—A writer in Putnam's Magazine says: "It is a curious fact that there is never a white colt nor a black calf. The whitest horse was black in its birth, and the jet black cow was unwhitened." Whether this is correct or notwe cannot positively say; but this do belive, that the best medicine for removing pain from the system is the "Canadian Pain Destroyer." In cases of rheumatism sprains, bruises or severe colds and summer complaints, it stands unequaled. *For sale by all* Druggists and country dealers. Price 25 cents per bottle.

Children whose brain development is unusually large in comparison with the body are most frequently singled out for a prematurely final resting place. Why too frail to supply the waste going on in the brain consequent upon active intelligence. Fellow Compound syrup of Hypophosphites is so prepared that it impart a vital principal directly to the brain while it assits in developing a vigorous and robust body.

Price $1 50 a bottle; 6 for $7 50. Sold by all Druggists and by F. Cundill & Co., wholesale agents, Montreal.

WE ALL consumption is the embodiment of strength and power, but how few are aware that it is the same element in the system, that gives us strength and vigour, and that an insufficiency of it causes weakness & debility. The Peruvian Syrup, a protoxide of iron, is prepared express to supply this vitalizing element.

A FRIEND IN NEED.—*Dr. Wister's Balsom of Wild Cherry is a-friend-in-deed*, who has not found it such in curing all diseases lungs and throat, cough, colds, and pulmonary affections and "last, not least, Consumption? The sick are assured that the high standard of excellence on which the popularity of this preparation is based will always be maintained by the proprietors.

CHANCERY.

NOTICE TO CREDITORS.

Pursuant to an order of the Court of Chancery made in the matter of the estate of GEORGE CAMPBELL, deceased, and in a cause

Campbell against Campbell,

The creditors of GEORGE CAMPBELL, late of the Township of Monaghan, in the County of Peterborough, who died on or about the month of June, 1870, are, on or before the

21st DAY OF JANUARY, 1871,

to send by post, pre-paid, to FREDRICK E BURNHAM, of the Town of Peterborough, the solicitor of the defendants, Robert E. Campbell and James Campbell, the administrators of the deceased, their Christian and Sir names, addresses and description, the full particulars of their claims, a statement of their accounts and the nature of the securities (if any) held by them, or in default thereof they will be peremptorily excluded from the benefit of the said order.

Every Creditor holding any security is to produce the same before me, at my Chambers, at the Court House, in the Town of Peterboro, on the

4th DAY OF FEBRUARY, 1871,

at ten o'clock in the forenoon, being the time appointed for adjudication on the claims.

Dated this 14th day of December, 1870.

W. H. WELLER.

DENNISTOUN, FAIRBAIRN & CASSELS, 50-td. Plaintiff's Solicitors.

Congregation of Notre-Dame,

"EASTER MORNING,"

Will be Raffled at the Convent, on

Wednesday, 15th of February, 1871.

AT TWO O'CLOCK, P. M.

☞ Purchasers of tickets for the Picture will be entitled to a Free Ticket for an Entertainment to be given by the Pupils, in the Convent Hall, on the evening of Friday, February 17th

Peterboro, Feb. 2, 1871. 5

4 25 vs. 3500 00.

Economy in Health and Physic is as important as in business, and we know of no cheaper, better, or surer means of preserving health and divesting the sick of their infirmities, than through the medium of Dr. Radway's famous medicines. We present a case in point:

Case 1. 23d.—Marcus W. Munn, long a sufferer from liver complaints, has paid, he says, at different times, about $250 to physicians, and he thinks as much more for medicines. Is induced to try Radway's Pills, with occasional doses of the Renovating Resolvent, to assist in removing from his system the effects of the mercurial treatment to which he has been subjected. Soon feels the benefit of the change. Takes, in all, five boxes of the Pills and three bottles of the Resolvent, and at the end of the course is "as well as ever he was in his life."

Glance at the account current here below; Bills for medical attendance, $250; outlay for prescriptions, $250.....$500,00

Five boxes of Radways Pills, $2 25; three bottles Resolvent, at $1 each, $3—(disease removed).....4 25

Balance in favor of the REGULATING PILLS and RESOLVENT.....$495 75

R. R. R. Remedies sold by Druggists and Country Merchants. See Dr. Radway's Almanac, 1870.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and in many more known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier, alterative, stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phathisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, Diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is last superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious cholic, cholera infantum, dysentery, &c.

Price only thenty-five cents per bottle.

NORTHROP & LYMAN,

The successful rival of the Steinway, &c. He is also Agent for

W. BELL & CO'S PRIZE MELODEONS,

The Melodeons that carried off the prizes at the Provincial Exhibition. ☞ Both Pianos and Melodeons kept on hand.

PIANOS AND MELODEONS!

THE BRADBURY PIANO,

Which has met with triumphant success, and has successfully competed with the best Pianos in the world, and has received the highest testimonials from Gottschalk, Mason, Sanderson, Pattison, Berge, Zundell, Heller, Fradel and others,

IS SOLD IN PETERBOROUGH BY A. B. KIDD.

He also sells the WEBER PIANO, which, to those who wish a cheap instrument, is equal to any of its class.

W. Bell & Co's Melodeons are supplied by A. B. Kidd.

These instruments received First Prizes at the Ontario Provincial Exhibitions for 1868 and 1869; also at the Quebec Provincial Exhibition held in Montreal, September, 1870. At the Ontario Provincial Exhibition held in Toronto, October, 1870. W. BELL & Co. received the First Prize and Diploma for the best Harmonium or Large Cabinet Organ, and the First Prize for the best Melodeon. It is universally acknowledged that in the manufacture of Melodeons W. BELL & Co. excel all other Canadian makers, having taken the First Prize on Melodeons at the last three Provincial Exhibitions. As to Organs or Harmoniums it must be remembered that The Diploma just received by W. Bell & Co. is the only one awarded during the last seven years at any Provincial Exhibition. ☞ All instruments warranted for five years, and satisfaction guaranteed.

PAPER BAGS AND WRAPPING PAPERS

Are supplied by A. B. KIDD at Montreal Prices.

Dealers will find it advantageous to give him their orders, as he has made arrangements with one of the largest firms in the Dominion, which enable him to supply Paper at Wholesale Prices.

Peterboro, November 15, 1870.

Select Poetry.

A Dying Drunkard's Confession.

It matters not now; for I'm dying,
And soon 'neath the ground will be lying
I must speak of my life,
Of my poor murdered wife,
And my little one, hungry and tattered and
sad,
Who cried "because her father was such a
bad man."

Her I fell from the height of my honor,
I saw her, my wife; and I won her.
When I bore her away
From her parents that day,
They said to me, "William, you love her
We know;
And may God bless you, children, wherever you go."

So I carried her off over the ocean;
And I loved her with tenderest devotion,
Till a demon stepped in,
And caused me to sin:
Then I left my poor wife for the revellers,
bowl,
Which has burnt like a canker my conscience
and soul.

One day I shall ever remember—
'Twas a cold day in November—
I felt I was bold,
And by Satan compelled
To please through her with a long cruel
knife,
My once happy Mary, my darling, my wife,

With my child then I quickly departed,"
And returned o'er the sea, broken hearted;
For my little girl died
On the ocean wide,
And we sank in the water her cold silent
clay,
To rest 'neath the billows forever and aye.

But it matters not now; for I'm dying,
And soon 'neath the turf will be lying:
The inebriate's bowl
Has ruined my soul:
But my wife and her child have gone to the
home
Where drunkards and murderers never can
come.

Z. C. WHEELER.

FORTUNE TELLING.

Science Made Easy—How to Read the Fortune, And find out All About it.

Those of our readers who wish to engage in the business of fortune telling will find the following hints useful.

January—He that is born in January will be laborious, and a lover of good wine; but very subject to infidelity, and withall a good singer. The woman born in that month will be a good house-wife rather melancholy, get good natured, and will have large feet.

February—The man born in this month will love money much, but woman more. He will be stingy at home, but prodigal abroad. The lady will be human and affectionate to her mother in law.

March—The man born in March will be rather handsome. He will be honest and prudent, but die poor, he will be ready and subject to warts. The lady will be passionate, jealous and a chatter box, and use peril powder a remedoit.

April—The man who has the misfortune to be born in April will be subject to maladies. He will travel to the disadvantage, for he will marry a rich heiress, who will prove a virago. The lady who suffers the same misfortune will share the same fate, and is likely to have twins.

May—The man born in this month will be handsome and amiable, with a pimple on his nose. He will make his wife happy. The lady will be equally blest in every respect

June—The man born in this month will be small in stature and passionately fond of ladies and monkeys; The lady will be personally fond of coffee and will marry soon.

July—The man born in July will be fat and suffer death for the woman he loves He had better eat celery and drink Mrs. Winslow's soothing syrup. The female will be very handsome, with a sharp nose and fine feet. She will be of rather milky temper and fond of silk dresses.

August—The men born in this month of August will be ambitious and courageous, He will have two wifes. The lady will be amiable, and twice married, but her second husband will cause her to regret the first and her hair will fall out.

September—He who is born in September will be low sized and fond of his wife, who will wear curls. He will be ambitious and fond of poetry. The lady will be round freed fair haired, witty, discreet, and loved by her friends.

October—The man born in this month will have a handsome face and florid complexion. He will be wicked and inconsistent. He will promise one thing and do another, and remain poor. The lady will be pretty, a little fond of talking, and will have two or three husbands, who will die of grief— she will know why: and erect a handsome monument to the first.

November—The man born in this month will have a fine face and a gay deceiver. The lady of this month will be large, liberal and original, and have a large mouth.

December—The man born in this month will be a good sort of personage though passionate. He will devote to politics, and be loved by his wife. The lady will be amiable and handsome, with a good mind a fine figure, and very honest and fond of babies, of which she will have many.

For The Girls.—Why is a Stage Coach like the heart of a Flirt?

Because there is always room for another.

A Convenient Nap.—Two Oxford Scholars slept in the same room at College. "Jack" says one, in the morning "are you asleep?"

"Why?" replied the other.

"Because if you are not, I will borrow half a crown of you."

"Is that all? then I am."

"Take care," recommended a father to his children "when you find yourself in the presence of persons who see you for the first time, to display only the best qualities of heart and mind They will always judge you under this first impression. That father new the world.

Good qualities, like great abilities, are incomprehensible and inconceivable to such as are deprived of them.

"Who has a stupid intelect, a broken memory, and a blasted wit, and which is worse than all, a blind benighted consequence, but the intemperate? So impossible is it to man to turn out, without making himself a blockhead too"—Dr. South.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural VHality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* This hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be swiftly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Uterous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of the medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammations of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

RADWAY'S READY RELIEF

Cures the Worst Pains

IN FROM ONE TO TWENTY MINUTES.

NOT ONE HOUR

After reading this advertisement, need any one Suffer with Pain.

RADWAY'S READY RELIEF
IS A CURE FOR EVERY PAIN.

It was the first, and is

The Only Pain Remedy

That instantly stops the most excruciating pains. ALLAYS INFLAMMATIONS AND CURES CONGESTIONS,

Whether of the Lungs, Stomach, Bowels, or other glands and organs, by one application.

In from One to Twenty Minutes.

No matter how violent or excruciating the pain, the RHEUMATIC Bed-ridden, Infirm, Crippled, Nervous, Neuralgic, or prostrated with disease may suffer,

RADWAY'S READY RELIEF

will, in from ONE to TWENTY MINUTES, *afford ease and comfort*; and this medicine, so rapid in stopping pain, can be purchased for 25 cents per bottle at almost every druggist's and country merchant's store on this continent, and within one hour's distance of almost every habitation in this country

RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA.

If those who are now suffering Pain—no matter what the cause may be, or by what name it is called—if external apply the Radway's Ready Relief to the part of the body where the pain is present. If internal,

20 Drops Diluted in Water,

As a drink; whether Cramps, Spasms, Inflammation, Congestion, Asiatic Cholera, Chills and Fever, the most violent, excruciating, and torturing pains will be stopped

In from One to Twenty Minutes.

PAINFUL ATTACKS WHERE

RADWAY'S READY RELIEF

WILL AFFORD INSTANT EASE—

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart,
Hysterics, Croup, Diphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the *READY RELIEF* to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops in a half tumbler of water will, in a few moments, cure

Cramps, Spasms, Sour Stomach,
Heartburn, Sick Headache,
Diarrhœa, Dysentery, Colic
Wind in the Bowels,
and all Internal Pains.

Travellers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

IT IS BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT

FEVER AND AGUE.

Fever and Ague Cured.
Fever and Ague Cured.
Fever and Ague Cured.
Bilious Fever Cured.
Chills Fever Cured.
Yellow Fever Cured.
All Prevented.
And Prevented.

FEVER & AGUE CURED
FOR FIFTY CENTS.

There is not a remedial agent in this world that will cure FEVER & AGUE, and all other Malarious, Bilious, Scarlet, Typhoid, Yellow, and other Fevers (aided by Radway's Pills), so quick as Radway's Ready Relief.

RADWAY'S READY RELIEF

has proved infallible, and will cure these terrible fevers quicker, and without entailing the frightful penalties of Engorged Liver, Fat Spleen, Disordered Kidneys, and Saffron-Colored Skin, that ensure to follow the use of the "Cholorgogues," "Ague Cures" and other agents of the heroic Quinine, Mercurial, Arsenic, and other treatments where the medicines are *recommended*, and become deposited in the system.

HEALTH! BEAUTY!!

Strong, Pure and Rich Blood — Increase of Flesh and Weight — Clear Skin and Beautiful Complexion, Secured to ALL.

RADWAY'S SARSAPARILLIAN RESOLVENT

has made the most astonishing cures. So quick, so rapid are the changes the body undergoes under the influence of this truly WONDERFUL MEDICINE, that

Every Day an Increase in Flesh and Weight is Seen and Felt.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal, in its many forms, Glandular disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands, and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, Eruptive Diseases of the Eyes, Nose, Mouth, and the worst forms of Skin Diseases, Erysipelas, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all Weakening and Painful Discharges, Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of Radway's Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of disease, its potent power to cure them.

Not only does the Sarsaparillian Resolvent excel all known remedial agents, in the cure of Chronic Scrofulous, Constitutional Skin and Syphiloid diseases, but it is the only positive remedy for Kidney, Bladder, Urinary, and Womb diseases, Dravels, Diabetes, Dropsy, Retention of Water, Incontinence of Urine, Bright's disease, Albuminuria, and in all cases where there are Brick dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid dark, bilious appearance, and white bone dust deposits, and where there is a pricking, burning sensation when passing water, and pain in the small of the Back, along the Loins. In all these conditions Radway's Sarsaparillian Resolvent, aided by the application of Radway's Ready Relief to the Spine and Small of the Back, and the Bowels regulated with one or two of Radway's Regulating Pills per day, will soon make a complete cure. In a few days, the patient will be enabled to hold and discharge his water naturally without pain, and the Urine will be restored to its natural clear, and amber or sherry color.

THE WASTES OF THE BODY

are supplied with new, healthy and vigorous blood, that furnishes sound structure. Blood all suffering from WEAKENED DISCHARGES, either MALE or FEMALE, of the Womb, Uterus, or other organs, whether Leucorrhœa, Sperm, or Erosive discharges of every kind, or from violence of "Self-abuse," from the Genital Glands, or Venereal discharges, or Ulcers, or Sores, through the reparative process of Radway's Sarsaparillian, are arrested, and the ruptured organs healed

THE TRUE THEORY OF CURE.

Radway's Sarsaparillian Resolvent supplies the system, through the blood, urine, sweat, and structure-making constituents, with Tissue-making, Flesh-making, Heat or Calori, and Fat-making elements. All of its constituents are *nourishing, purifying, and strengthening. It Restores, Heals, Reorganizes, and drives out of the body* the products of Decay and Corruption. CONSUMPTION, WHITE SWELLING, DROPSY, SYPHILIS, CANCERS, TUMORS, &c., are all of a scrofulous diathesis, and as such are within the curative range of the Sarsaparillian Resolvent!

1. That Scrofula, by whatever name designated, is the result of deposits from the blood, induced or caused by Chronic inflammation. That those deposits take place when the blood is *poor, weak, watery*, and incapable of holding in solution its proper constituents, or it is in the presence of some virus or poison in the blood, as Mercury, Calomel, Corrosive Sublimate, which is the Corrosive Chloride of Mercury, or other agents given in medicines and which enter largely in the common advertised Sarsaparillas, NOT ABSORBED OR CHANGED FROM THEIR NATURAL CONDITION.

2. That unless the waste of nutriment are greater than the wastes, that decomposition and decay will supervene, and the powers of life become exhausted.

3. That the dying body cannot be sustained on any treatment of medication that exhausts the system, or fails to nourish the blood, the only medium through which the *vital* forces are preserved, and on which the growth of the body depends.

4. That Radway's Sarsaparillian Resolvent supplies a want never before possessed or known to exist in medicine; that this new found principle in Chemical science, which has been brought to such a perfect system of cure, is exhibited as follows:

1. Its great power in assimilating the food in its first stage of distillation is the process of digestion, as chyme and chyle with the nourishing elements of blood, separating from these liquids refuse and inert qualities before they are taken up by the lacteals and are formed into blood. Here we see that by its wonderful power it charges the system with the very essence or principle that forms the vital powers of the body, and its chemical action on the blood in its primitive and complete condition separates every atom of refuse material as element, out of which the virus of disease is formed.

TEACHER WANTED.

A Male Teacher, holding a Second Class Certificate, for School Section No. 3, Dysart known as the Haliburton School, to whom liberal wages will be given. School to commence immediately. Applications to be made, or addressed, to the undersigned, in Haliburton.

J. R. ERSKINE,
Sec.-Treas., S. S. No. 3, Dysart
Haliburton, Jan. 13, 1871. 3

Courtesy Rewaded.

One little act of kindness will sometimes pave the road to fortune and preferment. The following sketch illustrates this fact:

A sailor, roughly garbed, was strolling through the streets of New Orleans, then in a very damp condition from rain and the rise of the tide. Turning the corner of a much frequented and narrow alley he observed a young lady standing in perplexity, apparently measuring the depth of the muddy water between her and the opposite sidewalk with no very satisfied countenance.

The sailor paused, for he was a great admirer of beauty, and certainly the fair face that peeped out from under the little chip hat, and the auburn curls hanging glossy and unconfined over her muslin dress might tempt a curious or admiring glance Perplexed, the lady put forth one little foot, when the gallant sailor with impulsiveness exclaimed, 'That pretty foot, lady, should not be soiled with the filth of this lane; wait for a moment only and I will make you a path.'

So springing past her into a carpenter's shop opposite, he bargained for a plain board that stood in the doorway, and coming back to the smiling girl, who was coquettish enough to accept the services of the handsome young sailor, he bridged the narrow black stream, and she tripped across with a merry 'Thank you, and a rougeish smile making her eyes as dazzling as they could be.

Alas! our young sailor was charmed. What else could make him catch and shoulder the plank and follow the little weith through the streets to her home, she twice performing the ceremony of 'walking the plank,' and each time thanking him with one of her eloquent smiles. Presently our hero saw the young lady up the marble steps of a palace of a house, and disappear, within its rosewood entrance. For a full minute he stood looking at the door, und then with a wonderful big sigh turned away, disposed of his draw bridge and wended his way back to the ship!

The next day he was astonished with an order of promotion from the captain. Poor Jack was speechless with amazement, he had not dreamed of being exalted to dignity of second mate's office on board one of the most splendid ships that sialed out of the port of New Orleans. He knew he was competent, for instead of spending his money for amusement, visiting theatres and bowling alleys on his return from sea, he purchased books, and had become quite a student, but he expected years to intervene beiore his ambitious hopes would be realized.

His superior officers seemed to look upon him with considerable leniency, and gave him many a fair opportunity to gather maritime knowledge, and in a year the handsome, gentlemanly young mate had acquired unusal favor in the eyes of the portly commander, Captain Hume, who bad first taken the smart little black-eyed fellow, with his neat tarpaulin and tidy bundle, as his cabin boy.

One night thr young man with all the other officers, was envited to an entertainmen at the captain's house. He went and to his astonishment, mounted the identical steps, that two years before, the brightest vision he had ever seen passed over—a vision he had never forgotten. Thump, thump, went his brave heart as he was ushered into the parlor, like a sledge hammer it beat again when Captain Hume brought forward his blue-eyed daughter, and with a pleasant smile said: 'The young lady was once indebted to your kindness to a safe and dry walk home.' His eyes were ablaze and his brown cheek flushed hotly, as the noble captain sauntered awny, leaving Grace Hume at his side. And in all that assembly was not so handsome a couple as the gallant sailor and the pretty lassie.

It was only a year from that time that the second mate trod the quarter deck, second only in command, and part owner with the captain, not only in his vessel but in the affections of his daughter, gentle Grace Hume, who had always cherished with respect, to say nothing of love, for the bright eyed sailor.

Scraps from Josh Billing's Almanax.

Whenever you see a flock uv geese standing on one leg, all except one gander and he chawing his cud, look out for southwest wind to-morrow, or the next day, or the day after, or at some future time.

Whenever dogs are seen travellin' around with nothin' to to do, and old maids refuse their tea, and hop-vines won't klimk, and grind stones wont grind, then yu may expect a krop uv otes and beans that won't pay for harvesting.

The cockroach iz a bug at large; he iz one ov the luxurys ov civilizashun. The cockroach is born on the fust of May and the fust of November semi-annually and ready for use in fifteen daze from date. They are born four from each egg, and are consequently they are all twins.—There is no such thing in the annals uv natur as a single cockroach. There food seems to konsist, not so much of what they eat, as what they kan git into, and often findfng them ded in the soup, at my boarding house, I have kum to the painful konklushun that the cockroach kant swim, but that he ken flote for a long time.

A gentleman is a gentleman the world over; it is only the loafers that differ.

Tew learn a dog to follow well tie him to the end of an express train.

Tew get rid of cockroaches sell yure hus and let, and flee toward the mountain.

A dog iz the only thing on earth that luvs you more than he luvs himself.

Courage without discreshun is like a ram without horns on both ends, he will have more fights on hand than he kan do justiss to.

When you find a man who is very solisitus about the welfare of everpbody, yu kan safely put him down as one who iz hunting for a misfortune.

Don't undertake to live with yure mother-in-law, but if wus comes to wussness, let yure mother-in-law live with yu.

Lazyness is a good deal like money—the more a man has uv it the more he seems to want.

Gravity is no more positiff evidence ov wisdom than a paper collar is of a shirt.

Every time a man laffs he takes a kink out ov the chain of life, and thus lengthens it.

A coquett in luv is the same as a bottle of pop that hes stood sum time with the cork pulled out.

I don't kno eanything more remorseless on the face ov the earth than 7 per cent interest.

Three score years and ten is a man's furlo, and it is enuff; if a man kant suffer all the misery he wants in that time, he must be numb.

What man kant do they are very apt to admire; they won't kriticize a mountain because they kant make one.

There is nothing like a sick bed for repentence; a man becomes so virturous he will often repent of sins he never kommitted.

Great transgreshuns seem to baptise themselfs; if the devil had only been guilty of petit larceny, he never would have been heard of again.

The man who won't believe ennything he kant see aint so wise as a mule for they will kick at a thing in the dark.

Whenever a minister has preached a sermon that pleases the whole kongregashun he probably preached one that the Lord wont endorse.

Sekrets are poor property enny how; if yo circularize them yu loze them, and if yu them yu lose sho interest on the investment.

HUMBUG EXPOSED.

THE Subscriber begs to inform his customers and the public generally, particularly those intending to buy Furs, NOT TO RETAIN their orders, as there never was a better chance to select Furs than at my store. The stock consists of my own manufacture, and of nothing but the real article. I have none, nor ever had any of the so called German Mink, French Seal, Sea Otter, British Sable, and numerous other high sounding, fictitious names, by which trashy imported articles are disposed of at fabulous prices. Is it not also true that Russian and Western Mink, being colored, is disposed of as Canada Mink? Goods made up for wholesale trade are of inferior quality.

Whether my own manufacture compares favorably with city manufactures, the following will show for itself. It was my own workmanship which secured to Mr. McIver, of Montreal, the First Prize for a set of Ladies' Furs, at the exhibition in 1858, held in the Grand Trunk Sheds at Montreal, against the following competitors:—Messrs Greene & Sons, Brahadi, Henderson, Brown, and several others, Mr. F. W. Lassack, of New York, being one of the Judges for Furs. The same Lady's set was sold to a Baltimore lady for the handsome sum of nearly $400. I believe myself capable of doing now, as I did then.

An Examination of my Stock is solicited.

The Highest Price Paid for RAW FURS.

W. LECH.

Peterboro, October 19, 1870. 42-17in

WILSON, BOWMAN & CO.

Hamilton, Ontario,

MANUFACTURERS OF THE CELEBRATED

LOCKMAN SEWING MACHINE,

Take pleasure in announcing that the popularity of the Sewing Machine manufactured by them is still on the increase. They are now turning them out at the rate of 600 per month and yet have been compelled within the last two weeks to increase their facilities to a capacity of one thousand per month.

The Lockman Machine, from its capacity to sew the heaviest fabrics with linen thread, as well as the finest cambrics with No. 150 Cotton, is pre-eminently the Farmer's Favorite Family Friend.

It is so exceedingly simple in its parts, and so strongly and durably made, that it does not require a mechanical genius for its management.

The manufacturers challenge the world to produce its equal, and yet its price is from Forty to Fifty per cent. Lower than that of any other first-class Shuttle Lock-stitch Sewing Machine

EVERY MACHINE IS WARRANTED.

Sole Agent for the County of Peterborough—

Select Poetry.

The Late Mrs. McGee.

The following beautiful poem by Mr. McGee will be read with melancholy interest by His many admirers throughout the Dominion, now that the 'Irish Wife,' as well as her gifted husband, have been removed by the inscrutable will of the Almighty:—

THE IRISH WIFE.

I would not give my Irish wife
For all the dames of the Saxon land—
I would not give my Irish wife
For the Queen of France's hand;
For to me she is dearer
Than castles strong, or lands of life—
An outlaw—so I'm near her
To love till death my Irish wife.

Oh, what would be this home of mine:
A ruined, hermit-haunted place,
But for all the light that nightly shines
Upon its walls from Kathleen's face?
What comfort in a mine of gold,
What pleasure in a royal life,
If the heart within lay dead and cold,
If I could not wed my Irish wife?

I knew the law forbade the bands:
I knew my king abhor'd her race,
Who never bent before their clans,
Must bow before their ladies' grace,
Take all my forfeited domain,
I cannot wage with kinsmen strife;
Take knightly gear and noble name,
And I will keep my Irish wife.

My Irish wife has clear blue eyes,
My heaven by day, my stars by night:
And twin-like truth and fondness lie
Within her swelling bosom white.
My Irish wife has golden hair:
Apollo's harp had once such strings;
Apollo's self might pause to hear
Her bird like carol when she sings.

I would not give my Irish wife
For all the dames of the Saxon land:
I would not give my Irish wife
For the Queen of France's hand;
For to me she is dearer
Than castles strong, or lands or life;
In death I would lie near her,
And rise beside my Irish wife.

Selections.

The Biter Bitten.

Mr. Lillyseed was a decidedly cleve man. He had tried many professions and occupations about the provinces, and had found them all too slow as roads to wealth. His last and present occupation was that of a London linendraper.

Now a London linendraper may be, and often is, a very dull and respectable man, but Mr. Lilyseed was far too clever to be so tamely respectable. Go ahead was his creed, and Push was his watchword, and this was the reason why he was largely trusted and respected. His orders was never neglected in Cannon-street or Manchester, and his bills were considered as good as bank notes, after deducting a slight discount for the time during which they were running.

The main secret, however, of Mr. Lilyseed's popularity in the markets, was the excellent faith that he had always kept with his creditors. He had always paid his way. If anybody had suffered, his creditors were not the persons.

Mr. Lillyseed had, in some respects, been a singularly unfortunate man; a man who seemed to be doomed to be visited by the fearful calamity of fire. The electric fluid (as it popularly called) had always spared his stock-in-trade and household goods, but not so, the devouring element. The devouring element was exceedingly hard upon poor Mr. Lillyseed, or rather would have been hard upon him, if he had not been excessively clever, prudent and farseeing. As it was, the devouring element was left to wreak its unruly vengeance upon a variety of fire offices in which Mr. Lilyseed was fully insured, and especially upon the great office of the Happy-go-Luck Insurance Company had plenty of money, a jolly board of directors, and historical name and reputation, and they paid every demand that was made upon them with the least possible delay and without any murmurs. The smaller offices sometimes showed a disposition to be waspish, but as their losses were reinsured in the Happy-go-Lucky Office, it was not their place to stand out in distinction from their leader.

It was a somewhat peculiar thing, too, when you came to think of it, that Mr. Lilyseed should have been so singularly afflicted. He called it "visited," when he was in a serious mood; but, call it by any name, and the fact was the same. A gas explosion at Birmingham; a total burn-out at Norwich; another gas explosion at Liverpool: and a fearful conflagration at his shop and dwelling house in London, were a very remarkable series of accidents, to say the least of them. Mr. Lilyseed and his family were always saved—providentially saved—but the destruction of property was almost enormous. Mr. Lilyseed had, once or twice, with a bruise, a scorch, a strained joint, or a head of hair singed, as if it had been prepared by a barber; and on one occasion, he was nearly sacrificed to the fury of the devouring element: but not quite—in fact, very far from quite. The fire always occurred at a season of the year when the old stock was supposed to be getting dusty, the patterns stale, and the new stock had just come in. The Happy-go-Lucky Insurance Company, however took no notice of this; and after the last accident, they built a new block of premises for the enterprising but unfortunate linendraper. The lofty stone-fronted shop formed a very different receptacle for merchandise to the dingy, old, smoky-bricked buildings on either side of either side of it.

This last act of liberality on the part of the Happy-go-Lucky Office did not seem to please Mr. Lilyseed like the cash-payment form of settlement that had been usually adopted. The expenditure was thereby largely taken out of his hands, and he saw the gradual erection of a new castle and trading establishment, which left him with a very slender balance at the banker's True, he had the usual payment for the usual stock that had been consumed as usual; and the lease of the new premises, by the rebuilding and improvements, was thereby rendered so much more valuable as a security for raising money. This was the immense advantage that Mr. Lilyseed derived from his last and fourth calamity by fire; and yet he was not satisfied!

Mr. Lilyseed's commercial operations had always been upon an ascending scale; that is to say, when he paid a manufacturer's bill of two hundred pounds, he bought four hundred pounds worth of goods from the same persons; and when, in other instances, he cleared off four hundred pounds sterling of debt, he accompanied it by taking on eight hundred pound steps of credit. This kept his warehouse well stocked with those materials of trade, which, by a little dexterous, though, perhaps, illigitimate manipulation, became a stepping stone to available cash, that, in its turn, was useful in consolidation the structure of Mr. Lilyseed's credit.

Mr. Lilyseed was careful to preserve all the outward and visible signs, the forms and the decencies, or indecencies of trade. He advertised; he puffed, or was puffed; he connected himself with political movement and a social movement; he registered a particular article of clothing with a very ugly, eccentric shape, and a more ugly, eccentric Greek title; he did everything in fact, that was usual or necessary in his trade and position, except to make the ordinary alarming sacrifices. For some reason, those were never required in Mr. Lilyseed's establishment. The stock was always pushed off, or consumed (by fire) without them

Mr. Lilyseed was worthy of a more extended sphere of action. His financial abilities had never been brought into contact with a bill of exchange, or there is nothing that might not have been expected as the result. His business was nothing if not a ready money business, and it gave no opportunities or excuse for drawing bills for goods that had really been sold, or for imaginary transactions that had never been entered into. When Mr. Lilyseed accepted a bill that was drawn by one of his manufacturer's he always did so with a sigh, as he saw glimpses of the financial paradise stretching before him, into which he was firmly forbidden for the present, to enter.

A parson of Mr. Lilyseed's ingenuity and resources was not, of course, to be left without a substitute for the accommodating or accommodation bill of exchange, although the substitute was one of a very clumsy, inferior, and inelastic nature.

Mr. Lilyseed had early placed himself in the hands of the auctioneers, and had found them a very useful and manoeved body of gentlemen. As gay young men about town are often found to be in the hands of the Jews, and yet seem to lead a very agreeable life, notwithstanding, so staid old shopkeepers about London are often in the hand of the auctioneers, and also lead a very agreeable life, notwithstanding.

A far less clever man than Mr. Lilyseed might have found an auctioneer prepared and willing to advance two-thirds of the cost price value of goods intended for sale, when every newspaper is full of advertisements from such convenient business gentlemen. A far less cautious man than Mr. Lilyseed might have had no fear in sending a few waggon loads of silks and ribbons to such a well-backed capitalist, where as much individual secrecy of operation, with as much promptitude of payment, was insured, as if the transaction had been one of stolen property passing between a thief and a receiver. In this case, although caution and secrecy were observed, there was no pressure of any criminal law and its administration which rendered this absolutely necessary. The parties to the operation, if an notice had been taken of it, were on the, one hand, an established tradesman of name and repute, who was clearing out old goods to make room for new ones; and, on the other hand, an equally established auctioneer, of equal name and repute, who was well supported by a spotless and powerful banking-house, and who was receiving and dealing with these as per instructions delivered. It is true that after the sale is concluded, and the advance of two-thirds cost value with interest is deducted, together with certain sale-room charges and commission, there will be no balance worth mentioning to hand over to the seller of the property. This will involve a considerable loss that must fall upon somebody's shoulders, and not, perhaps, upon the tradesman who has secured and disposed of the money paid in advance; but this is no business of any impertinent magistrates, any prying police-officers, or any troublesome policemen.

If, in the fullness of time, and the rottenness of a trading smash, such an habitual indulgence in secret salesroom dissipation is found to lead to something very like a fraudulent bankruptcy, they are the proper tribunals appointed to deal with this difficulty, and the fearful penalty of a three months' suspension of certificate.

This was the ever ready means of converting heavy stock in trade into portable and circulating cash, in which Mr. Lilyseed had frequently availed himself. He had not been same necessity to preserve an impenetrable secrecy, which weighs upon most traders who drink at the same fountain. The money had received from the Happy-go-Lucky Fire Insurance Company after the devouring element had feasted upon its prey, was thus left securely in his possession, as a basis for future operations. This was no inconsiderable sum, for the account of losses that he rendered exhibited the utmost amount of property destroyed at the utmost of prime cost valuation. He always, some way or other, forgot to mention the waggon-loads of goods that had been disposed of at the sale-rooms, and no one ever stepped forward to jog his memory. The Happy-go-lucky Insurance Company never expressed and doubts, or raised any difficulty about paying Mr. Lilyseed's alarming claim, or if they did, there was no one to carry them beyond the closed doors of the broad room. The system they worked upon was supposed to produce ultimate profit out of present losses; and in trading association which spent at enormous sum in advertising every year, it was, perhaps, wisely thought that the prompt discharge of large claims was the best advertisement to increase an already gigantic business. A favorable feature in Mr. Lilyseed's case was the fact that his account-books were never destroyed nor even mutilated. The provincial gas explosions and fires, as well as well as the metropolitan burnout, had all occurred at night, and in an hour when the books and papers were all securred in an invulnerable iron cupboard. This may have had its desired effect upon the minds of insurance managers; in fact, it must have had an influence.

If Mr. Lilyseed was dissatisfied with the manner in which the Happy-go-Lucky Company had settled his last claim, it was not long before he had substantial reason to be far more dissatisfied. When his new shop was completed, and stocked more closely with valuable goods than it had ever been before, he had the unexpected mortification of having his insurance rejected. The Happy-go-Lucky Company had become prudent at last, and while they made no remark about past calamities, they steadily refused to receive any present or future premiums from Mr. Lilyseed. The same was a losing one, regarded from every point of view; and years after the clerks in the office had made up their minds upon this point, the board of directors had become duly aware of it.—Mr. Lilyseed was politely advised to try a few other large offices in the same line of business; but he was too clever and complete a tradesman to give himself any such unnecessary trouble. He knew it would be fruitless, and he kept his money. It is strange that from that moment he was never troubled with the devouring element.

A few months passed in what may be barely called a legitimate trade, brought on another attack of Mr. Lilyseed's speculative energy. It wanted but a few weeks to the fourth day of a certain January on which most of those manufacturers' bills would have to be paid, that had been drawn for the new stock in trade of the clever and complete tradesman. Mr. Lilyseed found himself very rapidly getting into a corner. It was not a corner in which he suffered from the scarcity of money, but a corner in which he had plenty of that coveted article, and wished to keep it. The cloven hoof began to be a little—but not visible—apparent in Mr. Lilyseed's little counting house. He saw no chance of paying any longer upon the Happy-go-Lucky, or any similar company, and he began to turn his own attention towards his creditors.

Mr. Lilyseed, for once, took a very unusual step with him—he consulted his solicitor, Mr. Darky. Mr. Darky was not a professional gentleman of any very great moral principle, but he was thoroughly grounded in the etiquette and routine of his business

"My dear Sir," he said to Mr. Lilyseed, "you must not come to me at this stage of your career, and tell me you're in difficulties. I musn't hear it; I can't hear it; I don't hear it. You are not in difficulties; you are perfectly solvent; but you have a large creditor, a cash creditor, who is pressing you for a considerable sum, and you give him substantial security for his claim."

"But I have no such cred——," Mr. Lilyseed was observing, when Mr. Darky abruptly stopped him. The clever and complete tradesman was only clever and complete in his own peculiar way—the way of making money out of the devouring element. In the office of Mr. Darky he was again a child.

"The creditor will press you, if I understand you," returned Mr. Darky, "in the course of the afternoon. You had better see me again upon the matter, the first thing in the morning. Good day."

Mr. Darky bowed Mr. Lilyseed out with a profusion of nods, and winks, and signs, until the clever and complete tradesman began to see the course it was taken he should adopt. A very little walking brought him to his counting-house, and a good deal of reflection made him summon Mr. Dove, "Our Mr. Dove," as he was called, his leading shopman, to presence.

There were several reasons why Our Mr. Dove was sent for. In the first place, he was no relation of Mr. Lilyseed; in the next, he was an extremely mild, feeble, and manageable young man; and in the next place, Mr. Lilyseed was much pressed to find a reliable persecuting cash creditor. Mr. Dove was sounded in the counting-house, was invited to supper, and was spoken to over some midnight pipes and tobacco, and midnight whiskey-and-water. Mr. Lilyseed consumed the tobacco and whiskey; Mr. Dove was not in the habit of smoking, and preferred a very weak and sweet mixture of wine-and-water.

"If I can do anything to serve you Sir," said Our Mr. Dove, in a timid and devoted manner, "you may command me thoroughly. I don't understand these things as well as I ought, because they belong to the counting-house, which is not my department; but I suppose I may rely upon Mr. Darky, your solicitor, to set me right?"

"Undoubtedly," returned Mr. Lilyseed, in a satisfied and pompous tone (he was not only Mr. Dove's master, but he was old enough to be Mr. Dove's father.) "Undoubtedly. Have you got a solicitor?"

"Oh no," replied Mr. Dove, very modestly. "I never had any occasion for one."

"I thought not," said Mr. Lilyseed, "and I have provided accordingly. If you will step in, the first thing in the morning, to a Mr. Dusky, a professional gentleman, whose place of business is only four doors from Mr. Darky's, at No. 15, in the same row, you can instruct him to sue me for five thousand pounds, debt and interest, and you will find him thoroughly prepared to act upon your instructions."

The next day our Mr. Dove instructed Mr. Dusky, who returned more instruction than he received. A writ was issued in the case of Dove versus Lilyseed. A deed of assignment, a bill of sale, was proposed by Mr Darky, acting for Mr. Lilyseed, to stop the action. The action was stopped by Mr. Dusky, acting for Mr. Dove, in consideration of Mr. Lilyseed executing this deed, conveying six thousand five hundred pounds in stock and book debts, and paying five hundred pounds in cash to Mr. Dove, within four-and-twenty hours. The margin of two thousand pounds, excess, was left to cover depreciation. An appointment was made to do this, at Mr. Lilyseed's establishment, before half this time had expired. Mr. Lilyseed had obtained the five hundred pounds with great difficulty, from a client of Mr. Darky's, a retiring capitalist, who advanced upon a substantial deposit of stock to twice the amount. The capitalist did not wish his name to appear, and the whole business was, therefore, transacted through Mr. Darky.

At eleven o'clock one morning, the two solicitors, Mr. Dusky and Mr. Darky attended in Mr. Lilyseed's sitting-room to patch up the action of Dove versus Lilyseed. The plaintiff and defendant, of course were both present.

"You are willing," said Mr. Dusky, speaking to his client, Mr. Dove, "to accept the bill of sale for six thousand five hundred pounds in stock-in-trade (according to the inventory attached), and a cash payment of five hundred pounds, as a satisfaction of your claim against Mr. Lilyseed?"

"Well," replied Our Mr. Dove, who acted his part to perfection, "I really know so little of these matters, that I must leave myself entirely in your hands."

"Mr. Darky," said Mr. Dusky, addressing his fellow-solicitor, "will you instruct your client, Mr. Lilyseed, to execute the deed?"

Mr. Darky did as he was requested, and the bill of sale, in favour of Mr. Dove, after a little whispering, a little mumbling, a little pointing, a sound of quill pens scratching upon parchment, and much placing of forefingers upon small red wafers, was duly signed, sealed, and delivered.

A promissory note for five thousand pounds, payable on demand, and bearing Mr. Lilyseed's signature in favour of Mr. Dove, was handed over to the latter gentleman, that he might sign a memorandum and receipt on its back, referring to the deed and the sum of £500 which was at that moment to be paid.

"Where do I put my name?" asked the mild and feeble Mr. Dove, as he took a very copious dip of ink.

"Immediately under the memorandum" exclaimed the two solicitors, almost simultaneously.

"Here?" again asked Mr. Dove, putting his tongue out of the side of his mouth, like a schoolboy over his writing lesson.

"No, there," observed the solicitors, pettishly, almost guiding the hand to the place, and to [illegible] the circumstances.

"Had I better sign it in full?" asked Mr. Dove.

"As you're called in the deed," they said, pushing that document towards him, "John Henry Dove. The matter's very simple."

"I think I ought to count the money—the five hundred pounds," said Mr. Dove, still hesitating.

"It's all right, and in my possession," returned Mr. Dusky, peremptorily.

"I ought to count it," persisted Mr. Dove; "we always do so down in the shop."

The two solicitors looked at Mr. Lilyseed "Let him count it," said Mr. Lilyseed; "it's only five notes of a hundred each."

The money was handed over to our Mr. Dove, who seemed to be getting very nervous. He counted it tremulously, and then signed the back of the promissory note in a hurried style of handwriting.—After he had done this he crumpled up the bank-notes and the promissory note, and put them in his trousers pocket, while he rolled up the bill of sale, and grasped it like a stick.

"What are you doing?" shouted Mr. Lilyseed and the two solicitors.

"I don't know, I'm sure," returned Mr. Dove, exhibiting a tendency to collapse; "I hope I haven't got into trouble. I ought to have consulted my mother."

"Don't be a fool," said Mr. Lilyseed, authoritatively; "give the deed, the money and the promissory note to Mr. Darky, and go down to business."

"Oh, I can't do that, Sir, to-day; indeed I can't," replied Our Mr. Dove, excitedly. "I feel quite ill. I must take a turn round the houses, or I won't answer for the consequences."

Mr. Dove was evidently very much worried upon by the occurence of the morning, and every attempt to deal with rationally, either on the part of Mr. Lilyseed or the two solicitors, was utterly hopeless. He was left, at last, in the hands of his employer, simply because no other practicable course presented itself. He persisted in retaining the money and paper; and what was his in theory became his in practice.

During the few weeks left to Mr. Lilyseed to prepare the deck for his intended insolvency, the relations of master and servant between him and his head shopman were not disturbed. Mr. Dove attended to his duties the same as usual, while Mr. Lilyseed, as a measure of security, instructed and paid another young man in the establishment to watch him closely, for fear he should get dissipated or run away with the five hundred pounds. Mr. Dove, to his credit be it said, showed not the slightest disposition to behave in such an ungrateful manner. He was soft and timid but he was not dishonest.

The fourth of that particular January arrived at last, and melted very quickly into the fifth. Every bill that bore Mr. Lilyseed's name was sent back unpaid from his bankers, for the very sufficient reason that there was no money lodged to discharge them with. Towards evening a number of London creditors arrived at Mr. Lilyseed's establishment consternation depicted on their countenances. The next day and the next brought up the provincial and principal creditors, who were equally alarmed at the prospect of heavy bad debts.

They had always been remarkably placid and ready to renew their confidence in Mr. Lilyseed when it was the Happy-go-Lucky Insurance Office that was made to suffer. Any suspicions they may have had about sharp dealing on the part of their customer never seemed to shake their faith, for where they not always paid with favorable regularity, and did not the destructive ravages of the devouring element always produce a fresh demand for merchandise? Now it had come to lose a stake, they did not seem to relish it.

Mr. Lilyseed was not to be seen—he was too much ill to meet his trading connexions—and Mr. Dove was put forward to answer all necessary questions. Mr. Lilyseed's affairs where in the hands of his solicitor, Mr. Darky, and Messrs. Nought and Carryone, the distinguished accountants, had received instructions to prepare a balance sheet.

This never-varying answer, while it damped the ardour, served to satisfy the inquiries of the larger creditors, but not of the small ones, especially one of the small ones. Small creditors are always inclined to shy in harness, and so was this one. The withdrawal of Mr. Lilyseed was an act of bankruptcy, according to law and this particular small creditor availed himself of the Act of Parliament. Without pausing to consider whether he was not playing into the hands of his debtor by forcing him before the humane and lenient tribunal of bankruptcy, and, much to the disgust of the large creditors, he obtained sufficient co-operation amongst claimants of his own class to carry the point on which he had determined. Before a week had passed, the following notice appeared in the Gazette:—

"Lillyseed, Abraham, Downy-road-linendraper, Jan. 10th, at half-past twelve, and March 6th, at eleven, at the Bankruptcy Court: solicitor, Mr. Darky, Furgharbury; official assignee, Mr. Letens, Snoinghall street."

The balance-sheet that Messrs. Nought and Carryone prepared, was a masterpiece of figurative art. The materials for time, had been supplied by Mr. Lilyseed, or rather Mr. Lilyseed's well-preserved books; but what skill they had shown in grouping those materials! The liberal fee that was paid to them over and above the court allowance, was money well laid out to produce a desired result.

Everything was fully accounted for. Mr Lilyseed had been more unfortunate than anybody supposed. In addition to what he had suffered from the devouring element, he had been largely robbed for years by dishonest servants, without being able to make out a case for prosecution; he had been forged upon, to a large extent, by a heartless nephew, who had fled to the Isle of Thanet, where he was lost in a tornado, and he had had to pay a mass of debts contracted without his knowledge by the extravagant woman whom it was his misfortune to call his wife. His family had suffered much from sickness and feebleness of constitution, and he had often had to pay five hundred pounds a year for change of air and medical expenses. A number of bad debts had been forced upon him by the influence of people amongst whom he lived; and he had lost four hundred and sixty pounds [illegible] through accepting an accommodation bill for a man who had saved him from a watery grave when he was quite a boy. The five thousand pounds he had borrowed to extend his business from Mr. Dove (a gentleman who acted as his head manager, but who was connected with some distinguished Irish capitalists) had thus been eaten away with other property. At the hour when he thought he was, and certainly ought to have been, a substantial tradesman, he awoke to find himself a bankrupt and a beggar. His solicitor also wished to mention (though, of course, it would have no influence with the Court) that the unfortunate bankrupt was subject to fits, brought on, no doubt, by the shock of so many fits.

The commissioner, after a little confidential communication with the official assignee, declined to pay much attention to the feeble opposition of certain creditors. He found that all the expenses of the Court were secured by the property which the bankrupt had given up (according to the official assignee's report), [illegible] there was a prospect of as early a dividend of at least a shilling in the pound. He was obliged to rebuke the bankrupt for accepting an accommodation bill, and [illegible] for giving a bill of sale for [illegible] short a period before his bankruptcy, having done this in a manner [illegible]

(Concluded on Fourth page.)

THE NEW DOMINION
CHEAP BOOT AND SHOE STORE,

GEORGE STREET, PETERBOROUGH,

Is the place to obtain **A First-class Article**, as the ENTIRE STOCK is comprized of **New Work**, and will be sold

UNFAILING EYE PRESERVERS.

LAZURUS, MORRIS & Co's
CELEBRATED
Perfected pectacles !
AND EYE GLASSES.

The large and increasing sales of these Perfected Glasses is sure proof of their superiority. We were satisfied that they would be appreciated here as elsewhere, and that the reality of the advantages offered to wearers of our beautiful lenses, viz: the ease and comfort, the assured and readily ascertained improvement of the sight, and the brilliant assistance they give in all cases, were in themselves so apparent on trial, that the result could not be otherwise than it has, in the almost general adoption of our Celebrated Perfected Spectacles by the residents of this locality.

With a full knowledge of the value of the assertion, we claim that they are the most perfect optical aids ever manufactured. To those needing Spectacles, we afford at all times an opportunity of procuring the best and most desirable.

DR. W. H. TAYLOR
Corner of George and Hunter Streets,

Has always on hand a full assortment, suitable for every difficulty.

We take occasion to notify the public that we employ no pedlars, and to caution them against those pretending to have our goods for sale.

Peterboro, February 8, 1871. 6

HORSE SHOW

Norwood, Feby 13, 1871. 7

For Sale
BY
Public Auction,
THAT BEAUTIFUL
COUNTRY RESIDENCE,
PROPERTY OF THE
Late J. W. Gilmour, Esq.,
KNOWN AS THE
WALKERFIELD GARDENS

The undersigned has been instructed to offer by Public Auction,

AT THE COURT HOUSE

In the Town of Peterborough, on

MONDAY, 20th of FEBRUARY,

AT TWO O'CLOCK, P. M.;

The above mentioned property being part of Lot No. 12, in the 13th Concession of the Township of North Monaghan, in the County of Peterborough; containing

90 Acres More or Less.

THERE IS ON THE LAND

A Family Residence,
A Commodious Farm House,
Gardener's Cottage,
Barns, Stables,
Sheds, and Driving House.

The Family Residence, which is situated on a terrace commanding a most extensive view of the Town and surrounding neighborhood, was built only a few years since, and is a first-class Brick building, large and commodious, with excellent Cellarage, ample Cistern accommodation for soft water, 3 good never failing wells of spring water, and the usual out-buildings.

The grounds are laid out with great taste, and planted with Shade and Fruit Trees, Evergreens, Shrubs, Vines and Flowers. There is an excellent fruit-bearing Orchard, producing almost every variety of fruit grown in Canada.

The Property is situated within half a mile of the centre of the Town of Peterborough, in one of the most delightful country residences in the Province, and unequalled in the County.

Title Indisputable.

A large portion of the purchase money may remain at the option of the purchaser on mortgage, for a period of years, with interest at 7 per cent per annum,

THERE WILL BE A RESERVED BID.

Immediate possession can be given.

The house and premises will be open to the inspection of intending purchasers t any time previous to the day of sale.

Further terms and conditions will be made known at the time of sale.

CHAS. STAPLETON,
Auctioneer.

Peterboro, Feb. 10th, 1871. 7

Zographicon—Verey's Panorama.

The Peterborough Examiner

PETERBOROUGH, FEB. 16, 1871.

Editorial Items.

Sir John A. Macdonald has been appointed by the British Government, a member of the Commission to settle the disputed claims between England and the United States. We hope he shall do well for the Empire.

The Hamilton *Spectator* says:—J. V. Spohn is spoken of as a candidate for South Wentworth for the Local Legislative —a no party man—that is "combination," R. R. Waddell, a no party man, is another would be candidate. If elected they will serve J. S.

The Musical Monthly, Rochester, for February, contains a beautiful piece of new music.

The Musical Monthly also contains considerable interesting reading, but the music alone is worth more than the price of the monthly.

BAZAAR.—Remember the Bazaar in connection with the St. John's Church parsonage in the Music Hall on Monday and Tuesday. Persons wishing to contribute to either the refreshment or fancy tables can do so by sending any articles so intended by 10 o'clock on Monday.

ENGLISH SOCIETY.—We have received the first number of a magazine of the above title. It is published by the late Editor of London Society. It is neatly illustrated and will no doubt, meet with popular favor. Mr. Kidd can supply the English Society to subscribers, or they can be obtained from Copp, Clark & Co., Toronto.

ZOGRAPAICON:—Very's New Panorama will be exhibited in Hill's Music Hall, on Monday and Tuesday evenings. The scenes are beautiful, and the painting, we understand, new and good; Scotch and American scenes principally, except "Ten Nights in a Bar-room" which are the same everywhere.

Mr. Dixon's lecture on Tuesday night, on the "Dignity and Importance of Labor," was fully equal to any of his previous lectures, and as they are all of the highest order, comment is useless. Mr. Dixon will lecture again in about three weeks—when we trust that a fuller house well reward him for the amount of earnest and searching thought, and research his lecture must cost him.

PRESBYTERIAN:—The Anniversary service and soiree in the Presbyterian Church (Mr. Roger's) on Sabbath and Monday were very successful. The tea was excellent. The singing of the choir, under the leadership of Mr. Galletly, was all that could be desired, and the speakers did all they could to make the evening pleasant and profitable.

We have received a letter from Mr. Bridges of the Grand Trunk, correting certain charges brought against the management of that road. It is too lengthy to insert in full. Mr. Bridges defends the management, and shows that great efforts are being made to put the road and rolling stock in good order. We hope he may succeed so that public confidence may be established.

The ladies of Brantford have petitioned the Council of that county to provide a House of Refuge and industry for the poor of the county.

The town council of Brantford they say spend from $1,000 to $1,500 a year in relief of the suffering poor.

The county council then assembled, memoralized government to make a compulsory on councils to provide for their poor.

John Sandfield's Organ says:—J. S. will be a candidate for the approaching election for Ontario in Cornwall. So much the worse for the people of Ontario.

The "Churchman's Magazine" for February is also received, and consists of tales, essays and reviews. It is published by Messrs. McCulloch & Co., but can be obtained from any of the book-sellers in Peterborough.

MURDER AT KINGSTON.—In a house of illfame, in Kingston, on Saturday night, one James Duncan stabbed his brother William in the heart so that he died immediately; he also stabbed (slightly) one Doherty, who was in the scuffle, strange to say, this house of bad report is kept by the sister of the two Dun cans. The verdict of the Coroner's Jury was, "That the death was caused by a stab." James Duncan acknowledged that he did it. Twelve persons are arrested as accomplices, several of them are girls who stopped at the house. Whiskey and bad company again; the result, a man murders his own brother, and yet our Legislators, Councillors and Christian members of society license the traffic.

A BEAUTIFUL RESIDENCE FOR SALE.—That splendid residence, the property of the late J. W. Gilmour, Esq., is advertised to be sold on Monday next— see another column. It is undoubtly, the most beautiful residence in this part of the Country; it occupies a most delightful position; the grounds are handsomely laid out; the dwelling large and almost new; it is near enough the buisness part of the Town for professional man or a merchant of easy means; and is on a very commanding view of the Town and surrounding Country. The gardens are all laid out with great taste, as they were intended for a nursery, they contain all the varieties of fruit trees grown in this part of Canada. There are sixty acres of land attached of excellent quality. In fact it is one of the finest residence and in one of the healthiest districts in almost any part of Canada. This is a rare chance for some of our independent Doctors, Lawyers, or buisness men to secure a beautiful and excellent family residence.

The Dominion Parliament met yesterday at Ottawa.

In our report of the Monaghan Council last week, we omitted the name of Mr. B. Goodfellow as assessor, salary $80, and Mr. Charles Bresly, collector, salary $93.50.

The Concert last night in the Music Hall, in aid of the Organ Fund for Christ Church, Bobcaygeon, was a decided success. There was a full house and an excellent programme. The performance, vocal and instrumental, was splendid—grand.

A FATAL MISTAKE.—The Lindsay *Post* says that a man named Gough working in the shanty of Messrs. Thompson & Millar, lately drank some horse medicine and Laudanum and sweet nitre supposing it to be brandy, and supposing too that he was playing a "lark" on the teamster in taking his liquor. He died next day, two others took part but not enough to prove fatal. Gough was about 26 years of age. If he had been an abstainer he would have seen the label which was printed—Laudanum—poison.

COUNTY LOYAL ORANGE LODGE.—The County Meeting was held on Tuesday, 7th inst., when the following officers were elected:

Bro. J. B. McWilliams, County Master.
Bro. W. H. Stephenson Dep. County Master.
Bro. Rev. McDowell, Chaplain.
Bro. Thomas Lannin, Treasurer.
Bro. John Smith, County Secretary.
Bro. Major Kennedy, Director of Ceremonies.

LOVELLS DIRECTORY.—Through the kindness of the Publishers we have received a copy of this extensive work for the Dominion, and also, for Ontario.—They are very extensive; the larger work consists of 2,562 pages of closely printed matter: the smaller, of 1,123 pages. They are invaluable as books of reference, and must have entailed an immense expenditure on the part of Messrs Lovell, for which, we hope, they will be fully renumerated. The work is a credit to the publishing house whence it was issued and indeed to the Dominion.

REGISTRIES.—It is said that this County is to be divided for the purposes of registration, and that a new Registry Office is to be erected at Norwood. That Mr. Read will receive the appointment and retire from public life. Well that would do very well for Mr. Read, and perhaps would just be as well for the electors, for whom he has done very little indeed. What will Dummer say now that they must pay their share of the $100,000. Yes and Douro too. The Bill referring to Registries, and the Grahame Bill that lately passed the House legalizing the By-law, have not been sent to this office yet, so careful are our Members that the people shall know as little as possible of public matters.

The following piece of news we clip from the Toronto dailies:—

GRAND JUNCTION RAILWAY CO.

On motion of Mr. Graham, (Hastings,) for the third reading of the Bill to enable the Municipalities along the line of the Grand Junction Railway Company to grant aid thereto and to legalize certain By-laws granting aid to the said Railway Company.

Mr. Carnegie moved in amendment that the Bill be recommitted with instructions to amend, by expunging that part of the second section which legalizes the By-law voted upon by the ratepayers of the County of Peterboro, granting a bonus to the Grand Junction, Peterboro and Haliburton Railway.

The House divided and the amendment was lost. Yeas, 15; Nays, 52.

The Bill was then read a third time and passed.

The amendment was no doubt Buncombe. Mr. Carnegie well knew the feeling of the Government and the House, and could afford to vote with the nays knowing he would gain the point, and thus get the $25,000 for the Haliburton road. His opposition was a mere sham. Did he not try all he could to force the County Council to pass the By-law? Did he not abuse the Reeves of Minden and Smith, for opposing it?

Donation Visit.

We learn that on Tuesday evening, the members and friends of the Bible Christian Church, Peterboro, called at the Mission House in large numbers, and presented their minister, Mr. Butcher, with a purse containing $24; they also brought other articles useful for the family, worth about $40 more, thus giving him to understand that they remember him, and out of their abundance are willing to give a little. It is a pleasing sign of the good feeling existing between the people and their minster.

After arrangements were completed and Mr. Butcher and family invited to be present, Mr. Thos. Johnston was asked to take the chair and Mr. Evans Ingram made the presentation. Suitable speeches were made by Mr. Johnston, Mr. Elliott and the Minister, and a short time spent in becoming sociality.

Ministers as a class are not overpaid, and it is a healthy sign of the interest of the people in their Minister, to thus try to supply any little deficency.

France.

This unhappy country is still in a dilemma between Republicanism, Bonapartists and Orleanists. The vote of the people favors a monarchy, but whether Napoleon or an Orleanist will remain uncertain for a short time. Paris is better victualled than it was. The Prussians have received large quantities of arms as a guarantee of peaceful intention. But Bismarck may have to remain in France to preserve order for a while. It is very doubtful whether the people are prepared for a return to peaceful avocations. War very often turns men into monsters, and Frenchmen are no exception. If left to themselves they will resort to the implements of the revolution perhaps. It is a pity to find a nation of brave men so demoralized as they are at present. But if the lesson, severe as it has been, be effectual to lead them to cultivate arts of peace rather than those of war, it will be a cheap one for France. The form of government for a while longer will be monarchial let whoever may rule. Napoleon will in all probability return to Paris again.

Parliamentary.

The School Bill is passed, but it has undergone so many changes, until it is reprinted, it is impossible to give any fair idea of it. Every effort to get an examining Board for all the teachers whether having attended the Normal School or other institutions, was ineffectual.

It was also sought by Mr. Blake to make the Council of Public Instructions elective, but in vain.

The clause too making it compulsory for teachers to pay $4 a year to the Superannuated fund is retained.

Several reforms were proposed, but lost.

In a short time we will have the Bill in manual form, no doubt, and then the people will be able to see what is required of them, and teachers will be in a position to prepare for emergencies.

REGISTRY OFFICES.

Attorney-General Macdonald moved the third reading of the Bill respecting the establishing of Registry Offices in Ridings, and to amend the Registration of Titles (Ontario) Act.

Mr. Blake moved an amendment providing that the additional registry office should not be created without a desire being expressed therefor by the locality interested. This amendment was not unknown to the hon. Atty. Gen., who had submitted a similar position in 1858. The hon. gentleman was then in a minority, but he supposed the principle of his proposal was right; and unless his object now was rather to keep his seat on the Treasury benches than to support, what he himself believed to be a good principle, he would, no doubt, give his vote in the same way as before. (Hear) lost.

On item $100,000 for agricultural college and farm.

Mr. Crosby moved that the proposed experiment of an Agricultural College is of doubtful success and ought not to be commenced till public opinion has pronounced upon the same during the ensuing elections; and that the question of concurrence be postponed for the three months.

Lost on the following division: Yeas, 21; Nays, 47.

On item of $50,000 for establishing a College of Technology. Mr. Blake moved that it be not granted, but try if the University could do the work without an additional cost. Lost 39 to 24.

Several other amendments of importance were all lost.

Messrs. Read and Carnegie voted J. S. blind.

Britain.

The Imperial Parliament has assembled. The Queen appeared at the opening and in consequence a great number of visitors. The speech is very lengthy and asserts the friendly terms existing between the Empire and the rest of the civilized world, and expresses an anxiety to maintain friendly relations with the nations. She announced the contemplated marriage of Princess Louise to Marquis of Lorne. The speech also recommended the ballot.

In the House of Commons the address was moved by Major Hamilton, seconded by Mr. Samuel Morley.

Mr. Disraeli made some remarks on the address, in the course of which he criticised the policy of the government. He advocated armed neutrality, and a final pacification, which would exclude all germs of hostility. He lamented the inertia of the government last July, when it was able to influence both belligerents. The value of its efforts to procure the withdrawal of Prince Leopold from the candidacy of the Spanish throne, could not but be admitted, but it was then possible for the government to withold Franco from the war by hinting at an armed neutrality, and employing its acknowledged influence in Prussia to induce her to forbear. Mr. Disreali was equally severe in his comments on the course which England was made to take in the Black Sea questions. Referring to American tropics he denounced the hostile attitude of Sumner and others towards England, so unlike the attitude assumed towards other powers, and recommend that it should be encountered with forbearance and contempt. Yet, passion might be aroused which could not easily be allayed, therefore he hoped for the resumption of the negotiations for the settlement of all questions between England and America. In the meantime, in view of the relation of England with foreign countries, he approved of the proposed increase of the military forces of the kingdom.

Mr. Gladstone made an able speech in support of the address, and replied to the criticism of Mr. Disraeli. He denied that there was any need of armed neutrality last year to advise Prussia against Hohenzollern candidacy, and it was going to the extreme limit of international right to interfere. The neutralization of the Black Sea had lost importance to England since the Crimean war, and its maintenance had been abandoned by France. He believed England's true policy was non-intervention abroad, the study of domestic questions and observance of neutral rights and obligations. He begged the House would not fetter the Government's liberty of action or doubt for a moment its aim to secure peace with honor and safety to the country. The address was agreed to, and the House adjourned.

The Grand Junction Railway By-Law.

We learn from the Parliamentary reports in the *Globe* that Mr. Grahame, of Hastings County, has succeeded in getting his bill passed through the Ontario Legislature, Legalizing the By-Law lately rejected by the County Council. This is one of the most flagrant acts of unprincipled Legislators that has ever been forced upon the people of any country. Just think of it. The County Council rejected the By-Law twice, on the grounds of its illegality, and partly on the grounds that corrupt means were offered by the Railway Sharpers of Belleville to secure its passing.—They also rejected it on the grounds that it was not properly located. This was the cause of the strongest part of the opposition. And yet in the face of all this, the Legislature of Ontario, at the beck of an outsider, at the beck of Railway hangerson, at the solicitation of the County of Hastings, dares to pass an Act that Legalizes this Peterboro By-law, twice rejected by the County Council, and that would have had a large majority against it were it not that the Eastern people hoped for some change in location, before their bonus would be handed over to the Company.—Surely this additional act of such unheard of legislation is enough to damn forever a government or the supporters of a government that would permit such an iniquitous, unjust Bill to become law. How long is Canada to be cursed with these men! How long will the electors of Peterboro bear with such men! If the Reeves of Otonabee or of Asphodel had asked for this bill, we could see some show of reason for passing it, but to think of it being done to satisfy the poor government tools of Hastings, who have sold themselves to John Sandfield to do any amount of dirty work in the way of Support, provided they in return get their dirty work done.

Are the electors of this County prepared to look on and bear all this, and not make an effort, a determined effort, to rid the County of the men who have kept such legislators in power! Let us be up and doing. Let organisations be everywhere formed—and representative men selected who will not be ready to sell themselves for office or for money. Men who will go determined to remove the curse under which the Country now groans, and men who are prepared to do justice to every section of the Country, while they may in a special manner see after their own County.

No Government of even the days of barbarism and disregard of right or justice, ever showed such a disregard for the acts of a County Council as has been done in this case.

Little Lake Cemetery.

The annual meeting of the Stockholders of the Little Lake Cemetery Company was held on the 16th ult., in Mr. Forty's office, at 10 o'clock a. m.

The members present were: Messrs. Cluxton, Wm. Hall, Sheriff Hall, Thos. Forty, W. Eastland, R. Kingan and Wm. Lundy.

On motion of Mr. Cluxton, seconded by Mr. Kingan, Sheriff Hall took the chair.

On motion of Mr. Cluxton, seconded by Mr. Eastland, the Secretary, Mr. R. Walton, read the following:

SECRETARY'S REPORT.

To the Directors and Stock holders of the Little Lake Cemetery Company,—

GENTLEMEN:

Your Secretary begs leave to state that he has sold during the year 42 Lots, amounting to $312.

There are accounts amounting to $121, not yet paid, but good.

The number of interments during the year in the Little Lake Cemetery grounds were 97, of these

7	were over the age of	70.	
6	do	do	60.
12	do	do	40.
26	do	do	10.
6	do	do	5.

40 were under the age of 5.

There has been expended on the grounds during the year, $112.75, in repairing house, 125.60; and there is still cash in hands of Treasurer, $735.36.

All of which is respectfully submitted.

R. WALTON,
Sec. L. L. C. Co.

The Treasurer read this report which showed a balance on hand of $735.36.

On motion of Mr. Cluxton, seconded by Mr. Kingan, Mr. Eastland was appointed Auditor to audit the accounts presented.

It was moved by Mr. Cluxton, seconded by Mr. Kingan, and carried, That Messrs. Eastland and Kingan act as scrutineers for the election of Directors.

The following gentlemen were elected: His Honor Judge Dennistoun, and Messrs. Wm. Hall, Sheriff Hall, Wm. Cluxton, R. Kingan, Wm. Eastland, Wm. Lundy, Thos. Fortye and John English.

Then a meeting of the Directors of the Company was held.

Present Messrs. Cluxton, Wm. Hall, Sheriff Hall, Thos. Forty, Wm. Eastland, Wm. Lundy and R. Kingan.

On motion of Mr. Wm. Hall, seconded by Mr. Kingan, Mr. Cluxton was elected President for the current year.

On motion of Mr. Kingan, seconded by Sheriff Hall, the President, and Messrs. Wm. Hall and Eastland were appointed an executive committee to take into consideration the propriety of raising the price of the burial sites, and to attend to the improvement of the grounds generally, and to have the portion of the ground set apart for the Roman Catholics surveyed.

The meeting adjourned.

Town Council.

Monday, 6th Feb., 1871.

The Council met pursuant to adjournment.

Present, His worship the Mayor in the chair, and Messrs. Smith, Stevenson, Edmison, Doharty, Morrow, Toole, English, Rutherford and Henthorn.

The minutes of the last Council were read over and confirmed.

A Report of the committee on appointments to office was read by the chairman, Mr. Toole, recommending two persons Assessors.

On motion of Mr. Stevenson, seconded by Mr. Smith,—a by-law to appoint Assessors was read a first time, and on motion of Mr. Toole, seconded by Mr. Stevenson, the Council went into committee of the whole on the second reading of the by-law. Mr. Smith in the Chair.

The by-law was read a third time and passed, the blanks being filled in with the names of Mr. Rowe and Mr. Kennedy; same Assessors as last year.

Mr. Doharty gave notice of introducing a resolution at the next meeting of the Council to separate the office of Clerk and Treasurer.

Moved by Mr. Doharty, seconded by Mr. Morrow, that the Clerk of this Council be instructed to tender for 30 cords of Maple and Beach for the coming year.

In amendment, It was moved by Mr. Toole, seconded by Mr. Edmison, that the Clerk of this Council be authorized to ask for tenders for the delivery of 30 cords of hardwood, and that the Chief Constable be instructed so ascertain whether he can provide a proper place for keeping the same, tenders to be received to the 15th instant.

For the amendment:
Yeas, Messrs. Toole, Edmison, Stevenson, English and Smith.
Nays: Messrs. Doharty, Rutherford, Henthorn and Morrow.

The amend was declared carried.

On motion of Mr. Morrow, seconded by Mr. Smith, the Mayor was instructed to send Peggy Oakley to the Magdalene Asylum in Toronto, in charge of some person to deliver her there with the sum of ten dollars, as entrance fee for that Institution.

The Council adjourned for three weeks.

The Senators.

(*From the Brockville Recorder.*)

The vacancies of the Senate, Ministerial papers announce, are now filled up. There are three vacancies. The first of these was caused by the death of the Hon. George Crawford, the second by the resignation of the Hon Walter McCrae, the third by the death of the Hon. John Ross. It is somewhat strange that in each of these vacancies Leeds and Grenville may be said to be interested, all the gentlemen named having been residents of these counties, the Hon. Mr. McCrae in fact being born here. Such a fact, one would think, ought to entitle Leeds and Grenville to the honour of being still represented by a resident, but not so say the ministerial papers, strangers are selected, and our own St Lawrence Division is to be represented in the Senate by Mr. E. Perry of Cobourg. The other gentlemen said to be elected to fill the other vacancies are the Hon. Mr. Frank Smith, Toronto, and the Hon. Mr. R. Reid, of Belleville.

We have again and again asserted that it would not only be a gross injustice to Central Canada to appoint a non-resident to represent the St. Lawrence Division, but we have also stated that were such an appointment made, it would be in direct opposition to an agreement made with Dr. Brouse, after that gentleman had been defeated by illegal votes, and the government well knowing that if another election took place, nothing was more certain than the return of Dr. Brouse. Under these circumstances, after the confederation, Sir John Macdonald promised that in the case of the death of Mr. Crawford Dr. Brouse would de appointed to the post of Senator of the St. Lawrence Division, and now that that event has occurred, he belies his promise, throws Dr. Brouse overboard and appoints a Toronto gentleman to represent this portion of Central Canada.

We are much mistaken in the electors of Leeds and Grenville, be they Reform or Conservative, if they do not remember this gross act of injustice at the coming election. Sir John may make promises and break them, but the morality of such conduct cannot be commended, and to show their condemnation of the injustice perpetrated, the electors ought at once to decide that they will support no man who is willing to bow the knee and worship a government which has been carried on in immorality and falsehood.

We have no desire to utter one word against the character of Mr. E. Perry. Before ever his name was mentioned we had claimed the right to be represented by a resident of the Division, and a solemn promise was made that this would be done. That promise had been broken, and we now charge the government with deceit and treachery we firmly believe forced upon Sir John's *weakness* by Cartier, who in this, as in everything else, wields despotic sway in the government. Confederation was to cure us of all these evils, facts prove otherwise. Whether in matters connected with Manitoba or Ontario, Cartier rules supreme, and Sir John A. and the other members of the Cabinet are compelled to submit to Cartier's dictum. As we have said, we trust the electors of the St. Lawrence Division will remember these facts and act accordingly.

Napoleon's Proclamation.

LONDON, Feb. 12.—The following is a translation of the proclamation addressed by the Emperor Napoleon to the electors of France

WILHELMSHORE, Feb. 8th:—Betrayed by fortune I have kept since my captivity a profound silence which is misfortune's mourning. As long as the armies confronted each other, I abstained from any steps or words of causing any party discussions but I can no longer remain silent before my country's disasters without appearing insensible of its suffering. When I was made a prisoner I could not treat for peace because my resolutions would appear to have been dictated by personal considerations. I left the Regent to decide weather it was to the interest of the nation to continue the struggle. Notwithstanding the unparalel reverses, France was unsubdued. Her strongholds unreduced, a few departments invaded and Paris in a state of defence. The extent of her misfortunes might possibly have been limited but while attention was directed to her enemies an insurrection arose at Paris, the seat of the representives was violated, the safety of the Empress was threatened, and the Empire, which had been three times acclaimed by the people, was overthrown and abandoned. Stilling my presentments, I exclaimed, "What matter my dynasty if the country is saved." Instead of protesting against the violation of my right, I hoped for the success of the defence, and admired the patriotic devotion of the children of France. Now, when the struggle is suspended, and all reasonable chance of victory has disappeared, is the time to call to account the usurpers for bloodshed and ruin, and squandered resources. It is impossible to abandon the destines of France to an unauthorized Government, which was left no authority emanating from universal suffrage. Order, confidence and a solid peace are only recoverable when the people are consulted respecting the Government most capable of repairing the disaster to the country. It is essential that France should be united in her wishes. For myself, bruised by injustice and bitter deception, I do not know how to claim my repeatedly confirmed rights. There is no room for personal ambition, but till the people are regularly assembled, and express their will, it is my right to say that all acts are illegitimates there is only the Government in which I see their own people. Lord Tenterden, grand nephew of Chief Justice Abbott, is a Conservative peer, whose appointment guarantees the impartiality of the motives governing the selection of the commissioners, as well as the endorsement by both political parties of their action. Nor are their American colleagues unworthy of such an English representation. Their choice gives to their countrymen ample assurance that the most favorable terms within the bounds of reason and fair play will be demanded for their side, while, at the same time, there can be no apprehension among ourselves that gentlemen of their high standing and admitted moderation will be tempted into pressing unworthy or impractical claims.—*Gazette.*

The Civil list of the Emperor Napoleon was paid monobly and in advance. He received in cash 1,000,000*f* a year, and in rents 200,700*f*. Prince Napoleon and his sister received 60,000*f*., making a total of 1,250,000*f*. The senate, which has just been abolished, cost nearly 200,000*f*.

TERRIBLE COLLIERY EXPLOSION NEAR SHEFFIELD, (Eng).—About midnight on Tuesday a lamentable destructive explosion took place Messrs J. and G. Wells. Renishow Park is situated about eight miles south of Sheffield, and the Messrs. Wells's colliery is within a half a mile of the Eckington station of the Midland Railway. About 190 hands are employed at the colliery in the day time, but in the night the average number is about 70. Messrs. Wells are the owners of two pits, being about 500 yards from each other, and the shafts are connected. The pit in which the explosion took place is known as the No. 1, and the other as the No. 1, and as the No. 2. The explosion took place in working at the south end of No. 1 pit, where there were about 22 men engaged in preparing for the next day's work. In this working noises than 20 dead bodies were found, the only survivors being two boys named Goodwin and Webster, who were found, at the bottom of the to pin a state of unconsciousness by four men, who had escaped by being in a dip at the south end of the workings in which the explosion occured. By the aid of the proper restoratives the two boys so far recovered as to admit of their removal to their homes. Unfortunately, the effect of the explosion was not entirely confined to the pit in which it originated, but the deadly firedamp rushing through the communications to the No. 2, added six victims to the list, besides injuring numbers who were afterwards recovered in a state of insensibility.—*English Paper.*

A new Canada Presbyterian Church has been erected at Bowmanville, capable of seating 500 people. The total cost of land, building and fencing, will be about $10,000. The building is of Gothic style, and is very comfortably furnished within. All that is wanted to complete the inside is the matting for the aisles, which has been somewhere on the Grand Trunk for the last two weeks.

The Post announces that the marriage of the Princess Louis with the Marquis of Lorne is fixed for the 21st of March.

Special Liquor Legislation.

(*From the Napanee Standard.*)

We refer, under this title, to a recent attempt made by Mr. Craig, of Glengarry, to get an amendment to the Scott Act, specially in the interest of the contractor who has undertaken to furnish refreshments at various points on the Grand Trunk line of Railway. The municipalities at these points could not give the license to sell intoxicating drinks under the present law; at least, that was set forth as a reason for this new piece of legislation. Some time ago we noticed an advertisement in the Official "Gazette" to the effect that application would be made to the Legislature for legal permission to sell liquor at certain places. This motion of Mr. Craig's is the result of that notice. The Bill came up for a second reading on Friday last, and in the interest of the public we are happy to record that this attempt, more surely to put the lives and limbs of Her Majesty's subjects in jeopardy has been defeated. Mr. Craig explained that the object of his Bill was to protect his client from prosecution for selling liquor without license. This was a little too much. The proposition was, to say at least, a great impertinence. The Hon. J. S. Macdonnell defended and approved the Bill. The Cornwall station had an interest in it, and perhaps the Prescott Junction, at any rate he advocated the sale of Liquor on that line of railway. We are glad to know that Mr. McKeller, Mr. W. Beatty Mr. Ferguson and Mr. Fitzsimmons spoke out boldly against this shameful effort to legalise dangerous immorality. Our observations at the Grand Trunk Stations, where liquor is sold, go to show that it would be an immense benefit to the company, and to the public, if the sale of liquors where to be entirely prohibited. We have frequently seen engineers, stokers and conductors, partake of strong drinks, when it was evident they had previously imbibed, and many a time the profanity has been perfectly horrible. Mr. Craig withdrew his bill, but it would greatly subserve the benefit and safety of the travelling community if the directors of the Grand Trunk Company would promptly put an end to the liquor traffic along their whole line.

Sir Francis Hincks.

The Montreal *Herald* says Sir Francis Hincks has written a long epistle in reply to Mr. Huntington's criticism upon himself at Waterloo, which does not strike us as being either forcible in argument or elegant in literary taste, which is all that we shall say on that head as Mr. Huntington is quite able to fight his own battles if he thinks it necessary to rejoin. We find, however, one paragraph relating to the recent history of Sir Francis and of our politics, which reminds us of the poet's phrase about "a solemn truth though from an impious tongue." In other words, we find Sir Francis writing himself down, as having very recently made false representations concerning his own position. Very soon after his arrival in this city in 1869, when various rumours began to circulate—rumors whose truth was approved by the event—a paragraph appeared in these columns by request, informing the public, in effect, that the ex-West India Governor had arrived in Canada, only upon a short visit, for the transaction of business and for the purpose of seeing his friends. In addresses subsequently published, he repeated that statement, and gave out that being temporarily found upon this territory by Sir John A. Macdonald, he was incontinently seized upon by that gentleman and compelled to take service for the good of the country—compelled by his furious Canadian patriotism, stirred by the powerful pathos of the appeals from the gentleman who had formerly pronounced him to be "steeped to the lips in corruption." Mr. Huntington, however, having in the course of his speech at Waterloo asked why Sir Francis came back, the latter now asks in reply:

"Where else should I have gone at the expiration of my Imperial service but to the country of my adoption, where my property was situated, where my children were born and educated, and where I had always expressed that I should end my days."

This was a very pertinent question, perhaps, in itself; but if it has any meaning, it casts a direct negative on the Knight's previous assertions, that instead of coming here to end his days, he was here only upon a temporary visit of pleasure and business; and also upon those other assertions coming from the Knight's best friend to whom he jobbed away the York Roads, Mr. Beatty, of the *Leader*, that he was in daily expectation of another appointment as Governor at the cape of the Mauritius. These are very small matters, but they have a certain importance as serving to illustrate greater ones especially as indicative of the means by which our Finance Minister obtained his well-merited reputation of being the most skilful artist in the manipulation of facts, who, up to that time, had emerged above the surface of Canadian affairs.

THE HIGH COMMISSION.—In the diplomacy of the noblemen and gentlemen with whom Sir John Macdonald is to be thus associated we have the highest confidence. Earl de Grey and Ripon, the President of the Council, is a statesman of large views, of acknowledged sagacity, of ripe experience. Mr. Montague Bernard, Q. C., is an authority upon international law, second only perhaps to Mr. Vernon Harcourt.—Sir Edward Thornton and Sir John Rose, are peculiarly well acquainted with the subjects they have undertaken to decide, and are both hold unexceptionably high appreciation by the American as well as their own people. Lord Tenterden, grand nephew of Chief Justice Abbott, is a Conservative peer, whose appointment guarantees the impartiality of the motives governing the selection of the commissioners, as well as the endorsement by both political parties of their action. Nor are their American colleagues unworthy of such an English representation. Their choice g

Mr. Frank Smith, of Toronto, has been appointed to a seat in the Senate, and this is objected by the Ottawa "Citizen" as an act of justice to the Roman Catholic portion of our population.

The following speech is attributed to a member of the Legislature of Pennsylvania: —"I know wimen, Mr. Speaker: I say it no disrespect; I know um; I have had v heap to do with um. They're a useful class, and—and yet with the best of um you may have trouble."

The Dutch are likely to have an insurrection, if not a revolution, in the Islands of Java, Sumatra, &c., which they have so long isolated from the world and oppressed for their own gain. The troops, which are all native, are said to sympathise with the revolutionists.

Useful Rules—We should accustom ourselves to view those above us without admiration or envy, and never look upon those below us with contempt. Little souls fall down and worship grandeur, without reflecting that admiration is due only to virtue and goodness.

The latest accounts of the ravages of smallpox in Manitoba state the number of death from the disease to not less than 2,000. Bay Lake has been nearly depopulated. There is also a scarcity of meat in that region, and the Hudson's Bay Company has been feeding the people.

Two new journals have been issued in Paris, both of them strongly Republican in their tendencies. They urge that the invasion and capitulation of the city are the results of the Empire, and that by establishing a Republican from of government, the people will be able to successfully resist the Prussians, and avenge the fall of the capital.

BERNE, Feb. 8—The military chest of the French Army of the East, containing 1,500,000 francs, has been surrendered to the Swiss Government.

LONDON, Feb. 10—A despatch from Berlin says the war contribution of 200,000,000 francs exacted from Paris has been apportioned—50,000,000 to North Germany, and 50,000,000 to South Germany.

BORDEAUX, Feb. 9—In the elections for the Assembly the Republicans have been successful at Pau Perpignan and Oran, and in the department of Arleche, Marne-et-Loire, Arneige Indre and Herault. The Conservative candidates have been elected from Poictiers and Montauban, and in the departments of Farn and Garrone. The candidates of the Literal Union party have been generally elected throughout France wherever they have been put in nomfuation. The Republican majority in Bordeax is large.

The other day, a New Orleans detective arrested a man on suspicion of having stolen a valuable diamond pin. Being hard pressed, the thief owned up, and surrendered the jewel to the officer, who placed it in his shirt bosom. On the way to the look-up the officer and prisoner got on board a horse car, and in doing so the former was considerably jostled by a crowd on the platform. Just then the prisoner whispered in hisear, "Look out, Captain! that was a thief who passed you just now." The officer glanced hurriedly at his shirt front. *The pin was gone.* He sprung from the cars and started in pursuit of the imaginary thief. It is needless to say he was not to be found; and when he returned his former prisoner was missing also. The next day the vigilant detective had his already overwrought feelings lacerated anew by the receipt of a pencil line saying, "Captain, I'm gone. I take the pin with me. It was too nice to give up."

Our local Premier prides himself on his economy, and in some respects this may be true, but in looking over the accounts of 1869 (better late than never) and those of part of 1870, there are a number of items which need considerable explanation. For example, we think the following sums are not bad pay for an economical Government to give: Hon J H. Cameron, Crown Counsel at Wentworth Spring Assizes, (about five days work) $562. Service at Brant Fall Assizes, $130. For seven days, total, $682. Then Thomas Galt for Middlesex Spring Assizes $420. Lennox and Addington Spring Assizes $92. Oxford Spring Assizes, (three days) $164. Ontario Spring Assizes, $169, and Lincolen Spring Assizes, $373. Total for three weeks' work $1,149. R. A. Harrison Perth Spring Assizes, $336. Simcoe, $126. Total $462—ten days work. A. N. Richards, in the same way, for Leeds, Victoria, Lanark, Peterborough, and Carleton, the modest sums of $554, $216, $20, $78, and $209. Total, $1,067."—*Wood stock Review.*

EMIGRATION TO CANADA.—Mr. J. G. Moylan has written a long letter to the *Irish Times*, setting forth in clear and concise terms the advantages which this coutry offers to intending emigrants. In referring to it and the present prosperous condition of the Dominion, the *Times* says:

"The social tone of the population is excellent. The climate is healthy, the exercise invigorating; every new arrival is welcomed as an addition to the wealth of the community. There are several gentlemen who have settled in the free grant lands and their homes are centres of refinement and civilization. Schools and churches are rapidly rising. Public houses are conspicuous by their absence. There will be, no doubt, a great and wealthy and highly civilised population established in thiscountry before men now young are middle aged and all who throw themselves with a good will, a clear brain, and a strong arm into the new infant country, will—personal accidents apart—reap the full benefits of a social and industrial progress such as few colonies have ever exhibited elsewhere."

Wonderful but True.—The siege closes, leaving 800,000 unwounded French prisoners in the German hands, including the Emperor and the Marshals of France, about 6,000 cannon, 112 eagles, not to of less illustrious spoils in the shape of rifles, munitions, and stores of all kinds. And the champaign in which this has been done has only lasted just six months. There has been nothing like it, or in any way approaching to it, in history. Compared to Moltke, Napoleon I. was a bug-and a slow-coach.

The races on the ice at Brockville last week produced the following results:—A dangerious row occured at St. Lawrence Hall; several more happened in other places; the editor of the *Monitor* interviewed two wretches clawing and biting on the street like a pair of dogs; a Perth blackguard was slashed with a knife on his ear and side of his face by an Ogdensburg blackleg; and at another place a revolver was drawn, and shooting would have happened had not a citizen wrenched the weapon away.

The St Catherines *Free Press* says that a short time ago a girl residing in Pt. Colborne, named Jane Cook, shot John Irvin, a sailor, whom she alleged seduced her under promise of marriage. The bullet glanced along his forehead, inflicting a painful though not dangerous wound. Irvin absdaddled, and has left the village, fearing that he would not be safe from the further vengeance of the young woman.

A Scotch paper tells a characteristic story of Rev. Norman McLeod, the celebrated Presbyterian divine and author. He lately paid a visit to Queen Victoria, by request of that Illustrious lady, and on coming home was subjected to many inquiries as to how Her Majesty behaved towards him. Being the guest of two maiden ladies at dinner, the Doctor was asked how the Queen deported herself at table. "Well," said the Doctor, who is accustomed to take a little drop for the stomach's sake, "Her Majesty acted towards me precisely as any considerate lady would do, and said, 'Doctor, will you take a dram?'" The hint was taken, and the bottle immediately placed on the table.

Odds and Ends.

Dead-locks—shignons.

A dead wall—a cemetery wall.

Flat falsehood—lying on your back.

Why is the flagrant nine like a peacock. Because it's nothing without its tail.

When is a fowl's neck like a bell?—when it's rung for dinner.

What is that which, though black in itself enlightens the world?—ink.

Who commit the greatest abominations?—nations.

What is the best advice to give a Justice of the Peace?—Peace.

What would give the blind man the greatest delight?—light.

What is necessary to a farmer to assist him?—system.

What is not be done to conduct a newspaper right—write.

The golden mean—miser and stingy man.

Woman's rites—matrimony and divorce.

An inhuman act—pulling down the blind.

Peanut oil is the Southern butter substitute.

By examining the tongue of patient physicians find the disease of the body, see philosophers that of the mind.

Was the man's eyesight fatally injured whose eyes fell on a very sharp chisel lying on a bench before him?

Why is a dog longer in the morning then at night? Because you take him in at nigh and let him out in the morning.

An Illinois man has invented a deck cop burial case, which he claims is more comfortable then the old style.

A man of grains by too much dividing his attention, becomes diamond dust, instead of remaining a diamond.

Come said a snob to a mechanic, let us meet on a level,—Have to blow my brains out to do that, was the reply.

Franklin, on hearing the remark that what lost on earth went to the moon, asserted there is a deal of advice accumulated there.

Savannah, Georgia, has got a skating rink, and the people would have any quantity of fun, only for the fact that there is no ice in it.

Some people will keep up appearance, as for example, Smith, who is in the habit of getting a beef's pluck at the butchers', and sticking a pair of turkey legs through the side of the basket for a show on the way home.

A drunken man sprawling on the ground in Brockville the other night anxiously wanted to know whether anybody else had been struck by that earthquake.

When a Montana man gets to hankering for office right smart, they elect him sheriff, and he lives just two days.

Let us remove temptation from the path of youth! as the frog said when he plunged into the water on seeing a boy take up a stone.

A young man in Ohio recently opened a clothing store, and was sent to jail for it. Reason—clothing store belonged to another man.

Anna Story was recently married to Robert Short A very pleasant way of making a Story Short.

A Chinese thief having stolen a missionary's watch, brought it back the next day to be shown how to wind it up.

Fancy, said Sidney Smith to some ladies, when he was told that one of the giraffe at the Zoological Garden had caught cold, giraffe with two yards of sore throat.

A woman in Dayton, Ohio, who said no one could teach her anything about the combustible nature of kerosene, instigated her fire to renewed exertions with a pint of such matter of the non-explosive kind: Her husband complains considerble at the exorbiant charges undertakers, who seem to have put a fictitious value on everything since the war.

Westport, Conn, has a four year old boy that cries for cigars, and when provided with with them smokes like a man.

Now let the parents teach him teach him to ride a mule, and then teach the tanners trade, and there is a father before him.

Nurse—I cannot allow butter and jam too on your Bread. Master Alfred—It cant be extravagant; Mary, if the same piece of bread does for both.

MARRIED.

At Bobcaygeon, on the 8th of February, in the house of the bride's father, by the Rev. S. Tapscott. Mr. William Joseph Robinson, to Miss Jessie R. McDonald, both of Bobcaygeon.

DIED

In Lobrough, on the 26th ult., in the 88th year of his age, Rev. David Perry, a superannuated member of the Bay of Quinte Annual Conference of the M. E. Church. He was a brother of the Hon. E. Perry, of Cobourg, and also of the late Hon. Peter Perry, well known in Canadian circles for a long and useful parliamentary career; and hence a near relation of Chas. Perry, Esq., M. P. of this Town.

Rev. D. Perry has been an active, earnest and most influential member of the Methodist Church for more than 70 years.

In the same place, on the 20th ult., in the 82nd year of her age, Elizabeth Miller, wife of the Rev. D. Perry. She too embraced the Saviour in her youth, and like her husband, enjoyed through a long life, the favour of God, and in death the consolations of grace.

At Ashburnham on the 16th instant, Mr. George Fair, aged 70 years.

Not Quit So.

It is among the most savage and debauched tribes only that the condition and comfort of the horse have been neglected," but we believe their are many in civilized countries who are guilty of the same neglect, and without the excuse of this all may recall themselves of the use of an artical which has done more than anything else heretofore known to improve the condition and relive the suffering of the horse. Those who will not use it will be the losers, their horses the suffering: to avoid both use "Darley's Condition Powder and Arabian Have Remedy and you will be satisfied with the result. Remember the name, and see that the signature of Hyrd & Co is on each package. Northrop & Lyman, Newcastle, Ontario, proprietors for Canada Sold by all medicine daers.

RAILWAY TRAVELLING.—Railway travelling with all its drawback and accieuts it is the safest system of travelling ever organised—the persons injured while travelling by this mode of conveyance only amounting to one in half a million. Now while it is very gratifying to know that it is so much safer then the older system; it is pleasing to know we have in the "Canadian Pain Destroyer" a medicine equally safe and sure for the cure of coughs, colds rheumatism and summer complaints. For sale by Druggists and country dealers. Price 25 cents per bottle.

Persons affected, however slightly with any weekness of the Chest or Throat, involving either the Larynx, Trachea, Bronchial Tubes or themselves, should, on the first symptom commence with FELLOWS COMPOUND SYRUP OF HYPOPHOSPHITES, as by its use diseases of those orgins (even consumption in its primary stages) are speedily cured and more alarming sympoms prevented.

Price $1 50 a bottle; 6 for $7 50. Sold by apothecories and by F. Cundill & Co., wholesa rgents Montreal.

ONE HUNDRED DOLLARS A WORD.

For every word in the following certificate found untrue, after writing to the parties named: and to the U. S. Consul, at Rio Janerio, the sum of one hundred dollars will be paid.

Rio de Janeiro, Feb. 28th, 1866.

Messrs. Raymundo C. Leite & Bro:

Gentlemen;—While a son of my friend Mr. Francisco de Mattos Pimenta [a large proprietor in the Cidad de Campos] was staying at my house he was attacked with intermittent fever. Immediately I sent for the very clever Dr. Tonoon, who is thought a good deal of in Campos, but the fever instead of diminishing, turned, continued, and typhoid, the boy (14 years old) could not speak, would not take the broths, and it required a great deal of coaxing to make him swallow the medicines. Dr. Tonoco. declared that there was not the slightest hopes of saving the boy's life; that it would be advisable to write to his father and inform him of the state of his son's health. At that moment I thought of the well spoken Dr. Radway & Co.s medicaments, and applied them in the following manner: One teaspoon of Relief in a tumbler of water, dividing it three doses a day; frictions with the relief pure on the chest, back and wrists; three of Radway's Pills every day, and well covered so that he might perspire. Second day, half an hour after meals, one desert-spoon of Resolvent and water. In the fourth day he was able to get up from bed-to the astonishment of every one who witnessed the miracle of Dr. Radway & Co's. medicaments.

I remain, gentlemen, your very odedient servant

Joaquim Pinto Fileso, Merchant.

Dr. Radway's Remedies are sold by Druggists and Country Merchants. See Dr. Radway's Almanac for 1870.

Insolvent Act of 1869.

In the Matter of HENRY MYERS,

An Insolvent.

I, the undersigned, David William Dumble, of the Town of Peterborough, in the County of Peterborough, have been appointed Assignee in this matter. Creditors are requested to file their claims before me within one month.

D. W. DUMBLE.

Peterborough, January 23rd, A. D. 1871. 5-2

4 25 vs. $500 00.

Economy in Health and Physic is as important as in business, and we know of no cheaper, better, or surer means of preserving health and divesting the sick of their infirmities, than through the medium of Dr. Radway's famous medicines. We present a case in point:

Case 1. 236.—Marcus W. Mount, long a sufferer from liver complaints, has paid, he says, at different times, about $250 to physicians, and he thinks as much more for medicines. Is induced to try Radway's Pills, with occasional doses of the Renovating Resolvent, to assist in removing from his system the effects of the mercurial treatment to which he has been subjected. Soon feels the benefit of the change Takes, in all, five boxes of the Pills and three bottles of the Resolvent, and at the end of the course is "as well as ever he was in his life."

Glance at the account current here below; Bills for medical attendance, $250; outlay for prescriptions, $250.....$500,00

Five boxes of Radways Pills, $2 25; three bottles Resolvent, at $1 each, $3—(disease removed).....4 25

Balance in favor of the REGULATING PILLS and RESOLVENT.....$495 75

R. R. R. Remedies sold by Druggists and Country Merchants. See Dr. Radway's Almanac, 1870.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier, alternative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phatisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in coring sudden colds, sore throat, coughs, Diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, hse given it a place in every household and is last superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum, dysentery, &c.

Price only thenty-five cents per bottle.

DARLEY'S

ARABIAN OIL,

FOR HORSES AND CATTLE.

A NEVER-FAILING REMEDY.

THIS valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient properties for the cure of Flesh Wounds, Sprains, Bruises, Galls of all kinds, Cracked Heels, Ring Bone, Spavin, Callus, Fistula, Sweeney, External Poisons, Scratches or Grease, Strains, Lameness, Mange, Whitlows, Corns, Sand Cracks, Foundered Feet, Horn Distemper, Swellings, and many other diseases which horses and cattle are object to.

This celebrated Liniment has been used for many years, and its curative properties thoroughly tested, and it is conceded to be the cheapest and most reliable remedy for all external complaints ever offered to the public—it never fails when timely used and faithfully applied.

To be had of all Druggists and Country Merchants throughout the Dominion. Price 25c. per bottle.

W. Bell & Co's Melodeons are supplied by A. B. Kidd.

These instruments received First Prizes at the Ontario Provincial Exhibitions for 1869 and 1869; also at the Quebec Provincial Exhibition held in Montreal, September, 1870. At the Ontario Provincial Exhibition held in Toronto, October, 1870. W. BELL & Co. received the First Prize and Diploma for the best Harmonium or Large Cabinet Organ, and the First Prize for the best Melodeon. It is universally acknowledged that in the manufacture of Melodeons W. BELL & Co. excel all other Canadian makers, having taken the First Prize on Melodeons at the last three Provincial Exhibitions. As to Organs or Harmoniums it must be remembered that The Diploma just received by W. Bell & Co. is the only one awarded during the last seven years at any Provincial Exhibition. ☞ All instruments warranted for five years, and satisfaction guaranteed.

PAPER BAGS AND WRAPPING PAPERS

Are supplied by A. B. KIDD at Montreal Prices.

Dealers will find it advantageous to give him their orders, as he has made arrangements with one of the largest firms in the Dominion, which enable him to supply Bags and Wrapping Paper at Wholesale Prices.

Peterboro, November 15, 1870.

manner, he thought the justice of the case was satisfied by granting Mr. Lillyseed an immediate third-class certificate.

Mr. Lilyseed returned to his establishment, hopeful and triumphant, with the newspaper containing the police report, and the faithful [illegible] to receive him. He found his landlord [illegible] six thousand five hundred pounds' worth of stock, that had been so cleverly secured from his creditors, and he looked forward to the five hundred pounds cash more, in cash, and in Mr. Dove's promissory [illegible].

"We must have the place painted up, said Mr. Lilyseed, addressing Mr. Dove, and at once assuming the position of a master; "and I don't like the slovenly arrangement of the stock in the windows."

"While I congratulate you upon your success before the court, Sir," returned Mr. Dove, coolly, "I am afraid that our connexion must cease from this moment."

"What!" exclaimed the [illegible] "I don't mean to say you want to leave me, [illegible] was thinking of a junior partnership for you."

"I'm much [illegible] to you, Sir, I'm sure," said Mr. [illegible], "but I must decline to accept it."

"Well," [illegible] Lilyseed, somewhat coldly, "you [illegible] the [illegible] consider the offer. [illegible] those bank-notes and document [illegible]."

"I have [illegible] the document," replied Mr. Dove, coolly, "but I've disposed of the money."

"Why, [illegible]" exclaimed Mr. Lilyseed in astonishment.

"I've brought back the lease of these premises, which you had mortgaged up to the neck with Mr. Dicky's invisible capitalist client, and I've taken the liberty of putting my name over the doorway."

Mr. Lilyseed did not [illegible], and he saw his position. Mr. Dove was not a fool, but a wolf in sheep's clothing. The first gentleman found himself turned into the street, for the second gentleman was determined to use all the legal power which the bill of sale gave him.

"I am not wholly unprovided with means," said Mr. Lilyseed, accepting his defeat with great self-command, "if you are disposed to treat for a partnership."

"I think," said Mr. Dove, "we are better apart. You are worthy of something far better than I am prepared to offer."

And so they separated, like prudent traders, each one, adopting the course he thought best suited to his worldly welfare. Mr. Lilyseed was heard of, some years after, as a gigantic contractor; but whether Our Mr. Dove was the same Mr. Dove who, about the same time, was heard of as laying the first stone of a gigantic tabernacle, I am not positively prepared to answer.—*All the Year Round.*

Extraordinary Story.

Several times on Thursday a person of respectable exterior and gentlemanly deportment called at the residence of a provincial reporter residing in a midland town wanting, as he stated, to see the said reporter. The latter reached home shortly after seven o'clock; and almost immediately after his arrival a knock was heard at the door. It proved to be a man in the garb of a farm labourer, with a note addressed to the master of the house. He appeared flushed, as if "put about," and had a dog cart at the door. He said the letter was from his employer. On opening it was found to bear the name of a country squire, who lived in an insulated spot some four miles distant. The note was written in a hasty manner, and was scarcely more than an illegible scrawl. The writing of the squire was not known to the reporter, and he therefore accepted it as genuine. The purport of the note was that his (the squire's) housemaid had just deliberately, while having tea, cut the throat of the nurse through finding her the night before encompassed within the arms of her former sweet heart of here, and that he had ventured to acquaint him of the affair, thinking that he might want to know about it as soon as possible. The note added that the reporter might ride with his man in the dog-cart, if he liked to go that evening, and he would send him back by the same means. He mounted the dog-cart, but when about half way to the squire's residence he was suddenly seized by the throat by the seeming farm laborer and his money abstracted from his pockets. Attempting to get away, his powerful assailant thrust him to the bottom of the conveyance, held him by the throat and threatened to murder him, presenting at the time what appeared to be a pistol. By dint of much perseverance he released himself, but was immediately pushed out of the cart into the road, and away galloped the horse with the robber. The note was of course, a forgery, and the dog-cart had been borrowed by a man from the proprietor of a road side inn, under the plea that the said squire "had just been seriously ill," and that he wanted it to fetch a doctor as quickly as could be. The horse and dog-cart were found the following morning in a field adjoining the road, about quarter of a mile from the owner,s house. No trace of the villain has yet been discovered; but we may mention that the servant girl during her master's absence communicated to a fellow-servant her belief that the "gentleman" and the country-fellow were one and the person.—*Manchester Guardian.*

Mr. Jones, I understand you said I sold you a barrel of cider that had water in it. No no, I only said that you sold me a barrel of water with a little cider in it, was the reply.

A woman in Detroit went to church the other day, leaving four little children with only a box of matches to play with. She won't do it again.

'Tis sweet to court;
But, oh! how bitter
To court a gal!
And then not get her.

Who is the greatest terrifiers? Fire. Ever eating ever cloying,
Never finding full repast,
All devouring, all destroying,
Till it eats the world at last! Fire

An old gentleman of the name of Gould having married a very young wife, wrote a very poetic epistle to a friend, to inform him of it, and concluded thus:—

"So you see, my dear sir, though I'm sixty years old,
A girl of eighteen is in love with old Gould."

To which his friend replied:

"A girl of eighteen may love Gould it is true."
"But believe me, dear sir, it is Gold without Alloy."

Josh Billings says that one of the hardest things for many mortals do, is to fall down on the ice when it is wet, and then get up and praise the Lord.

Ex Governor Eyere has settled down in the country. The total fund raised for this gentleman was £15,000. More than half of this was absorbed by law costs, and expenses and he recently [illegible] £7,000 to defray the cost of his defence, this being the rules when the defendant is a Government servant put on his trial for charges relating to his offical duties.

At Fairmount, Va., a school master refused to treat the young ideas under his charge to five dollars worth of trinkets, when they surrounded him and ducked him in a neighbouring creek. He agreed that if they would let him out, he would buy them candy enough to kill the whole party. Two have died since.

That old lady 100 years old, who knits all the stocking for the neighbourhood, and brings in all the family wood, is just now in New Hampshire. She is an orphan.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine [illegible] by every class, nor was ever [illegible] so universal. [illegible] into use, in every country and among all classes, as this mild but all-[illegible] purgative. The reasons [illegible] are obvious. [illegible] far more effectual than any [illegible]. Those who have tried it, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cases are known in every neighborhood, and we need not publish them. Adapted to all [illegible] climates in all climates; containing neither [illegible] any deleterious drug, they may be taken with [illegible] any [illegible]. They purge [illegible] purely vegetable [illegible] their [illegible] in any quantity. [illegible] influence on the [illegible] and stimulate it into [illegible] obstructions of the [illegible] other organs of the [illegible] action to health, and [illegible] sick, such derangements [illegible] the first origin of disease. [illegible] sections are given in the wrapper on the following complaints, which these Pills speedily cure:

For Indigestion, Dyspepsia, Listlessness, Loss of Appetite, they should be taken moderately to stimulate the stomach, restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, but little is required when taken for such cases, to correct the diseased action or remove the [illegible] which cause it.

For Dysentery or Diarrhœa, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and reinstating effect on the digestive apparatus.

NORTHROP & LYMAN, Newcastle, General Agents for Ontario.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c. [illegible] all the affections which arise from [illegible] malarious, marsh, or miasmatic poisons.

As it is free from [illegible], it does *Cure*, and does not [illegible]. Containing neither Arsenic, Quinine, Bismuth, or any other [illegible] substance, it produces no [illegible] whatever. It is nearly [illegible] any patient. The [illegible] of one or two doses is the [illegible] are literally beyond [illegible], and no [illegible] a parallel in the history of Ague medicine. [illegible] is required by the acknowledgments we [illegible] of the [illegible] cures effected in obstinate [illegible] and where other remedies had [illegible] failed. [illegible] persons, either resident in, or [illegible] through [illegible] localities, will be protected [illegible] the *AGUE CURE* [illegible]. *For Liver Complaints*, arising from torpidity [illegible] it is an excellent remedy, stimulating [illegible] healthy activity.

[illegible] Dysentery and Bowel Complaints, it is [illegible] remedy, when [illegible] prostration [illegible] has been [illegible] by other [illegible] C. AYER & Co., Practical Chemists, Lowell, Mass., and sold [illegible]

NORTHROP & LYMAN, Newcastle, *General Agents for Ontario.*

EXECUTED IN A SUPERIOR STYLE,

At the "Examiner" Office, Simcoe St., Peterboro.

Select Poetry.

The Land of Our Birth.

Old Ireland forever
No power shall sever,
My heart from the land of my birth;
'Tis the land of the brave,
Which none can enslave,
'Tis the happiest land upon earth.

If the African Stand?
But once on her land,
That moment his shackles are broke;
A captive no more,
He leaps on her shore,
And breaks from his shoulder the yoke.

'Tis the land of the fair
And beauty is there,
And the gladness that no woman bestows
When the circle is bright,
With the hearts cheering light,
From the eye of affection that flows.

'Tis the land of the brave,
And the patriot's grave,
And heroes and sages of old,
I hallow their dust,
And esteem it a trust,
More precious than jewels and gold.

'Tis the land of the wise
With the glorious prize,
Of genius her temples are bound,
And she beams from afar,
Like a bright morning star,
To give light to the nations around.

Hail! land of my birth
Brightest spot upon earth,
Shall I leave thee forever: no, never;
Where e'er I may roam,
Still thou art my home,
Old Ireland my country forever.

Choice Literature.

My Only Romance.

I have often wondered whether the four walls of the sleepy, solemn, old granite structure, towering far above all surrounding buildings, and facing the equally sleepy old square, have endeared themselves to other inmates as they have to me. Every stone in them, from door-step to pinnacle, is precious to me. Every breath of air that stirs the ivy leaves, clinging with an almost human devotion to the ancient sides and twining tenderly around the little gothic windows, seems to murmur a fresh, sweet song to my ears.

I admired it at first as a boy, when I used to go there for daily lessons, and, standing on the sidewalk, would look up to the roof, trying to fancy how long the old pile would stand there after I was dead, and after others that should follow me were dead also. When the other streets about the deserted squares should awake into busy life, echoing to the tread of hurrying feet, and the fine old residence be turned into gay shops, or to be torn down, to make room for rows of costlier and more commodious store houses, wrapped in impenetrable dullness, quietude, and repose!

You see my liking for the place grew with my growth, and strengthened with my strength. Therefore, it was quite natural on reaching man's estate—the estate, in my case, consisted of a much bedaubed pallet, a few brushes, and a quantity of canvass—and, deciding to make landscape painting my profession, that, looking about for a shelter for my, as yet, fameless head, my thoughts should fix upon the roof which, in years agone, had so often covered my curly pate while listening to the dreary old professor, endeavoring, with praiseworthy diligence, to instil into my unappreciative brain the elements of Latin and Greek. In two days after the idea entered my head, I was established with all my worldly possessions—a small trunk and my easel—in a delightfully musty, dark old room full of the weird charm that hangs over and penetrates even the very stones of the outer walls.

Another reason why I love the sombre and antiquated place I haven't mentioned yet. There my little romance, the one romance of my life, began, continued, but will not end.

I have lived an uneventful bachelor life in this building for more than two years, vagabondising during the warm months among the mountains, and along the coast with a few brother artists; and working hard in winter filling out, copying, altering, and improving the summer sketches with which my portifolio was always laden to overflowing.

One evening at dusk, late in October, I had returned from a day's trip to the country, I had had a last look at the magnificent wealth of a scarlet and orange, and crimson, and green glory of the woods, where every leaf had danced and played, infiltrated through and through the warm drops of golden light the sun was showering down. An autumn picture was on my easel, and I felt that, for a day at least, I must steep my senses in the intoxicating mystery of color before I could venture to the last touches and pronounce it done.

I bade the janitor's wife good evening, took my key off the nail in her small sitting room, and started to go up stairs, when I met with great surprise. Not at all a disagreeable surprise, for it wore a soft, grey dress, a thick shawl, a round hat with a veil thrown back near the crown, and was toiling up the long staircase with a couple of bundles of wool in one hand, and a tin pail in the other. Numerous brown paper bundles protruded in all directions from under its round arms, or rather what I immediately fancied were its round arms. A woman in that place was such a very rare vision that I was impelled to follow her, and raising my hat to say: "I beg pardon, madam, pray allow me to assist you."

Two large, startled eyes looked up into mine as I spake, and then, seeming reassured, a sweet, modulated voice answered. "Thank you, sir; I will accept your kind offer, for I am continually stepping on my dress, and, at this rate I never shall reach my room."

"Your room!" I involuntarily exclaimed, as I took the pail and bundles of wool. It was such a very odd idea that a lady should have a room in that out of the way place.

"Yes, my room," she said. "I live in number twenty-eight, north corridor, third floor. My brother was too ill to go out to-night, so I am going to get tea for us there."

"Then we are neighbors; my room is number twenty-seven same corridor," I remarked more and more mystified.

"Oh!" she exclaimed, "then you are the gentleman whose picture old Margaret praises so highly."

"Indeed," I said, laughing, "I had no idea our good janitress admired my poor work."

"You are her greatest favorite among all the artists in the building. But here we are at my door. If you will excuse me while I step in and put these bundles down, I won't detain you a moment longer."

I heard a weak and tremulous call inside the room: "Gervaise, is that you, dear! It seems," in half a querulous tone, "a long time since you went out."

"Poor Bertie," the sweet voice I already knew replied, "I was just as quick as I could be, darling. I'll try not to be so long another time."

Then, she opened the door wider to take her things from me, the light poured out, and she cried: "Oh, oh, oh, how beautiful!" as she looked at a great bunch of gorgeous leaves I held, and which she had not observed in the dim halls. "Please step in one moment, and show them to my brother.—Bertie, this is Mr. Churchill, our next door neighbor, who has very kindly helped me to bring up my many packages." Then, turning to me she said: "You see, sir, we know your name very well. This is my brother, Mr. Dale."

"And I hope you will know me, as you do my name very well, some time," I answered, bowing to the sick man in the arm chair. I have been out in the woods all day, filling my brain and being with the marvellous beauty of the season: and I have, as usual, brought home twice as much as I need; for I could not leave them behind. I dare say I should have tried to bring home a cart load, had not my conscience warned me that it was positively inhuman to break off any more. I see you enjoy them as I do, and," turning as to see her full face, "I am going to ask your brother of taking care of half these leaves. My bachelor establishment affords but one vase which will hold only a few of them, and was wondering what I should do with the rest."

A certain dignity in the manner of the young lady, while it was extremely gracious, repelled the slightest deviation from the most formal courtesy, and prevented me from offering the leaves to her. I feared she would decline them, and I had taken an odd fancy that it would be very satisfactory to know that my visit to the woods had given pleasure to some one besides myself. Indeed, it might have been almost the only time within my recollection that I had ever given any satisfaction to anybody; for my life then was almost isolated. As I divided my woodland treasures the invalid raised his long, slender hand, and, offering it to me, said: "I thank you very much, sir, for both my sister and myself. I am sure; we shall enjoy them enough to repay you for the sacrifice of giving them away."

"But the gain is mine," I replied, smilingly, "for now, you see, I shall have the pleasure of knowing that these beauties will be properly cared for. Just look at that scarlet maple with the perfect gradation of color to the orange veins, and the sumachs; perhaps they and the golden beeches are the handsomest after all. If I had kept them, they certainly must have withered in a few hours. In two days my picture will be finished. Will you and your brother do me the honor of looking at it before it goes to the exhibition?"

I turned so quickly towards her in saying this that the lady was startled into accepting the invitation, though I believe to this day she intended to decline.

"Thank you" I said; "when it is ready I shall call for you. Good night."

When the door closed behind me, I struck a match, and holding the little, quivering flame quite close to a small, white card, tacked upon the middle pannel read:

G. DALE,

"Engraver on Wood."

Whether I had grown more fastidious and critical, or whether my practised fingers had all at once lost their cunning, I cannot determine; but I do know the two days allotted in my mind to the completion of the autumn-scene upon my easel stretched out into three, four, five: and finally a week passed before I was willing to say "Finished!" and put in the frame.

But one thing should be considered in extenuation of the delay. My brain had played me the most extraordinary tricks during those seven days. Would you believe that, on awakening from a highly artistic, and analytic reverie one afternoon, I discovered under a group of oaks and beeches, where a dwarf gum tree should have been, a slight figure in a grey dress, shawl and hat, with a veil thrown back over the crown?

I see by your smile, you don't credit the story; but I assure you it is true. The picture was finished, however. I took it off the easel to hang it on the wall; pulled it down from there, and, bracing it up on the table with a pile of books, I at last replaced it on the easel, where it properly belonged, before I could be satisfied with the light. After all this, I found myself at number twenty-eight ready to escort my visitors to my studio.

The slight color that flushed Herbert Dale's face told me before his words, that he liked and admired my work; but I was not so sure of his sisters approval. For full five minutes she stood leaning over the back of her brother's chair, saying nothing, while I remained in the background watching the flickering western sunlight play over her soft, blond hair and delicate sweet face. At last, with a sigh as of mingled longing and regret, she turned and took the chair I silently moved toward her saying: "It seems to me as perfect as any one can make it. You can't imagine how it makes me wish for the country and the woods."

Then she was silent again: but I think my eyes must have said more to her than my lips, for they only uttered, "thank you."

Of course we began speaking of pictorial art in all its departments. She told me her brother and herself both drew, and that she engraved their pictures. And I gathered though she didn't say so, that she supported the two in that way. My interest in this couple, who seemed as much alone in the world as myself, grew every moment they remained; and, long before she exclaimed, "why Bertie, dear, it is nearly dark! we must go home this minute," I determined to follow up the acquaintance which had begun so propitiously. Rising to help Herbert back to their room, I asked: "Miss Dale, have you ever seen the "Seasons," illustrated Ludwig Richter?"

"No. I never had an opportunity, though I have often read about them. I hope sometime to be able to buy the set: for I thing they would be helpful to me."

"I think they would be very suggestive to you in many ways, while they are also exceedingly entertaining. When mine are returned by another friend"—I had the slightest possible accent on the two last words, to see what effect would have upon her—"may I bring them to you? I rely upon them now, for I known every line and every group by heart."

Thank you: I should be very glad to see them," she replied without seeming to notice my emphasis. and then I went out, and stood alone in th gloomy corridor, as I stood a week before, on the evening when I first met Gervaise Dale.

In a few days my books came back, and I seized the first moment of leisure—it was in the evening—and carried the next door. The call was delightful. The loan of more books, the exhibition of a sketch or two, led to another and another visit; and at last it became a habit with me to spend three or four evenings a week with the Dales.

Up to the time I made the acquaintance of my new friends, my life had been utterly selfish. Every sensation and circumstance had been interesting to me as it affected my own personality. Every tho't and every hope centered in my own advancement and success. Therefore, the self sacrifice and devotion to Gervaise Dale by her sick brother awoke in me a feeling of surprise and admiration. As a revelation of nobility of character, it appeared in my eyes superhuman.

Herbert and I became much attached to each other, as our acquaintance grew; and frequently, in the short winter afternoons, while Gervaise was out carrying home her work, I read aloud to the unfortunate youth.

One day we were sitting quietly watching the sun sink behind the leafless trees in the lonely park, when he suddenly burst out with:

"Mr. Churchill, I suppose you've often wondered why Gervaise and I should be alone here. I think you ought to know our history, or at least whatever will interest you in it, and I am going to tell it to you."

"Don't tell me any thing you would rather not speak of, Bertie," I said, laying my hand on his; for I know how hard it is for sensitive natures to open their souls even to their nearest and dearest, and I could not bear he should think me vulgarly curious about their past life.

"I want to tell you. In the first place, Gervaise is an angel."

My heart echoed that, as I looked toward the table in the window where her blocks and pencils and little instruments lay, and thought how cheerfully and uncomplainingly she toiled there, hour after hour, and day after day, to provide for their small needs.

He continued:

"It is the old story of parents dying penniless who are supposed to be wealthy, and of children left to the charity of rich relatives who could hardly have been less generous to their bitterest enemy."

The hot blood rose in his sunken eyes, as he uttered the last sentence; and it spoke more strongly than a thousand words of the indignities put upon them in the house to which they were unwelcome.

"My uncle, who was left our guardian, is a passive, easy going man, entirely under the contaol of his clever and unscrupulous wife I have had hip disease ever since I can remember, and so, of course, when we were taken to our guardian's house, I was looked upon wholly as a burden, to be endured, not enjoyed. But Gervaise, who was always well and strong they made slave herself nearly to death, and she cheerfully submitted for my sake.

"Again and again I implored her to run away with me somewhere, if it were only to die in the streets, for the sake of getting out of that house. Oh, you can't conceive how I loathed the place, how I longed to get away with Gervaise! That was the question which occupied our minds constantly. I don't know whether it would have been solved to this day had not my uncle and his family decided to go abroad. Of course, we were left behind. I was glad of it, but Gervaise was not, for she thought travel would have benefitted me.

"I knew then just as well as I do now, though I didn't tell her so—that nothing in this world could ever help me, and life in its best state has never such a blessing that I would try to keep it if I felt it slipping away."

He smiled a sweet, melancholy smile that pierced my heart, and I could only press the thin fingers that lay in mine.

"My own sorrow is in leaving Gervaise all alone; but time heals almost any wound, and I hope some time she will be loved as she deserves by one who can be no more than a brother to her."

But to go back. My guardian's family went away, leaving Gervaise in charge of the house and to take care of me. We felt that was the time to act, and we revolved a hundred plans by which Gervaise was to learn as many different means of making money.

"Yes that was the bitter fact." I, the man, the natural provider, must sit with folded hands and wait. You may imagine how I cursed the malignant fate which made me impotent to support the darling girl I loved so well, he went on, vehemently; 'you don't know how I have learned to sympathize with woman since I've been sick all these years.' Great Heaven! I wonder they will consent to live at all, for they must always be the watchers and waiters, and rarely the actors in life.

Well, nothing that we thought of seemed feasible, and I was nearly desperate from disappointment, when the doctor who attended me suggested that Gervaise should go to the institute and learn wood engraving. You see we were both already proficient in drawing, my sister especially; for, as long as our parents were alive, we had the best of instruction, and had natural talent for it besides. Of course we received the idea with delight, and after the doctor, who was and is our only friend besides yourself, had made the necessary arrangements, Gervais began the lessons.

Perhaps you know what a wonderful aid to all labor necessity is." If you do not we do, and not many months elapsed before Gervaise could cut her own designs on the blocks with great skill. When she began to be paid for her work, I begged her to leave that house with me; but her sense of honor, which in that case I confess was greater than mine, would not allow her to consent; so we stayed till our guardian returned from Europe last spring.

"Gervaise, meanwhile, had become of age, and it was not very difficult to persuade my uncle"—this with a bitter smile round the thin, drawn lips—"to let her take me, a useless burden, off his hands." The doctor found this place for us—that little inner room, you know, is mine—where we could live absolutely to each other, and not be annoyed by curious eyes.

"At first I could help Gervaise a good deal in drawing; but I am slowly growing weaker, and less able to do so. And I can't go out to our meals as I used to.—She thinks it is only the winter weather, and that when the robins and the violets come again, I shall be as well as I have been; but I know that the next violets will blossom on my grave, and the robins will sing my requiem."

After this we sat quiet a long time, till the red western flames faded into yellow, and then into grey, and at last Gervaise came in.

Bertie's little history had opened the door of my heart as with a magic key, and looking in I found there a great love for these two lonely and homeless ones, like myself, without fear But the love for each was quite different. I felt for Herbert a strong, brotherly affection; but for Gervaise—oh, you, for Gervaise!—the utterly longing, thrilling tenderness a true man feels for the woman into whose hand he wishes to lay the treasures he holds most dear, his happiness, his honor, and his name.

The days slipped by. I could see how rapidly Herbert Dale lost his hold on life; how swiftly he was sinking into eternity. My visits to them were more frequently than before. I was filled with a fierce desire to keep the truth about her brother's health as long as possible from Gervaise. If she suspected it, she did not speak. I felt that it was no time to tell Gervaise my love, to speak of another future. These last days of her life with Bertie, which I could see so well would be few, very few at most, should be wholly theirs. I determined to control my heart till she needed its tenderest ministrations in the days of darkness and sorrow that were sure to come.

A raw, gusty afternoon in February, Bertie and I sat again alone. He had been reading "Dombey and Son;" and, as the fading light grew dim, I closed the chapter about Paul's death. We were filled with the sweet pathos, the tender grief of the scene, and perhaps musing in our minds a resemblance between the loves of Paul and Florence, and Bertie and Gervaise, when he suddenly asked, laying his hand on mine and searching my face with his eyes as if he would read my soul:—"Charles"—you see he and I used each other's Christian names altogether then—"do you love Gervaise? Not as I love her I mean, though Heaven knows how love could be greater than mine! but as a man loves the woman he wants to make his wife?"

Wondering if with all my care I had betrayed my heart secret. I laid my hand over the thin trembling fingers, and answered: "Who could see Gervaise as I have seen her, know her as I have known her, and not love her, Bertie? You know not how I long to make her my wife; to take her in my arms and fold her away from all sorrow and trouble for evermore. But how did you find me out, dear boy? I had resolved not to breathe it to her till——" checking the words upon my lips.

"Till after I am gone," said Herbert, finishing my sentence with a tweet smile. Eyes less jealous than mine might have discovered the truth long ago, Charles had they been watching you as I have. But I will tell you why I spoke first about it.—It would be the greatest satisfaction to me if you and she could be married before I say good bye to you both. I should die absolutely happy if I left her your wife.—A few weeks at most is all of life that remains to me. Go out and meet Gervaise, tell her your love, I am sure she retains it—and my wish. Go, Charles now.

Stooping to kiss his pallid cheek, I whispered: "Thank you Bertie, for sending me. I would not speak without your consent, but now I can hardly wait to find her."

The lamps were beginning to be lighted when I descried the little gray figure far down the street, and hurried toward it.—My heart was full, my mind was full of the one thing I had to say; but I began in the most commonplace way by offering my arm, and saying you are late to night, Miss Gervaise."

"Rather," she replied absently.

And then, speaking no more, we walked rapidly on. We had almost reached the old square, when plucking up courage, I said: Gervaise, I came to meet you to night, to tell you something which has been in my heart to tell you many a night before when I came to meet you. But I fancied is was right it should remain unspoken until—until what I have to say would not make even the slightest barrier between you and Bertie. But now I have his consent to tell you of my love, and ask you to be my wife. Do you love me Gervaise?"

We had wandered into the park by that time, and I drew her under one of the of the scattering lamps, and with both hands turned the sweet face upward to the flickering light, and read in the speaking eyes the answer I longed to hear.

After we had paused in silence—how eloquent that silence was!—under the gaudy leafless trees, I told Gervaise, as gently and tenderly as I could, that Bertie's death was very near, and that he was as anxious to leave her my wife as I was to make her so, and pressed her to say when we should be wedded.

"Don't ask me to-night, Charles, please" she pleaded, clinging convulsively to my arm, "there is such a strange mingling of supreme happiness and bitter grief in my mind and heart that I can not think. I have known so long dear, that Bertie must go, and yet I have tried to deny the evidence of my own eyes, and to school myself to bear it at the same time. Let us go to Bertie. Every minute with him is precious to us both now."

Three days later, on a beautiful afternoon when the glimmering sunbeams fell lovingly on my darling's golden hair, we were united by the sweetest and solemnest of all ceremonies. Ere our wedded happiness was a week old, we were called upon to mourn over a gentle spirit, who, though dead to the world will always live to me, and to her—I am as happy now to call my wife as on the day I first pillowed her blessed head upon my heart.—*Lilian Gilbert Browne.*

UNFAILING EYE PRESERVERS.

LAZURUS, MORRIS & Co's

CELEBRATED

Perfected Spectacles

AND EYE GLASSES.

The large and increasing sales of these Perfected Glasses is a sure proof of their superiority. We were satisfied that they would be appreciated here as elsewhere, and that the reality of the advantages offered to wearers of our beautiful lenses, viz: the ease and comfort, the assured and readily ascertained improvement of the sight, and the brilliant assistance they give in all cases, were in themselves so apparent on trial, that the result could not be otherwise than it has, in the almost general adoption of our Celebrated Perfected Spectacles by the residents of this locality.

With a full knowledge of the value of the assertion, we claim that they are the most perfect optical aids ever manufactured. To those needing Spectacles, we afford at all times an opportunity of procuring the best and most desirable.

Editorial Items.

The late Fenian raid cost the Country about $300,000.

The "Canada Farmer for February is an excellent number.

Mr. Carnegie is canvassing actively. If he succeeds, we can only say this is a strange world.

Why do the Conservatives not bring out Mr. W. Scott, and not show their foolishness in supporting a poor nobody.

CORRESPONDENCE.—We have received a very pointed and pithy communication anent what a candidate should be. We will give it next week.

The Bazaar in connection with the St. John's Church Parsonage Fund we understand was very successful. It is believed that $400 will be realized from the proceeds.

Father Kelly, for 12 or 13 years Parish Priest of Peterboro, has been promoted to a higher position, and has removed to Kingston. His successor is Father Lynch, of Brockville.

DR. LIVINGSTON:—Sir Roderick Murchison, on the 24th ult., writes to the London *Times* that the celebrated traveller is still living, and that an extensive tour to the West of Lake Tanganyika, accounts for his long absence.

The ministerial organs are making every effort to damage Mr. Blake. There could be no greater proof of his ability, and of their fear that he will be at the head of our Legislative affairs ere long. Mr. Blake is assuredly the cleverest member of the Legislature, perhaps of either Legislatures. Hence the cry against him.

ZOGRAPHICON:—Mr. Verey exhibited his very interesting Panorama in the Music Hall last night. He has added largely to his paintings since his last visit. The scenes are very good, and the moral effect of "Ten Nights in a Bar-room" must be good. He exhibits to-night again, and well deserves a full house.

The Altar and the Throne is the title of a newspaper now published in Montreal, in the interest of the Orange Association of the Dominion. The two first numbers have reached us. They are neatly got up, and the paper bids fair to be worthy of the support of the order, and of all who admire its teaching. We wish the publishers success.

The Residence of the Late Mr. Gilmour, and land attached, were sold on Monday to Mr. Thos. Bradburn for $15,400. Many thought the property would fetch more.—The large outlay prevented many from bidding, as only a few in the community can afford to spend so much money on a residence.

MASQUERADE SKATING CARNIVAL.—The date on which this has been arranged to come off to-morrow evening, Friday, the 24th inst., on the Rink, Ashburnham. As this is the first benefit ever given to the members of the Band, in Peterboro, it deserves the hearty support of the public to bespeak a full Rink on Friday evening

One of the invited to the Masquerade complains that it was not private, as represented, but public, and offers advice to the promoters. As the name of the writer is withheld we cannot insert the communication. We require this as a guarantee of the faithfulness of all matters communicated; and when required, the the name is kept strictly private.

PERSONAL:—We are pleased to learn that Master H. E. D. Hall, son of Sheriff Hall, and Master George Roger, son of Rev. J. M. Roger, both of this town, passed very creditable examinations for third year law students, at Osgoode Hall, last week; Master Hall taking 175 out of a possible 240, and Master Roger not being far behind him. Only three or four candidates took higher numbers than Master Hall.

MARKET TOLLS:—We understand that the market tolls will be let by tender on the 27th inst. We hope our old friend Green, may be the successful man. He has given general satisfaction for the year now closing. There has not been a solitary complaint against him, we believe, for the year, nor has he given trouble to any one attending the market—he therefore deserves the consideration of those who decide on the tenders.

The Friends of Free and Liberal Government will please take notice that a meeting will be held in Mr. Stratton's office on Saturday at two o'clock p.m., to make arrangements for the coming Election Campaign. The government is determined to forcshe elections during the coming month. As is believed, and hence the necessit for prompt action. We trust, therefore, that there will be a full meeting on Saturday as ACTION is the order of the day. The county must not go by default.

The active service on the frontier in 1870 accounts is set down at $24,809.83. The milltia cost $1,245,072.83.

The License on Maltsers in the county for 1869-70 was $575; License on Brewers, $175; the total gross revenue of Brewers, Liquors, Tobacco and Cigar Manufacture of the county is $23,806.29; expenses of collection $977 01.

The salary of collector of customs, in Peterboro, for 1869-70, was $75 allowance for office rent $50.

The salary of excise officer for Peterboro $600, contingences $81.67.

The North-West has cost $361,119.78. Emigration cost $64,208.6.

A BOLD THIEF.—On Monday about one o'clock, an unknown person entered the yard of T. Chambers, & Son, and took a fine span of horses and sleigh belonging to Mr. Wm. Webster, of Otonabee. He was seen driving through Ashburnham, on the Keene road, and at the little Lake turned northward and got away. Some persons saw him take the team from the shed, but thought he was some one taking them by consent for a drive. Mr. Webster offers $50 of reward for the return of the team and capture of the thief. A few months in Kingston might bring him to his sober senses.

Since writing the above Mr. Webster has succeeded in getting his horses and sleigh. The boy who took them made for Norwood and Hastings, and succeeded in getting as far as Warkworth, in Percy.—He had driven the team into a tavern shed, and had gone home to his father's house, when Mr. Webster's sons arrived in the Village. He had also taken an overcoat which was in the sleigh, as it was found in the house, and a dog that followed him from Peterboro, was lying on it. The boy is about 15 years of age, and calls himself Alfred Friars—while his father, who is represented as respectable looking, calls himself Brown. This is of course suspicions looking. The boy was taken before a Magistrate, who having heard the evidence, committed him to Peterboro Jail to stand his trial. He is now in safe keeping. It is to be feared that he has some accomplices who used him, and then made away with the booty. He has only been about town four or five weeks.

RAILROADS.—Mr. John Fowler who built the Peterboro and Millbrook branch, some years ago, has in project a road from Bowmanville to Lindsay, and thence to Fenelon Falls or Bobcaygeon. This is the Canadian Railroad era, at least as far as projection is concerned—but how many of those now spoken of shall be completed? If Mr. Fowler ever builds his Bowmanville projection it will be to Lindsay, afterwards to whatever point suits himself. Meetings have been held in both Lindsay and Bobcaygeon, but nothing definite has been done Mr. Fowler being very careful to be as reticent as possible on doubtful points. One thing, however, he was not silent on, and that was, the way he bought up Peterborough, once spending about two hundred dollars a day in whiskey, &c., during the voting on the By-law. Peterborough, therefore, according to Mr. Fowler, sold herself for about $300 or $400, and well has she suffered since, especially during Mr. Fowler's management. At one time she had to allow him a gift of $44,000, to secure a lien on the road for a small balance of $70,000. Mr. F. knows how many twos make four, and the people of Bobcaygeon may rest assured that he will do just what pleases himself. He does not care a cent about any place. He is all for self, or perhaps for revenge on the Port Hope road.

FRANCE.—News from this unhappy country is very meagre. The elections have taken up considerable time; and they have gone largely in favour of the Orleanists. Some are for an empire and some, of course, for a republic. To all appearance an Orleanist will be elected king or president, as the popular voice may decide. The Prussians are determined to otter Paris, wisely or unwisely. The efforts put forth to meet the wants of the starving people of Paris are barely sufficient for the work, but it is believed that the relief extends to all in want. Great Britain has decided to acknowledge whatever form of government the French people may adopt, so as to secure a power sufficient to enter into treaty for peace. Peace is sought for on any reasonable terms, and it is to be hoped that the terms will be such as to ensure a lasting peace.

The Russian claim to again place vessels on the Black sea, it is believed will be granted, England believing that she has no good end to serve in trying to prevent it. The Turkish government is anxious to retain the control of the straits, but it is not understood that this will be insisted on.

The Italian government has made arrangements for future provisions for the Holy Father, but what those arrangements are is not said.

The Canada Central.

The Eastern people are advocating the Canada Central as the most direct road to the west, and are claiming that it would be the shortest route to Montreal from the west. The Perth *Expositor* says:

Amongst the railways now contemplated, and in which Perth is more or less interested are the Canada Central, and the Peterborough and Perth. If the Canada Central is once built between Montreal and Ottawa, people in Perth will have the advantage of a choice of routes to and from Montreal. There will also be some measure of competition between the Grand Trunk and the Central and no doubt freight will soon be got on better terms than now. We think there is a prospect of the road being extended from Ottawa to Montreal.

Another road is in contemplation from Toronto to Peterborough; and from thence to Perth, to connect with the B. & O. R. R. and Canada Central from Ottawa and Montreal. Such a road would, in connection with the Canada Central open up the very heart of the country. The very best place for the eastern terminus of the Peterborough Railway would be at Perth. Here is the nearest and most accessible point at which to connect the railways already in operation for Ottawa; and M. P's in going to and from the seat of Government would go in a shorter distance, and escape the perils of the Grand Trunk. The Peterborough and Perth road would cross the Kingston and Pembroke road, and so give us an improved route to the North and South. In the event of these roads being built at Perth would be in a most advantageous position. We would have the B. & O. R. R. to Brockville; the Canada Central to Ottawa and Montreal; the Peterborough road the most direct route to the West; and our connexion with the Kingston and Pembroke road as a route to the lumbering regions to the North, as well as to Kingston and Ontario ports on the Canadian and American sides. Perth wishes these roads to be soon built and will help some of them."

Many of the Eastern people of this County claim that this is the best road for Peterboro' but we almost fancy that as far as a bonus from this county is concerned this Central was too late being projected to this place. The late action of the Legislature if not set aside or repealed, has almost shut the door against granting a bonus for any purpose. Unless indeed, the one part of the County should seek retaliation on the other, and get some other bogus affairs legalised, and in this way succeed in getting $100,000 for the Central.

The Approaching Elections.

There are now no doubts in the minds of the people of Ontario but that the Elections will be held right away. John Sandfield is determined to, give the Electors as short as possible notice. In fact, it is rumored that in about four or five weeks they may come off. The month of April has been talked of as the most probable time. Already Mr. Carnegie is going round with a requisition for himself, and he is working as if the Elections are to be at once. He is perfectly alive to the wisdom of prompt action, and is not leaving a stone unturned that may stand in the way of the return to Toronto. What are reformers doing? It is admitted that even a man of limited ability and moderate popularity would easily defeat the Combination lackey at present seeking the suffrage of the electors. He is by no means popular amongst his former supporters. He has rendered himself distasteful to many who at last election worked hard to elect him, by his over bearing haughty disposition, by his actions in connection with every office held by him. In railway matters he has actually proved himself ready and willing to do any mean thing to secure the control of the people's money for his pet scheme, the Haliburton Railway. He has saddled the people of Eamismore and Smith with a debt that not one of the present generation shall see paid nor perhaps the next generation. He tried all in his power to compel the County to pay $45,000 to the scheme, and failing in that he has succeeded, in the most unconstitutional manner to compel them to pay $25,000. It is asserted on good authority that Mr. Carnegie actually got the clause inserted to legalize the $100,000 by-law and then when he found he had succeeded in that and that the house was likely to pass it he moved an amendment to the clause inserted at his own solicitation. He has for four years supported a class of Legislators of the most dangerous kind showing himself ready to do anything that his master's bade him, no matter how unpopular or how contrary to the genius of free, liberal, and enlightened legislation.

The people of Canada vainly imagine they are possessed of free institutions they vainly imagine that their municipal institutions are in their own control, when men sitting in Toronto can override the acts of the county council and tell them that they do not know enough to say what shall be voted, or what shall not be voted in council.

The people of Canada, hitherto, thought as long as their acts were in accordance with the statutes of parliament no power under the sun could step in and tell them you have done wrong and must therefore do differently.

The statue was supposed to be the guide of all municipal legislation. It remains for a set of nincompoops at Toronto to override law, all precedent, all common sense and to declare that a Bylaw rejected by the County Council shall be made law.

Are the electors of this county willing to again return to parliament a man who has so grossly insulted the members of the County Council who voted against this By-law? Are the electors of Peterboro' willing to send men to the parliament who would thus violate every guarantee that the people have that their affairs are in their own hands. Had they amended the statutes so as to compel councillors to pass certain By-laws as soon as a majority of votes polled should appear to be cast in their favor, no fault could be found. But to make an act retrospective, to legalize a bylaw already defeated in Council which the Council may have had the right to do, becomes an outrage on the common sense of the people and makes County Councils mere playthings in the hands of baby-legislators. Is this disagreeable? Will the electors of the county permit the continuance of such unheard of legislation?

Hitherto, some men believe that they had a right to dispose of their property by will as they thought best, believing that no set of men would now attempt to interfere with a will any more than they would with a legal deed.

This petty legislation guided by such men as the present ministers and supported by such men as John Carnegie, Jun., & Co., regard not even the most sacred of all writings, the wills of dead men. In more than one instance and that, too, contrary to the expressed wish of one half of the legatees, the mock parliament of Ontario declared their disregard of last wills and testaments setting them aside and granting privileges to the other half of the legatees which they never would have had by the wills.

Electors of Peterborough, will you forego this invaluable right of disposing of your property in what way seems best to you? Surely you will see to it that Mr. John Carnegie be not again sent to Toronto to disgrace you, and to declare, that in your sending him, you are proving yourselves unfit to use the franchise that has been entrusted to you.

We cannot suppose that you are so lost to the interests of the country, that you are so unmindful of the duty you owe to your successors—to your children—to bequeath to them the same privileges at least that you enjoyed, the right of private judgment—that you will send men again to represent you, who have so declared themselves unworthy of your confidence or of your trust.

Reformers be up and doing. There is not a moment to be lost. John Sandfield has $1,500,000 voted to be spent when and where he thinks proper. One milllion five hundred thousand dollars of your money voted to buy up support at the approaching election. Was ever such a thing heard of before? $1,500,000 placed in the control of a man who avows his readiness to spend it whorever it will purchase the most support.

Surely electors must feel the insult thus cast upon them by the leader of the Combination in this insinuating that they are for sale and that even a few hundred dollars spent in some useless undertaking, because spent in the county, is sufficient to ensure the votes of ennumerable dupes.

We have men among us in whom we can rely, let us bring some of them forward and elect them, and thus rid the county of the stigma of being bought by an unscrupulous set of men to who control the money bags, and are willing to use the contents to retain office.

A Word to the Wise.

Already rumors are afloat that the elections will come off right away—one candidate is in the field in each Riding. In the East Mr. P. Pearse, in the West the late representative. Mr. Carnegie's, political creed is well known—"scratch my back and I'll scratch your's"—professing to be a Tory, he is willing to support John Sandfield, an old Reformer, of course, for gain. Mr. Carnegie is needy and John Sandfield, like Judas, carries the bags, and hence the servility of the cringing Tory. We would advise the electors not to promise their support to any one yet. There will be reform candidates in the field, and we ask you to wait a few days ere you give adhesion to any one: but above all do not send men to support the Government that has so disgraced the Country with Legislation of the most dangerous and unconstitutional kind.

Mr. Pierce has not defined his position yet. On what side he may be found we cannot yet tell, but independent of this, a good reform candidate will be found for the East Riding too. Mr. Read has not yet declared his intentions. The *Review* intimates that Mr. R. may be a candidate But even if he should reformers cannot support him. He has given an undivided support to John Sandfield and all his vagaries; he voted to place the $1,500,000 in the hands of the Ministry. He supported them through every dirty job brought forward, he never gave a single vote for a measure brought forward by the opposition no matter how wise, reasonable, or commendable—surely reformers cannot stultify themselves by voting for him.

We advise them, therefore to wait the action of their party, which will be made known in a short time. Meetings will be held soon and some action taken to secure a liberal candidate. Do not therefore bind yourselves to any man yet in the field. A united effort will secure you a true man, a reliable man, a liberal man. There is plenty of time yet to decide what is best to be done, and after decision a very little earnest exertion will secure to the electors a liberal man. But let there be no disunion, no lukewarmness. Never in the history of our Country were the efforts of good and wise men more needed; the Country is in the hands of men who are unfit for the position they occupy and the earnest appeal of all true men is to reformers to liberate Ontario from the thraldom under which she groans. Be ready! be at work! put your shoulder to the wheel, and the victory is certain.

But stand aloof from all whose politics you would eschew, and whose principles are doubtful; if at last they must be sent don't let reformers do it.

A Warning to Councillors.

Last week Messrs. Johnston, McKenty and Stewart, Councillors of the Township of Harvey, were summoned before Jas. Edwards, Esq., J. P., at the instance of Mr. Woods, late Reeve of Harvey, on the charge of having voted to grant license to Mr. Guthrie, and Mr. Egan, for $10, a less sum than the Statute directs should be taken. It appears that at the first meeting of the new Council, the above man applied for tavern license, and the Council laid the matter over for a month, but expressed their intention to grant the license sought for—for a trifle, supposing that they had the power to do so. Mr. Woods having learned the whole matter informed one of the Councillors and the outsiders what he intended, this Councillor at the next meeting, didn't vote for granting the license, but allowed his colleagues to do so, without warning. Mr. Wood immediately lodged information against them, and the three Councillors were each fined $40 and costs. The Reeve not voting was considered all right, and the other Councillor who got wind of what was going on, was permitted to get off; no one appearing against him.

The Act says:—Over and above the sum which may be imposed by Municipalities, there shall be paid for the use of Her Majesty, in cities, $20, in towns, $17, and in townships and incorporated villages $10, and for each shop license $12.

The sum to be paid for a tavern or shop license in addition to Provincial duty is in cities, not less than $30, in town, not less than $20, and townships and incorporated villages, not less than $30, but no greater sum than $120 can be charged.

Section 13: Under which the Harvey Councillors were indicted reads thus:—Any member of a Municipal Corporation or officers or other persons who shall contrary to the provisions of this Act, vote for or issue or cause or procure to be issued, a certificate for a tavern or shop license, shall, upon conviction thereof, for each offence pay a fine of not less than $40, nor more than $100, or the offender or offenders may be imprisoned in the County Jail for a period not exceeding three months.

The lesson now given to the members of the Council of Harvey, may be thought a little severe, as they acted in ignorance of the law—but perhaps the publication of the transaction may keep others out of trouble. The Township therefore has no Council, as Section 18 provides that any Municipal officers convicted under this Statute, forfeits his office, and must vacate it; nor can he be elected in any Municipality in the Province for a period of two years. If he does not vacate his office, he is liable to a fine of $40 a day, for every day he shall sit or vote.

Supper given by the Employees of the Auburn Mill.

On Friday evening last, the employees of the Auburn Woolen Mill gave a complimentary supper to their employers, Messrs. Paton & Moir, in Turver's Hotel. The dining-room presented quite a lively appearance, being decorated with flags, evergreens, and suitible mottoes. About seventy sat down to supper, which was got up in excellent style by "mine host" Turver.

Mr. Doughty occupied the chair, and on his right were seated Messrs. Paton, Spence and Galletly; and on his left Messrs. Moir and White.

After the good things provided had been partaken of, and the wants of the inner man removed, the chairman rose, and in a brief speech alluded to the object of the supper, being in return for the one given to them by their employers on New Year's eve. He would first call on Mr. Galletly for a song, and then on Mr. Spence for a short address.

Mr. Galletly then sang—"Mary of Argyle," in his usual excellent manner, after which

Mr. Spence followed in a very neat and appropriate speech. He alluded to the many improvements that have taken place in the Auburn Mill under its present managers, and urged them to continue improving, as he thought small factories did not pay. He gave some interesting information in regard to some of the largest factories in Scotland, which had commenced with two and three looms, but now numbered them by the thousands. He trusted that Auburn Mills would prosper, and he felt confident that it would, if the same harmony and kindly feelings continued that at present exist between the employers and employees. He concluded by giving some excellent advice to the overseers and those under them.

Mr. Moir was next called on, and stated that he was very happy to meet with them on such an occasion. Meetings like the present were productive of good, and he hoped this would not be the last one.—There were many improvements yet to be made in the mills he said, which he trusted would soon be done, but one, he trusted, would not be overlooked, viz: the improvement of the mind and especially that of the boys and girls. Knowledge was power, and he trusted they would all put forth an exertion to obtain it.

Song, "Castles in the Air," by Mr. Geo Morrison.

Mr. Paton followed, and alluded to the improved state of the Mill, and hoped that they would be able to continue improving. He would like to see a better lot of dwellings at Auburn, and trusted that they would soon have them. He advocated the establishment of a good library in connection with the workmen, and thought it would be one of the best means of storing the mind with useful knowledge. A great many of the present day thought that if a man had to earn his living by hard labor it degraded him, but for the opinion of such he cared but little. He then read Burns' poem on "Honest Poverty," after which he alluded to the ignorance of many in regard to Canadian Manufactures, and trusted that ere long they would assume their proper place among the manufactures of the world.

Song, "The Drummer Boy of Waterloo" by Mr. H. Batty, and "Excelsior," by Mr. Galletly.

Mr. White being called on thanked them for the honor done him by being their guest. He also alluded to the present efficient state of the Mill, and the improvements that have been made under the present proprietors, and kindly offered some excellent advice to the overseers, urging them to be guarded in their expressions, as those of whom they had charge were apt to look upon them as worthy of imitation.

Song and chorus, "Peachblow Farm," by Messrs. G. Doughty, C. Morrison, H. Batty, H. Taplan, and C. Clavette, was next given and was loudly applauded.

Mr. Sam. Mitchell followed by a song, and Mr. J. Kendry and some others by a few remarks.

"Auld Lang Syne" was then sang by the company, after which they adjourned to the Music Hall, where dancing became the order of the evening, and which was kept up we believe, till an early hour next morning, everything passing off with the greatest good feeling.

Douro Council.

January 16th, 1870.

The members of the Council for the present year met at the Council Room. After having made and subscribed the necessary declarations of qualifications and office, the members took their respective seats. The Reeve in the chair. The minutes of the previous meeting were read and signed.

The Council then proceeded to appoint certain officers for the current year. Henry Carveth was appointed Auditor on the part of the Reeve, and Daniel Sullivan on the part of the Council. Messrs. Michael Torpy and Garrett J. Galvin, were appointed Assessors, salary of the former $50, and of the latter $20. Samuel Shorin was appointed Inspector of Taverns for the Village of Lakefield, and Michael Torpy for the remainder of the Township.

The Township was divided into two Assessment districts; the first district to comprise Electoral Division No. One; the second district to comprise Electoral Division Nos. Two and Three.

The last Saturday in February next was fixed upon as the time for the return of Collector's Roll.

On motion the matter of arrears of taxes against W½ Lot 21, Con. 4, was referred to the Reeve and Clerk, to see the County Treasurer, and have it settled. An abatement of $19.87 was allowed to Wm. Norris, it appearing that the land held by the said Norris was incorrectly designated on the Assessment Rolls for the years 1864, 65, 66 and 67, and also, that the owner A. Fowler, or his Agent, had each year paid the taxes accruing on 50 acres held by him

Statute labor contracts amounting to $28, let by J. H. Campbell, Overseer, and and charged on the Collectors Roll of 1870, were ordered to be paid, also a sum of $2.50 to Thos. O'Brien for repairing a broken bridge on the 4th Con. line, during last summer.

CHARITIES.

Orders were issued for the following, viz:—Cornelius Sheehan, for the keeping of William Hogan, $6; Widow Leahy, $4; William Stevens, $2.

An abatement of $1.20 was allowed to Patrick Fitzpatrick in his taxes for last year. The Collector received an addition of $10 to his salary for the past year, in consideration of extra trouble connected therewith. The sum of $2.30 was ordered to be paid to the Clerk for expenses of Registration for the past year. The sum of $1 was paid to John Leahy, for work done on the Dummer Road, under the superintendance of Councillor Barry. The sum of $3 was ordered to be paid to each of the Returning Officers, for holding the last Municipal Election.

Adjourned *sine die.*

JAMES HOGAN, Jr.
Clerk.

The Brockville "Recorder" recently intimated that Mr. Smith, of North Leeds was playing a game for his re-election with the Merrickvill Railway which Sandfield looks graciously upon. The Merrickville "Chronicle" thereupon assures its Brockville contemporary that it Sandfield was to guarantee the entire cost of constructing the Merrickville and Westport Railway, it would do his henchman, Smith, no good in the coming contest. He is dead political, a fact which next election will demonstrate in a most unmistakable manner.

The Murder of Thomas Scott.

We agree so well with the sentiments expressed by the Evangelical *Witness*, in the following, that we thought we could not do better than insert the remarks of the editor of that Journal, in full:—

"Let none of our readers suppose that we are about to rush, sword in hand, into the conflicts and perils of the political arena, for such a course is most remote from our intentions. We do not believe, however, in keeping silent on such subjects of common interest merely because some morbid sensitive partisan, or some genius of the neutral tint, may possibly misconstrue our remarks. No party bias but a sense of right and of duty prompts us to say a few words on the way in which the murder of Thomas Scott has been disposed of by the Parliament of Ontario.

There are occasions that imperatively demand the united action of all parties to whatever shade of politics they may belong. And we are free to say, that in our judgment an occasion of this kind occurred in the Legislature when Mr. Blake introduced the following resolutions:

1. That the cold-blooded murder for his out-spoken loyalty to the Queen of Thomas Scott, lately a resident of this Province, and an emigrant thence to the North West, has oppressed this house with a feeling of sorrow and indignation, and in the opinion of this House every effort shall be made to bring to trial the perpetrators of this great crime, who, as yet, go unwhipt of justice.

2. That an humble address be presented to his Excellency the Lieutenant Governor, embodying the foregoing resolution, and praying him to take such steps as may be best calculated to further its views.

That the heart of Ontario beats in unison with the sentiments contained in these resolutions, we cannot for a moment doubt. Why, then were they rejected be the representatives of the people? It was alleged that they had been brought forward from political motives, but supposing this to have been so, such motives did not affect the character of the resolutions, or the requirements of the case. It was not a fiction of Mr. Blake's imagination, but a melancholy fact a citizen of Ontario was brutally put to death for his loyalty to the British Flag. Thousands of the people assembled to express their indignation against the perpetrators of this foul crime, and their determination that, if possible, it should not go unavenged; and yet we have the Provincial Secretary moving, and the Provincial Treasurer seconding, and their supporters carrying the following amendment to Mr. Blake's resolution.

"While this house deeply deplores the untimely fate of our fellow-countryman, Thomas Scott, while exercising his right as a British subject, and while deeply regretting that Riel and his co-murderers have as yet escaped condign punishment, and while this House rejoices in the efforts made by the Lieut. Governor of Manitoba in issuing warrants for their arrest, and while we feel it to be our duty, as representatives of the people, individually to lend our aid to bring these murderers to justice; it feels that it would be unwise and inexpedient to interfere with the prerogative which properly belongs to another Government, and to discuss a question over which this House has no control."

It would be difficult for us to conceive of inconsistency and absurdity going further than they do in this amendment. How an humble address presented to his Excellency the Lieutenant Governor, praying him to take such steps as he might deem best to bring the ruthless murderers of Scott to justice, would "interfere with the prerogative which properly belongs to another government," Mr. Cameron did not explain, and is more than anyone can comprehend. And why the House should deem it inexpedient to say or do anything in relation to an occurrence as it so "deeply deplored," is something that does not come within the compass of ordinary understandings. It requires the peculiar faculty of political insight to see into these mysteries. We have made our boast of the protection Great Britain extends to all her loyal and well conducted subjects, but it seems that in this British province there are considerations in comparison with which the life of a brave patriotic subject is less than nothing and vanity. And we cannot refrain from saying, that when the claims of justice and the dictates of patriotism are thus ignored, and the voice of a fellow-citizen's blood crying from the ground is thus drowned amidst the noise of political contention, it is high time for the people to speak out in tones that cannot be mistaken."

Affairs in France.

London, Feb. 21.—A despatch from Paris, dated the 20th, says that the armistice will probably be extended until the 1st of March. The scarcity of fuel is much felt. The administration of the Northern Railway divides with the population the coal arriving daily.

The "Standard" is informed that the death of the Emperor of Germany leads to grave anticipations.

The *Daily News* says that there are 17 vessels in the French port of Dunkirk, all formidably armed.

Berlin, Feb. 21.—The *Nord Deutsche Zeitung* says that Count Bismark does not now allow a personal but a German policy. He will be the most unpopular man in Germany if he does not bring the peace negotiations to an issue which the people after their sacrifices have a right to expect.

New York, Feb. 21.—A London despatch to the *World*, dated to-day, says:

"A despatch from Bordeaux of the 20th states that Count Bismark is willing to resign Metz if Luxembourg is given to Germany. He is pressing M. Thiers' plans are to conclude peace upon Bismark's terms, clear France from Germans, bring back the French army, and give command to Chaugarnier, induce the National Assembly to proclaim the charter of 1830, the supreme law and provide for a *plebiscite* whether the Count De Paris shall be King. The opinion grows that the German terms will be accepted without modification."

All the European States will recognize the new French Government.

M. Louis Joseph Buffett is the new Minister of Finance. He has arrived at Bordeaux and his appointment was announced in the Assembly.

The duke de Broglie has been appointed Ambassador of France at London.

The Crown Prince of Prussia has returned to Versailles from Tours after four days absence.

"The Metz question is settled. The part of Lorraine to be annexed will include Point-a-Mousson.

"Moltke insists on an entry of troops into Paris on the 26th and will probably prevail.

"The period fixed for paying the half of the indemnity taken in bills is about five years.

"Provisions continue to arrive in great quantities. Complaint is made of the heaviness of the German requisition as the price of the armistice. The demand in Carcassonne was 19,400 francs, and in Perpignan a large demand was also made. The Mayors of Comtesse and Montgomery have been taken as hostages. It is stated that M. Rothschild has advanced 600,000 francs to pay the St. Denis indemnity demand. Gen. Vinoy has issued orders for the National Guards to deliver up all company material. There is great trembling at the stoppage of the pay of the National Guards. The greatest privation is said to be because of the dearness and scarcity of fuel."

"Since the 3rd inst., 14,352 oxen, 18,352 sheep, 1,773 cows, 3,768 pigs, 22,000,000 kilogrammes of grain and 5,000,000 kilogrammes of flour and 5,000 biscuits have been received.

"M. Jules Favre came to-day with commissioners to discuss the terms of peace at Versailles.

Foreign Items.

The Bank of France advances 200,000,000 francs to pay the city's war contributions.

Ducrot was not wounded, he refuses to stand as candidate for the National Assembly.

The contributions already exacted by the German commanders are to be deducted from the amount of war indemnity; also value of railroads in Alsace and Loraine.

London, Feb. 8.—Fifty railroads wagons laden with provisions entered Paris last night, bearing the inscription—"London's Gift to Paris."

Favre has written the Lord Mayor of London expressing gratitude of the Government and people of Paris for the gift of food received from London. The letter says the distress in Paris has been very great and still continues, but the city is tranquil.

The appointment of Emanuel Arago as Gambetta's successor has been made permanent.

Ex-Emperor Napoleon has issued a proclamation to the French people in reference to elections.

London, Feb. 10.—The Gambetta ticket has been carried by a heavy majority in Brest and Havre.

The delivery of cannon and small arms of the Army of Paris to the Germans commenced on the 7th inst., and continued throughout the 8th.

The Corporation of the city of London has subscribed two thousand pounds for the relief of the inhabitants of Paris.

London, Feb. 11.—Immediately on the receipt of Gambetta's proclamation of 31st ult., Bismarck sent a message to Favre and and received a satisfactory reply, announcing that measures would be taken to arrest Gambetta if necessary.

The Spanish Dynasty will soon make an official recognition of the Pope.

There was violent shocks of earthquake at Darmstad this morning.

Mr. Disraeli, in the House of Common denounced the hostile attitude of Gen. Grant, other American statesmen, toward the British Government. He characterized the sentiments expressed by Mr. Sumner as unworthy the leader of a great nation.

The latest returns from the French elections give the Orleanists a large majority. The Imperialists are said to be far behind.

The armistice has been prolonged one week, after the 19th.

Bismarck is again reported ill. His condition excites uneasiness.

It is probable that the war claims of the Germans will be modified to three hundred millions of francs.

The Turkish Government has consented to the stipulation made of the Black Sea: But it desires to obtain from the European powers restoration of the right previously enjoyed, of giving or refusing permission to foreign war vessels to enter the Bosphorus or Straits of the Dardanelles.

There has been a violent gale along the coast of the United Kingdom. Six ships are ashore near South Shields, and several lives are known to have been lost. Numerous wrecks are apprehended.

A plague has appeared among the immense droves of cattle intended for the relief of Paris.

The result of elections in 54 departments is 370 Bonapartists and Orleanists, and 40 Republicans.

The returns from the department of Nord shows Monarchical candidates polled 135,000, and Republicans 47,000 votes.

In the budget the estimates for the expense of the English army amount to £15,851,700, an increase of £1,933,700 over last year.

The force of the regular army is to be brought up to 133,200 men, an increase of 19,000.

There are fears that the Bonaparte dynasty will not be restored.

A French transport was wrecked on the coast of France, with 1250 troops on board. All were lost.

Results of the French elections indicate probability that Count de Paris, grandson of Louise Phillipe, may become President or King.

The German army is to march through Paris next Sunday.

London, Feb. 13.—Only ninety-eight lives lost on French transport, *Lecerf*, off Cape La Hague,

"The *Gaulois* states that Luxemburg undertakes to pay Prussia 2,000,000f for its breach of neutrality, and allows the Prussian troops to occupy the Luxemburg Fortresses."

The "Telegraph" has a despatch from Smarlruck which says that all the German wounded capable of rejoining their regiments are being sent to the front. There is a large assemblage of troops at Cologne.

A despatch from Havre says that the city of Alencon having refused to pay a fresh contribution demanded by the Germans, the Mayor and Councillors have been held as hostages.

M. M. Theirs, Favre and Picard arrived at Paris yesterday and were to go to Versailles to-day.

Ontario Finances.

The estimates of expenditure by the government of the Province of Ontario for the year 1871, were presented to the House by the Hon. Mr. Cameron, and it was resolved to go into committee of supply on Tuesday next. The following is a summary statement:

Civil Government	$122,172,21
Legislation	$146,194,68
Colonization Roads	60,000,00
Administration of Justice	196,935,66
Public Works, Capital Acc't	750,311,37
Public Works Miscellaneous	25,300,00
Asylum Maintenance	232,971,32
Reformatory	21,710,00
Agriculture and Arts	75,103,00
Immigration	30,000,00
Hospitals and Charities	40,260,00
Literary and Scientific Institutions	4,350,00
Educations	230,305,00
Unforeseen and Unprovided	20,000,00
Miscellaneous	31,097,46
Municipalities Fund	71,356,15
Land Improvement Fund	290,386 36
Charges on Revenue	134,000,00
Total	$2,602,560,37

It is contemplated to commence the survey of the Canada Pacific Railway next summer says Ottawa *Free Press*. The survey will probably take two seasons, and until it is finished, actual settlers will be allowed to acquire land practically for nothing.

Bordeaux, Feb. 13—In Assembly to-day the Rules of chamber of 1849 were advoted. Garibaldi declines the seat in the Assembly offered him by several departments.

Favre for himself, and in the name of his colleagues at Bordeaux and Paris, resigned the powers confided in them as Government of Natural defence. He stated that Ministers would remain in the office to maintain orders until construction of New Government.

London, Feb 14.—House of Commons, on motion of Mr. Gladstone, unanimously voted dowry of £30,000 to Prince Louise, and an annual allowance of £6,000.

The Banker of Paris are fully provided with means to loan the city 200,000,000 francs for payment of its war contributions.

The French have proposed a prolongation of the armistice.

Not the least serious loss to the French arising from the present war is that of the timber which has been so ruthlessly wasted and which it will take many a long year to restore.

Dominion Parliament.

The Dominion Parliament met on Wednesday last. The following is the Governor General's speech.

Honorable General of the Senate, and Gentlemen of the House of Commons:

I have much satisfaction in meeting you at this usual, and most convenient season of the year, and under the present auspicious circumstance of the country. The hope I was sanguine enough to express at the close of the last session, that no further attempt would be made to disturb our frontier, was doomed to early disappointment. The season had hardly closed when lawless bands assembled within the United States in great numbers, and renewed the menace of invasion. They intended to cross the border at two points, but were promptly met and repelled. So complete and humiliating was the repulse that the invaders lost heart and hope, threw away quantities of arms, and fell back to encumber the villages in their rear with their starving and demoralized masses. Our militia rallied at the first call to arms with praiseworth alacrity, and the spirit which pervaded the country swelled their numbers with volunteers from all quarters. The gallantary displayed, and the success achieved, have been duly recognized by the highest military authority, and honored in gratifying terms of appreciation, by Her Most Gracious Majesty. In maintaining the militia on active duty the Government incurred an outlay to a considerable amount beyound what was provided for by the votes of last session. The account of this entire expenditure for the defence of the country will be laid before you, and I feel confident that you will pass a bill of indemnity to the Government.

My anticipations of success in regard to the Act provided for the Government of Manitoba and the North-west Territories, and in regard to the military expedition which it was necessary to despatch, have been fortunately realized. The troops surmounted the difficulties of the long and toilsome route with great endurance and intelligence. The people of the new Province have had the Constitution accorded to them last year, and assumed all the duties of self government, and every appearance warrants the hope that they are entering steadily upon a course of peace and prosperity.

The Legislature of British Columbia has passed an address to Her Majesty, praying for admission into the union on the terms and condition therein stated. All the papers on this important subject will be submitted, and your earnest attention is invited to them. I hope you will think the terms are so fair as to justify you in passing a similar address, so that the boundaries of Canada may at an early day be extended from the shore of the Atlantic Ocean to the Pacific on the other. Should such an address be adopted it will be necessary for you to take steps to secure the early exploration and survey of a route for an Intercolonial Railway, with a view to its costructions according to the term of union.

The acquisition of the North-west territories, throw upon the Government and Parliament of the Dominion the duty of providing for their early settlement by the encouragement of imigration. This duty can be best discharged by a liberal land policy and by opening up communications through our own Country to Manitoba. The measures proposed for accomplishing these purposes will be submitted for your consideration.

Her Majesty's Government has decided upon referring the fishery question, along with other questions pending between the two countries, to a joint commission, to be named by Her Majesty's Government and the Government of the United States. On that commission Canada will be represented. This mode of dealing with the various matters in controversy will I trust, lead to their satisfactory adjustment. Canada urges no demands beyond those to which she is plainly entitled by treaty and the law of nations. She has pushed no claim to an extreme assertion, and only sought to maintain the rights of her own people and family firmly, but in a friendly and considerate spirit, and with all due respect to foreign powers and international obligations. The thanks of the country are due to the Admiral on the Station, and those under his command, for the valuable and efficient aid which they rendered to our cruisers during the past Season, in maintaining order and protecting the inshore fisheries from encroachment.

The prospect of the adoption of an international currency seems in the present state of Europe to be so remote that I recommend you to consider the property of assimilating the currency of the Dominion without further delay.

The extension to Manitoba of the Militia and other laws of the Dominion, and their adoption to the present circumstances of that young Province, will require your attention.

The decennial census willbe taken on the 3rd day of April next, and it is believed that a more through and accurate system has been adopted than has hitherto obtained. It may be necessary to amend the Act of last session in some particulars.

Among other measures, Bills will be presented to you relating to Parliamentary Elections, Weights and Measures Insurance Companies, Savings Banks, and for the consolidation and amendment of the Inspection Laws.

Gentlemen of the House of Commons:

I have given directions that the Public Accounts shall be laid before you. You will learn with satisfaction that the revenue for the past year was in excess of what was estimated, and that the prospects for the current year are so encouraging that notwithstanding the expensive public improvements which are contemplated, you will probably be able to dimmish the taxation of the country.

The returns for the ensuing year will be submitted to you, and I feel assured that you will be of opinion that the supplies which you will be asked to vote can be granted without inconvenience to the people

Honor able Gentlemen of the Senate and Gentlemen of the House of Commons:

I lay thes various and weighty matters before you, in full confidence that they will engage your mature attention, and I pray that the result of your deliberations may with the Divine blessing prove conducive in all respects to the advancement and happiness of the Dominion.

DIED

CAMPBELL—At the residence of Mr. W. Tennuson, Ashburnham, on the 17th inst., Ann Bowis, relict of the late Samuel Campbell, aged 72 years.

Physicing Horses.

Many persons physic their horses frequently—especially every spring. This is a great error, and one which has caused the loss of many valuable horses as physic as it is usualy given, often produces inflamation of the bowels which generally proves fatal; it also weakens the horse and thus renders him more liable to disease, or less able throw it off—what is required is a medicine which will opperate gently upon the bowels, and act upon the liver and lungs, removing all obstructions therefrom purifying the blood and enabling all the orgds to do their work whith out overtaxing any which is accomplished by the use of "Darley's Condition Powder and Arabian Heave Remedy"—it is always safe and certain. Remember the name, and see that the signature of Hurd & Co. is on each package.—Northrop & Lyman, Newcastle Ont, propietors for Canada. Sold by all medicine dealers.

BRAZILIAN LADIES' BLESSINGS

[Extracts from a letter of a distinguished gentleman in Rio de Janeiro]

Radway's Ready Relief, Renovating Resolvent, and Regulating Pills.

RIO DE JANEIRO March 24, 1866.

DOCTOR RADWAY & CO.:

DEAR FRIENDS:— • • • My wife blesses these preparations, when she thinks that after three nights and days of suffering of violent pains in the stomach, brought on by overdoses of Quinine, by the use of four drops of "Ready Relief" in some water, she was able to sleep tranquil all night, and the next day she was completely re-established. I have also cured a slave from heart disease with "Ready Relief" and "Pills," and have also cured sore throat, rheumatic pains, toothache, headache, &c. With the "Resolvent" I have cured Erysipelas Skin diseases, &c.

It is my full impression that the "Pills" are the best purgative that can be found not alone for the facility with which they can be taken, but also as they do not cause griping or make you feel sick.

I have a son of five years old now, who took the "Ready Relief" when 4 months old, as he suffered from some irregularity in the bladder, preventing him from making urine. The following was the treatment: 20 drops of "Relief" in a cup of water, and divide into portions of a tablespoon, which he took every ten minutes which cured him. He has since had colic, which I treated in the same way, and also rub the stomach with it (pure.)

Major Joaquim Vieira da Silva Pinto, professor, in the Gildas Leopoldina, can prove that after more than ten years suffering from Paralysis, through the medium of your remedies he obtained that which he had been deprived, and thought at the time that he would never be able to get, and that was the use of his legs.

You can fully believe that there are a great many people in this vast empire who truly confess that they owe their life to the use in time of your precious medicines. You can make use of this as you think proper.

I remain, dear friend,
Your obedient, &c.,

Signed SIGNO DE SANTAO LOITE

On Inquiring for these Remedi s ask for Radway's, as the country is flooded with imitations, Sold by Druggists and Country Merchants.

STOP AND SEE!

THE following remarks on Testimonials of most wonderful and extraordinary cures in Canada by the GREAT INDIAN REMEDY. They are stern, undeniable and incontestable facts, sufficient to convince the most skeptical that the Great Medicinal Compound yearned after for ages is now accessible in the

Great Shoshonees Remedy.

For Diseases of the Throat, Lungs, Live-Digestive Organs, Kidneys, &c., as well as Scrofula, the various Skin Diseases, Humors, and all diseases arising from impurities of the blood, we boldly state that the great remedy has NEVER BEEN EQUALLED. Where was there ever such a cure as that in the person of Wilson Storms, of Brighton, Ontario, of Consumption; or that of Peter C. V. Miller, of Ernestown, Ontario, of Consumption; or that of Ambrose Wood, of Consecon, Ontario, of Dyspepsia and Liver Complaint; or that of John Besey, of Fenaone, Ontario, of Rheumatism, who had actually been on crutches for years, in spite of all treatment heretofore, and is now well. Scores of such cases might be mentioned had we space.

☞ Call at the Drug Store and get a Circular of unquestionable certificates on the GREAT SHOSHONEES REMEDY and satisfy yourselves.

Price of Remedy in large vials $1.00.

☞ For sale by all Druggists and Dealers in Medicine. Agents for Peterborough—Messrs. Kempt, Coulter, Ormond & Walsh, Ontario Drug Store, and Dr. Taylor and Dr. Bell.

The Subscriber offers for sale his valuable farm, part of Lot 18, in the 6th concession of Douro, containing 100 acres, more or less. There are 85 acres cleared, well fenced, and in a good state of cultivation, on 50 of which a machine may be used. There is a good log house, with stone cellar walls. There are two barns, sheds and stables, and two good wells. There are 10 acres of Fall Wheat in, and looking well; also a good orchard. The farm is situated about 1 mile from Lakefield and 10 from Peterboro.

Being about to leave Canada for Kansas, the farm will be sold at a bargain.

Apply on the premises to

NICHOLAS STEELE.

IMPORTANT TO KNOW.

One of Dr. Radway's Pills (made from Vegetable Extracts, prepared in vacuo), taken one hour before dinner, will insure a good appetite, promote digestion, and make healthy flesh. Taken in doses of from 4 to 6 every night, will cure indigestion, Costiveness, Liver Complaints, Jaundice, and all diseases of the Stomach, Liver, Bowels, Kidneys, etc.

These Pills are free from drastic, griping and nauseating drugs! They purify the blood cleanse the intestines, and purge from the system all corrupt and acrimonious humor. Ladies in ill health should use them. Aged persons, subject to Costiveness or Paralysis of the bowles, should take two or three every night, for a few weeks; and the weak, infirm and paralyzed bowels will become healthy and vigorous as in the prime of life.

An old gentleman in the city of New York, has suffered with costiveness for 20 years, used injections during that time. One dose of Radway's Pills gave him natural evacuation; six boxes cured him. He now feels more active and enjoys better health than he did 40 years ago. Price 25 cents.

See Dr. Radway's Almanac for 1870.—R.

Wealth is more frequently amassed by saving money than making it. A case in point

CASE 7,631.—James B. Hendrick, New York City, night attack of violent Bilious Colic Doctor called in. Visit, $3. Prescription, $4 Patient still in agony and pulse and strength failing. At this stage the RELIEF administered paroxysms of pains arrested, and cure perfected by the assistance of a few doses of the REGULATING PILLS, which carry off the corrupt and acrid humors that caused the attack. Compare again:

Physician's charge $9; Prescriptions, $7 $16 00
RELIEF and PILLS, (with more than a dozen doses yet on hand)..... 50

Balance in favor of the RELIEF..... $15 50

RADWAY'S READY RELIEF is a household medicine, which no prudent family, that understands its value will ever be without. It instantly arrests pain, and its effects, as a diffusive stimulant, anodyne, nerving in cholera, cholera morbus, bilious cholic spasms, fits, malarious diseases, &c., transcends those of any other preparation known. As an external application for burns, bruises, wounds, scalds, &c., it has no equal. Pass on.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier, alternative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phathisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, Diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is last superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious cholic, cholera infantum, dysentery, &c.

Price only thenty-five cents per bottle.

NORTHROP & LYMAN,
Newcastle, C. W.
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W. Kemp, Wm. Coulter and Ormond & Walsh. in Keene by A. Campbell, Campbell McNeil & Co., C. Bolton, Lindsay, and all Medicine Dealers.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will speedily and certainly arrest the depressing influence of disease upon the nerve and muscles. It restores the appetite and induces a disposition to take on healthy flesh. It causes the formation of living blood, strengthening the action both Heart and, Lungs. It sustains the system under trying circumstances and causes the healthy development of all the organs necessary to our existance.

☞ Did you ever think that what is termed a common cold, when sistematically neglect, often leads to that most fatal and distressing disease—consumption—but when attended to at once is generally easy of cure. If you are troubled with a cold or cough, "Bryan's Pulmonic Wafers" will be found to be most efficacious in moving it. They give immediate relief, and generall a cure when used in time. Sold by all Druggists and country dealers. Price 25 cents per box.

A WANT SUPPLIED.—The public long felt the want of something that could be depended upon for the cure of rheumatism, sprains, bruises, neuralgia; bowel complaints, &c., and we are happy to say that want is now supplied in the shape of the "Canadian Pain Destroyer." It is truly a most wonderful medicine and one that effects on immediate and permanent cure in all cases for which it is recommended. Sold by all Medicine dealers.

A. B. KIDD is Agent for

THE CELEBRATED BRADBURY PIANO

The successful rival of the Steinway, &c. He is also Agent for

W. BELL & CO'S PRIZE MELODEONS,

The Melodeons that carried off the prizes at the Provincial Exhibition. ☞ Both Pianos and Melodeons kept on hand.

PIANOS AND MELODEONS!

THE BRADBURY PIANO,

Which has met with triumphant success, and has successfully competed with the best Piano in the world, and has received the highest testimonials from Gottschalk, Mason, Sanderson, Pattison, Berge, Zundel, Heller, Fradel and others,

IS SOLD IN PETERBOROUGH BY A. B. KIDD.

He also sells the WEBER PIANO, which, to those who wish a cheap instrument, is equal to any of its class.

W. Bell & Co's Melodeons are supplied by A. B. Kidd.

These instruments received First Prizes at the Ontario Provincial Exhibitions for 1868 and 1869; also at the Quebec Provincial Exhibition held in Montreal, September, 1870. At the Ontario Provincial Exhibition held in Toronto, October, 1870. W. BELL & Co. received the First Prize and Diploma for the best Harmonium or Large Cabinet Organ, and the First Prize for the best Melodeon. It is universally acknowledged that in the manufacture of Melodeons W. BELL & Co. excel all other Canadian makers, having taken the First Prize on Melodeons at the last three Provincial Exhibitions. As to Organs or Harmoniums it must be remembered that The Diploma just received by W. Bell & Co. is the only one awarded during the last seven years at any Provincial Exhibition. ☞ All instruments warranted for five years, and satisfaction guaranteed.

PAPER BAGS AND WRAPPING PAPERS

Are supplied by A. B. KIDD at Montreal Prices.

Dealers will find it advantageous to give him their orders, as he has made arrangements with one of the largest firms in the Dominion, which enables him to supply them with Wrapping Paper at Wholesale Prices.

Peterboro, November 16, 1870. 46-tf

The Female Auctioneer.

(From an American Paper.)

Who'll buy a heart? cried Harriet cries;
Harriet the blooming and the fair:—
Whose lovely form and dove-like eyes,
Can banish grief, and soothe despair.

Come bid—my heart is up for sale;
[illegible] no one bids? gone, consider
The refusal, and kind, and frank, and hale,
And a great bargain to the bidder.

"I'll bid," says Grimes—"I will pay
A thousand eagles promptly told;"
"That is not bid, sir—let me say—
A faithful heart's not bought with gold.

"I'll bid with marriage faith, and plight
A heart"—says Frank—" with love o'erflowing
"Aye! *that's a bid that's something like,*
And promptly heart is—going—going."

The greatest of modern composers—
storyteller—
A suitable [illegible] for a drowning man—dies
sinking.
Giving [illegible] a hard name—calling him
a bride.
Giving [illegible] a soft name—calling him
a spoon.
A [illegible] who has set marks on
[illegible] for family use—Bo-con.

Old Joe says the "Light of other days' was a saucer of pork-fat with a rag in it

What is that which is full of holes and yet holds water?—a sponge.

When is fennel like mahogany?—when it is made into dressers.

Encouragement for tobacco chewers:—Rev. xxii, 11 second chew.

Either have mind enough to speak well or judgment enough to keep silent.

Cold nights have put a stop to gate-spark ing if she don't ask you in now, you had better quit.

Perkins says he has eaten so many sausages in his day that he is afraid to look a dog in the face.

Speaking of the theatre of war that must be the only theatre that back seats are desirable.

Manner to take a curious method of travelling long distance under the ice. In their winter excursions to their feeding grounds, which are frequently at a distance from their abodes, they take in breath at starting and remain under the water as long as they can. They raise to the ice and breathe out the air in their lungs, which remains in bubbles against the lower surface of the ice. They wait till this air recovers oxygen from the water and ice and take it in again, and go on till the operation is thus to be repeated.

The Things I Have Seen.

I have seen the most worthless and lazy fellows dress most fashionable.

I have seen the most talented young men tipplers and die drunkards.

I have seen men who boasted much of their wealth, who were not able to pay their tailors.

I have seen men who made much noise about their bravery and daring exploits in [illegible]

I have seen the same man run away from a goose.

I have seen men run in debt, without any probability of being able to make payment.

I have seen a man urging another to become a candidate for office; and

I have seen the same fellow vote against him at election.

I have seen parents urging their children to marry against their inclination; and

And I have seen a lovely young girl marry a rich old bachelor merely for his wealth; and

I have seen the same girl die broken hearted within a year.

I have seen the young and beautiful and the talented, marry a dashing flippant, brainless fop, because he, too was rich and

I have seen them ever drag out a wretched miserable life.

Mark Twain on Chambermaids.

Against all chambermaids, of whatsoever age or nationality, I launch the curse of of Bachelor dom!

Because:

They always put the pillows at the opposite end of the bed from the gas burner so that while you read and smoke before sleeping (as the ancient and honored custom of bachelors), you have to hold your book aloft in an uncomfortable position to keep the light from dazzling your eyes.

If they cannot get the light in an inconvenient position any other way, they move the bed.

If you pull your trunk out six inches from the wall, so that the lid will stay up when you open it, they always shove the trunk back again. They do it on purpose.

They always put your other boots into an inaccessible place. They chiefly enjoy depositing them as far under the bed as the wall will permit. It is because this compels you to get down in an undignified attitude and make wild sweeps for them in the dark with the boot jack, and swear.

They always put the match box some other place. They heave up a new place for it every day, and put a bottle or other perishable glass thing, where the box stood before. This is to cause you to break that glass thing, groping about in the dark, and get yourself into trouble.

They are for ever moving the furniture. When you come in, in the night, you can calculate on finding the bureau where the wardrobe was in the morning. And when you came in at midnight, or thereabout, you will fall over the rocking chair, and you will proceed towards the window and sit down in the slop tub. This will disgust you. They like this.

No matter where you put anything, they won't let it stay there. They will take it and move it the first chance they get.

They always save up all the old scraps of printed rubbish you throw on the floor, and stack them up carefully on the table and then start the fire with your valuable manuscripts.

And they use more hair oil than any six men.

They keep always coming to make your bed before you get up, thus destroying your rest and inflicting agony upon you, but after you get up they don't come anymore till the next day.

A hen killed at Belmont a few days ago was found to have fifteen dollars in gold in her gizzard.

A Bremen silk factory sent a magnificent silk banner to Count Bismarck which is to be placed on the Tuileries.

Miss Alice B. LeGoyet holds the gold medal of the Royal Life Boat Society of England, for having, about four years since under circumstances of peculiar danger, saved two drowning boys at Lyme Regis.

Auld Hither Scotland.

Auld Scotland! How I lo'e the name,
My guid auld faskion'd mither!
It means be, thy kin'ly bairns,
Should rise thee a' thegither,
O! wast I like Sir thing o' thine—
Thy easy thenkit dwalling,
Thy hills frae tassies, tush an' trig,
Thy sonsy, clever callans.

Thy misty hills are dear to me—
Ilk glen and beeky dingle;
The lonely loch, on whilk the lichts
An' dancin' shadows mingle;
The moirian' burnie, purple fringed
Wi' blaxy scented heather,
Whear gowden king cups blink aneath
The brookan's waving feather.

Na' mither, na' we maunna pairt!
E'en tho' they say thou's deain'—
That speenk is gane—they say thy face
We'll seine nae mair be seein.'
But O! I fear the Deiler's gaun,
For 'mang baith auld and young,
There's mony nae that canna read
Their priesit mither tongue.

I like the English tongue fu' weel.
In writin' an' in reading;
But 'twixt the English and Scotch
There's leak-o' truth an' breedin.'
It's England's meteor flag that burns
Abeen our battle plains,
Our victories baith by sea an' lan'
It's England aye that gains.

It's England mak's and signs the peace,
When nations tire o' feebtin';
When Europe's balance gangs agree,
She trims the scales for weehtin.'
An' England lauchs, an' weel she may
The Wallace tower at Stirlin'
Maun tapeless stean, like pillared seat,
Until the maiks are birlin'.

An' mither, something's in the win'
Will gare ye raise yer bristles;
There's some wad plant in a' yer kirks
The big kist fu' o' Whistles.
Look up fra oot yer bi sidy graves,
Ye martyr'd Covenanters,
Wha raised the psalm in cave and glen,
An' banned baith pipe and chanters.

It's no the kittlin' o' the ear,
The thrillin' o' the sense,
The tearfu' e'e and upturned look,
In rapture maist late nee;
The holy music Scotian' craves,
Are strains devotion brings
Warm frae the heart, whan God's sin' han'
Sw eeps over the dirlin strings.

A Practical Boy.

Pickernal, a successful dry goods merchant of Boston, was waited upon at his hotel by a gentleman farmer who was desirious of getting a boy for whom he was guardian "a place" in Boston. Of course, he was an uncommonly smart boy, quick of figures, strong of intuition, and one every way fit, as he should judge, to be a merchant. Pickernal thought over it, and said he would try and make a place for him,—In due time the boy arrived at Pickernal's store, his broad face ruddy with health and soapy from morning wash, his hair sleeked, his clothes new and uncomfortable, and a stiff dickey cutting his ears. "Ha, you are the boy, are you?" "I 'spose so," said the youngster. "Well, come in here, then, I am very busy, but I will examine you in a few practical questions." The boy came in, and sitting down on the desk, swung his heels underneath as though he felt entirely at home, awaiting the questions. "Well," said Pickernal, "suppose a lady should come in here to buy a dress of fifteen and half yards of calico for eleven and a half cents a yard, what would it come to?" The boy looked at the questioner, at the ceiling and the floor, in a state of great bewilderment. "How much kaliker?" he asked. "Fifteen and a half yards." What price?" "Eleven and a half cents." "Well," said he, "I'm darned if I believe any woman wanted so much cloth for a dress an that." That was throwing up the sponge, and Pickernal put another question. "How much would five and a half pounds of tea come to at seventy five cents and three quarters per pound?" He received this pretty much the same as the other, and after waiting a minute he asked "Was it green or black tea." Without answering, Pickernal put another question. "Suppose I should send you out with a two dollar bill, and you should buy fourteen and a half pounds of beef at seven and a half cents a pound, how much money would you have left?" The boy looked at him a moment, and then indulged in a low whistle. "You don't suppose?" said he, "you could get beef anywhere at seven and a half cents a pound, do you?" Pickernal gave up at this. He asked him no more questions, but sent him back the next day with a letter, stating that he didn't think he would answer.

A Legion of Doctors.

Seventy-four thousand doctors! Think of it. All this number in our country, according to the present census, unless the newspapers informs us falsely. In 1860, there were fifty five thousand—an increase of 19,000 in ten years, or nearly two thousand a year!

Ought not these figures to "give us pause?" Reflect a moment what an army they would make, even in this day of big armies; or what a city they would form, larger than any in any of the oldest states. Or, look at it from another point of view. What a mint of money it takes to support this army! Probably we are within the mark when we calculate that the average income of the 74,000 from practice is a thousand dollars a year each. This makes $74,000,000 a year, which the sick pay for medical advice. For their medicines it is safe to say they pay the old $26,000,000, which remains to make up $100,000,000 a year, as what sickness costs the American people. And in this calculation we have left altogether out of account the tons and hogsheads of quack medicines which this misguided people pour down their throats. We can safely estimate that at $25,000,000 a year more.

Let the people study these figures a while and then reflect that probably one half, or certainly a large fraction of this expense, is incurred by a deliberate intraction of the laws of health: that if they dippled less, over-worked less, were less given to dissipation and wantonness, ate slower, exercised more judiciously, were less "fast," and less self-indulgent, they would save some thirty or forty millions a year.

Making money is in America the "chief end of man;" and plenty of advisers are ready with their wise saws to show how it can be accomplished. We are one of them, and offer a saw quite as true and less trite than any of them, and it is this—keep healthy. Living in the midst of a commercial mart, and in the thick of the desperate conflict for wealth, we have seen many a hero in the fight lose all for want of health; lose it, perhaps, just at the moment when a month or two more of work would have made a fortune.

It is said that when Alexander VI. died, his son, the famous Cæsar Borgia, had every provision made to seize the supreme power and make himself master of Italy, that he had every possible contingency guarded, but one, and that was his own physical inability to take advantage of the crisis. But sickened to threatening illness, by the same poisoned wine which killed his father, he lost his chance and died defeated, an exile and a captive. It were well if many an American business man took warning by the moral this fragment of history conveys, and would remember that the labor of a life may be lost by the preventable illness of a week.—*Medical and Surgical Reporter.*

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination nuti feeured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

they were painfully afflicting, have been radically

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be sinkingly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Pits, Epilepsy, Neuralgia*, and the various *Uterine* affections of the muscular and nervous system.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing those obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa or Whites, Uterine Ulcerations*, and *Female Diseases* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Blotches and Sores*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion or Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great resorer for the strength and vigor of the system. Those who are *Lymphid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions or Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

RADWAY'S READY RELIEF

Cures the Worst Pains

IN FROM ONE TO TWENTY MINUTES.

NOT ONE HOUR

After reading this advertisement, need any one Suffer with Pain.

RADWAY'S READY RELIEF

IS A CURE FOR EVERY PAIN.

It was the first, and is

The Only Pain Remedy

That instantly stops the most excruciating pains. ALLAYS INFLAMMATIONS AND CURES CONGESTIONS,

Whether of the Lungs, Stomach, Bowels, or other glands and organs, by one application.

In from One to Twenty Minutes.

No matter how violent or excruciating the pain, the RHEUMATIC Bed-ridden, Infirm, Crippled, Nervous, Neuralgic, or prostrated with disease may suffer,

RADWAY'S READY RELIEF

will, in from ONE to TWENTY MINUTES, *afford ease and comfort*; and this medicine, so rapid in stopping pain, can be purchased for 25 cents per bottle at almost every druggist's and country merchant's store on this continent, and within one hour's distance of almost every habitation in this country.

RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.

If those who are now suffering Pain—no matter what the cause may be—or by what name it is called—if external apply the Radways's Ready Relief to the part of the body where the pain is present. If internal,

20 Drops Diluted in Water,

As a drink; whether Cramps, Spasms, Inflammation, Congestion, Asiatic Cholera, Chills and Fever, the most violent, excruciating, and tortering pains will be stopped

In from One to Twenty Minutes.

PAINFUL ATTACKS WHERE

RADWAY'S READY RELIEF

WILL AFFORD INSTANT EASE—

Inflammation of the Kidneys, Inflammation of the Bladder, Inflammation of the Bowels, Congestion of the Lungs, Sore Throat, Difficult Breathing, Palpitation of the Heart, Hysterics, Croup, Diphtheria, Catarrh, Influenza, Headache, Toothache, Neuralgia, Rheumatism, Cold Chills, Ague Chills.

The application of the *READY RELIEF* to the part or parts where the pain or difficulty exists, will afford ease and comfort

20 Drops in a half tumbler of water will, in a few moments, cure

Cramps, Spasms, Sour Stomach, Heartburn, Sick Headache, Diarrhœa, Dysentery, Colic Wind in the Bowels, and all Internal Pains.

Travellers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

IT IS BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT

FEVER AND AGUE.

Fever and Ague Cured.
Fever and Agie Cured.
Fever and Ague Cured.
Bilious Fever Cured.
Malp Fever Cured.
Yellow Fever Cured.
And Prevented.
And Prevented.

FEVER & AGUE CURED

FOR FIFTY CENTS.

There is not a remedial agent in this world that will cure FEVER & AGUE, and all other Malarious, Bilious, Scarlet, Typhoid, Yellow, and other Fevers (aided by Radway's Pills), so quick as Radway's Ready Relief.

RADWAY'S READY RELIEF

has proved infallible, and will cure these terrible fevers quicker, and without entailing the frightful penalties of Engorged Liver, Fat Spleen, Disordered Kidneys, and Saffron-Colored Skin, that are sure to follow the use of the "Chill Mixtures," "Ague Cures" and other agents of the heroic Quinine, Mercurial, Arsenic, and other treatments where the medicines used occasionally, and become disseated in the system.

HEALTH! BEAUTY!!

Strong, Pure and Rich Blood — Increase of Flesh and Weight — Clear Skin and Beautiful Complexion, Secured to ALL

RADWAY'S
SARSAPARILLIAN RESOLVENT

has made the most astonishing cures. So quick, so rapid are the changes the body on lerges under the influence of this truly WONDERFUL MEDICINE, that

Every Day an Increase in Flesh and Weight is Seen and Felt.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal, in its many forms, Glandular disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands, and other parts of the system, Sore Eyes, Stumous Discharges from the Ears, Eruptive Diseases of the Eyes, Nose, Mouth, and the worst forms of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all Weakening and Painful Discharges, Night Sweats, Loss of Sperm and all waste of the Reproductive are within the curative range of Radway's Sarsaparillian Resolvent, and a few days use will prove to any person using it for either of these forms of disease, its potent power to cure them.

Not only does the Sarsaparillian Resolvent excel all known remedial agents, in the cure of Chronic, Scrofulous, Constitutional Skin and Syphilitic diseases, but it is the only positive remedy for Kidney, Bladder, Urinary, and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's disease, Albuminis, and in all cases where there are Brick dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg or threads like white silk, or there is a morbid dark, bilious appearance, and white bone dust deposits, and where there is a pricking, burning sensation when passing water, and pain in the Small of the Back, and along the Loins. In all these conditions Radway's Sarsaparillian Resolvent, aided by the application of Radway's Ready Relief to the Spine and Small of the Back, and the Bowels regulated with one or two of Radway's Regulating Pills per day, will soon make a complete cure, in a few days, the patient will be enabled to void and discharge his water naturally without pain, and the Urine will be restored to its natural clear, and amber or sherry colors.

THE WASTES OF THE BODY

are supplied with new, healthy and vigorous blood, that invigorates sound structure. Hence all suffering from WEAKENING DISCHARGES either MALE or FEMALE, of the Womb, Uterus, or other organs, whether Leucorrhœa, Spermatorrhœa, or Empire discharges of every kind, or from violence of "Self-abuse," from the Genital Glands, or Venereal discharges, or Ulcers, or Sores, through the reparative process of Radway's Sarsaparillian are arrested, and the ruptured organs healed

THE TRUE THEORY OF CURE.

Radway's Sarsaparillian Resolvent supplies the system, through the blood, urine, sweat, and structure-making constituents, with Tissue-making, Flesh-making, Heat or Vital, and Fat-making elements. All of its constituents are *nourishing, purifying, and strengthening. It Repairs, Heals, Restores, and drives out of the body* the products of Decay and Corruption. CONSUMPTION, WHITE SWELLING, DROPSY, SYPHILIS, CANCERS, TUMORS, &c., are all of a scrofulous diathesis, and as such are within the curative range of the Sarsaparillian Resolvent!

1 That Scrofula, by whatever name designated, is the result of deposits from the blood, induced or caused by Chronic inflammation. That those opposite take place when the blood is *poor, weak, watery*, and incapable of holding in solution its proper constituents, or from the presence of some virus or poison in the blood, as Mercury, Calomel, Corrosive Sublimate, which is the Corrosive Chloride of Mercury, or other agents given in medicines and which enter largely in the common advertised Sarsaparillas, NOT ASSIMILATED OR CHANGED FROM THEIR NATURAL CONDITION.

2. That unless the repairs or nutriments are greater than the wastes, that decomposition and decay will supervene, and the powers of life become exhausted.

3. That the dying body cannot be sustained on any treatment of medication that exhausts the system, or fails to nourish the blood, the only medium through which the *vital* forces are preserved, and on which the growth of the body depends.

4 That Radway's Sarsaparillian Resolvent supplies a want never before possessed or known to exist in medicine; that this new moral principle in Chemical science, which has been brought to such a perfect system of cure, is exhibited as follows:

1. Its great power in assimilating the food in its first stage of distillation by the process of digestion, as chyme and chyle with the nourishing elements of blood, separating from these liquids refuse and inert qualities before they are taken up by the lacteals and are formed into blood. Here we see that by its wonderful power it charges the system with the very essence or principle that forms the vital powers of the body, and its chemical action on the blood in its primitive and complete condition separates every atom of refuse material or element, out of which the germs of disease is formed.

TEACHER WANTED.

A Male Teacher, holding a Second Class Certificate, for School Section No. 3, Dysart known as the Haliburton School, to whom liberal wages will be given. School to commence immediately. Applications to be made, or addressed, to the undersigned, in Haliburton.

MRS. C. GRAHAM'S,

On Simcoe street, opposite Mr. Stevenson's.

November 2, 1870. 45

ONE HUNDRED DOLLARS A WORD.

For every word in the following certificate found untrue, after writing to the parties named: and to the U. S. Consul, at Rio Janerlo, the sum of one hundred dollars will be paid.

Rio de Janeiro, Feb. 28th, 1866.

Messrs. Raymundo C. Leite & Bro:

Gentlemen:—While a son of my friend Mr. Francisco de Mattos Pimenta [a large proprietor in the Cidad de Campos] was staying at my house he was attacked with intermittent fever. Immediately I sent for the very clever Dr. Tonoco, who is thought a good deal of in Campos, but the fever instead of diminishing, turned, continued, and typhoid, the boy (14 years old) could not speak, would not take the broths, and it required a great deal of coaxing to make him swallow the medicines. Dr. Tonoco, declared that there was not the slightest hopes of saving the boy's life; that it would be advisable to write to his father and inform him of the state of his son's health. At that moment I thought of the well spoken Dr, Radway & Co's medicaments, and applied them in the following manner: One teaspoon of Relief in a tumbler of water, dividing it three doses a day; frictions with the relief pure on the chest, back and wrists; three of Radway's Pills every day, and well covered so that he might perspire. Second day, half an hour after meals, one desert-spoon of Resolvent and water. In the fourth day he was able to get up from bed to the astonishment of every one who witnessed the miracle of Dr. Radway & Co's. medicaments.

I remain, gentlemen, your very obedient servant

Joaquim Pinto Filcao, Merchant.

Dr. Raday's Remedies are sold by Druggists and Country Merchants. See Dr. Radway's Almanac for 1870.

HUMBUG EXPOSED.

THE Subscriber begs to inform his customers and the public generally, particularly those intending to buy Furs, NOT TO RETAIN their orders, as there never was a better chance to select Furs than at my store. The stock consists of my own manufacture, and of nothing but the real article. I have none, nor ever had any of the so called German Mink, French Seal, Sea Otter, British Sable, and numerous other high sounding, fictitious names, by which trashy imported articles are disposed of at fabulous prices. Is it not also true that Russian and Western Mink, being colored, is disposed of as Canada Mink? Goods made up for wholesale trade are of inferior quality.

Whether my own manufacture compares favorably with city manufactures, the following will show for itself. It was my own workmanship which secured to Mr. Melver, of Montreal, the First Prize for a set of Ladies' Furs, at the exhibition in 1858, held in the Grand Trunk Sheds at Montreal, against the following competitors:—Messrs Greene & Sons, Brabadi, Henderson, Brown, and several others, Mr. F. W. Lassack, of New York, being one of the Judges for Furs. The same Lady's set was sold to a Baltimore lady for the handsome sum of nearly $400. I believe myself capable of doing now, as I did then.

An Examination of my Stock is solicited.

The Highest Price Paid for RAW FURS.

W. LECH.

Peterboro, October 19, 1870. 42-17in

Hamilton, Ontario

MANUFACTURERS OF THE CELEBRATED

LOCKMAN SEWING MACHINE,

Take pleasure in announcing that the popularity of the Sewing Machine manufactured by them is still on the increase. They are now turning them out at the rate of 600 per month and yet have been compelled within the last two weeks to increase their facilities to a capacity of one thousand per month.

The Lockman Machine, from its capacity to sew the heaviest fabrics with linen thread, as well as the finest cambrics with No. 180 Cotton, is pre-eminently the Farmer's Favorite Family Friend.

It is so exceedingly simple in its parts, and so strongly and durably made, that it does not require a mechanical genius for its management.

The manufacturers challenge the world to produce its equal, and yet its price is from Forty to Fifty per cent. Lower than that of any other first-class Shuttle Lock-stitch Sewing Machine

EVERY MACHINE IS WARRANTED.

BUSINESS EDUCATION
BRITISH AMERICAN BUSINESS COLLEGE and Telegraphic Institute The only representative in Ontario of the Bryant & Stratton International Chain of Colleges.
The Theory Department is thoroughly adapted to those who wish to lay the foundation of a sound business education.
The Practical Department is a miniature business world, where each Student performs all the routine duties of office work, such as buying, selling, shipping, commission, and drawing notes, drafts and checks. A regular Bank of Issue is in connection with this department with beautifully engraved bank notes, which is given to the Students, will receive a bottle, containing over 50 pills, by return mail.
Iron ore, taken from the back hills near the highest level of the Union Pacific Railway, has been smelted at Omaha and found of excellent quality, yielding 80 per cent. of superior metal Three hills of the ore lie near the railroad.

Select Poetry.

The following spirited song has been called forth by the downfall of the French nation. It is from the pen of Robert Buchanan:—

England, Awake!

THE MOTHER OF NATIONS IS DEAD.

Spirit of England, art thou sleeping?
Soul of the Ocean, art thou fled?
Behold! thy sister is wounded and weeping:
The waves are leaping; the storm is creeping
Hither to break on thy slumbering head.
England, awake! or the tomb cover thee!
Awake, awake! for the shroud is over thee!
England, awake, if thou be not dead!
The seas are crying, the clouds are flying.
Fair France is dying—her blood flows red,
Europe in thunder is rent asunder,
But the mother of nations is lying dead!

Weep!—and pray that our tears may wake her!
Pray!—the prayers have been vain of old.
Scream, tho' the thunder is weak to speak her;
In the name of the Maker, awake her, awake her!
The storm hath come, let the bells be tolled.
Mother, awake! they are waiting aloud for thee!
Awake! awake! they are bringing the shroud for thee;
They will bury thee quick, for thy pulse is cold!
O God! to be sleeping, with thy children weeping,
And the lightning leaping round farm and fold,
Dark rolls the motion of heaven and ocean—
Why is the mother of nations cold?

Hush! for I have a charm to move her;
I will name her glories in times long fled
Now, that the doom is so dark above her,
Come all that love her, and over over
Let the mighty sum of her deeds be said.
England! awake! we wail wet-eyed for thee!
By the sons that have dreamed, the sons that have died for thee!
She hears; she remembers, she is not dead!
O hearts! cease aching, the dawn is breaking;
England is waking—she lifts her head!
Her lips shall thunder; the world shall wonder
The mother of nation is not dead.

The Pledge.

BY LIEUTENANT MATTAY.

The first time I met Harry Bruce was at Liverpool some ten years since. He had just got in "from the Straits," with a cargo of fruit, and had beat every skipper of the fleet that had come from Smyrna down the Mediterranean with him. Though he was master of as fine a brig as carried the English flag, yet Harry Bruce was known all the world over wherever he went, as the supercargo. We met at Hammond's Coffee House, where both of us were stopping for a few days on business, prior to going up to London.

It was about 11 o'clock P. M., and a party of his friends and my own happened to join each other in wine and to renew some long ere ten-remembrances over a convivial cup. It rained violently without, and this kept us in doors, we were making "a night of it." Harry smoked, sang, and joked with the merriest of the party, but I observed that his wine remained untouched, and that in place of the flushed countenance and half vacant eye that nearly all the rest of the party evinced, his cheek was fair, and his calm blue eye as bright and piercing as ever.

"Harry," said I "you don't drink—what's the matter?"

"Never mind the drink; I'm with you all in heart," said he.

"Belong to the temperance society, eh?" suggested another.

"No! I; but don't mind me, my friends, I'll give you a song.

"Give us the reason why you don't drink—that's what we want," said one of the party, half seas over.

"Well, I'll do that if you insist," replied Henry.

"Here's to Henry Bruce's *reason why*," said the inquisitive gentleman, filling his glass and challenging the company.

"A bumper to the supercargo," said several voices, familiarly.

Harry tossed his feet over a neighboring chair, blew out a long whiff from his pipe and began.

"You must know, boys, that man and boy I've been to sea for twenty-five years (Harry was about thirty five), first as cabin boy afterwards as foremast hand, and having a taste for such things, and having got a smattering of such languages as are used at many of the foreign ports, and a bit of schooling now and then on shore, I got in at last by some good luck, as supercargo of a fine East Indiaman, with a berth in the cabin, and a place in the captain's mess. It was a proud day for Harry Bruce, when he received that promotion, and he resolved to deserve it."

"We made that voyage to the Chinese Sea and home again, to such a good purpose that the owners gave me a handsome watch and chain, besides my pay, and told me to hold myself in readiness to go again in a few weeks, and in a few weeks once more we were off, touching at the Cape of Good Hope, and taking from there our departure for the "long stretch," as the sailors of India going ships call it. Our captain was a jolly old cock, who had spent his life on the water and with a frame of iron and a constitution of the same material, he could drink all day and still be sober. It probably seemed odd enough to him under the circumstances that I could not do the same and to his well-meant sayings, I responded by drinking pretty freely, one day, until I was conscious that my own brain was nearly overcome. After dinner I left the cabin in this condition, and walked upon deck. A feeling of false pride had led me to keep my history to myself, and no person on board knew but that I had always acted in the capacity I then did. The spirits I had drank had fired my brain, and walking forward among the foremast hands, I offered to bet the best seaman on board that I would go to the maintopmast head quicker than he could reach that point on the foremast; of course, leaving the advantage of a less distance in height in his favor. They laughed at the idea of a landsman as they thought me attempting such a feat, but after adding my offer of a bottle of rum, one of them, a sprightly foretopman, took me up and we started.

I heard the words of surprise that burst from the lips of the seamen as

It was very calm weather, and we were in the tropics, but it was a treacherous stillness that prevaded the atmosphere. Every stitch of canvass the ship could spread was unfurled, and her immense studding-sails stretched out larboard and starboard, like the outspread wings of a sea-bird. Suddenly I heard a quick, peremptory order from the quarter deck: 'In studding-sails!' Scarcely had the order been issued when one of those unaccountable currents of air struck the ship, and she careened far to leeward under the load of canvass on her.

One sober thought came over me. I realized the peril of my situation. I could not, had I been sober, have regained my footing in the shrouds below, with the motion that the ship had now acquired, and in a moment after I was precipitated from the immense height into the raging sea below: for the waves had sprung up with fearful violence in the track of the tornado that had swept across our path.

Down, down I went. Oh, how my brain reeled and pained me in that fearful descent said Harry, even now shuddering at the recollection, as he told his story. It seemed as if the downward motion would never cease, but that I should descend until life and sense were gone! At last a repulse seemed to check me in the increased density of the water, and I gradually arose once more to the surface of the sea. My drunkenness was gone. I was never more sober in my life.

The first sound that saluted my ears was the orders from the captain leaving the ship too, but they grew fainter and fainter every moment, and it seemed to me no boat could live in that sea for an instant, and yet soon after, when I rose on the crest a wave I thought I saw a quarter boat living. Could it be? could I float until they reached me? would not they too be swamped? These queries passed quickly through my mind, and then for a moment I paused to consider what had brought me to this fearful situation. Rum, rum! said I disgusted with myself.

I was a good swimmer, but what avail was that in such a sea? I grew fainter and fainter, weaker and weaker every moment until I was satisfied that my last moment had arrived. There was no sign of the boat, no cheering hope to sustain me. At that moment a thought occurred to appeal to heaven for help. O, God, said I, have pity on me, and save me, and here in this awful situation, I pledged myself never again to taste spirit in any form.

To my excited imagination and fears, the words seemed to act like charm upon the storm: the clouds parted, and the warm sun peaped out, every swell of the sea grew gentler and gentler, the boat was within a cable's length of me, as I spoke the last word, and I was taken in over the side, helpless as a child. That was nearly twenty years ago, since then I have kept the pledge I made to my maker, faithfully, and I have prospered. Now, gentlemen, do you urge me drink?"

"No, no, no!" cried they all, and I soon saw the oldest among them, to whom spirit had become a second nature, put away their glasses, and nothing more was drank that night.

A Youthful Robber Reclaimed.

(From Arthur's Home Gazette.)

Many a reader, whose eye may rest upon these lines, and who first saw the "sweet light" in Tennessee or Kentucky, will remember the Rev. John Craig. This gentleman was of the Methodist persuasion, of the original Asbury School, and he, like most others of that denomination at the time to which we allude, was noted alike for his plainness of dress and a sincere and open reproof of sin in what form soever it made its appearance, and under any and all circumstances.

Mr. Craig was one of the first preachers to visit the section called Middle Tennessee, now so popular and powerful, but then, (in 1801,) a mere wilderness. He was an itinerant preacher. His circuit extended from Powell's Valley, east of the mountains to the extreme Western settlement at on the *Cumberland and Duck rivers.* The settlements of the white man were few and far between; no public roads had been established—those distant neighborhoods were connected only by faint traces, which were but seldom travelled.

Mr. C. was exposed to many hardships.—He lay down on hard beds, slept in open cabins, and shared many a scanty repast. But he was a man of energy, and his zeal never lagged nor grew weary. He felt the importance of his mission, and urged on by his zeal in his Master's cause, and the good of souls, he waded snows and floods, braved the fury of the winds, surmounted all difficulties, and carried the glad tidings of salvation to the new settlers.

The writer was born in Middle Tennessee and though a mere child when he last saw Mr. Craig, his image is as fresh in his mind as the events of yesterday.

In 1830, Rev. Mr. C. came, late one evening, to my father's, and passed the night in our house. During the evening after family prayers had been offered up by him, before retiring to bed he gave my father, in my presence, a narrative, which was in substance as the following:

Many years before, Mr. Craig was passing from East Tennessee to the Duck river country. His way led him along a dim path through a mountain pass amid craggy rocks, near awful precipices and frightful basons. Suddenly a young man sprang from behind a high rock, and with a heavy rifle presented at Mr. Craig, demanded his money.

Mr. C. regarded the robber with a look of discrimination peculiar to himself, as he reined up his horse and said,

"Young man you have never robbed before. What brought you to this?"

The young man again demanded his money, threatening instant death if the other did not comply.

Mr. Craig answered. "This is your first attempt. You have been better raised!—Your mother——"

Instantly the young man dashed down his gun and burst into tears, and swore that he had indeed been taught better things. And he cried most bitterly.

Mr. Craig tied his horse to a limb, alighted and invited the trembling youth to be seated near him on a flat rock. The young man instantly complied, when Mr. Craig, in a mild and engaging manner, asked him how he had happened to become a robber.

The other told him he had been raised in Virginia—his parents were in easy circumstances of life, and members of the Presbyterian Church—that they had educated him religiously, and lavished on him all the affections of parental love. About eighteen months since, he had married against their will, and with his young and lovely wife, he had made his way into this new and unsettled country. His parents had given him no assistance, and he

St. Denis.

THE SEPULCHRE OF THE FRENCH MONARCHS.

It is to be regretted that at nearly all the spots where the great contending armies in Europe have met, the most noble churches of France are built. The cathedrals of Strasburg, Metz and Rheims are known to every tourist, and a mural, almost venerated, wherever men have hearts to love beauty of form consecrated to the spirit of religion. And St. Denis, adds the Louisville *Courier-Journal*, is no exception to the list. The beautiful facade, the portals emblematic of the coronation of the Virgin and the Passion, the rose-window, imaging the baptism of Clovis, and the six hundred Statues of the Cathedral at Rheims are hopelessly mutilated, but the fine old Bothic church of St. Marien, at Metz, with its towers, its arabesques and paintings of the Lorraine school, are undoubtedly like the spires, the clock and the high altar of Strasbourg—in ruins. Its delicate-ness saved Rheims; but the fortifications which have necessitated the terrible destruction and loss of life at Metz and Strasbourg, will, we are afraid, be equally fatal to the Abbey at St. Denis. While the bells here in hundreds of churches are summoning worshipper to prayer and prayer, another peal may be heard in one of the most ancient tones of France—the peal of the cannon. With the exception of the brief period of insanity when, at the commencement of the great Revolution, the Parisians installed the Goddess of Reason on the altars of Jehovah, until Robespierre, with a strange mixture of impiety and compunction, declared that the new republic recognized God, the tower of the Abbey of St. Dennis had for twelve hundred and thirty-two years been a memorial and a sanctuary of worship.

But independent of its beauty and sanctity, the old Abbey is venerable from historic associations. Since the days of Dagobert it has been the burial-place of the monarchs of France, and despite the lapse of time and the assaults of the revolution, its aisles and transept and crypt teem with monuments of the past. Napoleon recognized Bourbons, the Orleanists and the late empire repaired it, and again the long range of royal tombs vacant of their dust scattered by a decree of the Convention in 1793, decorate the upper church. There were terrible weeks in 1793. In the course of three days fifty-one tombs were rifled, and the ashes of queens and kings and marshals torn up in every stage of decay, and after subjection to every species of indignity, thrown in a heap into two trenches hastily dug without the walls of the church. A Soldier with his sabre cut the head from the lips of Henry of Navarre, and the body of Turenne, so little injured by the time that the likeness was recognized, was placed in a glass case and exhibited as a show to gratify idle curiosity.

For twelve years after this sacrilege the Abbey Church of St. Denis remained roofless.

"By ruin was its shrine profaned,
By smoke each holy image stained."

But Napoleon refitted the desecrated sepulchral vaults of the Bourbons as a mausoleum for the new regime. To the vaults below the high altar have again been carried the burnt remains of Louis XVI. and Marie Antoinette, the coffins of Louis XVIII. and others of his family. But worthier than these, greater than most in the long roll of French kings, here rest, in a rarely visited corner, all that is mortal of the last Conde, the father of the Duc d'Enghien, who died at St. Leu.

Between 1806 and 1847 more than $1,000,000 were expended in the restoration of St. Denis, and now in all probability the grand old church will again be destroyed. The column erected to the memory of Henry III. assassinated in 1580; the monument to Francis II., husband of the beautiful Queen of Scots, surrounded at its base by weeping angels, like Prometheus by scarpoughs on the rock of Caucasus, may be destroyed, and the effigy of Dagueschin in the transept be as powerless to protect as the renown of Turenne is with the tower. But if the towers of the abbey be leveled to the dust and the Prussians march where Paris is since Lutetia was, the name of St. Denis will never fade from the memory of man. It was at St. Denis, in the time of Charles VII., that the oriflamme was raised beneath whose conquering folds the Maid of Domremi led the heaven hosts of France to victory from Orleans to Paris. When the Parthenon was to Athens, the Grotto Egeria to Rome and Naxos, the cave where Mahomet concealed himself when the religion of the Koran was confined to his uncle Ali, his wife, and a few determined followers—what the ark was to David, the holy of the holiest to Israel—that is St. Denis is to France.

Historically speaking, Paris itself is but an outgrowth, a complement of the town which Dagomert built. All over France in the wilds of Brittany, in the plains of Normandy, in the fertile levels of Campagne wherever the real thought and strength of the people hold sway—St. Denis is like the burial-place of Mohammed in Mecca, the high place and altar of Gaul. The town is protected by a fort upon the south east, but is scarcely capable of a prolonged defence. Its 26,542 inhabitants must suffer the horrors of a siege or yield to the first summons of the advancing army. The memorials of the past are not easily obliterated, but as the chivalry of the middle ages became more nearly crushed with the materialistic spirit of the nineteenth century, so the monuments of the past grow in grandure, and exert a more powerful influence upon the destinies of mankind.

Three Years Labor on The Bible.

The following calculation of the number of books, words, letters, &c., contained in the Old and New Testaments, are said to have cost the calculator three years labor. They are, therefore, supposed to be worth reading, and perhaps preserving:—

OLD TESTAMENT.

Number of Books 39
Number of Chapters 929
Number of Verses 23,214
Number of Words 592,439
Number of Letters 2,728,100
The middle Book is Proverbs.
The middle Chapter is Job XXIX.
The middle verse would be II Chronicles XX. 17, if there were a verse more; and verse 18 if there were a verse less.
The word *and* occurs 45,543 times.
The word *Jehovah* occurs 6,855 times.
The shortest verse is Chronicles, 1, 25.
The 21st verse of the 7th chapter of Ezra contains all the letters of the alphabet.
The 10th of the II Kings and the 17th chapter of Isaiah are alike.

NEW TESTAMENT.

Number of Books 27
Number of Chapters 260
Number of Verses 7,959
Number of Words 181,253
Number of Letters 829,380
The middle Book is II Thessalonians.
The middle Chapter is Romans XIII. if there were a chapter less, and XIV if there were a chapter more.
The middle Verse is Acts XVII. 17.
The shortest verse is John XI. 35.

OLD AND NEW TESTAMENTS:

Number of Books 66
Number of Chapters 1,189
Number of Verses 31,173
Number of Words 773,687
Number of Letters 3,557,480
The middle chapter and least in the Bible is Psalms CVII.
The middle verse is Psalms CVIII, 8.

MOSES'S WIFE.—"Moses' wife," says an English paper, "was a ballet girl, named Betsy Lyke; but not a word is said of her in Lord John Russell's Life of the Poet. This event must have been a terrible blow to the Poet's whole family, and especially to his mother, who expected he would have married a countess is her own right, at the very least, with an ample fortune. Indeed, he did not summons up courage to mention *the event to her for the months. She was,* however, a most excellent and devoted wife. We scarcely know that she had any relations of her own, for they are not once mentioned; but all her thoughts, desires and affections were given up to her husband and his family."

CURE SORE THROAT.—Take the whites of two eggs and beat them with two spoons of white sugar; grate in a little nutmeg, and then add a pint of lukewarm water. Stir well and drink often. Repeat the prescription, if it is necessary, and it will cure the most obstinate case of hoarseness in a short time.

A Kentucky girl, who married a fellow of mean reputation, was taken to task for it by her uncle. "I hope, Annie, you have not married for money," said he. "No, sir," was the reply, "I married for love."

The Secret.

"I notice," said Franklin, a mechanic among a number of others, at work on a house erecting but a little way from my office, who always appeared to be in a merry humor, who had a kind word and cheerful smile for every one he met. Let the day be ever so cold, gloomy and sunless, a happy smile danced like a sunbeam on his happy countenance. Meeting him one morning, I asked him to tell me the secret of his constant happy flow of spirits.

"No secret, Doctor," he replied. "I have got one of the best wives, and when I go to work, she has always a kind word of encouragement for me; and when I go home she meets me with a smile and a kiss, and then tea is sure to be ready, and she has done so many little things through the day to please me that I *cannot find it in my* heart to speak an unkind word to anybody. What an influence, then, hath woman over the heart of man, to soften it and make it the foundation of Speak gently, a kind greeting after the toils of the day are over, costs nothing and goes [illegible]

Some Musical Definitions.

A theological student sent the following as his definitions of [illegible] of the New Year Inspector [illegible]:

What is a *duet?* Almost any remark one singer makes against the other.

What is a *rest?* Going out to the choir for refreshments during sermon time.

What is singing with an *undertone?* Trying to make time on the floor with your foot.

What is *symphony?* Flirting with the soprano singer behind the organ.

What is *stirring movement?* Leaving the choir in a huff when one is dissatisfied with the organist.

What is a *sacred?* A professor of music who professes to know all about the science while he cannot conceal his ignorance.

What is a *term?* When one singer is discharged to make room for another.

How to produce a discord? By praising the lady singing at the expense of a rival who can't hear you.

What is a *piece?* When the organ boy gets asleep while the choir is ready to sing.

What is a *flat?* A singer who supposes himself or herself unimportant to the success of the choir.

How to secure a *good bass?* Get two good looking unmarried gentlemen for bass and tenor, and they will be no trouble in securing a soprano and alto.—*Exchange.*

THE CATHOLIC VOTE.—A few weeks ago a communication appeared in the London "Advertiser" over the signature of "A Roman Catholic," in which the writer, referred to the efforts being made by the Ministerial party to secure the Catholic vote at the coming election; and thus to obtain a further lease of power. The idea which the Ministerial press seem desirous of impressing upon the Catholics, that to the "Moderate" party are they indebted for all the privileges they enjoy; that had been in power, they should not have received an equal measure of freedom with other classes; and that, should the "Liberals" again get into power the equal rights they now enjoy would be taken from them. The falsity of this idea it exposed very plainly by the "Advertiser's" correspondent, who shows that while Sir John and his friends have been kept in power for fifteen years though the instrumentality of Catholic votes, yet they cannot show one Catholic constituency where their efforts were effectual in securing the return of a Catholic member of Parliament; that he no case has any office of emolument been bestowed upon a Catholic, whether its having been wrung from them, and as the Ministerial plea that to that party are they indebted for Separate Schools, he shews in a letter published in the "Globe" of 10th inst., that Mr. Scott's Bill for the establishment of those schools was passed during the existance of a Reform Administration. In place therefore of Catholics having any thing to fear from the advent of a Reform Administration, the "Advertiser's correspondent shows that the said allies of the Catholics were the Reformers, and that the same principles which animated the Reformers of the time of Baldwin and Lafontaine, are held and acted upon by the reformers of the present day. Consequently, that to the Reform party they must look for that equitable, fair and just treatment, which he is convinced they are prepared to accord them.

The utterance of this London Catholic, however, have aroused the ire of the "Canadian Freeman," a Ministerial hack, which in an editorial article published on the 23rd ult., denounces the correspondent as "an ignoramus," "as utterly ignorant of the political history of the Province for the past twenty years," and as being unworthy of notice. The writer, however, notwithstanding the "Freeman's" indictors, manfully, maintains the ground he first took, that though the Catholics as a body have stood to the present Ministerialists through good report and evil report, nothing at all equivalent has been vouchsafed to them for their support, and he challenges the "Freeman" to show, the contrary, by publishing a list of the benefits conferred on Catholics for the support they have accorded to the Government. Being a supporter of the Administration, he says he can easily obtain this information from "official sources," and so set the question at rest. He thinks information on this point will be much more satisfactory than a column of truckling respecting the "Globe" pastrami-grease.

CAN'T BEAR THEM.—"I never could bear children," said a crusty old maid to Mrs. Partington.

"Perhaps if you could you would like them better," mildly replied the old lady.

A game-keeper and an inmate of an asylum, at South England happened to meet on the lawn in front of the building.

Inmate "Good morning to you.—That's a fine horse you have, pray what is he worth?"

Gamekeeper—"This horse cost my master £99."

Inmate "And what may that gun have cost which you have?"

Game-keeper—"This is one of Westly Richards', and some paintly is expensive: it cost £20."

Inmate "And what are those dogs worth?"

Inmate—"And what have you in that basket?"

Game-keeper—"A snipe."

Inmate—"And what is that worth?"

Inmate—"Well, I should recommend you to ride off as fast as you can, for if our Governor were to know that any man expended £100 on pheasant & expensive bird he would immediately seize him and put him in his asylum."

A PRETTY CONFOUNDER.—Rev. Dr. Murray in his speech at the annual meeting of the New York Bible Society, in illustration of the antagonism between the Bible and Property, related the following anecdote:—A little girl in Ireland had been to the free schools and had learned to read the Testament.

The priest met her, and, entering into conversation with her, inquired among other things, whether she prayed to the Virgin, to which she replied in the negative. 'Why said the priest, do you not pray to the Blessed Virgin.' The little girl pulled out her Testament, and turning to the account of Jesus reporting him at the occasion of the visit of the temple, together with the anxiety of the mother who thought he was in the crowd. 'Now,' said she, 'if Mary did not know where Jesus was, I am not sure that she could hear me if I should pray to her.

AN APPEAL TO THE YOUNG.—A young man has lately been convicted in Virginia of robbing the mail, and has been sentenced to the penitentiary. There is an affecting and melancholy incident connected with the young man's criminal history which goes to exhibit the strength of parental affection. When the father heard that his son had been arrested on a charge of robbing the mail, he exclaimed: 'Have my grey hairs, come to this! and then fell.—He was taken to his bed, and died in a few days, of a broken heart. If the young would not bring the grey hairs of their parents to the grave in sorrow, let them avoid the first enticements to sin. Once on the downward path, they know not where they will stop.

A New Orleans lady, on the way to Sunday school, found some boys playing euchre, and induced all of them but one to accompany her to Sunday school. She asked the remaining boy why he wouldn't [illegible] must be remembered

UNFAILING EYE PRESERVERS.

LAZURUS, MORRIS & Co's

CELEBRATED

Perfected Spectacles

AND EYE GLASSES.

The large and increasing sales of these Perfected Glasses is a sure proof of their superiority. We were satisfied that they would be appreciated here as elsewhere, and that the reality of the advantages offered to wearers of our beautiful lenses, viz: the ease and comfort, the assured and readily ascertained improvement of the sight, and the brilliant assistance they give in all cases, were in themselves so apparent on trial, that the result could not be otherwise than it has, in the almost general adoption of our Celebrated Perfected Spectacles by the residents Of this locality.

With a full knowledge of the value of the assertion, we claim that they are the most perfect optical aids ever manufactured. To those needing Spectacles, we afford at all times an opportunity of procuring the best and most desirable.

DR. W. H. TAYLOR

Corner of George and Hunter Streets,

Has always on hand a full assortment, suitable for every difficulty.

We take occasion to notify the public that we employ no pedlars, and to caution them against those pretending to have our goods for sale.

AN EXCELLENT FARM

Lot No. 22, in the 14th Concession of Otonabee, containing 136 Acres. There are 96 acres cleared and in good state of cultivation. It is 3 short miles from the Town of Peterboro, and about 1 from Ashburnham. There are 2 good Frame barns, and good Stabling, and a Comfortable Log Dwelling House, and Two Good Wells on the lot. The soil is excellent and there are 14 Acres of Wheat in the ground.

The lot is also very convenient to a good school.

Terms made known on application to the proprietor.

SAMUEL SMITH.

If by letter address Ashburnham P. O.

Reform Meetings—East Riding.

The Peterborough Examiner

PETERBOROUGH, MARCH 2, 1871.

Editorial Items.

BIBLE SOCIETY.—The annual meeting of the Peterborough Branch Bible Society will be held in the Wesleyan Methodist Church on Tuesday next the 7th of March at 7.30 o'clock. The Rev. J. G. Manley, Agent of the Society and others will address the meeting.

THE BEST SHOT.—From a published return of the best and second best shot at the annual training for 1870, we find for the 57th Battalion, Peterborough, corporal English, score 47. best, $10; 57th Battalion, Peterborough, Private, J. Carman, score 43, 2nd best, $5. Best shot in the district, Private, E. Taylor, 40th Battalion 48 points, $15.

FIRE.—On Saturday last about noon, Mr. Robert Johnston, of the township of Smith sustained a heavy loss by the destruction of two frame barns and their contents, viz: Eight hundred bushels of Wheat and about four hundred of oats and grain, also a large quantity of hay. It is thought the fire originated from some of the children using matches near the straw stack in the yard, from which it was communicated to the building. Mr. Johnstons loss is over $2,000, no Insurance.

PRINCE OF WALES PRIZE.—The numerous friends of Mr. George Baptie, B. A. will learn with pleasure that he has been the successful competitor at Knox College, for the above prize. It is a very valuable one, being worth $100, and arises from the proceeds of a handsome donation made to Knox Colledge by the Prince of Wales when visiting the Collede some years ago. The subject prescribed for the competing essay was. "The inspiration of the scriptures", open to students of the first and second theological years.

WESLEYAN MISSIONS.—The Anniversary Mission Sermons in behalf of this mission will be preached next Sabbath by Rev. E. Wood, D. D., in the morning and at three o'clock in the afternoon by the Rev. Arthur Brenning, late Missionary of British Columbia, and in the evening by the Rev. J. Manley. The well known ability and eloquence of these gentlemen will invite a good attendance. On Monday evening the Public Missionary Meeting will be held. These meetings are always interesting and will be this year.

MR. T. M. FAIRBAIRN who contests the West Riding of Peterboro, starts with the most generous support of the friends of pure government in his riding. Never was a contest undertaken under more favorable auspices. The subservient following of Mr. Carnegie to the intimations of his master, has alienated from him a host of persons, who last election, voted for him. Moreover, many who voted for him last time only because they wished to give the McDonald Government a "fair trial," have had their eyes opened to the fact that a fair trial meant a fair chance to keep in office, and use the money bags of the Province to support and corrupt the country. We do not hesitate to say that Mr. Fairbairn will distance Mr. Carnegie, who has so outraged decency and honor in his sycophantic efforts to please his master.

A GREAT MISTAKE:—We are told that the government of the last four years has been an economical one: that John Sandfield has saved money. We are told too, that he has an enormous surplus to be handed over to his *friends*, to his opponents, of, course, nothing. But did John Sandfield's government save this money? or did not the Dominion government hand it over to him, as due to this Province, because we have had to assume a debt of $10,000,000 falling to us by arbitration. Can any man be said to have saved money *given* to him by another? Has not the greatest extragavance been manifested in the governor's residence in Toronto? Have not large sums been spent at Belleville and other places? Have not $1,500,000 been placed in their hands to be spent as they wish? and yet we are told of their economy. If spending our money in the most unconstitutional manner is economy, then, of course, they can claim it, but not otherwise.

The representatives of the past four years have voted for them no matter how dangerous the legislation. The most servile [illegible] has been given by them.

We have been informed that P. Pearce Esq., will not be a candidate at the present contest, on account of his being Census Commissioner.

MARKET TOLLS.—We are pleased to learn that Mr. Edward Green has been the successful competitor for the Market Tolls, and that the public will have the benefit of an obliging and agreeable Market Clerk for another year. We learn there were five tenders, Mr. G's being the highest.

BAND CONCERT AT OMEMEE.—We are requested to state that a grand concert will be held on Friday next the 3rd instant, at Omemee, in aid of the Omemee Brass Band. The Band of the 57th Battalion will assist on the occasion. Those wishing a pleasant drive should avail themselves of this opportunity.

ST. JOHN'S CHURCH PARSONAGE FUND.—The ladies connected with the Bazaar, held in the Town Hall on the 20th and 21st of last Month, in aid of this fund, have paid to the Treasurer the proceeds of the Bazaar as follows:

Mrs. Clementi	$200.00
Mrs. H. Smith	68.00
Miss Jewett	54.66
Mrs. Snyder	52.00
Miss Wallis	100.00
Total	475.11

Harbor Tolls, Cobourg, 1870

The following item we clip from the Cobourg *World*, which shows the gain to Cobourg by the mis-management of Fowler & Co., of Port Hope and Peterborough R. R. R:

"The following is a correct statement of the amounts collected by the commissioners as tolls over the Cobourg Harbor, during the year 1870. As the charge on grain is one cent a bushel, the statement shows Messrs. Hargraft & Co., to have shipped the large quantity of 147,457 bushels, and Messrs. Winans & Butler between 80 to 100,000 bushels, during the year.

W. McDougall & Co., Lumber	$3,063,30
Campbell & Hewson	2,625,16
Hargraft & Co., Grain	1,475,58
C. P. & M. R. & M. Co., Iron Ore	1,185,80
Winans, Butler & Co., Grain and Wool	962,57
Sundrtes	2,659,87
	$11,972,01

The Harbor Company of Port Hope, lost at 25 cents per 1000, just $9,481,31. The freight on about 60 millions of Lumber at $1.50, amounts to the nice little item of $90,000; nearly $100,000 lost to the company and harbor, to spite Peterborough. This is biting of the nose to spite the face, surely.

The Elections.

The elections have been sprung upon us, almost without a moment's notice. The writs are already issued, and in the hands of the sheriff and returning officers. The nominations take place on the 14th inst., and the polling on the 21st instant, we are thus under the necessity of asking the Reform Electors of this County to bestir themselves. Not a moment is to be lost, if we wish to secure that position, politically that our numbers—our influence and our principles ought to secure—what is wanted is union and action. Mr. Fairbairn the candidate for the West Riding is a gentleman of undoubted character and ability. In him we have a Reformer who will give no uncertain sound on the great questions that are likely to arise in the contest, and if elected he will be an honor to the county and to his party. At great personal sacrifice he has consented to raise the reform standard in this riding and let every good man and true rally round him, and his election is certain.

During four long years you have been misrepresented. Mr. Carnegie has rendered himself decidedly unpopular with all parties, even his former friends have sought to cast him off. He has alienated the very men who elected him by his dictatorial and over bearing manner, both as a public representative and a private citizen. He positively bears an unpleasant odor to those who four years ago contrary to their interests and better judgment elected him. He is sure to be defeated now, if even a fair share of energy and pluck be manifested, let every man do his duty, as candidates ought to do, and for the next four years we will have a gentleman to represent us, who is a reformer, a liberal man, who will accord equal rights to every citizen who will attend to the interests of the county with energy for the sake of good government and not for the hope of gain. Reformers expect every man to do his duty.

To Chairmen of Committees

Much depends on how you go to work not a day nor an hour can be lost. Where there are no committees formed, let some good men organize one and communicate with us at once.

THE CENTRAL COMMITTEE:

William Hall, Chairman.	John Cameron. Cornelius McGrath.

A great many people in the United [illegible] of the opinion that

The East Riding Election.

As intimated last week, a Reform candidate is in the field in this Riding, and is sure of being elected. Mr. Read of course is in the field, and trusting in his former strength hopes to be returned, but it is hoping against hope. The Reformers are united and determined to elect their man, and they will succeed.

At the Convention in Ashburnham, on Tuesday, John O'Donughue, Esq., a Barrister of ability, eloquence and integrity, was unanimously nominated as the Reform candidate for the East Riding. The Convention was large, and every section of the Riding represented, except the extreme North, which, on account of the shortness of time for calling the meeting, could not be represented. The government we found were preparing to steal a march, and our only way to counteract their designs was to call a meeting at once and get a man in the field.

All classes of our citizens have united on Mr. O'Donohoe, with a unanimity that has not been witnessed for many years.—The watchword is REFORM—at the present election, and if half of the Reformers are true to their professions of principle, they will carry the day. We know that the enemy will try to sow tares amongst us, they will try every means to divide attention and thwart the Reformers in securing their man—but if ever principles are to triumph it is now—at the present election. The Riding is large, and every man is wanted to work. The time is short, and must be used. Let committees be formed in every village, at every corner, and wherever there are a few to meet and consult. Let every man be a canvasser—a few days work now will enable the great principles of liberal government to succeed, and Ontario will inaugurate a system of good, just, liberal and sound government, of equal rights—Ministers responsible to parliament, and fairness in discussing the greate questions that are likely to come before the Country.

At present all government works are undertaken not because needed nor where needed, but in order to secure partizanship. At present the party in power boast of their power to purchase Members and Constituencies. $1,500,000 are now held out as a bait to beguile the lovers of mammon and unrighteousness. Let Reformers now rally round their Candidates and prove that they desire good government rather than bribery, and justice rather than *unjust* gain.

Mr. O'Donohoe has the confidence of the great Reform party in Canada, and in this County. It is well known that he has been an advocate of Reform principles all through the dark days of the past 12 or 14 years. He has never allied himself with the enemies of those principles. He is a liberal man, a gentleman of no narrow circumscribed notions, and the eyes of the country are upon us awaiting the triumph of great Reform principles, independent of color, creed, nationality or bigotry. Gladstone has not succumbed because he did justice to Ireland. The Statesman is no less respected because he advocated and aided in passing Emancipation. Great Statesmen never enquire *who!* but is the measure

The Coming Struggle.

An election is upon us, again the people will be asked by their votes to say how they are to be governed. At the last election the Tories cried loyalty, peace, fair trial—the McDonald government has had a fair trial—but they are found wanting, the name of Sandfield is obnoxious to every high minded man of both sides. His low code of morals—every man has his price—has nauseated the honest intelligence of the Country, and his axe grinding inducements have met with a partial response from some of the baser kind, nevertheless the people, as a whole, have risen up in honest indignation against one who would pollute the moral atmosphere of the Country. He, the chiefest man in Ontario, publicly proclaims his own propensity, and then unblushingly asks for the admiration of the Country.

The clap trap cries have had their day, and the people to-day see the skeleton in its hideousness, disrobed of the false covering enshrouding it.

Loyalty in the mouths of men who could choke honest indignation at treason and murder, is mockery: peace, while private rights and established laws were set aside in favor of an influential applicant, is that dangerous peace which often nurses the storm, Fair trial of men who buy off disapprobation and would bribe the voter is a joke, a joke to them but serious to the Country.

Combination of parties is used to prevent the natural influence of Ontario from operating, to continue evils which confederation was intended to obviate.

Evil and only evil can come of a Government which boasts of its means of buying support, under [a minister whose words but too truly indicate the impurity of his heart.

If the Country would be saved it must get back to that honest system of party Government which in the fatherland has led to purity and power, and has resulted in making the Government so faithful an exponent of public sentiment that no ministry dare keep office an hour longer than it has the approval of the nation.

A MUSICAL TREAT.—Our Musical friends will do well to examine Peter's Musical Monthly, a magazine published by Peters, the New York Music Publisher, at three dollars a year. It is issued on the 15th of every month, and contains in each number thirty-six pages of the latest and best music, printed from full size music plates. The March number contains the following music, (worth $4.75 in sheet form:)—God Bless the Little Church around the corner, by D. S. Wambold; Katy MacNeil—Song and Chorus, G. W. Persley; My old sunny home, W. S. Hays; Mignone—Song and Chorus, G. W. Persley; Heaven claims her as an angel—Trio and Chorus, W. S. Hays; Jesus, I my Cross have taken—Quartet, Abt; I will arise and go to my Father—Sacred, Dressler; Welcome Home Schottische, J. Goote; May Rose Galop, J. Becht; Belle Geor-

The usual quiet and tranquil state of things prevailing in the community is broken in upon by the heat of our election contest; the people are up in arms to put in the Candidate who may most fairly represent their views. We expect three weeks of stirring times, but we hope that the conduct of all parties may be such that after the election we may all be to each other as friendly as ever; let us endeavour to do our duty to our country without forgetting our duty to ourselves. After all is over we will have to do and deal with each other, how needful then that kindness and charity should actuate all parties; let no one open up sores that may be long in healing; a little good temper, a little self denial, charity and forbearance will ensure peace and avoid the occurence of anything that might hereafter be regretted.

CIRCUMSTANCES ALTER CASES.—It is pretty well understood that Mr. Carnegie has lost the support of the Liberals, of the Roman Catholic party, and because they dare to express their disapprobation by sympathising with the opposition, the Sandfield party say, *Oh it is an unholy alliance.* Does it not remind one of Reynard's "sour grapes." What was right and the proper thing last year is wholly bad this. Oh consistency thou art a jewel, but not to be found in the Sandfield party. Equal rights to all men was ever the Reform creed, the right to vote—the right to be voted for—"a man's a man for aye that"—and a man who is liberal, true and honest is not the less deserving of respect because he may happen to be a Catholic. We have all worked to build up the country—the burden of taxation sits equally heavy on all; and certainly he who claims for one class rights and privileges which he would deny to the other, has not a mind in keeping with the spirit of the age.

The *Globe* is alluding to the nomination of Mr. O'Donohoe says:—He is an able and reliable Reformer, well known throughout the county, and enjoying the hearty confidence of the Liberal party. Mr. O'Donohoe is also a firm, reliable Reformer, a clear-headed, intelligent, able man, and a capital speaker. He is a Roman Catholic, who, amidst all the political vicissitudes of the last thirty years, has never swerved from the Reform cause or from the earnest conviction that the Liberal party is the one that ought to be sustained by his fellow-countrymen and co-religionists. Mr. O'Donohoe has earned the warm respect and gratitude of every Reformer, Protestants or Catholic, who has watched his long and consistent career; and we only discharge an acknowledged obligation when we express our joy at his nomination for Peterborough, and our earnest hope that all our friends in that county will use their most strenuous exertions to have him triumphantly elected. Happily the Federal Constitution, won by the Reformers after twenty years' conflict has removed from the political arena those sectarian issues that so long distracted our Province—and now that we are freed from the intrusion of the French Canadians in our local affairs, and the Protestants have entire sway throughout Ontario, it well becomes the Liberal party to show practically the sincerity of the principles they have always professed, by securing frankly and generously to the Roman Catholic minority that just share in the Parliamentary representation of the country, and that fair consideration in all public matters, to which their numbers entitle them. The County of Peterborough is largely settled with Roman Catholics; they are not, however, numerous enough themselves to carry a candidate of their own faith; and we heartily rejoice that the Reform Convention of the county, composed as it was almost exclusively of Protestants, voluntarily recognized the position of the Catholic minority, and selected a candidate so acceptable to that minority as the standard bearer of the Liberal party.

Smith Council.

Smith, 6th. Feb., 1871.

The Council met, all the members present.

The minutes of the last meeting were read.

A list of the abatements requested by the Collector for the year 1870, amounting to the sum of $58.61 was presented and examined by Council.

The sum of $8.35 was allowed and the Treasurer directed to transmit the remaining sum of $50.26 with the description of the remaining lots on which the same had been levied to the County Treasurer for Collection.

Dr. J. A. Mann's bill for medicine and attendance on the late Schoolmaster, Moore, amounting to the sum of $10.00 was presented and read. (Laid over.)

The Quarterly report of the Inspector was received, read and adopted.

After verbally appointing 93 Overseers of Highways, 12 Pound Keepers and 14 Fence Viewers, the Council adjourned until Monday the 20th instant.

MONDAY, FEBRUARY 20, 1871.

The council met, all the members present.

The minutes of the last meeting were read.

A By Law to appoint overseers of Highways Pound-keepers and Fence Viewers for the present year, and to divide the Roads into divisions for the performance of Statute Labor, and the expenditure of commutation money paid in lieu thereof, received its first, second and third readings and passed.

The auditors report of the receipts and payments of the Treasurer for 1870 was read and adopted, and the clerk directed to have 150 copies printed in sheet form for distribution amongst the ratepayers.

Petitions were received from Margaret Moore, John Hope, Asa Dunbar, Richard Northey and Stephen Nicholls praying for a certificate to obtain a License to keep a Tavern. The clerk was directed to issue the same upon the said petitioners complying with the requirements of the law and the By-laws and regulations of this Council.

The Treasurer was directed to pay Dr. J. A. Mann the amount of his account for Medicine and attendance of the late Schoolmaster, Moore, yet the council wished it to be plainly understood that for the future it will not hold itself responsible for the payment of any medical aid unles ordered by one of its members.

—The Chinese use a composition, bearing the name of Schicicao, which has the property of making wood and other substances perfectly water tight. A gentleman writing home from Pekin, says he has seen wooden chests covered with it that have been to St. Petersburg and back and which were in no way injured. The Chinese use it largely for covering straw [illegible] and employed in

Grand Loyal Orange Lodge of Ontario East.

ELECTION OF OFFICERS.

The twelfth annual Session of the Provincial Grand Lodge of East Ontario, was held at Brockville There was a large attendance of members. The following officers were elected:

Bro. H. S. Macdonald, Brockville, Grand Master.

Bro. S. S. Peck, Minden, Deputy Grand Master.

Bro. Thomas Deacon, Pembroke, Associate Deputy Grand Master.

Bro. Rev. J. Norris, Omemee, Grand Chaplain.

Bro. A. J. Van Ingen, Cobourg, Grand Secretary.

Bro. John G. Moore, Belleville, Deputy Grand Secretary.

Bro. William Robinson, Kingston, Gradd Treasurer.

Bro. William Henderson, Port Granby, Grand Director of Ceremonies.

Miscellaneous Items.

Dr. Stewart is out on the Reform ticket for Kingston.

It is announced that Prince Charles, of Roumania is still resolved to abdicate.

Sir John Macdonald left on Monday morning for Washington. He expects to be back in a month.

A little boy named Locke was killed in Montreal on Monday, by the fall of a piece of ice on his head.

The writ has been ordered to be issued for the election of a member for East Hastings in the place of Mr. Read, called to the Senate.

It is probable that the estimates will be brught down in the course of the present week. The Finance Minister appears to be not only ready but eager for the fray. It is stated that he contemplates some reduction in the tea and sugar duties, but no change in those imposed upon coal and flour.

The Government intended that the law to secure the independence of Parliament shall become the same as it was in the old Province of Canada, instead of being fashioned, as at present, in accordance with English practices.

Bribery and corruption, it has been discovered, were potent element of the last municipal contest in the village of Welland. One interested individual is now under the protection of Mr. Benjamin Spoons Butler.

The Ottawa *Times* says, the correspondent of the New York *World*, whose letter is dated "Russell House, Ottawa," has sent another column or two of falsehoods to that journal. Among other statements made by him, is one to the effect that we have a deficit in Canada this year of $2,500,000!

The Ottawa *Times* admits there is truth in the report of the intention of the American Minister or Commissioners to bring the cession of Canada before the Joint Commission. The American Cabinet is anxious, but of course Canadian and English representatives will scout the idea.

On Monday, as the evening Express from the West was moving out of Brampton, a certain William Kelly, being under the influence of liquor, missed his footing while in the act of getting on board, and fell between the cars, and six wheels passed over his chest, killing him almost instantly. He is unmarried.

The *Hercules* broad-side iron-clad ship has just had a narrow escape from partial if not total destruction. The vessel recently went out into the Channel to have some shot and shell practice. On the 14th instant the crew had been at quarters all the forenoon, and had finished the day's practice with a five rounds at dinner time. The magazines were closed and the uncommon ammunition (about 200 lbs of powder) was placed in charge of the sentry on the half deck, so as to be in readiness for the men after their meal. The lamp trimmer brought up two lanterns with lights burning, and while the sentry was hanging up one, the ship gave a lurch; as there was a good deal of sea on; the other lantern was capsized, and the naked light fell on the top of the powder cases. Fortunately one officers happened to be close at hand. He rushed across the deck and in an instant extiguished the candle and so probably saved the ship and many lives.

The following singular case of vitality under difficultion is related by the Orangeville *Sun*:—About six weeks ago a bull owned by Mr. Hector M'Leash, of Caledon, was thought to have strayed away, and its owner hunted for it everywhere, and advertised it, but nothing was heard of it till Sunday evening last, when the servant girl, who was milking a cow in the barnyard, heard a low "moo" proceeding from the stack. Mr. M'Leash being informed of the circumstance, a search was at once instituted, and the lost bull was discovered in the stack, and liberated after a confinement of nearly five weeks. The condition of the animal was not so bad as might have been expected, and it is thought it will get well. A new stack had been built up on an old one remaining from last year, and it is presumed that the animal had got into the cleft and been unable to return.

The organs of the Ontario Patent Combination are very indiscreet sometimes, says the Dundas *Banner*, and Sandfield should put the brakes on some of them or they may possibly say too much. Here is what one of the Toronto papers said on Monday:—"The Opposition may just as well give up. They cannot contend successfully against that two million dollars, unless by raising an equal amount among themselves. Any ministry that has as much money as that to spend, will be sustained, whatever their policy, and our Clear Grit friends may as well submit to the inevitable." In this we have the Sandfield policy in a nut shell. "The Government is bound to support its supporters," and "money will make the mare go," are two of the articles of political faith so defiantly paraded by the entire Government and its hangers on, and which are so confidently expected to succeed in securing a majority for the axe-grinder in the coming Parliament.

This is the day of gigantic undertakings. The impossibles of a hundred years ago are accomplished facts of the science of the present time. Railway cars run to and fro upon the face of the earth; the ocean is ploughed with the steamer; the whole land pulsates with the throb of machinery, and the very lightnings are enslaved to do us service. Railroads run across continents, and canals connect far divided seas. The Suez canal is in operation, surveys are still being made for the route of a canal across the isthmus of Panama, and now another scheme is broached for the purpose of connecting the valley of the Mississippi with the Atlantic sea board and thus with Europe. The proposed route of this canal is from the Mississippi river, below New Orleans, to Mobile Bay, the following the gulf shore to the Bay of St. Marks, across the peinsula of Florida to St. John's River, and then again following the coast northward to Charlestown. The length of this canal would be about eight hundred miles; but, according to the proposers of the scheme, the number of natual water channels existing is so great that the length of the canal that must be built is comparitively small, and that the entire operation could be carried

European.

Bordeaux, Feb. 26.—An official despatch from Paris states that the preliminaries of peace have been signed. Thiers arrives in Bordeaux to-morrow.

Berlin, Feb. 27.—The Emperor William telegraphs from Versailles to the Empress Augusta as follows:—

"With a deeply-moved heart in gratitude to God, I inform you that the preliminaries of peace have been signed. The Bordeaux Assembly must yet ratify them."

(Signed,) WILHELM.

Paris, Feb. 27.—France cedes Alsace and Metz. Belfort is retained. The war is indemnity is fixed at five milliards of francs, for the payment at which three years' time is granted. The Germans hold the fortresses until it is paid.

The armistice is prolonged a week.

The German enter Paris immediately.

Rothschilds have been summoned to Versailles, as have also the railway Presidents, who are to arrangh to convey the German troops back to their own country. Their departure will be preceded by a review in the Champ de Mars.

It is said the Marseilles elections have been annulled, and that Delgny declines to assume the Deputyship of the Government in that city.

London, Feb. 27.—The *Telegraph* to day has a despatch from Versailles of the 26th, which says M Thiers proposed the purchase of Luxemburg by France, and to transfer it to Germany if Metz were restored to France.

The Emperor William is much improved in health. A despatch from Amiens of the 26th says an order has been issued for movement of troops towards Rouen. The armistice has been prolonged two days.

The triumphal entry of the Germans into Berlin has been delayed two months, as the whole of Germany will observe six weeks of mourning for the victims of the war.

M. Thiers offered another million thalers to keep Metz, but the offer was refused.

Paris, Feb. 27. Republican manifestations continue. There is perfect order, but the feeling amongst the people is strong and deep for future revenge upon Germany. The Prefect of Police refuses to assume the responsibility for the preservation of order if the Prussians enter the city.

Mortality has greatly lessened and provisions are abundant.

The Cologne *Gazette* says the signature of the preliminaries to the treaty of peace was delayed by the intervention of the English, Russian and Austria governments. The Italian government declined to interfere.

A meeting of the Deputies belonging to the Extreme and Moderate Left was held last night, to prepare a common protest against the cession of French territory, but no action was taken.

Paris, Feb. 27th.—On Sunday the Reds held a mass meeting on the Place de la Bastile. The demonstration was disorderly, and terminated in a scene of revolting atrocity. A police agent, who attempted to interfere for the preservation of peace, was seized by the enraged crowd, fastened to a plank and thrown into the Seine, where after struggling for some time he was drowned. As long as he could be seen above the surface he was pelted with stones by the crowd on the quay. A magistrate who attempted to save the unfortunate man was threatened with similar treatment, and was finally obliged to fly for his life.

Paris, Feb. 27.—The *Journal des Debats* comments on the cruel terms of peace, and says Thiers and Favre were several times on the point of breaking off negociations at the risk of the resumption of hostilities, and yielded only the difference on Bismarck at first demanded an indemnity of ten milliard of francs, and it was reduced to the sum finally agreed upon only by the most strenuous exertions. It has been stipulated that only 30,000 German troops shall enter Paris, and that they shall not march beyond the Place de la Concord. Several journals announce that they will suspend publication during the occupation of the city, and recommend the inhabitants to remain within doors and close their shutters. The authorities are very uneasy in regard to the attitude of the population when the Prussians march in. The national guard have been under arms all night, and perfect order has prevailed; but the guards and the regular troops are greatly discontered, and it is doubtful if they can be depended upon to restrain the people from violence at the appearance of the enemy.

On Saturday, the Reds held a mass meeting on Place de la Bastille. The demonstration was disorderly, and terminated in a scene of revolting atrocity. A police agent who attempted to interfere for the preservation of peace, was seized by the enraged crowd, fastened to a plank and thrown into the Seine, where after struggling for some time, he was drowned. As long as he could be seen above the surface he was pelted with stones by the crowd on the quay. A magistrate, who attempted to save the unfortunate man, was threatened with similar treatment, and was finally obliged to fly for his life. The journals continue to assail Germany in the bitterest terms.

PARIS, Feb. 27.—France cedes Alsace and Metz. Belfort is retained. The war indemnity is fixed at five milliards of francs, for the payment of which three years time is granted. The Germans hold the fortresses until it is paid. The armistice is prolonged a week. The Germans enter Paris immediately. Rothschilds have been summoned to Versailles, as have also the railway presidents, who are [illegible]

Another War Cloud.

Our cable telegrams this morning informs us that Italy and Tunis are upon the verge of hostilities—the former having given the latter eight days to give a satisfactory reply to her demands for a settlement of some existing claims. Unless a satisfactory reply reaches Florence within the specified period, an Italian squadron will sail for Tunis—the capital—which is situated on the west side of a lagoon at the mouth of the river Mejerda, 300 miles east of Algiers, and has a population estimated at from 130,000 to 200,000. It is surrounded by a double wall five miles in circumference, and defended by a strong castle, which commands the approach from the sea, and by several forts. The city presents an imposing appearance from a distance, but the streets are narrow and dirty, and the houses generally exceedingly mean, consisting of a single story without windows towards the streets. The entire population of the country does not exceed 2,500,000 and although the Government is nominally dependent upon Turkey, it is in reality perfectly independent—the Bey's power being absolute and his will the only law known in the country.

Another despatch from Madrid announces that the Spanish Government has sent its ultihatum to the Viceroy of Egypt—the difficulty having arisen between the two Governments in consequence of an insult offered to the clerk of the Spanish Consulate in Cairo. It was reported in London yesterday that the Khodive had not yet replied to the representations of Spain demanding satisfaction. Several European Powers have offered meditation between Spain and Egypt, and hostilities will doubtless be prevented.—*Leader.*

The British throne is the cheapest in Europe, costing, with all allowances, appanages, and expenses for symbols, less than half as much as any first class throne supported out of revenue. Its whole expenditure, even if it came out of taxes, would not be worth ten farthings in the pound, or one cent upon the gross collections—an indefinitely small amount if the monarchy really secures the order, permanence and the habit of obedience supposed to be insured by its existence, and, as it accidentally happens, little more than the sum which any Republican change would of necessity add to our direct expenditure in the shape of payment to members. Lacking the Throne and the system it supports, we must pay our representatives as the Union does, and the sum required would not of itself exceed the Queen's share of the money voted for the Civil List. Nor is this all. The Crown Lands were undoubtedly the property of the Sovereign, so much so that he could give them away; and Parliament, when it interfered to prevent waste, did so on the distinct plea that it had the right in all cases to entail to make laws to prevent waste. The life interest is surrendered by every new sovereign on conditions, one of which is certain payments, which are specified, and another is, certain possible allowances as to dowries, &c., which are unspecified, and are, in fact, governed by an unwritten etiquette varying with the temper of Parliament and other circumstances. These lands produce more than the Queen's allowance, or £350,000 a year, and if decently managed, like any nobleman's property, would procure £100,000 more than the sum total of all the moneys drawn by all members of the Royal Family.—*Spectator.*

The London *Herald* says that a short time ago a tombstone agent, named Tackaberry, was arrested by a constable at Seaforth, on a charge of forgery He was handcuffed, and while on his way to the county jail contrived to induce his captor to "liquor up" at one of the hotels on the route. While enjoying their little refreshment, a discussion arose between the constable and the prisoner as to who had the "strongest wrists," and Tackaberry's "bracelets" were removed in order that he might display his strength. Having once got the handcuffs off, the "gravestone man" was no hurry to put them on again, but insisted on treating the constable until he was so blind drunk that he wanted to go to the pump to light a cigar. After a little persuasion, however, he was induced to forego that experiment, and take a shave, and while in that situation he had his head shaved, and awoke to the discovery that his locks and the prisoner had vanished.

WASHINGTON, Feb. 28.—The House has passed by a two third majority a majority a bill to repeal the duty on coal. This will be good news for the Nova Scotians.

Rev. John Campbell, M. A, of Newmarket, has received the appointment of the Headmastership of the Napanee Grammar School out of twenty-seven applicants.

The Grand Trunk Railway Company have at last decided to abolish their wayside depot at London, and replace it by something less like a nuisance to passengers and a disgrace to the city.

In the gallery of the house of Commons, on Monday afternoon, a Frenchman got his cars boxed by a lady. They are evidently improving the Capital. Susan B. Anthony should be sent down there.

PARIS, Feb. 27.—Republican manifestations continue. There is perfect order, but the feeling among the people is strong and deep for future revenge upon Germany. The Prefect of Police refuses to assume the responsibility for the preservation of order if the Prussians enter the city.

Correspondence

The Chief Superintendent on the War Path.

Like the old war horse we invariable find the Venerable Chief when the trumpet sounds, start for the battle. At the approach of an election he is again using his pen and influence to damage any and every one who will dare in any way to oppose him. Not content some weeks ago to give a prominent member of the Legislature a castigation for offering amendments, or criticising his new School Bill, and with him his political foster father the Hon. George Brown, he now comes out in the first of a series of letters to Hon. George Brown and his foster son Mr. Edward Blake for their misstatements and proceedings on School Legislation.

What the old man is coming to we cannot possibly divine, but he really seems to us to be losing his senses. Every year he is becoming more insolent, intolerant

"SUPPORT ANY GOVERNMENT,"

Some of the miserable Coalition minion, elected last campaign by the exploded "no party" dodge, now that they have been cast upon the country, come wining to the constituents they have deceived with the cry, "I'll support any government." Perceiving the probability of a change of ministry, and popular Reform roused into action, they who have upheld the Conservative Coalition through thick and thin, appear on the political rena like whipped curs and attempt to apologise for their late votes and at the same time beg capital for the coming election, by declaring that they are so constituted (*verb sap*) that they can "support any government." The idea is a novel one and week withal. Strange mixture of inconsistency and apparent respectability! How low must our country have fallen when it can produce such human weeds!

And where is the true Reformer that can vote for the crawling thing that can "support any government?" The high principle which mark the party must recoil at the unprincipled confession. Can a corrupt tree bring forth good fruit? Can the same branch produce the poison and the healing balm? Can the man who votes for corruption and venality support broad and beneficial measure? Then can the Ethiopian change his skin and the leopard his spots!

Reformers, be not deceived by the sycophantic whine. Look upon honesty' rains and uphold it. They who deceived you by the "no-party" cry will do so again if possible with the contemptible promise of "support to any government." Beware! Deceit and lying are in their words. Listen not to their nauseating confessions of shame. Act for yourselves, and "harken not to the voice of the charmer, charm he never so wisely."

Joint High Commission.

Washington, Feb. 27.—The Joint High Commission met this morning at 11 o'clock at the State Department. All the United States Commissioners were present except the Hon. E. Hoar, and all the British Commissioners except Sir John Macdonald and Sir Stafford Northcote. The proceedings were conducted privately.

Washington, Feb. 27.—The members of the High Commission says it is not the intention of the President to convene the Senate in extra session, if that body should adjourn before the High Commissioners get through their labours, in order to consider and act upon the treaty that may be negotiated. One of the American Commissioners say that whatever is agreed upon by the Joint Commission will be made public before being submitted to the senate, so that the opinion of the people of the United States can be ascertained before final action is taken.

New York, Feb. 17.—A Washington despatch to the "Herald" says that a growing sentiment of apprehension as to the result of the High Commission privails in that city. It is believed that Sir John A. Macdonald is preparing his people for a great discount of their fishery demands. His announcement in the Dominion Parliament a regarded as an abandonment of the headland claim, and his silence as to the presentation of the Canadian claims for Fenian raids is regarded as equally significant. It is well understood that the British Government can present no claims against us in connection with Fenian raids, having already repeatedly thanked our government for its course in stopping these invasions. It would seem that most likely the difficulties will commence outside of Canadian matters, and there is no reason to believe that England is yet prepared to recede from her position on the Alabama question, and therefore but little hope that an acceptable basis can be reached.

The Entry of Paris.

The Germans have nearly concluded their preparations for the triumphal entry of Paris, but the final orders have not been given, and there is yet hope, though very slight, that the pageant upon which the Emperor seems to have set his heart, may not take place. The Parisians are getting intensely excited at the prospect of the humiliation, and there is every probability that they will not accept the advice of those who, like the forty editors, urge calmness under the trial, but will turn upon these who needlessly trample on their already wounded feelings. The mobs of the suburbs have been committing frightful atrocities, having murdered several policemen; but the authorities seem powerless to quell the rioting that may result in still more terrible scenes than those which have been enacted. The National Guards appear lukewarm upholders of law and order, and it is reported that a great body of them marched to the Champs Elysees, where they encamped with the intention of fighting the Germans. The actual glimmer of Prussian bayonets might cause them to adopt the old notion that prudence is the better part of valour; but should there be a coutest with the guards, or with the mob, the blood thus shed will forever tarnish the glory of the German conquest, and stain the splendour of the German triumph.

It is stated that the negotiations respecting the proposed entry of Paris occupied the attention of Bismarck and Thiers for a longer time than the discussion of the war indemnity and the cession of French territory. The aged President endeavoured in vain to persuade the Chancellor to obtain the relinquishment of the Emperor's design to gratify his pride of conquest; but he was compelled to remain satisfied with Belfort, Nancy and Luneville.

The Rothschilds have offered, it is stated to pay the entire war indemnity in a year, so as to get rid of the German army of occupation. This army is to be under command of Prince Frederick Charles, with his headquarters at Rheims.

London, Feb. 27, 1 30 p.m.—It is now thought that the German army will not enter Paris, and it is said that the Emperor and Crown Prince will certainly not do so.

Small-pox is spreading in St. John, N. B., but no fatal cases are reported. The Board of Health is enforcing measures to prevent its extension. The city is to be divided into districts, and medical officers appointed to inspect each house and vaccinate the inmates.

The supply of timber from the Ottawa lumbering districts for the Quebec market is estimated at a million of red pine, and seventeen millions of white pine. The season is reported to have been favourable for lumbering operations.

A Montreal ministerial journal deep in the confidence of Sir George Cartier, expresses the opinion that the gallant baronit should have been placed on the joint High Commission after the resignation of Sir John *Rose*. The organ does not go quite far enough, it is currently believed, to please Sir George, who considers he should have had the first appointment.

The triumphal entry into Berlin of the Emperor William, with his war-worn and victorious soldiers, will be one of the the grandest pageants of the century The municipal authorities of the Prussian capital have received orders to prepare quarters for the troops of the various states, it being the desire of the Emperor that all parts of Germany should be represented on the occasion of the triumph.

The promoters of the rival railroad route from Montreal to Ottawa continue their efforts to win all or a portion of the million dollar bonus the metropolis proposes to give the most desirable line. The question has even been introduced into the civic elections the North Shore Railroad having its candidate for the city council, and he spared no measures to ensure his success. The ratepayers are to have an opportunity of voting upon the merits of the competing lines, and then it is believed great exertions will be made by the promoters to secure a majority. The impression that the Southern route is the most favourable, all things considered, is said to be increasing in Montreal. Our [illegible] mentions a report—the truth [illegible] does not vouch—that the Inver[illegible] to be paid by an equally [illegible] real estate, includ[illegible] January 10,

ing church and nunnery property. No doubt there will be strong opposition to any proposition to include property hitherto exempt, but which will be largely benefited by the construction of any of the proposed railways.

The salt business of the western part of Ontario seems to be in thriving condition at present, The wells at Godrich, Clinton, and Seaforth, are now turning out an immense quantities, which seems to find an immediate sale. It is proposed to send it to Chicago in bulk, during the coming season and if this can possibly be done it will give a fresh further impetus to the trade, which is already a great benefit to the business of that section of Ontario.

Mr. Macdonald, the well-known contractor and Mr. Legge, the eminent engineer have been commissioned by the people of Montreal to survey the proposed railway routes on the north and south shores of the Ottawa Valley, and report on their practibility. Having travelled all along the line of the proposed North Shore line, they declare that no engineering difficulties exists of any magnitude whatever, and that the construction of the road would probable be attended with less expenditure per mile than any other railway in Canada. Their are important facts which tend to render the immediate construction of the line more certain.—*Ottawa Times.*

Disreali is reported to have said that he intends to write three more novels, and then retire from the field of authorship. They will all be political, it is conjectured, and one of them will attempt to show what England must do to retain her prestige.

The meditation of friendly powers has at last been accepted by Spain, and as the Khedive was willing before, a peaceable solution of the Spanish-Egyptian difficulty, is anticipated.

Col. Skinner it progressing steadily with his fund for the Wimbledon rifle team. Out of the $8,000 required he has now over $4,000.

For the first in the history of the sect in this country, the Shakers have established a newspaper, called *The Shaker*, devoted to an exposition of their peculiar doctines.

A lady in Braintree, Massachusetts has presented her husband recently with four boys at a birth.

The luckless Grand Trunk, Monday night added two more mishaps to the already lengthy catalogue. Shortly after the Express from the east left Port Hope an intoxicatmant [whose name we did not learn] fell between the cars whilst they were in motion, when picked up he was found to have received very severe injuries, and his recovery is reported doubtful. Of course the train was delayed some time. After it again started and had proceeded a short distance, it was discovered to the great alarm of the passengers that the sleeping car was on fire. Another stoppage ensued and after some exertion the flames were extinguished. The train finally arrived here four hours late.

MARRIED.

BATTYE—STEELE—At the Wesleyan Parsonage, Peterborough, on Tuesday, 20th February, by the Rev. G. H. Davis, Mr. Henry Battye, to Miss Jonny Steele, both of Peterborough.

DIED

At the residence of her grandson, Tho's Blezard, Esq., Otonabee, Letitia, relict of John Blezard, Esq., late of Otonabee, aged 93 years.

Deceased was one of the first settlers in the Township, coming to it in 1819, fifty-one years ago, when only two or three families had crossed Rice Lake, Northwards.

Accidentally drowned on February 23rd, at his father's mill-dam John A. P. Martyn, eldest son of Martin Martyn, Esq., formerly of the County of Cornwall, England, in the 33 year of his age.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single cure of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier, alternative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phathisie or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, Diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is last superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, br ises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum, dysentery, &c.

Price only thenty-five cents per bottle.

NORTHROP & LYMAN,
Newcastle, C. W.
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, Wm. Coulter and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co., C. Britton, Lindsay, and all Medicine Dealers.

FELLOW, COMPOUND SYRUP OF HYPOPHOSPHITES.—Clergymen who were obliged to with from the pulpit on acount of Clergymens sore Throat have recovered by useing this invaluable preparation, and are now preaching again. Being an excellent nervous tonic, it exerts a direct influence on the nervous system, and through it invigorates the body.

RIGHT AND WRONG.—It is wrong to jest white your upon a subject in which their is danger of wounding her feelings, and it is wrong to speak of great virtuous in another man's wife, to remind your own fault; but it is not wrong after trying the "Canadian Pain Destroyer" and feeling its wonderfull effects to recommend it to your neighbour for the cure of rheumatism, neuralgia, cramps, cholic, &c., it has no equal. For sale by Druggists and country dealers. Price 25 cent per bottle.

CONCERTINAS AND VIOLINS,

A very large assortment. The attention of the Musical Public is solicited to the fact that they can procure the best PIANOS and MELODEONS without going outside of Peterboro.

A. B. KIDD is Agent for

THE CELEBRATED BRADBURY PIANO

The successful rival of the Steinway, &c. He is also Agent for

W. BELL & CO'S PRIZE MELODEONS,

The Melodeons that carried off the prizes at the Provincial Exhibition. ☞ Both Pianos and Melodeons kept on hand.

PIANOS AND MELODEONS!

THE BRADBURY PIANO,

Which has met with triumphant success, and has successfully competed with the best Piano in the world, and has received the highest testimonials from Gottschalk, Mason, Sanderson, Pattison, Berge, Zundell, Heller, Fradel and others,

IS SOLD IN PETERBOROUGH BY A. B. KIDD.

He also sells the WEBER PIANO, which, to those who wish a cheap instrument, is equal to any of its class.

W. Bell & Co's Melodeons are supplied by A. B. Kidd.

These instruments received First Prizes at the Ontario Provincial Exhibitions for 1868 and 1869; also at the Quebec Provincial Exhibition held in Montreal, September, 1870. At the Ontario Provincial Exhibition held in Toronto, October, 1870. W. BELL & Co. received the First Prize and Diploma for the best Harmonium or Large Cabinet Organ, and the First Prize for the best Melodeon. It is universally acknowledged that in the manufacture of Melodeons W. BELL & Co. excel all other Canadian makers, having taken the First Prize on Melodeons at the last three Provincial Exhibitions. As to Organs or Harmoniums it must be remembered that The Diploma just received by W. Bell & Co. is the only one awarded during the last seven years at any Provincial Exhibition. ☞ All instruments warranted for five years, and satisfaction guaranteed.

PAPER BAGS AND WRAPPING PAPERS

Are supplied by A. B. KIDD at Montreal Prices.

Dealers will find it advantageous to give him their orders, as he has made arrangements with one of the largest firms in the Dominion, which enable him to supply Bags and Wrapping Paper at Wholesale Prices.

Peterboro, November 25, 1870.

Choice Poetry.

A Good Time Comin'.

BY DENNIS O'RAFFERTY.

Ottimes me bod me shoulther galls
A carryin' marthar on the walls,
In rain and sun;
But better times are comin' soon
Whin all the year will be like June,
And drudgery done.

Whin victhory crowns the faymail cause,
Whin wimmen shall be makin' laws
Alch wife and maid,
Thin ivery mother's son will be
Constthrained to follow fancy free
Some family thrade.

The kitchen gairl will leave her place,
And Teddy, follown' wid grace,
Will bake and shtew.
He'll kape the flure both clane and nate
And have the bist av things to ate,
And learn to sew.

The millinery shops, where purty gairls
Now shmile so swate and shake their curls
And look so handy,
By gintlemen will be constrolled,
And in thim ownin's are othores av goold
For Pat and Andy.

We'll all be kapin' school thim days
And bate the childers as we plaze
And get good pay,
And have an aisy time the while,
And grate folks too, will swately shmile
Upon our way.

And purty gairls will ax us out
And pay our bills and dhrive about
Wid tinder care
They'll kanely feel for all our woes,
To gintlemen they will propose
Who single are.

No matther if we've not a cint
There'll thin be divel the thought av that
Or things to ate.
Oh! that to see the blissid day
Whin all our throubles pass away
May be my fate!

Why is coffee like an axe with a dull edge?—Because it has to be ground before it is used.

On the marriage of a Miss Wheat it was hoped that her path would be flowery, and that she might never be thrashed.

Why is it dangerous to take a nap while the cars are in motion?—Because the train runs over sleepers.

What is the most profitable of all businesses?—The shoe, for every pair is soled before it is finished.

A medical journal says dogs are not fit for food. Now, let some scientific gentleman tell us what they are fit for.

Bailey, who got away with the government money while collector at New York, is said to have invented a new style of skate.

A Milwaukee lady drained a quart bottle of ink the other day, and now he looks like one of Horace Greely's hastiest letters.

The tender mothers of Keokuk fashion the backs of their young hopeful's heads before they let them go out skating.

A Newcastle (Ind.) wife got a divorce recently in five hours from the time she made application; the quickest time in record.

A few tears here for the feminine orator of Toledo who took but $15 at the door and the fever ague in the hall.

A negro, on being examined, was asked if his master was a Christain. No, sir, he is a politican, was the reply.

Edwin B. Campbell, now in San Francisco, though hardly forty-five, boasts that he killed in his editorial capacity not less than twenty-nine newspapers.

What are you going to do after you graduate? said a gentleman to a college student who is fitting for the ministry. Dan fino, replied the youth, preach the gospel, I s'ppose.

A church going man is said to have offered $200 per annum for the use of a certain pulpit for advertising purposes, agreeing to present no notice more worldly than some which were read these sabbath.

All the young and pretty women out West are singning remonstrances against woman suffrage. They seem to have an idea that suffrage would make them rough and ugly.

Mrs. Post, the Wyoming woman leader, is described as an earnest, ungrammatical woman, who has awful skull for putting the end of a new sentende into the weak middle of a precious one.

The Duke of Edinburgh, it is said, will, on his return from his present tour, marry the daughter of a wealthy London banker, who will start them in housekeeping with no less than twenty-five millions of dollars!

Smelt are now being caught in the Pawtucket Rivrr. This is remarkable early in Rhode Island; but Chicago River has smelt all winter, says the Chicago Mail.

Moltake says he never knew anything about the war in America, as he believed that war is a science, and he did not care to read about the mere scrambling of two armed mobs

A langhable thing took place at a revival meeting somewhere in Mississippi not long since. The minister noticed a seedy looking chap in one of the seats, looking as though he needed religion or a good square meal. So he stepped up to him and asked him if he was a Christian. "No sir," said he, "I am editor the Radical paper in this place." "Then in the name of God let us pray," replied the devoted minister.

"What is your chief consolation in this life?" asked a clergyman in his sabbath lesson, of a young girl in a Bibleclass. The young lady blushed and hesitated. "Will you not tell me?" urged the clergyman. "I don't want to tell his name," said the ingenious maiden, "but I have no objection to telling you where he lives."

A gentleman visited a school had a book put into his hand for the purpos of examining a class. The world "inheritance" occuring in the verse, the quenist interrogated one of the youngster as follows: What is an inheritance?" "Patrimony." "What is patrimony?" "Something left by a father." "What would you call it if left by a mother?" "Matrimony."

A Utica (Pa.) lawyer took part in private theatricals, and it was his first part to be struck on the face by another performer. He was knocked down, and instead of getting up and saying, 'Ha! a blow,' he turned on the other performer and began to repeat some profanity at him. The audience, who had attended to raise money for a church, seemed to be discouraged about private theatricals and went home.

Within the last month 500 colored persons have applied to the American Colonization Society for aid to go to Liberia. More negroes are now attracted to the colony than ever before.

Select Poetry.

Put Me in My Little Bed.

The following are the words of Dexter Smith's popular song, "Put Me in My Little Bed." They are musical, whether read or sung:—

O Birdie, I am tired now—
I do not care to hear you sing;
You've sung your happy songs all day's—
Now put your head beneath your wing
I'm sleepy too, as I can be;
And, sister, when my prayer is said,
I want to lay me down to rest,
So put me in my little bed.

O sister, what did mother say
When she was called to heaven away?
She told me always to be good,
And never never go astray,
I can't forget the day she died.
She placed her hand upon my head
And whispered softly, Keep my child,"
And then she told me she was dead.

Dear sister, come and hear my prayer.
Now, ere I lay me down to sleep
Within my Heavenly Father's care.
While angels bright their vigils keep.
And let me ask of him above
To keep my soul in paths of right;
O let me thank Him for His love
Ere I shall say my last "good-night."

Curious Rhymes.

What is earth, sexton. A place to dig graves.
What is earth, rich man. A place to work slaves.
What is earth, gray beard. A place ty grow old.
What is earth, miser. A place to dig gold.
What is earth, school boy. A place for nay play.
What is earth, maiden. A place to be gay.
What is earth, seamstress. A place where to weep.
What is earth sluggard. A good place to sleep.
What is earth, herdsman. A place ta raise cattle.
What is earth, widow. A place of true sorrow.
What is earth, tradesman. I'll tell you to morrow;
What is earth, sickman 'Tis nothing to me;
What is earth, sailor My home is the sea.
What is earth, statesman. A place to win fame.
What is earth, author. I'll write my name.
What is earth, monarch. For my realm 'tis given.
What is earth, christain. The gateway of heaven.

Any bounty offered?—A day or two ago a gentleman who lived at South End lost a favorite black-and-tan terrier dog. The dog was taken from the yard in rear of the house, and though he discovered his loss soon after it occured and traced the gamin who had him in two several blocks, definelly lost track of him. He made a diligent search in all the localities where he thought it likely dog fanciers might hang out, but it was not untill last evening that there seemed any prospect of success. In going down a dilapidated alleyway he encountered two precocious-looking dumplings of urchins—mere pimples of humanity—and addressing them, asked

Sonny, did you see a strange black-and-tan dog around here lately?

Did yer lose wun? shrewdly asked one of the dumplings.

Yes.

Oh, said the other, I know where there is a strange dog, sick.

You hush up, quickely interposed dumpling No. 1. Then turning to the owner of the lost dog he asked

Say, sonster, is their any bounty offered?

Yes, I'll give two dollars to find him.

Will yer, now? Well, I'll find him for yer sure. I know all the dorg stealers—don't we, Jim?

In course we do, was the reply.

But they don't find him, though, it was not long before the missing dog was restored to the owner by honest hands.

What Killed Artomus Ward.

I thought I ought not to conclude an article without letting the reader know why this bright and genial spirit is no longer here to add to the world's enjoyment. Well, this is the reason: Whenever he lectured, whether in New England, California or London, there was sure to be a knot of young fellows to gather around him, go home with him to his hotel, order supper and spend half the night in telling stories and singing songs. To any man this will be fatal in time; but when a nightly carouse, follows an evening performance before an audience, and is succeeded by a railway journey the next day, the waste of vatality is fearful rapid. Five years of such a life finished poor Charles Brown. He died in London in 1867, aged thirty-three years and was buried at the home of his childhood in Maine.

He was not a deep drinker. He was not a man of strong appetites. It was the night wasted in conviviality, which his system needed for sleep, that sent him to grave forty years before his time. For men of his profession and cast of character, for all editors, literary men and artists, there is only one safety teetotalism. He should have taken the advice of a stage driver on the plains, to whom he once offered [illegible] on the countless hosts who see this paper every week:

"I don't drink! won't drink! and don't like to see anybody else drink; I am of the opinion of those mountains—keep your top cool. They've got snow and I've got brains that's all the difference" [Jas. Patton.

Useful Article in a Family.

Ammonia is one of the handiest articles to have about the house. Fifteen cents expended at an apothecary's will get a phial full, enough to do good services about the house in many ways. For washing paint, put a teaspoonful in one quart of moderately hot water, dip in a flannel cloth, and with it simply wipe off the woodwork; no scrubbing will be necessary. For taking grease spots from any fabric, use the ammonia nearly pure, then lay white blotting paper over the spot and iron lightly. In washing laces, put about twelve drops in a pint of warm suds. To clean silver, mix two teaspoonfuls of ammonia in a pint of hot soapsuds, put in your silverware and wash it, using a nail-brush or tooth-brush for the purpose. For cleaning hair-brushes &c., simply shake the brush up and down in a mixture of a teaspoonful of ammonia to one pint of hot water; when they are clean rinse them with cold water and stand them in the wind or in a hot place to dry. For washing finger marks from mirrors or windows, put a few drops of ammonia on a moist rag and make quick work of it. If you want your house plants to flourish, put a few drops of the spirits in every pint of water used in watering. A teaspoonful in a basin of cold water will add much to the refreshing effects of a bath! In every case rinse off the ammonia with clear water.

Official reports show that in November last forty-two vessels passed through the whole length of the Suez Canal. Of these thirty-six were steamers and six sailing vessels, and of these all the sailing craft and 24 of the steamers were English.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine has anything won so widely and so deeply upon the confidence of mankind, as has this remedy for pulmonary complaints. Throughout a series of years, and among each of the nations of men it has flowed hither and thither in the ceaseless tide of human travel, its unparalleled virtues have been known, as it has become better known. Its intrinsic character and power to cure the various affections of the lungs and throat, have made it known as a sure protector against those insidious and sudden forms of disease which fall so fatally upon children, while at the same time the most effectual remedy that can be given for incipient consumption, and the last generous affection of the throat and lungs. As a precaution against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases, where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not mention the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Cold Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from miasmatous, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, or any other mineral or poisonous substance whatever, it is in no case injurious to any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicines. Our pride is gratified by the acknowledgment we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed. Disappointed persons, either resident in or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* duly.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE $1.00 PER BOTTLE.

NORTHROP & LYMAN.
Newcastle.
General Agents for Ontario.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cases are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstruction of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to healthy, by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, **Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers,** they should be judiciously taken for each case to effect the regulation or remove the obstructions which cause it.

For Dysentery or Diarrhœa, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and **Dropsical Swelling** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite and invigorates the system. Hence it is often an advantageous where no serious derangement exists. One who feels tolerably well, often finds a dose of these *Pills* makes him feel decidedly better, from their cleansing and regenerating effect on the digestive apparatus.

HUMBUG EXPOSED.

THE Subscriber begs to inform his customers and the public generally, particularly those intending to buy Furs, NOT TO RETAIN their orders, as there never was a better chance to select Furs than at my store. The stock consists of my own manufacture, and of nothing but the real article. I have none, not every bad any of the so called German Mink, French Seal, Sea Otter, British Sable, and numerous other high sounding, fictitious names, by which trashy imported articles are disposed of at fabulous prices. Is it not also true that Russian and Western Mink, being colored, is disposed of as Canada Mink? Goods made up for wholesale trade are of inferior quality.

Whether my own manufacture compares favorably with city manufactures, the following will show for itself. It was my own workmanship which secured to Mr. McIver, of Montreal, the First Prize for a set of Ladies' Furs, at the exhibition in 1868, held in the Grand Trunk Sheds at Montreal, against the following competitors:—Messrs Greene & Sons, Brahadi, Henderson, Brown, and several others; Mr. E. W. Lascack, of New York, being one of the Judges for Furs. The same Lady's set was sold to a Baltimore lady for the handsome sum of nearly $400. I believe myself capable of doing now, as I did then.

An Examination of my Stock is solicited.

The Highest Price Paid for RAW FURS.

W. LECH.

Peterboro, October 19, 1870. 42-17m

WILSON, BOWMAN & CO.

Hamilton, Ontario

MANUFACTURERS OF THE CELEBRATED

LOCKMAN SEWING MACHINE,

Take pleasure in announcing that the popularity of the Sewing Machine manufactured by them is still on the increase. They are now turning them out at the rate of 600 per month and yet have been compelled within the last two weeks to increase their facilities to a capacity of one thousand per month.

The Lockman Machine, from its capacity to sew the heaviest fabrics with linen thread, as well as the finest cambrics with No. 150 Cotton, is pre-eminently the Farmer's Favorite Family Friend.

It is so exceedingly simple in its parts, and so strongly and durably made, that it does not require a mechanical genius for its management.

The manufacturers challenge the world to produce its equal, and yet its price is from Forty to Fifty per cent. Lower than that of any other first-class Shuttle Lock-stitch Sewing Machine

EVERY MACHINE IS WARRANTED.

Select Poetry.

The Wanderer's Return.

BY ALEX. M'LACHLAN.

When many a year had come and gane,
And I'd grown auld and hoary,
And many a hope had proven vain,
And many a dream o' glory;
Then, backward to my childhood's hame
A weary langin' sent me—
I found my native vale the same,
But very few that kent me.

But oh! the hills my childhood saw
They look'd as if the knew me,
And when they might—when *law* awa',
Oh, how they did pursue me!
And there among the broomy braes,
I often paused and pondered,
Upon thes e' lither days,
Then on again I wandered.

Where stiel the burnie sped alang,
'Neath overhanging rowans,
Through glens where laverocks always sprang
Up frae amang the gowans;
And there the spring, its leefu' lane
Still on did boil and bubble,
Just as it did in days agane,
Ere earth was fu' o' trouble;

And there the school-house, auld and gray,
Still standing by the river,
And there the school-weans still at play,
And happy as ave ever:
But my companions!—where were they?
Ah, never mair we'll gather,
When school skalls, on yon broomy brae,
To scour the hills o' heather.

At length my cot appeared in view,
Oh, well I kent the biggin'!
There was the same o' erhangiug yew,
And thack upon the riggin';
And there the winnock in the en',
Wi' woodbine train'd sea trimly,
And up aboon the cosie den,
Reek swirlin' frae the chimly,

Oh, how my heart leapt at the sight!
Till I could hardly bear it,
I felt as if I wad gang gite,
For I was maist delserit;
And hurrying to the sacred spot—
Ilk thump cam' quick and quicker—
I tryed to pray, but in my throat
The words grew thick and thicker.

To hide my tears I vainly strove,
For nae ane cam' to meet me,
Nae mother, wi' her look o' love,
Nae sister cam' to greet me;
For gane were they, both ane and a',
The dear berats that I cherished—
Gane like the flowers o' spring, awa';
Or, like a a vision, perished.

This was the spot of all most dear,
Where all my dreams were center'd,
And yet, wi' trembling and wi' fear,
Beneath the roof I entered.
There was the place my father sat,
Beside my mother spinning,
And a' the bairns, wi' merry chat,
In joy around her running.

There where we knelt, baith morn and night,
There where our voices blended,
And where, for guidance and for light,
The prayer to heaven ascended.
Now faces strange on me did stare,
Where once the dear did mingle;
I thocht they had nae buisness there,
Around our happy ingle.

There, in the cottage o' my birth,
The same roof-tree above me.
I stood, a wanderer on the earth,
With no one left to love me.
Oh! I had often stood alone,
On many a post of danger,
But never wept, till standing on
My native hearth a stranger.

I sought the old kirkyard alane,
Where a' the loved are sleeping,
And only the memorial stane
Its watch aboon them keeping;
It only said thah they were dead—
Once here, but now departed;
A' gane! a' gane! to their lang hame,
The true, the gentle-hearted.

Oh, life I cried, is all a woe,
A journey lang and dreary,
If there's nae hame to which we go,
Nae heart-home for the weary.
I cleared the weeds frae aff the stane,
And lang I sat and pondered
Upon the days forever gane.
Then weary on I wandered.

Choice Literature.

The New School Act as finally Passed.

(*Assented to 15th of February*, 1871.)

Her Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:

1. All Common Schools which shall hereafter be designated and known as Public Schools, shall be free schools: and the Trustees of school sections, and the municipal councils of cities, towns, villages, and townships, shall, in the manner now provided by law, levy and collect the rate upon all the taxable property of the school division, or municipality, (as the case may be) to defray the expenses of such schools, as determined by the Trustees thereof; provided that Public School Boards in cities, towns, and villages may, if they deem it expedient, collect from parents and guardians of children attending their school, a sum not exceeding twenty cents per month, per pupil, to defray the cost of text books, stationery, and other contingencies.

2. Each school corporation shall provide adequate accommodations for all children of school age in their school division or municipality.

3. Every child, from the age of seven to twelve years inclusive shall have the right to attend some school, or be otherwise educated for four months in each year, and any parent or guardian who does not provide that each child between the ages aforesaid under his care shall attend some school, or be otherwise educated, as thus of right declared shall be subject to the penalties hereinafter provided by this Act: provided nevertheless, that any pupil who shall be adjuged so refractory by the trustees (or a majority of them) and the teacher, that his presence in the school is deemed injurious to the other pupils, may be dismissed from such school; provided that nothing herein shall be held to require any Roman Catholic to attend a public school, or to require a Protestant to attend a Roman Catholic School.

4. It shall be competent for the Police Magistrate of any city or town, and for any Magistrate in any village or township or town, where there is no Police Magistrate to investigate and decide upon any complaint made by the Trustees, or any person authorized by them, against any parent or guardian for the violation of this Act, and to impose a fine not exceeding five dollars for the wilful offence, and double that penalty for each subsequent offence; which fine and penalty shall be enforced as provided in the one hundred and fortieth section of the consolidated School Act; provided never theless, that the police magistrate or justice shall not be bound to, but may in his discretion, forgo to issue the warrant for the imprisonment of the offender as in said section is provided; Provided always, that it shall be the duty of such Magistrate to ascertain as far as may be, the circumstances of any party complained of, and such alleged violation has been wilful, or has been caused by extreme poverty, or ill health or too great a distance from any school; and in either of the latter cases, the Magistrate shall not award punishment, but shall report the circumstances to the Trustees of the division in which the offence has occurred.

5. In each county or union of counties, there shall be one or more School Officers, to be called county Inspectors, who shall have of not more than one hundred and twenty, nor less than fifty Schools each: Provided always that it shall not be necessary to appoint more than one such officer in each riding of a county: and provided further, that in counties containing any municipality wherein the French or German language is the common or prevailing language, an Inspector may have charge of any number of schools not less than forty.

6. Each city or town shall be a county for the purposes of this Act; and the Inspector shall be called the City or Town Inspector, and shall possess all the powers of a County Inspector in such city or town, except such as relate to investigating and deciding on School Trustee election complaints, which now by law devolve on the county judge.

7. The qualifications of county, city or town Inspectors shall, from time to time, be prescribed by the Council of Public Instruction, which shall determine the time and manner of examination of candidates for certificates of qualification; and no one no holding such certificate of qualification shall be eligible to be appointed an Inspector.

8. Each County Council, and each Board of Public School Trustees in a city or town, shall appoint from among those holding the necessary certificate of qualification, one person to be Inspector of Public Schools in such county, city or town; and in counties where there are or shall be more than fifty Public Schools, the County Council may appoint two or more persons (according to the number of schools) holding such certificates to be Inspectors, and prescribe and number the territorial limits of each; Provided nevertheless, that any county, city or town Inspector shall be subject to dismissal at pleasure by the Council or Board appointing him, or by the Lieut-Governor in Council, (as regards any County, Inspector) for misconduct or inefficiency; and the vacancy thus caused shall be filled from the list of those legally qualified by the Council or Board authorized to appoint such Inspector; Provided likewise, that no Inspector dismissed shall be reappointed, without the concurrence of the party who has dismissed him: And provided furthermore that in a county where there are two or more County Inspectors, the Council of such county may, from time to time, change or remove such Inspectors from one circut or riding of the county to another.

9. Each Inspector of Schools so appointed shall have the oversight of all Public Schools in the townships and villages within the county or union of counties, or part of the county or union of counties for which he shall be appointed, and shall have all the powers in each municipality within his jurisdiction, and be subject to all the obligations conferred or imposed by law upon "Local Superintendents," and which are conferred or imposed by this Act, according to such instructions as may given to him from time to time by the Chief Superintendent of Education.

10. The remuneration of each City or Town Inspector of Schools shall be determined and provided for by the Board appointing him; the remuneration of the County Inspector shall not be less than 5$ per school per annum, to be paid quarterly by the County Council, which shall also have authority to determine and provide for the allowance for travelling expenses; Provided also, that it shall be lawful for the Lieutenant-Governor in Council to direct the payment out of the Consolidated Revenue, of an additional sum not exceeding five dollars per school per annum to each County Inspector.

11. Each County Council, and the Board of Public School Trustees in each city shall appoint a county or city Board of Examiners (for the examination and licensing of Teachers in accordance with the regulations provided by law), consisting of the county or city inspector (as the case may be), and two or more competent persons, whose qualifications, shall, from time to time, be prescribed by the Council of Public Instruction: Provided always, that in no each county or city Board of Examiners, to the number of members shall exceed five: and in all cases the majority of the members appointed shall constitute a quorum for the transaction of business; and the payment of their expenses shall be provided for as authorized by the sixteenth section of the School Law Amendment Act of 1869.

12. It shall be the duty of the Council of Public Instruction, from time to time, by a committee of its appointment, or otherwise, to prepare and prescribe a programme and papers for the uniform examination and classification of Public School teachers; Provided that first class certificates of qualification of teachers shall be awarded by the Council of Public Instruction only, and second and third class certificates by County and City Boards of Examiners only; And provided also, that first and second class certificates, given under the authority of this Act, shall be permanent during the good behaviour of the holders, and valid in all the municipalities of the Province: Provided likewise, that all existing certificates of qualification of teachers shall remain in force in their respective counties on the terms and conditions of the Act under which they were granted, and that upon their ceasing to be valid as provided by law, they shall be renewed from time to time under the regulations and programmes prepared under the authority of this Act: Provided furthermore, that all Local Superintendents of Schools shall continue in office, and discharge their duties as heretofore, until provision shall be made for the appointment of County Inspectors, under the authority of this Act.

13. It shall also be the duty of the Council of Public Instruction, by the training of teachers, the programme of studies, the selection of text books, and special regulations, to provide for teaching in the public schools, the Elements of Natural History, of Agricultural Chemistry, of Mechanics, and of Agriculture.

14. The municipal council of any township may, in case a majority of the resident householders and freeholders in two-thirds at least of the several school sections at public meeting called in each section of the township, shall so desire it, from the township into one school municipality, as is each city and town, and establish a Township Board of Public School Trustees, as provided by the thirty-second section of the Consolidated School Act.

15. No school section shall be formed after the year one thousand eight hundred and seventy-one which shall contain less than fifty resident children, between the ages of five and sixteen years, unless the area of such section shall contain more than four square miles.

16. The majority of the Trustees, or any five rate payers of a school section, shall have the right of appeal or complaint to their county council against any by-law or resolution which has been passed, or may be passed, by their township council for the formation or alteration of their school section; and it may and shall be lawful for such county council to appoint a committee of not more than five, or less than three competent persons (two or whom shall be the County Judge and the County Inspector, and a majority of whom shall form a quorum) to revise and alter the boundaries of the School sections of such township, so far as to settle the matters complained of; Provided always, that no person shall be competent to act on either of the committees mentioned in the clause of this Act, who was a member of the township council that passed the by-law or resolution complained of; And provided also, that the alterations made in the boundaries of any school section by such committee, shall not take effect before the end of the year during which they shall be made, and of which alterations due notice shall be given by the Inspector to the clerk of the township and to the trustees of the school sections concerned; Provided furthermore, that the school boundaries of a village existing at the time of its incorporation, until altered under the authority of the school laws.

17. On the selection of land, as provided by law, for a school site, for the erection of a school-house and necessary buildings, or for enlarging school premises, if the owner of such land shall refuse to sell the same, or shall demand therefor a price deemed unreasonable by the Trustees of any section or Board of Trustees in cities, towns or incorporated villages, the proprietor of such land, and the Trustees, shall each forwith select an arbitrator; and the arbitrators thus chosen and the County Inspector, or any two of them, shall appraise the damages to the owner of such land, and upon the tender of payment of the amount of such damages to the owner by the School Trustees, the land shall be taken and used for the purpose aforesaid; provided nothing herein contained shall authorize the selection in a township of a site within a hundred yards of a garden, orchard, pleasure ground, or dwelling house without the consent of the owner of such site; and provided further that in cities, towns, and incorporated villages, vacant land only shall be taken without the consent of the owner or owners.

18. On the formation or alteration of a union school section or division, under the authority of the fifth section of the School Law Amendment Act of eighteen hundred and sixty. It shall be the duty of the County Inspector concerned forwith to transmit a copy of the resolution, by which the formation or alteration was made to the clerk of the municipality affected by such resolution; provided also, that it shall be competent for any County Inspector to call a meeting of the parties authorized to form and alter Union School sections, and it shall be lawful for, and be the duty of the Reeves of the Township out of which the section is formed with the County Inspector, to equalize the assessment.

19. Should the clerk neglect or refuse to prepare and furnish the map of the School division of his municipality, as required by the forty-ninth section of the Consolidated School Act, he shall render himself liable to a penalty not exceeding ten dollars, to be received before a magistrate, for the School purposes of his municipality, at the instance of any ratepayer thereof.

20. The Trustees of any School Section or municipality shall have the same authority to provide a residence for a School Teacher that they now have by law to provide a school site.

21. The report of the School Trustees required by law to be laid before the annual School meeting shall include a summary of their proceedings and state of the school during the year, together with a detailed statement of receipts and expenditure, signed by either or both of the School auditors of the section, and in case of difference of opinion between the auditors on any matter in the accounts, it shall be referred to and decided by the County Inspector.

22. Should the secretary of a trustee corporation neglect or refuse at any time to give notice of a School Trustee meeting, it shall be lawful for any Trustee to do so.

23. All moneys collected in any School by the Trustee corporation shall be paid into the hands of the Secretary-Treasurer thereof; and should the Trustees refuse or neglect to take proper security from such secretary-treasurer, they shall be held to be personally responsible for such moneys; and the provisions of the one hundred and thirty seventh section of the Consolidated School Act shall apply to them.

55. Any chairman of a School meeting, who may be elected School Trustee at such meeting, shall make the declaration of office, now required of Trustees by law, in presence of the secretary of such meeting.

25. Should the majority of the School Trustees, or the majority of a public school meeting neglect or refuse in case of a difference in regard to a school site, to appoint an arbitrator, as provided in the thirtieth section of the Consolated School Act, or should the owner of land selected as a school site, as provided by section seventeenth of this Act, refuse to appoint an arbitrator, it shall be competent for the County Inspector, with the arbitrator appointed, to meet and determine the matter: and the County Inspector, in case of such refusal or neglect, shall have a second or casting vote, provided they should not agree.

26. Should a majority of the arbitrators appointed to decide any case under the authority of the School laws of this Province, be present at any lawful meeting, in consequence of the neglect or refusal of their colleagues to meet them, it shall be competent for those present to make and publish an award upon the matter or matters submitted to them, or to adjourn the meeting for any period not exceeding ten days, and give the absent arbitrator notice of such adjournment.

27. All matters of difference between Trustees and teachers, authorized and required by the eighty-fourth, eighty-fifth eighty-sixth and eighty-seventh sections of the Consolidated School Act, passed in the twenty-second year of Her Majesty's reign, and chaptered sixty-four, the ninth section of the School Law Amendment Act passed in twenty-third year of Her Majesty's reign, and chaptered forty-nine; and the Grammar School Improvement Act of 1865, passed in the twenty-ninth year of Her Majesty's reign, and chaptered twenty nine, to be settled by arbitration, shall hereafter be brought and decided in the division court by the judge of the county court in each county; and the said clauses of the said Acts are hereby repealed, providing always, that the decision of any county judge in all such cases may be appealed from, as provided in the one hundred and eighth and five following sections or sub-sections of the said Consolidated Common School Act, and the twenty eighth section of this Act.

28. Any division court judge receiving intimation of appeal from his decision, under the authority of the one hundred and eighth and five following sections of the Consolidated School Act, shall thereupon certify, under his hand, to the Chief Superintendent of Education, the statement of claim and other proceedings in the case, together with the evidence and his own judgment thereon, and all objections made thereto.

29. The summer vacations of all the Public Schools shall be from the 15th day of July to the 15th day of August inclusive.

30. Several sections and sub-sections of the Consolidated Common School Act for Upper Canada, passed in the twenty second year of Her Majesty's reign, and chaptered sixty four, shall be amended as follows:—

1. The twenty (third section, after the words "twenty dollars," shall read, "to be sued for and recovered before a justice of the peace, by the Trustees of the School section, or by any two ratepayers for its use

2. In the second sub-section of the twenty seventh section, the words, "and shall proceed in the same manner as ordinary collectors of county or township rates and assessments," shall be amended to read as follows: "and shall have the same powers and proceed in the same manner in his School section and township, as a township collector, in collecting rates in a township or county, as provided in the Municipal Corporations and Assessment Acts."

3. The eighth sub-section of the same (twenty seventh) section shall be amended by striking all the words therein after the word salaries."

4. The ninth sub-section of the same (twenty-seventh) section, after the words "school section") shall be amended, so as to read as follows: "but they (the Trustees) shall not give such order in behalf of any teacher except for the actual time during which said teacher, while employed, held a legal certificate of qualification."

5. At the end of the twelfth sub-section of the same (twenty-seventh) section, the following words shall be added: "And in case of any omission or mistake in such roll, the Township Council shall have authority to correct it."

6. In the first sub-section of the ninety-first section, the words, "he shall apportion, but shall not give an order to pay money."

31. Wherever reference is made in any School Act to the Municipal Institutions Of Assessments Acts, it shall be held to mean those Acts, or amendments to them, which may be in force at the time of performing any duty under their authority.

32. The public schools in cities, towns, and incorporated villages shall be under the management of Public School Trustees; and each of such boards shall be a corporation under the designation of Public School Board, and shall succeed to all the property, rights, obligations, and powers of Boards of Common School Trustees in such cities, towns, and villages; provided that the Common School Boards shall continue in office until their successors are elected, as provided by the thirty-third section, of this Act.

33. The members of the Public School Boards shall be elected and classified in the manner provided by law for the election and classification of Common School Trustees in cities, towns, and incorporated villages.

34. Boards of Grammar School Trustees shall be designated High School Boards; and the Grammar Schools shall be designated and known as High Schools, in which provision shall be made for teaching to both male and female pupils the higher branches of an English and commercial education, including the natural sciences, with special reference to agriculture, and also the Latin, Greek, French and German languages, to those pupils whose parents or guardians may desire it, according to a programme of studies and resolutions, which shall be prescribed from time to time by the Council of Public Instruction, with the approval of the Lieut-Governor in Council; and the Council of Public Instruction shall have power to exempt any High School, which shall not have sufficient funds to provide the necessary qualified teachers, from the obligation to teach the German and French languages.

35. All the provisions of the Grammar School Act shall as far as is consistent with the provisions of this Act, apply to High Schools, their Trustees, head master and other officers, as fully as they apply to Grammar Schools and their officers. And as far as the fund will permit, it shall be lawful for the Lieutenant-Governor in Council to authorize the establishment of additional High Schools Act and this Act.

36. The grammar or high schools grant shall be exclusively applied in aid of high schools; and of the sums of money required to be raised from local sources for the support of a high school a sum equal to one-half the amount paid by the Government to any high School in a city or town withdrawn from the jurisdiction of the county, together with such other sum as may be required for the accomodation and support of such schools, shall be provided by the Municipal Council of such city or town, upon the application of the High School Board. In the case of a High School in towns, incorporated villages, or townships, one-half of the amount paid by the Government shall be paid by the Municipal Council of the county in which such High School is situated upon the application of the High School Board; and such other sums as may be required for the maintenance and school accommodation of the said High school shall be raised by the Council of the Municipality in which the High School is situated, upon application of the High School Board; or, in the event of the County Council forming the whole or part of a County into one or more high school district then such sums as may be required for the maintenance of the said high school shall be provided by the high school district upon the application of the high School board in the manner hereinafter provided.

(1.) The Council of any municipality or the councils of the respective municipalities, out of which the whol or part of such high school district is formed, shall upon the application of the High School Board, raise the proportion required to be paid by such Municipality or part of the municipality, from the whole or part of the municipality, as the case may be.

37. No Public or High School shall be entitled to share in the fund applicable to it unless it is conducted according to the regulations provided by law; shall be entitled to an apportionment at the rate of not less than four hundred dollars per annum, according to the average attendance of pupils, their proficiency in the various branches of study, and the length of time each such High School is kept open, as compared with other High Schools.

38. The County, City, or Town Inspector of Schools, the Chairman of the High School Board and the head master of the High School shall constitute a Board of Examiners for the admission of pupils to the High School according to the regulations and programme of examination provided according to law; and it shall be the duty of the Inspector of High Schools to see that such regulations are duly observed in the admission of pupils to the High School; provided nevertheless, that the pupils already admitted as Grammar School pupils according to law, shall be held eligible without further examination for admission as pupils of the High Schools; and provided furthermore, that pupils from any part of the county in which a High School is or may be established shall be admitted to such school on the same terms as pupils within the town or village of such school.

39. The Inspector or Inspectors of Grammar Schools now authorized by law, shall be known as the Inspectors of High Schools.

40. Every county council shall determine the limits of each High School district for each Grammar school now existing within the county and may form the whole or part of one or more township, towns and villages within its jurisdiction into a high school district; and the high school board of each district shall possess all the powers within the said district, for the support and management of their high school and in respect to the county council, as are possessed under the Grammar School Acts and this Act by high school boards in respect to the support and management of the schools under their care; and each county council may appoint and determine the continuance and success in office of six duly qualified persons as members of such high school board. Provided, however, that existing Grammar School divisions already established as allied High School districts and continue as such till otherwise altered by by-law of such county council.

41. And whereas it is desirable to encourage the establishment of superior classical schools, it shall be lawful for the Lieutenant-Governor in Council (to confer upon any High School, in which not less than four masters are fully employed in teaching the subjects of the prescribed curriculum and in which the daily average of male pupils studying the Latin or Greek language shall not be less than sixty, the name Collegiate Institute; and to warde the support of such Collegiate Institute it shale be lawful for the Lieut-Governor in Council to authorize the payment of an additional sum, at the rate of and not exceeding $750 per annum out of the Superior Education Fund, presided under the authority of the tenth section of the Consolidated Grammar School Act passed in the twenty second year of Her Majesty's regin, and chaptered sixty-three Provided that if in any year the average of pupils above described shall fall below sixty, or the number of masters be less than four, the additional grant shall cease for that year and if the said average shall continue to be less than sixty, or the number of masters less than four, for two successive years, the institution shall forfeit the name and privilleges of a Collegiate Institute until restored by the Lieutenant Governor in Council, under the conditions provided by this section.

42 The Public School Board of each city town and village may establish one or more Industrial Schools, for otherwise neglected children, and make all needful regulations and employ the means requisite to secure the attendance of such children, and for the support, management and discipline of such school of schools.

43. Each male teacher of a public school holding a certificate of qualification under the school Acts of this Province shall, and each such female teachers may, pay into the fund for the support of superannuated school teachers, the sum of four dollars annually: and each Inspector of schools is hereby authorized and required to deduct one half of such sum semi-annually from any payments made by him to any male teacher under his jurisdiction, and to admit the same to the Education. Department provided always, that any teacher retiring from the profession shall be entitled to receive from the Chief Superintendent one half of any sum thus paid in by him to the fund and provided further, that on the decease of any teacher, his wife, or other legal representative, shall be entitled to receive back the full amount paid in by such teachers with interest at the rate of seven per centum per annum.

44 The summer vacation in the schoo throughout the Province shall be from the first day of July until the fifteenth day of August inclusive.

45. The treasurer of every high school board shall submit his accounts to the county auditors to be audited by them in the same manner as the county Treasurers accounts are audited, and it shall be the duty of the county auditors to audit such accounts.

46. The one hundred and thirtieth and seventh following of the Consolidated School Act, passed in the twenty-second year of the reign of her Majesty, and chapter sixty-four, shall apply to every school trustee or other person into whose hands any school moneys or school property shall come and who neglects or refuses to account for, or deliver up the same when called upon by competent authority to do so; and the County Judge, upon application of any two ratepayers into a school section or division, supported by their affidavit of the facts made before a magistrate shall have the same jur

TO THE

Free and Independent Electors
OF THE
EAST RIDING
OF PETERBOROUGH.

At the earnest solicitation of numerous friends throughout the Riding, I have finally consented to allow myself to be put in nomination as a candidate for your suffrages at the coming election.

My long residence in the Riding, intimate connection with its municipal affairs, and knowledge of its wants and interests, will I trust, enable me, if elected, to advance its various requirements.

I am in favour of the present Administration believing that the majority of its measures, have been good, and that its policy has as a general thing, been wise and economical.

Whilst convinced of this, I cannot however say that I will be its slavish supporter, irrespective of the understood wishes of the people. The man who is a slave to party is too often led to become the dupe of faction and bigotry, and to countenance every description of governmental extravagance and corruption.

The time being so limited it will be impossible for me to make a personal canvass, but still I hope to visit a large part of the Riding previous to the day of voting, and explain more fully my views on matters of public importance.

I have the honor to be,

Gentlemen,
Your ob'dt serv't
PETER PEARCE.

The Peterborough Examiner

PETERBOROUGH, MARCH 9, 1871.

Two New Railway Schemes.

Mr. John Fowler called in our office yesterday to inform us that he is now endeavouring to resuscitate the Cobourg and Peterborough Railway, with the intention of positively passing through Bobcaygeon to Haliburton. This, we believe, is a feasible scheme.—and if carried out would be advantageous to Peterborough, as well as Cobourg and Bobcaygeon.—The road is already made to Peterborough except the crossing of Rice Lake. Mr. Fowler assures us that the approach to Bobcaygeon from this town is easy and practicable. It would only require twenty-four miles of a road to thus secure Railway Communication with Bobcaygeon, and thus have a fifty-four miles of a read. But we must wait and watch, in a few days Mr. Fowler will return to Peterborough when we hope to be able to report progress, but still we must wait and see.

The Second Project comes from the Belleville People, and is, we understand, as follows;—Extend the Grand Junction to Millbrook crossing the Otonabee at Wallace's Point, unite with the Midland and thence to Beaverton and the West. This scheme leaves Peterborough in the cold, nine miles northward. Just so. If the Belleville and Midland people can. We understand that there are communication now between the Grand Junction and Midland Companies. What next? The Grand Junction people are thus willing to sacrifice this town or any other town to their own interest.

Measures Not Men.

In the present election, if ever, those principles should prevail. At the last contest we are begged to give men a trial. They had no measures to place before the people. The electors of Ontario were induced to do so, by cogent reasons, the money bags, and what have those men done. Have they originated a single good measure? They were dependent wholly on Blake for every good measure—for every liberal measure. They introduced many bad measures, however, and by their strength, and the subservience of the members from Peterboro, they have been enabled to pass too many of them; our members have given an undivided support to John Sandfield, and by that means the surplus has been placed in the hands of men who are ready to use the promise of it as an inducement to coerce the electors of this county to support their too pliant tools.

Now, are we to continue this granting of money to a government who can so mesmerise their followers, by touching and turning them into gold, so that men are afraid to give an independent vote for fear of the purse string being drawn, and no grab obtainable afterwards.

Should we not rather place the Government, and consequently control of the legal tenders in the hands of men like Mr. Blake who are prepared to take statemen-like views of all great questions, and deal with them on their merits—doing justice to all parts of the country.

The Political Sin.

The conservative party who have voted side by side with the Roman Catholic Electors of these ridings for 17 years are howling fearfully lest their former allies should leave them, and join cause with reformers. For 17 years their favor was courted, their friendship invited and their votes sought out earnestly. But the past is not the present. The catholic voters are not willing to remain with men who are banded together only to oppress and impoverish the county, while they seek to enrich themselves. They are wearied of the yoke that has become intolerable, and the howl is heard from Rice Lake to Buckhorn, if not throughout Ontario. An alliance with conservatives was right, of course to vote for reformers is wrong. Who raised the sectarian cry, the cry of papist fenian! The men who pandered to every demand made by the hierarchy and granted ever thing asked by Lower Canada. The men who granted the Manitoba Bill with all excessive and exclusive privileges, but who now, the hope of their gains being gone howl, unholy—unholy. Shame on you Tories. fie on you, old friends, to remain for 17 years in an unholy alliance, to use your own words, and now that you are in fear of being left to shift for yourselves, *you cry*, unholy. Do you hope thus to gain friends for yourselves? If you do your new friends will find themselves sold, awfully sold. For there is no gratitude in you.

Reformers, you have been the exponents of liberal principles. You hav fought for freedom civil and political, and religious. You have been the first in all times to ally yourselves with the oppressed to remove the yoke of bondage, of feudalism, of intolerance, of injustice, are you not now as free as you were of yore? Are you not now ready to extend to all men the right of voting as they please.

Reformers, are you voting for men or *for Reform principles*? Would you refuse to support the man who bears your standard because he may worship differently from you? If so we must commence sectarian campaigns which would, indeed be far from advantageous to this or any county.

The Ladies Committee of the "Protestant Home" desires to return thanks for the following donations received in February: Mrs. Smith, Jelly for the sick; Mrs. W. G. Thompson, bran and Apples for the Cow; Mrs. Taylor, parcel of Clothing; D. Lendrum, 3 large fish; Mrs. Mack, Biscuits for Mrs. Ryan; Mrs. Kempt 2 large fish; Mrs. W. G. Thompson, a jar of Preserves; Mrs. Scott, a parcel of clothing: Miss Roger, cap for Mrs. Young and Jelly for the sick; D. Lendrum, 3 large fish.

East Riding.

Mr. O'Donohoe is everywhere received with respect and listened to with attention. He spoke at Hastings, on Friday evening, to a very respectable audience, and was well received. Mr Read was there and spoke—but although in Mr. Read's former stronghold, there are very few there who will vote for him now. Mr. P. Pearce also addressed the electors, his leanings evidently being with Combinations. After the meeting a resolution was moved and carried by a large majority, expressing the confidence of the reformers present in Mr. O'Donohoe, and binding themselves to use every reasonable effort to secure his election. The good old staunch reformers are rallying to his standard and promising him their support, although every effort possible is being made to injure him, he is every day gaining strength in the Riding.

The cry that he is an outsider is raised against him. This is more clad trap. Mr. Blake who so ably represented South Bruce, and who did most to shape the legislation of the past four years, is an outsider.

Mr. Richards, the Minister of Crown Lands was an outsider, and to-day is trying his fortune in Oxford.

Mr. O'Donohoe, however, did not seek to be a candidate for the East Riding. He never solicited it. He was asked to come to Peterbore for the purpose of uniting the two classes of reform electors of the riding. His character as a citizen of our common country is untarnished, and his political history has been reform ever since a boy. The worst that his enemies can say is, he is a Brownite—a grit. He has differed from this co-religionists politically.

NORWOOD.

Mr. O'Donohoe held a meeting on Saturday evening, at Norwood. At this meeting Mr. Pearce was present, and after Mr. O'Donohoe addressed the electors, here, a resolution was carried in favor of bringing out Mr. Pearce as a candidate.

Mr. Read was nowhere at Norwood. Mr. O'Donohoe had a large number of supporters present, and he was well received indeed, even in Norwood, the stronghold of Toryism.

Dummer is still Reform—on Monday evening Mr. O'Donohoe met a most enthusiastic reception. At Warsaw the good *old reformers of the township* are true to themselves, and are determined to *vote* for reform principles.

At Ashburnham on Tuesday at two o'clock Mr. O'Donohoe addressed a large meeting of electors from all parts, it being fair day.

Here he gained golden opinions for himself. He is a good speaker, and good reasoner, and his retorts are so biting as to make his opponents tremble.

Mr. Read was at this meeting. He defended *the entire legislation of the last four years*, and avowed his intention, if elected, to vote for the continuance of the same state of things. He said he was prepared to *leave everything to the Ministry* so as to make them responsible. He did not know the amount he voted to the school of Technology stating that he believed it to be about $20,000, while it is really $50,000; Mr. O'Donohoe naively remarked that if Mr. Read did not know how much money he voted away, he was surely unfit to represent the Riding. He also gave a description of the patent combination machine, with John Sandfield moving his men, on the black-board, which caused roars of laughter.

Mr. Pearce declared that he was a candidate, and declared also, that his motto was "no surrender"—he would go to the polls.

Mr. O'Donohoe was also well received at Keene on Tuesday evening. The meeting had to be adjourned to the agricultural building. Messrs. O'Donohoe, Read, Pearse, W. H. Scott and Alex. Frazier, of Northumberland, all addressed the meeting. Mr. O'Donohoe and Mr Frazer exposed the works of the Combination, condemned their reckless voting of money into the hands of an unscrupulous Ministry.

A committee was formed to canvass the locality and the most hopeful prospects are entertained of even a majority for reform in Mr. Read's stronghold.

OTONABEE.

The following are the names of Mr. O'Donohoe's Committee in Otonabee:—

James Millar, Chairman.
Thos. C. Short, Secretary.

Jas Anderson	Jas Campbell
Wm Learmonth	Jas Shearer
Gerard Patterson	Thos Epon
Malcolm Campbell	John Wood
Duncan Drummond	John Gillespie
Jas Lang	Wm Miller
Andrew Nelson	Wm Nelson jr
John Millar	John Lang
D P McFarlane	Thos Lang
Jas Drummond	Jas Sinclair
Wm Drummond	Jas Nelson
R Short	Rich Epon
A Shearer	And. Epon

The Committee will meet at Keene, on Thursday and Saturday evening, at 7 p.m., sharp.

The Campaign.

Mr. Fairbairn commenced his campaign last week under the most auspicious circumstances. The electors of the West Riding are completely disgusted with the conduct of their late member Mr. Carnegie. His votes have been so unscrupulous and subservient to John Sandfield McDonald's Government, so subservient that the electors are determined to leave him at home for the next four years. His attempts to force the electors of Smith and North Monaghan into his pet schemes, and to saddle those townships with a debt that the next generation would not see paid, has rendered him obnoxious to the majority of the electors. They have also lost confidence in him as a public man. He went to Parliament four years ago, pledging himself to support a grant to the denominational College; he voted directly opposed to those grants, at the beck of John Sandfield, and even against the extension of the grants for a few years to prevent embarrasment to those institutions.

To the Catholic electors of the West Riding he was indebted for his return four years ago. But his conduct toward them *since* has alienated the whole body, and hence their great desire to cast him off and force him into private life again, never again to be heard of.

Mr. Fairbairn, too, comes before us with reputation as an able, intelligent and reliable Reformer. A liberal man, whose warmest convictions are in favour of good government, responsibility of ministers, and equal rights to every citizens of this fine province.

At the meetings in South Monaghan, the most cordial reception has been accorded to him, and the warmest promises of support.

In North Monaghan, too, where his opponents last time made excessive efforts, Mr. Fairbairn has received the kindest and strongest assurance that he will have a majority.

And in Town, the past stronghold of that party, the scene is turned. Instead of a majority, Mr. Carnegie will find himself behind. He held a meeting in the Music Hall, on Tuesday evening, supported by Mr. J. Dennistoun & Co., but Mr. Fairbairn and Dumble so completely used the "twins" up, that they became crest fallen—the hope of their gain is gone.

For 16 years hitherto our Catholic fellow electors have supported the Conservatives; this election they avow their intention of casting their influence and votes with Reformers. This causes consternation in the Conservative camp. They are all like dead men. To counteract this they raise the cry "unholy alliance."

But it is due to the electors to know Mr. Carnegie courted the influence of the Roman Catholic electors—solicited but received a rebuff and rebuke for his pains.

And now they try to ride the high Protestant horse. It is no go however.

The Roman Catholic electors won't acknowledge Mr. Carnegie, and the Protestant horse kicks badly—he is not tractable, and hence their desperate efforts and wailings. But it is no use, Mr. Fairbairn is the peoples' candidate and will be elected by a large majority.

Mr. Carnegie called a meeting at Montgomery's, Smith, on Wednesday, but not a soul appeared but one, and he a supporter of Mr. Fairbairn—that is how the electors of Smith treat him.

At Garbutt's School house he addressed a few people, probably about 10, as of those present 20 were from Douro and Town. He tried to defend his past career, but to the satisfaction of very few except his hangers on from town. Mr. Stratton, on behalf of Mr. Fairbairn, asked the electors to wait till this evening, before pledging themselves, as Mr. Fairbairn would then address them, and would be able to answer for himself, place his principles before them, and make explanations. The people could then judge for themselves and decide, and he felt confident that their decision would be in favor of Mr. Fairbairn, and to allow Mr. Carnegie to stay at home.

Mr Carnegie at the close of his remarks made a desperate effort to obtain Protestant votes on the howl about Mr. O'Donohoe running in the East Ridings, and that Mr. Fairbairn had entered into a compact with him. He also tried to raise the contemptable fenian cry against Mr. O'Donohoe, his brothers, and all the family.

Mr. O'Donohoe not being present, Mr. Stratton refuted the false charge against Mr. Fairbairn, declaring in the most positive terms that Mr. Fairbairn was no party to any arrangement whatever. That Mr. Sutherland and Mr. A. B. Kidd, moved, and seconded the nomination of Mr. O'Donohoe and about twenty-five others present assented to it. He also referred to the rottenness of some protestants who would howl, O'Donohoe, and yet vote John Sandfield through thick and thin. Who would cry "Fenian" at Mr. O'Donohoe and yet serviley support a Catholic Premier. He urged consistency, declaring his readiness to sooner vote for an honest Catholic, than a rotten protestant, without principles. Mr. Carnegie raised the charge of inconsistency on the Railway By-law. This will be attended to next week.

Burleigh Council.

Apsley, 17th Feb., 1871.

Council met.

Present S. W. Clegg, Reeve, Councillors, John McDonald Edward Sanderson and Richard Spencer.

MOTIONS.

That the Collector be requested not to enforce payment of taxes till 15th of March. That the Auditors Report for 1870 be adopted, and abstract published.

PETITIONS.

From B. Hales for remission of taxes in consideration of work done on road.

From Trustees S. S. No. Cardiff, for assistance in building School House.

Petitions laid over.

APPLICATIONS.

From John Anderson for extension of time to pay taxes; dismissed. From William White for remission of taxes; dismissed. From Peter Phalen for Tavern License; granted.

APPOINTMENT TO OFFICE.

Henry Eastland, Treasurer in lieu of Thos. Staurt, resigned. William Myers, Assessor, salary $30 and Tavern Inspector, $1,50 per license.

ORDERS ON TREASURER.

Peter Phalen $6.00. remission of taxes. Daniel McDonald, $31.99; remission of taxes. Reeve, $6·00. attending sale of lands. Thomas Staurt, $17.00, services tendered. Lafayette Reid, $2.00 statute labor. John Horan, $3.00 statute labor.

Chit-Chat from Asphodel.

To the Editor of the Peterboro Examiner.

SIR:—Knowing your columns are ever open for the discussion of all public matters, *and the doings of public men*, I take the liberty of calling the attention of the electors of our county to some of the very unwise legislation supported by Messrs. Read and Carnegie, during their brief Parliamentary career.

I have heard many of the electors here in Asphodel say they were led to believe when these gentlemen were stumping the two ridings prior to last election that if elected their votes would always be given for good measures, no matter by whom they originated, that they would give the Sandfield government a *fair* trial, and if found not to be acting for the benefit of the country, they were ready to vote another government into power who would; that, in fact, every measure brought up by which the County would be a gainer; would receive their streanous and eloquent support, while on the contrary ever thing bad would be demolished outright, and Reformers were soundly abused for even hinting that this "fair trial" "no party" cry meant support to Sandfield, &c., though thick and thin. Well. Sir, how stands the case?

When I tell the electors of Peterborough, that Mr. Blake's motion, asking for an humble address, to his Excellency, the Lieut. Governor in order to secure the trial of the murderers of Scott. was voted down by Messrs. Read and Carnegie, so that the murderers got free. Yet a few miserable tools of Sandfield & Co., can be found to vote that our Ontario Parliament have no business asking or seeking redress, or to *try* to have the murderer of a Canadian brought to justice, or to express even an *opinion* that the act was a wrong one or an outrage.

Sandfield puts his foot on the spring and up pops Messrs. Read and Carnegie, to vote nay to this proposal. Yet they shout loyalty and call Reformers Rebels while by their votes they openly encourage rebellion and murder. Electors! think seriously over this matter.

Again, it is really amusing to see how Carnegie wriggles in defending his vote on the surplus division. Your readers are aware that by witholding for several years, what was known as the land improvement fund due to municipalities, which simply means robbery of the people, and, from other sources Sandfield & Co have accumulated a large amount of cash, which they denominate surplus gained by their extreme economy and good management. This money they have been trying to get rid of in every way but that which will apply equally to all. In opposition to the government scheme, which Carnegie, in the *Review* takes good care to say nothing about, Mr Blake moved that the money be divided amongst the County municipalities of Ontario according to population. Was ever a more just measure brought up in the House? By this arrangement our County would secure $63,000 in hard cash, but Messrs. Reid, negie & Co., acting from the force of Sandfield's spring, pop up and say *no!* Verily, these are wise legislators when the interests of the county are at stake! But is it not sharp practice considering their pledges before election? Had Mr. Blake's motion been carried and a further division been made, each township in our county would receive as follows:—Asburnham $1,529; Asphodel $7213; Belmont and Methuen $3,374; Burleigh &c., $641; *Dummer $5,660;* Douro $6,544; Ennismore $2,366; Galway $393; Minden $655; Dysart &c., $2,639; Monaghan $3612; Otonabee $15,030; Smith $11,370; Harvey $1,333; Snowden and Glanmorgan $294.

If voting down so just a proposition is independently supporting good measures, then I confess I am blind to the interests of my county, but unfortunately for Mr. Reid, the people here think as I do, and that is that he and his chum Carnegie are a fine pair of legislators for any county to be cursed with.

And, Mr. Editor, is it not in contemplation to establish a Registry office for the East Riding by this precious pair? Who in the name of common sense asks for this additional burthen on the people. The building with its books and furnishing would cost the county thousands of dollars; but this is nothing so long as a nice nest is provided for one of these gents to step into when defeated. Do the inhabitants of Burleigh, Minden, Dysart, and Douro, ask to have this office established that they may be obliged after coming to the county town, to trudge down here to Norwood or Keene to do their registry business. Electors! there is but one way, and that is to kick these gentlemen out. I like to see improvement in our midst but not a such a sacrifice of the money and convenience of the ratepayers. Think, Electors, Think!

As I have already trespassed too much on your space, I shall not refer to several subjects I intended to, but close by saying that if the action of these two independent legislators in taking from the magistrate of our county and of the whole country, the right to audit the County Jail, &c., accounts at no cost to the county and of their railway legislation. More anon.

I am, &c.,
P. P. P.

Asphodel, 8th March, 1871.

To the Editor of the Peterboro Examiner.

DEAR SIR.—

In the columns of your contemporary—the *Review*—of the 24th ultimo, I was very much surprised to see the following paragraph, which I know to be utterly false.

"THE MIDLAND RAILWAY. We understand that the Directors of the Midland Railway have decided to dispense with the service of A. T. Williams, Esq., as Superintendent of that road. We are sure this change will meet with universal approval of those having business to do with this gentleman, as it has been quite evident to the public for some time past that Mr. Williams has grown quite 'too large' for his business."

It is difficult to think of a reason for the publication of the above insult to Mr. Williams,—a gentleman who has won the esteem of all who have had the pleasure of meeting him either in a business capacity or otherwise, for the proprietor of the *Review* would not have to go very far back in his own files to find that Mr. Williams has been spoken of in the very highest terms of praise, very frequently in the columns of that journal. There is a *small souled* piece of spite,—either of the proprietor's or some one whom he has permitted to stab in the dark at Mr. Williams,—being gratified here. I think the latter is the most likely, and call upon the proprietor of the *Review* to publish the *sneak's* name as he will see from the following correspondence which appeared in the last issue of the Port Hope *Times*,—a paper which has every facility for being posted in Railway matters,—that he has been grossly deceived with regard to the manner of Mr. Williams' leaving the employ of the Midland Company. Mr. Williams has many friends in Peterborough who will be pleased to see him receive justice at the hands of the *Review* in this matter. The *Times* says:

"We received, yesterday, the following letter from the President of the roads:

"Port Hope, March 1, 1871.

"Dear Sir,—I herewith enclose you a copy of a letter from A. T. Williams, Esq., to the Midland Railway Board, tendering his resignation as Superintendent; as also a copy of the resolution of the Board; accepting the same under the circumstances.

"Yours truly,

"H. COVERT
"President Midland Railway.

"The following is a copy of Mr. Williams' resignation.

"Port Hope, Feb. 17, 1871.

"*The President and Directors of the Midland Railway:*

"GENTLEMEN,—I beg leave to tender my resignation to the office of General Superintendent of your line, which I have had the honor to hold under your Board for nearly five years; said resignation to take effect on the 31st of May, 1871.

"I have the honor to be

"Your obedient servant,

"A. T. WILLIAMS.

"P. S.—I hope to regain my health during the coming summer. It gives me great pleasure to acknowledge the uniform kindness with which you have always treated me, and I shall ever cherish the remembrance of my connection with you, and will do all in my power to promote your interests, as well as those of the Midland Railway.

"A. T. W.

"Copy of resolution passed by the Board accepting the above:

"Moved by the Hon. Sidney Smith, seconded by Lewis Moffat, Esq.—That the resignation of A. T. Williams, Esq., as General Superintendent of this Railway, be accepted. At the same time the Board wishes to express their satisfaction with the management of the Superintendent during his connection with the Road, and a fervent wish that he may be speedily restored to his accustomed good health.—Carried.

"(Signed,)
H. COVERT.
"President."

I think, Mr. Editor, the above effectually settles the falsity of the first part of the *Review's* paragraph; and with regard to the latter part of it—to those who enjoy the the privilege of Mr. Williams acquaintance—we need not say it is equally false, mean and contemptable.

Mr. William's health has failed a great deal during the past year, hence his withdrawal from the position which he has so long held on our railroad.

Trusting you will give the above a place in your columns.

I am truly yours,
FAIR PLAY.

Peterborough, March 6, 1871.

To the Electors of the two Ridings of the County of Peterborough:

I wish to give my reasons why I support and why I think you ought to support the Reform Candidates for the two Ridings of this county, at the approaching elections. You will all remember that at the last election, the then candidates, Messrs. Carnegie and Reid, and their political friends took great pains to have you believe that all political and party distinctions were abolished and that under the order of things your representations were to be the representatives, not of tory or reformers, but of the whole people, knowing no political party. There is no doubt but that, believing these representations to be made in all fairness and sincerity, many of you gave your votes to Messrs. Carnegie and Reid, and that these two gentlemen were the chosen of the County under the belief that they would respect declarations which they declared were honestly made. But, to use a homely saying, "the proof of the pudding is the eating of it," and so the proof of the sincerity of these gentlemen's professions was not true in these sayings and doings in parliament. The government was also nominally formed upon this no party basis and the members of it were exhibited as proof that henceforth there were to be no political differences and that the lion and the lamb were about to lie down together. Misled by these protestations many of the electors throughout the province began to believe that the millennium in politics had really come and they hastened to testify their joy by voting for candidates whose past political lives have all been conservative, but who, they hoped would be so no longer. But they were not long in finding out their mistake. Their representatives had obtained four good long years of office and they could now show their hand. Their power was in their own keeping and their deluded constituents, no longer the masters must bow down Cæsar. Whilst making these professions, the conservatives now silently and carefully bring forward men of their own political party as candidates in every county in the province and quietly giving them their undivided support and it is a remarkable fact that not a single conservatives vote was giving to a reform candidate. In this way, whilst misleading reform voters, conservatives succeeded in securing the return of many of their own candidates even in counties where reformers predominated. Now mark the result of these no party politicians. The moment the elections were over a demand was made for no increase of the conservatives element in both the Provincial and the Dominion Governments upon the ground that a majority of conservatives composed the two legislatures. The no party cry had served its purpose and was now cast aside. Both governments persued a strictly conservative party course, and all their acts partook of a strict party character. Party lines were at once drawn in both legislatures and legislatures was conducted, as of old, upon party principles, and all appointments to office were made from a strict party point of view and as encouragement to men professing reform principles were passed by. Such has been the conduct of the conservatives of Ontario and of the Ontario Government in the last four years. But the people hav again the opportunity of exercising their power and I trust that this time they will exercise it wisely and not be again deceived. Messrs. Carnegie and Reid again come before you soliciting your votes, but this time they must do so as party men and as conservatives. Re- [illegible] know what to do, and if they but do their duty, their candidates will represent both ridings of this county in the next legislation. Although professing to belong to no political party before the last election, yet the moment Messrs. Carnegie and Reid enter parliament they throw off the mask and openly and at once declared themselves to be conservatives and from that day down to the present all their votes were given in support of the Government and alway against every act of the opposition, and so slavish were they in this support that in some instances they voted with the government against measures because introduced by the opposition and afterwards reversed their votes upon the same measures at the bidding of the government whom the latter were at length found to support them, as; for instance, the questions of aid to denominational colleges and the bill relating to contested election.

The Premier of Ontario is the nominee and servile supporter of the Premier at Ottawa. He indorses all the proceedings of the letter, and votes in support of all measures introduced by the Government at Ottawa. He gives all his aid to help keep in power Sir George E. Cartier, and thus keep Ontario under the dominion of the French leaders of Quebec, whose control of the Dominion is required by Sir John A. Macdonald and his political friends in the Dominion Parliament. And Mr. Sandfield McDonald does not and dare not give his support to [illegible] without which has a tendency to embarrass his leaders at Ottawa. Many people have the opinion that the Government at Toronto is conspicuous for its economy, and that it is through their good management that the large surplus which Ontario possesses, has been accumulated. But this is a great mistake. This surplus is the fruits of Confederation, and comes from that source alone, and all the Ontario Government has to do in the matter is to receive the money. But do they show a disposition to take care of it and to deal with it as they should deal with the money of the people, that is, expend it through the votes of the peoples' representatives in Parliament.—On the contrary, they have demanded the right to spend a million and a half of this money free from any control of the peoples representatives, and Messrs. Carnegie and Read voted to give them the power to do so, a power which is intended to be used to control the elections and to be employed in the interest of those who support them. This act of Messrs. Carnegie and Reid is sufficient of itself to withdraw from them the votes of their constituents at the approaching election; and I trust that they will show their sense of their wrong which their representatives have done them, and their self respect by giving their support to the opposition candidates, who are not afraid to allow the people say how their own money shall be spent.—Your representations also showed their economy by voting to expend the enormous sum of $110,000 upon a Governor's residence in Toronto; and the public accounts will tell you of the thousands of dollars which have already to be expended in keeping up this extravagant establishment—money taken from the hard earnings of the people, and which should be laid out in improvements, from which the people can derive some benefit. Just think of the Government spending $6,500 on a strip of garden attached to the Governor's residence, and this too with the assistance of the votes of Messrs. Carnegie and Read, $10,000 for stables.

Mr. Blake introduced a bill to render persons appointed to offices of emolument by the Government and paid from other sources, ineligible to seats in Parliament, in order that the people's representatives might be independent, but this bill was voted down by Messrs. Carnegie and Read

The sum of $1,565,000 was expended by the Government last year, but they ask for and obtain for this year, by the votes of Messrs. Carnegie and Read, $2,602,890. This will show you the sincerity of these gentlemen when they go to you and tell you of their good management and boasted economy. In 1869 the expenditure was $1,144,606, and in 1868 it was $1,185,852. This is a little over two years the public expenditure under our very economical government has more than doubled. The expenses of every department of the government are largely increasing every year, and if Government go on as they have been doing, the public expenditure will soon be in excess of the revenue.

I will now give you some of the votes of your late representatives to show you how well they carried out their pledges given you before the last election, and to show you how completely they have ignored all their professions of independence and no party, and to show you what servile supporters they have been of the Government

They opposed granting the franchise to men possessing incomes from four to six hundred dollars. Mr. McDougall moved the following resolutions, resolutions which surely aimed to do but common justice to a large class of settlers, but they were voted down by Messrs. Carnegie and Read, viz:

1. That with a view to attract immigration into this Province, it is expedient to provide, that, on and after the first day of April, immediately subsequent to settlement on any lot, the regulations of the Government having been complied with, the locatee of such lot should have the right to cut and dispose of the timber on it free from any Government charges.

2. That the right to cut pine on timber berths during at least ten years, subject to the foregoing resolution, be given to the license holders, under such charges for ground rent, duty, &c., and such provisions as may be made by the Government.

On the 8th January, 1869, Mr. McDougall moved a resolution declaring that an expenditure of $110,000 for the Governor's residence at Toronto, was in session. This very proper resolution was voted down by Messrs. Carnegie and Read.

On the same day Mr. McKellar moved that the people's representatives should have the control over the expenditure of the people's money. But this was also voted down by the same two gentlemen.

In January 1869, Mr. McKellar asked the Government to show to the House in what manner they proposed to spend the large sum of $200,000 as gratuities to certain public officers, but Messrs. Read and Carnegie voted not to give the information.

During the session of 1869, Mr. Blake moved certain resolutions disapproving of the subsidy to Nova Scotia granting to it $82,998 yearly for two years and assuming its debt to the extent of $1,188,756, in all equal to $2,000,000, of which Ontario has to pay $1,000,000. Messrs. Carnegie and Read voting down these resolutions, thus doing an injustice to Ontario of $1,000,000.

In December 1869 Mr. McDougall moved a resolution "That no works should be undertaken under the drainage act, on granted lands unless a majority of the owners interested within the local municipality shall petition for such works." This resolution was voted down by Messrs. Carnegie and Read,

Mr. Boyd moved the following resolution:

That the said resolution be referred back to the Committee of Supply, for the purpose of specifying certain localities and improvements to which, or some of which, the sum of $200,000 mentioned therein will be applied, so as not to leave so large a sum of money to be expended at the mere will of the Executive, without a previous vote appropriating the same, as far as possible, to particular works.

This very proper resolution was also voted down by Messrs. Carnegie and Read.

In the assessment law amendment bill was a clause introduced by the opposition, doing away with the

Minden.

SUNDAY SCHOOL CONVENTION.—A most successful Township Sunday School Convention was held at Minden on the 2nd inst, lasting from 2 o'clock until 10 p. m. Five Townships out of seven answered to the invitation of the Secretaries, the Rev. F. Burt and Mr. D. McFarlane appointed by our County Convention, and only the heavy thaw prevented a full representation. Particulars in our next issue.

CHURCH SOCIAL.—At the Church of England Parsonage in Minden, a pleasant season was passed on the evening of the 28th ult. A full hundred persons formed a "Social," and a flock of good things abundantly forthcoming, and enjoyed music and readings also. As the result $26 was left by entrance fees towards the building fund of the new Church, Minden Village. [illegible] who will send the Clergyman a donation towards it?

In the village and neighborhood of Minden, quite heavy rains and vivid lightning occurred on Thursday last. March coming in "like a lion" this year, forgetting, if the ancient adage be true, of a pleasant and mild exit.

The proclamation has arrived in the Northern part of the East Riding, and the [illegible] tion.—CON.

CHARACTER.

When we look back over the history of the past, or about us at the present time, and see [illegible] from the contemporaries to go down to the future, as a model and a guide, does not the question arise in every mind, especially those just starting on the great journey of life, *Whence this difference?* None will deny the power of genius but will not a candid thinker decide, beyond a doubt, that something more potent even than genius itself has wrought out those results—and is that power firm, unbending integrity of character—that builds underfoot every life as the solid strata does the hills and dales, giving them contour and shape? It may sink till the service be only a desolate waste, or they rise, grand in its lofty proportions, a fit waymark for coming generations.

Moral worth is the only true basis of character. Wealth and position, without it, are powerless; and every day, if watch the world about us, will we see some who have made these their foundation, sink as their level not always to raise again. Talent, without this aid, has a short-lived day—a meteor-glare soon to give place to the gloom of obscurity; yet, with it, what a mighty power may that same talent yield. The deathless character of a Washington had for this a foundation. Fame as well as a friend acknowledged its power, and gave to him the meed of true gratitude. Yet had one mean act, some slight [illegible] tarnished that life, how different would it have been! His most noble examples would have half their force, and Cromwell, like, his greatest self-devotion would have been criticised and depreciated.

AN EARTHQUAKE.—Of earthquakes in its most distructive mood nearly seems to strick the solid ground a heavy blow from beneath. This is by far its most fatal form. Nothing can resist the concussion. The earth itself seems to mive into the air; the strongest buildings start upwards, crumble into ruins and fall in a confused heap upon their occupants; the land slides away from its accustomed places, and whole fields and towns are driven through the air to the tops of hills or to some distant region; men and cattle are shot out as if from a catapult and fly like missiles over the land until they fall, bruised and bleeding upon the earth; and, as if repulsed by escaping the dangers of darkness, the fearful concussion is sometimes repeated three or four times, until the whole face of nature is changed into a chaos of ruin. At the great Calabrian earthquakes a man was carried, in an instant, together whith the field on which he was laboring, to a distant part of the valley; at Riobamba the ponies of the inhabitants were hurled through the air to the top of a neighboring hill. The Calabrian shock was described as resembling the explosions of a subterraneous mine, which did its fearful work in an instant pin Chili, a witness of one of the severe earthquakes describes it as a sudden explosion, accompanied by a noise like that occasioned by the discharge of countless cannon. So perfect is the change produced on the face of nature that hundreds have frequently arisen after an earthquake as to wholly removed from their ancient bounds In the indiscriminate destruction and removal it was impossible for men determine what was their own.—*Harper's.*

SOMEBODY SAYS.—There is something peculiarly attractive in a horse. His intelligent eye and ear, his lofty courage, his free and graceful motion, his vast strength, his excellent temper, and his indispensable use, endear him to us. We have to look at his fine proportion and take in the inspiration of his energy and power," but it is only when the horse is properly cared for—when he is free from disease or unsoundness of any kind that he will exibit these points of attraction and without which he is of little value' A package of "Dr. Dorley's Condition Powders and Arabian Heave Remedy," shall be in possession of every man who owns a horse, to be used in case of emergency Don't fail to get it. Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Newcastle, Ont proprietors for Canada. [Sold by all Medicine dealers.

A very earnest effort is being made by the Regents from the States to make the home of Washington safe and habitable for visitors. The corridors need rebuilding, the cellar to be drained, and a furnace put in for winter, the 100 acres purchased need care and the garden and greenhouse to be looked after. Mr. W. W. Corcoran, of Washington was one of the visitors last summer, and was so much interested that he offered to plant ornamental trees wherever the ladies desired, and to rebuild the old summer house of stone, or brick, as should be thought best. He also gave to the association an edition of the "Authentical Copy of the Last Will and Testament of George Washington, never before published entire, together with the complete plates for futur editions. New Jersey, also, though the enery of Mrs. Gen. Halstead, has furnished completely one room in the mansion. Who it is asked, will further embark, or restore the lofty old Ealling corridors, and thus associte his name forever with the "American Mecca?"

MARRIED.

McDONALD—ROBINSON.—At Foxelon Falls, on Tuesday, the 7th inst., by the Rev. S. Tapscott, Mr. Wm. R. McDonald, to Miss Elizabeth J. Robinson, both of Bobcaygeon.

DIXON—JOHNSON.—At the residence of the Bride Father, on Monday the 6th inst., by the Rev. W. T. Smithett, M. A. Mr. B. C. Dixon, Teacher in the Norwood Grammar and Common school, to Miss Louisa M. daughter of J. A. Johnson, Esq., both of Norwood.

USEFUL INFORMATION.—It is said that olive oil administered internally, is an excellent remedy for the gout, and is also beneficial in paralysis and epilepsy; but for the cure of rheumatism neuralgia, colds and colic and the removal of pain generally, their is nothing like the "Canadian Pain Destroyer," it is the most reliable remedy. For sail by Druggists and Country coalers Price 25 cents per bottle.

PETTIGREW CONCERNING STUFF OF HYPOTHESIS.—This will not only supply the waste going on in the brain, but will enable the mind to secure a greater tax than before.

It will impart vigour and promote clear conceptions to the intellect. It will strengthen the nerves and give power to all the involuntary as well as the voluntary muscles of the body.

☞ Consumption, so prevalent and so fatal is dreaded as the great scourge of our race, and yet in the formative stages, all pulmonary complaints may be readily controlled by using, "Bryan' Pulmonic Wafers." They will relieve the worst cough in a few minutes, and have a more beneficial influence on the bronchial and pulmonary organs—but they must be used in time. For sale by druggists and stagers, will also derive great benefit by using them. Sold by all druggists and country dealers. Price 25 cents per box.

[illegible] wrong to jest while your upon a subject in which their is danger of wounding her feelings, and it is wrong to speak of great virtuous in another [illegible] wife to [illegible] own fault, but it is [illegible] "Canadian [illegible] Destroyer" and [illegible] wonderfull effect [illegible] it by [illegible] for [illegible] of rheumatism, neuralgia, cramps, colic, &c. it has no equal. For sale by Druggists and country dealers. Price 25 cent per bottle.

THE GREAT FEMALE REMEDY.

Holloway's Pectoral Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It [illegible] all kinds of [illegible] obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on [illegible] monthly period with regularity.

These Pills should not be taken by Females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, [illegible] Weakness, on slight exertion, Palpitation of the Heart, Asyarrics, and Whites, the Pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

[illegible] $1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Wholesale Agents, Toronto, Ont., general agents for the Dominion, will ensure a bottle, containing over 50 pills, by return mail.

Iron ore, taken from the bank hills near the highest level of the Union Pacific Railway, has been smelted at Omaha and found of excellent quality, yielding 80 per cent, of superior metal These hills of the ore lie near the railroad.

ONE HUNDRED DOLLARS A WORD.

For every word in the following certificate found untrue, after writing to the parties named: and to the U. S. Consul, at Rio Janeiro, the sum of one hundred dollars will be paid.

Rio de Janeiro, Feb. 21th, 1866.

Messrs. Raymundo C. Leite & Bro:

Gentlemen:—While a son of my friend Mr. Francisco de Mattos Pinreuta [a large proprietor, in the Chiad de Campos] was staying at my house he was attacked with intermittent fever. Immediately I sent for the very clever Dr. Tonoco, who is thought a good deal of in Campos, but the fever instead of diminishing, turned, continued, and typhoid, the boy (14 years old) could not speak, would not take the broths, and it required a great deal of coaxing to make him swallow the medicines. Dr. Tonoco. declared that there was not the slightest hopes of saving the boy's life, also it would be advisable to write to his father and inform him of the state of his son's health. As that moment I thought of the well spoken Dr. Radway & Co's medicaments, and applied them in the following manner: One teaspoon of Relief in a tumbler of water, dividing it three doses a day; frictions with the relief pure on the chest, back and wrists; three of Radway's Pills every day, and well covered so that he might perspire. Second day, half an hour after meals, one dessert-spoon of Resolvent and water. In the fourth day he was able to get up from bed to the astonishment of every one who witnessed the miracle of Dr. Radway & Co's. medicaments.

I remain, gentlemen, your very obedient servant

Joaquim Pinto Fifeao, Merchant.

Dr. Raday's Remedies are sold by Druggists and County Merchants. See Dr. Radway's Almanac for 1870.

DEAR FRIENDS:— * * * My wife blesses these preparations, when she thinks that after three nights and days of suffering of violent pains in the stomach, brought on by overdoses of Quinine, by the use of four drops of Radway Relief" in some water, she was able to sleep tranquil all night, and the next day she was completely re-established. I have also cured a slave from heart disease with "Ready Relief" and "Pills," and have also cured sore throat, rheumatic pains, toothache, headache, &c. With the "Resolvent" I have cured Erysipelas Skin diseases &c.

It is my full impression that the "Pills" are the best purgative that can be found, not alone for the facility with which they can be taken, but also as they do not cause griping or make you feel sick.

I have a son of five years old now, who took the "Ready Relief" when 4 months old, as he suffered from some irregularity in the bladder, preventing him from making urine. The following was the treatment: 20 drops of "Relief" in a cup of water, and divide into portions of a tablespoon, which he took every ten minutes which cured him. He has since had colic, which I treated in the same way, and also rub the stomach with it (pure.)

Major Joaquim Vieira de Silva Pinto, proprietor, in the Cidade Leopoldina, can prove that after more than ten years suffering from Paralysis, through the medium of poor remedies he obtained that which he had been deprived, and thought at the time that he would never be able to get, and that was the use of his legs.

You can fully believe that there are a great many people in this vast empire who truly confess that they owe their life to the use in time of your precious medicines. You can make use of this as you think proper.

I remain, dear friend,
Your obedient, &c.,

Signed SIARO DE BARATO LEITE

On inquiring for these Remedi s ask for Radway's, as the country is flooded with imitations, Sold by Druggists and Country Merchants.

See Radway's Almanac for 1870.

QT
BUSINESS EDUCATION

PETERBOROUGH BUSINESS COLLEGE and Telegraphic Institute. The only representative in Ontario of the Bryant & Stratton International Chain of Colleges.

The Theory Department is thoroughly adapted to those who wish to lay the foundation of a sound business education.

The Practical Department is a miniature business world, where each Student performs all the routine duties of office work, such as buying, selling, chipping, commission, and drawing notes, drafts and checks. A regular Bank o issue is in connection with this department which beautifully engraved bank notes, which is as perfect in its details as the best organised institution in the Country.

Thorough instruction in Telegraphy. Life Scholarship good in forty Colleges. For terms address.

ODELL & TROUT, Toronto.

September 31st, 1870.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alterative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phathisic or Asthma, and restores to vital activity the system debilitated by suffering had disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, Diptheria, pains in the side, loins and back, neuralgia, tecthache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superseding all other [illegible] of the kind

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billions cholic, cholera infantum, dysentery, &c.

Price only thenty-five cents per bottle.

NORTHROP & LYMAN,

UNFAILING EYE PRESERVERS.

LAZURUS, MORRIS & Co's

CELEBRATED

Prfected Spectacles

AND EYE GLASSES.

The large and increasing sales of these Perfected Glasses is a sure proof of their superiority. We were satisfied that they would be appreciated here as elsewhere, and that the reality of the advantages offered to wearers of our beautiful lenses, viz: the ease and comfort, the assured and readily ascertained improvement of the sight, and the brilliant assistance they give in all cases, were in themselves so apparent on trial, that the result could not be otherwise than it has, in the almost general adoption of our Celebrated Perfected Spectacles by the residents Of this locality.

With a full knowledge of the value of the assertion, we claim that they are the most perfect optical aids ever manufactured. To those needing Spectacles, we afford at all times an opportunity of procuring the best and most desirable.

DR. W. H. TAYLOR

Corner of George and Hunter Streets,

Has always on hand a full assortment, suitable for every difficulty.

We take occasion to notify the public that we employ no pedlars, and to caution them against those pretending to have our goods for sale.

CONCERTINAS AND VIOLINS,

A very large assortment. Attention of the Musical Public is solicited to the fact that they can procure the best PIANOS and MELODEONS without going outside of Peterboro.

A. B. KIDD is Agent for

THE CELEBRATED BRADBURY PIANO

The successful rival of the Steinway, &c. He is also Agent for

W. BELL & CO'S PRIZE MELODEONS,

The Melodeons that carried off the prizes at the Provincial Exhibition. ☞ Both Pianos and Melodeons kept on hand.

PIANOS AND MELODEONS!

THE BRADBURY PIANO,

Which has met with triumphant success, and has successfully competed with the best Piano in the world, and has received the highest testimonials from Gottschalk, Mason, Sandersen, Pattison, Berge, Zundell, Heller, Fradel and others,

IS SOLD IN PETERBOROUGH BY A. B. KIDD.

He also sells the WEBER PIANO, which, to those who wish a cheap instrument, is equal to any of its class.

W. Bell & Co's Melodeons are supplied by A. B. Kidd.

These instruments received first Prizes at the Ontario Provincial Exhibitions for 1868 and 1869; also at the Quebec Provincial Exhibition held in Montreal, September, 1870. At the Ontario Provincial Exhibition held in Toronto, October, 1870. W. BELL & Co. received the First Prize and Diploma for the best Harmonium or Large Cabinet Organ, and the First Prize for the best Melodeon. It is universally acknowledged that in the manufacture of Melodeons W. BELL & Co. excel all other Canadian makers, having taken the First Prize on Melodeons at the last three Provincial Exhibitions. As to Organs or Harmoniums it must be remembered that The Diploma just received by W. bell & Co. is the only one awarded during the last seven years at any Provincial Exhibition. ☞ All instruments warranted for five years, and satisfaction guaranteed.

PAPER BAGS AND WRAPPING PAPERS

Are supplied by A. B. KIDD at Montreal Prices.

Dealers will find it advantageous to give him their orders, as he has made arrangements with one of the largest firms in the Dominion, which enable him to supply Bags and Wrapping Paper at Wholesale Prices

Peterboro, November 15, 1870. 48tf

Select Poetry.

To Canada's Sons.

[illegible]
To this glorious land you're wedded by your fathers to you;
Ever uphold fair Canada's land,
The brightest on earth, with heart and with hand:

Be true to your colours, the fathers you left,
But first in thy heart be thy country to thee;
Let her name be your watchword, her right to uphold,
Her honor and fame, as pure as of old.

Be ready to spring at the country's call,
Her shores to keep free, or with her to fall;
Land of thy births, 'tis thy heritage free,
And to bleed further cause is an honored one.

Let the strains of [illegible] all heavy and swift
On the foulhardy [illegible] would venture to sift
The soil of thy [illegible], whose blood stains the land
That's left to [illegible], to the strength of thy hand.

Let thy c[illegible], which sleeps in peaceful repose,
Take note of the warning, and burst on thy foes;
Like the discharge of the tempest, the hurricane's roar,
When the wild waves are dashing on the lee bound shore.

Keep thy country as sacred, as free as the air,
And when the foe comes, if come he should dare;
Let him see that her virtue in war is not flown,
That she'll honor the brave, but the coward disown.

A Boy Again

A couple of gentlemen in Reno were not long since whiling an evening away by singing songs and relating anecdotes; when he asked for the song "Would I were a boy again," at which 'Old Pi Ute" (John X. Kinsley) The most patent fellow but refused. "A boy again! who would be a boy again if he could? to have the measels; mumps and itch; to get licked by bigger boys and scolded older brothers to stub your toes, have the belly-ache from swallowing cherry stones, to have chopped hands and frozen toes, to slip up on the ice to do chores, to get whaled by a thick-headed school master, to be made to stand up as the "dunce" for the amusement of the school, to have visitors come to the school, tell you how miserably weak and stupid you were when you were born, and ask you what should become of you at that interesting time in your life if your parents had not been so patient with and kind to (of course it was all one's fault that he was [illegible], and his parents were in no way concerned in the matter) to eat at the second table, when company comes, to eat cabbage leafs because you are little and consequently it won't make your back ache much, to be made to go to school when you don't want to, to get spelled down in school, to lose your marbles, to have your sled broken, to get bit in the eye with frozen apples and nasty snow-balls to cut your finger, to lose your knife, to have a hole in the rear of your only pair of pants when your pretty cousin comes from the city to see you, to be called a coward if you dont fight at school, to be whaled at home if you do fight at school or the streets after a little girl and vowed she'd tell her, to have a boy too big for you to lick, tell you your sweet-heart squints, to have your sweet-heart cut you dead and affiliate with that [illegible] John Smith whom you hate particularly because he set your nose up the week before, to be made to go to bed when you know you ain't sleepy to have no firecrackers on the Fourth of July, no sickles on Christmas to want a piece of bread and butter with honey and get your ears pulled, to be kept from the circus when it comes to town and when all the other boys go, to have the kanker rash and stone bruises, to be called up to kiss all the old women that visit your mother, to be scolded because you like Maggie Love better than your own dear sister, to be spitted with scorching times little boys hand whilst fun and are not like George Washington, to catch your big brother kissing the pretty school ma'am on the sly and to wish you was big so you could kiss her too, and—oh bah, go being a boy again.

Why is a kiss like exotica? Because it is made out of nothing.

George Agusta Sala is said to be master of all tongues except his own.

Why is a woodchuck like a sausage?—Because it's a ground hog.

A farmer gathers what he sows, while a seamstress sowes what she gathers.

On the banks of the Dead Sea, the traveller stands on the lowest ground in the world—1,310 feet below the level of the Mediterranean. Its depth is 1,308 feet, length 46 miles, breadth 16 miles. It swallows up the Jordan, and has no outlet.

The Earl of Derby, at the Liverpool School of Science, gave a short but comprehensive deliverance on the question of women's right:—"Any work of industrial or scientific kind which woman are fitted to do, they ought not to be excluded from doing; any work which they are not fit to do they will exclude themselves from doing.

The wave on which many a poor fellow has been carried away, is the wave of a lace handkerchief.

When an Irishwoman applied for relief at Portland the commissioner asked "How many children have you?" "Six, yer honor!" "How old is the youngest?" "He youngest is dead, yer honor; but I've had another since!

One of the most remarkable facts of the day is the valor of the French editors in New York, who throughout the war have been more vehement than Gambetta himself in their demands for fighting to the death and who consider the capitulation of Paris a fit occasion for beginning the agitation for a new war of revenge. One is led to suppose that no near, connection of these ferocious gentlemen then their wives' relations can be within reach of the conscription, or of the shots from Krupp guns and one is moved to commend to them a certain familiar fable of Aesop in which a trumpeter takes a prominent part.

Christine Nilsson, it is stated is engaged to a young Frenchman, a stock-broker, who was one of the most gallant defenders of Paris. This is Christine's tenth engagement since she has been in this country.

"The Schoolmaster Abroad."—The following [names excepted] was recently found in a School Register, under the head of "Remarks" by visitors:

"The Scholars is getting A long very well, and Miss White is a good Teacher And I am Satisefid.

john brown."

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
Liver, Kidneys, Skin,
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS,
Perfectly Tasteless,
ELEGANTLY COATED.

Dr. Radway has [illegible] one of the most extended observations in medical chemistry—in the combination of [illegible] for the purposes of
PURGATIVE MEDICINE. [illegible] that can be [illegible] with absolute certainty
[illegible] EVACUATION OF ALL
[illegible] Elements of the
[illegible] take in the most
[illegible] cases where the
[illegible] viscera are suffering from [illegible] disorder, or from
LIVER,
Stomach, Kidneys, Pancreatic Complaints,
DR. RADWAY'S PILLS
Supply the [illegible] vegetable substitute for
CALOMEL or MERCURY.

In RADWAY'S PILLS you have one medicine that will remove [illegible] more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner. As a proof of this—You are advised with a Bilious Attack; Dysentery prescribe Blue Pills or Calomel to [illegible]; Some Drastic Aloetic Pill or Powders to work off the effects of the Blue Pill: this prescription performed a task is most severe, or a gentle operation, whereas ONE DOSE OF RADWAY'S PILLS will do either, and they take [illegible] more prescriptions are given for, without rendering one sick from mercurializing or salivating the system.

RADWAY'S PILLS.

In RADWAY'S PILLS, *the true principle of purgation is* [illegible]—not shock to the office of digesting the humors and excrementia from the bowels, but those humors that are absorbed or stopped in their passage through the [illegible] *Kidneys, Lungs*, and all excreting or secreting functions; for if those excrementitious [illegible] belonging to the skin, liver, bowels, kidneys, are interrupted in their passage, they become products of decay and decomposition, and must be purged from the living body through their proper channels; hence the purgative qualities of RADWAY'S PILLS extend to the secretions of the SKIN, KIDNEYS, LIVER, &c.; whereas not one of the advertised Pills claim to act beyond the bowels.

How to Take Radway's Pills.
THEIR DAILY USE.

In doses of one or two pills, by all persons of a full habit of body, subject to giddiness, rush of blood to the head, palpitation of the heart, and all those symptoms [illegible] to [illegible], will not only keep the [illegible] from becoming [illegible] or cleansed up in the blood vessels, but will equalize its circulation, and prevent sudden attacks of apoplexy, diseases of the heart, congestion and all diseases of the Lungs, Bronchial, Stomach, Bladder, Womb, Throat, &c., and Urinary Organs.

In all Wasting Diseases, such as Involuntary Loss of Sperm, Emissions, Weakness of the Genital Glands, Leucorrhœa, and all Uterine difficulties, Gravel, Lime Stone, Brick Dust, Uric Acid, and Calculous Concretions, the Sarsaparillian Resolvent is a positive cure. In Dropsy, Diabetes, unCured Venereal, Syphilis in its many forms, it cures when all other medicines fail.

EVERY DAY

an increase of flesh, weight, and strength is experienced. It is Fat-tissue, Caloric or Heat-making. It is to the blood what OXYGEN is to the atmosphere—it supplies the life principle. It [illegible] moves from the surface all Spots, Blemishes, Pustules, Tetters, Rash, Flesh Worms, Sores, &c. imparting a Clear & Beautiful Complexion to all.

CERTIFICATE OF BEAUTY.

The following letter is from a highly-gifted lady, well known in the "circles of our best society:"

[illegible]

I had not much confidence in your SARSAPARILLIAN RESOLVENT. Having been challenged for the use, [illegible] with BLOTCHES and PIMPLES, I resolved, at all events, to try it, and took TWO TEASPOONFUL three times a day, [illegible]. It is not quite OVER EIGHTY since I commenced its use, [illegible] a BLOTCH, spot, blemish, or distinction of any kind remains on [illegible]

[illegible] Jersey City P.O.

Ayer's
Hair Vigor,
For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* This hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. *Nothing* can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,
PRACTICAL AND ANALYTICAL CHEMISTS,
LOWELL, MASS.
PRICE $1.00.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the accustomed use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: Ld. St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Uterous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for exhibiting these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa or Whites, Uterine Ulcerations*, and *Female Diseases*, to which females are subject, are speedily and permanently cured by its purifying influence. [illegible] in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great recoverer of the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affecting symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

HUMBUG EXPOSED.

THE Subscriber begs to inform his customers and the public generally, particularly those intending to buy Furs, NOT TO RETAIN their orders, as there never was a better chance to select Furs than at my store. The stock consists of my own manufacture, and of nothing but the real article. I have none, nor ever had any of the so called German Mink, French Seal, Sea Otter, British Sable, and numerous other high sounding, fictitious names, by which trashy imported articles are disposed of at fabulous prices. Is it not also true that Russian and Western Mink, being colored, is disposed of as Canada Mink? Goods made up for wholesale trade are of inferior quality.

Whether my own manufacture compares favorably with city manufactures, the following will show for itself. It was my own workmanship which secured to Mr. Molver, of Montreal, the First Prize for a set of Ladies' Furs, at the exhibition in 1868, held in the Grand Trunk Sheds at Montreal, against the following competitors:—Messrs Greene & Sons, Brahadi, Henderson, Brown, and several others, Mr. F. W. Lesesak, of New York, being one of the Judges for Furs. The same Lady's set was sold to a Baltimore lady for the handsome sum of nearly $400. I believe myself capable of doing now, as I did then.

An Examination of my Stock is solicited.

The Highest Price Paid for RAW FURS.

W. LECH.
Peterboro, October 19, 1870. 42-17in

WILSON, BOWMAN & CO.
Hamilton, Ontario
MANUFACTURERS OF THE CELEBRATED
LOCKMAN SEWING MACHINE,

Take pleasure in announcing that the popularity of the Sewing Machine manufactured by them is still on the increase. They are now turning them out at the rate of 600 per month and yet have been compelled within the last two weeks to increase their facilities to a capacity of one thousand per month.

The Lockman Machine, from its capacity to sew the heaviest fabrics with linen thread, as well as the finest cambries with No. 190 Cotton, is pre-eminently the Farmer's Favorite Family Friend.

It is so exceedingly simple in its parts, and so strongly and durably made, that it does not require a mechanical genius for its management.

The manufacturers challenge the world to produce its equal, and yet its price is from Forty to Fifty per cent. Lower than that of any other first-class Shuttle Lock-stitch Sewing Machine.

EVERY MACHINE IS WARRANTED.

Choice Poetry.

A Great Man.

BY OWEN MEREDITH.

And man is great and he alone,
Who serves a greatness not his own,
For neither praise nor pelf;
Content to know and be unknown,
Who in himself.

Strong is that man, he only strong,
To whose well belong,
For service and delight,
All powers that, despite of wrong,
Established right.

And free be is and only he
Who from his tyrant passions free
By fortune undismayed;
Rules power upon himself to be
By himself obeyed

If such a man there be, where'er
Beneath the sun and moon he fare,
He cannot fare amiss;
Great nature hath him in her care,
Her cause is his.

Time cannot take him by surprise;
Fate cannot crush him; he shall rise
Stronger from overthrow,
Whose arms a Heavenly Friend supplies
Against Heaven's foe.

The merely great are all in all,
No more than what the merely small
Esteemed them; Man's opinion
Neither conferred nor can recall
This man's dominion.

Lord of a lofty life is he,
Loftily living, tho' he be
Of lowly birth; tho' poor,
He lacks not wealth, nor high degree;
In state obscure.

Though saddened, soil'd not, broken not,
Tho' burthen'd by his mortal lot
To strive with mortal sin,
And scald away with tears the spot
That sinks not in

Yet not with downward eyes morose
Bent on himself, nor ear so close
Held to his own heart's cell,
But what he sees, and hears, and knows,
And doth love well.

For though he lives aloof from ken.
The world's unwitnessed denizen,
The love within him stairs
Abroad, and with the hearts of men
His own confers.

The Judge upon the Justice-seat,
The brown-backed beggar on the street.
The spinner in the sun;
The reapers reaping in the wheat,
The wan-cheeked nun—

He nothing human alien deems
Unto himself, nor disesteems
Man's meanest claims upon him;
And where he moves, the mere sunbeams
Drop blessings on him.

Choice Literature.

The Dark Deed.

"Now, good-bye, Robert. Take care of yourself, and don't cross the quarries till the moon has risen."

It was a pretty fair haited girl who said this, standing at the gate of the little garden in front of her father's cottage, with both hands clasped in those of a tall, good looking young man.

"Why, Jessie, who would have supposed you such an arrant little coward?" was his reply, looking tenderly down into the blue eyes uplifted to his. "I have crossed the quarry ground a hundred times, and met with no harm."

"But harm may yet come," answered the girl, half laughing half serious. "I dare say poor Alec. Kersey passed unharmed as often as you have done, yet he was killed at last. And you know yourself, Robert, what father said only this evening—that the old quarry-pits are dangerous even by day, much more by night."

"The moon will be full to-night," answered the young man, confidently, "and I know every foot of the pathway by which I came. It is dangerous only at the Hawk's Nest, where the footing is so narrow between the cliff and the edge of the pit; but I take a firm hold of the oak sapling and so swing myself around the point."

The girl shuddered as she said:

"But if the tree were to break?"

"No danger. I've tried its strength a hundred times, Only, Jessie, darling he added, in a lower and softer tone—"only I wish the time were come when I need not travel three miles every night to see my little wife."

Then followed low whispered words, and a tender, lingering embrace, and the lovers parted; Jessie watched the form of her betrothed, as he walked lightly away, till it was lost in the darkness.

There were other eyes also watching the retreating figure—eyes which had glared jealously and vengefully upon the two during the whole of the interview—an unseen resident in their Eden.

Mathew Hutton had been about to enter his own house on the lot adjoining that of John Bayne—Jessie's father—when he was arrested by the appearance of the lovers walking slowly down the little flower-bordered walk to the front gate. Screened by the alter-hedge between them, he had kept still, and watched and listened.

Ever since he could remember he had loved Jessie Bayne—loved her with the mad, jealous, impetuous passion of his uncontrolled nature. It mattered not to him that one was the beauty of the village, while he himself was homely, in person, rough in manner, and of a temper so violent and morose that he was equally dreaded and disliked by most persons. He had determined, that Jessie should be his wife. And though she had twice repulsed him—at first gently, then with a decision and haughtiness which had aroused his temper—he had never given her up, until the words which he had heard between the two, had crushed whatever hope he might still cherished, and aroused in its place the three passions most violent of all others, especially in natures such as his own—love, hate and jealously.

Instead of going into the house, as he had at first intended, Matthew Hutton left the garden and walked down the village street, and so out into the fields beyond, his hands buried in his pockets, his head bent, and his eyes, over which the thick black brows were contracted, bent moodily upon the ground. He never looked whither he was going, but wandered on, only now and then muttering a smothered curse, or a fierce imprecation as he stumbled against a tree-trunk in the darkness.

He paused at length, and, removing his cap bared his hot brow to the cold night air and looked as one just awakened from a dream.

Mathew Hutton stood still a moment gazing about him. Then suddenly turning he strode rapidly in the direction of the ridge. On the way he had to pass a hut standing alone on the edge of the common, and here he paused, reconnoitered, and stepping cautiously to the window, looked in.

Two figures sat by the fire—one that of an elderly man, whom he knew as Jabez Harker, one of the overseers of the quarry workers, and the other Robert Fletcher.

Harker lived quite alone, and here Hutton knew it was Robert's custom, in passing this way on his visits to Jessie, to step in and have a chat with the occupant with whom he was a favorite.

This sight seemed to satisfy Hutton. Creeping cautiously around the hut on tiptoe, he approached a wood-pile behind it, and, by the faint light of the now just rising moon, peered about until he had found an axe which lay there. As he took it up his eye fell upon a saw leaning across a wood-horse, and with a look of satisfaction he took this, and replacing the axe, made his way as cautiously as before out of the yard and across the common toward the rocky ridge.

Upon nearing this he had to slacken his pace to a more cautious walk; for now the ground began to be broken in rits and hollows, which grew deeper as he proceeded. It was the commencement of the old deserted quarry-ground, and as the edges of these pits had gradually crumbled away, and were, moreover, overgrown and partly concealed by ferns and shrubbery, it was, as Jessie Bayne had remarked, a dangerous risk to attempt to thread one's way among them after dark.

Still, Hutton went on fearlessly, following a narrow pathway which wound alone the margin of a steep ravine, until he reached a spot where a point of rock jutting sharply from from the precipice on the right approached so near the edge of this descent as to leave barely a foothold for the passenger bold to attempt it. A slender oak sapling had found root in a crevice of the rock above. This was the dangerous pass to which Robert Fletcher had alluded by its well known name of The Hawk's Nest.

Matthew Hutton paused and surveyed the spot, and then cast a hasty glance behind him—bending his ear to listen. He heard only the dripping of water from the rocks into the yawning chasm below, and the shrill hoot of an owl at a distance, sounding like ghostly laughter. The moon had risen now, her lower dish just touching the hill-tops, and by her yet imperfect light he set about his guilty work.

A few strokes of the saw to the root of the sapling was sufficient. Carefully testing his work, and ascertaining that the trunk was more than two-thirds severed through and would yield readily to the weight of a man, he cautiously withdrew from the perilous position, and, concealing the saw beneath a ledge of the rock, prepared to retreat from the spot.

He was too late, however; for at that very moment the clear notes of a man's voice was heard singing the well-known words of "Annie Laurie,' and Hutton had just time to retreat into the deep shadow of a rocky niche close by when the form of Robert Fletcher appeared in sight.

He came on with a light and active step, walking fearlessly yet cautiously along the uncertain edge of the precipice. When within a few yards of the dangerous point we have mentioned, he stopped, turned and looked for a moment towards the broad, bright moon, now shining in unclouded lustre in the clear October sky, and casting long, black shadows among the rocks.

What were his thoughts? Had he a presentiment that this was his last look at nature? Or were his thoughts of other things—of Jessie, and of her warning and her tenderness? It was betrayed in the words "God bless her!" as turning, he again proceeded on his way.

A few steps brought him to the perilous spot where grew the oak sapling. To pass in safety here was almost impossible without grasping and supporting one's self by the stem of the tree, which about the thickness of a man's arm. For this purpose it was used by all who ventured this dangerous way, as Matthew Hutton well knew.

Fletcher gave one look down into the black, rocky chasm beneath. It was enough to have caused even strong nerves to quail, but he was used to it. Planting his foot on the narrow edge of the pit, he scarcely wide enough to afford a foothold, he, with with his right hand, grasped firmly the stem of the oak sapling, and with a sudden impetus swung himself round the sharp projection of the rock to the other side.

It was the work of a moment. With the first motion the sapling, instead of supporting him as heretofore, bent slowly with his weight!

Then there was a sudden crackling and rending sound, a rush, a cry, and a struggle, and all was still.

Trembling in every limb, with thick cold drops of moisture on his brow, Matthew Hutton crept out of his concealment, and stood in the broad moonlight—stood there, for the first time in his life, a murderer!

He must have felt this, as he instinctively shrank away from the light, and seeking again the shadows, crept stealthily along, amid the rocks and bushes—every now and then pausing and straing his ear again to that dreadful cry. But all was now still save the dismal, mocking owl-hoot, and the low moaning of the breeze amid the tree-tops. He did not turn back homeward by the way he had come, lest he might chance to meet some passing straggler, but took a circuitous route in the direction of the hills. He would reach home about one or two o'clock when all the village would be sound asleep, and so be able to steal into his garden and gain his chamber unseen. And who would ever suspect him of this deed? There he felt himself safe.

Let us now return to the unfortunate victim of this foul deed.

When Robert Fletcher found himself falling, his first impulse was to grasp more firmly the treacherous support to which he clung. The sapling did not break but drooping entirely over the face of the precipice, hung, suspended by its tough ligaments. In this position Fletcher found himself hanging about six feet below the level of the pathway above, and could see that this pathway consisted of a projecting ledge of rock, beneath which on a level with his feet, was another similar ledge, forming the floor of a sort of open cave or hollow, was resembling a large side room. To reach this was now his effort; for he saw that every attempt to draw himself upward by means of this frail support only rendered his present situation more dangerous, not only by reason of the strain upon the oak, but because of the loose rocks which each moment brought rattling down upon his head,

By carefully grasping at and supporting himself by the sharp projections of rock, the young man at length succeeded in gaining a precarious position within six feet of the lower ledge. This standing point, however was crumbling beneath his weight, and now venturing all on an inevitable effort, he made one spring, and fortunately landed in safety on the edge of the level rock.

But how should he extricate himself further from his position? For this ledge like the upper, projected sheer over the precipice, affording no possible means, that he could perceive, of affecting a descent.

Closely examining the recess in which he stood, he presently discovered a hole, about three feet in height, leading further into the rock, and heard within at some distance, the dripping and trickling of water. He was faint and thirsty, his hands and face bleeding from the bruises and scratches they had received, and kneeling down he crept into the opening, and so on for a yard or two, until he found he could stand erect beneath the enlarging cavern And then, remembering that he had about him a box of matches, he struck one and by its brief and flickering light, looked around.

It was a sort of natural narrow and arched passage way in which he found himself. A slender rivulet of clear water trickled down the face of the rock, and disappeared at a short distance. Having refreshed himself with a draught from this, Robert turned, with a natural curiosity, and further pursued his way along the narrow passage.

The little rivulet, trickling merrily along, seemed to lead the way. Perhaps, he thought, this was the scource of one of the numerous springs in that locality, in which case he would doubtless soon come to the outlet. Cheered by this thought, he pressed on, the passage now narrowing, now widening, until suddenly it appeared blocked up altogether, except for an aperture too narrow to admit of the passage of his body through.

Fletcher lighted another match, and then proceeded, by means of a loose fragment of rock, to break off or displace the the jagged projections about the aperture. Once more lighting a match—and it was his last—he saw that it was now large enough to allow him to pass; but at the some moment his attention was attracted to a peculiar glittering appearance about the rocks which had broken. A momentary close scrutiny satisfied him of its nature. He had more than once heard vague talk of a suspected or forgotten silver mine in this vicinity, and he now felt convinced that he had come upon a rich vein of this precious metal. Carefully securing the fragment in his pocket, he pressed on his way, and was soon sensible of a cooler and freshier breath of air, which assured him that he was approaching the outlet of this natural tunnel

A few moments thereafter he caught a faint gleam of light sparkling upon the little rivulet, and a dozen more paces showed him its outlet, through an opening not larger than that at the entrance of the passage, and so over hung by the twisted roots of a huge oak tree as to ge almost entirely hidden. However, by the virgorous appliation of a sharp knife which he always carried about him, and his own great personal strength he at length effected a passage through the obstructions, and stood once more in the free open air beneath the moonlit sky.

Faint and exhausted, Fletcher sat down to recover himself. As well as he could judge by the positions of the moon and the stars, he had been two hours on his subterranean journey. As to his fall, it had never for a moment occurred to him that it had been otherwise than accidental. And then he thought of his discovery in the cavern. Doubtless he could now soon marry Jessie. And just here his meditations were interrupted by the sound of a heavy footstep on the pathway which came winding down from the ascent, and past the spring, on its way to the village Robert Fletcher, reclining quite still in the shadow of the thicket which surrounded the spring, saw the fact of the new-comer, as he came slowly forward, and stopped to drink at the fountain. It was Matthew Hutt; and Fletcher wondered less at seeing him there at this hour than at his pale and ghastly face and restless eye. After quaffing freely of the water, Hutton dipped his head into the spring, dried it and his hands in his pocket-handkerchief, and stood erect, as if refreshed.

'Thank God!' he muttered, loud enough to be heard by the unseen listener—'thank God, it's over, and he's out of the way—curse him! And now for Jessie.'

As the words fell upon Fletcher's ear a light of conviction, broke slowly upon his mind. And as the truth now broke upon him, the young man arose slowly to his feet, and walked out of the shadows into the clear moonlight, confronted his enemy and would be murderer. He was ghastly pale—his face still stained with blood where it had been bruised in his fall, and his voice was, in his agitation, hal ow and sepulchral.

'Matthew Hutton,' he said, 'I know you now. You wished to kill me, but I am yet alive.'

Mathew Hutton was at heart a coward. Moreover, he was superstitious, and no sooner did he behold what he considered the ghost of his murdered victim, ghastly and bleeding, then a mortal terror seized upon his soul. It was Fletcher's avenging spirit which thus confronted him; and in this belief he uttered a wild cry, and with one bound sprang down the ascent.

We have said that the quarry pits wer dangerous, and that it required the utmost caution in any one attempting to thread his way amongest them. Is was not likely that Hutton, in his flight, should think of coution; and he darted along the narrow pathway, and down the steep descent, without a thought of the gaping pits which lay below. It was only when he saw the black mouth of one of these right before him that he attempted to stop himself. But it was too late. And Robert Fletcher, looking after him in awe-stricken horror, heard one wild, despairing shriek—saw a dark figure disappear suddenly, as swallowed up in the deeper darkness beyond—and never again did he look upon Matthew Hutton alive.

They found his body next morning far down in the bottom of the pit, horribly mangled and mutilated. And the subsequdi-covery of the hidden saw, the instrument and evidence of his murderous deed, left no doubt in the minds of any of his guilt, and awoke awe stricken wonder at the awful retribution which has befallen him. Fletcher's discovery of the lost silver mine proved as he had anticipated, of great interest to himself. He was made a manager participant in the concern; and in a few months thereafter married pretty Jessie Bayne, and was a happy and prosperous man.

A Miser's Misery.

The story of Bonard, the Miser, who dying left $100,000 to the Society for the Prevention of cruelty to Animals, is told at length in the New York Star. The old man laid the foundation of his wealth by trading with Indians. He afterward settled in New York and speculated in real estate, owning, at the time of his death, a number of house in Greene and Bleeker streets. He lived in filthy place, transacted all necessary little jobs himself, and watched his money with the most agonizing solicitude, and grieved himself nearly to death with every trivial loss. Once he was robbed of fifty cents by a colored man," which event" we quote from the Star—"distressed him to such an extent that he was attacked with a fit of nervous prostration, and went to bed for a month.

The story of the theft, as told by his neighbours, that one day Bonard was repairing the roof of one of his houses assisted by the darkey. Cuffy was given fifty cents with which to purchased cement. Reaching the foot of the ladder, the darky concluded that he wouldn't return, and after moving the ladder, in order to prevent pursuit, make his disappearance. It was some hours before Bonard succeeded in attracting the attention of passers-by and escaping from his predicament. He had a holy horror of the colored race ever after. During the money panic of 1857 he withdrew all his money from the banks and trust companions, and taking it home, depositing in it an iron-bound chest under his bed. Bands of iron were strapped apout it and screwed to the floor. Over these was placed the beadstead, which was also screwed to the flour. When the old man died this chest was opened, and among other articles found therein was an immence amount of French jewelry. No one was ever allowed to enter his room. The door, besides being secured on the outside by two immense padlocks, was fastened on the inside by the bolts, not unlike those often seen in the prisons. The door, besides bolting, he was accustomed to nail up on the inside with three-inch nails every night before he retired to rest. The window-sash and the fire-place he also boarded up." There was were no mourner at his funeral. Probably no human being in the whole world regretted his death; and his gift to the society mentioned was no virtue, since he had not a friend to bless or reward with it. "A carriage or two," we are told, "was all that made up the funeral pageant of this miserable being. It is the intention of the society which he has so munificently assisted to extend its work of mercy, to erect a suitable monument over the place where he lies with an inscription setting forth his great act of charity to the dumb portion of God's creation. Mr. Bergh personnally attended the funeral, and the coffin and everything on the occasion was of the best discription."

A Valuable Dog.

The Quincy, Ill., *Whig*, of a recent date, says:—"A gentleman of our acquaintance, living on Main street, is the owner of a valuable, well-trained, setter dog, which sleeps at night in a kennel near the back part of the house. On Thursday night last, about ten o'clock, as the gentleman went to his room in the second story on the front side of the building, (the lights below being extinguished), he heard his dog come beneath the window, and set up a most earnest, constant barking, and it seemed to him that there was an unusual tone in the animal's voice. Supposing that there were intruders on the premises, he opened the window and called out to 'Neg' to 'catch 'em.' The dog instead of starting off under the order, continued to bark, jumping up against the wall of the house beneath the window, evidently desiring that his master should come down. The gentleman went down, and as soon as he reached the outer door, was met by the dog, who, still barking, ran towards the rear of the dwelling. His man, following, found his hired man lying on the ground helpless and unconscious. He had, as he afterwards stated, as the marks on the ice indicated, in stepping out of the kitchen, slipped and fallen upon the ice, his head striking a stone step and cutting a large gash in his scalp. He had to be carried into the house, and it was some hours before he recovered his senses—in fact, he is still suffering from the effects of the wounds. The man remembers nothing from the moment he fell; the dog, who either saw him fall or found him lying there afterwards knew of his condition, and but for the display of what can hardly be called less than human intelligence, the man, unquestionable, would have been stunned all night, and probably either froze to death or died from loss of blood before morning."

An Enterprising Showman.

Lewistown, Pa., has had quite a lively sensation for a town of its size. A negro minstrel company invaded that quiet village and hung its posters on al the outer walls. The pastor of the Lutherian church, at his Sunday evening service, took occasion to caution his hearers against being led astray so far as to attend the sinful exhibition, which he characterized as low, vulgar and indecent. It so happened that half a dozen members of the troupe were present; and no sooner had the parson concluded his denunciation than the manager jumped up and proceed to argue the matter, asserting that his show was an eminently moral one; and to settle the matter, he trumphantly informed the astonished congregation that he, the speaker, was a church member, and knew how it was himself. The result was a dumb-founded minister, a perplexed congregaion, and an overflowing audience for the minstrels the following night. That showman will be likely to be heard from hereafter.

A writer on school discipline says—"Without a liberal use of the rod, it is impossible to make boys *smart*."

Temperance folks are not allowed to read the London *Punch*, as no one can do so without "smiling."

A wig said of an egotistical writer, "Somebody should take pity on his readers, and put out his I's."

The ladies of Waukon, Iowa, organized a hook and ladder company. A ladies' hose company will be next in order.

"Make me a Jacket out of Pa, a Old Coat is the latest song, to replace the one about being put to bed.

Probably the coolest man in the world lives in Milwaukee. He slipped down on the sidwalk, right in the presence of half the population of the city, who laughed at him. Did he blush and get up rubbing himself? Not much. He took a cigar out of his pocket lit a match, and after lighting his cigar, got up and went about his business, just as though he had sat down there on purpose.

A Massachusetts paper tells of a colored woman who had been lately converted, but who was so unfortunate as to fly into a passion over the misdoings of one of her neighbor's youngsters. Her mistress remarked upon the impropriety of such conduct in the case of one about to join the church, and received the frank response: 'I have 'sperienced religion, an' I'se gwine to join the church, but Miss B., I'll scald dat nigger fust.'

A Corpse Driving a Horse Through Nashville.

Dr. William Burdett, who resided at 339 South Cherry Street, died at six o'clock last evening, under the most peculiar circumstances. About half an hour previous to his demise he had driven to the residence of Conductor Edward Wells near the Decatur depot, who lay very ill of inflammatory rheumatism. After leaving some instructions with his patient he got into his buggy and started his horse homeward.

Sudden death, like a stroke of lightning, overtook him probably before he had driven more than a few hundred yards, and the last living human being, who, a few moments before, had talked calmly and quietly, after his usual manner, to patient and patient's family, and had even joked with a boy whom he met by the street side as he entered his buggy, still sat stark and stiff upright upon his seat, the reins clutched in his hands, staring eyes looking out upon the street, driving homeward a corpse. Father of us all, what was it that those who met the horse and vehicle saw in the face of the driver that made them shudder and hurry on a little faster? Death looked out of those lifeless eyes, and it was he who guided the unknowing horse plodding on toward his late master's door, and those who looked into that vehicle felt a something awful and indefinable which made them shudder, perhaps, and hasten involuntary forward. The horse drew up at the familiar hitching post, but no master descended, and he stood gently pawing the ground, anon jerking the lines, but he got no answer to those signals, however often repeated. No familiar voice which had so often chided or cheered him in long jaunts. Then he pricked back his ears and jerked the reins a little harder, and listened, but there was no response, save the grating of the leather over the dash-board. What could it all mean And now Mrs. looks out of the window and says, 'Well, I declare, the doctor's come, but why don't he get out?' She looks a moment, but he doesn't move, and she says, perhaps he wants something, and then she trips out to the street, looks up into the buggy, and says,

Well, William, what is it?' No answer. And then she bends forward a little, and the light shines fuller on the figure there. It is her husband, but the face is livid, and the eyes blindly staring. 'William, oh William!' and she grasps him by the hands, still clutching the reins; they are cold and stiff. He is dead.

Through the assistance of several gentleman, Dr. Burdett's body was taken into the house, where Coroner Breen held an inquest over his remains. The jury returned verdict that he came to his death from disease of the heart.

Shocking Murder of a Child by its Father in Liverpool.

A distressing murder was committed in Liverpool yesterday, the victim being a child nearly two years old, and the murderer its own father, a middle-aged man named Frederick Crawley. It would appear that the unfortunato man—for there is no doubt that he has labored for some time under mental derangement—was a porter employed at the "Home," Everton Terrace, and that he occupied a house, 15 Rendall street, Brookfield-road North, with his wife and mother. According to the statement of his wife, Elizabeth Ann Crawley, it seems that yesterday morning about 7 o'clock he got up as usual and went down stairs to light the fire, his wife remaining in bed with the child. He soon afterwards returned up stairs, and took the child down to give it some breakfast, as he was accustomed to do. On other occasions he took the child back to his wife before leaving for the "Home" at eight o'clock; but yesterday morning, soon after he took the child down, his wife heard him call "Betsy," and on going down she found her husband sitting with the child across his arms. A stream flowed from the infant, and Mrs. Crawley having obtained the assistance of her mother, sent for Dr. O'Conn

REQUISITION.

To T. M. FAIRBAIRN, Esq.

We, the undersigned Electors of the West Riding of the County of Peterborough, desirous of being represented in the Local Legislature by a gentleman of intelligent and liberal views, respectfully tender to you the nomination for our Riding, and we do hereby pledge you our heartiest support, and most zealous efforts to ensure your election.

GENTLEMEN:

In answer to the invitation of the Liberal Reform party of West Peterborough, supported by a numerously signed requisition, upon which I rejoice to see the names of numbers of my fellow-citizens of all classes and creeds, I have become a candidate for the representation of the Riding in the Legislative Assembly.

As is already well known, my sympathies are entirely with the party at whose invitation I appear before you as a candidate, and with which I have always been identified.

The present Government of Ontario has placed before the country a record of shameless indifference to constitutional principles, in spending the people's money, which alone fully justifies the prediction urged by our party at the former general election, when we pleaded against a coalition in a government of men of different political opinions, without any fixed and limited object in view beyond the enjoyment, and retention of office.

Attempts made to secure legislation calculated to protect our rights and advance our interests, have been frustrated by the interference of this Government, which in my opinion is so undeserving of the confidence of the people of Ontario, that it ought to be condemned in the most marked manner by the present election, in order that the affairs of this magnificent Province may be placed at once in other and better hands.

I will, if elected, esteem it my duty to give especial attention to such matters as more immediately affect the interests of my own constituents, and it will be my care to endeavor, to the utmost of my power, to forward by every legitimate means the prosperity of our own constituency.

I have, since I entered upon this contest, met with many of the Electors, and had an opportunity of placing my opinions before them more fully than I can do in this address, and I shall endeavor to meet with as many more of the Electors as possible, before the day of voting, to give personal expression to the views which I entertain.

I am, Gentlemen,

Your obedient servant,

T. M. FAIRBAIRN.

March, 1871. 11

TO THE ELECTORS OF THE EAST RIDING OF THE County of Peterborough.

GENTLEMEN:

On Tuesday, the 22nd of February a Reform Convention unanimously nominated me as their candidate for the present election. In the short time at my disposal it it is utterly impossible for me to meet all the electors, which I trust they will on this account forgive. I have only to say that if elected, I shall, to the utmost of my power, serve the interests of your Riding, and those of the Province generally.

My opponents object to me because I am a non-resident. Baldwin, Lafontaine, Price, Hincks, Blake and several others were all non-residents, and yet who fn a more eminent degree than these fought the constitutional battles of Upper Canada.—The cry is merely a trick of my opponents and deserves no attention.

It is again urged against me that I am a Catholic. This objection comes with bad grace from Messrs. Reid, Carnegie and their supporters—upon whom in the past the votes and support of the Catholic electors were wasted.

Hon. John Sandfield McDonald is a Catholic—if anything, they support him. With what consistency then can these people object to me? The Peterboro *Review*, of which Mr. Carnegie is the Editor, charges me with being a Catholic, and that I made speeches on the 17th of March, on the wrongs of Ireland. What a crime!—John Bright, the great English Reformer and Statesman, did the same. Did not Gladstone! Has not the Government of England by their legislation admitted it! Poor Mr. Carnegie. What an innocent, not to know these things.

My opponents say I am not known in the city in which I reside Suppose this were admitted, what would it prove? It would prove that I am not the terrible fellow they sometimes, in some localities, say I am. I had the honor of holding the rank of Captain in Her Majesty's active force, and only resigned it through illness, and I hold documents under the signature of the Governor General, thanking me for my services. In '57, I was elected to the City Council, of Toronto, for one of the most influential wards of the City. I was again elected for the same by some 400 majority in '59, and by the Council of that year placed in the position, next in importance to that of Mayor— Chairman of the Finance of the City of Toronto.—Yet my opponents say, and Mr. Carnegie lends his newspaper to circulate the report, that I am not known.

Electors of Peterboro, I have to tell my opponents in this contest that it is my intention to contest the Riding by only fair and honorable means. In the short time at my disposal I invite them and their friends to all my meetings, as it is my intention to comment and criticise upon their public conduct during the last Parliament. The next thing they say of me, is that I am the nominee of George Brown, while they know full well that I an the nominee of a convention of Reformers, held in the Village of Ashburnham on the day before referred to.

Now for my political creed. I am a Reformer. I am a believer in purely party government. I desire to see that party carry on the administration of our public affairs, who fairly represent the majority of the people; and I desire to see a sturdy intelligent opposition to examine and criticise their acts. I should most strenously insist upon parliamentary control over the expenditure of the public funds, and the responsibility of ministers to the representatives of the people. I would only retain efficient officers in the civil service, and these I would liberally remunerate.—I have the utmost faith in the political principles of the great Liberal party.—With them, if elected, I will cordially cooperate for the economical administration of our affairs.

In case I am elected, I will take an early opportunity of meeting the chief men of your Riding, and of conferring with them as to the wants and interests of the constituency. I will make such further explanation between the present and the election as time will permit.

Trusting this rough sketch, with what I have said at your meetings and may yet be enabled to say at more of them, may entitle me as a candidate to your favorable consideration in the present contest,

I am, gentlemen,

Your obd't Serv't,

J. O'DONOHOE.

Peterborough, March 1871.

West Riding

The supporters of Mr. Fairbairn will meet in committee at the Town Hall, North Monaghan, on Friday night, 17th inst., at half-past seven p m.

MUSIC HALL.

A RARE TREAT

FOR PETERBOROUGH.

We have much pleasure in informing lovers of good music, that we have secured the services of

M'LLE MARE POINIER,

AND

Miss Lettie Scott

ASSISTED BY

MR. D. D. CALLETLY,

To give one of their Grand Concert on Monday evening, 20th inst.

Look out for a splendid programme,

AGENT.

ONTARIO

MINING COMPANY.

Notice is hereby given that the annual meeting of the Stock Holders of the above Company, will take place at the office of the undersigned, in the Court House, in the Town of Peterborough, on Monday, the 27th day of March instant, at 2 o'clock p. m.

EDG. PEARSE,

Secretary.

Peterboro' March 11, 1871. 11-td.

ASHBURNHAM

New Carriage, Waggon And Black-Smith Shop.

The undersigned begs to announce to the people of Ashburnham, and surrounding Country, that he has commenced a new Carriage, Waggon and Blacksmithing Shop, on Lake Street, opposite the residence of R. D. Rogers, Esq., where he will be prepared to do all sorts of work in the above line.

Reparing Promply Attended to

A first-class Black-smith will be always ready and willing to attend to Jobbing and horse-shoeing.

The patronage of the public is respectfully solicited.

A. WALLER.

Ashburnham, March, 1871. 11-tf.

☞ Remember Mr. Fairbairn will address the electors of the Town To-night in the Music Hall.

NEW ADVERTISEMENTS.

Requisition—T. M. Fairbairn.
To the Electors of the East Riding.—J. O'Donohoe.
$765,000 in cash Gifts.—C. B. Harris & Co.
Flax.—Samuel Taylor.

Extensive Alterations.—W Fairweather & Co.
Abstract Statement. — Municipality of Dummer.
West Riding.—T. M. Fairbairn.
Music Hall.—Agent.
Ontario Mining Company.—Edg. Pearse.
Stallion for Sale—John Catheart.

PETERBOROUGH, MARCH 16, 1871.

The Peterborough Examiner

☞ Electors would do well to remember that there is ONLY ONE DAY of voting. Go Early and vote—in the West Riding, for MR. FAIRBAIRN; and in the East Riding for MR. O'DONOHOE.

Editorial Items.

Mr. O'Donhoes canvass proceeds favorably. Mr. Read trembles. He is sure of defeat.

We understand that Mr. Fowler has been well received in Cobourg, and will return here in a few days.

GRAND CONCERT.—Our readers will remember that a Grand Concert will be held in the Music Hall, on Monday evening next. We believe that the programme is a good one, and that the performers have few equals.

It has been found impossible for Mr. O'Donohoe to visit the back country in so short time now to the polling day. It is to be hoped therefore that all lovers of true and liberal government will use their best efforts for him under the circumstance. Their interest and vote are respectfully solicited in the cause of good government.

Lecture.

The fourth of a course of lectures under the auspices of the Literary Club, of Peterboro, was delivered by the Rev. Mr. Allen, of Millbrook, on Thursday evening last, in the Good Templar's Hall.

The Chair was taken by Mr. A. B. Kidd, when the Rev. lecturer proceeded to deal with his subject, "Man and his Teacher," in the most able, eloquent, and entertaining manner. His thoughts on Byron and Burns, especially, were fresh and vigorous, and his rendering of passages, which he quoted from them, was excellent. Indeed, our Townspeople who failed to turn out that evening, missed a rare treat.

The lecture was divided as follows:

1. Nature as a Teacher. Illustrated by Greece and Rome of Modern Times, contrasted with their state in Ancient Times.

11. Man as a Teacher of his Fellows. 1st. Inspired Man. 2nd. Uninspired Man as a Teacher; illustrated by life and writings of Byron and Burns.

At the conclusion of the Lecture, on motion of Mr. G. E. Shaw, of the Ontario Bank, seconded by Mr. Mr. J. O'Donnell, a vote of thanks was given Mr. Allen for his lecture.

West Riding.

Mr. Fairbairn's canvass proceeds to most favorably. Every day the most encouraging accounts is received from every direction. His election is certain, nevertheless, his friends everywhere should not slacken their energies, let us have an overwhelming majority, for the reform candidate. The friends of the government nominee, and voting machine are using every machination, not even valuing the truth, to ensure the return of their candidate but they are down hearted and sad, their efforts are only the desperation of a bad cause, and the pangs that precede dissolution

Even at Mr. Carnegie's meetings, the feeling of the people is weariness, and evident signs of dissatisfaction with his past career manifest themselves. He has served John Sandfield. Cowered at his nod like any trembling spaniel for four years voting for everything required by the Patent Combination; the Electors of the West Riding do not wish the continuance of such a state of affairs, and hence the unanimity with which they rally round Mr. Fairbairn's standard. Let there be no relaxation, until five o'clock on Tuesday, 21st, the polling day, and an overwhelming majority will crown the work, and prove that Mr. Fairbairn is the people's candidate, and has their utmost confidence.

Midland Railway of Canada.

SUPERINTENDENT'S OFFICE.

Port Hope, March 15, 1871.

"Having resigned the position of General Superintendent of the Midland Railway, I am directed by the President (Henry Covert, Esq.,) to notify the Employees that Mr. H. G. Taylor, has been appointed Superintendent of Motive Power and Train Master; and that he will assume his duties to-day.

I beg to return my thanks to the Employees of the road, for the prompt and efficient manner in which my orders have, on all occasions, been obeyed; and I would respectfully ask that the same cordial feeling (and desire to benefit the road) may be extended to Mr. Taylor.

"A. T. WILLIAMS."

We learn from the above note and from some correspondence lately in this paper that Mr. A. T. Williams, of the Midland Railway has resigned his position as General Superintendent of the road. We are sure that the company will have difficulty in obtaining a man to take Mr. William's place. His superior business habits, his affability and general geniality, ensured him the good will of his employers and of all who had business connection with the road, and his strict attention to everything connected with his business of the company must have been profitable to them.

He resigned because of ill health, we understand. We hope that a little recreation and absence from the annoyance of such a large business, will have the desired effect and that in a few months his health will be restored. Wherever he goes, he has our best wishes for his prosperity, and we are confident the best wishes of all who had anything to do with Mr. Williams.

The Nomination at Norwood

On Tuesday, the nomination for the East Riding took place at Norwood, Mr. H. C. Rogers acting as Returning officer, for Mr. Rubridge.

There was a large concourse of people, but the meeting was very quiet and orderly.

Mr. Read was proposed by D. Rose, Esq, of Dummer, and seconded by James Fowlds Esq., of Hastings.

Mr. O'Donohoe was proposed by James Millar, Esq., of Otonabee, and seconded by J. A. Buck, Esq., of Norwood.

Mr. Pearce was proposed by Wm. Sargent, Esq., of Norwood, and seconded by W. W. Armstrong, Esq., of Belmont.

Mr. Sargent stated distinctly that Mr. Read's party at last Election had agreed to allow Mr. Pearce to become a candidate at this election. Now they were in the field again refusing to carry out their solemn agreement, and were thus trying to make Mr. Pearce a tool to suit their interests. This the Eastern people would not bear any longer; they were determined to elect their man this time. He then referred to Mr. Pearce personal claims on the riding, and to his public services for the people which entitled him to thefr support.

Mr. Read than addressed the electors, trying to defend his acts and votes but did not appear to succeed well. He remarked that he had voted against the government and gave three instances, once on the law of Dower, a second on the law of evidence, and a third to appoint a Board of audit. He defended his vote of $110,000 for the governors residence on the ground that the government had spent the first vote of $60,000 on the walls, and unless he voted $60,000 more, they would never be finished but he would not do so again.

The $1,500,000 he had no time to trouble with but he believed it right to place in the hands of the government.

A voice in the crowd asked why did he force the people of the Riding to pay their money for railroads contrary to their wishes? Another, would he vote his own money away so recklessly?

Mr. O'Donohoe followed. He explaining his position and referring to the charges of his opponents as to his being a non-resident, remarking that Baldwin or Price never represented the constituency they resided in. Hincks at the present time, and and even Stephen Richard's during the last parliament did not reside in the county which they represented as to his being a Catholic. A charge brought against him by the Editor of the *Review*, he admitted but a man's religion should be no bar to his election if his political principles were right, but it came with bad grace from those whom Catholic votes elected in the past, to say a word against Catholics, or against him as a catholic. But was it not strange that they who supported John Sandfield, a Catholic, should say a word against him, Mr. O'Donohoe? He then referred to Mr. Read's political acts, seriatum. To his vote of $110,000 for a governor's residence $8,000 for stables, $6,000 for garden, $2,000 for a Billiard Table, for his excellency and for Mr. R. to play Billiards, $50,000 for a school of technology, and $200,000 for a school of agricultural and arts, all for Toronto, and asked who could vote more faithfully for Toronto. He also referred to Mr. Blake's motions concerning the Nova Scotia subsidy of which Ontario had to pay $1,100,000 all of which Mr. Read voted for, but of course would do so no more, when the harm was done Mr. Read evidently felt his awkward position very keenly.

Mr. Pearce followed. Explaining how it was that he was before them. The people of the East of the county had brought him out, and he was at their disposal. He referred to his right by agreement made four years ago, when he withdrew in favor of Mr. Read, but he felt that now he must abide the action of his committee. He then stated his claims on the county as for twenty-five years he had served it faithfully, if he had minded his own business as well he might have money bags too. A poll being demanded for all the candidate and a vote of thanks tendered to the returning officer. The meeting broke. It was very orderly, indeed.

After the meeting Mr. Read's committe met Mr. Pearce's committee but to no avail.

Railroad Meeting.

On Friday last, Mr. John Fowler addressed a very respectable meeting of the most influential ratepayers of the town on the subject of the resuscitation of the Cobourg and Peterboro Railway; and extension of it to Bobcaygeon and Haliburton.

R. D. Rogers, Esq., Wardon of the County, occupied the chair, and Mr. Stratton acted as Secretary.

Mr. Fowler explained very fully his project of re-opening the road, stating that Cobourg and the Iron Company would assist very materially towards filling in Rice Lake, and making it substantial. He also stated that about £50,000 would build the road to Bobcaygeon, crossing Mud Lake, Ennismore and Pigeon Creek; over which waters he calculated to make solid embankments and when at Bobcaygeon, he believed the road would soon be extended to Haliburton.

At the close of the metting, the following resolutions was passed:

Proposed by Mr. Lundy, Esq., and seconded by D. Sutherland, Esq., and resolved that this meeting have heard with pleasure, the views and explanations of Mr. Fowler in reference to opening the Cobourg and Peterboro Railway, and also, to extending the same to Bobcaygeon, and eventually to Haliburton; are of opinion that it deserves favorable consideration, and therefore appoint, Mr. Rogers, Sheriff Hall, the Mayor, the President of the Haliburton railway Company and the mover and seconder a committee to confer with Mr. Fowler, and to take such action as they may deem right to bring the matter before the citizens of the town or county of Peterboro.

The next day the committee met and passed a resolution somewhat favorable to the scheme, and requesting Mr. Fowler to find what action the Cobourg people would take.

The project has been before mooted and failed through an adverse in Otonabee. What may come about from the present movement we cannot tell, but it is certain the road, if re-opened and extended to Bobcaygeon, would largely benefit both this Town and Bobcaygeon, and would prove the re-animation of Cobourg trade and progress.

West Riding.

The nominations took place at the Court House shortly afthr 12 o'clock. Mr. Carnegie was proposed by Mayor Scott, and seconded by Mr. Garbutt, of Smith, who remarked that many of those present would wonder at his doing so, who had been on the other side last time, but he wished to see him out and tried to bring him out as a reformer—but of course without effect.

Mr. Fairbairn was nominated by Mr. Wm. Hall, of Peterboro, and seconded by Mr. Jas Mann, of Smith. Mr. Hall urged Mr. Fairbairn's claims on point of ability, integrity and principles, and expressed his convictions that such an upright, honest man, would meet with popular favor, and be triumphantly elected.

Mr. Carnegie first addressed the electors attempting to defend his course during the past four years, and giving his reasons for supporting the Patent Combination. He tried to explain his strange vote on Denominational grants, when he voted against the principles he was sent to advocate. He defended the action of the Ministry in the Crown Land Policies, the Emigration and Railway Policy—and all their acts right or wrong, were tenaciously advocated; but the electors were not so easily convinced of their wisdom, as the axe grinding Combination appears to be.

Mr. Fairbairn followed in a speech of about an hours duration, criticising freely the votes of the last four years in regard to money grants—especially the late vote of one and half millions, without a single guarantee where or when or how it would be spent, thus effectually depriving the county of responsible government, and placing an immense sum in the hands of ministers to induce support. Mr. Fairbairn was well received and applauded warmly. His success is certain.

☞ Reformers would do well to go early to the Polls, and vote for Mr. Fairbairn and Mr. O'Donohoe, the LIBERAL Candidates.

Reformers of this County, you have another opportunity of meeting out a just retribution of reward, by leaving the government Candidate, a Cog of the Government Machine, to rust at home, because of his blind adherence to the party in power.—He voted $110,000 for a Governor's residence, for a man raised just as you are, and for whose comfort a house at one-third the amount would be adequate. Mr. Carnegie voted $10,000 for stables for the Lieut-Governor. This was almost sufficient to erect a dwelling for him. He voted over $6,000 to fix gardens, and $2,600 for a billiard table to amuse him, and those who so foolishly squandered the people's money. Do you wish the continuance of such extravagance? Surely not. Then rally, go to the polls determined to prove that extravagance cannot go more than four years unrebuked.

The large sums of money coming from the Dominion Government to Ontario, as our portion of the excise and other duties, are recklessly voted into the hands of John Sandfield and the Combination to ensure support in the present contest; but there is not a promise or even a nod that a cent of it shall be expended in this County—They may expend some it is true, but they *may not*. If Mr. Carnegie had been true to the interests of this County he would have compelled the Government to name the works that they would assist; and then we would have known whether any of them were contemplated for the County of Peterboro.

Mr. Blake urged that the Government bring down a scheme of public improvements in the way of Railroads, for the province, that they provide for bonuses to such proposed works, and then divide the balance according to population. But this open fair dealing did not meet the wishes of John Sandfield, & Co., and even Mr. Carnegie voting against naming the particular works the government intended to encourage. Anything to keep the money in the hands of his Chief—hence his vote to place $1,500,000 in the hands of Ministers, not even providing that an account of the outlay be ever given. Was there ever anything so monstrous, so unconstitutional, perpetrated by any Government? The worst days of the "Family Compact" were no worse than this.

A cry against Toronto influence has been raised, but just see what Carnegie & Co. voted to Toronto:

For a Governor's residence	$110,000
For Stables	8,000
For Gardens, some	6,600
For a School of Technology	50,000
For a School of Agriculture, and to Model Farm &c. near Toronto	200,006

which together with other sums voted make not far from half a million voted to Toronto. Can any one do worse than this, as far as voting money to Toronto is concerned? We fancy not. Electors! show your indignation at such outrages, the voting to Toronto of large sums of the people's money, by Mr. Carnegie, by allowing him to stay at home in future. COME OUT AS ONE MAN, AND VOTE FOR THE REFORM CANDIDATE.

At several meetings in the West Riding, Mr. Carnegie sneered at the word Reform and Reformers. Come nobly forward, and show that although a cant word in his mouth, it is the people's password to victory COME OUT AND VOTE FOR MR. FAIRBAIRN, THE PEOPLE'S CANDIDATE—a Reformer from his youth.

☞ One vote for the Reform Candidates before 12 o'clock is worth two after it

The Issue.

It will occur to every voter, before making up his mind as to whom he will support, to ask, *what are the questions involved in the present contest?* Why should I support Mr. Fairbairn or Mr. O'Donohoe in preference to Mr. Carnegie or Mr. Read, or Mr. Pearce? To answer this question we must look back over the history of the last four years—or even beyond that.

At the last election the present Government party said—"there are no party questions—old issues are settled—confederation was brought about by a combination of parties, and the same combination should be trusted to start the new constitution and fairly try it," Admitting that experience and principles of good government and British constitutional law all prove that *Party Government* was the true mode of success fully conducting the legislation of our country, the government party yet claimed that in the new and untried circumstance of the day, it was desirable to unite all parties, that the government might the more perfectly guide the ship of state—the pretence, though specious and false, yet received large support from the country, and a narrow majority was given to the Sandfield McDonald Government. Following the teaching of his master, John A. McDonald, Sandfield at once bought up all the weak-kneed members, and nine martyrs became his supporters. Then commenced a series of acts which would disgrace any government.

The legislation was disgraceful—the policy of the government was weak, vasilating and ruinous to the country.

Changing and bad *mining laws* drove capitalists out of the Country.

Under pretence of a *mineral law*, crown lands were withdrawn from the market in the interest of the lumbermen.

Immigration was retarded for want of liberal provisions for new settlers—100 acres of bad land, with pine and minerals reserved, was no inducement to settlers—Reform influence forced the Government to make the grant to settlers 200 acres.

Distressing and changing regulations respecting "arrearages on crown lands" brought anxiety, and sometimes much loss upon the settlers.

Public institutions were withdrawn from places having a just claim, and given to places in return for abject support of its members.

"Axe grinding was held up as the rule, of conduct—and "corrupt" bargains were publicly offered for support.

The *Settled Laws of the land* were ignored, and over-ridden at the instance of wealthy applicants. *Tax Title* laws were passed to make good the titles of members of the government; and just conditions introduced by Mr. Blake were voted down.

Appropriations of Public Monies were voted in bulk—particulars and explanations being refused.

Large Salaries were voted for inadequate services.

The recipients of *Large Government Salaries* were *exempted* from *taxation* to the loss of the laborious poor. An Income Franchise was refused to men who had intelligence and ability enough to earn $600.

The Government which properly and justly offered a reward for the apprehension of the murderer of D'Arcy McGee, refused to offend Cartier by calling treason a crime, and asking for *justice to the murderer of a loyal citizen—a noble son of Ontario* whose only fault was his loyalty to the throne and love for his Queen!

And to make his crimes the the less by comparison, Sandfield McDonald outrages all laws of right by voting $1,500,000 of the peoples money to be dispensed by his government of five as they should see fit—in short to hold up as a bait to induce support from a people whom he thinks vile enough to yield to the debasing inducements—a *compact* is formed vile as the family compact—whose aim is to bolster themselves in office.—From evil days brought on us by such men, herculean efforts of brave reformers in days past saved the country. Shall we drift back again? Shall corruption or purity prevail—which is the better man—Sandfield or Blake? If Sandfield, vote for Carnegie. If Sandfield vote for Read or Pearse. If the legislation of the Government and the votes of your old members, always ready to do their masters bidding, have pleased you, then support them, but if you would check the effort deliberately made to put this country back—whence it took so fearful a struggle to emerge, then vote for Mr. Fairbairn—known to you as an advocate of religion, temperence, purity. Vote for Mr. O'Donohue, a well tried reformer, a man vouched for as a liberal of a quarter of a century's standing—a management whom even the government organ the "Telegraph" can say nothing worse of than that he stood alone when he thought his co-religionists were not supporting the principles of his choice a man whom the liberals of the East Riding invited to bear the stand and of purity and reform against one who has lost individuality in a slavish support of a government which rested not on the approval of its good measures but on it ability to purchase support.

PATRIOT.

Peterborough, March 14th, 1871.

Sunday School Convention.

OFFICERS.—Rev. T. Burt and D. McFarlane, Township Secretaries, in connection with the S. S. Association of Peterborough.

FIRST SESSION.

The First Session of the First Convention for the Townships of Galway, Snowden, Minden, Dysart and Stanhope, in the County of Peterboro', and Lutterworth and Anson, in Victoria, commenced at 2:30 p. m., on Thursday, 2nd March, 1871, at the Village of Minded. Five Townships were fairly represented by Superintendents, Teachers and Friends of Sunday Schools.

The Rev. Mr. Burt, Secretary for six townships, as above given, called upon those assembled to elect a chairman to guide the proceedings of that first session, and, also, he hoped, for evening session, and moved that Mr. Frank Mason fill the chair, which was seconded and carried unanimously. Mr. Mason made a few appropriate remarks, and then called upon the convention to help him carry out the very full programme lying before him. The active business of the session was begun by a union choir of Sunday School scholars, numbering 25, led at the Harmonium by Miss Burleigh, of the Church of England local choir; these sang "The Lion of Judah." Rev. Mr Burt read portions of Scripture, and offered prayer, followed by Rev. Mr. Egan.

Rev. Mr. Burt, and D. McFarlane, then gave opening addresses. Mr. Burt referred to the happy season spent at Peterboro at the convention there a year ago, and at which the present Secretaries were appointed—from which the present Township convention owes its birth—and with which County Convention the present would be associated and to which the Secretaries will report, as they have already done. A letter was read from Mr. J. A. Hall, regretting his inability to attend and sending a friendly greeting to this his Minden Convention. The Diocesan Sunday School Convention at Toronto was commented upon, and the Revrend Secretary hoped that this township convention would, with the two larger gatherings named, promote the furtherance of the Sunday school cause, fire hearts with zeal, and renew the zeal of those who had been already fervent workers in this field of the Christian Church. Mr. Burt presented a report of Sunday Schools as follows:

Galway.—4 Schools, 28 Scholars, 8 Teachers, 3 Union Schools, 1 Roman Catholic.

Snowden.—3 Schools, 70 Scholars, 11 Teachers, 3 Union Schools; Lutterworth included.

Minden.—8 Schools, 212 scholars 30 Teachers, 3 Union Schools, 2 Church of England, 1 Epispical Methodist, 2 Presbyterian, 1 Wesleyan.

Stanhope.—1 School, 20 Scholars, 3 Teacher, Union School.

Dysart.—3 Schools, 90 scholars, 18 Teachers, 1 Union School, 2 Church of England.

Mr. McFarlane—the Dysart Secretary—then spoke. Was glad to know that the united effort of the Rev. Mr. Burt and himself, had brought about this convention. He had been a Sunday School worker for many years past. In the old Country he had great experience of the Ragged Schools on the Sabbath day; and success, he was thankful to say, attended his efforts, for those little "Arabs" may be compared (to quote the words of Dr. Guthrie) to rough, unwieldy blocks of rocks which had to be shaped and refined. These he had received into his class in their roughness and wildness and had succeeded in forming into positively, *model* classes. He spoke of Dysart six years ago, where two ladies of the Church of England, Mrs. Miles and Mrs. Peake, first essayed to start the Sabbath School, with these he worked, and the then 11 scholars and three teachers had now become, as the Rev. Mr. Burt reported, nearly 90 scholars and 18 teachers.

The choir sang "The Polar Star."

The chairman remarked that the programme stated that the next step was purposed to be an "Address by Rev. Mr. Stinson on the need of Sunday Schools." But that gentleman was absent, but he hoped to see him during the evening Session.

Mr. Austin Hillier, Superintendent of No. 4 Snowden and Luttlerworth S. School, addressed the convention upon "The duties of Parents and Members of Churches to the Tabbath School. He expressed his pleasure at the holding of the Convention, at the large numbers present, and hoped all would profit by it. His subject was a solemn one. It was the duty of the parent to see to the religious teaching of the child for it was *unnatural* to the child, if the parent did not urge the child on to the right, the child certainly would not desire it, this was the rule, and it had few exceptions. Let parents therefore send to the Sunday School; see to the appointed lessons; visit the School and see the teaching; see if progress be made in religious knowledge; marking whether the aim of the instruction be the salvation of the child's soul. Parents ought to see that books are provided, should consider the Sabbath School a help to themselves, a nursery to the Church. To members of Churches the Sabbath School looks for teachers. Must teachers be sought from the world? Let members of Churches see to it, for the Sabbath School teachers must be drawn from worldly ranks, if the church fails to supply them and so fails in duty. Away with lack of interest, with excuses, let parents and members of churches feel that ONE soul is worth more than a world.

Mr. Hillier remarked that parents certainly ought to have more interest in Sabbath Schools than others, therefore they ought to see the children attend regularly and see the lessons learnt well at home. His experience was that members of Churches needed great reform in discharging their duties to the Sabbath School.

Mr. Munn advocated S. Schools and hoped to do more for them than in the past.

Mr. Langton and the Rev. Mr. Burt also made remarks on the subject.

The choir then gave "Marching Along."

A paper was then read by the Minden Secretary entitled "On Sunday School Hymns," by Miss Burt, Sunday School Teacher, this elected applause. This paper advocated the teaching of verses of hymns as set lessons; singing them; supporting the ideas by anecdotes.

Mr. McFarlane said he would be glad to see more such papers, and was very much pleased with that just read. Several others made remarks to the same import.

The chairman next called upon Mr. Hillier to give an address on Sunday School lessons, their aim, length, kind, &c.

Mr. Hillier was pleased to have the opportunity of addressing so good a gathering on such a day. He had been a teacher and felt warmly in the Sabbath School interests. The aim of Sabbath School lessons was to feed the souls of the young, to lead them to the Lamb of God. As regards their length let not the lesson be more than 20 minutes. A good mark to judge by was the interest shown by the class. As long as the interest was kept up all is well, but the moment that flags it is bad, and the teacher should stop. Let infant classes be taught to sing, let their lessons be varied. For lessons to be got by heart at home, let them be short; and he recommended also, that the teacher prepare the lesson at home.

Mr. R. Garrat, Superintendent of No. 5 Union Sabbath School, Snowdon and Lutterworth, remarked that by all means let teachers prepare the lessons for each Sunday in the previous week, and so be able to teach in presence of the children.

The choir then sang "When the Morning Light."

A specimen lesson from IX Mark 1 to 10 verse was then given to the choir, as a Sunday class, by Rev. F. Burt. Mr. Burt also remarked that too many in a class was an evil. Let there be no more than the teacher can keep his eye upon, and that the class be, if possible, in the form of a semi-circle or a three sided class, the teacher sitting in the fourth side of a square; from 6 to 10 making a good class.

The choir then sang "The Golden Shore.

The chairman made known that as the interest shown was so good, and well maintained, there would be an evening Session commencing at 6-30, when several papers and addresses would be brought before the audience. calculated, he was sure, to benefit all. The juneviles then lastly sang, "Shall we gather at the River," and the benediction was pronounced by the Secretary.

EVENING SESSION.

At the time appointed the chairman was present; and the choir was was called upon to sing "God speed the Right."

Rev. Mr. Burt again reported on the statistics of the back woods Sabbath Schools to the increased number of friends gathered, and gave some additional information concerning the morning report, showing nearly 500 Sabbath School Scholars, 70 teachers, in about 20 Schools; and he remarked that he would be glad to see the day when every Common School House would be a seat of a Sabbath School, and every Common School Teacher be a leading Sunday School Teacher.

She Rev. Mr. Stinson addressed the assembly on "The Need of Sunday Schools." He said that every School was for tuition, instruction in some useful or important subject, something essential to success in life. No education was almost equal to no reading, no knowledge or pleasure. No Secular education worth much to the interest of life and the world. If this be granted, surely Religious Education was worth *far more*. There is far more need of religious knowledge than for mere secular. If this be worth much for this life, then that worth much more, for it is for the life that is to come, to give joy to captive sorrowing sinner. He asserted that without being recipients of this higher knowledge, this religious education, we we are poor indeed! Where but in the Sabbath School shall religious knowledge be taught? Where but in the Sabbath School where men and women who are alive to the interests of the soul preside as teachers, shall our rising generation be taught? Great need then there is, yea increasing need, as our population increases. Yea, let Sabbath Schools multiply, for they accomplish incalculable benefits to the undying soul, they fill the youthful heart with good, before the world can plant its pernicious and deadly evil.

Rev. Mr. Burt enlarged still further the necessity of Sabbath Schools in every section of our land, seeing so little of religion can be taught in the Common Schools.—He decried the phrase "A necessary evil" as an improper mode of speaking of Sabbath Schools, and believed them to be an important of Church works.

Mr. H. Hillier hoped all present would really feel the need just spoken of, for there was so much room for work.

Mr. McFarlane said that this topic opened up a large field for thought. Let none require Scriptural Authority ere they begin. There was quite as much authority as for Missionary Societies. The object must be good, for principally the Sabbath School gathered in those who had no one either to care, or time to care enough for their souls.

The choir sang—"The Happy Home."

A paper was next read on the qualifications of the Sabbath School Teacher, by the Reverend the Township Secretary.—The leading features were:—The teacher must understand the plan of Salvation; Must accept that plan; know his mother tongue well, the harder words and names of the Bible; must have *faith* in Sabbath School work; must go to his teaching after laying that work before God, in prayer; must love the little ones, and have a love of children in general; should be lively in spirit and manner; must be striving for the glory of the Lord Jesus; must be regular and punctual; should possess the power of illustration; must depend firmly on the power of the Holy Gh

A Beautiful Horse

Their is nothing that can contribute so much to render the horse beautiful and elegant, to improve his condition and make him all that is desirable, as "Darley's Condition Powder and Arabian Heave Remedy;" it has been used by many persons who own valuable carriage or other horses with decided success and so well pleased with it that they always keep it on hand in case of emergency; it may be given at all times with perfect safty, Remember the name and see that the signature of Hurd & Co is on each package. Northrop & Lymas, Newcastle Ont, proprietors for Canada. Sold by all medicine dealers.

☞ For over twenty years "Bryan's Pulmonic Wafers" have maintained their reputation for curing coughs, colds, and pulmonary deseases. Those suffering or threatened with any of the symptoms of bronchitis, or any of the pulmonary complaints, should ot once give them a trial. They give almost immediate relief, and if taken it time generally effect a curer. Remember that a common cold or cough, if not attended to in time, often leades to that distressing and fatal disease—consumption. Sold by all Druggists and country dealers. Price 25 cents per box.

THE GREAT FEMALE REMEDY.

Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moperat)s all exdess and removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on ;he monthly period with regularity.

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Ayserrics, and Whites, the Pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution. Full directions in the pamphlet around each package, which should be carefully preserved

JOB MOSES', NEW YORK, SOLE PROPRIETOR

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will ensure a bottle, containing over 50 pills, by return mail.

Iron ore, taken from the back hills, near the highest level of the Union Pacific Railway, has been smelted at Omaha and found of excellent quality, yielding 30 per cent, of superior metal Three hills of the ore lie neas the railroad.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier, alternative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phathisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, Diptheria, paing in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum, dysentery, &c.

Price only thenty-five cents per bottle.

NORTHROP & LYMAN,
Newcastle, C. W.
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W. Kemp, Wm. Coulter and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co., C. Britton, Lindsay, and all Medicine Dealers.

Flax!! Flax!

Farmers intending to grow flax will please apply for their seed early. Seed supplied and payment taken in flax by calling on

SAMUEL TAYLOR
or H. CALCUTT.

I would beg to call the attention of farmer that I have a machine for pulling Flax, which will pull 4 acres a day. I will let the machine and send a man with it for $2 per day. By the assistance of the puller, Flax is the cheapest crop harvested. For information I would refer you to—Jonathan Stephenson, Smith; W. Bowers, Smith; J. Parnell, Smith; A. Scott, Smith; I. Buck Otonabee; W. Rutherford' Otonabee.

SAMUEL TAYLOR,
Flax Mill,
Ashburnham

Ashburnham, March, 1871. 11-2mos

CORPORATION PROPERTY FOR SALE.

WILL BE OFFERED FOR SALE BY Public Auction,

On Friday, 24th March, Inst.,

At the Council Room in

THE TOWN OF PETERBOROUGH

At Eleven o'clock, a. m., that piece of land in the south end of the town, commonly known as

"HOSPITAL POINT,"

And also, therewith, part of that low gore of land attached thereto, lying East of George Street and South of the Mouth of the Creek.

The property stands high and is almost entirely surrounded by water, and from its situation, and other causes, is peculiarly suitable as a site for a

STEAM SAW MILL

Or other like manufacturing establishment.

TERMS.—One-fifth down, and the balance in five equal annual payments, with interest at 7 per cent.

N. B.—The purchaser will be required to pay down immediately after the property is knocked down to him, the above proportion of the purchase money, and to sign an agreement for purchase and sale which will be prepared, and on non-compliance, the property will be set up again if deemed advisable.

☞ There will be a reserved bid.

A plan of the property can be seen in the office of the Town Clerk.

For further particulars apply to the undersigned.

(By order)
IVAN O'BEIRNE,
Sec. T. T. Commissioners

Peterboroug, March 8, 1871. 10 tf

TO THE Free and Independent Electors OF THE EAST RIDING OF PETERBOROUGH.

At the earnest solicitation of numerous friends throughout the Riding, I have finally consented to allow myself to be put in nomination as a candidate for your suffrages at the coming election.

My long residence in the Riding, intimate connection with its municipal affairs, and knowledge of its wants and interests, will I trust, enable me, if elected, to advance its various requirements.

I am in favour of the present Administration believing that the majority of its measures, have been good, and that its policy has as a general thing, been wise and economical.

Whilst convinced of this, I cannot however say that I will be its slavish supporter, irrespective of the understood wishes of the people. The man who is a slave to party is too often led to become the dupe of faction and bigotry, and to countenance every description of governmental extravagance and corruption.

The time being so limited it will be impossible for me to make a personal canvass, but still I hope to visit a large part of the Riding previous to the day of voting, and explain more fully my views on matters of public importance.

I have the honor to be.

Gentlemen,
Your ob'dt serv't
PETER PEARCE.

UNFAILING EYE PRESERVERS.

LAZURUS, MORRIS & Co's

CELEBRATED

Prfected Spectacles

AND EYE GLASSES.

The large and increasing sales of these Perfected Glasses is a sure proof of their superiority. We were satisfied that they would be appreciated here as elsewhere, and that the reality of the advantages offered to wearers of our beautiful lenses, viz: the ease and comfort, the assured and readily ascertained improvement of the sight, and the brilliant assistance they give in all cases, were in themselves so apparent on trial, that the result could not be otherwise than it has, in the almost general adoption of our Celebrated Perfected Spectacles by the residents of this locality.

With a full knowledge of the value of the assertion, we claim that they are the most perfect optical aids ever manufactured. To those needing Spectacles, we afford at all times an opportunity of procuring the best and most desirable.

DR. W. H. TAYLOR

Corner of George and Hunter Streets,

Has always on hand a full assortment, suitable for every difficulty.

We take occasion to notify the public that we employ no pedlars, and to caution them against those pretending to have our goods for sale.

Peterboro, February 8, 1871

INFORMATION WANTED.

OF CHRISTOPHER BATESON, son of Christopher and Betty Bateson, who left his parents in Warton, near Lancaster, England, in July. 1844, being at that time about Eleven years of age. If this should meet his notice, or any person knowing of his whereabouts, they will confer a great favor by addressing the Editor of the "Examiner," Peterborough, Ont.

A STRAY PIG

Came into my premises about four weeks ago. The owner can have it by proving property and paying expenses.

JAMES EDGAR.

Heterboro, Feb. 21. 1871. 8-3ins.

DARLEY'S

ARABIAN OIL,

FOR HORSES AND CATTLE.

A NEVER-FAILING REMEDY.

THIS valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient properties for the cure of Flesh Wounds, Sprains, Bruises, Galls of all kinds, Cracked Heels, Ring Bone, Spavin, Callus, Fistula, Sweeney, External Poisons, Scratches or Grease, Strains, Lameness, Mange, Whitlows, Corns, Sand Cracks, Foundered Feet, Horn Distemper, Swellings, and many other diseases which horses and cattle are subject to.

This celebrated Liniment has been used for many years, and its curative properties thoroughly tested, and it is conceded to be the cheapest and most reliable remedy for all external complaints ever offered to the public—it never fails when timely used and faithfully applied.

To be had of all Druggists and Country Merchants throughout the Dominion. Price 25c. per bottle.

ALBUMS OF ALL KINDS AND PRICES;

PICTURES—a good assortment, either with or without Frames, and Cheaper than ever offered in Peterborough before.

CONCERTINAS AND VIOLINS,

A very large assortment. The attention of the Musical Public is solicited to the fact that they can procure the best PIANOS and MELODEONS without going outside of Peterboro.

A. B. KIDD is Agent for

THE CELEBRATED BRADBURY PIANO

The successful rival of the Steinway, &c. He is also Agent for

W. BELL & CO'S PRIZE MELODEONS,

The Melodeons that carried off the prizes at the Provincial Exhibition. ☞ Both Pianos and Melodeons kept on hand.

PIANOS AND MELODEONS!

THE BRADBURY PIANO,

Which has met with triumphant success, and has successfully competed with the best Piano in the world, and has received the highest testimonials from Gottschalk, Mason, Sanderson, Pattison, Berge, Zundell, Heller, Fradel and others,

IS SOLD IN PETERBOROUGH BY A. B. KIDD.

He also sells the WEBER PIANO, which, to those who wish a cheap instrument, is equal to any of its class.

W. Bell & Co's Melodeons are supplied by A. B. Kidd.

These instruments received First Prizes at the Ontario Provincial Exhibitions for 1868 and 1869; also at the Quebec Provincial Exhibition held in Montreal, September, 1870. At the Ontario Provincial Exhibition held in Toronto, October, 1870. W. BELL & Co. received the First Prize and Diploma for the best Harmonium or Large Cabinet Organ, and the First Prize for the best Melodeon. It is universally acknowledged that in the manufacture of Melodeons W. BELL & Co. excel all other Canadian makers, having taken the First Prize on Melodeons at the last three Provincial Exhibitions. As to Organs or Harmoniums it must be remembered that The Diploma just received by W. Bell & Co. is the only one awarded during the last seven years at any Provincial Exhibition. ☞ All instruments warranted for five years, and satisfaction guaranteed.

PAPER BAGS AND WRAPPING PAPERS

Are supplied by A. B. KIDD at Montreal Prices.

Dealers will find it advantageous to give him their orders, as he has made arrangements with one of the largest firms in the Dominion, which enable him to supply Bags and Wrapping Paper at Wholesale Prices

Peterboro, November 15, 1870. 46-tf

Select Poetry.

The Fate of a Fighting Dog.

A man he owned a fighting dog—
A bob-tailed ornery cuss—
And that there purp got that there man
In many an ugly muss;
For the man he was on his muscle,
And the dog was on his bite,
So to kick the dog-goned animal
Was sure to raise a fight.
A woman owned a Thomas Cat,
That fit at a fifteen pound;
The other cats got up and said
When that there cat was round.
The man and his dog came along one day,
Where the woman she did dwell,
And the purp he growled ferociously,
Then went for the cat like—everything!
He tried to chew the neck of the cat,
But the cat he wouldn't be chawed,
So he lit on the back of that there dog,
An' bit! and clawed! and clawed!
Oh, the hair it flew! and the dog he yonled?
As the claws went into his hide,
And clunks of flesh peeled from his back:
Then he flammuzed and kicked and died!
The man he ripped, and cursed, and swore,
As he gathered a big brickback,
That he would be darned essentially
If he didn't kill that cat!
But the old woman allowed she'd be blessed if he did,
And snatched up an old shot gun,
Which was fired and peppered his diaphragm
With bird shot number one.
They toted him home on a window-blind,
And the doctor cured him up;
But he was never known to fight again,
Or to own another purp
Folks many turn up their snoots at this here rhyme,
I don't care a cuss for that;
All I want to show is, that fighting dorgs
May tackle the wrong Tom Cats!

—*Bret Harte*

Humors of the Scaffold

An Irishman had been convicted of a robbery at the Old Bailey sessions, for which he was brought up, with others to receive judgment of death. The prisoner on being called on by the officer of the court in the usual way to declare what he had to say why sentence of death should be passed upon him, advenced to the front of the dock with vacant stare, and, inquired,

'What was the question?,

'You have been convicted of robbery. What have you to say why sentence of death should not be passed upon you *according to law*.'

'Faith,' answered the prisoner, 'I have nothing much to say, except that I do not think I am safe in your hands.'

The court laughed; sentence was passed, and the prisoner was about to retire, when the officer of the court called him back and demanded to know his age.

'Is it my age ye mean?'

'What is your age?

'I believe I am pretty well as ould as me father I'll be.'

Again the whole court was, convulsed with laughter; but the wrecked man whose mirth-moving powers were quite involuntary, was doomed even at the scaffold to set the people in a roar. In the press-room his irons were removed, and his arms confined with cords. This being done, he seated himself and in spite of the call of Jack Ketch and of the Sheriff's to accompany them in the procession to the scaffold, he remained sullenly on the bench where he had up his position.

'Come,' at last urged the hangman, the time is arrived.'

But the Irishman would not move.

'The officers are waiting for you,' said the sheriff. Can anything be done for you before you quit this world?'

No answer was returned. Jack Ketch grew surly.

'If you won't go I must carry you,' he said.

'Then you may,' said the prisoner, 'for I'll not walk.

'why not,' inquired the sheriff

'I'll not be instrumental to own death,' answered the prisoner.

'What do you mean?' asked the ordinary.

'What do I mane?' retorted the helpless man, 'I mean that I'll not walk to my own distruction.'

And in this determination he persisted, and was carried to the scaffold, where he was turned off, refusing to do anything which might be constructed into his being a party to his own death.'—"Editor's Drawer, in Harper's Magazine for March.

How to Distinguish old Maids.

A contemporary thus enumerates the symtoms by which old maids may be known.

When a woman begins to drink her tea without sugar—that's a symtom.

When woman begins to read love stories aloud—that's a symtom.

When a woman begins to say she has refused many an offer—that's a symtom.

when a woman to say what a dreadful set of creatures men are, and that she would not be bothered with one for all the world—that's a symtom.

when a woman begins to change her shoes every time she comes into the house after a walk—that's a symtom.

when a woman begins to have a little dog trotting after her—that's a symtom.

when a woman begins to have a cat at her elbow at meal time, and giving it sweetened-milk—that's a symtom.

when a woman begins to be ashamed to take off her bonnet in gentlemen's company because she's no cap on—that's a symptom.

When a woman begins to say a servant has no business with a sweet-heart—that's a symptom.

When a woman begins to rub her fingers over chairs and tables to see if they are dusty—that's a symptom.

When a woman begins to go to bed with her stockens and flannel nigh cap on—that's a symptom.

When a woman begins to but her fingers before her mouth when she is talking to any one, for fear they should see she's losing her teath—that's a symptom.

When a woman begins to talk about rheumatism in her knees and elbows—that's a symptom.

When a woman begins to find fault with her looking glass and says it doesn't show the features right—that's a symptom

When a woman begins talking about rheumatism in her knees and elbows—that's a symptom.

When a woman begins to find fault with her looking glass and says it doesn't show the features right—that's a symptom.

When a woman begins talking about the drafts, and stops up all the crevices in the door and windows—that,s a symptom.

When a woman is not satisfied with the likeness taken of her by a photography—that's a symptom.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
Liver, Kidneys, Skin,
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS,
Perfectly Tasteless,
ELEGANTLY COATED.

Dr. Radway has completed one of the most essential discoveries in medical chemistry in the combination of vegetable substances for the purposes of a PURGATIVE, ALTERANT, SOLVENT, REGULATOR, IRRITANT, ALTERATIVE PILL, that can be taken by admixture with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING Elements of the human body, and also safe to take in the most malignant of Eruptive Fevers. In cases where the mucous membranes of the internal viscera are suffering from Ulceration, Inflammation, or from

LIVER,
Gastric, Biliary, Pancreatic Complaints,
DR. RADWAY'S PILLS

supply the only Vegetable substitute for
CALOMEL or MERCURY.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner. As a proof of this, you are seized with a Bilious attack! Doctor prescribes Blue Pills or Calomel; next, some Drastic Aperient Pill or Powders to work off the effects of the like Pill, this prostrates you, and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS will do all the work that the three or more prescriptions are given for, without running any risk from mercurializing or salivating the system.

RADWAY'S PILLS.

In RADWAY'S PILLS, *the true principle of purgation is secured*—not alone to the cleansing the bowels and excrements from the bowels, but those humors that are elsewhere stopped in their passage through the *Nose, Kidneys, Liver*, and all secreting and excreting functions, but it there exterminates certain humors in the skin, liver, lungs, kidneys, are instructed in their wrongs, they become poisons of decay and decomposition, and must be purged from the living body through their proper channels; hence the purgative qualities of RADWAY'S PILLS extend to the secretions of the SKIN, KIDNEYS, LIVER &c., whereas not one of the advertised Pills claims to act beyond the bowels.

How to Take Radway's Pills.
THEIR DAILY USE.

In doses of one or two pills, by all persons of a full habit of body, subject to goutiness, rush of blood to the head, palpitation of the heart, and all the accidents to this will not only keep the blood from becoming congested or clogged up in the blood vessels, but will equalize its circulation and prevent sudden attacks of apoplexy, disease of the heart, congestion. Persons who will take one of these pills every day will not suffer from Sick-ness, Dizziness, *A Tendency to Breathing Spells*, Pains around the Heart, and a hundred other disagreeable symptoms.

Bear in Mind,

RADWAY'S PILLS are the only purgative that will secure an evacuation of the stomach & aperient and tonic in one.

They are the only vegetable substitutes for Calomel or Mercury.

They are elegantly Coated with Gum, perfectly Tasteless, and free from smell.

SARSAPARILLIAN
RESOLVENT.
POISONED BLOOD.

When the blood becomes poisoned by the presence of an excess of BILE, UREA, CARBONIC ACID, and the excrementious secretions of the SKIN—SORES, PIMPLES, BLOTCHES, SPOTS, ULCERS, and HUMORS of all kinds break out on the surface.

RADWAY'S READY RELIEF

is the best, cheapest, and safest remedy that can be used for **Fever and Ague, Bilious and other Fevers.**

NOT ONE

person needs suffer, be they ever so much exposed to Fever and Ague, if they will only take **Radway's Ready Relief,** and keep their *bowels open with Radway's Pills.* Hundreds in the West, who have hitherto been doctoring at the rate of one and two hundred dollars for a few months' treatment, are breaking themselves and families free from **Fever and Ague, Chills and Fever, Rheumatism,** &c., for one or two dollars a year, spent for **Radway's Ready Relief** and **Radway's Pills** (each).

The **Ready Relief** will afford *instant ease to all.* Price only 25 cents per bottle.

N.B.—See that every bottle has an India Rubber Stopper. Sold at all Druggists, and at Dr. Radway's Offices, No. 87 Maiden-Lane, New York, and 429 St. Paul Street, Montreal, Canada.

SARSAPARILLIAN
RESOLVENT.
NEW PRINCIPLES OF CURE

Of all Wasting, Scrofulous, and Eruptive Diseases of the Eyes, Nose, Mouth, Throat, Ears, Heart, LUNGS, Kidneys, Bladder.

THE SKIN MADE PURE, CLEAR, SMOOTH, AND BEAUTIFUL.

Dr. Radway's Sarsaparillian Resolvent establishes a new principle of Cure of all Chronic diseases, and proves to the medical world that Consumption and other Scrofulous diseases are curable This fact has been demonstrated in over

One Hundred Cases of Confirmed Consumption,

where one lung in ever several cases was destroyed and dried up, and in over

200 CASES OF SUSPECTED CONSUMPTION

Dr. Radway, three years since, published to the world a analysis of the blood in the several stages of Consumption, showing in every stage, that where tubercles become organized in the lungs and other organs, as in the Kidneys, Liver, Spleen, *Bronchial Glands*, Intestines, establishing Consumption of these organs. The Blood is thin, weak, pale, watery, and a deficient of such constituents as fibrin Albumen, Phosphorus, and the rich red coloring discs of the Blood Corpuscles. In the absence of these constituents in the Blood, the Blood is exhausted of strength and nourishment, and wherever there is inflammation it deposits tubercles and de composition, it has not the power to hold in solution its natural constituents, and Ulcers, cured, Tumors, Cancers, and Varicose Humors are formed, the presence of which causes inflammation, gathering, and consequent suppuration.

This, reader, is the true cause of the formation of Tubercles and Consumption. Dr. Radway was the first to advance this theory of the cause of Consumption and its kindred diseases, and prepared *the Radway's Resolvent to supply the Blood* with such constituents it was deficient of, in those conditions of system, and to give it the nourishment and strength to hold its natural constituents in solution. Dr. Radway's theory was published in England, France, Germany, and America, and was seized upon by the scientific men of both hemispheres. From his text medical books have been since published by medical writers, claiming to have discovered the cause in Consumption, but have *failed* to produce the remedy to cure. Dr Radway was the first to advance this theory, and the first and only discoverer of a medicine *that will cure.* In Radway's Sarsaparillian Resolvent the public have a remedial agent that will cure Consumption and all diseases of the **Lungs, Bronchials, Kidneys, Bladders, Womb, Throat, Glands, and Urinary Organs.**

In all Wasting Discharges, such as Involuntary Loss of Sperm, Emissions, Weakness of the Genital Glands, Leucorrhea, and all Uterine difficulties, Gravel, Lime Stone, Brick Dust, Uric Acid, and Calculous Concretions, the **Sarsaparillian Resolvent** is a positive cure. In Dropsy, Diabetes, uncured Venereal, Syphilis in its many forms, it cures when all other medicines fail.

EVERY DAY

an increase of flesh, weight, and strength is experienced. It is Fat tissue, Caloric or Heat-making. It is to the blood what oxygen is to the Atmospheric air—it supplies the life principle. It swiftly removes from the surface all Spots, Blemishes, Pustules, Tetters, Rash, Flesh Worms, Sores, &c., imparting a **Clear & Beautiful Complexion** to all.

CERTIFICATE OF BEAUTY.

The following letter is from a highly-gifted lady, well known in the "circles of our best society."

Lancaster, Feb 7, 1869

I had not such scabbiness in your SARSAPARILLIAN RESOLVENT. Having been disfigured for the last year months with BLOTCHES and PIMPLES, I resolved, at all events, to try it, and took TWO TEASPOONFULS, three times a day, as directed. It is not quite ONE MONTH since I commenced its use. To day there is not a BLOTCH, spot, blotch, or defection of any kind on my person.—SARAH E. TREDWAY, Jersey City P.O.

Price $1 per Bottle. 6 Bottles $5.
Dr. RADWAY'S Remedies are Sold by Druggists and General Storekeepers. Principal Office, 439 St. Paul Street, Montreal.

Ayer's
Hair Vigor,
For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, *many of which are* truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination and they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organs undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors *formed in the liver*, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the accumulation of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Pile, Epilepsy, Neuralgia*, and the various *Uterous* affections of the muscular and nervous systems.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for subduing the constitute maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhea or Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising either from malaria, from the effects of poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid and Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections consequent of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

HUMBUG EXPOSED.

THE Subscriber begs to inform his customers and the public generally, particularly those intending to buy Furs, NOT TO RETAIN their orders, as there never was a better chance to select Furs than at my store. The stock consists of my own manufacture, and of nothing but the real article. I have none, nor every had any of the so called German Mink, French Seal, Sea Otter, British Sable, and numerous other high sounding, fictitious names, by which trashy imported articles are disposed of at fabulous prices. Is it not also true that Russian and Western Mink, being colored, is disposed of as Canada Mink? Goods made up for wholesale trade are of inferior quality.

Whether my own manufacture compares favorably with city manufactures, the following will show for itself. It was my own workmanship which secured to Mr. McIver, of Montreal, the First Prize for a set of Ladies' Furs, at the exhibition in 1868, held in the Grand Trunk Sheds at Montreal, against the following competitors:—Messrs Greene & Sons, Brahadi, Henderson, Brown, and several others. Mr. F. W. Lassack, of New York, being one of the Judges for Furs. The same lady's set was sold to a Baltimore lady for the handsome sum of nearly $400. I believe myself capable of doing now, as I did then.

An Examination of my Stock is solicited.

The Highest Price Paid for RAW FURS.

W. LECH.

Peterboro, October 19, 1870. 42-17in

NEW

WILSON, BOWMAN & CO.
Hamilton, Ontario
MANUFACTURERS OF THE CELEBRATED
LOCKMAN SEWING MACHINE,

Take pleasure in announcing that the popularity of the Sewing Machine manufactured by them is still on the increase. They are now turning them out at the rate of 800 per month and yet have been compelled within the last two weeks to increase their facilities to a capacity of one thousand per month.

The Lockman Machine, from its capacity to sew the heaviest fabrics with linen thread, as well as the finest cambrics with No. 150 Cotton, is pre-eminently the Farmer's Favorite Family Friend.

It is so exceedingly simple in its parts, and so strongly and durably made, that it does not require a mechanical genius for its management.

The manufacturers challenge the world to produce its equal, and yet its price is from Forty to Fifty per cent. Lower than that of any other first-class Shuttle Lock-stitch Sewing Machine.

EVERY MACHINE IS WARRANTED.

QT.
BUSINESS EDUCATION
British American Business College and Telegraphic Institute. The only representative in Ontario of the Bryant & Stratton International Chain of Colleges.
The Theory Department is thoroughly adapted to those who wish to lay the foundation of a sound business education.
The Practical Department is a minature business world, where each Student performs all the routine duties of office work, such as buying, selling, chipping, commission, and drawing notes, drafts and checks. A regular Bank of issue is in connection with this department with beautifully engraved bank notes, which is as perfect in its details as the best organized institution in the Country.
Thorough instruction in Telegraphy. Life Scholarship good in forty Colleges. For terms address.
ODELL & TROUT, Toronto.

Select Poetry.

"Going Home."

With curls in the sunny air tossing,
With light in the merry blue eyes,
With laughter so cheerily outringing,
A laugh of delight and surprise;
All friendly assistance disdaining,
And trusting no strength but its own,
The past fears and trial forgotten,
The baby is "going alone."

What woful mishaps have preceeded
This day of rejoicing and pride!
How often the help that he needed
Has carelessly gone from his side!
He has fallen while reaching for sunbeams,
Which just as he grasped them had flown
And the tears of vexation had followed,
And now he is "going alone."

And through all his life he will study
This lesson again and again;
He will carelessly lean upon shadows,
He will fall and weep over the pain.
The hand whose fond clasp was the surest,
Will coldly withdraw from his own,
The sunniest eyes will be clouded,
And he will be walking alone!

He will learn what a stern world we live in
And he may grow cold like the rest;
But just keep a warm, sunny welcome
For those who seem truest and best;
Yet chastened and taught by past sorrow,
And stronger and manlier grown,
Not trusting their all in his keeping,
He learns to walk bravely one.

And yet not alone, for our Father,
The faltering footsteps will guide,
Through the dark mazes of earth life,
And "over the rivers's" deep tide.
Oh! here is a Helper unfailing,
A strength we can perfectly trust,
Well all human aid unavailing,
"Then dust shall return unto dust"

Choice Literature.

A Sleigh-Ride Extraordinary.

Jonas Blenchford, with coat, hat and gloves already on, heard the tingle of sleigh bells and arose to go down, but when he reached the door, he felt a light touch upon his arm and heard the well-known voice of his daughter:—

"Pa, may I go?"

"But I am only going to the bank, Grace."

"After that, father. I will go there and wait for you. It will not take me five minutes to get ready."

"Well—well! Be spry, and I'll wait," said the old gentleman, quite merrily, "and I'll give you such a sleigh-ride as you never had—a sleigh-ride extraordinary. You know I have the black before the cutter."

"So much the better," said Grace; and she ran away to dress, but little dreaming how well the promise would be kept.

John Normandy stood by the window looking up the busy street, over and anon looking at his watch as though impatient for the time to pass. And indeed he was. He had no thoughts for what was passing in the street below. He saw Jonas Blenchford and his daughter as he drove up to the bank, but forgot them the moment they had passed from sight within the entrance. He had weighty thoughts upon his mind that could not be cast aside by any ordinary occurence.

He was somewhat about thirty years of age; tall, erect, dignified, and very plain of feature. He had battled with discouragements and poverty until his very face bore marks of the terrible struggles, but he had conquered. His motto had been "Onward and Upward," and never flinching, never giving way, he had at last become cashier of the bank of E——, a position both honorable and lucrative.

Only a twelvemonth had he held the position, but in that short time he had won the confidence of the officers of the bank, the regard of his fellow employees, and was generally liked by those doing business with with him.

Still he was unsocial. He asked no companions, wanted none. When the bank closed for the day he hurried away to his lodgings and was seen no more until the hour of business on the following day. Business was his only pleasure. He talked little, worked much; he was a poor companion, but a good friend.

"Day-dreaming, Normandy?"

"I have encountered so much reality that there is little of the imaginary left," said he, turning toward them half reluctantly.

"Oh, fie, Normany. Not quite thirty, I should judge and settling down into an older man than I am. What are you thinking about? It must not be. Grace, can you do anything to show this practical gentleman the error of his ways? I'll leave you with him to try, while I devote a few minutes to business."

"Don't forget the ride father."

"Never fear; you shall have it."

Normandy was really vexed to see the old gentleman trot away, and leave him to entertain the peerless Grace Blenchford. Grace suspected it, and she led him a pretty race of words that brought a smile to his face in spite of himself, and provoked some almost merry replies that sounded strangely from his lips. When Blenchford returned, he found them quite sociable; Normandy leaning over the desk, listening to Graces merry talk, and occasionally putting in a merry word that showed how well he was enjoying it.

"Thawing, by——smoke!" exclaimed Blenchford in surprise, but his manner changed immediately:—"Grace we must postpone the ride. Some very urgent business keeps me here. Wait! Normany can take my place."

"I should be pleased," said he.

"Very good, Normandy; and remember that I promised her a ride such as she never had before."

"A ride extraordinary, father."

"Yes, yes; that was it. Do not disappoint her."

"Assuredly not."

While Normandy was drawing on his great coat, a gentlemen stepped to his side and spoke to him in a very low tone. Normandy's face blanched whiter than the snow, but he recovered instantly.

"Thank you, Gahson, for this proof of your friendship, but I have known it for some hours. Please to let it rest where it is if you can, and I will make it all right in the morning. There is some mistake."

With a buoyancy of manner that suprised Grace, after what she had seen, he conducted her to the sleigh, and with gallantry little expected from one so practical, he handed her in, arranging the robes about her more skilfully than ever her old father could have done. Then he took a seat by her side and off they went.

Almost tenderly he wrapped the robes around her, yet uttering no word. Then gathering the reins, he gave the horse a light blow, and away they went at a pace that soon left the city far out of sight. "An extraordinary ride surely," thought Grace as they sped over the crisp snow; and then there was wondering how it would end. But she felt no fear, no regret that she had placed herself in his hands.

For hours they rode, he doing all in his power to entertain her, succeeding so well that she forgot the singular position in listening to the brilliant talk and varied experience. About dark they drew up at a farm-house, where Normandy ordered supper. While it was preparing, he looked after the comfort of his horse, rubbing him down with his hand and feeding him, for the ride was not yet over.

"We have four hours yet to ride," said he to Grace. "Shall we go on?"

"I trust you, Mr. Normandy. Let me help you if I can."

"Thank you! Thank you, Miss Blenchford," he said, gratefully. "You shall not repent it."

Out into the night they started again.

He procured additional robes at a farm-house, and wrapped his companion so closely that she did not feel the biting cold. He needed no covering; his blood was at fever heat, defying the cold north wind more effectually than the warmest furs.

On they drove, through the still, keen air, past farm house, over hills, across rivers through dense woods, and damp valleys, and yet the end of the ride was not ended.

Could it be that John Normandy was playing false? Did he know that the officers of the law were searching for him far and near? That his name was whispered upon the streets as a defaulter—a robber? That he was already charged with the abduction of Jonas Blenchford's fair daughter? He could not have driven faster had he known all these, nor have seemed more impatient to get over the ground. It looked very dark, yet Grace Blenchford trusted him.

"We are almost there," said he, halting the streaming horse and pointing to a light ahead. "Are you sorry that you trusted me? It is not too late yet."

"Your conduct is very strange, yet I have no fear," replied Grace.

"You are one among a thousand, said he, earnestly.

He stepped out, and taking the bells from the horse, stowed them away in the sleigh.

Then he drove on cautiously toward the light.

"It is our beacon," said he. "It tells that I am in time."

He stopped again when within a few hundred yards of the house. Securing and well blanketing the horse, he helped Grace to alight, and together they walked toward the building. "We must be very cautious, else our ride will be for naught."

He drew a revolver from his breast and placed it in his great coat pocket, where he could reach it without waste of time.

Through the crowded streets, through the less crowded suburbs, out in the quiet country. Normandy all the while chatting merrily, a startling to his real feeling. But when once they were out of the reach of the great city, his manner changed immediately. Turning his dark searching eyes upon his companion's beautiful face, he asked earnestly, almost beseechingly:

Miss Blenchford, can you trust me?"

Surprised and somewhat annoyed, she hardly knew how to answer. But she saw he was in earnest, and in the brief time she thought of all her acquaintance, and not one of them would she trust sooner.

"Why do you ask, Mr. Normandy?"

"If I should you," said he, "that those you hold most dear, yourself included, were in great peril, and a peril that you never could guess, and that I had the power to save you all, would you believe me? Would you be guided by me for a brief time?"

Startled by his manner and convicted by his earnestness, she replied as earnestly.

"Yes, Mr. Normandy, I can and do trust you. But why do you ask?"

"Do not ask me. It will be enough to tell you that you and your father and brother are in great danger, and if you place implicit confidence, I can save you. Drop your veil; if you please. Thank you.

"I have come prepared," he whispered, feeling his companion's arm tremble within his own. "Do not fear. I would sooner lose my own life than that one hair of your head should be harmed."

They stopped in the shadow just before the door.

"Now Miss Blenchford, you will, have needof all your courage and fortitude," he whispered. "Within this house you will see that which will be agony to you, but it cannot be avoided. By no other means could I save the Blenchford name from disgrace. Follow me."

Revolver in hand, he burst the door and entered quickly, closely followed by Grace.

With a cry of fierce anger, the only occupant of the room sprang up to meet the intruders; but the moment the light fell upon their faces he sank back into the chair with a groan and buried his face in his hands.

"O God! Lost! Lost!"

Grace Blenchford recognized her own brother James, and, seeing his distress, she sprang to his side to comfort him.

"Don't touch me, Grace!" he exclaimed in horror "Normandy take her away. Don't let her come near me. Why do you bring her here? Oh my sister, is it possible? Great God, I shall go mad! I cannot endure it! Why did you ever bring her here?"

"To save you," replied Normandy.

He had closed and bolted the door, but still retained the revolver in his hand. He moved nearer to the conscience-stricken man.

"James Blenchford, calm yourself," said he. "We have come not to harm you, but to save you. The presence of your sister should tell you that."

Young Blenchford raised his head with a hopeful look.

"God bless you, John Normandy? You know not what I have suffered, but dared not come back. And now you will keep it from my dear father?"

"I will," said Normandy, solemnly. "No one shall ever know it save ourselves."

"But Grace?" said James Blenchford.

"She need know no more," said Normandy, "I brought her here that the sight of her might give you courage to return to us."

"John, I shall tell her all," said James. "I shall tell her everything, but not now."

"Spare her the pain, James"

"No, John. It is my duty. But not now."

"Where is your accomplice?"

"He will arrive by the next train," said Blenchford, with a shudder. "I was waiting for him."

"And that is due in thirty minutes," said Normandy, looking at his watch.

"Give me the money, James, and we will leave this place before the villain arrives."

Grace saw all, but heard nothing, for they had withdrawn to the other side of the room tha she might not be pained; but a great fear was weighing upon her heart—a dread of some approaching calamity. When they came back, she looked from one to the other for some explanation, but very little they gave her. Normandy spoke first.

"Miss Blenchford, you are puzzled at my words and actions; but you will pardon 'me I know, when I tell that it is better for all of us to say but little about it. Your brother has been led into error that threatened to be most serious. Fortunately everything is now arranged quite satisfactorily,—thanks to your presence,—and he will return to the city with us. Watch over him and pray for him," he said, solemnly, "that he may not stumble again."

"I ask it," said James, bowing his head; and without another word, they left the house and were soon on their] way back to the city.

Silently they rode until the limits of the city were reached. Then John Normand gave the reins to Blenchford, and alighting, bade brother and sister adieu.

"But you, John?" said James. "What will you do?"

"Fear not for me," replied Normandy, adding in a whisper, "I shall not betray you, whatever happens."

Then he charged them both never to tell what had passed between them that night; and without waiting to hear their replies, he strode rapidly down the street.

He went directly to the bank, reaching it at just opening time, and without a word to anyone, he went strait to the vaults—his custom every morning—and deposited the money James Blenchford had stolen from them. Then he went back, and met the officer to arrest him.

He expected it; but he had left the money in its place, and now he was ready for prison. He had saved James Blenchford, and his father, and Grace, and what did he care now! He was alone in the world; he had done his duty; and he had hope. James Blenchford went to him in prison, but Normandy would hear nothing about surrendering himself.

"I will tell you a secret, James, and then you will see a motive for my actions. I love your sister better than my own life, and I could not bear to have a word whispered against her. Let it rest as it is. I am content."

Again James Blenchford promised, but it was hard for him to abide by it. With all his faults he had a generous heart. That very day he told Grace the whole story of his disgrace, and how John Normandy was suffering for them; and she was touched by the recital, and she thought of every means to liberate him.

"The money, James where is it now?"

"Normandy place it it in the safe unknown to any one."

"And has it not been found! Would not the whole matter be looked upon as a great blunder, and would not Mr. Normandy be liberated at once, and exonerated from all blame, if the money was found there?"

Away went James Blenchford without waiting to answer his sister's questions, and within ten minutes was mounting the steps of the bank. He sauntered up to Ganson, and carelessly inquired if there was anything new in Normandy's case.

"Nothing," replied Ganson. "He protests his innocence, and I am inclined to think he speaks the truth."

"So am I, Ganson. Do you know I am half certain that it is all a great mistake—that the money is somewhere about the safe."

"I wish it might prove so. It is a hard blow for Normandy, and, if it is gone, who else could have taken it? He has the key to the safe."

"I don't believe it is gone," said Blenchford controlling himself wonderfully. "I would like to have another search made I'll ask father—and here he comes."

Jonas Blenchford felt very sore at the disgrace of his favorite, and especially since his daughter had returned, and in the warmest terms of her treatment during the ride. He readily consented to make another search for the missing money, though he was well satisfied that it would be fruitless.

And indeed it came near being so. For full two hours they looked, pulling drawers, turning and unfolding papers, till every one but James was satisfied it was not there. He, knowing, or fully believing, that Normandy told the truth, did not give up, and at last brought the package to light from an obscure corner, where it might have been overlooked a score of times.

"It all right! he should. Normandy is innocent."

Then all was confusion. James ran home and told Grace, and they rejoiced together; while their father went in person and procured the release of Normandy, telling the strage story as he went. It was the happiest moment of his life when John Normandy took his place at the bank again.

James profited by his bitter experience. He never again swerved from the right, and is living now a respected citizen of his native place. Grace never has forgotten, for her name is now Grace Normandy, and she loves her plain, noble-hearted husband with true affection.

Woman.

Who shall limn for us the picture of a true, good woman!—the pride and paragon of her own and the admiration of the other sex—of the young woman, beautiful healthful, well informed, but not in pedantic; who can talk well, sing well, play well, walk well, and dress neat, who is neither a flirt nor proud; whose lips are innocent of slang whose heart is pure from evil thought; who is polished in manners, and affectionate in disposition; beloved of the old, the darling of the young, shy, modest and retiring; and commanding all the world's homage, without demanding the homage of anybody! Nothing in the world—at least, to the male eye—equals in pleasantness the face and form of a bashful, virtuous woman, looking up to a man for guidance, and giving him her true affection in return. Nothing, on the other hands is more disagreeable than the bold virago, womanly in form, but not in spirit, who is puffed with conceit and selfishness, and is too ignorant to distinguish between a churl and a gentleman, or to accept the place that properly belongs to her social system.

Man's Life.

Some modern philosopher has given in these eleven lines the summary of life—In these the young mother may see the destiny of her little son, that she thinks is to be the noblest man of the age. The foundation of his character is laid in the first seven years, remember and these are the mother's special term of power. Be sure that your teaching will lead him in the right way and make him in the last seven years turn to your teachings the best wisdom of his life:—

7 years in childhood's sport and play	7
7 years in school from day to day	14
7 years at trade or college life	21
7 years to find a place and wife	28
7 years to pleasure's follies given	35
7 years to business hardly driven	42
7 years for some wild goose chase	49
7 years for wealth and bootless race	56
7 years for hoarding for your heir	63
7 years in weakness spent and care	70

Secretary Fish ought not to be allowed a voice in the settling of the fishery question. It is a family matter, and he could not act impartially.

Extraordinary Wager.

A London paper says a wager once came off the terms of which are as follows: "I will bet any man £100 that he cannot make a million strokes within a month." They were not to be dots or scratches, but fair, down-strokes, such as from the child's first lesson in writing. A gentleman accepted the challenge. The month allowed was the lunar month of only twenty eight day; so that for the completion of the undertaking, an average of 36,000 strokes per diem was required. This, at sixty per minute, or 3,600 per hour—and neither the human intellect nor the human hand can be expected to do more—would call for ten hours labor in every twenty-four. With a proper feeling of the respect due to the observance of the Sabbath, he determined to abstain from his work on Sundays; and by this determination he diminished by four days the period allowed him; at the same time, by so doing, he increased the daily average of his strokes to upward of forty one thousand. On the first he executed about fifty thousand strokes, on the second day nearly as many. But, at length after many days, his hand became still and weary, the wrist swollen, and without interrupting its progress over the paper, it required the almost constant attendance of some assiduous relation or friend to besprinkle it with a lotion calculated to relieve and invigorate it. On the twenty-third day the million strokes, exceeded by some few thousands, "to make assurance doubly sure," were accomplished; and the piles of paper that exhibit them testify that to the courages heart, the willing hand, energetic mind nothing is impossible. These interesting papers are not placed in the archieves of the Royal Society, of which their author is a fellow, but were claimed and received by the person who paid the wager.

Josh Billings on the Shanghi Rooster.

The Shanghi Rooster is a gentile, and speaks in a forrin tung. He is built on piles like a Sandy Hill Crane. He is not a game animil, but quite often cums off second best in a ruff and tumble fite; like the injuns, tha kant stand sivilization, and ar fast disappearing. Tha roost on the ground, similar tew the mud turtle.—Tha often go to sleep standin' and sum times pich over; and when tha dew, tha enter the ground like a pickaxe. Tharo food konsists ov corn in tha ear. Tha crow like a jackass, troubled with the bronskeesucks. Tha will eat as much to onst az a district skule master, and generally sit down rite oph to keep from trippling over. Tha ar dredful hard to kook, yu hav tu bile one ood ov them tu a time, yu kant get them all into a potash kettle tu onst. The femail lays an egg as big az a kokernut, and when she hatches out a little of yung shanghis, she haz to brood them standing and then kant kiver but three ov them—the rest standing round the outside, like boys around a cirkus tent, getting a poop under the kanvas whenever tha kan. I would rather eat a biled owl, rare dun, or a turkey buzzard, roasted hole, stuffed with a pare of injun rubber boots, but not any shanghi for me, not a shanghi!

A reverend gentleman was addressing a Sabbth school convert at Boston Highlands last sunday night, and was trying to enforce the doctrine that the hearts of the little ones were sinful, and needed to be given to Christ. Taking out his watch, and holding it up he said: "Now here is my watch: suppose it don't keep good time; now goes too fast, now goes too slow: what shall I do with it?" "Sell it," shouted out a flaxen haired youngster!

An Irish clergyman's servant having a strong desire to try his hand at pulpit oratory managed during the indisposition of his master, to get possession of the pulpit. The congregation was so very large that Pat, who was "unaccustomed to public speaking," stood in the pulpit with his head hung down, and looking as sheepish as possible. Desperation at last inspired him with courage and he bawled out: "If any of you has got any conseate about preaching, pe had better come up here.

Peculiar People.

The extravagant man hired a cab to look out for an omnibus.

The sanguine man expected to find a policeman when he wanted one.

The cheerful man enjoyed the half hour that he spent in waiting for his dentist.

The lazy man allowed his fires to go out rather than ring the bell to bid somebody to poke it.

The hasty man sat down to read 'Paradise Lost; and afterwards was heard to boast that he got through it at a sitting.

The punctual man served out the soup for his eleven expected guests, when only three of them had actually arrived at the appointed hour for eating it.

The man of gallantry escorted his Scotish mother-in-law underneath the mistletoe, although he knew beforehand that she had been taking snuff.

The credelous man believed the assurance of a cab-driver that a long circuit was needful, because the struts were being paved.

The hopeful man twice gave a cab driver a sovereign for a shilling, and twice cherished the delusion that it would be returned to him.

The man of fortitude was brave enough to open his front door himself, when he saw the tax gatherer, the gas man, and the rate collector knock at it.

The cautious man never went a mile away from home without taking his umbrella with him, and putting a cork-screw, pen and ink, and a bill-stamp in his pocket.

The gluttonous man, by bribery, went beforehand to the upper room and devoured the liver wings of all the fowls displayed there.

The reckless man was bold enough to take his wife down Regent street, and tell her that he had a ten-pound note about him.

The modest man was tempted to return thanks for the bridesmaid, and, to avoid his chaffing friends, was caught next day at Gravsend in the act of emigration.—*Punch.*

The Nathan Murder.

The New York detective are still working to find out the murderer of Mr. Benjaman Nathan; who our readers will remember was brutally murdered on the 29th of July last. They have now in custody a well known desperado named Forrester, against whom there is some slight circumstantial evidence.

The principal evidence against Forrester is, as asserted, that the "dog" with which Mr. Nathan was so dreadly murdered, or one very similar to it, has been traced to his possession. It will be remembered that during the month of May last residence of a Mr. Schenck, on Fifth avenue, we entered and robbed by burglars. Among the article carried off from Mr. Schenck's residence was a "dog" which had been used in the house in opening cases of wine, &c. The sons of Mr. Schenck on being shown the "dog" found in the house of Mr. Nathan, it is alleged, fully identified it as the one which had been stolen from their house. This was an important point gained, and it was subsequently ascertained, almost to a certainty, that Forrester and Ellis were both engaged at the burlary at Mr. Schenck's house. This would naturally connect Forrester with the fatal instrument.

It is alleged that the police authorities have positive information that a few nights before the murder Forrester, under an assumed name, occupied a room at the Fifth Avenue Hotel, and that he desired and was given a room on the Twenty-third street side of the hotel overlooking the Nathan mansion. It is asserted that Forrester was seen in the vestiable of the hotel on the night before the murder. The evidence in the hands of the police is doubtless stronger than these points, on which alone he could not be convicted. It is further claimed by the police authorities that Forrester was not alone in this "job", but that he had one or perhaps two accomplices. He was, however the one who "put up the job," and the one who, with fiendish violence, showered blow after blow upon the head of his defenceless victim, adding murder to the list of his many crimes.

Forrester, as stated before, is a desperado of the most dangerous stamp. Though not more then 36 or 38 years of age, he has spent nearly half of his life in prisons of the United States. He escaped from Joliet Ill., State prison, where he had thirteen years more to serve. He has been confined in Sing Sing prison, at Cherry Hill, in Pennsylvania, and escaped both. He has a several indictment for burglary hanging over his head. About a year and a half ago he was arrested by one Allen Packer ton's detectives on a warrant for a crime committed out West, but rescued from the officer by Tho. Allen and a crowd of thieves from the St Barnard House, corner of Prince and Mercer streets. During his active career he has secured a remarkable immunity from arrest, but it is to be hoped that he will be secured at last brought to the bar of judgment to receive well-deserved punishment for his misdeeds.

STRANGE fate await some men. There have been those who have escaped fire and sword on the battle-field, who have come home to die by a gun accident; or who, having gone down into the great deep, passed its perils to be drowned in some little inland lake. But who will say that the fate of George Francis Train does not surpass these? He has been at the theatre of war; he has had hair-breadth escapes while praising the American Eagle, the Irish Republic, and himself, the cynosure of all eyes. He has been inside a French prison, and has been in deadly peril from a populace outraged by the orator's mongrel French and imitated nonsense. But he returned to America, to the proud city of Chicago, to be arrested for the paltry sum of $10! "Tell it not in Gath, publish it not in the streets of Ascelon;" let it not be known that some "base mechanical" of Chicago was mean enough to arrest and cast into prison the greatest of America's orators, her future President, and present prince of bathos and buncombe—George Francis Train.

THERE is a good deal of a excitement just at present over the removal of Senator Sumner from the statements in circulation respecting the cause. The Washington correspondent of the New York *Post* says that the Senate committed itself more than six weeks ago to Sir Edward Thornton, to change the chairmanship of the Foregin Committee, as he feared that labors of the Joint High Commission would be futile as long as Senator Sumner, who offered such strong opsition to Reverdy Johnson's was in a position to use his influence against the settlement of the questions between the two nations, otherwise than in ways agreeable to himself. This story is not likely It is far more probable that his removal has been desired

NEW ADVERTISEMENTS.

Spring—Ferguson & Elder.
Court of Revision—Municipality of Douro.
Farm for Sale—Richard Freeborn.

PETERBOROUGH, MARCH 23, 1871.

The Peterborough Examiner

Editorial Items.

Messrs. W. G. Thompson & Co. have received a large portion of their Spring Stock, and invite inspection. See their advertisement.

The *Former's Advocate*, published in London, Ont., by Mr. Weld, is a very creditable Farmer's paper. It is neatly got up, and deserves popular favor. Farmers send for it for a year.—It is $1.00

MECHANICS' INSTITUTE.—Mr. Dixon's Lecture on the "War Question" has been postponed till the 29th instant, when we hope to see a large attendance, as this will be the last lecture of the season, in connection with the Mechanics' Institute.

We understand that the Board of School Trustees have agreed to take the necessary steps to form a Collegiate Institute, under the provisons of the New School Act. This is a step in the right direction, and we believe the people will fully sustain them in any additional necessary expense.

NEW GOODS.—Read Messrs. Ferguson & Elder's advertisement. They have opened their Spring Goods, and are offering bargains. They have made some more improvements in their store; which adds to the general improvement of their establishment, it is now filled with new goods imported from the British Markets. The firm have made progress since they started business in this town, owing they tell us, to their selling at small profits and having always on hand new goods.

PERSONAL.—In reference to a late rumor, that Wm. Long, Jr., had left Canada, because of the charge of having killed a man, in the back woods, we are glad to be able to state he is still in Canada—near Barrie, County of Simcoe—and has been all winter. The rumor is therefore without foundation. His address is Allandale Post Office. We have several letters from him in our possession, written since January 1871. Such foul rumors deserve retribution.

Mr. O'Donohoe leaves for his home today. It is the intention of the leading Reformers to accompany him to the Station and see him on the cars. His defeat must not be considered adverse to Reform principles. The shortness of time he had to meet the Electors—only two weeks to canvass a tract of country 40 by 100 miles in extent—a non-resident—being considered almost criminal—and the cry Catholic, Fenian, Brownite, being howled from one end of the Riding to the other, and the influence of John A. and John S. through Bishop Horan, all combined, and intensified by the most unwarrantable fly-sheets, scattered broadcast from Keene and the *Review* office, and last and worst the want of organization in the Reform ranks, were too powerful to be overcome.

It is the intention of the reformers of these Ridings, however, to give a banquet in his honor in about ten days, as press of business compels him to leave at present. Then we hope to see a full gathering and organisation commenced. Let us be prepared for emergencies, for the party who have controlled public affairs are prepared for extreme courses.

The West Riding Retrieved.

On Tuesday the people of the the West Riding rejected by a handsome majority the late Mr. Carnegie. He is dead, never to come to life again.

We shall not glory too much, let the dead lie, we will speak no evil of the deceased. He is gone, Gone! Gone! Let a dead dog lie there.

Mr. Fairbairn has been gloriously elected, by a handsome majority of 52. Mr. Fairbairn will prove a most valuable and reliable representative and we have no doubt, but that at the end of four years he will be so popular that no man need oppose him. The spirit of the people is so aroused that they are determined not to be found napping.

Our candidate must be in the field in time to prevent this requisition affair from binding the unwary who may be induced through false representations to place their names among the doubtful. Several staunch men were thus entrapped this time, but we warn them in time not be so again. The system of intimidation too, that the conservatives used was shameful, threatened the poor tenants and others lest they might lose their daily bread. some lest they might lose their license, —others have been abused soundly for their independence—and for exercising their legal and moral right to support whomsoever they might prefer.

Other creatures who perhaps never gave an independent vote in their lives, and whose votes to often depend upon the beck or nod of some one in power, were exceedingly noisy. What will they gain by it. Let them take care that whiskey has not more to do with their bravado than their common sense has.

The West Riding has rejected Mr. Carnegie for his unreflecting support of a ministry in whom the country has too little confidence. He is righteously consigned to the waste basket, and few have better deserved it. He will now have time to reflect over the past, and we can assure him that in future there will be no Carnegie on the brain. He will be allowed to enjoy his rest undisturbed. Politically the good people of the West Riding of Peterboro' have great reason to be thankful of the results of the contest.

The following is a statement of the polls at the close.

Majority for Mr. Fairbairn, 53

France.

This unhappy and unfortunate nation has obtained peace only to return to a reign of terror. Paris is in the hands of a lawless mob. The Government is too weak to secure order. Some of their best Generals have been assassinated, and all appearances indicate that peace is worse for Paris than war. Even the women are armed and arming. The fallen Emperor has left Prussia for England. What he intends doing few can divine.

The *World's* special of the 20th dated London, says:—

Napoleon arrived to-day. On meeting the correspondent of the *World*, as an old friend, the Emperor said—"My return to France is only a question of time. Sooner or later she will summon me to save her from incapables, who are now displaying their folly and madness in shedding her blood, and plunging her into anarchy. My pretended deposition will never be ratified by the people. There are only two parties in France who possess real strength—the Republicans and the Imperialists, but the empire alone is able to conduct France to true and permanent libesty. The Orleanists possess only imaginary strength. They dare not venture an appeal to the popular will." The Emperor is in excellent health.

Anarchy and bloodshed may hasten his recall. It requires a strong arm, to settle the Country and restore peace. The folly of the people in urging the Emperor to take up arms against Prussia, is now manifest, and the restoration of Napoleon III may yet be necessary to prevent the complete demoralization of the nation. The Orleanists are afraid to assume or invite power. Let us hope that ere long the people will return to their right mind.

East Riding.

Mr. Read has succeeded in retaining his seat for four years longer, but the means used have been anything but honorable.—His friends have done what he would not do, but their doing so has alienated from them a host of their former supporters whose spirit will not rest satisfied until the insult has been revenged by driving Conservativism out of East Peterborough. A very few months too will show that our predictions are true.

Mr. O'Donohoe has been vilified and slandered, and his supporters have been insulted in the most thoughtless manner by men whose judgments were certainly not well formed, and whose interest in the County are very slender. But not satisfied with winning, they are threatening all sorts of vengeance on his friends and supporters.

We imagined that only in Manitoba and under certain religious influences, such things existed, but we find that in Peterborough East, we are threatened with a young Manitoba rule— but we would remind them that it is a bad rule that won't work two ways; and that every dog has his day. There are some who may sometimes be afraid, but there are some who know no fear—and who are not afraid to do their duty to their Country, without fear, favor or affection,

Mr. O'Donohoe, although defeated, has left his mark in this County. He leaves with the good wishes of all who have had any intercourse with him during the campaign. Everywhere he met the people he made hosts of warm friends and supporters, and would have swept the Riding but for want of time to visit the different portions of it. That the people of Otonabee gave Mr. Read only 33 of a majority, proves conclusively that Mr. Read is not the strong man he is represented to be. Take away certain influences and he is weak; but we are not now called upon to show wherein his weakness consists. His course will be watched. If he does right, well! if not a day of recompense will again return.

This one thing is certain—the County is secured to good Government for many years. At next Election the Coalitionists will be swept away, root and branch. Let there be organization, and the result is certain. We advise our friends everywhere to meet and form Reform clubs.—Then form a Central organization in Town. The party can then ensure a large Convention from these organizations, to select Candidates from time to time, and thus unity can be maintained.

Let this not be delayed, we may have the Dominion Election in a few weeks.

The Meeting in the Music Hall.

As soon as it was certain that Mr. Fairbairn was elected, his supporters gathered into the Music Hall to the number of fully 700, and there Mr. Fairbairn addressed the vast audience, congratulating them on the splendid victory achieved in snatching the West Riding from the Patent Combination and in ushering in a new order of things in this county. He made favorable mention of the names of several of his committees who worked with a zeal and energy worthy of any good cause.

Messrs. Dumble, Lannin, R. Walton A. Smith, Bertram, George Leonard, Tierney, J. Moloney, McGrath, T. Beavis and a host of others in town and in Smith, Mr. Walton and his sons, Tully's, Davidson's Manns and an innumerable catalogue of warm friends.

North Monaghan, Dundas, Hovey, Goodfellow, Tully's, M. Walton, Fowlers, Dobbins, Robson, Brownscombe, Leary, Berry.

South Monaghan.—Kerr, Rutherford, Woods, and a host of fine fellows who manfully worked for a majority.

In Ennismore there were hearts of steel whom he would ever remember and who true to their promises gave him 37 of a majority in that township alone.

Mr. Dumble was repeatedly called and also addressed those present, congratulating them on the victory and joining Mr. Fairbairn in condemning a certain sheet circulated by Mr. Carnegie in South Monaghan, with his own hands, and also by Mr. Romaine, in town, stagmatizing it as mean and contemptible, and worthy of the strongest condemnation of every right minded man.

Messrs. Leonard, Leary, Stratton and Moloney, were also called for and had to answer. After perfectly deafening calls for Mr. O'Donohoe, he took the platform and thanking the audience for the mark of respect paid him, he explained his connection with the reform cause in Ontario and his devotion to it, believing that it would assuredly triumph ere long. He congratulated Mr. Fairbairn on his election, and urged reformers of every creed to stick together, and the present victory would only be the beginning of brighter future for Peterborough.

He stigmatized in strong terms the malice used by the ministerial candidates to blacken his character; but said it would work wonders in alienating from them those very people whom they once courted but now insulted because they dared to vote against them. He, however, felt that his coming to Peterborough had not been in vain. The West was won, and the fact that Mr. Read only obtained a majority of 33 in his own township, with all his money and influence, was a guarantee that the reformers of the East are still alive, and ere long will drive conservatives to private life, which would be a blessing to Canada. He was almost silenced with repeated applause, and cheers and clapping of hands. Three cheers were then given for Fairbairn, three for O'Donohoe, three for the victory, three for the Princess and Marquis of Lorne, three for the Queen, the band playing the National Anthem, when all dispersed highly pleased.

The meeting was one of the best held in Peterborough for many years.

The Campaign.

The contest is over, and the result is certain, whether to the advantage of one party or the other. It has been contested with an acerbity, and warmth not often equalled, but we trust, that all the hasty words and warm feelings engendered during the last three weeks, will be at once forgotten and that the people of these ridings, and of the Province generally will return to their usual avocations with friendly and amicable intentions. It is to be regretted that the electors cannot all carry on their political canvass, without insulting and abusing each other. It is certain that that the candidates generally do not wish any party enjoy unlimited control of public affairs, without a healthy and reasonable opposition to point out the rocks and quicksands now and then. The past government has been too strongly supported. The hope of gain kept a long train of camp followers in the rear. It had become impossible to pass a measure unless by favour of the Leader and his followers, and good measures were either delayed, or entirely rejected because they originated with the opposition. The lovers of a healthy opposition, therefore instead of being blamed for their course deserve the thanks of the country and they will get them.

In a year, or perhaps sooner, we will have another election for the Dominion Parliament, and a warm conflict may be expected. A wise preparation with good organizations everwhere will so ensure the co-operation of all, that less arguments and fewer public meetings will be required to guarantee success. Hasty words stir up anger; let them be avoided. Insults produce the same; why are they not avoided? Surely this is a fine country: at any rate, we should have liberty to think and vote as we believe right, without fear of molestation.

Royal Marriage.

NEW YORK, March 21.—The *World's* special, dated Windsor, to-day, says:—

"The weather is clearing and the marriage of Princess Louise has been celebrated with brilliancy. At eleven o'clock this forenoon, ministers, ambassadors, nobility and clergy and the bridegroom's family were admitted to the royal chapel. At 12 o'clock, ten royal caariages with all the members of the Queen's family and other royal personages left the Queen's gate at Windsor Palace and proceeded to the south entrance of the chapel, where they were received by the Lord Chamberlain and conducted to places on the Haut-pas. At 12 o'clock the bridegroom arrived accompanied by Earls Percy and Lord Gower. They were conducted to a seat on the Haut-pas. At 12:15 the bride, accompanied by the Queen and suite in five carriages, arrived at the west entrance of the chapel where they were joined by the bridesmaids, and moved up the naves amid music by the choir. The bride was supported by the Queen, the Prince of Wales and the Duke of Saxe Cobourg. The bridesmaids were, Ladies Campbell, Cecil, Butler, Montague, Gordon, Lennox, Gordon, Seymour and Fitzgerald. The bride was seated on the left of the altar with the Queen near at hand. The ceremony was performed by the Bishop of London in choral style. The Queen gave the bride away. At the end of the last prayer a royal salute was fired from artillery in Windsor Park, and the guests repaired to the Castle for luncheon. The bride and bridegroom departed at three o'clock for the honey-moon. About a thousand guests witnessed the ceremony. The grounds of the castle are filled with immense crowds, and Windsor is *en fete*. The Marquis of Lorne wore the uniform of the Argyleshire artillery, not Highland costume. The Bishop of London was assisted by the Bishops of Oxford, Winchester and Worcester.

To-night there will be a grand banquet and the castle will be illuminated. Festivals will continue two days.

PETER'S MUSICAL MONTHLY.—It is downright extravagance to buy music in sheet-form, when you can get nearly twenty times your money's by subscribing to PETER'S MUSICAL MONTHLY. The April number is to hand, and contains the following beautiful selections.

Send the Little Ones Happy to Bed, Song and Chorus, Persley; Alone by the Sea, Song and Chorus, Henry Tucker; Building Castles in the Air. Scotch Melody; Somebody Loves me Dearly, Song and Chorus Presley; Go, Pretty Flower, with Eyes of Blue. German Song, Haas; Beautiful Days that are Dead. Quartet, Hollister; Ester-Time. Sacred Quartet from Abt, Dressler; Blue eyes Galop, Harmuston; Indiana Polka, Jaeger; Village Beauty Polka, Kinkel; Take me Home. Transcription. L. Tonel.

The above pieces, if purchased in sheet-form, would at $4.75. You can get the lot for thirty cents, by sending to J. L. Peter's, 599 Broadway, New-York, for the April Number of PETER'S MUSICAL MONTHLY.

Dummer Council.

Council met upon call of Reeve. Present all the members.

BY-LAW, No. 251.

To aid Dummer and Douro Agricultural Society to amount of $100 in the erection of an Agricultural Hall in Warsaw, was read a third time and passed.

PETITIONS.

A petition, which Council were asked to sign, praying Government to aid in extension of North Shore Railway from Hall to Carleton Place, thence Westward to Georgian Bay by way of Peterborough, was now considered. When it was

Moved by Councillor Choate, seconded by Councillor Payne,—That petition be signed and forwarded to Ottawa.

LICENSES.

Messrs. John Blackburn and Wm. Snelgrove applied to Council for Tavern Licenses, and John Wason, Jr. for Shop do.—The Inspector being ill, it was moved by Councillor Choate, seconded by Councillor Spence,—That upon Clerk being furnished with certificate from Inspector, that premises are in proper order, he grant applicants a permit to obtain their Licenses.—Carried.

AUDITOR'S REPORT.

The Auditor's Report was now read in detail and sanctioned by the Council.—Clerk authorized to have an Abstract published in "Peterboro Examiner," and 200 copies of Detailed Statement published in Office of "Norwood Registar."—Carried.

TAXES.

Mr. Roach asked Council to remit his tax, $31.55 on East part 20 in 1st as he has suffered serious loss by fire. After considerable discussion, and dinner, Council agreed upon motion of Mr. Choate, seconded by Mr. Payne, to remit $16.55 upon Mr Roach's paying balance, in consideration of his serious loss by fire.—Carried.

Mr. Stevens claim was laid over for another meeting.

CHARITY.

Mr. Mark Payne applied to Council for something towards the keeping of Mrs. Corrigan.

Moved by Councillor Payne, seconded by Councillor Ferguson,—That Mr. Payne receive for Mrs. Corrigan $8.—Carried.

LOCAL OFFICERS.

Council now appointed the following persons to be Pound-keepers and Fence viewers, viz:—

Pound-keepers, Ward No. 5, David Payne; Ward No. 4, Chas Payne; Ward No. 3; Jas. Morrison; Ward No. 2, Jas. Clysdale; Ward No. 1, Thos. McDonald.

Fence viewers, Messrs. David Kelly, Thos. Ritchie, John Clysdale, Sr., Wm. White, Geo. Truesdale and Rich'd Batten.

By-law 252 to confirm appointment of Local Officers and By-law 253 to authorize payment of certain moneys having been passed, the Council was adjourned to meet on last Saturday in April.

A. S. MAGUIRE,
Clerk.

Victory

The result of the Elections yesterday—although not all we had the right to expect from the electors of Ontario—is a through defeated of the Patent Combination! The slaughter among the servile supporters of Government in last Assembly is something fearful.

Anderson has been defeated in Prince Edward!

Beatty has been defeated in Welland!

Burns has been defeated in West Middlesex!

Cockburn had to retreat from North Victoria!

Carnegie has been defeated in West Peterboro'!

Carling has been defeated in South Huron!

Eyre has been defeated in East Northumberland!

Ferrier retired gracefully from Center Wellington!

Graham has been defeated in West York!

Hays has been defeated in North Huron!

Lyton has been defeated in East Elgin!

Lyon has been defeated in Carleton!

McGill has been defeated in South Ontario!

Murray has been defeated in North Renfrew!

Matchett has been defeated in South Victoria!

Strange wisely retreated from Kingston!

Smith (John) has been beaten in Kent!

Speaker Stevenson has been most righteously rejected in Lennox!

Swinarton dare not offer for Cardwell!

Smith [H. D.] has been beaten in North Leeds!

Tett retired from South Leeds!

Wallis has been beaten in Toronto!

Wigle has been beaten in Essex!

Wilson has been driven from North Norfolk!

Of the phalanx of 55 members supporting the Government in last Assembly but 22 have been re-elected!

Of the famous Army of Martyrs of last session hardly one specimine is left—McGill Cockburn, Beaty, Eyre, Lount, Swinarton Smith, are all gone "down among the dead men!" The meanest of them all, Barker and Landy, have yet to be heard from, but it is fervently to be hoped that they too have been extinguished.

Such a smash up has never before been witnessed in the memory of the most venerable politician!

In marked contrast with all this, the Opposition have lost but three of their old members who sought re-election.

Mr. Evans, we deeply regret to say, has been defeated in West Middlesex; Mr. Boyd has been defeated in Peel; and Mr. Trow (solely wavering consist) lost his election in South Perth.

Of the 87 constituencies into which Ontario is divided 81 have elected Representatives; and one (Algoma) will elect one some weeks hence. At the hour when we went to press, early this morning, returns had been received from 72 of the 81 constituencies—and the 8 others will be heard from to-day.

From the 72 constituencies heard from the have been returned

27 Ministerialists.
40 Opposition—and
5 Independents.

The nine constituencies yet to be heard from, are:—Addington, Cardwell, Elgin West, Grey South, Halton, Monck, Stormont, Victoria North, and Wellington North. Of these the Opposition are almost certain to carry five—which would leave the composition of the new House, as follows:

Ministerialists	31
Opposition	45
Independent	5
Algoma	1
Total	82

These figures may be slightly changed either way—but beyond all question the fate of Mr. Sandfield Macdonald's Patent Combination has been settled by the *fiat* of the electors.

Members Elected.

LIBERALS.

ROSEWELL—Mr. McKellar elected.

NORTH ESSEX—Fisbquon elected by about 200 majority.

NORTH BRUCE—Mr. Sinclair elected.

SOUTH BRUCE.—Blake elected with 300 of a majority.

DUNDAS.—Cook elected, 241 majority.

WEST DURHAM—Mr. Blake elected.

EAST ELGIN.—Dr. Wilson has a majority

HALDIMAND.—Baxters majority, 35.

HAMILTON—Brown, 1092; Williams 1294. Majority for Williams, 202.

NORTH HURON—Gibson elected, 195 majority.

SOUTH HURON. — Gibbons majority about 190.

KENT—Dawson elected by about 105 majority.

KINGSTON—Mr. Robinson elected.

LAMBTON—Mr. Pardee elected.

NORTH LANARK—Mr. Galbraith elected.

LENNOX.—As far as heard from, gives Grange 200 of a majority.

WEST MIDDLESEX—McKenzie elected, majority 467.

NORTH MIDDLESEX.—J. S. Smith, elected, 300 majority.

EAST NORTHUMBERLAND.—Webbe maj. 37 as far as heard from.

WEST NORTHUMBERLAND—Fraser majority, 28.

SOUTH NORFOLK—McCall elected, majority 81.

NORFOLK NORTH.—Dr. Clark elected by 268.

SOUTH ONTARIO.—Farewell elected, 130 majority.

NORTH ONTARIO.—Paxton's majority as far as heard from, 689, 3 townships to be heard from.

SOUTH OXFORD.—Oliver elected by 406 of a majority.

NORTH OXFORD—Mr. Ferry elected.

PETERBORO WEST.—FAIRBAIRN has 52 of a majority.

PRINCE EDWARD.—Striker elected, 134 majority.

NORTH RENFREW.—Deacon Elected by a large majority.

WEST TORONTO.—Majority for Crooks, 142.

NORTH WATERLOO—Mr. Springers elected.

SOUTH WATERLOO.—Clements elected by a majority of 150.

WELLAND.—Currie elected by a majority of 137.

CENTRE WELLINGTON.—Clark probably elected, majority 284, with two places to be heard from.

SOUTH WELLINGTON—Mr. Gow elected.

NORTH WENTWORTH—Christie elected by 271 of a majority.

SOUTH WENTWORTH.—As far as heard from gives Sexton over 200 majority.

WEST YORK.—Patterson elected by 126 of a majority.

EAST YORK—Mr. Crosby elected.

NORTH YORK.—McMurrich, majority, 171 with two townships to be heard from.

WEST DURHAM—Mr Blake elected.

Total 41.

MINISTERIALISTS.

SOUTH BRANT—Wood, majority 150.

BROCKVILLE—Mr. Fitzsimmons elected.

CORNWALL—Mr. Macdonald elected.

EAST DURHAM—Mr. Williams elected.

FRONTENAC—Mr Calvin elected.

GLENGARY—Majority for Craig 85.

SOUTH GRENVILLE.—McNeil Clark elected by 38 of a majority.

NORTH GREY—Scott elected by about 30.

WEST HASTINGS—Mr. Grahame elected.

EAST HASTINGS—Mr. Corby elected.

NORTH HASTINGS—Mr. Boulter elected.

SOUTH LANARK—Code elected 241.

SOUTH LEEDS—Mr. Macdonald elected.

LINCOLN—Mr. Rykert elected.

LONDON—Mr. Carling elected.

EAST MIDDLESEX—Tooley elected, majority 89.

NIAGARA—Mr. Richards elected.

OTTAWA CITY.—Close of poll, Scott elected, 400 majority.

CO. PEEL.—John Coyne elected by about 50 of a majority.

NORTH PERTH—Montieth elected, 453 majority.

SOUTH PERTH—Guest elected, 31 majority.

EAST PETERBORO.—Returns as far as heard from indicate Read returned by over 200 of a majority.

CO. PRESCOTT.—as far as heard from Hamilton's majority is over 200.

SOUTH RENFREW.—Harrington reported elected no return.

RUSSELL—Wm. Craig elected, majority 9

SOUTH SIMCOE—Mr. Ferguson elected.

EAST TORONTO—Close of poll, Cameron 1195; Metcalf, 1090. Maj. Cameron, 105.

MONK.—McCallum has 263 of a majority in 3 places heard from.

HALTON.—Barber's majority 130.

Total 29.

INDEPENDENTS.

CARLETON—Returns incomplete but indicate Monk elected.

ESSEX—Prince returned 320 majority.

NORTH LEEDS and GRENVILLE.—As far as heard from gives Merrick 72 of a majority.

NORTH SIMCOE—Ardagh elected, about 300 majority.

SOUTH VICTORIA—S. C. Wood, elected

NOT CLASSIFIED.

CARDWELL—Mr. McDonald elected.

GREY—Mr. Clark elected.

NORTH VICTORIA—Mr. McRea elected.

WEST ELGIN—Not heard from.

STORMONT—Not heard from.

NORTH WELLINGTON—Not heard from.

ALGOMA—

LONDON INVADED BY GERMANS.—The Daily Telegraph says the representatives of peace allowed a number of German soldiers who were in the North of France to pay a hurried visit to England, and Hyde-park, St. James's park, and the neighborhoods of our principal buildings were yesterday visited by a number of fair-haired bronzed, and square-shouldered foreigners, who stared around them as we are told their countrymen stared who marched down the Champs Elysees. They were not in uniform; but they still wore their long riding boots and spurs. As most Englishmen fancy that every German cavalry soldier is an Uhlan, considerable curiosity was excited yesterday by the presence of some of the daring horsemen whom the French peasantry have come to regard with a mysterious awe. From their appearance it was considered that as a class they came from the agricultural parts of Germany, and but for their speech they might have been mistaken for a company of steady Yorkshire cattle, who had come up with many thousand head, from country fairs. They were evidently keen observers, and enjoyed a favourable notion of our London citizens, as the day was warm and mine up a day in June.

This Morning's Despatches.

NEW YORK, March 20.—The steamship 'Tritia,' from Glasgow, has arrived.

BORDEAUX, March 19—Henri Rochefort is here, suffering from a relapse of his recent sickness.

JULES MIRES, celebrated banker of this city, is dangerously ill.

WASHINGTON, March 20.—During the session of the Joint High Commission during the past week, the relations of the two countries to each other have been considered in a general way with the view of seeing what concessions might be made by either sides before any particular point of dispute shall be taken up for settlement. The impression that prevailed at first that England was prepared to offer the olive branch, and that mere quibbles would be discarded for a candid and frank avowal of the wrongs committed and damages to be adjusted, has given place to a fear that England is not disposed to make any magnanimous concessions, and that if any arrangement is entered into for the settlement pending questions it must be on the basis of an equivalent. The Commissioners seem to incline rather to the plan of purchasing the rights of our fishermen to fish freely in Canadian waters without restriction. That is looked upon as an easy mode of settlement. On the other hand there is a certain popular sentiment against commencing the adjustment of our differences with England by our deeming to pay England land money. It is said that neither the renewal of a reciprocity treaty, nor the payment of a considerable sum for the right to fish for ever in Canadian waters, will be popular with our people, It is hoped, however, that the commission, after a thorough consideration of the subject may arrive at some solution which will de naturally satisfactory.

NEW YORK, March 20.—Wm. H. Burleigh, the well known poet and temperance lecturer, died in Brooklyn yesterday.

THE STATE OF THE SOUTH.—A government which is unable to afford substantial protection to its loyal citizens against those who waylay, assault, maim, and kill them under the instigation of hostility to and hatred of that government, is hardly worthy of the name. A government which might afford such protection, but neglects or refuses to do so, ought to be hissed off the face of the earth. And it is too soon to affirm its inability until after it shall have put forth its best exertions. That men are daily killed throughout most of the Southern States, because they are Republicans, is just as sure as the fact that those States were lately the scene of a great civil war. There have been not less than five thousand negroes killed, because of their color and their politics, in those States since Gen. Grant's election; and not one white Southern has been punished for such murder. Nay: the brutal murderer of a White military officer at Vicksburg, Miss., walks the streets of that city as freely and proudly as though he were the hero of some great Confederate victory The White man wantonly murdered a negro near Frankfort, Ky., and was arrested therefor and taken out of the jail by a White mob, in the immediate presence of the State Legislature; and, though Judge Pryor (a Democrat) thundered against the law-breakers, as it was his duty to do, and the Louisville *Journal* pronounced the state of things disclosed by this and kindred outrages utterly disgraceful to Kentucky, not only has no reform been effected, but the Democrat organs, North and South, have suppressed the facts, and still keep them from the knowledge of their public. The *World*—which loudly vaunts its excellence as a newspaper—systematically ignores the proofs of Rebel outrages and murders now rife at the South, and hounds on the Democratic members of Congress to oppose any preventive legislation.—*N. Y. Tribune.*

THE BALLOT.—As Canadians, we often show a willingness to follow an illustrious example. England is just now setting us one in the matter of the matter of the ballot. A bill to establish secret voting is now before the British House of Commons, the nature and leading provisions of which we have already explained. Mr. Trembley, a member of our Dominion House of Commons, had introduced a balled bill; but, on examining the English bill which has just arrived, he has determined, it is stated, to abandon it, and to substitute for it the British Bill. If precautions, and an honest intent to frame a measure that shall be effective for the end sought for, can make a bill perfect, the one in question would seem likely to be so.

Waking up the Hearers.

As the warm weather is now drawing on, and some of the good people may, even more than heretofore, be disposed to take their summer naps in church, it will not be amiss to remind them of the opinions and practice heretofore held by good men and of the methods which have been adopted to get rid of the evil.

One of the old divines said, "He that sleeps in a place of worship is no better for time than a corpse, at whose funeral the minister is preaching. And another of that worthy fraternity remarks, "that sleepers in religious assemblies are public nuisance and ought to be driven out from the place they so much disgrace."

Several centures ago old Bishop Aylmer, seeing his congregation pretty generally asleep, took out his Hebrew Bible from his pocket and read a chapter, which aroused attention, when the old minister rebuked them sharply for sleeping when they might have understood him and listened when they knew not a word he said.

Of the witty Dr. South it is said that preaching before King Charles he saw that protentate asleep he stopped short, and in a loud and altered tone of voice, three times called out "Lord Lauderdale," his lordship stood up and looked at the preacher, who addressed him with great composure. "My Lord, I am sorry to interrupt your repose but I must beg of you not to snore so loud less you should wake the King."

A clergyman at Exeter, in England, named Nicol, once saw several aldermen, asleep, and sat down. The silence of the preacher and the movement among the hearers, woke the wemblipful magistrates, and they stood up. The clergyman then rose, and said, "The sermon not yet finished, and now as you are awake I hope you will harken more diligently.

Many years ago we heard an eccentric Baleat minister cry out in a sleeping congregation, particularly addressing one of his members, "Brother Thomas Smith, if you don't wake up I shall call you out by name."

The Concert given by Mlle Marc Poinier and Miss Lettie Scott, came off on Monday evening, before a large and fashionable audience. The pieces chosen were very select and beautifully rendered. Miss Poinier is a sweet singer. She sings with such graceful simplicity and sweetness, and seems quite at ease with her most difficult pieces. She also gave a Piano Solo, and Duetts with Mr. Gallesly and Miss Scott, which were perfection. Her performances elicited the repeated applause of the audience, form the first of her having been repeatedly encored. Miss Scott, sang in Character—sang well, and with a variety indescribable. She has something of the flashy style about her which would suit better in a Burlesque performance, or in a City, where such singing is appreciated.—The Concert was the first of the kind given to those we have seen before the Music Hall, and the proprietor of the rooms further contemplates having a series of concerts during the season. We hope to be present at them again, and we recommend those who have not been to attend them. Tickets are only 25 cents per head.

The Revolution in Paris.

NEW YORK, March 20.—A special despatch dated Paris, 20th, 10 a. m., says: Gen. Chanzy was sent with a large body of troops to Montmartre to suppress the insurrection. The troops, however, for the most part went over to the Insurgents.—Chanzy was made prisoner, taken to the garden of Rue des Rosiers Montmartre, where the central revolutionary committee were sitting, and after a short trial was shot.

An immense number of the insurgents have left for Versailles with the intention of endeavoring to overawe the Assembly, which will sit to morrow.

Gen. Duval is at the head of the insurgents, and is leading them in their mad and wild career.

PARIS, March 19, via London March 20.—The Nationals have placarded two proclamations.

The first one issued says:—The French people awaited calmly until an attempted was made to touch the life of the Republic. The army did not raise its hands against the arch of the liberties of the Republic—the only Government that can close the era of invasions and civil war—the people of Paris are convoked for communal elections. The proclamation is signed by the central Committee of the National Guard, and dated at the Hotel de Ville.

The second proclamation is as follows:—

TO THE PEOPLE OF PARIS,—You have entrusted us with the defence of the rights of Paris. We have driven out the Government which betrayed us. Our mission is fulfilled, and we now report to you. Prepare for communal elections; given us anew only recompense the establishment of a real Republic.

The same signatures, thirty in number, are appended.

The *Official Journal* contains the following:—

A proclamation from the Committee assuming the name of the Central Committee, has been distributed throughout Paris. The men of the barricades have taken possession of the ministry of justice, and assassinated Generals Clement, Thomas and Lecompte. It is not known who are the members of the committee, neither is it known what they deliver Paris from. The crimes committed by them remove all excuse for support by their followers. Let all who have regard for the honor and interest of France separate from them and rally around the Republic and the Assembly.

"Signed by the Ministers at present in Paris."

The Hotel de Ville is surmounted by a red flag and barricaded. Shots have been heard, but no conflict is reported.

LONDON, March 20.—The *Times'* special despatch from Paris says the respectable Parisians are stupified. General Lecompte was abandoned by his troops and arrested on the heights of Montmartre. General Thomas was arrested in plain clothes. The latters last word was, "Cowards." He fell at the third discharge. President Thiers is firm but full of grief. General Vinoy's indignation is boundless.

The *Telegraph's* special says on Saturday the gend'armes fired upon the Nationals, and the latter returned the fire and several gend'armes were wounded. Gen. Vinoy has been mobbed. The mob is triumphant and virtually possess the city. Only the wine shops are open. Drunkenness is rampant. Even the woman are armed.

Gen. Chanzy, upon his arrival in Paris, was arrested at the station by the Montmartrists, and, it is said, will be shot to-day. All persons of prominence are flying from Paris.

A despatch from Versailles says the *Official Journal* announces that the whole of the Government, all the authorities of Paris, and 40,000 good troops under Gen. Vinoy are there. The departmental authorities have been instructed that they must obey only orders from Versailles, otherwise they will forfeit their positions.

Paris, Sunday, March 19th, 10 p. m.—It is said that Massy, of the International Society, was president of the court which condemned Generals Lecomte and Thomas to death. The National Guards are the only armed force in Paris. Most of the Nationals marching through the streets belong to the Faubourgs. There are barricades in the Rue des Martyr, the avenue Trudaine, the Chaussee de Cliquarcourt, the Faubourg St. Denis, the Rue Rochechouart, and the vicinity of the Hotel de Ville and the Faubourg St. Antoine. Elsewhere all is calm.

No acts of pillage have occurred, but there is no traffic. The insurrectionists hold the mayoralities, the offices of the ministers, and the telegraph. The municipal elections are ordered for Tuesday.—The Parisian mayors and deputies demand the removal of Gen. D'Aurelles and Gen. Viney, and of the Prefect of Police, M. Valentin. M. Ferry was suggested as the latter's successor, and the Government gave its consent to the change.

General Langlois, who succeeded Gen. Orall D'Aurelles de Paladines, after the latter was taken prisoner, went to the Hotel de Ville, but the insurgents refused to recognize him. Several positions in Belleville and Montmarte have been fortified.

The cannons in arrondissement Des Dutes Chanmont were returned to the authorities on Saturday, the National Guards of that section being unwilling to become insurgents.

LONDON, March 20.—It is thought the revolutionary movement now in progress at Paris will extend to Marseilles and Lyons, and even to Bordeaux.

The Thiers Government contemplates a removal to Tours. It is said that the German decline to interfere with affairs in Paris. A report from the French capital says the gendarmerie collected from the provinces by Gen. Vinoy, have deserted and joined the insurgents.

PRIS, March 20.—The *World's* special says:—The insurgents hold the Hotel de Ville, the Palais de Justice, the Sulleries, and the Place Vendome. Complete apathy is displayed by the bourgeois. No resistance has been made to the insurgents.

The murderers of Lecomte and Thomas were perpetrated by order of Ricciotti Garibaldi, who directs the insurgents. They were shot in the garden of Rue des Rosiers. Thomas resisted vigorously, but Garibaldi ordered him to be held against a wall while his body was riddled with bullets. Lecomte died with the utmost coolness, smoking a cigar and refusing a bandage over his eyes. Many other executions have occurred.

The Government has telegraphed for 30,000 men at Camp Sartory, to come to Paris.

The Prussians at St. Denis will enter Paris if the garrison is increased beyond 400,000.

The city is full of Bonapartists agents. I have seen Shevran, Conti, Roughland, and Reigner. The insurgents for some days past have received five francs daily, which is supposed to be furnished by these agents.

London, March 20. The following despatch has just been received from Mr Washburne, Paris, for Secretary Fish:—

"Paris, March 19. — The National Committee is master of Paris. The departments of the Interior and Justice, and the Prefecture of the Police, are occupied by the insurgents. Generals Vincy, Thomas and Lecomte have been murdered by the troops. The election for the Commune takes place to-morrow. All members of the Thiers Government have gone to Versailles. I follow with the whole Diplomatic Corps.

"WASHBURNE."

Rouen, March 20.—The people here are deeply excited over the news from Paris but no outward demonstrations have been made. The Mobiles are prohibited from crossing to the right bank of the Seine. It is rumored that the German forces will reoccupy their former post if the disorder in Paris continues.

LONDON, March 20, 6 p. m.—In Paris this morning the situation was unchanged.

The National Guards in obedience to the orders of the Central Republican Committee, have taken up positions in various quarters of the city, meeting with no resistance. The majority of the National Guard are passive and quiet. Preparations are making at the voting places throughout the city for the communal elections, ordered by the central republican committee. According to the apportionment made, there is one representative to be chosen for every 20,000 voters. The elections will be on Wednesday instead of Tuesday.

The Press condemn the assassination of the Generals; recognise only the authority of the Assembly, and declare the present situation unendurable. Rumours of every description are in circulation. One says the Nationals intend to march on Versailles. Another that the Assembly will remove to Orleans, and that they are to appoint Gen. Faidherbe generalissimo and dictator. All the papers at the Prefecture of Police have been destroyed by the Nationals.

9.30 P. M.—The *Gaulois* reports that overtures have been made to the Government by the Montmartre insurgents, and Labiche, the Minister of the Interior, has been fully empowered to grant liberal, by legitimate concessions.

11.30 P.M.—The *Stella Belge* has advices denying that negotiations have been opened with the insurgents in Paris, and representing that the rioters flushed with their success, are in full possession of the city. The windows of the Hotel de Ville are crowded with armed Nationals, chassepots are being distributed among the people, and the cry of the mob is '*A Versailles.*' The centre of the city, however, remains undisturbed.

The Princess Beatrice and the Marquis of Ely.

The rumor that the precedent of the Princis Louise is likely to find imitation on the part of her younger sister, may or may not be trustworth, but will most assuredly be popular. Now a days the line of demarcation between peer and commoner is too faint to permit of any advantages to the former. Where the birth of both is equal, the distinction socially disappears altogether. So far from marriages such as these serving to secinde the sovereign among a clique of powerful vassals, they rather render her person and dignity familiar to the widest possible circle of society through the countless ramifications which bind the great houses to the people. Such is especially the case with the house of Loftus. The connection of this powerful family with the gentry of the Pale are legion, and something more. There are to-day very few gentlemen of standing in Ireland to whom the marquis is not kin, by however remote a tie. The blood of old Doctor Adam Loftus, first provost of Trinity College, thanks to the productive and patriotic energy of each of his seven daughters, flows in the veins of a myriad of Irishmen. To each of these, and even to the dependents of each of these, the union of a daughter of England with their chief would be inexpressibly flattering. Nor could a nobler race be chosen upon which to graft the stock of royalty than the race from which has sprung the house of Morphington and the name of Wellesley, and which, had it borne but a single hero, were forever famous in English story with the fame of the greatest soldier England has ever known.

But there are broader grounds even than these upon which the proposition is to be commended. It seems to offer a guarantee that a portion of her majesty's dominions hitherto too much neglected is about at last to be received into the sunshine of royal favor. That royal favor means a good deal. It means a periodical court with the consequent abrogation of absenteeism, and, if it meant nothing more, would do more for the country than any dozen Acts of Parliament. Let the Irish people but gain the opportunity of frequently and regularly meeting their landlords face to face, and nine-tenths of the evil of which they complain will have vanished. We know that such mutual study at this intercourse would compel, could not but produce mutually beneficial effect, and we long to see it promoted accordingly.

It is the Marquis of Ely whom we should desire to nominate as Earl Spencer's successor, while of all the princesses available for the purpose of drawing after her across the channel a glittering train of fashion which shall prove a substantial benefaction, we should select the wife of an Irish gentleman. Nor would the position be unworthy of Her Royal Highness' station. There are few names known to Garter, Clarencieux, or Mountjoy for a more distinguished record than that borne by the young peer to whom report contracts her; there are not so many domains in the kingdom more splendid than that wherein, with proud humility of title, Ely Lodge, in Lower Lough Erne, near Enniskillen, rears its pilastered facade. There are not very many minor Courts of Europe in one of which she could reign with higher state and dignity. There is throughout Europe no people whom her presence could win to a tenderer lore, a truer loyalty. The day that sees an English Princess wedded to an Irish gentleman, and established as the resident queen of a resident aristocracy—that day marks the death of Irish disaffection. It is but to be regretted that the extreme youth of Her Royal Highness forbids its immediate anticipation. But if happily and in the fulness of time it should indeed dawn, it will give into her girl's hand a sceptre of rarer power than Lord Strathnairn's baton,—the power of compelling the chivalrous, affectionate fealty of a brave and chivalrous people.—*Gazette.*

DEAR FRIENDS:— • • • My wife blesses these preparations, when she thinks that after three nights and days of suffering of violent pains in the stomach, brought on by overdoses of Quinine, by the use of four drops of "Ready Relief" in some water, she was able to sleep tranquil all night, and the next day she was completely re-established. I have also cured a slave from heart disease with "Ready Relief" and "Pills," and have also cured sore throat, rheumatic pains, toothache, headache, &c. With the "Resolvent" I have cured Erysipelas Skin diseases, &c.

It is my full impression that the "Pills" are the best purgative that can be found, not alone for the facility with which they can be taken, but also as they do not cause griping or make you feel sick.

☞ Coughs and colds when left to themselves frequently bring on pulmonary complaints, which lead to that destressing and fatal disease consumption; but if attended to in time, "Bryan's Pulmonary Wafers" are a certain remedy.—They stop the irritating cough, and soothe and strengthen the bronchial tubes allaying all arritations and inflamation. They are also particularly adapted for the use of singers and public speakers. Sold by all Druggists and country dealers. Price 25 cents per box.

A pale complexion denotes blood destitute of vitality, and in proportion as the blood corpuscles change from red to white or transparent, so will the patient become weaker. This retrogression is effectually checked by FELLOW'S COMPOUND SYRUP OF HYPOPHOSPHITES. the blood made healthy, and the various functions of the body renewed by its use.

LOT'S WIFE FOUND.—Lieutenant Lynch in his voyage to the Dead Sea found a huge pillar of Salt on the shore, and the Arabs informed him that it was Lot's wife; for our part we are much inclined to do it though we have no hesitation in saying that the best thing to cure colds, sore throat, rheumatism, neuralgia, bowel complaints, &c, is the "Canadian Pain Destroyer, to be had of all medicine dealers for 25 cents per bottel. try one!

THE GREAT FEMALE REMEDY.

Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moperate's all exciss and removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity.

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the back and Limbs, or slight exertion, Palpitation of the Heart, Ayserties, and Whites, the Pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved

JOB MOSES', NEW-YORK, SOLE PROPRIETOR

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will secure a bottle, containing over 50 pills, by return mail.

Iron ore, taken from the back hills, near the highest level of the Union Pacific Railway, has been smelted in Omaha, and found of excellent quality, yielding 60 per cent, of superior metal. Three hills of the ore lie near the railroad.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single care of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier, alternative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phathisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, Diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum, dysentery, &c.

Price only thanty-five cents per bottle.

ALBUMS OF ALL KINDS AND PRICES;

PICTURES—a good assortment, either with or without Frames, and Cheaper than ever offered in Peterborough before;

CONCERTINAS AND VIOLINS,

A very large assortment. Attention of the Musical Public is solicited to the fact that they can procure the best PIANOS and MELODEONS without going outside of Peterboro.

A. B. KIDD is Agent for

THE CELEBRATED BRADBURY PIANO

The successful rival of the Steinway, &c. He is also Agent for

W. BELL & CO'S PRIZE MELODEONS,

The Melodeons that carried off the prizes at the Provincial Exhibition. ☞ Both Pianos and Melodeons kept on hand.

PIANOS AND MELODEONS

THE BRADBURY PIANO,

Which has met with triumphant success, and has successfully competed with the best Pian in the world, and has received the highest testimonials from Gottschalk, Mason, Sanders, Pattison, Berge, Zundell, Heller, Fradel and others,

IS SOLD IN PETERBOROUGH BY A. B. KIDD.

He also sells the WEBER PIANO, which, to those who wish a cheap instrument, is equal to any of its class.

W. Bell & Co's Melodeons are supplied by A. B. Kidd.

These Instruments received First Prizes at the Ontario Provincial Exhibitions for 1868 and 1869; also at the Quebec Provincial Exhibition held in Montreal, September, 1870. At the Ontario Provincial Exhibition held in Toronto, October, 1870. W. BELL & Co. received the First Prize and Diploma for the best Harmonium or Large Cabinet Organ, and the First Prize for the best Melodeon. It is universally acknowledged that in the manufacture of Melodeons W. BELL & Co. excel all other Canadian makers, having taken the First Prize on Melodeons at the last three Provincial Exhibitions. As to Organs or Harmoniums it must be remembered that The Diploma just received by W. Bell & Co. is the only one awarded during the last seven years at any Provincial Exhibition. ☞ All instruments warranted for five years, and satisfaction guaranteed.

PAPER BAGS AND WRAPPING PAPERS

Are supplied by A. B. KIDD at Montreal Prices.

Dealers will find it advantageous to give him their orders, as he has made arrangement with one of the largest firms in the Dominion, which enable him to supply Bags and Wrapping Paper at Wholesale rates

Peterboro, November 15, 1870. 46-tf

UNFAILING EYE PRESERVERS.

LAZURUS, MORRIS & Co's

CELEBRATED

Prfected Spectacles

AND EYE GLASSES.

The large and increasing sales of these Perfected Glasses is a sure proof of their superiority. We were satisfied that they would be appreciated here as elsewhere, and that the reality of the advantages offered to wearers of our beautiful lenses, viz: the ease and comfort, the assured and readily ascertained improvement of the sight, and the brilliant assistance they give in all cases, were in themselves so apparent on trial, that the result could not be otherwise than it has, in the almost general adoption of our Celebrated Perfected Spectacles by the residents of this locality.

With a full knowledge of the value of the assertion, we claim that they are the most perfect optical aids ever manufactured. To those needing Spectacles, we afford at all times an opportunity of procuring the best and most desirable.

DR. W. H. TAYLOR

Corner of George and Hunter Streets,

Has always on hand a full assortment, suitable for every difficulty.

We take occasion to notify the public that we employ no pedlars, and to caution them against those pretending to have our goods for sale.

Peterboro, February 8, 1871.

Choice Poetry.

The Whole Story.

Oh, yes—I'll tell you the story,
The very words that were said;
You see the supper was cooking,
And I was slicing some bread,
And Richard came into the pantry,
His face was exceedingly red.

And he opened his half-shut fingers,
And gave me a glimpse of a ring;
And then—oh, yes, I remember,
The kettle began to sing,
And Fanny came in with her baby,
The comicalest bunch of a thing.

And the biscuits were out in a minute,
Well, what came next? Let me see—
Oh! Fanny was there with her baby,
And we all sat down to tea;
And grandma looked over her glasses
So queer at Richard and me!

But it wasn't till after milking
That he said what he had to say,
How was it? Oh! Fanny had taken
The baby and gone away—
The funniest rogue of a fellow,
He had a new tooth that day.

We were standing under the plum tree,
And Richard said something low;
But I was tired and flustered,
And trembled, I almost know;
For old Red is the hardest of milkers,
And Brindle so horribly slow.

And then—let me see—where was I?
Oh, the stars grew thick overhead,
And we stood under the plum tree
Till the chickens flew up to bed,
Well, he loves me, and we're to be married,
And that is—about what he said!

—Hearth and Home

Linseed Tea for Sick Horses.

Linseed tea is not only a valuable restorative for sick horses, but it is exceedingly useful in cases of inflammation of the membranes peculiar to the organs of respiration and digestion; it shields and lubricates the same tranquilizes the irritable states of the parts and favours healthy action. We have prescribed linseed tea in large quantities during the past month, for horses labouring under the prevailing influenza they seem to derive much benefit from it, and generally drank it with avidity,—aside from the benefit we derive from the action of mucilage and oil, which the seed contains, its nutritive elements are of some account, especially when given to the animals laboring under soreness in the organs of deglutition which incapacitates from swallowing more solid food. In the event of an animal becoming prostrated, by inability masticate or swallow more food, linseed tea may be resorted to, and in case of irritable cough, the addition of a little honey makes it more useful. In the latter form, it may be given to animals labouring under acute or chronic desease of the urinary apparatus, more especially of the kidneys.

"To Proper Linseed Tea"—Put a couple of handfuls of the seed into a bucket, and pour a gallon and a half upon it. Cover it up a short time, and then add a couple of quarts of cold water, when it will be fit for use.

"Raised Cake without Eggs.—Stir together a large coffee-cupful of light brown or white sugar, and half a cupful of butter; add to it half a pint of sweet milk and a pint of warm water. To this mixture stir in flour enough to make a thick batter, and half a cupful of yeast; let it rise over night. Next morning stir in a cupful of chopped raisins or currants, and a teaspoonful of cinnamon cloaves and nutmeg. Put it into two baking pans; let it rise until perfectly light, then bake three quarters of an hour.

As a "war anecdote" how is this? During the "troubles" a young Confederate miss was passing through one of the hospitals, when it was remarked that a prisoner, a lieutenant died that morning.

"Oh, where is he? Let me see him! Let me kiss him for his mother!" exclaimed the maiden.

The attendant led her into an adjoining ward, when discovering Lieutenant H—— of the Fifth Kansas' lying fast asleep on his hospital couch, and thinking to have a little fun, he pointed him out to the girl She sprang forward, and bending over him said

"Oh, you dear lieutenant let me kiss you for your mother!"

What was her surprise when the awakened "corpse" ardently clasped her in his arms, returned the salute, and exclaimed:

"Never mind the old lady, miss; go it on your own account. I haven't the slightest objection."

The female poet just added to the staff of the Chicago post got her situation on the strength of the following style:

"Into the buxum of the flowers
The son looks from above.
Alas, no one looked into mine;
I wilt for human luv."

The other day, in Buffalo, an excited individual with a carpet-bag in one hand and an umbrella in the other and a shawl hanging over his arm, accosted one of the street genius with the question: "Say, Bub, which is the quickest way for me to get to the Erie Railroad depot?" "Run!" was the laconic response.

There is a profound wicked philosophy in the following story: A bootblack having taken a situation in a store to sweep out and run errands, was questioned by some former associates whether he felt as good as when in business for himself. "Well, 'tis hard to be bossed round," was the reply, "but I pay it off on the ashman."

A distinguished member of the consular body, passing too near an immense hogshead in New York the other afternoon, got a fearful rent in his coat skirt from a projecting nail. Turning, he exclaimed with all the melancholy dignity of Mark Anthony. "See what a rent the envious Cash has made," and walked on in sorrow, not in anger.

Tight boots are so "comfortable, because they make a man forget all his other miseries.

A Chicago girl says she does not get married for the reason that she does not know whose husband she might be marrying.

A young lady at a party, on being asked to favor the company with 'The Maiden's Prayer,' went to the piano and stuck up, 'Mother may I go out to swim?' in a very animated manner.

A gentleman of color, arrested in Philadelphia, had four chickens in his carpet-bag. He said "de man dat put em dar was no free" of his.

It is rumored that the Kentucky giant will soon glad to the altar Miss Anna Swan, the Nova Scotia giantess. It will be a marriage in high life.

RADWAY'S READY RELIEF

Cures the Worst Pains

IN FROM ONE TO TWENTY MINUTES.

NOT ONE HOUR

After reading this advertisement, need any one Suffer with Pain.

RADWAY'S READY RELIEF

IS A CURE FOR EVERY PAIN.

It was the first, and is

The Only Pain Remedy

That instantly stops the most excruciating pains. ALLAYS INFLAMMATIONS AND CURES CONGESTIONS,

Whether of the Lungs, Stomach, Bowels, or other glands and organs, by one application.

In from One to Twenty Minutes.

No matter how violent or excruciating the pain, the RHEUMATIC Bed-ridden, Infirm, Crippled, Nervous, Neuralgic, or prostrated with disease may suffer,

RADWAY'S READY RELIEF

will, in from ONE to TWENTY MINUTES, *afford ease and comfort*; and the medicine, so rapid in stopping pain, can be purchased for 25 cents per bottle at almost every druggist's and country merchant's store on this continent, and within one hour's distance of almost every habitation in this country

RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA.

If those who are now suffering Pain—no matter what the cause may be, or by what name it is called—if external apply the Radway's Ready Relief to the part of the body where the pain is present. If internal,

20 Drops Diluted in Water,

As a drink; whether Cramps, Spasms, Inflammation, Congestion, Asiatic Cholera, Chills and Fever, the most violents, excruciating, and torturing pains will be stopped

In from One to Twenty Minutes.

PAINFUL ATTACKS WHERE

RADWAY'S READY RELIEF

WILL AFFORD INSTANT EASE—

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart,
Hysterics, Croup, Diphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the *READY RELIEF* to the part or parts where the pain or difficulty exists, will afford ease and comfort.

30 Drops in a half tumbler of water will, in a few moments, cure

Cramps, Spasms, Sour Stomach,
Heartburn, Sick Headache,
Diarrhœa, Dysentery, Colic
Wind in the Bowels,
and all Internal Pains.

Travellers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

IT IS BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

FEVER AND AGUE.

Fever and Ague Cured.
Fever and Ague Cured.
Fever and Ague Cured.
Bilious Fever Cured.
Ship Fever Cured.
Yellow Fever Cured.
And Prevented.
And Prevented.

FEVER & AGUE CURED

FOR FIFTY CENTS.

There is not a remedial agent in this world that will cure FEVER & AGUE,

and all other Malarious, Bilious, Scarlet, Typhoid, Yellow, and other Fevers (aided by Radway's Pills), so quick as Radway's Ready Relief.

RADWAY'S READY RELIEF

has proved infallible, and will cure these terrible fevers quicker, and without entailing the frightful penalties of Engorged Liver, Fat Spleen, Disordered Kidneys, and Sallow-Colored Skin, that are sure to follow the use of the "Cholagogues," "Ague Cures," and other agents of the heroic Quinine, Mercurial, Arsenic, and other treatments where the medicines used *accumulate*, and become developed in the system.

HEALTH! BEAUTY!!

Strong, Pure and Rich Blood — Increase of Flesh and Weight — Clear Skin and Beautiful Complexion, Secured to ALL.

RADWAY'S SARSAPARILLIAN RESOLVENT

has made the most astonishing cures. So quick, so rapid are the changes the body undergoes under the influence of this truly WONDERFUL MEDICINE, that

Every Day an Increase in Flesh and Weight is Seen and Felt.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal, in its many forms, Glandular disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands, and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, Erruptive Diseases of the Eyes, Nose, Mouth, and the worst forms of Skin Diseases, Erysipelatous, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all Weakening and Painful Discharges, Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of Radway's Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of disease, its potent power to cure them.

Not only does the Sarsaparillian Resolvent excel all known remedial agents, in the cure of Chronic, Scrofulous, Constitutional Skin and Syphilitic diseases, but it is the only positive remedy for Kidney, Bladder, Urinary, and Womb diseases, Gravels, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's disease, Albuminuria, and in all cases where there are Brick dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid dark, bilious appearance, and white bone dust deposits, and when there is a pricking, burning sensation when passing water, and pain in the Small of the Back, and along the Loins. In all these constitutions Radway's Sarsaparillian Resolvent, aided by the application of Radway's Ready Relief to the Spine and Small of the Back, and the Bowels regulated with one or two of Radway's Regulating Pills per day, will soon make a complete cure. In a few days, the patient will be enabled to hold and discharge his water naturally without pain, and the Urine will be restored to its natural clear, and amber or sherry color.

THE WASTES OF THE BODY are supplied with new, healthy and vigorous blood, that furnishes sound structure. Hence all suffering from WEAKENING DISCHARGES, either MALE or FEMALE, of the Womb, Uterus, or other organs, whether Leucorrhœa, Sperm, or Erruptive discharges of every kind, or from violence of "Self-abuse," from the Genital Glands, or Venereal discharges, or Ulcers, or Sores, through the reparative process of Radway's Sarsaparillian, are arrested, and the ruptured organs healed

THE TRUE THEORY OF CURE.

Radway's Sarsaparillian Resolvent supplies the system, through the blood, urine, sweat, and structure-making constituents, with Tissue-making, Flesh-making, Heat or Calori, and Fat-making elements. All of its constituents are *nourishing, purifying, and strengthening. It Restores, Heals, Reorizes, and drives out of the body* the products of Decay and Corruption. CONSUMPTION, WHITE SWELLING, DROPSY, SYPHILIS, CANCERS, TUMORS, &c., are all of a scrofulous diathesis, and as such are within the curative range of the Sarsaparillian Resolvent!

That Scrofula, by whatever name designated, is the result of deposits from the blood, induced or caused by Chronic inflammation. That those deposits take place when the blood is poor, weak, watery, and incapable of holding in solution its proper constituents, or from the presence of some virus or poison in the blood, as Mercury, Calomel, Corrosive Sublimate, which is the Corrosive Chloride of Mercury, or other agents given in medicine and which enter largely in the common advertised Sarsaparillas. NOT ASSORBED OR CHANGED FROM THEIR NATURAL CONDITION.

That unless the repairs or nutriments are greater than the wastes, that decomposition and decay will supervene, and the powers of life become exhausted.

That the dying body cannot be sustained on any treatment of medication that exhausts the system, or fails to nourish the blood, the only medium through which the *vital* forces are preserved, and on which the growth of the body depends.

That Radway's Sarsaparillian Resolvent supplies a want never before possessed or known to exist in medicine; that this new toned principle in Chemical science, which has been brought to such a perfect system of cure, is exhibited as follows:

1. Its great power in assimilating the food in its first stage of distillation in the process of digestion, as chyme and chyle with the nourishing elements of blood, separating from these liquids refuse and inert qualities before they are taken up by the lacteals and are formed into blood. Here we see that by its wonderful power it charges the system with the very essence or principle that forms the vital powers of the body, and its chemical action on the blood in its primitive and complete condition separates every atom, of refuse material or element, all of which the virus of disease is formed.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything been so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While exposed to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of these yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no-wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicines. Our pride is gratified by the acknowledgements we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy action.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever one before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cases are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion**, **Listlessness**, **Loss of Appetite**, **Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaints** and its various symptoms, **Bilious Headache**, **Sick Headache**, **Jaundice** or **Green Sickness**, **Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

HUMBUG EXPOSED.

THE Subscriber begs to inform his customers and the public generally, particularly those intending to buy Furs, NOT TO RETAIN their orders, as there never was a better chance to select Furs than at my store. The stock consists of my own manufacture, and of nothing but the real article. I have none, nor every had any of the so called German Mink, French Seal, Sea Otter, British Sable, and numerous other high sounding, fictitious names, by which trashy imported articles are disposed of at fabulous prices. Is it not also true that Russian and Western Mink, being colored, is disposed of as Canada Mink? Goods made up for wholesale trade are of inferior quality.

Whether my own manufacture compares favorably with city manufactures, the following will show for itself. It was my own workmanship which secured to Mr. McIver, of Montreal, the First Prize for a set of Ladies' Furs, at the exhibition in 1858, held in the Grand Trunk Sheds at Montreal, against the following competitors:—Messrs Greene & Sons, Brahadi, Henderson, Brown, and several others, Mr. F. W. Lassack, of New York, being one of the Judges for Furs. The same Lady's set was sold to a Baltimore lady for the handsome sum of nearly $400. I believe myself capable of doing now, as I did then.

An Examination of my Stock is solicited.

The Highest Price Paid for RAW FURS.

W. LECH.
Peterboro, October 19, 1870. 42-17m

Hamilton, Ontario

MANUFACTURERS OF THE CELEBRATED

LOCKMAN SEWING MACHINE,

Take pleasure in announcing that the popularity of the Sewing Machine manufactured by them is still on the increase. They are now turning them out at the rate of 600 per month and yet have been compelled within the last two weeks to increase their facilities to a capacity of one thousand per month.

The Lockman Machine, from its capacity to sew the heaviest fabrics with linen thread, as well as the finest cambrics with No. 100 Cotton, is pre-eminently the Farmer's Favorite Family Friend.

It is so exceedingly simple in its parts, and so strongly and durably made, that it does not require a mechanical genius for its management.

The manufacturers challenge the world to produce its equal, and yet its price is from Forty to Fifty per cent. Lower than that of any other first-class Shuttle Lock-stitch Sewing Machine.

EVERY MACHINE IS WARRANTED.

Q.T.

BUSINESS EDUCATION

BRITISH AMERICAN BUSINESS COLLEGE and Telegraphic Institute. The only representative in Ontario of the Bryant & Stratton International Chain of Colleges.

The Theory Department is thoroughly adapted to those who wish to lay the foundation of a sound business education.

The Practical Department is a minature business world, where each Student performs all the routine duties of office work, such as buying, selling, shipping, commission, and drawing notes, drafts and checks. A regular Bank o issue is in connection with this department with beautifully engraved bank notes, which is as perfect in its details as the best organized institution in the Country.

Thorough instruction in Telegraphy. Life Scholarship good in forty Colleges. For terms address.

ODELL & TROUT, Toronto.

Select Poetry.

He Never Meant to Wear It.

"At the last it biteth like a serpent and stingeth like an adder."—[Prov. xxiii. 32.

He never meant to wear it—
The Drunkard's fearful name—
Nor dreampt his wife would share it
In all its grief and pain;
'Twas moderation spread the snare—
A little here, a little there.

Dreamt not his Edith's daughter
Would be a drunkard's child,
Nor of the lesson taught her
From his course by sin defiled;
The toast he gave, he sipped the cup,
Nor ever meant to drink it up.

Among the learned and noble,
The "social glass" he filled;
They deemed it but a foible
In the young, the gay, the skilled,
Oh! fatal gift of wit so gay
As chased all serious themes away!

He dallied with the serpent,
Till it raised its crested head,
And in unguarded moment,
Struck each nobler feeling dead—
Poisoned each artery, nerve, and vein,
And paralyzed that peerless brain.

He dreamt of wealth and power,
Exempt from toil and care,
And recked not that each hour
Yet stronger grew the snare:—
Dreampt through life's day, and woke at last
To find himself undone—outcast!

He never meant to wear it—
The Drunkard's fearful name—
Nor dreampt his wife would share it,
In all its grief and pain:—
'Twas moderation spread the snare—
A little here, a little there!

The Murder in the Tunnel.

A TALE OF CIRCUMSTANTIAL EVIDENCE.

"A story from Gray. Now, old fellow, out with it. You've got an hour yet, before your train starts, and you haven't yarned to us in an age. Yes, Yes, a story from Gray.

Such were the exclamations that met the individual of that name, as he entered the cozy conductors' room of the L. and Q. Railroad at ——.

"Well, boys, I'm pretty near drained of my adventures," said Gray, "but if I haven't told you it before, I don't mind letting you hear about an incident that happened to me out West, before I came among you boys here. Did I ever tell you of the murder in the tunnel? Well, then, here goes:

"You see, when I was on the old W. and V. line in Missouri, I ran what was known as the drovers express, going west, but which had the name, I suppose, in contradiction to that title—of the gentleman's waggon coming east. The drovers, when coming to market with their cattle, always went with their beasts on the freight train, but going home and westward they went with me. One night I had an unusually rough crowd aboard. They were generally rough enough, but this time they were worse than usual. I had their care, for I kept them to themselves, placed in the rear of the train, and to prevent them trespassing into the other cars of my train or stepping off the platforms, I had them locked in. We started about nine o'clock in the night, and as I went through the drovers' car for my tickets, I found mischief brewing already. Each man had provided himself with a bottle of whiskey, and the carousal had begun in real earnest, but few, if any, of the drovers being sober. One or two small fights had begun, one in particular between a tall Kentuckian and a short, thick-set Missourian, having threatened to lead to serious consequences, both men having drawn their knives. Their friends had, however, seperated them, and had placed them in different parts of the car, the Kentuckian sitting in the first seat near the door, in the front of the car, and the Missourian far back in the rear. The latter, when they were parted, had vowed that he would yet kill the former, but as both were in hot blood, the words were not, though they helped to sentence him to be hung afterwards. As I took up the Kentuckian's ticket, he repeated to me his threat against the life of his opponent, and proposed a a duel with bowie knives in the baggage car. I managed, however, to silence the half-maddened man, and a friend, sitting in the same seat with him, and nearest to the aisle of the car, promised to see that he should not leave his seat and attack the Kentuckian. I looked in upon them about 2 a. m. and found them all asleep in drunk-slumber. The Kentuckian sat in the front seat as as I had left him, and the Missourian away in the rear, and also in his previous position. Their being no more stops to make, I curled myself up in a chair in the baggage car for a nap, and dozed comfortably till awakened by the rattling of the bell-rope overhead, and the whistle of the engine calling for the brakes to be put down.—Catching up my lantern, but I found nothing but darkness the most intense. The train having stopped, I got off and ran to the engine, asking the engineer in a half-asleep manner, where we were and why we had stopped. "We're in the Grover Tunnel," he replied, and I stopped because the bell rope was pulled." The Grover Tunnel was about a mile in length, through which we passed nearly all the way enough on half speed and with the steam shut off from the cylinders, there being a down grade at the entrance, which was sufficient to nearly carry us through. When the engineer saw the light at the further end of the tunnel, however, he was accustomed to put on steam, and it was just at that time he told me, that the bell was pulled, beig the signal for him to stop. By this time my brakesman had been around the outside of the train and finding all the couplings right, and not discovering any thing wrong externally, I gave the signal to go ahead, as it was dangerous to stay in the tunnel. As we came out the daylight was just breaking, and, with a brakesman I started through the train to find out, if possible, who pulled the bell rope.

Most of the passengers were asleep in the forward cars as we passed through, but some few were awake, who told me that the pulling of the bell came from behind, from some of the rear cars. I made the trip through the entire train, with the exception of the drovers' cars, and yet, the account said the bell was pulled from still further in the rear. It was daylight as the brakesman and myself crossed on to the platform of the last car. After unlocking the door we essayed to push it open, but some weight against it prevented us. With our united strength, however, we pushed it open, and found the cause of the obstruction to our entrance. Against the bottom of the door lay the Kentuckian, his body twisted and rolled up into a distorted heap, as if he had been overtaken by a fit. Supposing him to be in a drunken stupor, I raised him to his seat, and then began to loose his collar and necktie. As I did so, I noticed a small livid blue line running exactly around his throat, and cutting deeply into his flesh; his face also was of a deadly hue, and frightened at, I knew not what, I sent the brakesman for a physician whom I knew was on the train. As soon as he came and had handled the Kentuckian, he exclaimed 'the man's dead, his neck is broken, look at this deadly mark around his neck. The man has been murdered. Immediately I remembered the fight of the preceding evening between the now dead man and the Missourian, and telling the doctor of my fears that the latter had kept his word and murdered the Kentuckian, we agreed to make some movement towards the detection of the murderer. Going to the rear, we found the Missourian curled up in his seat, his friend also being in the outside seat, and both being apparently asleep. As we looked upon the Missourian, we heard him mutter, "I'll kill him, I'll kill him," as if half asleep and awake. We were turning away, when the doctor's quick eye caught a glimpse of something the man held in his hand, and reaching over, gently drew it from his fingers, exclaiming, "And this is what the deed was done with!" holding up to me a leather strap, about the size of a small whip lash, and used by the drovers as a belt around their waist and also to hopple an unruly ox, or to tie the legs of a calf. As we left the drunken man, the doctor said, "That brute has crept up behind the Kentuckian, when in the darkness of the tunnel, has thrown this strap around his throat, has jerked his head back and broken his neck at once." The body had then fallen forward against the door, while the murderer has groped his way back to his seat, and has accidentally caught the bell rope in his drunken grasp, and so pulled it. As we passed the next station, I threw off a telegroam to our head quarters, asking for some police to be on hand on my arrival: and as we came into the depot, a force of men surrounded the car, while we went into it and made the arrest. The drovers were still sleeping their orgies off when we entered, the dead Kentuckian lying in the corner just as we had left him. We arrested the Missourian on a charge of murder, and also his friend who sat by him, as an accomplice, as it was not probable that the drunken fellow could have passed out of his seat and into it again without awakening his companion. The rest of the drovers were examined, and testified strongly against the prisoner, as to the quarrel, and the threats he had used; the neck of the murdered man had been broken by a sudden jerk, and the mark made on his throat by just such a strap or thong as was found in the grasp of the Missourian. The prisoner produced good testimony as to his character, and his counsel fought bravely for him. He showed that the thong was in use by every drover, and that such man in that car had had one or more on his person. The words, "I'll kill him," from the murderer, he argued, meant what he would do, and not what he had done. He showed the Missourian to be wealthy, of good character and of a peaceable disposition except when in his cups, but it was all of no avail, and the wretched man was sentenced to be hung in six weeks from the time of his trial. I went to visit him several times in his condemned cell, and somehow or another the declarations of innocence the fellow made to me shook my belief in his guilt, although I had witnessed strongly against him on his trial, and at last I found myself fully confirmed in my new belief of his entire innocence. I could see no way to save him, however, and five weeks of his time on earth had rolled by, and yet the mystery was as great a one as ever.

One morning about that time, I was running the same train, only as it happened we had no particular drover's car. In the last car was our Superintendent, a tall lean Yankee, fully six feet two in height, and of about the same height as the murdered Kentuckian.

It so happened that he occupied the same seat as the Kentuckian had done, and I was also in my old place in the baggage car. When exactly in the same place in the tunnel just when the engineer had put on steam to carry us through, the bell rope again rattled, and the engineer whistled for the brakes. Springing to my feet I ran to the rear car, firmly persuaded that now I could solve this mystery. Reaching it I found the superintendent sitting back in his seat and holding his hand to his throat, while he gasped for breath. One or two passengers were attempting to be of some use to him; but he could only moan and hold tightly his throat. At last he recovered sufficiently to take his hand away, and then I saw the slight, livid, blue mark which I had seen before, in almost an exactly similar position, on the neck of the Kentuckian. As the Superintendent got over the shock, he proceeded to tell us how he had received the mark and its fearful effect. He had been asleep, and was awakened by the train entering the tunnel. Half asleep and awake he stepped to the car door and stood looking, or trying to look, through the door window. Suddenly and without any warning he felt a rope slipped under his throat, and at that moment, the engine giving a jerk, he was thrown violently into the corner of the car. The mystery was solved at last. The train, as I have said, entered the tunnel at a slow rate of speed and without the use of steam, the grade at the entrance forcing the cars together and giving them sufficient headway. At this time the bell-rope, which of course has to be much longer than the length of the train when the cars are close together, to allow of sufficient length when they are drawn out to the full extent of the car-couplings, hung loosely and in festoons through the cars, and both the Kentuckian and our superintendent being tall men, and standing just where the longest festoon would be, near the forward door, the rope slipped under their chins, and the engineer suddenly putting on steam, the jerk threw them from their feet, and as in the case of the drunken Kentuckian, who must in his drunkenness have gone to the door for some purpose, was sufficient to break his neck and to cause death. I carried, myself to the doomed Missourian the news of his pardon for a crime, by the way, he had never committed and he joyfully accepted the solution of the mystery. Each Christmas I received from him the best and fattest ox of his drove, and he writes to me frequently, congratulating himself on his escape from the gallows.

Two Wills have recently been admitted to probate in London. One was the will of Mr. Brassey, a famous railroad contractor. His personality alone, exclusive of his vast landed estates, amounted to six and a half millions." The other will was that of Mr. Mark Lemon, late editor of *Punch*. He left behind him the sum £800, all told. From the rising generation may see that it is better to be a railroad contractor than a 'literary gentleman.'

The Evils of Smoking.

Of the three methods of using tobacco that of smoking has insinuated itself most extensively among the youth of the country, and is in reality the most hurtful use that can be made of the weed. Tobacco employed in this way, being drawn in by the vital breath, conveys its poisonous influences into every part of the lungs. There is the noxious fluid entangled in the minute, spongy air-cells, and has time to exert its pernicious influences on the blood—not in vivifying, but in vitiating it. The blood imbibes the stimulating narcotic principle, and circulates it through the whole system. It produces in consequence, a febrile action in those of delicate habits. Where there is any tendency to phthisic and the tubercular deposit in the lungs, debility of these organs, consequent on the use of tobacco in this way, must favor the deposit of tuberculous matter, and thus sow the seeds of consumption. This practice impairs the natural taste and relish for food, lessens the appetite, and weakens the power of the stomach greatly. The great prevalence of a craving thirst among smokers can be traced to its action on the lungs; and because it is there instead of in the stomach, the liquors that are drunk do not alleviate the thirst, but rather aggrevate it. It is time that medical testimony was turned to this point, and the great danger pointed out that threatens to make us a nation of Sybarites and pigmies.

Heaving the Lead.

Any one who has travelled on the Mississippi during low water has witnessed the process of heaving the lead, and will see where the laugh comes in, in the following without much difficulty:—

The Fanny was coming down the upper Mississippi, loaded with pig-lead. As she was going over a shoal place the pilot gave the signal to heave the lead. The only man forward at the time was a green Irishman.

"Why don't you heave the lead."

"It is to heave the lead, your honor? Where to?

"Overboard blockhead!"

The Irishman snatched up one of the pigs of lead and tarew it overboard; the mate, in endeavoring to prevent him, lost his balance and fell into the river.

The captain running to the edge of the deck, asked. "Why don't you heave the lead, and sing out how much water there is?"

"The lead is heaved your honor, and the mate's gone down to see how much water there is.

Statistics of Intoxication.

Every nation, says a French medical writer, seems to have its peculiar intoxicating drug. Siberia has its fungus; Turkey, India and China have their opium: Persia, India, Turkey and Africa, from Morocco down to the Cape of Good Hope, and even the Indians of Brazil, have the hemp and haschish; India, China and the Eastern Archipelago have their betel and bettle pepper; the Islands of the pacific have their daily hava; Peru and Bolivar their eternal cocoa New Granada and the chain of the Hymalaya their red thorny apple; Asia, America and the whole world, perhaps, patronize tobacco; the English Germans have hops; and French have lettuce. Of all these tobacco drugs is that which claims sovereignty over the largest portion of the human race, for its votaries are stated at 900,000,000. Opium fortunately does not boast more than 400,000,000. But haschish a drug quite as intoxicating as opium, is commonly indulged in by 300,000,000 of people. Betel, which, in point of fact, is hardly more than a gentle stimulant, extends its way over about 100,000,000. Cocoa, the virtues of which have been scarcely sufficiently studied, except by professor Mantegazza, of Milan, can barely muster 10,000,000 of people; and all other drugs taken together, including the Hex Vomitoria of Florida, are used by about 25,000,000 of the human race.

A HISTORIC HOG SKIN.—Col. Job Stout, Recorder of Hardin County, Iowa, has a wonderful pocket book, according to this from the Eldorado *Ledger*: "It was made of pig skin, dressed by one of the pilgrim fathers, and manufactured into its present shape by himself. It was from the back of the first hog slain by the colonists. A forefather of Col. Stout's carried the pig skin wallet throughthe French war and the Indian, and was shot beside the brave Gen. Wolf, on the bloody heights of Abraham, in September, 1759. The pocket book, containing some English coin, found its way back to the right family, and held nothing but English coin and bank of England notes until the Revolutionary war. Col. Stout's grandfather marched with it on his person to Canada with General Montgomery. It was at Stillwater; ferried the Delaware at the memorable Trenton surprise; and when peace was declared contained two thousand dollars in Continental currency, most of which its present owner retains. In the late internecine war, Col. Job Stout carried the pig skin wallet through several engagements, and when he fell at Richmond, the historical wallet of pilgrim pig skin, was perforated with bullets and saturated with blood. The Colonel's coat is now on exhibition at Indianapolis, riddled by forty bullets. This wallet has been in use one hundred and ninety years."

PROGRESS OF CANADA IN TWENTY-EIGHT YEARS.—In 1842, the Provinces of Lower and Upper Canada (now Quebec and Ontario) had a bank note circulation amounting to $3,190,000. In 1870 their circulation including Provincial greenbacks, was $25,-237,000, being an increase of over one hundred per cent. The deposits in the same time increased from $2,600,000 to $50,512,938, or nearly 2,000 per cent,; and the bank loans from $12,000,000 to $72,430,-000, or 600 per cent. A large portion of this almost unprecedented rate of increase took place in the last four years, viz: from 1867 to 1870. In these four years, circulation rose from $13,032,000, to $22,237,000, or nearly double; and discounts from $50,-663,000 to $72,430,000 or upwards of 40 per cent. Railways have, in the 28 years named, grown from a few miles to 2,800 miles; and now lines, amounting to 1,366, are now in progress of construction—one of them stretching into the Maritime Provinces.

The salt business in the western part of Ontario seems to be in a thriving condition at present. The wells at Goderich, Clinton, and Seaforth, are now turning out an immense quantity which seems to find an immediate sale. It is proposed to send it to Chicago in bulk, during the coming season, and if this can possibly be done it will give a still further impetus to the trade, which is already a great benefit to the business of that section of Ontario.

"Mammy," said a precious little boy, who, against his will, was made to rock the cradle of his baby brother, "if God has any more babies to give away, don't take 'em."

The Highest Flight Ever Made by Man.

The most remarkable balloon ascension on record was made in 1804, by Biot and Gay-Lussac, in Paris. By this enterprise they endowed science with a series of new and important facts, questionable before that time, as they carried with them a complete set of suitable aparatus', and, moreover, an unsurpassed knowledge of observation and experiment. They ascended to a height of 13,000 feet, and observed that at 8,000 to 9,000 feet the animals they had taken with them, in order to observe the effect of the rarefied air and cold upon them did not apear to appear to suffer any inconvenience. In the meantime, the pulses of the two experimenters were much accelerated; that Guy Lussac, otherwise always slow, 62 beats a minute, was 80; and that of Biot naturally rapid, 79 beats per minute, was 111. At the height of 11,000 feet, a pigeon was liberated; it dropped down whirling through the air as if it had been a stone. The air was too thin—too much rarefied, to enable it to fly.

Three weeks later Guy Lussac went up alone, and attained a height of 23,000 feet, four and one-sixth miles high, or 2,000 feet higher than the top of Chimborazo Mountain. The barometer was only thirteen inches high; the thermometer 18 degrees Fahrenheit below the freezing point, while at the surface of the ground it was 80 degrees. He left the courtyard of the Conservatoire des Arts et Metiers, in Paris; and after amarial voyage of six hours, descended near Rouen, one hundred miles distant. The result of this ascension on Guy-Lussace's health was very injurious, partially by the want of air for respiration, combined with sudden cold, but chiefly by the absence of the accustomed pressure. At the extreme height of 22,000 feet, his face and neck were swelled enormously, his eyes projecting from his head, blood ran from the eyelids, nose and ears, and also came from his lungs by vomiting, in short, his system received a shock from which he never fully recovered during the rest of his life.—*Manufacturer and Builder.*

An Old Farmer's Experience.

That the success of farming is in experience.

That to ask a man's advice is not stooping, but often of much benfit.

That to keep a place for everything, and everything in its place, saves many a step and is pretty sure to lead to good tools and keep them in order.

That kindness to stock, like a good shelter, is saving of fodder.

That to fight weeds is to favor grain and do justice to your neighbor.

That in making home agreeable, you keep you boys out of the city.

That it is a good thing to grow into farming—not jump into it.

That it is a good thing to keep an eye out on experiments, and vote all, good and bad.

That it is a good rule to sell your grain when he's ready.

That the first mellow soil in spring is your meadowest, and should be first put in.

That great changes of weather hurt cattle as well as men.

That all of farming is summed up in the manure heap made on the farm.

CURE FOR RHEUMATISM.—One of our exchanges, *The Beekeeper's Journal*, prints the following remedy for rheumatism: 'The man we speak of, suffered much from rheumatism in his right arm, so much so that he was not able to raise his arm to his head. Nevertheless, he was compelled to perform some necessary operation on one of his stock of bees, and while doing so, was stung in the thumb of the rhamatic hand. Immediately the hand and arm commenced to swell, but as the swelling increased, the rheumatic pain diminished, and in half an hour, his rheumatism was gone.

A few months after this, being much exposed to the weather, the malady returned. He procured some bees and compelled them to sting him in the upper part of his hand, and in less than fifteen minutes he was free from the malady."

It is not at all unlikely that such a result would sometimes follow a bee-sting Whatever starts the circulation through the affected parts will produce the same result.

A woman called one day at a provision store in Salem, Mass., with her market basket, and the knight of the cleaver politely asked her if she would have some nice steak. "Steak! beefsteak!" was the reply. "No, sir! I don't care to eat beef. I shall be so glad when the cattle disease is got rid of. Please cut me off three or four pounds of liver."

I Won't Marry A Mechanic.

A young man commenced courting a young woman, and they appeared to be well pleased with each other. One evening he called when it was late, which led the girl to inquire where he had been.

"I had to work late to-night," he replied.

"Do you work for a living?" inquired the girl.

"Certainly," was the reply; "I am a mechanic."

"I dislike the term mechanic," said the young woman; and she curled her lip scornfully.

That was the last time the mechanic called, for she declared, "I won't marry a mechanic!" That young man is now a master, and wealthy, and he has a true woman for a wife. The "young lady" who disliked the name of Mechanic is now the wife of a miserable vagrant, who haunts the low gin-shops, and she, poor and miserable woman, is obliged to take in washing to support herself and children.

Young women, beware how you treat young men who work for a living. Far better dis-card the idle drone with all his ring-jewelry, brazenness and pomposity, and take to your affections the hard-handed, intelligent, industrious and pious mechanic or farmer. Thousands have bitterly regretted their folly, who have turned their backs on honest industry. Years of bitter experience have taught them a sad lesson.

Mr. Detcher in the course of his sermon on sunday last, thus expanded the new idea which has recently taken such strong hold upon him, and been the topic of so much comment in various religious circles throughout the country: "I go into my garden, and with the utmost care I will fill the ground with seeds. Not one of these seeds but will have to fight for the privilege to be a flower. Every weed will conspire with every other against these new children of the soil. Somebody must help them, tend them, look out for them through drought and dangers that beset them. They have a right to look at me and say: "You planted us and you must see that we have fair-play. Now we look to Jesus as one who is personally interested in every soul. We look to Him to take care of his own interests.

Accepted Mason.

At an inn in west of England several people were sitting round the fire in a large kitchen, through which there was a passage to other parts of the house, and among the company there was a wag a travelingwoman and a tailor.

In this inn there was a lodge of Free and Accepted Masons held, and it being lodge night several of the members passed through the kitchen on their way to the lodge apartments. This introduced observations on the principles of Masonry and occult sign by which Masons could be known to each other.

The woman said there was not so much mystery as people imagined, for that she could show any body the Mason's sign.

"What," said the tailor, "that of the Free and Accepted?"

"Yes," said she, "and I will wager a half-a-crown bowl of punch, to be confirmed by any of the members you please to nominate."

"Why," said he, "a woman was never admitted; how is it possible you can procure it?"

"No matter for that," she added, "I will readily forfeit the wager if I do not establish the fact."

The company urged the unfortunate tailor to accept the challenge, which he at last agreed to, and the bet was deposited.

The woman got up and took hold of the tailor by the collar saying—

"Come follow me," which he did trembling, fearing he was to undergo some part of the discipline in the making of a Mason, of which he had heard a most dreadful report.

She led him into the street, and pointing to the sign of the Lion and the Lamb asked him whos sign it was.

He answered, "it was Mr. Lorde's" (the name of the innkeeper.)

"Is he a Freemason?"

"Yes."

"Then," said the woman, "I have shown you the sign of a Free and Accepted Mason.

The laugh was so much against poor snip for being taken in, that it was with some difficulty he could be prevailed on to partake of the punch

A First Rate Temperance Talk

A captain of a packet vessel sailing from New York to Liverpool, says he never heard but one temperance talk that was worth anything, but that was "first-rate."

He once went to a temperance meeting at Liverpool, to oblige a friend, and a good-looking, well-dressed man was called upon to addressed the meeting, and he said he never had made a speech in his life, and did not believe he ever should, for it was not in him. However, he would tell what temperance had done for him. When he used to drink, somehow he never was well, could never pay his quarter's rent, nor his weekly bills, nor clothe himself nor his family decently; but now that he had left off drinking, his rent was paid punctually to the day, he had no weekly accounts—for he had ready money. They all saw how he appeared and was dressed. And taking a nice looking woman by the arm, and four children by the hands, he said: "You see how my wife and children look, in health and appearance. Well, their food and dress is all paid for; and if you want to see how my house is furnished, come and see me at home any evening except church night, which is Tuesday, and this meeting, which is Thursday, and you will find me in as well a furnished room as any one needs. Besides this, I have one hundred pounds in the savings' bank. This is all I can say to-night." And he sat down. He had said enough.

PAP

CHANGE OF BUSINESS.

NEW FIRM!

The Subscribers respectfully beg leave to announce that they have commenced the business of

General Dry Goods Merchants,

In the Premises lately occupied by Mr. Cluxton, at the

SIGN OF THE GOLDEN FLEECE!

They are now Receiving their First New Stock of

Staple and Fancy Dry Goods

MILLINERY, MANTLES, &c.,

Which they have purchased under most favorable circumstances; goods being much Cheaper at the present time than they have been during the past seven years, and indeed, fully as cheap as they were in the markets before the American war. It is their determination to do a lively business, in fact, to "keep the ball rolling," by putting on *Light Profits*, and keeping

FRESH AND FASHIONABLE GOODS,

They wish to conduct their business upon the same principles on which it has hitherto been carried on in these premises, viz.:—"Even Justice to all," and they hope to be able, not only, to retain the old friends of the establishment, but to add to the number.

Their business will be conducted upon the Cash System, but in the few instances where Credit may be required, the accounts will be made out quarterly, when if not paid, interest at the rate of 7 per cent will be added.

They will keep no trashy goods, but will endeavor to retain the good name of the old establishment, by keeping a good article at a moderate price.

They now beg respectfully to solicit the patronage of the public.

CLUXTON, HENDERSON & CLUXTON.

Peterboro, March, 1871. 13:3in

GLASGOW WAREHOUSE!

1871 SPRING 1871

Now Received!

The greater part of the Stock of

Spring & Summer Goods

Consisting in part of

Dress Goods, in all the Newest Styles.

Prints, Shirting,

White and Factory Cottons,

Lace Curtains,

Quilts, Towellings, &c.

CARD.

I beg to tender my sincere thanks to the Electors of West Peterborough who voted for me and to whose united and hearty co-operation I am indebted for my election to the Legislative Assembly of Ontario. In a report of the meeting held at Peterboro, on the evening of the 21st inst., which appeared in last week's *Examiner*, mention is made of the names of a few of the friends of good Government who took an active part in the contest, while the names of a host of good men and true, who were equally zealous and active are not enumerated,—I desired in the address which I then made to acknowledge the kindness of *all* my supporters, and take this opportunity of expressing to each and all of them my warm appreciation of their generous sympathy and assistance.

T. M. FAIRBAIRN.

Peterboro, March 29th, 1871. 13-1ns

RAILWAY MEETING!

A Public Meeting will be held in the

MUSIC HALL

ON

Thursday Even'g March 30th,

AT 7 O'CLOCK, P M,

To hear further explanations from the undersigned, and a Deputation from the Town Council of Cobourg, respecting the

The Peterborough Examiner

PETERBOROUGH, MARCH 30, 1871.

Editorial Items.

In our haste in going to press last week, we omitted the names of a host of warm friends in all the townships, who, like men, worked for Mr. Fairbairn. In the name of the reform party, we sincerely thank all the noble army of most worthy fellows who battled for the right. Their names may be omitted from the published lists, but they will ever remain among the list of reform worthies in the West Riding. They deserve all praise for their devoted labours in a good cause.

It is believed that the Election for the Dominion Parliament will be precipitated immediately. The Legislative Elections indicate a change in the political Sentiment of the people of Ontario, which time, it is believed, will strengthen, and hence the necessity not to give time, for the fear of results. It is also confidently asserted that the census returns will show that about ten more representatives are due to this Province and as they will chiefly be from the west, they are dreaded. The Elections therefore will be hurried to secure power before these can take their seat

New Firm.—We direct attention to the advertisment of Cluxton, Henderson & Cluxton, in another part of this paper. This firm commences business under very favourable auspices. They open out a new stock, bought at the present greatly reduced values of Dry Goods. They are supported by Mr. Cluxton, and have the advantage of his long experience and capital, with a business already made to begin with.

We are informed that they purpose doing a lively business, by moving off their Goods rapidly at moderate prices. And we understand their stock is very carefully selected. We speak a word in favor of this young and enterprising firm.

The Bobcaygeon *Independent* fancies some apparent inconsistencies in our course towards Mr. Fowler and his Railway Enterprise, but we must be permitted to state that they are only the fancies of an overheated imagination. Neither the fun of the *Independent* nor its venom hurts us, "It amuse he but does not hurt we." He may as well be good natured in his remarks—we have neither opposed nor flattered Mr. Fowler.—If he build us a road from Cobourg, and does it soon and well, we shall praise him. If he should try any little game and it come to our knowledge we will expose it. Neither fear, favor, nor affections ever actuates our course.

The Lectures.—Mr. Dixon, Principal of the Union Grammar & Common Schools, delivered the last of the promised series of Lectures for the season, under the auspices of the Directors of the Mechanic's Institute, on Tuesday evening, in the Music Hall, W. Helm, Esq., president, occupied the chair. Th Audienc was not as large as it should have been, yet it was equal to what is generally secured for lectures in Peterboro. It is useless to say that he treated his subject in a masterly manner, as all who have heard Mr. D's lectures know that they are noted for research, elegance, eloquence and valuable statistical information. At the close a vote of thanks, proposed by Mr. Stratton, and seconded by Mr. Dunible, was most heartly accorded to him.

Spirits, And Beer.—The returns inland revenue, just distributed, afford a good deal of information respecting certain classes of manufactures. Among these the distilleries (of which there are 27) stand formost as producers of revenue. Of the total receipts from excicse duties ($3,664,468) in the Dominion during the fiscal year ending 30th June, 1870, about 70 per cent ($2,407,135) was derived from the duty on spirits. The total number of proof gallons of spirits manufactured in 1870 is 3,484,585 of this the total quantity of 3,484,585 gallons of spirits, and 7,290,540 gallons (wine) of beer produced in the Dominion last year 99,153 of malt liquor were made at Peterborough, and 21,897.74 gallons of whiskey were entered at this place.

The Triple Candidates.—The *Review* was very anxious to make its readers in the East Riding believe that Mr. P Pearse was brought out by the Reformers to divide the conservative interest. while the fact was that Mr. Pearse believed all along that he was to be the Candidate, as Mr. Read and his friends had four years ago solemly pledged themselves to allow this. But a solemn contract was nothing compared with the running of their man, and not satisfied with fooling M. P. if possible, they set on and abuse him. He must be pretty good natured to bear such treatment, Mr. Pearce might have suited the Ministerial party, but the opposition, why would they flatter him? But double dealing has become so common with a certain class that they think nothing can be done fairely and above board, not even with friends.

Our Grammar School.—During the past two years the progress of the Grammar School has been most satisfactory. Under the control of Mr. Dixon there has been umanimity amongst the teachers, and the different Boards have kept a single eye to the wisdom of making our Grammar School the most efficient in the Province, if possible. Mr. Dixon's labors have been so far very successful. The number of pupils have been steadily increasing untill the staff of teachers employed is not equal to the work required of them, and in consequence the Board has found it necessary to procure the services of an additional teacher. Under the New School Act, the Principal and Board have determined to form a Collegiate Institute. An additional government grant will be thus secured, and it is believed that the additional grant will be sufficient to meet the additional outlay necessary. The action of the Board will meet with universal favor in the Town. If our Grammar School can be made equa to Upper Canada College the people will not grumble at a little expense to ensure it.

The East Riding.

In looking over the late contest in the East and its results, we regret to find that too many were deterred from casting their vote with their party, by the shameless cry got up against the Reform Candidates; gull up, of course for a purpose, but without a shadow of foundation.

Under the present circumstances it is the duty of every man to set aside his particular feelings, and support those great principles for which the Reform party has so long and earnestly contended. The great trouble with Reformers is to get man who will leave their own business to engage in political life. They are too much attached to their own calling to become the butt of a party, and perhaps be neglected, too often by their friends. If under such circumstances every man is to find fault instead of work, those men who are less scrupulous and more devoted to their party are more certain to succeed. It is also a well known fact, that John A. McDonald tried his old trick through the Bishop of Kingston, Bishop Horan, and only succeeded too well. He divided the Township of Asphodel, and gave a handle that the ministerial Candidate and his less exact friends were not slow to use. Now why should Reformers be so strong in feeling against "outsiders"—or Catholics—or any other man, when their opponents use all the power of Bishops where they can obtain it.

They will not dare to deny that John Sandfield sought the influence of the Bishop of Kingston and obtained it, and wherever he could, the influence of the Clergy who obeyed Bishop Horan.

In both East and West the Ministerialists were not slow to use every power obtainable to secure the return of their Candidates. Even the vilest fly sheets were used against Mr. O'Donohoe—branding him and all his countrymen as Fenians; while the votes of the same men were sought by fair and other means, secretly and above board.

The Ministerial Candidate of the West Riding boasted to the friends of Mr. Read that he had secured the Catholic vote, and then in the West he denied that he ever sought to obtain it, as represented.

Mr. Read's friends in the East sought to persuade the Protestant Electors of the Riding that the Catholics were acting a double part, and that while voting for their countryman in the East they were voting against Mr. Fairbairn in the West; so that every sort of means were used to secure the return of the supporters of the Patent Combination. The wide breach caused by seventeen years of estrangement between the Protestant Reformers and their former Catholic allies, was worked upon as the only possible means to secure the defeat of the Reform Candidate and the pity is, that they succeeded. What a strange thing to find the apathy of life-long Reformers—aiding the cunning devices of John Sandfield and John A. McDonald, to defeat a life-long Reformer!—Surely this cannot be so again.

The contest has taught us wherein lies our weakness. The want of organization, especially—apathy and personal feeling.—Personal feeling defeated the Liberal Candidates four years ago. Jealousy does its work very often. Conservatives who were pledged against Mr. Read did not hesitate to come forward and support him, however. No personal feeling prevented them. They voted for him with one breath and cursed him with the next. Here was devotion to a party and to the Government that should shame oversensitive Reformers, and drive away their apathy. The Catholic Electors of the West, however, showed that they were above suspicion, and came nobly forward and voted for Mr. Fairbairn, and gave the lie to their defamers in the East Riding—and a pleasing fact in this election is, that they voted of their own free will, their Clergymen *rising* above petty political squabbles and avoiding interference in any way. And notwithstanding that it was sought to enlist their sympathies for the waning Ministerial cause, it was sought in vain—to their lasting credit. We trust that the result of the West Riding contest will inspire confidence in the East Riding, and that in future the seeds of discord sown by the enemy shall neither produce nor maintain estrangement any longer. The enemies of good government have used all the influence they could to secure office and consequent power, and emoluments. Surely it is time that we take a leaf out of their book, and scruple not to use legitimate means to secure for the Liberal party of Ontario and of the Dominion a fair share in the management of our own affairs.

Action too must be secured. The Dominion elections may be in a few days, a month or two at most. Let a Reform candidate be requested to come forward in time, and if so, his election is certain.

The following is the vote in the East Riding:

	Read.	O'Donohoe
Ashburnham	63	29
Otonabee, 1st,	90	41
do 2nd,	58	75
do 3rd,	48	49
Asphodel, 1st,	54	33
do 2nd,	62	11
do 3rd,	63	28
Belmont,	31	14
Dummer, 1st,	48	29
do 2nd,	27	14
Douro, 1st,	9	87
do 2nd,	46	54
Burleigh,	21	10
Harvey,	45	2
Galway,	14	5
Snowdon,	27	0
Minden,	43	1
Stanhope,	12	0
Dysart,	18	0
	779	482

Majority for Mr. Read, 297.

This shows over 100 votes in Otonabee not polled; over 100 votes in Asphodel not polled; and nearly 100 votes in Douro not polled; independent of Dummer, Belmont, Burleigh, Galway, and other back townships. Otonabee, Asphodel and Douro could have returned, and should have returned the Reform Candidate by over one hundred of a majority.

It is currently reported that an emmissary from John Sandfield McDonald's government was in these ridings the day before the Election. What was he doing is being asked on every corner; It is also wondered whether any of the $1,500,000 was sent with him.

The Result of the Late Elections.

The precipitancy of the late elections just at the very close of the Session, and while the Dufferin[illegible] was in session led John Sandfield McDonald to believe that he would succeed to obtain by a trick what he could not hope for by fair dealing. In this, however he was completely disappointed. The people of Ontario were not so sunk in forgetfulness of his doings during the last four years, as to allow *him to steal a march on them.*—Never was the spirit of the people so completely aroused to a sense of duty, as in the past contest. The money influence held out as bonuses to railways did not so intoxicate the electors, as the office seekers contemplated. They are tired of bribery, for the manner in which the government candidates held out the idea of bonuses, was intended to bribe the people to support the nominees of the ministry. It is very satisfactory to find that Canadians are not so lost to a sense of duty as to sell their liberty for a few miles of railway; besides every man with half an idea must know that whatever party is in power, the $1,500,000 must now be given to railways in the back counties. The leading dailies claim for their respective parties a working majority. The *Telegraph* claims that John Sandfield will be able to make Martyr's enough by certain well known influences to secure a working majority. But their best calculations only show that the members elect are fairly divided, a very unlikely thing when we consider that no less than 22 of the thick and thin supporters of the late government have been left at home. The martyrs too have been sadly handled, six out of nine have been rejected, Lauder, Barber and Hayes only, escaped the condemnation their betrayol of party justly deserved.

The Toronto *Globe* with more show of reason claims a majority for the opposition and that too after giving the ministeralists all the doubtful and independents The Ministerialists number Mr. Wood, of South Victoria, in their ranks, but he will have changed very much if he work in their ranks long—and this too in the face of the fact that the opposition are gaining strength at such a rate as to be sure to gain the control of government. John Sandfield and his followers loved to boast of their 55 against 26 and 27. But now that they can only claim about 37 or 38 is proof of declining influence. Ontario is Reform, and if adverse circumstances should delay their obtaining their just position, it will be but for a short time The government of a free people cannot long be maintained by trickery—an honest straightforward course is the safest and most likely to succeed in the end—between virtue and vice there *should be no middle* path.

Conplimentary.

The friends of Mr. Alex. Wardrope (assistant accountant of the Bank of Toronto,) learning with much regret of his immediate removal to Port Hope, and being desirous of recording their appreciation of his gentlemanly bearing, courteous manner and excellent qualities as a Bank Officer, entertained him at a supper at Faucher's Hotel and Restaurant, last Thursday evening.

The chair was ably filled by W. H. Scott, Esq., (Mayor) and at his right sat the guest of the evening and Dr. O'Donnell, to the left were Mr. Chas. Roberts and Mr. Richard Sheppard. Dr. Geo. Burnham Jr., occupied the Vice Chair, supported by Mr. J. Roberts, C. Edwards, S. Hyman, and among the number we notice, from the Bank of Montreal, R. D. Matchett; Ontario Bank, Mr. Post; Messrs. Walter Beal, J. Kennedy, Geo. Cluxton and other.

After partaking of a sumptuous repast, got up in Faucher's best style, (which is always No. 1.) "time" was called by the Chairman announcing the toast "Our noble Queen," which was drunk with due honor, "God save the Queen," by Mr. Matchett, following were a number of formal toasts. Mr. Sheppard then proposed our Guest, Mr. Wardrope, the company received the toast with a bumper, Mr. Wardrope replied in a neat little speach, remarking that when he came to Peterboro he did so with a mind prejudiced against it, but he was pleased to say that during his short residence here, he was decidedly of the opinion that Peterboro was in a fair way soon to add another among the list of cities in our Young Dominion. In public spirit and enterprise, as well as in size, she was ahead, and he was indeed, sorry to leave so many kind friends as he had formed here. The following toasts were then proposed and received with great zest. The "Professions," "Commercial" "Mercantile and Banking interests" "Mayor and Corporation" the "Agricultural interests," &c., the whole being interpersed with well rendered songs, suitable to the occasion, by Messrs. Hyman, Matchett, Kennedy, the Roberts Brothers. Altogether the evening was a very pleasant one which will long be remembered by those present. In conclusion we may add that Mr. Wardrope has the best wishes of his many friends in Peterboro, and should he at some future time be stationed here, he will be met with a ready and hearty welcome.

Railway Meeting.

Pursuant to a requisition presented to the Reeve of minden, a meeting of the Ratepayers was held in Sawyer's Hall, Minden, on Saturday, the 18th inst. The object of the meeting, as stated in the requisition, which was largely signed, was to get Railway matters in good shape, and to secure, if possible, unimanity in action. Quite an interesting discussion was held of which we will not attempt a report; but the general sense of the meeting was that owing to the passing of the Government Resolutions, there was a possibility of obtaining, if not an iron rail, at least a properly graded and permanent way, suitable for laying an iron rail at any time; and the feeling was, that for this object they would do all in their power. At the close of the meeting the following resolution was moved by A. McIntosh, and seconded by James Lunan, that Messrs. Noice, Baker, Mason, S. S. Peck and G. Andrews, be a Committee to confer with the delegates appointed by the municipalities of Snowden, Galway and Harvey, for the purpose of deciding on the route of the road, and to take such action as they see fit for the best interest of the Township, and to report from time to time to the ratepayers as they think necessary.

At a meeting held in Snowder, on the same date, a similar resolution was passed, and a Committee appointed, and we believe that the Galway Committee is also appointed.—Com.

Town Council.

Monday, 27th March, 1871.

The council met.. Present, his worship the Mayor, and Messrs. Toole, Rutherford, Stevenson, Doharty, Dennistoun, Lundy, English, Morrow, Smith and O'Beirne.

The minutes of the last meeting are read and confirmed.

A communication from Wm. Croft, reflecting on the clerk for leaving his name off the voters' list, was read and referred to the Court of Revision.

Communications were read from E. C. Hill, asking the Council to pay for the gas used at the door of the music hall; from the clerk asking for an increase of salary; from A Kane asking indemnification for two sheep killed by dogs, which with the following accounts were referred to the Finance Committee:

E. Poole for burying M Tracey...$ 8.00
John Howden travelling expenses... 2.00
Places for holding the late election. 11.00

Printing, Mr. Rutherford Chairman of the committee read and submitted a report which on motion was received and adopted.

On motion of Mr. Stevenson, seconded by Mr. Smith, a by-law for the Erection and completion of a New Town Hall, was read a first time.

On motion of Mr. Stevenson, the following members of the council were named a committee to take into consideration the extension of the town limits; viz: Messrs. O'Beirne, Dennistoun, Toole, Smith and the mover and mayor.

Mr. Croft's communication was referred to the Court of Revision, with instructions to report. A report of the Special Committee on letting the market tolls, was read received and adopted.

Moved by Mr. Smith, seconded by Mr. Dennistoun, That resolution passed at the last meeting of the council relative to the salary of the mayor be reconsidered and that Messrs. Stevenson, Dennistoun, Toole, Morrow, Rutherford and the mover be a committee to take the matter into consideration and report at the next meeting of council.—Carried.

On motion of Mr. Rutherford, seconded by Mr. Lundy, that the clerk be authorized to issue notices for tenders for printing. The council not binding itself to accept the lowest or any tender.

Mr. O'Beirne as chairman of Finance read and submitted the following report which was received and adopted. The committee on finance and assessment beg leave to report as follows: The items are:—

To cost of suit vs. estate of G. B. Hall and enterest $281.45. To cost against the Town for recovering costs of the suit against Hall's estate, $218.85.

To cost against F. W. Heather, in suit by J. Edwards and interest, $30.95.

And examination of the facts and circumstances with the two first suits, it appears that Mr. Burnham, a good many years ago, did bring a suit against the town of Peterborough, to recover the first item as mentioned in his present application. Then the Court of Common Pleas in Toronto decided that in consequence of being a councillor he could not recover it, but it was also at the same time decided that he might be allowed to recover his disbursements in the suit and he accordingly prosecuted the action and brought the matter to trial, when it appeared on evidence at the trial that Mr. Burnham undertook of himself to carry on and prosecute the suit, free of all costs and *charges to the corporation, and furthermore* that the action should not have been brought at all. The verdict was therefore rendered against Mr. Burnham and in favour of the Town. The costs in the second item are the costs of this unsuccessful suit of Mr. Burnham's against the town.

As to the third item above, the costs in the suit F. W. Heather, appear to have been long since paid.

There is still another item on the account, namely: cost in suit of Edward Peplow and interest, on referring to the town Clerk, as to this he could not give any information.

Your committee would also take the liberty of calling the attention of the council to the fact in reference to all the items in the accounts that they are all, long since, barred by the statute of limitation and that the payment of them would be illegal acts on the part of the council.

In reference to the communication of Col. Skinner, for a subscription towards defraying the expences of the Contemplated Rifle Team to England, your committee would recommend that $25 be placed in the hands of the mayor to be applied by him towards the payment of the expenses of not more than two candidates for the honor of being among the number of the said team to attend the test matches at Toronto, the selection of the candidates to be made by Col. Poole.

Your committee beg leave to recommend the payment of the following accounts:

A. B. Kidd, stationery	$14.17
Dr. Kincaid, medical attendance on Mrs. Williams	11.00
Charles Robinson securing lamps	2.75

IVAN O'BEIRNE,
Chairman.

Mr. Burnham who was present was heard in reference to his account.

The council adjourned for two weeks.

Some friends of the Ministerial Candidate in the West Riding during the late contest, attempted to convict us of advocating, compelling the County Council to pass the Celebrated Railway By-lay. Our course was, and is, to compel all councils to do *what is legal*, nothing more or nothing less. If it had been a legal duty, we would have advocated compulsion to obey the laws of the Land, but when found that it was contrary to law, and that the county council in rejecting the by-law have done no illegal act, we could not see our way to abuse the Council. The *Examiner* never advocated passing an illegal By-law, but once, and that was to keep the town from running into an insane Water Works System; of two evils choosing the least.

A New Town Hall.—Our readers will see from report of the Town Council proceedings that there is a movement towards erecting a new Town Hall.

A young woman is said to have died suddenly a fortnight ago at West Farnham though having taken drugs enough to kill four persons in order to procure abortion, and a man said to be implicated in the crime has been lodged in Sweetsburgh jail.

Monaghan Council.

February, 24th 1871.

The Council met at 10 o'lock. All the members present. The Reeve in the chair. Minutes of last meeting read and signed.

PETITIONS.

From Mr. John Huston and eight others praying for the opening up of allowance of road between Park lot 15 and 16 in the 13th concession of the township, and wishing for same to be at once surveyed at the expense of the Municipality, and that Mr. Samuel Purser be appointed path master.

Mr. Purser was appointed path master, and the Clerk directed to write to Mr. Shaw on the subject.

Mr. Mathew Walton applied for himself and son to have permission to expend their statute labor on quarter road between lots 6 and 7 in the 13th concession.

Mr. John Lillico and nine others asking to have Mr. Thomas Allum appointed pound keeper for the present year.—Granted.

TAVERN LICENSE.

Mr. John Cook applied to have a tavern license renewed at Scott's old stand for the present year.—Granted when provisions of By-law are complied with.

The Inspector of Taverns reported that he visited the premises of Mr. Cook, and that he found the place possessing the necessary requirements stated in the By-law given for his guidance, and that all was neat, clean and orderly.

On the motion of Mr. Brownscombe, Seconded by Mr. Tully, Mr. Robt. Goodfellow was relieved from the office of assessor and Mr. John Haggat appointed in his place.

BY-LAWS.

By laws appointing pound-keepers; Fence viewers; overseers of highways; and assessors, were finally read.

The By-law for the purpose of increasing the pay of councillors while in session, as well as affording remuneration for other services in connection therewith, was lost on second reading.

AUDIT OF TREASURER'S ACCOUNT.

The auditors presented their report; it was finally audited by the council and 50 copies Detailed Statement ordered to be printed for distribution.

An order for $6:00 charity was given on the Treasurer in favor of the Reeve in charge for Mrs. Glynn.

On the motion of Mr. Robson, seconded by Mr. Birney, the council adjourned to the 13th day of May, at 10 o'clock, then to meet as a Court of Revision on the assessment role, and for the discharge of other township business.—Com.

To the Editor of the Peterboro Examiner.—

In viewing the results of the recent election contest in this County, we, in common with all Reformers, most heartily congratulate the electors of the West Riding, in their having triumphantly chosen an able, honorable and upright gentleman to represent them in the Local Legislature of Ontario. By compelling Mr. Carnegie, the By-law *squasher* to stay at home, and by electing Mr. Fairbairn in his stead, the Reformers of the West Riding have served their Country, and done honor to themselves.

We are sorry we cannot say as much for the East Riding of this County. The Reform Candidate lost his election through the apathy of Reformers, although we know well that a large majority of the electors of this Riding would vote on the Reform ticket if the subject could be fairly and honestly brought before them. But there was no time allowed for this. The election was cunningly precipitated upon the Country by the designing John Sandfield McDonald & Co. This precious *firm* could easily forsee that their political career during the last four years would be doomed to universal condemnation through out Ontario, if the people would have reasonable time to investigate and know the truth. Hence the shameless haste of John S. & Co..

Mr. John O'Donohoe, of Toronto, the Reform Candidate for the East Riding of this County, is a gentleman of rare ability and spotless fame. The dignified courtesy with which he met his political opponents, his manly and eloquent denunciations of political wrongs, the moral purity of all his sentiments, and his lofty and ardent aspirations for equal justice to all mankind, irrespective of creed, color or nationality, can never be forgotten. As the Conservatives were quite unable to meet Mr. O'Donohoe in fair discussion, they resorted for help, to the base tongue of slander. They issued and circulated a large, anonymous, self-contradictory, lying placard, against Mr. O'Donohoe, which they hoped might do him immense injury, but which only raised that gentleman in the esteem of respectable men of all parties. That placard shows the abject poltroonery and cowardice of its authors and disseminators, and also exhibits the desperate straits to which Conservatives are reduced. No man above the moral position of "Uriah Heap" could assist in concocting or in circulating that scandalous fabrication of Conservative falsehoods. Any cause which needs such support cannot be good.

JUSTICE.

Dummer, March 24th, 1871.

France Warning to us.

(From Boston Era.)

The following extract from an article written for the London *Fortnightly Review*, by Emile de Laveleye, indicates with startling clearness the cause of the downfall of France:

"The most formidable corps in the French armies was, it used to be said, the Turcos and the Zephyrs. They met men in spectacles, coming from universities, speaking ancient and modern languages, and writing on occasion *letters in Hebrew or Sanskrit.* The men in spectacles have beaten the wild beasts from Africa. In other words, intelligence has beaten savagery. Are we to surprised at this, when we know that war, like industry, becoming more and more an affair of science?

"Who does not know the immense sacrifices that Germany has made for the advancement and diffusion of knowledge—spending, for instance, twenty thousand pounds sterling at bonn on a chemical laboratory? Little Wurtemberg devoted more money to superior instruction than big France. A thing unheard of, France made the very fees of the university students a sorce of revenue. Sue gave, without counting it, more than a couple of millions of pounds sterling (between fifty and sixty millions francs) for the new opera, and she refused forty thousand pounds for school buildings. Last year, on the desk of the steamer which was conveying us to the inauguration of the Suez Canal, M. Duruy, the one man of merit who ever served under the Imperial Government, told me the tale of his griefs in the ministry of public instruction. He wanted to introduce compulsory education; the Emperor supported him: he has all the other ministers against him. He had organized fifteen thousand night schools for adults; it was with difficulty that he succeeded in carrying off forty thousand pounds against the formidable resistance of the Council of State. There was the whole system of public instruction to re-organize, and he could get nothing. They preferred to employ the gold of the country in maintaining the ladies of the ballet, in building barracks and palaces, in gilding monuments, the dome of the Invalides, the roof of the Sainte Chapelle. It was in vain that men like Jules Simon, Pelletan Duruy, Jules Favre, cried out, year after year, "There must be millions for education, or France is lost." The government was deaf. It denied nothing to pleasure, to luxury, to ostentation. It denied everything to education."

The revelation thus eloquently announced has a lesson for us. The Southern States contain a large and uneducated population. The Free school system, as it is understood at the North, has never been in operation at the South. Either these States are too poor or too indifferent to popular education to organize and sustain free schools. It is a work which the safety of the republic requires should be done by some one, and we see no valid reason why, if the Southern States neglect it, the nation through its central government should not organize and maintain there a free school system. If one member of the body suffers all the members suffer. Self preservation is reasonable justification of the proposed policy.

A good story is told of a New Bedford shipwright's apprentice many years ago. The owner of the whale ship came on board where he was at work, and inquired "Are not those repairs on the ship finished yet?" The young man replied, "The boss has gone to look for another job, and if he gets it I guess he will complete this pretty soon."

Dominion Parliament.

Mr. McKenzie's speech on the Government Scheme of receiving British Columbia.

Mr. Mackenzie said that no one was more desirous than himself to see the union of all the British North American provinces As an ardent friend of confederation, he felt very strongly the desirableness if not the necessity of having that union accomplished at as early a day as possible. Still, there were considerations to be looked at in considering the propositions before the the House. He regretted that the gentlemen opposite could not discuss this measure for half-an-hour without threatening the annexation of that Province to the United States as an alternative of the rejection of the present proposition. (Hear, hear.) He believed the loyalty of a people was of very little worth that would fear discussion on the proposition of union. If the Government were in a position to say that they had such information as to justify one of its members declaring that the rejection of the terms proposed would result in annexation, then the House had been deprived of information of a very important nature; but he supposed this style of argument was more empty declamation. In heat of argument, the house was told that this resolution was of a nature of a treaty, and was not to be altered by any proposition to be made in this House Then, if it were of a nature of a treaty, it was useless to invite discussion, for discussion could only be entertained with a view to envoke new opinions. If the Government meant to arrogate to themselves the entire wisdom of this Legislature it was useless to discuss a measure of public policy. The House was entertained in 1865 by the same story, and it was said that resolution adopted at the Quebec conference were of the nature of a treaty and were to be adopted in th n entirety; but he was led as ray by that declaration. (Hear, hear.) He accepted it in good faith and voted for these resolutions, but the same gentlemen who said they were in the nature of a treaty undertook themselves to alter the conditions in a small coterie in London.—(Hear, hear.) He was not disposed to accept the declaration of the Government that these resolutions were of the nature of a treaty, and that the House could not alter them. He believed on the other hand it was essential that there should be the best possible understanding, and free at possible discussion for the elimination from these resolutions of everything that might tend to produce trouble at some future period. He was no statesman who in a matter of this sort did not look forward to future years and possible political complications that might make us look back with regret to the summary disposal of the measure now before the House. (Hear hear.) He did not assent to a statement of the Government that the House would simply express its opinions on these resolutions, and should quietly acquiesce in the views of the Government simply because the Government said the resolutions were of the nature of a treaty. There was nothing in his opinion more dangerous than a deliberate departure from sound constitutional law and practice on the part of the Legislature. If there were one thing more essential for national prosperity than another, it was that there should be a full understanding with regard to our constitutional obligations, and the relations we occupy relatively to other powers, whether these were Provinces or independent nations. We had as the basis of our political system the British North America Act, and yet the House was called upon almost daily, certainly yearly, to violate some part of that compact. In these resolutions the House was again asked deliberately to assent to a violation of one of the great principles we struggled so long to obtain, and which we did obtain in 1866. (Hear, hear.) There was at that time a long discussion on the representation by population, which was achieved. He did not ask for an application of this principle to the Senate, for he believed under the federal system it would be unwise to apply it to the constitution of the Upper House; and so far as sending there members from British Columbia to the Senate was concerned, though there was a disproportion, he would not make this point a serious ground of difficulty; but as to the Lower House, it was a very grave departure from the principles of our constitution, which was so highly prized in 1866. The House must recollect, in discussing this matter, that we have yet a vast territory between British Columbia and Manitoba, a vast unsettled district that might yet comprise several distinct Provinces; and if we should apply to these the principle we were applying to British Columbia, and which we applied last year to Manitoba, we would have a very serious infraction of the principle to which we were committed, and for which we had struggled. Hon. gentlemen had told the House that there was a population of whites, Chinese, and Indians, of some 60,000; but this country had never given representation under our system to the Indian population.—(Hear, hear) In the calculation upon which the number of members in this house had hitherto been based, the Indian population had not been taken into account. If it were, Ontario would give several more members at present, and it was impossible to apply a rule in the introduction of a new colony, which they deliberately rejected in our constitution in the old He did not object to a considerable money grant being given, in order to carry on the government of a new colony, with a sparse population. He was quite aware that it was utterly impossible to settle and he was quite prepared to join with the Government in considering what amount it might be necessary to devote towards maintaining a new and undoubtedly somewhat difficult country, and he would not show himself less liberal than any other member of the House in considering what ought to be done under the peculiar circumstances in which that colony was placed. In the discussion upon the admission of Newfoundland last session, they were asked to vote $1,100,000 a year, in view of the disposal of its public lands to the Dominion. He had stated that he preferred

ceving the lands in the hands of the Province, because they brought in a revenue of $9,000 a year, and cost for their management $6,000. He took the same ground now with reference to the land grant to aid the Railway through British Columbia. He believed these lands in that province were almost valueless, though he had to confess that he was about as ignorant on that point as the Government themselves. (Laughter.) But all the evidence they had to show that the land west of the Rocky Mountains was of a rocky character. The hon. Minister of Militia claimed that it was valuable mining purposes, but now-a-days large capital was necessary for the development of mining wealth. The very fact that there were large imports for consumption indicated that the land was not much good for farming purposes. He was bound therefore to look upon the acquisition of that colony as simply a political necessity, which he admitted was a somewhat urgent one. He did not believe in what the Minister of Customs had stated, but he did believe in admitting that colony as early as practicable. (Hear, Hear.)

On the other hand our experience in Confederation did not justify us in any precipitate measures for the future. (Hear hear.) He was bound to say that if greater delay had been taken in bringing in the Maritime Provinces we would not have the difficulties that were not disposed of yet. He did not wish to have a recurrence of such difficulties in connection with the introduction of the new colony. He would give fair consideration to the terms proposed, and would not regard the menace of the hon. gentleman, opposite that the House was not to touch any one pf those resolutions, which the Government in their supreme wisdom had drawn up. The chief point in connection with these was the construction of the Pacific Railway. The Minister of Finance had admitted that it would impose a burden on us of over a million a year. The Minister of Customs had argued that those terms were more favourable than the original terms proposed by British Columbia, because these terms involved the expenditure of one million a year, beginning three years hence; but according to the Minister of Finance the present proposition was to begin two years hence, and with an expenditure of certainly not less than one million a year.

Sir F. Hincks explained that that amount was the maximum, and not likely to be reached for eight or ten years.

Mr. Mackenzie said the road had to be finished in ten years. They were asked to discuss this question without any information. In the construction of a large railroad he was not disposed to agree with the Government that the right policy was to give away all the good lands for the railway. It would retard settlement. Besides, the Government had no means of knowing that Ontario would grant nine millions of acres to this railway, which they had counted upon. Besides, a good deal of that land was of poor quality. The only valuable land available for that purpose was from the Winnipeg River to the Rocky Mountains. With regard to the mode of building this road, the House had no information to enable them to discuss that question. Supposing it to be entrusted to a company and that company invested with the vast quantity of lands which it was proposed to give to the railway. The settlement of that vast territority would be retarded to an extent far more than would counterbalance any advantages that might be derived from giving the land instead of money. But the hon. Minister of Custom had intimated that the Government would sell the land and apply the proceeds to the railway; that was a still worse scheme, and would prevent the settlement of the territority. Free grant was the true policy for the North-West. The government should have given the House some information as to engineering difficulties in connection with this railway. He believed the engineering difficulties west of Winnipeg could not be very great, but east of that there appeared to be very serious difficulties. The land was sterile and of no value as an aid to the railway. West of the Rocky Mountains the country was very rough, and it would be difficult to build a road over it. All those things had to be considered, and it would not do to compare this line with the Pacific line in the United States, where there were many advantages not possessed by us. He was prepared to give a liberal grant to British Columbia to enable her to carry on well her local services, but he was not willing that they should blindly enter into an engagement to build this enormous railway within ten years. Ministers did not seem to know the magnitude of this work. He pointed out the difficulties that would attend the construction of this railroad, and argued that a coach road would first be necessary in order to bring up the supplies. It would be next to impossible, and if possible, very unwise to give up our best lands accomplish this work. He thought it was most unjust to lead the people of British Columbia to believe that we could complete that work within ten years, and he entered his protest against deluding these people and leaded this House astray in the matter of this railway. He would therefore move an amendment, which was to to the effect that the House do not now resolve itself into Committee of the Whole, but that it is of the opinion that Canada should not be pledged to do more than proceed with the necessary surveys, and after the route is determined, to prosecute the work at as early a period as the state of the finnces will justify; and that the further consideration of the said terms be postponed with a view of obtaining some modification thereof. In 1860 a certain pledge had not been carried out, and nothing had been done but the appointment of a useless commission. While he would be glad to give his support to the commencement of the Pacific Railway at as early a day as possible, he was of opinion that it was not prudent to enter upon such a great undertaking without further inqury. (Loud Cheers.)

DIED.

ARMSTRONG.—At the residence of Geo. A. Elliott, Esq., Smith, on Monday 20th March, of Inflanation on the Brain, Mr. Wm. G. Armstrong, late of Church Hill, County of Fermanagh Ireland, aged 18 years.

CAMPBELL.—At Smith on the 22nd instant, Mr. John Campbell aged 19 years.

HUDSON.—At his residence, Otonabee, on Monday, 27th instant, Mr. Wm. Hudson, Sr., aged 62 years.

BROPHY.—At Peterborough, on the 21st instant, Michael Brophy, Esq., aged 72 years.

Deceased was an old and respected resident of Peterborough for upwards of thirty years.

HAGGART.—At the Toll-gate, near Cobourg, Archibald Haggart, aged 67 years.

Great Condition Powder

As a condition medicine for Horses "Darley's Condition Powders and Arabian Heave Remedy," has no equal, its effects in this respect are astonishing; many horses that were supposed to be broken down and almost worthless, have by the use of a few packages been restored to a healthy and sound condition, all traces of the disease having been completely removed and have been sold for from $50 to $75 more than they would previously have brought; when you want a horse medicine get Darley's Condition Powders and Heave Remedy, we know you will be perfectly satisfied with the result. Remember the name and see that the signature of Hurd and Co. is on each package. Northrop & Lyman, Newcastle, Ont., *proprietors* for Canada. Sold by all medicine dealers.

☞Is your throat sore or are annoyed by a constant cough? If so use promptly "Bryan's Pulmonic Wafers," they will give you instant relief. They relieve the air passages of phlegm or mucous, and allay inflamation, and no safer remedy can be had for coughs, colds or any complaint if the throat or lungs, and if taken in time their efficacy will soon be improved.—Sold by all country dealers. Price 25 cents per box.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES is the only preparation known which gives prompt and permanent relief in diseases of the Lungs and Bronchial Tubes. It restores the secretions to their healthy condition, alleys inflammation of the mucous membrane, and is the most certain remedy for Debilitated Maladies, Full directions accompany each bottle.

HAVE YOU TRIED IT?—If not don't delay another moment, but get a bottle of the "Canadian Pain Destroyer." It is far ahead of any other medicine and was never known to fail. All aches and pains are immediately and permanently removed by it and the price places it within the reach of all. Sold by all medicine Dealers.

THE GREAT FEMALE REMEDY.

Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moperates all exodus and removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on ;he monthly period with regularity.

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Ayserics, and Whites, the Pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved

JOB MOSES', NEW YORK, SOLE PROPRIETOR

$1.00 and 12¼ cents for postage, enclosed to Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will ensure a bottle, containing over 50 pills, by return mail.

Iron ore, taken from the back hills near the highest level of the Union Pacific Railway, has been smelted at Omaha and found of excellent quality, yielding 80 per cent, of superior metal Three hills of the ore lie neas the railroad.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier, alternative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phathisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, Diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superseding all other preparations of the kind

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum, dysentery, &c.

Price only thenty-five cents per bottle.

NORTHROP & LYMAN,
Newcastle, C. W.
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, Wm. Coulter and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co., G. Britton, Lindsay, and all Medicine Dealers.

NOTICE.

UNFAILING EYE PRESERVERS.

LAZURUS, MORRIS & Co's

CELEBRATED

Prfected Spectacles

AND EYE GLASSES.

The large and increasing sales of these Perfected Glasses is a sure proof of their superiority. We were satisfied that they would be appreciated here as elsewhere, and that the reality of the advantages offered to wearers of our beautiful lenses, viz: the ease and comfort, the assured and readily ascertained improvement of the sight, and the brilliant assistance they give in all cases, were in themselves so apparent on trial, that the result could not be otherwise than it has, in the almost general adoption of our Celebrated Perfected Spectacles by the residents Of this locality.

With a full knowledge of the value of the assertion, we claim that they are the most perfect optical aids ever manufactured. To those needing Spectacles, we afford at all times an opportunity of procuring the best and most desirable.

DR. W. H. TAYLOR

Corner of George and Hunter Streets,

Has always on hand a full assortment, suitable for every difficulty.

We take occasion to notify the public that we employ no pediars, and to caution them against those pretending to have our goods for sale.

Peterboro, February 8, 1871.

In Fancy Goods, Work Boxes, Desks, Ladies' Companions, Alabaster Ornaments, &c., a splendid assortment;

TOYS in great variety, such as Building Blocks, Nine-Pins, Dolls, Drums, Cymbals. Pistols Jack in the Box, &c. &c.

ALBUMS OF ALL KINDS AND PRICES;

PICTURES—a good assortment, either with or without Frames, and Cheaper than ever offered in Peterborough before;

CONCERTINAS AND VIOLINS,

A very large assortment. Attention of the Musical Public is solicited to the fact that they can procure the best PIANOS and MELODEONS without going outside of Peterboro.

A. B. KIDD is Agent for

THE CELEBRATED BRADBURY PIANO

The successful rival of the Steinway, &c. He is also Agent for

W. BELL & CO'S PRIZE MELODEONS,

The Melodeons that carried off the prizes at the Provincial Exhibition. ☞ Both Pianos and Melodeons kept on hand.

PIANOS AND MELODEONS

THE BRADBURY PIANO,

Which has met with triumphant success, and has successfully competed with the best Pian in the world, and has received the highest testimonials from Gottschalk, Mason, Sanders, Pattison, Berge, Zundell, Heller, Fradel and others,

IS SOLD IN PETERBOROUGH BY A. B. KIDD.

He also sells the WEBER PIANO, which, to those who wish a cheap instrument, is equal to any of its class.

W. Bell & Co's Melodeons are supplied by A. B. Kidd.

These instruments received First Prizes at the Ontario Provincial Exhibitions for 1868 and 1869; also at the Quebec Provincial Exhibition held in Montreal, September, 1870. At the Ontario Provincial Exhibition held in Toronto, October, 1870. W. BELL & Co. received the First Prize and Diploma for the best Harmonium or Large Cabinet Organ, and the First Prize for the best Melodeon. It is universally acknowledged that in the manufacture of Melodeons W. BELL & Co. excel all other Canadian makers, having taken the *First Prize on Melodeons* at the last three Provincial Exhibitions. As to Organs or Harmoniums it must be remembered that The Diploma just received by W. Bell & Co. is the only one awarded during the last seven years at any Provincial Exhibition. ☞ All instruments warranted for five years, and satisfaction guaranteed.

PAPER BAGS AND WRAPPING PAPERS

Are supplied by A. B. KIDD at Montreal Prices.

Dealers will find it advantageous to give him their orders, as he has made arrangement with one of the largest firms in the Dominion, which enable him to supply Bags and Wrapping Paper at Wholesaleices

Peterboro, November 15, 1870. 46-tf

Flax! Flax!!

Farmers intending to grow flax will please apply for their seed early. Seed supplied and payment taken in flax by calling on

SAMUEL TAYLOR
or H. CALCUTT.

I would beg to call the attention of farmer that I have a machine for pulling Flax, which will pull 4 acres a day. I will let the machine and send a man with it for $2 per day. The patronage of the public is respectfully solicited.

A. WALLER.

Ashburnham, March, 1871. 11-tf.

Choice Poetry.

At Thy Peril.

FROM DICKENS' "HOUSEHOLD WORDS."

"Am I my brother's keeper?"
Awake from dreams to-day!
Arouse thee, careless sleeper,
Cast not the thought away.
Then from a golden chalice
Dost drink the the ruby wine,
Thine home a stately palace,
Where wealth and splendor shine.

"Art thou thy brother's keeper?
Life's page to the reads fair,
But gaze a little deeper,
And other tales lie there.
With sullen look and stolid,
'Mid wretchedness and strife,
Beneath your roof-tree squalid,
How drags thy brother's life?

"Art thou thy brother's keeper?"
Swift as the viewless wind,
Speeds on our mighty Reaper,
His harvest sheaves to bind;
His earliest prey finds shelter
These sordid roofs beneath,
Where vice and misery swelter
In hot-bed ripe for death.

'Art thou thy brother's keeper?'
Hush homes shut on thine,
The dim eyes of the weeper
Mocked by thy banquet's shine.
Sayest thou, "Such ills are nameless,
They touch not such as we!"
Alas! canst thou be blameless,
That things like this should be?

"Art thou thy brother's keeper?"
One course the foe doth run,
Nor Volga's stream nor Dnieper
Bars out this ruthless Hun.
Who shall the myriads number,
This "Scourge of God" may kill
While sunk in selfish slumber,
Securely dream ye still?

Thou art thy brother's keeper,
This charge thou canst not flee,
The path of right grows steeper
Daily to him, to thee.
A reckoning shall be taken,
A reckoning stern and deep,
Woe! unto those who waken
Then first from careless sleep!

Thou art thy brother's keeper,
War, pestilence, and dearth
These bosoms of the Sweeper
Invade the homes of earth
A blackened path and sterile
Conducts them to thy door,
And at thy proper peril,
Dost thou neglect the poor!

Only Sam Dat's All.

Here is a very good anecdote, reminding me somewhat of Mrs. Stowe's "Topsy:"

During the last winter a contraband came into the Federal lines in North Carolina, and was marched up to the officer of the day to gave an account of himself whereudon the following colloqny enaued:

'What is your name?"
'My name is Sam"
'Sam what?"
No, sah! not Sam Watt. I'se just Sam."
"What is your other name?',
"I hasn't got no other name, sah I'se Sam—dat's all"
"Whats is your masters name?
"I'se no master now; massa runed away yah! yah! I'se free nigger now.'
"What's your father and mother's name?
"I'se got none, sah—neber had none I'se just Sam—ain't nobody else."
"Haven,t you any sister or brother?"
"sah never had none. No brudder, no sister no fader no modor no massa—not in dis world Sam. "When you see Sam you will see all dere is of us."

The following incident narrated by a clergymen, occured not long ago in Tompkins country:

In the town of L——lived a man who known as a drinking, swearing old reprobate —and some said to stealing occasionly. During the course of a revival, in the vicinity of old Joe" made professions of religion and was to be baptised "Old Joe" having expressed his preference for 'immerson' instead of sprinkling the ceremony took place at a convenient spot near an old saw mill. while the congregation were waiting expectant an old dutchman was observed to clamber up hastily among the timbers of the old mill. The convert was leaving the water, when a voice called out far above the crowd: 'Souse him again, Eder! souse him again he is a dirty dog! having spoken' the Dutch man scrambled down and disappered.

It is claimed and conceded that woman's love is stronger and more durable then man's for proof of this a correspondent relates the following insident.

In the town of J——lived a happy pair, of Hard Shell Baptist persuasion.—The husband had imbibed the notion, that a man had good and lawful right to whip his wife.

This opinion was the strongest when he had imbibed freely of the spirits of his jug instead of the better spirit. On one of those occasions he felt it his duty to flagellate his better half. She made complaint to the deacon of the church and a day was appointed to discipline him. The church was gathered together, as was they went at religions service. The meeting was duly opened and the culprit called up and having heard the charge, was asked what he had to say. He turned to his dear wife and said; "Bathey did I ever lick you? She promptly replied: "yes many a time and whose business is it?"

Everything being satisfactory they received the benediction and departed all parties well pleased at the happy termination of this difficulty.

We have a revelation from Sprigfield, Massachusetts. A lady young attractive and just marriad left her house in that city and went into the country, accompanied by her husband. Soon after her debut as Mrs. H——she attended a sewing society. After the usual subjects of conversation had received attention the lunar eclipse was alluded to.

"Mrs. H——,did you sit up to see it eh!'

'No I did not" was the reply; "Mr. H——sat up. In springfield, where I came from they are such a bore we have them so often.

An intelligent gentleman from Germany, on his first visit to an American church, had a contribution box with a hole in the top presented to him, and whispered to the colector, "I don't got mean papers but can't vote.

One day a lady of acquaintance caught a three year old son drowning some ducklings. "Sir," said she, "did you not know how wicked you are? Now down on your knees and beg pardon." The golden haired little fellow drooped on his knees before the coop, and said, "Old hen, forgive me."

R. R. R.

RADWAY'S READY RELIEF

Cures the Worst Pains

IN FROM ONE TO TWENTY MINUTES.

NOT ONE HOUR

After reading this advertisement, need any one Suffer with Pain.

RADWAY'S READY RELIEF IS A CURE FOR EVERY PAIN.

It was the first, and is

The Only Pain Remedy

That instantly stops the most excruciating pains, ALLAYS INFLAMMATIONS AND CURES CONGESTIONS,

Whether of the Lungs, Stomach, Bowels, or other glands and organs, by one application.

In from One to Twenty Minutes.

No matter how violent or excruciating the pain, the RHEUMATIC, Bed-ridden, Infirm, Crippled, Nervous, Neuralgic, or prostrated with disease may suffer,

RADWAY'S READY RELIEF

will, in from ONE to TWENTY MINUTES, *afford ease and comfort*; and this medicine, so rapid in stopping pain, can be purchased for 25 cents per bottle at almost every druggist's and country merchant's store on this continent, and within one hour's distance of almost every habitation in this country.

RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA,
RHEUMATISM & NEURALGIA.

If those who are now suffering Pain—no matter what the cause may be—put by what name it is called—if external apply the Radway's Ready Relief to the part of the body where the pain is present. If internal,

30 Drops Diluted in Water,

As a drink; whether Cramps, Spasms, Inflammation, Congestion; Asiatic Cholera, Chills and Fever, the most violent, excruciating, and torturing pains will be stopped

In from One to Twenty Minutes.

PAINFUL ATTACKS WHERE

RADWAY'S READY RELIEF

WILL AFFORD INSTANT EASE—

Inflammation of the Kidneys, Inflammation of the Bladder, Inflammation of the Bowels, Congestion of the Lungs, Sore Throat, Difficult Breathing, Palpitation of the Heart, Hysterics, Croup, Diphtheria, Catarrh, Influenza, Headache, Toothache, Neuralgia, Rheumatism, Cold Chills, Ague Chills.

The application of the *READY RELIEF* to the part or parts, where the pain or difficulty exists, will afford ease and comfort

30 Drops in a half tumbler of water will, in a few moments, cure

Cramps, Spasms, Sour Stomach, Heartburn, Sick Headache, Diarrhœa, Dysentery, Colic, Wind in the Bowels, and all Internal Pains.

Travellers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

IT IS BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT

FEVER AND AGUE.

Fever and Ague Cured.
Fever and Ague Cured.
Fever and Ague Cured.
Bilious Fever Cured.
Ship Fever Cured.
Yellow Fever Cured.
And Prevented.
And Prevented.
And Prevented.

FEVER & AGUE CURED

FOR FIFTY CENTS.

There is not a remedial agent in this world that will cure FEVER & AGUE, and all other Malarious, Bilious, Scarlet, Typhoid, Yellow, and other Fevers (aided by Radway's Pills), as quick as Radway's Ready Relief.

RADWAY'S READY RELIEF

has proved infallible, and will cure these terrible fevers quicker, and without entailing the frightful penalties of Enlargred Liver, Fat Spleen, Disordered Kidneys, and Saffron-Colored Skin, that are sure to follow the use of the "Chologogues," "Ague Cures" and other agents of the borne Quinine, Mercurial, Arsenic, and other treatments where the medicines used *necessitate*, and become deposited in the system.

HEALTH! BEAUTY!!

Strong, Pure and Rich Blood — Increase of Flesh and Weight — Clear Skin and Beautiful Complexion, Secured to ALL.

RADWAY'S SARSAPARILLIAN RESOLVENT

has made the most astonishing cures. So quick, so rapid are the changes the body undergoes under the influence of this truly WONDERFUL MEDICINE, that

Every Day an Increase in Flesh and Weight is Seen and Felt.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal, in its many forms, Glandular diseases, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands, and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, Eruptive Diseases of the Eye, Nose, Mouth and the worst forms of Skin Diseases, Erysipelas, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Eryspelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all Weakening and Painful Discharges, Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of Radway's Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of disease, its potent power to cure them.

Not only does the Sarsaparillian Resolvent excel all known remedial agents, in the cure of Chronic, Scrofulous, Constitutional Skin and Syphilitic diseases, but it is the only positive remedy for Kidney, Bladder, Urinary, and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's disease, Albuminuria, and in all cases where there are thick, ropy, milky, or bloody urines, the white of an egg, or tureads like white silk, or there is a morbid dark, bilious appearance, and white *sediment* settles, and when there is a prickling, burning sensation when passing water, and pain in the small of the back, and along the loins. In all these conditions Radway's Sarsaparillian Resolvent, aided by the application of Radway's Ready Relief to the loins and Small of the Back, and the Bowels regulated with one or two of Radway's Regulating Pills per day, will soon make a complete cure. In a few days, the patient will be one able to hold and discharge his water naturally without pain, and the Urine will be restored to its natural clear and amber or sherry colors.

THE WASTES OF THE BODY

are supplied with new, healthy and vigorous blood, that invigorates sound structure. Hence all suffering from WASTING DISEASES, either MALE or FEMALE, of the Womb, Uterus, or other organs, whether Leucorrhœa, Sperm, or Eruptive discharges of every kind, or from violence of "Self-abuse," from the Genital Glands, or Venereal discharges, or Pores, or Sores, through the reparative process of Radway's Sarsaparillian, are arrested, and the ruptured organs healed.

THE TRUE THEORY OF CURE.

Radway's Sarsaparillian Resolvent supplies the system, through the Blood, nutritive, and strengthening constituents, with Tissue-making, Blood-making, Heat or Labor, and Fat-making elements. All of its constituents are nourishing, purifying, and strengthening. *It digests, feeds, invigorates, and creates* all the healthy properties of Bone and Corruption. DESCRIPTION WHITE'S SWELLING, DROPSY, SYPHILIS, CANCERS, TUMORS, &c., are all of a scrofulous character, and as such are within the curative range of the Sarsaparillian Resolvent!

1. That Scrofula, by whatever name designated, is the result of deposits from the Blood, induced or caused by Chronic inflammation. That those deposits take place when the Blood is poor, weak, watery, and incapable of holding in solution its proper constituents, or from the presence of some virus or poison in the blood, as Mercury, Calomel, Corrosive Sublimate, which is the Corrosive Chloride of Mercury, or other agents given in medicines and which enter largely in the common accepted Sarsaparillas, NOT ABSORBED OR CHANGED FROM THEIR NATURAL CONDITION.

2. That unless the repairs or nutriments are greater than the wastes, first decomposition and decay will supervene, and the powers of life become exhausted.

3. That the dying body cannot be sustained on any treatment of medication that exhausts the system, or fails to nourish the blood, the only medium through which the *vital powers* are preserved, and on which the growth of the body depends.

4. That Radway's Sarsaparillian Resolvent supplies a want never before possessed of known to exist in medicine; that this new and grand principle in Chemical science, which has been brought to such a perfect system of cure, is established as follows:

1. Its great power in assimilating the food in its first stage of digestion; the process of digesting as shyne and style with the nourishing elements of blood, separating from these liquids refuse and inert qualities before they are taken up by the lacteals and are formed into blood. Here we see that by its wonderful power it changes the system with the very essence or principle that forms the vital powers of the body, and its chemical action on the blood in its primitive and complete condition separates every atom of refuse material or element, All of which the virus of disease is formed.

TEACHER WANTED.

A Male Teacher, holding a Second Class Certificate, for School Section No. 3, Dysart known as the Haliburton School, to whom liberal wages will be given. School to commence immediately. Applications to be made, or addressed, to the undersigned, in Haliburton.

J. R. ERSKINE,
Sec.-Treas., S. S. No. 3, Dysart
Haliburton, Jan. 13, 1871. 3

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the Hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous sores and ulcers, internal and external, are its natural results, for they were mainly created by the same cause, and in such cases wonders in almost every section of the country, that the public scarcely need to be informed of its virtues to use.

Every taint of poison is expelled by the most obstructive and dangerous of these diseases, from the system, and the patient regains the vigorous health and purity of blood which this great purifier always imparts to the body. Even the taint of consumption is counteracted by its use, and thousands who have been apparently given over to die of pulmonary disease, have been restored to sound health by the use of this remedy. Indeed, so complete is its conquest over the most malignant disorders, that the slightest indication of their presence, or of the foul humors that breed them, should lead no one to neglect the use of this antidote. Even when the poison has been overcome, and the system thoroughly renovated, it will be found that a few occasional doses will expel any new accumulation of impurity, and prevent the development of disease. Hence, those who have reason to dread the attack of scrofulous or other blood diseases, should not hesitate to take this remedy on the first appearance of any of the symptoms which it cures, or even suspicion of their presence. As an alterative for the purification of the blood, and the cure of scrofulous complaints, this Sarsaparilla is the best medicine that can be taken. Its effects are palpable to the feelings, and the popular verdict is that it does more good than any other blood purifier. Hence, those who have once used it, rely upon it as the best antidote for the impurities of the blood that can be obtained.

HUMBUG EXPOSED.

THE Subscriber begs to inform his customers and the public generally, particularly those intending to buy Furs, NOT TO RETAIN their orders, as there never was a better chance to select Furs than at my store. The stock consists of my own manufacture, and of nothing but the real article. I have none, nor ever had any of the so called German Mink, French Seal, Sea Otter, British Sable, and numerous other high sounding, fictitious names, by which trashy imported articles are disposed of at fabulous prices. Is it not also true that Russian and Western Mink, being colored, is disposed of as Canada Mink? Goods made up for wholesale trade are of inferior quality.

Whether my own manufacture compares favorably with city manufactures, the following will show for itself. It was my own workmanship which secured to Mr. Melver, of Montreal, the First Prize for a set of Ladies' Furs, at the exhibition in 1868, held in the Grand Trunk Sheds at Montreal, against the following competitors:—Messrs Greene & Sons, Brahadi, Henderson, Brown, and several others. Mr. F. W. Lassack, of New York, being one of the Judges for Furs. The same Lady's set was sold to a Baltimore lady for the handsome sum of nearly $400. I believe myself capable of doing now, as I did then.

An Examination of my Stock is solicited.

The Highest Price Paid for RAW FURS.

W. LECH.
Peterboro, October 19, 1870. 42-17in

NEW CARDING MILL!

WILSON, BOWMAN & CO.

Hamilton, Ontario

MANUFACTURERS OF THE CELEBRATED

LOCKMAN SEWING MACHINE,

Take pleasure in announcing that the popularity of the Sewing Machine manufactured by them is still on the increase. They are now turning them out at the rate of 600 per month and yet have been compelled within the last two weeks to increase their facilities to a capacity of one thousand per month.

The Lockman Machine, from its capacity to sew the heaviest fabrics with linen thread, as well as the finest cambries with No. 150 Cotton, is pre-eminently the Farmer's Favorite Family Friend.

It is so exceedingly simple in its parts, and so strongly and durably made, that it does not require a mechanical genius for its management.

The manufacturers challenge the world to produce its equal, and yet its price is from Forty to Fifty per cent. Lower than that of any other first-class Shuttle Lock-stitch Sewing Machine.

EVERY MACHINE IS WARRANTED.

Peterboro July 3, 1870. 13

Choice Poetry.

A Curious Literary Production.

The following is one of the most remarkable compositions ever written. It evinces an ingenuity peculiarly its own. The inital letters spell 'My Boast is in the Glorious Cross of Christ." The words in *italic*, when read on the left-hand side from top to bottom, and on the righthand side from bottom to top, form the Lord's prayer complete:

Make known the gospel truth our Father King
Yield up thy grace, dear *Father*, from above;
Bless us with heart *which* feelings can sing,
"Our life thou *art for ever*, God of Love."
Assuage our grief *in* love *for Christ*, we pray,
Since the prince of *Heaven* and *Glory* died,
Took all our sins, and *hallowed the* display,
Infant *being* first a man, *and* then crucified.
Stupendous God! *thy* grace and *power* make known.
In Jesus' *name* let all *the words* rejoice:
Now labor in *thy* heavenly *kingdom* own—
That blessed *kingdom* for thy saints *the* choice.
How vile to *come* to thee, *is* all our cry,
Enemies to *thy* self and all that's *thine*;
Graceless our *will*, we live *for* vanity,
Loathing the very *be*-ing, *evil* in design—
O God, thy will be *done from* earth to heaven
Reclining on the gospel, let us live,
In *earth* from sin *deliver*-ed and forgiven.
Oh, *as* thyself, *but* teach us to forgive:
Unless *its* power *temptation* doth destroy,
Sure *is* our fall *into* the depths of woe.
Carnal *is* mind, we have *not* a glimpse of joy
Raised against *heaven*; in us no hope we know.
O *give* us grace, and *lead* us on the way;
Shine on *us* with thy love, and give us peace.
Self, and *this* sin that rise *against* us, slay.
Oh, grant each *day* our *trespass-es* may cease;
Forgive our evil deed, *that* oft we do;
Convince us *daily of them* to our shame,
Help us w.t avenly *bread*, *forgive* us ton,
Recurrent lusts, *and* we'll adorn thy name.
In thy *forgive*-ness we *as* saints can die,
Since for *us*, and our *trespasses* so high,
Thy Son, *our* Saviour, died on Calvary.

Paddy Doyle's Experience in Canada.

AS RELATED IN A LETTER TO HIS OWN KATY IN BALLYNAFAD.

By the late "Typographic Cosmopolite."

Well, Katy, my darlint, I've been thinking this long time to unburthen me mind, and tell yees all the quare things that happened to your own Paddy since I left the "ould sod"—the Lord be wit it! And I will now put my right foot foremost, and commence at the beginning.

It was a fine morning in July, 18—, that I footed it up to the Cove av Cork from Ballynafad, and got there safe and sound. There was a hape of ships there, all of them going to Quabeck. So I tuck me passage in one, and sailed the next day. I felt bad intirely at laving poor ould Ireland—the country that bore me—wid its pleasant dales, its purty girls, and its rollicking boys. "Och," sez I to meself, "I'll nivir agin see yer green fields and waving corn; nivir hear the plaintive murmurings of yer meandhering brooks and athreanes; nivir will the cuckoo or corncrane awake me in the early morn; for, as one Misther Homer remarked to Dan. O'Connell, "The last breeze of Erin has passed o'er my brow." Well Katy, asthore, I need not tell yez much about the voyage across or how we wur rolling about on the big waves for weeks; while between the say-sickness and the grief, I couldn't ate a bit av the nice fat pork and other dainties on board. Howandiver, afther six weeks' sailing, we came to Quaybeck. The weather was very could when we landed, and I didn't know what to do wid meself. So I up and axed the captain of the big ship where I could get some light work to do.

"Well, where are ye bound for Paddy?" sez the captain.

"Och, captain, honey," sez I, "I'm tould the ground here is paved wid goold and I'm not pertickler what I go, so that I get some praties and a dhrop of once-water to moisten me thrapple," (for ye know I was always a thirsty soul, like me father before me.)

"Look here, Paddy," sez he, "take my advice and nivir mind the goold; but look for work on the warfs now, and in the spring push into the bush, and there you'll find the rale goold," sez he, "if ye choose to work for it," sez he.

By gorra, I wondher'd how he knew me name, and I looked at him wid both me eyes.

"Arrah, me jewel," sez I, "what bush is it? And me name's not Paddy Doyle if I don't find the crock av goold, and thin, *ma bouchal*, I'm off for ould Ireland again, sez I to the captain.

'Aw Paddy,' sez he. 'I mane yees are to go into the bush and cut down the lumber, and then, if ye choose to work hard, ye may earn a crock of goold," sez he.

"But, captain, dear," sez I, what good wud lumber do to me? Be gorra, if it wur lumber I wanted, there was plenty in Ballanafad; there's me ould grandmother, an' me aunt, an' the ould sow, an'—an'—'

"Ha, ha!" sez the captain, quite pleasant, "I see ye mistakes me intirely: its the threes that's called lumber," sez he.

'Oh, faix, is it?' sez I. 'But that would nivir answer Paddy—me that was rared so tindherly—me, the decendant of ten kings, to cut down threes!' Oh! mother o' Moses, has it come to this?' sez I.

'Well, Paddy, plaze yerself,' sez he, 'but don't imagine you can pick up goold in the streets,' sez he.

'But how could I cut down the threes, captain honey?' sez I.

'Ye must axe thim, I suppose,' sez he.

Arrah now, captain, none o' yer thricks upon thravelers,' sez I. 'If I was to ax thim for a thousand years, they wouldn't spake a word at-all-at-all,' sez I.

'Well,' sez he, 'as I see yees are joking wid me, just find out by yer larning, Paddy Doyle, and show us how ye can thravel,' sez he; for he samed vext.

Well, to make a long story short, I kem down to Point Levi, and wuz looking at all the gran' sights, an' the big ships, and the crowds of min an' faymale wimins that they calls *habitants*, and wondhering what they were saying at all wid their *parleeoo* and their *je ne comprends*, and other gibberish, when all at once an unmannerly dog caught yer humble sarvint by the sate av the breeches, and gave me a rale nip.

"Bad luck to yer manners,' sez I; is that the way ye thrate a christian?' sez I; 'but if there's varte in a stone, ye'll git the benefit of it.' Wid that I stooped down and tuck hoult av a good sized paver, but divil a bit of it wud move, though I kicked it wid my brogne. 'Wall,' sez I, 'this is a nice country, where they lit the dogs hire ye, and tie the stones to the ground.'

Howandiver, I wint on lookin' everywhere for the goold, but no goold, or silver either, cud Paddy see; but the ice, bad manners to it, thripped me up siveral times, and kilt me intirely, wid the whacks I got on the back ave me head, and put the light out ave me good-looking eyes

* * * * * * *

Well, when spring kem I did get in the 'bush,' as they call it, and offers me sarvices to an ould English curmudgeon av a farmer, who axed me end I do a lot av things, and among the rest something about 'chopping.' Faix, at first I thought he was axing me could I ate chops, and I answered briskly enough—

'Chops!' sez I; 'yis, sir: let Paddy alone for that; but I hope the chops are fat,' sez I, 'and if I don't make them lave that, be gorra me names not Doyle.'

'Ah, ha!' me good fellow,' sez the farmer, 'it's asy to see what yer afther; but you've got to chop some wood for me afore ye git any other kind av chops,' sez he.

So he brought me to a place behind what he called a shanty, where there was a big pile of wood, and put an axe in my hands, and tould me to beign.

So spitting in my fisht I tuck a howld av the hatchet (an axe they call it here), and thumped away at the big logs till the purspurashun (saving yer presence), ran off like rain. 'Begorra,' sez I to myself: 'how'll I iver find goold this way?' All at once, as I stood up to rest myself, I saw a big, ugly black fellow sitting on his hunkers, behind a tree right forenenst me, and eying me very sharply. 'Begorra,' sez I to myself, 'here's a nigger, or some sort of a furriner, and faix, he has a rale warm-looking jacket anyhow.' After staring at me for a while and saying nothing, I tho't I would teach him manners, and said, 'go-dema-tata-nabor; throth ye'll know me again,' sez I, but the curmudgeon hadn't the manners to answer the time o' day, and only shook his noddle and gev a growl. 'Bad cess to yer manners,' sez I; 'but suppose you're only a furriner, and don't know any bether.'

Jist then the masther cum along with a gun in his fisht, and eying the fellow at the foot of the three looking so impident, before ye cud say Jack Robinson, he fired at him, when the nigger fell down, growling and kicking wid pain.

'Och, masther der, run for yer bare life or the peelers will ketch ye,' sez I, 'and maybe the judge will thransport ye for life for killing the furriner,' sez I.

'Nivver mind, Paddy,' sez he; 'shure it's only a bare I shot,' sez he.

'A bare! is that thing a bare,' sez I; 'by japers I thought it was a nigger or a furriner.'

Well, Katy, afther a while a lot of weeny green-and-white flies, not bigger than a midge, kem and tuk up their abode on my noddle, and began to bite me all over intirely, till I had to throw down me axe, and cut like a redahank.

'What's the matther now, Paddy?' sez the boss, and so I up and towlt him.

'Shure ye wouldn't run from them critters! they're only Miss Kitties,' sez he.

'Miss Kitties!' sez I 'well, begorra, the Miss Kitties I youst to court in the ould country, wouldn't bite like that,' sez I, 'no mather what else they might do,' sez I.

'No mather about that, now,' sez he; 'but go early to bed, for in the morning we'll hev to build a cord of wood,' sez he, eying me quite sharp.

'Oh, glory! do yez make cord out av wud in this counthry?' sez I. 'Shure it can't be as good as hemp; I'd be afeared av the splinters,' sez I. But he laughed at me, but didn't give me any answer.

Faix, I was tired after chopping, and threw meself down on tne softest board in the barn, and was dhreaming of ye, Katy, and poor ould Ireland, when all at oncest I was wakened wid something biting at my big toe; and I roared out—

'Help! murther! thieves!' sez I. 'Murther! murther!' when in kem the whole family in the dish-of-bills (I think they call it); and the masther said, afther I towlt him.

'Tut, man, it's only a chipmonk or squirrel that was knawing yer toe. You'll soon get used to it,' sez he; 'for ye know ye must pay yer footing when yo cum to Canada,' sez he.

Well, I pulls on me brogues, claps me casheen on me head, puts me hands under me oxter and sleeps soundly till morning, till the flies kem down in shoals and nations, and fairly pulled me out av the bed, and chased me from the barn.

'Oh, holy St. Patrick! ye're badly wanted in this counthry,' sez I. 'Between the bears, the muskitters, and chipmunks, and squirrels, and other venomous reptiles, I'll be kilt intirely.

Afther I got me breakfast, the masther and me piled the cord of wood, but he didn't make any rope I could see. Howandiver, afther we had got done he sez to me—

Now, Paddy, ye'll have to give a hand to make a corduroy road,' sez he.

'A corduroy road!' sez I; 'be japers I nivir heerd tell av a road made av corduroy afore,' sez I. 'Whin I was agoraoon,' sez I, 'I youst to wear corduroy breeches; but all the cloth in Tippearary wouldn't be enough to make a road,' sez I. Oh, musha! what a country! to make a cord out of wood, and roads out of corduroy!

But, Katy, *alanna*, when winter kem on and the big snow lay on the ground in hapes, masther sez to me one day. 'We will go a-slaying to-morrow, Paddy,' sez he. 'I hope ye will like it.'

'Go a-sleighing!' sez I; 'shure that wud be murther! and I'll nathur take act nor part in it,' sez I.

'Och, yo omadhaun! will ye niver larn anything!' sez he; 'it's only a ride on a sleigh.'

'Oh, begorra, I'd be afeard to do it; maybe it kicks!'

Sometime afther, he brings ont a quare thing like a cart wid no wheels on it, and ties the horse to it, and shure enuff we wint over the snow like a house on fire, for an hour or so, till at last we kem to a stand still, when the masther jumped down, tuk a fisht-full av snow, and began rubbing me nose till I thought he wud pull it off, and till the tears cum to me relaf.

'Oh, Paddy,' sez he, your nose is frost bitten, and ye may thank me that seen it in time,' sez he.

'I don't know anything about that,' sez I; 'but you're the first man that ever tuck Paddy by the nose yit; but its all av a piece wid this quare counthry,' sez I.

Whin pay day cum on, the masther gev me some rags of paper and some wee bits av silver.

'Whatis this for,' sez I.

'Your wages, Paddy,' sez he. 'Four dollars, one quarter, a york shilling, a dime, half a dime, three cents and a copper,' sez he.

'Oh, glory! what's all that ye say? And what's them four dirty pieces av paper wid pictures on them?' sez I.

'They're dollar bills, Paddy,' sez he, 'and far more valuable than silver,' sez he, laughing.

'Och, thin, jist keep them yerself,' sez I, 'and give me the rale silver or goold; for I'm not such an omadhaun as to dirty me pockets wid thim things.'

But, Katy, asthore, I must concloud this long letter, as I hev to milk the ducks, dut the cows to roost, and the hins in the barn. So no more from yours at present. Adieu'

Yours till death,

PADDY DOYLE.

POST SCRAPE.—Don't show this to me grandmother, or aunt, or Biddy Magee, or anybody else, and excuse bad spelling and writing.

"For when a man cums to Canada he must make up his mind.
To put up with throubles and roughs of every kind.

THE GREAT MYSTERY.—The body is to die, so much is certain. What lies beyond? No one who passes the charmed boundary comes back to tell. The imagination visits the realm of shadows—sent out from some window in the soul over life's restless waters, but wings its way drearily back, with an olive leaf in its beak as a token of emerging life beyond the closely bedding horizon. The great sun comes and flies in the heaven, yet breathes no secrets of the ethereal wilderness; the crescent moon cleaves her nightly passage across the upper deep, but tosses overboard no message, and displays no signals. The sentinel star challenge each other as they walk their nightly rounds, but we catch no syllable of their countersign which gives passage to the heavenly camp. Between this and the other life is a great gulf fixed across which neither eyes nor foot can travel.—The gentle friend, whose eyes we closed in their last sleep long years ago, died with raptures in her wonder-stricken eyes, a smile of ineffable joy upon her lips, and hands folded over a triumphant heart, but her lips were past speech, and intimated nothing of the vision that enthraled her.—"J. C. Holland.

On one occasion Charles Dickens was upholding the theory that whatever trials or difficulties might stand in a man's path, there is always something to be thankful for. "Let me, in proof thereof," said Dickens, "relate a story." Two men were to be hung at Newgate for murder. The morning arrived; the hour approached; the bell of St. Sepulchre began to toll; and the convicts were pinioned; the procession was formed; it advanced to the fatal beam; the ropes were adjusted around the poor men's necks; there were thousands of motley sight-seers of both sexes, of all ages, men, women, and children, in front of the scaffold; when, just at that second of time, a bull which was being driven to Smithfield broke its rope, and charged the mob right and left scattering the people everywhere with its horns; whereupon one of the condemned men turned to his equally unfortunate companion and quietly observed, 'I say, Jack, it's a good thing we ain't in that crowd.'

BEECHER AND SPURGEON.—Mr. Beecher has revised his refusal to receive an increase of salary, and has left the matter in the hands of friends. The trustees have voted an annual stipend of $20,000. This places Mr. Beecher financially at the head of the clerical host. He has probably the largest regular congregation in the land, and except Spurgeon's in the world. The choir of the Plymouth Church, the organ and Sun Jay-school, are in the same gigantic proportions with the congregation. Spurgeon's income is probably larger than Mr. Beecher's. Every seat in his great house is rented, and the entire revenue comes into Spurgeon's hands to be disposed of as he pleases. He pays his own salary, and distributes the rest to advance the cause. Elders and Deacons can only use the funds by applying to the private secretary, and leaving their personal receipt.

AN ACCOMMODATING MINISTERIAL POLITICIAN.—The *Galt Reformer* says:—"Mr. Lewis B. D. LaPierre, the Coalition Candidate in North Brant, is a very accomodating politician. In the first Election Address which he issued (written by the way in Ottawa by the Hon. E. B. Wood, telegraphed to Paris) he had a clause warmly approving of John Sandfield's "Railway Fund" Act and the $1,500,000 appropriation.—Finding that the Electors would not swallow such an unpalatable dose, Lewis deemed it prudent, after his address was printed and issued, to remodel it, expunge the objectionable clause and insert another which was more in consonance with the ideas of the people. This reminds us of the Yankee politician who during an election campaine, his views on one occasion to an unappreciative and unfriendly audience, and seeing in their hostility a slim prospect of his attaining the object of his ambition, he said at the close, "These are my principles, gentlemen, but if they don't suit, they can be altered." Lewis of the aristocratic name is a politician of the same stripe and calibre."

Marshal Bazaine, who is detained by his parole in Cassel, has had his youngest child, which has just been born, baptised on French soil. He sent to France for some baskets full of earth, and had it *spread* on the room in which the *cermeony* was performed.

—An Indianapolis woman recently gave birth to a child during her husband's absence and just before his return the neighbours borrowed two others babies and placed them in the bed with the Little Stranger. When the father asked to see his child the coverlid was turned down, and although he must have been immensely surprised, he coolly turned to his wife and asked, "Did any get away?"

Their is a negro debating society in Bainbridge, Ga., whose last meeting was debated society to the question education or money is the most beneficial to a community. The advocates of education won the prise—$20 in gold—and then followed a row, the unsuccessful competitors lonely demanding, "What de debbildem chaps dat thought money was no counts wanted wid de gold.

An old farmer named Jennison living in Wapello country Iowa, recently came into possession of a legacy of $10,000,000 left him by a relative in England, which it was necessary for him to go after. When he received the news he was shimmering at a barn which he was building. He paused, scratched his head, and finally said; "I don't see how I can go now I've got this barn to finish."

HAVE A PLAN.——Few people follow any definite plan in life. That is why so many came, not almost anywhere, and about as often next to nowhere at all. The fixed purpose, the heroic do-or-die is a spectacle with one in a thousand have no comprehension of.

—The *Post* reports a disturbance on the street in which a citizen of Lindsay was assaulted by a drunken farmer, and with naivette really charming congratulates the assailant upon the fact that the "the constable was not around" or else he would not have got off so easy. Who ever heard of a constable that was 'around' when wanted.

An Honest Rumseller's Advertisement.

Friends and neighbors.—Grateful for the liberal encouragement received from you, and having supplied my shop and tavern with a new and ample stock of choice Wines, Spirits, and Malt Liquors, I thankfully inform you that I continue to make drunkards, paupers and beggars, for the sober, industrious and respectable community to support. My liquors may incite you to riot, robbery and blood and will certainly diminish your comfort, augment your expenses, and shorten your lives. I confidently recommend them as sure to multiply fatal accidents and distressing diseases, and likely to render these incurable. They will agreeably deprive some of life, and some of reason, and many of character, and all of peace, will make fathers fiends, wives widows, mothers cruel, children orphans, and all poor. I will train the young to ignorance, dissipation, infidelity, lowdness, and every vice, corrupt the ministers of religion, instruct the gospel, defile the church, and cause as much temporal and eternal death as I can. I will also accommodate the public; it may be at the cost of my never-dying soul. I have a family to support, the trade pays and the public encourage it. I have a character from the magistrate; my traffic is lawful; some Christians countenance it! And if I do not bring these evils upon you somebody else will, I know the Bible says, "Thou shalt not kill," pronounces a "Woe unto him that giveth his neighbor drink," and enjoins me not to "put a stumbling block in a brother's way." I also read that "no drunkard shall inherit the kingdom of God," and I cannot expect the drunkard-maker without repentance, to share a better fate; but I wish a lazy living and have deliberately resolved to gather the wages of iniquity and fatten on the ruin of my species! I shall, therefore, carry on my trade with energy and do my best to diminish the wealth of the nation, impair the health of the people, and endanger the safety of the State. As my traffic flourishes in proportion to your ignorance and sensuality, I'll do my utmost to prevent you intellectual elevation, moral purity, social happiness, and enternal welfare! Should you doubt my ability I refer you to the pawn-shop, the poor-house, the police-court, the hospital, the jail, and the gallows, where so many of my customers have gone. The sight of them will satisfy you that I do what I promise. I teach the old and young to drink; and charge only for the materials—a very few lessons will be sufficient. It is true the Sacred Scriptures teach that rulers should not drink wine or strong drink, "Let they drink and forgot the law and prevent the judgment of any." But I will make senators and statesment sots, and so influence the legislation of the whole country as to thoroughly legalize my business. Moreover, I belong to the Association which have declared by resolution to support no man for office who is not opposed to all temperance and Sunday laws." God's law is nothing to me when it stands in the way of my business. It is my intention to have all the caucuses, convention and elections, held at my saloon; so that respectable people will not attend the primary public meetings. Drunkards and license men will be thereby be nominated for all important offices, ministers and all Christian men will be compelled to come to my den and vote for them. By this means I shall also so far keep control of the secular press as to prevent political editors from doing me any harm, and even make it necessary for good people to sustain such journals because they are the organs of political parties. The principal thing I have to fear is a movement, which is now much talked of among earnest temperance people, to organize a political party for the purpose of effectually prohibiting my business. This is horrible! But a conclave, composed of informals, members of the whiskey ring, some foxy old politicans, and a few policy temperance men, must be held to prevent this danger to our craft.

Yours, in Friendship and Truth,

JUDAS HEARTLESS.

THE THRONE OF FRANCE.—Two hundred years have elapsed since a son succeeded his father on the throne of France. It was in 1643 that Louis XIV. succeeded his father. Louis XVI. grandson of Louis XIV., succeeded in 1715; and he, in turn, was succeeded in 1774 by a grandson, Louis XIV., who fell on the scaffold (with also in the same year, his Queen, married Antoinette) Louis XVII., titular King, remained in prison after the death of his parent, and there perished miserably at the age of 10. Napoleon Bonaparte died in bonds and exile, no son of his succeeding. Louis XVIII., brother of Louis XVI., was placed on the throne by the events of 1814—slipped off after Elba—and slipped back again after Waterloo. On his death in 1824, his brother, Charles P., ascended the throne, and reigned till 1830. Then came the Citizen King, Louis, Philippe (descended from a younger brother of XIV.), who survived seven assaults on his life; and went off in an open boat in 1848, as "William Smith."

King William, of Prussia, is not lavish on personal apparel. His valet recently gave him a hint by substituting a new coat for one which he had worn two or three years longer than they ought, and was thereupon summoned to the royal presence.

"Where is my old coat, Jean?"

"I have taken it away, your majesty; it is no longer fit to be worn."

"What are you going to do with it, Jean?"

"I believe I am going to sell it?"

"How much do you think you will get for it?"

That was hard to answer, for no old clo Jew in the world have given a shilling for it. Jean therefore hesitated a moment, and then answered:

"I believe I shell get about a dollar for it, your majesty."

The King took his pocket-book from the table, and opened it, and handed Jean a dollar.

"Here is your dollar, Jean," said he, that coat is so comfortable; bring it back, I want it yet."

New York papers say the leading houses in that city purpose to adandon the "drummer" system, and spend the money in more extensive advertising.

The farmers in the U. States annually expend $20,000,000 in Reaping and Mowing machines. The annual production is now estimated at about 125,000 machines.

The great bell on Notre Dame, Montreal, is the largest but one in the world. It weighs over 10,500 pounds, and can be heard 40 miles.

A country clergyman says he has married but one couple in a year; and that they paid him nothing, stayed to dinner, as it was a rainy day, and borrowed his umbrella when they left.

An old stable-keeper in England says he has never had a bad foot on his horses since he commenced the practice of bedding on a thick layer of sawdust. Pine sawdust he finds the best; oak the worst.

The Suez Canal.

From a return which has recently been published we learn that during the year 1870 four hundred and ninety-one vessels passed through the canal. Of these 374 were British, 74 French, 26 Austrian, 18 Ottoman, 10

NOW IS THE TIME!

SPECIAL ATTENTION IS INVITED TO HIS

NEW STOCK OF GOLD ROOM PAPER AND BORDERINGS.

Just received direct from England. He will sell these papers less, by 25 per cent, than they can be bought in Toronto.

Peterborough, April 5th, 1871. 14

CHANGE OF BUSINESS.

—0—

NEW FIRM!

—0—

The Subscribers respectfully beg leave to announce that they have commenced the business of

General Dry Goods Merchants,

In the Premises lately occupied by Mr. Cluxton, at the

SIGN OF THE GOLDEN FLEECE!

They are now Receiving their FIRST NEW STOCK of

Staple and Fancy Dry Goods

MILLINERY, MANTLES, &c.,

Which they have purchased under most favorable circumstances; goods being much Cheaper at the present time than they have been during the past seven years, and indeed, fully as cheap as they were in the markets before the American war. It is their determination to do a lively business, in fact, to "keep the ball rolling," by putting on *Light Profits*, and keeping

FRESH AND FASHIONABLE GOODS,

They wish to conduct their business upon the same principles on which it has hitherto been carried on ie these premises, viz.:—"Even Justice to all," and they hope to be able, not only, to retain the old friends of the establishment, but to add to the number.

Their business will be conducted upon the Cash System, but in the few instances where Credit may be required, the accounts will be made out quarterly, when if not paid, interest at the rate of 7 per cent will be added.

They will keep no trashy goods, but will endeavor to retain the good name of the old establishment, by keeping a good article at a moderate price.

They now beg respectfully to solicit the patronage of the public.

CLUXTON, HENDERSON & CLUXTON.

Peterboro, March, 1871. 13:3in

GIVING UP BUSINESS.

—0—

The Subscriber having sold his stock in trade to

MESSRS. McKEE & DAVIDSON,

And being about to retire from business, begs to return his sincere thanks to his numerous friends for their liberal patronage during the last Ten Years. He would also respectfully solicit the Continuance of the same for his successors, who will, no doubt, treat their customers honorably, and be prepared to supply them with every article in their line at moderate prices.

R. HAMILTON.

Peterboro, March 20, 1871

—0—

In reference to the above, we beg to announce to the public generally that we have purchased Mr. R. HAMILTON'S entire

Stock of Hardware,

And will carry on the business in all its branches in his old stand, at the "Sign of the Circular Saw" George Street. We are also receiving large additions of New Goods, consisting of

Shelf and Heavy Hardware, Paints, Oils, Glass,

Agricultural Implements, &c.

We are prepared to deal with customers on liberal terms. An Inspection of our stock is respectfully solicited.

McKEE & DAVIDSON.

Peterboro, April 5th, 1870. 14

LOST!

A PROMISSORY NOTE for $108, made by Matthew McIsaac, payable to William Clark, or bearer, dated 3rd of April, 1865, or thereabouts, was lost on Saturday, either in Peterborough Town, or on the way from Peterboro to my residence in North Monaghan. All persons are forbidden to negotiate or purchase the said note. The finder will be suitably rewarded upon returning it to me.

WILLIAM CLARK.

North Monaghan, April 3rd, 1871. 14-3in

PIANOS, MELODEONS, ORGANS

D. PENTLAND,

is now Agent for A. & S. Norheimer for the sale of the following celebrated Pianos:—

Chickering & Sons'; Sieiway & Sons'; Dunham & Son's; Haines Brothers'; Ernest Gabler; and J. W. Yose's.

Also, for the *world-wide Celebrated* Organs and Melodeons—Geo. A. Prince & Co., Buffalo! Mason & Hamlin's, Boston.

Instruction Books for Piano & Organ, Sheet Music, &c. always on hand.

REFERENCES.—Mr. F Bell, Organist, St. John's Church, eterboro; Mr. D. D. Galletly, Chorister, Canada Presbyterian Church, Peterboro; Mr. J. I. Davidson, Precentor, St. Andrew's Church, Peterboro; Dr. Taylor, Peterboro.

PETERBOROUGH, APRIL 6TH, 1871.

Editorial Items.

It is supposed that the Dominion parliament will be be prorogued by Wednesday.

The New School Act has been in force ever since the assent of the Lieut-Governor was given to it.

The Council of Ashburnham have provided a Map of the Village according to surveys and plans registered. At the last meeting the 15th day of May was appointed for the Court of Revision to sit.

The Dominion Government have taken off the duty of five cents on wheat. This will at present, seriously affect those who have wheat on hand, Why did they not give time, say to August, or even to June to allow it to be removed?

BOYS BEWARE.—A lad named Morrissey we believe, was put in Jail yesterday for breaking a lock and taking some pigs out of the Ashburnham pound. A man who should have known better, rescued another lot of hogs just as they were entering the door of the pound.

MAPLE LEAF CRICKET CLUB.—A meeting of this club will take place on Monday Evening, the 10th instant, at Mr. George Johnston's Shop, Water Street, at 8 o'clock p.m., when the election of officers and other important business, will come before the meeting. A full attendance requested.

EASTER BEEF.—Mr. Coe of Ashburnham has a very fine show of Beef for Easter season. In addition to his usually well filled stalls, he has procured some of the best mutton, lamb and veal in the County. One beef fed by Mr. Curtis of Douro, weighs no less than 1650 lbs. He has also a fat ox of no mean weight. The Citizens of the Village will therefore know where to obtain a good roast for the Holidays.

The ladies committee of the Protestant Home beg to acknowledge with thanks the following donations for March:—Mr. White, a piece of Beef; Mr. Lendrum, 3 large fish; Mrs. Wallis, a quantity of veal; Mrs. Tompson, preserves for the sick; Mrs. Kempt, preserves &c; Mr. Winch, a cows head; Mrs. J. Hall, a parcel of pieces; Mrs. White, clothing; Mrs. Smith, fresh pork; Miss. Patton, Maple Molasses.

A Bill has been introduced at Ottawa to provide for boting by ballot. It will hardly get three readings this session. The country is not yet prepared for it. But if the state of excitement manifested by some of the electors, towards others who differed from them, and recorded their vote should long continue, as it has been manifested. The ballot may be necessary to restrain those feelings, and to to prevent them from producing the fruit of ill-will and enmity towards neighbors.

CRICKET.—We understand that the members of the Peterborough Cricket Club are early and actively at work. A meeting of this club was held at Turver's Hotel, on tuesday evening, and judging from the number present and the interest manifested, we may expect a prosperous season for the club. After the election of the officers other business of importance was transacted. Measures were taken to secure the ground and a committee appointed to put it in a good condition for use. The club proposes opening the cricket season with a foreign match and it is their intention (following the example of other clubs) to make a small charge for admission to the grounds at all matches, as the expense of keeping up the club falls very heavily upon the members. The following are the officers for this season:—C. J. Bloomfield, President; Wm. Wrighton Vice President; Mr. Nesbit, Secretary and Treaserer, Fredrick C. Taylor, D. McDougall and A. Colville, managing committee; Theodore Clementi, captain.

Railway Meeting.

As announced in last week's issue, a meeting was held in the Music Hall, on Thursday evening last. The Hall was filled. The Mayor occupied the Chair, and D. W. Dumble, Esq., acted as Secretary.

A Delegation from Cobourg, consisting of J. D. Armour, Esq., County Crown Attorney; Wm. Kerr, Esq., Mayor of Cobourg, Wm. Jex, Councillor, Doctor Beatty, Mr. Gifford and John Fowler, were present.

Messrs. S. S. Peck, Reeve of Minden, F. Peck, Reeve of Snowdon, J. Hunter, Reeve of Galway, and Mr. Mason of Minden were present as a deputation from the back Townships on Railway matters.

John Fowler, Esq., was called upon to explain the Railway Scheme. Mr. Fowler read an arrangement proposed to be entered into between himself and the C. P. & M. R. & M. Co,—and a resolution from the Cobourg Council declared their willingness to grant reasonable bonuses. Mr. Fowler declared that he would not ask Peterboro for any aid towards building the road to Peterboro, but he wanted to get the benefit of the Haliburton and Peterboro Charter, as his object was not only to get the Cobourg Railway to Peterboro but to Bobcaygeon. His view was that ultimately the road would extend to French River, to top the Canada Pacific Railway. Mr. Fowler wished to know if the Haliburton Company would open their Stock Books and allow Stock to be taken, that the Charter might be made available. He was willing to subscribe $50,000 of stock, pay in his money and build the Railway.

Mr. Kerr, Mayor of Cobourg, was then called upon, and ably advocated the duty of the people of Cobourg and Peterborough to unite in this Railway scheme.

Mr. J. D. Armour, then addressed the meeting. He said the C. P. & M. R. & M. Co. would fill in the Lake for $50,000, say $15,000 from Peterburo, $5,000 from Ashburnham, and 30,000 from Otonabee. He stated as a fact that the Midland Railway Co. gave the Cobourg Co. $17,000 for witholding for one year from building the Railway to Peterborough, but not until Peterboro refused to do anything to resuscitate the road.

Mr. Bloomfield said as Mr, Fowler had not consulted the Provisional Directors of the Haliburton Company he had nothing to say at present.

Mr. Peck, Reeve of Minden, addressed the meeting, to the same effect. He was in favor of the road being proceeded with, according to the By-laws already passed, granting bonuses to the Haliburton Road, but as to the amalgamation with the Cobourg road, and the route by Bobcaygeon, he could say little till the meeting of directors.

Mr, Carnegie said they would have a meeting to-morrow when the matter would be discussed, and they would then be in a position to know what course to pursue.

Mr. Cluxton referred to the injuries done to Peterboro by Cobourg, and of the low tariffs of the Midland Railway.

Mr. Deanistoun took objection to Mr. Armour's remarks, which remarks appeared to infer that Cobourg had not acted wisely in making certain arrangement with the P. H. R.

Mr. Fairbairn also spoke in favour of the Extension, but was not prepared to advocate or oppose the Cobourg Road, He was in favor of Railway improvements Northward, and believed the people of the town were in favor of aiding in the work.

A. H. Campbell, Esq., and D. W. Dumble, Esq., followed, advocating the opening of the Cobourg, roadand also extending the road to Mud Lake and Bobcaygeon, but at least to the Lakes.

Mr. Dumble believed the opening of the Cobourg Road would largely benefit Peterborough, and in connection with the road to Bobcaygeon would increase the trade of Peterborough, while it would by extension to Haliburton serve the back country. He was in favor of the extension by way of Bobcaygeon because he believed it would be most in the interest of the town.

The following resolution was then put and unanimously carried.

Moved by Mr. Campbell, seconded by Mr. W. A. Scott,—That in the opinion of this meeting it is exceedingly desirable to obtain the re-opening of the Cobourg and Peterborough Railway to Peterborough.

On Friday evening there was a meeting of the Provisional Directors of the Peterboro and Haliburton R. R. Co'y, at which the President and Messrs. Stevenson, Read. Williams, S. S. Peck and F. Beamish were present.

We were not present during the whole meeting, but understand that the principal discussion was as to the wisdom of going direct to Bobcaygeon and thence to Haliburton, or by Buckhorn thence to Nogie's Creek and Haliburton. To go by Bobcaygeon it was held would deprive the Company of the bonuses already voted, and would therefore delay the work, if not eventually remove the hope of it altogether. That it would also be of less advantage to the Township of Harvey, and that the delay would endanger obtaining aid from the Government, as before the commencement of the work, the money would in all probability be divided. Others believed that the direct route by way of Bobcaygeon would be most advantageous to the Town, and even to the whole County, while it could be as easily secured and completed.

It was finally agreed that the regular notice be given, and Stock Books opened, and the Company organized.

Railway Extension.

The subject of re-opening the Cobourg Railway, and of extending it to Mud Lake and Bobcaygeon in connection with the Peterboro and Haliburton Railway, has been brought before the people of Peterboro, by Mr. Fowler, and now with some hopes of succeeding. The Cobourg people are fully alive to the necessity of the work —and are prepared to aid largely to ensure it. The great obstacle to be overcome is "filling in Rice Lake" so as to have a lasting road. The Cobourg and Marmora Company are prepared to fill in the lake for a moderate sum—say about $50,000, and then to open the road to this Town—while Mr. Fowler is prepared to take $50,000 in the portion to Bobcaygeon. Already $40,000 has been granted by the Town towards building this road to Mud-Lake, and it is believed by many that the Ratepayers are prepared to vote a large bonus and ensure the re-opening of the Cobourg road and an extension to Bobcaygeon; $80,000 would be well spent, provided it be granted at once, and the work be commenced immediately. There are already several schemes of railway directed towards the back country. One from Bowmanville and one from Toronto—also the idea of a branch of the Midland Road from Omemee. Any one of these would if completed cut us off, and snatch from us, the trade of even our own county. It may be a matter for serious consideration, whether the route be by Buckhorn or Bobcaygeon; but there can be no two opinions on the necessity to have a road to the back country—as soon as possible.

A public meeting should be called and the views of the people ascertained. Of course no railway can be built without money—hence the money consideration is the very first thing. Then, are we to have one road or two the front. The Grand Junction people are coquetting with the Midland people to cut Peterboro off—shall we be left at their mercy while another scheme just as advantageous to Peterboro is within our reach? The voice of the meeting on Thursday evening last was unanimous on the question of reviving the Cobourg road, as well as in favor of the road northwards. In a short time they will be again called upon for an opinion as regards route and bonuses—and it is but fair that they be made aware of the questions at issue in all their bearings.

To go by Buckhorn would open up a portion of Harvey, that the route by Bobcaygeon would not. But the Bobcaygeon route would ensure a more extensive trade, and would tend to prevent rival railway, cutting off the trade of the rear of the county.

The cost of construction would be nearly the same if not entirely so, by either routes. It is all therefore a question of trade, or of opening up the country in our rear—and at present the Bobcaygeon route appears to be the one best calculated to meet the wants of the people of the Town. To the people north of Bobcaygeon—the matter of route can be of little moment provided they get the road and soon.

—Archbishop Spalding appeals to the Catholic clergy and laity of the diocese of Baltimore for financial aid for Pope Pius, and suggests that the ladies devote one-half of their superfluous jewelry, ornaments, and expenses, to the support of the Pope

Whither are we Drifting.

The Dominion Parliament—but especially the Ministerial party—appear to have become reckless in the extreme. In order to consummate the blessing of confederation, they are determined to make the people pay for their whistle pretty dearly. In the case of the Nova Scotia arrangements with Mr. Howe, the terms of the union were much endangered. It was universally felt that if the Act of Confederation could be set at nought, there was no knowing whether the ship of state might drift. The strongest arguments were used against the course pursued by the Ottawa Government, but were used in vain.

Mr. How cried annexation! Annexation! Annexation! Speeches were made, and letters written, which so frightened, or worked upon the minds of Cartier & Co., that even an act of the Imperial Parliament was no barrier in the way of appeasing the greedy Mr. Howe.

Now at the close of four years, British Columbia asks to be admitted in the union and proposes her terms. The union was, and is, desired by all the people of Canada, but only on somewhat of a fair and honest basis. In the whole province there are but a few thousand whites, the remainder are Indians in a savage state, altogether about 60,000.

The annexation cry is again got up. If Canada does not do something beyond conception, says Mons. Cartier, they will join the United States: while the people of the Colony have never yet thought of such a thing. Canadians, at Ottawa, are found who know all about this sort of thing and know how to work it.

Now what are the terms of the union of this little province of 60,000 people, not equal in all to the population of Toronto, and the white population of which does not exceed that of the Town of Peterboro.

The price to be paid by the people of Canada, is no less than $100,000,000, and a subsidy afterwards yearly of $1,250,000. The road is to be built in ten years, if ministers are to be believed. For the right of way through British Columbia, the Dominion Government are to give $100,000 a year. Sixty millions acres of land are to be given on the line of the road. The strongest protests have been offered against thus doubling the debt of the Dominion. It is already $127,000,000 it is believed: To increase, to $227,000,000 entailing a yearly interest of $15,800,000, if not $20,000,000 will force Canadians to cross the lines to get into a country where taxes will not be so oppressive. Mr. Blake, Mr. McKenzie, Mr. Galt, and several other members moved amendments calculated to prevent the outlay until the finances would warrant it, but against all these the government used most strenuous opposition, and our members, Messrs. Grover and Perry, assisted them.

By their aid the debt of the Dominion is doubled in a moment, and the annual expenses of the country more than doubled, as a subsidy of $1,250,000 a year has to be given to keep the road, when built, running. Whither are we drifting?

It does really appear that Messrs. Cartier & Co are determined to force Canadians into annexation. At present, the debt of British Columbia is $20 per head, of the population, and it is reckoned that, if the terms proposed in reference to British Columbia, be carried out, the debt of the Dominion will be so increased as to more than equal the American war debt.

Will the country bear it long? Can the ministry not see that this last act of their's is calculated to force people to leave the country, to go quietly south of the lines, and get rid of such unheard of Legislation.

British Columbia.

After a lengthy debate in which nearly all the prominent members of the House of Commons took part, an address to Her Majesty has been passed praying her to cause the admission of British Columbia to the Dominion, under certain conditions.—These conditions are:—

First—That Canada shall pay to British Columbia a subsidy of 80 cents per head of its present estimated population, including Indians and Chinese.

Second—That pensions be granted to the retiring public officers.

Third—That British Columbia shall until a Railway be built connecting her with Canada be at liberty to continue her present tariff or adopt that of Canada, at her option, and lastly—"The Government of the Dominion undertake to secure the commencement simultaneously within two years from the date of the Union of the construction of a Railway from the Pacific towards the Rocky Mountains, and from such point as may be selected East of the Rocky Mountains, towards the Pacific, to connect the Sea-board of British Columbia with the Railway System of Canada; and further to secure the completion of such Railway within ten years from the date of Union." Canada and British Columbia to grant lands in aid of the Railway, the latter receiving for such grant $10,000 per year from the Dominion.

Sir George Cartier in introducing the resolution said that the proposed grant of sixty-four million acres, of which he had reason to know the Ontario Government would grant nine millions. The land grant would be supplemented by a money grant of a sufficient amount to secure the completion of the road. What that amount would be the Government did not appear to have fully considered, but Sir Francis Hincks estimated it roughly at from a million to a million and a quarter of dollars a year, a mere flea bite to a wealthy Dominion like ours.

Such are the terms upon which British Columbia is to be admitted to the Dominion. It is small wonder that the scheme was opposed most vigorously by the members of the Opposition, the only wonder is that so many men supposed to have the interest of their constituents at heart and supposed to represent fairly the intelligence of the country could be brought to vote for it. The amendment moved by Mr. McKenzie "That this House while willing to give its best consideration to any reasonable terms of union with British Columbia are of opinion that the terms embodied in the said address are so unreasonable and so unjust to Canada that this House should not agree thereto," commends itself to all thinking men in our Country.

The Government wished indeed to make their supporters believe that even after passing the address it was still in the power of the House to say whether the scheme should be carried out or not, but we think that every honest right thinking man in the Dominion will concur in the remarks of Mr. Blake in this most immoral doctrine. The men who would vote for the proposition "with the secret intention not to sink the last dollar if necessary to fulfil the obligation thus contracted, were dishonest men. If the obligation be now incurred then we would be bound to fulfil it at whatever sacrifice. If we were not prepared to do this, then we were not worthy to have national existence, and national existence would not be worth having."

If the men at the head of our government were actuated to a greater extent by such principles as these we should have far less of the reckless and vicious legislation that has disgraced the sittings of both the Dominion and Local Assemblies.

The address has passed the Commons and is now before the Senate who will no doubt also pass it, so that we may say that our young Dominion with its population of four millions is morally bound to build within ten years from the first of July next a Railway which will cost at the lowest estimate one hundred millions of dollars, and which may cost two hundred and fifty millions; through a country uninhabited and in great part uninhabitable; and at all events altogether unknown in character and capacity. A Railway which will require $8,000,000 a year at the least to pay running expenses, and all to reach a country barren and desolate in the extreme, and containing at the present moment only 12,000 white inhabitants.

We notice amongst the names of those who voted for this atrocious measure, those of both the Members for this County. We hear that neither of them intends to return to Parliament. It is probably as well.—With that vote on their consciences they could scarcely face the honest and industrious yeomanry whose hard won earnings they thus vote to throw away among the rugged depths of the Rocky Mountains.

The following communications have appeared in the Halifax papers and it time which is generally belived they show the desperate means resorted to in order to retain office and influence:

(By Telegraph to the Globe.)

Halifax, N. S., April 3.

An immense sensation has been caused by the appearance of the following letter in the *Chronicle* this morning:—

Halifax, April 1, 1871.

Mr. Editor.—DEAR SIR.—I feel it my duty to call the attention of the public to an outrageous and infamous attempt made by the Dominion Government, through their agents in Halifax, to tamper with one of the oldest members of the Legislative Council. On Thursday evening 30th March, about nine o'clock, Dr. Wickwire, a person of whom I know very little, except that he has certainly proved himself anything but a gentleman, called at the residence of my father, the Hon. James McNab, and desired to see me, stating that if the Hon. James McNab could be persuaded to remain at home when the government wished to pass their measure through the council a lucrative Dominion appointment should be given to me. I was astonished at this person's audacity, but determined to see to what extent his impudence would carry him, I made appointment with him for the following morning. Meanwhile I had the matter before my father, who was almost speechless with indignation at the idea of such an atrocious insult being offered him. After consulting with my friends, it was agreed that I should keep the appointment with Dr. Wickwire, in order that I might, if possible, ascertain from whom the disgraceful offer emanated and circumvent the outrageous and disreputable plans for carrying the coming elections by bribery and fraud, to the utter ruin of the political liberty of the Province. Subsequently the following documents were handed to me, which speak for themselves, and which I hasten to lay before the public as soon as possible.—

No. 1.

Ottawa, 31st March, 1871.

To Dr. W. N. Wickwire:

Your telegram received. Anything I will engage, to do I will carry out.

(Signed), CHARLES TUPPER.

No. 2.

Halifax, March, 1871.

DEAR SIR.—I will guarantee you a situation under the Dominion Government in Halifax, worth, at least, seven hundred dollars per annum, if you will carry out the arrangements which you and Dr. Wickwire have arranged.

(Signed), M. B. DALY.

PETER MCNAB Esq.

No. 3.

1ST APRIL, 1871.

MY DEAR SIR,—The telegram from Dr. Tupper to Dr. Wickwire has just been shown to us, in which Dr. Tupper states that he will carry out any arrangements made by Mr. Hill with you. Mr. Hill is just now absent from the city, but Mr. Daly, we understand, arranges the matter referred to with you for Mr Hill. We hereby undertake that Mr. Hill immediately on his return will ratify any agreement Mr. Daly shall make with you.

Yours truly,

D. MCN. PARKER,
JAS. MCDONALD,

MR. PETER MCNAB,

Now, Mr. Editor, I ask you and the people of this Province whether there is no remedy for this disgraceful attempt at bribery, and whether the miscreants cannot be punished. Here I must apologise to you if I am compelled to make use of strong language. Is this ill-bred, corrupt man, Tupper, because he happens to be among the upper political ten of the Dominion, to be permitted to play his game of roguery with impunity? Of D. McN. Parker I have nothing further to say than that he has hitherto borne a reputation for honesty and morality, but his signature to the above document speaks for itself, and the government will no doubt ignominiously expel him from his seat in the Council. Of the Hon. so-called James McDonald, who is a comparative stranger in Halifax, I know nothing further than that the ignorance he displayed upon a recent public occasion at the Temperance Hall, has made him the laughing stock of the community. Of the other two compromised by, and implicated in this nefarious transaction, Mr. P. C. Hill and Mr. B. Daly—the former has just been dismissed from the House of Assembly charged with bribery—the latter is too little known and too insignificant to be worthy of special notice. These five persons then, Mr. Editor, are the parties most implicated in this vile affair, and I leave the public to make their own comments on the facts, warning my countrymen that if they do not return men pledged to direct antagonism to the corruptionists of the Dominion at the coming election, the little political liberty remaining to us poor Nova Scotians, must be taken away for ever. I regret, Mr. Editor, if I have been compelled to use harsh language in this letter. It took some moral courage, situated as I am, to bring this diabolical and outregeous insult to an old tried and respected Legislator to the notice of the public. The originals of the document, framed and glazed, will be exhibited early next week in the window of a prominent shop in Granville street. It is well known that I never took any part in politics, and I have no wish to do so now.

(Signed)

PETER MCNABB.

The measure referred to was the Bill to disfranchise Dominion Officers, which depended on a vote or two in the Council.—Dr. Tupper, the people of Canada know well. Dr. Wickwire was his professional partner Mr. Hill and Mr. Daly are two of the so-called Union candidates for Halifax at the Local election. Mr. Parker is a Legislative Councillor, and a most intimate friend of Dr. Tupper. Mr. McDonald was a member of the Tupper Government, and is Chairman of the Halifax election committee.

THE OTHER SIDE.

HALIFAX, April 3.

The evening papers contain the other side of the McNab story.

Dr. Wickwire publishes an affidavit that Peter McNab has long been an applicant for a Dominion office, that he represented to him (Wickwire) that his father was desirous of voting against the Government, but Mr. Annand was attempting to influence him the other way and had offered as an inducement, to give Peter an office worth $600 a year, but if a Dominion office were given him, his father would not be influenced by the local offer. Under these circumstances, he (Wickwire), to assist Peter McNab, and to relieve his father from the undue influence, and not to bribe anybody, applied to Dr. Tupper for an office and then the correspondence ensued. Walter MacFarlane publishes an affidavit that Peter McNab told him he was offered a local office to influence his father, but intended accepting a Dominion office in preference. M. B. Daly and James Macdonald publish letters to the same effect, asserting that the negotiation was not to bribe James McNab, but to relieve him from the undu influence of Mr. Annand.

The general impression is that Peter McNab's story looks truest, and that, though his conduct may be dishonourable, that does not affect the real merits of the case.

Prince Edward's Island.

The following statistics of the Province of Prince Edward's Island are taken from the *Patriot*, a semi-weekly paper published in Charlottetown:

The house transacted little business of importance on Monday. Mr. McMillan asked what action the Government had taken or intended to take respecting Beech Point Wharf, as also the contemplated road from Linkletter to Summerside, upon which two commissioners had already reported. Mr. Pope said the matters referred to would receive due consideration. A bill to consolidate the License Laws was also introduced, and read a first time. A short discussion also took place on the Vaccination Act, which it is proposed to amend so as to save a portion of the money expended now under this enactment. Correspondence between the Colonial Minister and the late Government on the Fisheries, was also laid on the table. It appears that in March, 1870, the Montreal *Herald* published an editorial on this subject, which was afterwards reproduced in the *Canada Gazette*, London. The object of the article was to make it appear that this Island not only gave the Americans exceptional privileges, but threw open our fisheries to them. A minute of Council forwarded to Downing Street, and with which Earl Granville expressed himself satisfied, pronounces the statements of the *Herald* to be untrue. By the Auditors' Report the debt of the Colony is now £158,534, the expenditure for last year being £105,994, of which £19,217 were for education; £1,873 for the Lunatic Asylum, Inquests and boards of health; £936 for Stock Farm and Exhibition; £2,018 for defences; £1,903 for Paupers, Indians and Poor House; £3,149 for Steam Service; £590 for Winter Mails, and £3,757 for Inland Mails, £4,933 for Legislation; £1,636 for public printing; £11,962 for interest on public debt; £1,959 for Excise service; £518 for Lighthouses; £203 for Jails and £2,431 for Supreme Court, besides £25,678 expended by the Board of Works. The total receipts at the Treasury were £93,345 of which £59,114 were from Impost and Excise duties. The income from the Land office—£4,000 more than 1859—was £12,029, and the expenditure £13,731, including £7,400 paid for Lot One.

The principal imports are of:—

Tea	424,418 lbs
Sugar, refined	40,236 "
Sugar, raw	8,638 cwt.
Tobacco, manufactured	77,583 lbs.
Tobacco, leaf	91,137 lbs
Sole Leather	108,822 "
Flour	46,586 "
Bread	156,395 "
Molasses	183,567 gals
Spirits	47,968 "
Brandy	9,827 "
Gin	23,940 "
Whiskey	10,086 "
Wines	4,156 "
Ale and Porter	4,667 "
Spirits from Grain	5,923 "
Spirits from Molasses	1,240 "
Spirits from Potatoes	468 "
Kerosene	69,295 "

Showing a considerable increase in Tea, Sugar, Molasses, manufactured Tobacco, Kerosene and ardent spirits. (4000 gallons.) As compared with 1869, the quantity—7,630 gallons—of homemade spirits, is exceedingly small for all our Island distilleries and breweries.

The whole Island consists of three counties, containing about 80,000 inhabitants. The province therefore, is not very large. Their Government, and Independence from Dominion influence cost them no small sum. Yet they seem to be satisfied to remain as they are, rather than become a portion of the confederation.

Putting on the Screw.

Mr. Blake called attention to the gross dereliction of duty on the part of Mr. Daly, a Census Commissioner, at a recent election. He tried to induce one of Census enumerators to vote for the gentleman called, the Government candidate in the county for which he himself was a candidate, and having failed, he was dismissed from his office.

Hon. Mr. Dunkin denied that any countenance was given to the matter by the Government.

Hon. Mr. Dorion said that was not enough. If the Government had any respect for themselves, they would cause a thorough investigation, and dismissal of the officer if the facts of the case were proved.

Hon. Mr. Huntington said that it should be clearly understood that there must be no middle course in the civil service. Either the doctrine must be acted up to, that to the victors belong the spoils, or the civil servants must retire from political life. He said so in the intrest of the country, and he trusted that the Government would frown down any interference on the part of these men, for so sure as they interfere there would be a temptation to adopt one of the very worst features of the American system.

Hon. Mr Holton said, so far as the Minister of Agriculture went, he could say that he had felt at liberty to make suggestions as to the census enumeration irrespective of politics, and was bound to say his own recommendation had been attended to.

Hon. Mr. Anglin said that he had been treated differently. Report in *Witness*.

A RING OF SATURN GONE.—Popular as well as scientific interest will be excited by the announcement that one of the rings of Saturn, with which the youngest students of astronomy are familiar, has disappeared. The missing ring is the inner one of the three hitherto observed, and the astronomer Struve has been watching for years its approach to the body of the planet, upon which it has now closed like a belt of semi-transparent vapor, its centrifugal force being entirely overcome.

A Scotchman's View of the Royal Marriage.

Fourth daughter of England's potent sire,
Fair child of that mother, we love and admire
Has that Highlander gained both your heart and your hand,
And borne you off from your palace, so grand?
Hail daughter of England's Motherly Queen,
All Scotland awaits thee to welcome thee in,
Like the rays of the sun as he bursts on the morn.,
So thy presence, fair bride of the Marquis of Lorne.
Though the Royal Blood of England flows through her veins,
She has bowed to accept one of Scotland's swains,
Old England, be proud, while all Scotchmen rejoice.
'Tis the man, not the rank, that is Louise's choice.
Why should kings, queens, or princes e'er dare to find fault?
To extinguish true love—which no rank can exalt?
Why enslave the young heart, though in palace they're born?
There's *is* love just as true in the Marquis of Lorne.
True, no title of prince flashes front of his name,
Sterling honour, untarnished, is equal the same.
Though no crown deck his head, nor in truth never shall,
A true faithful husband surpasses them all.
Among heather-clad hills, she has chosen her home,
With her young mountaineer at their pleasure to roam,
May her hopes be unruffled—her joys flow unshorn,
May she live to increase the old proud name of Lorne,
Betwixt English and Scots how mysterious the change!
Their were times when their watchword was death or revenge.
The chief drops his sword: Olden malice has fled:
Scotia's Son, England's Daughter to the alter has led.
May this union prove faithful, causing love to extend,
Till the rose and the thistle harmoniously blend.
Binding Scotia more close to the bold unicorn,
While the star of peace shines in the hall of the Lorne.
Up Lowlanders shout: shout ye Highlanders too
For the Queen's daughter comes to reside among you.
Donald, blow up your bagpipes the sound she well knows.
And welcome your Chief with his English fair Rose.
Could Wallace and Bruce and a Douglas so brave,
Be permitted one glimpse on this side of the grave,
They would stand in amazement, in pride not with scorn,
To behold the Queen's daughter: young lady of Lorne.

WILLIAM TELFORD.

Smith, March 30th, 1871.

The Insurrection in Paris.

(By Cable Telegraph.)

NEW YORK, April 3.—A special correspondent at Paris, April 2nd, telegraphs:—There was a serious engagement this morning between the Government troop and the Communists. About two thousand National Guards marched on Courlevoie, and were met by gendarmes and Gardes Foresteirs. The captain of the latter galloped up waving his cap, inteling to address the Communists when a Zouave with that body shot him dead. A general action followed, in which the gendarmes took five prisoners, one 17 years of age, who were shot immediately. The guns of Fort Valerien swept the road and the Communists fled. Twenty-five insurgents were killed, and many wounded. The engagement was over at one o'clock. The National Guards still hold Porte Millot Battalions of artillery are hurrying up, the rappel is beating, and the ramparts are being manned. The greatest excitemen prevails.

The same correspondent telegraphs from Versailles, April 2nd, evening: A crisis is at hand; two battaries are in motion on the Paris road, and the ambulances are all ready Bismark has given permission for any number of troops to be massed near Paris, and the 15th inst., the germans will enter. This news may be accepted as reliable.

NEW YORK, April 3—The following is an Associated Press despatch received here this a. m.:—

PARIS, Sunday evening, April 2, via London 6 a. m., April 3—Fighting has been going on since yesterday evening at various points. In the Place de la Concorde this morning cannoding was distinctly audible the sound coming from the direction of Neuilly. The fortress of Mont Valerien opened upon the columns of the Nationals, which were marching on Carlevois and kept up a continuous fire for several hours to prevent them from establishing themselves in position. The National were finally compelled to retreat after suffering considerable loss.

A special to the London *Times* says:—The fighting at Courlevoie was sharpe. Reports are conflicting as to which side fired the first shot. The Nationals were at first driven into Courlevoie, where they maintained themselves some time protected by the houses. They were at last shelled out by Fort Valerien and fell back to the bridge at Neuilly, where they kept up a hot fusilade. From this position they were again forced to retire, and finally withdrew into the city and shut the gates. The Versailles troops did not attempt to follow. An estimate probably exaggerated puts the loss of the Nationals at two hundred. The Government troops shot the prisoners as rebels. Popular indignation against the Versailles Government is terrific. The Nationals threaten to attack Versailles.

Other special despatches report that the 74th Regiment of the Line came to Paris on Saturday and fraternized with the Nationals.

London, April 3—A despatch from Versailles to-day says Marshal McMahon has been appointed commander in chief of the French army.

A despatch from Paris this afternoon says the Commune has issued a proclamation couched in the following language:—"Attacked by the Versailles Government we have a mission to protect the city and count upon the aid of the citizens."

There was a continual movement of Communal forces during the night, and a distant cannonade was audible this morning.

The rappel is beating everywhere throughout the city.

London, April 3, 10 p. m.—The Paris Commune have issued a decree arraigning Theirs, Favre, Picard, Dufaure, Simon and Pothuan, before the tribunal of the people and ordering their properties to be seized. Another decree pronounces the separation of Church and state, suppresses the religious bodies and abolishes national property.

NEW YORK, April 3.—A despatch from Montrose, N. Y., says:—"We very luckily missed another Hamburg accident this morning at Sputen Duyvil Creek. On arriving near the bridge the engineer of the Poughkeepsie 7 o'clock special from New York, found the Yonker's special on the track at the depot. The vigilance of the employees stopped the train in running 200 yards, and possibly prevented a frightful loss of life."

It is rumored that a marriage has been arranged between Princess Beatrice and the Marquis of Ely.

Statistical Information.

Criminal statistics of Boston for 1870 are somewhat startling. They show that the somewhat startling. They show that the vice and crime have largely increased under the operation of the modified Prohibitory law. The Superintendent of the City Prison reports the whole number of commitments at the Tombs before 1870, 12,862, nearly a thousand over 1869. Things were bad enough here in 1869, as the result of that License law in 1868. According to the report of the Chief of the Boston Police, "the increase of drunkenness" during the six months, from April to October of 1869, was 1,263 over the corresponding months of 1867, when the Prohibitory Law was quite well enforced. In their report of 1869, the State Board of Charities declared that the commitments were LARGER BY ONE-THIRD than they were under Prohibition." And it was worse yet in this city in 1870. Probably the same is true of the whole State. The worst forms of crimes, too, seem to have increased most largely. For instance, in 1870 here 16 "assaults with intent to kill," while in 1869 there were but 4; gambling, 230 cases against 78 in 1869; idle and dissolute, 106, against 53 in 1869—about double; manslaughter 25 against 5 in 1869; murder, 16 against 8 in 1869. It must be borne in mind that these are commencements to City Tombs.

Sixteen murders in the city of Boston think of that brother Templars? The rumshops were the cause or occasion of every one of them. And these nurseries of murder are among the favored institutions of the city! One murder to each 13,000 of the population! In the same ratio there must have been over 2500 murders in the United States, calling our entire population 40,000,000. Eight thousand one hundred and seventy-two persons arrested for drunkenness. A daily average of 35 commitment to the tombs through the year, 22 of them (over three-fifths) *for drunkenness.*

Our readers will not fail too add the 25 cases of manslaughter to the 16 murders making 43 deaths by violence in this city in 1870. What a record for this Puritan city! Where are the churches? Shall the pulpit be dumb? Shall rumselling continue to be a favorite business? Not more than three of these violent deaths occured without sin. The liquor shops caused 40 violent deaths. If there were an equal number of violent deaths in every other part of the country the whole number would have amounted to 6500:more than were slain in some of the great battle of Europe: What will the end be?

One part of this statistical report speaks volumes against the City Government of last year. It is this—only one liquor nuisance was complained of. Why was this one singled out? Was the proprietor a sinner above all other rumsellers? Who was he? Did the more than eight thousand drunkards *arrested* buy there liquor at his bar? Did he craze the brain of the sixteen murderers? Or did he refuse to sell tippling city officials their "toddy," and thus incur their displeasure. This is not the fault of the police. Shame on a faithless City Government.

Evils of Moderate Drinking.

Dr. Jackson says in "Laws of Life," under the above heading:

"A person whose blood has been poisoned by little drinks of alchohol, till it has become nigh like fermented grape juice, dies as truly by thy effects of that poison as though he drank a quart a day. Meanwhile the death process is going on, he is able to be about, attend to all his business, perform after a fashion the office of husband and father, and feels himself quite well for any official duty, whether civil, religious or political which his fellows may have conferred upon him; he reasons with measureable clearness, shows a fairness of judgement, considers himself, and is considerd by others, as quite competent to the duties of his station. His doom, however, is sealed. He is a modern Damocles taking a dinner with a Dyonysius,—over his head is the keen drawn sword of death suspended by a single hair, giving warning on his danger of which he takes no notice, till at length the weapon fall, the stroke come, and God, in the plentitude of his justice, stands avenged.

A very large proportion of all the deadly diseases which afflict our people, have their origin in the moderate use of alcoholic liquors, in connection with the moderate, or immoderate use of tobacco. These two, with American men go together; and in order that they shall show destructive and deadly effects, it is not needful that their victims should, by debauchery and outrageous dissipation, violate the constancies of life. *Let the moderate drinker of* alcoholic liquors beware. He is going to his grave prematurely from the effect of the liquor he drinks, none the less surely than his more riotous companions."

Nineveh was fourteen miles long, eight wide, and forty miles round, with a wall 100 feet high, and thick enough for three chariots abreast. Babylon was fifty miles within the walls, which were 75 feet thick and 100 high with 700 brazen gates. The temple of Diana, at Ephesus, was 420 feet to the support of the roof. It was a hundred years in building. The largest of the pyramids is 481 feet high and 653 on the sides; its base covers eleven acres. The stones are about sixty feet in length and the layers are 208. It employed 330,000 men in building. The labyrinth in Egypt contains 300 chambers and twelve halls. Thebes, in Egypt, presents ruins twenty-soxou miles round. Athens was twenty-gve miles round, and contained 358,000 citizens and 400 slaves. The Temple of Delphes was so rich in donations that it was plundered of fifty millions of dollars, and Nero carried away from it two nundred statues. The walls of Rome wore thirteen miles round.

Joint High Commission.

NEW YORK, April 3—The *Tribune's* Washington special says the probable termination of the work of the Joint High Commission will be about the last of the present month, and says that notwithstanding the published assertions to the contrary, there is a wide-spread impression that this Commission is charged with the settlement of the Fishery question, the Alabama claims and other points of difference between the two Governments, and that the Commissioners' labor will be a treaty which on the part of England will be operative the day it is signed, as its representatives have plenary power, but on the part of the United States the Senate will have to confirm the treaty. It is thought the treaty will contain a clause for the appointment of a Joint Commission to adjudicate upon the Alabama claims under the conditions to be decided by the present Commission, and that the present body will name the persons to have the settlement of cases. The term of the last named officers will be very long, as it will require years to settle them on any basis which can be established. As it seems probable the Senate will adjourn before the last of this month, the President will probably call an extra session in order to consider the treaty before next December, and enable the settlement to begin as soon as possible.

General Rosecrans, on one occasion, asked his staff officers for a pencil. Not one had any. The General remarked: "Had I asked for a corkscrew every one of you would have had one.

It is explained how the Prussians fought so hard at Weissenburg. For three days before the battle the Prussian soldiers were fed on nothing but salt mackerel, and allowed nothing whatever to drink. On the morning of the battle Frederick William, the Crown Prince, formed his army in order of battle, and, pointing to Weissenburg, he exclaimed: "Soldier! behind those heights six thousand kegs of lager are looking for you—charge!"

England's National Malady.

At the meeting of the Social Science Congress in Newcastle, the subject of intemperance and the drink traffic, in their moral and economic aspects, were debated in two sections of that learned body. The papers read and the succeeding discussion thereupon, show that thoughtful men are becoming alarmed at the enormous extent of the liquor traffic in Great Britain, and the frightful amount of poverty and crime which this traffic engenders. Indeed, the Home Secretary stated at Glasgow a short time since, that there was hardly any question of domestic policy upon which the people were so deeply interested. In 1869, the people of the United Kingdom expended in the purchase of intoxicating drinds £102, 700,000. These drinks are sold in 150,000 licensed public houses—Of all the crimes of which the law takes cognisances, three fourths are generally admitted to have been caused by strong drink, and there is an equal prevalence of opinion that the same cause is to be attributed to the one million paupers receiving relief from the public funds, and another million on the verge of pauperism. These fact are notorious, and yet the London *Times*, whose opinions is shared by many influential journals, has no other remedies to propose than an investment of the licensing authority with power to repress abuses, and a restriction in the hours of sale. The local prohibition of the traffic, by a two-third majority, is scouted by these same journals as impracticable, oppressive, and likely to work harm to the temperance cause. Blind leaders of the blind! How dense is the cloud with which appetite and prejudice have overspread their intellects!

MARRIAGES IN LENT.—It would seem as if Queen Victoria had gone out of her way to wound the religious principles, or prejudices if you please, in her late marriage of the Princess Louisa. They think that she chose to have it solemized in Lent to show her indifference to the sacreduess of the season, and that it goes far to prove the rumors that the Head of the Established Church is a Dissenter at heart—some say a Swedenborgian. It has given most serious offense in High Church and Low Church quarters. The *Guardian* cites, as an example by which Her Majesty might have profited, that of a poor colonial bishop, who kept in his own house a bride just imported, who arrived on Ash Wednesday, until Easter, before he would marry her to her impatient lover. Such stern measure would not have been necessary in this case, as the wedding might just as well have taken place before Lent as after it, and it is not likely either parties concerned would have found fall at having their happiness thus disconcerted. The first plan was even more offensive, as it contemplated having the cermony take place on a Friday in lent. But the dignitaries of the Church made such strenuous remonstrance that Her Majesty, though usually set in her way, yeilded that point. We do not hear that the Queen had any difficulty in securing a minister to marry her daughter to the Scotish marquis. But Chief-Justice Chase was less fortunate. Dr. Lowis of St. John's church, Washington, refused to solemnize the marriage of the daughter of the Chief-Justice during the Lenten season; and the resolute father, himself the nephew of Bishop Chase, called in Bishop McIlvaine, the oldest in office but one of the Episcopal bench, who had no sort of objection to making the young people happy.—*N. Y Independant.*

DRUNKENESS IN THE CIVIL SERVICE.—Speaking of drunken placemen, I find that though much have been accomplished to improve the tone and status of the Civil Servants, since their departure from the Ancient Capital, there is much yet to be done in justice to the really capital and sober officials of the Dominion Government. Whether it is owing to the more active competion for office, or to the pressure of wolgiter interests which exact more serious capacities, certain it is that the public departments muster a very formidable array of specialities at present. But it is to be regretted—and the mistake should be remedied—that while many men who are really able, diligent and sober, are put off withsuch modest salaries, *plus* hard work, as five, six, seven and eight hundred dollars, drunken swill-tubs who are to be constantly found on Rideau streets "puting that into their mouths which steal away their brains," are pointed out to me as recipients of salaries figuring from twelve to sixteen hundred dollars per annum. I do not mean to say that the swill-washers who disgraced the Civil Service from 1859 to 1867 are still extant here as an organization; many of them, alas! have "bobbed o'green fields" and gone the way of rotund prototypes; many more were driven into the retirement which so well became their habits but here and ther survive exceptions, who were neither mowed down by the retrenching scythe of Times nor relieved from official publicity. These specimens of a class soon to dispear altogether in North Amercian should be taught the necessity of sobriety in all persons who are forced by official exigencies into contact with the public. If they will not accept the lesson, then it were better to pension them off under the superannuated fund, on the charitable plea that drunkenness is disease.—*Ottawa Correspondent of the Quebec Mercury.*

Robert Chambers, the well-known publisher of Edinburgh, died last Friday.

—The celebration of St. Patrick's Day was general throughout Ireland, and no scenes of disorder were reported.

VON MOLTKE can speak every dialect and language in Europe.

Wife to husband:—Charles, I wish when you are in the village to-day that you would step into the Druggist's and buy a bottle of the Pain Killer. Be sure and yet the genuine made by "Perry Davis & Son."

Husband:—What on earth do you intend doing with the PAIN KILLER, my dear?

Wife:—Fredy caught severe cold last night, can hardly speak, he is so hoarse and George has had the toothache since yesturday morning and yourself with Rheumatism. If what every body says can be believed, the PAIN KILLER will cure these complaints and such a house as this is we are always in trouble, and it would be a perfect God-send if we could find something to ease our lesser affliction a.

Husband:—Well, Mary, anything for a quiet home we will try the PAIN-KILLER.

(*To be continued.*)

☞ The PAIN-KILLER is an interenl and external remedy for pain. For internal pain, Cramps Spasms, & sudden Cold and Bowel difficulties, a few drops en water will give immediate relief. As a liniment it is without an equal; it stops pain almost instantly. Be sure and get the genuine made by Perry Davis & Son and sold by all Druggists and Grocers.

Great Condition Powder

As a condition medicine for Horses "Darley's Condition Powders and Arabian Heave Remedy," has no equal, its effects in this respect are astonishing; many horses that were supposed to be broken down and almost worthless, have by the use of a few packages been restored to a healthy and sound condition, all traces of the disease having been completely removed and have been sold for from $50 to $75 more than they would previously have brought; when you want a horse medicine get 'Darley's Condition Powders and Heave Remedy, we know you will be perfectly satisfied with the result. Remember the name and see that the signature of Hurd and Co. is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers.

☞ Is your throat sore or are annoyed by a constant cough? If so use promptly "Bryan's Pulmonic Wafers." they will give you instant relief. They relieve the air passages of pulgem or mecous, and allay inflomation, and no safer remedy can be had for coughs, colds or any complaint if the throat or longs, and if taken in time their efficacy will soon be improved.—Sold by all country dealers. Price 25 cents per box.

THE GREAT FEMALE REMEDY.
Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all exsdes and removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity.

These Pills should not be taken by Females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Ayserrics, and Whites, the Pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved

JOB MOSES', NEW YORK, SOLE PROPRIETOR

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will ensure a bottle, containing over 50 pills, by return mail.

Iron ore, taken from the back hills, near the highest level of the Union Pacific Railway, has been smelted at Omaha and found of excellent quality, yielding 80 per cent, of superior metal Three hills of the ore lie near the railroad.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alterative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phathisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, Diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, br ises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum, dysentery, &c.

Price only thenty-five cents per bottle.

NORTHROP & LYMAN,
Newcastle, C. W.
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W Keane, Wm. Coulter and Osmond & Walsh, in Keene by A. Campbell, Campbell McNeil & Co., C. Britton, Lindsay, and all Medicine Dealers.

ONE HUNDRED DOLLARS A WORD.

For every word in the following certificate found untrue, after writing to the parties named: and to the U. S. Consul, at Rio Janerio, the sum of one hundred dollars will be paid.

Rio de Janeiro, Feb. 28th, 1866.

Messrs. Raymundo C. Leite & Bro:

Gentlemen;—While a son of my friend Mr. Francisco de Mattos Pinrenta [a large proprietor, in the Cidad de Campos] was staying at my house he was attacked with intermittent fever. *Immediately I sent for the very clever* Dr. Tonoco, who is thought a good deal of in Campos, but the fever instead of diminishing, turned, continued, and typhoid, the boy (14 years old) could not speak, would not take the broths, and it required a great deal of coaxing to make him swallow the medicines. Dr. Tonoco, declared that there was not the slightest hopes of saving the boy's life; that it would be advisable to write to his father and inform him of the state of his son's health. At that moment I thought of the well spoken Dr, Radway & Co's medicaments, and applied them in the following manner: *One teaspoon of Relief* in a tumbler of water, dividing it three doses a day; frictions with the relief pure on the chest, back and wrists; three of Radway's Pills every day, and well covered so that he might perspire. Second day, half an hour after meals, one desert-spoon of Resolvent and water. In the fourth day he was able to get up from bed to the astonishment of every one who witnessed the miracle of Dr. Radway & Co's medicaments.

I remain, gentlemen, your very obedient servant

Joaquim Pinto Filcao, Merchant.

Dr. Radwy's Remedies are sold by Druggists and County Merchants. See Dr. Radway's Almanac for 1870.

I have a son of five years old now, who took the "Ready Relief" when 4 months old, as he suffered from some irregularity in the bladder, preventing him from making urine. The following was the treatment: 20 drops of "Relief" in a cup of water, and divide into portions of a tablespoon, which he took every ten minutes which cured him. He has since had colic, which I treated in the same way, and also rub the stomach with it (pure.)

Major Joaquim Vieira do Silva Pinto, proprietor, in the Cidade Leopoldina, can prove that after more than ten years suffering from Paralysis, through the medium of your remedies he obtained that which he had been deprived, and thought at the time that he would never be able to get, and that was the use of his legs.

You can fully believe that there are a great many people in this vast empire who truly confess that they owe their life to the use in time of your precious medicines. You can make use of this as you think proper.

I remain, dear friend,
Your obedient, &c.,

Signed SIMAO DE SAMPAYO LEITE

On inquiring for these Remedi s ask for Radway's, as the country is flooded with imitations, Sold by Druggists and County Merchants.

4 25 vs. $500 00.

Economy in Health and Physic is as important as in business, and we know of no cheaper, better, or surer means of preserving health and divesting the sick of their infirmities, than through the medium of Dr. Radway's famous medicines. We present a case in point:

CASE 1. 236.—Marcus W. Mount, long a sufferer from liver complaints, has paid, he says, at different times, about $250 to physicians, and he thinks as much more for medicines. Is induced to try Radway's Pills, with occasional doses of the Renovating Resolvent, to assist in removing from his system the effects of the mercurial treatment to which he has been subjected. Soon feels the benefit of the change. Takes, in all, five boxes of the Pills and three bottles of the Resolvent, and at the end of the course is "as well as ever he was in his life."

Glance at the account current here below; Bills for medical attendance, $250; outlay for prescriptions, $250.....$500,00.
Five boxes of Radways Pills, $2 25; three bottles Resolvent, at $1 each, $3—(disease removed).....4 25
Balance in favor of the REGULATING PILLS and RESOLVENT.....$495 75

R. R. R. Remedies sold by Druggists and Country Merchants. See Dr. Radway's Almanac, 1870.

BUSINESS EDUCATION

BRITISH AMERICAN BUSINESS COLlege and Telegraphic Institute. The only representative in Ontario of the Bryant & Stratton International Chain of Colleges.

The Theory Department is thoroughly adapted to those who wish to lay the foundation of a sound business education.

The Practical Department is a minature business world, where each Student performs all the routine duties of office work, such as buying, selling, chipping, commission, and drawing notes, drafts and checks. A regular Bank of issue is in connection with this department with beautifully engraved bank notes, which is as perfect in its details as the best organized institution in the Country.

Thorough instruction in Telegraphy. Life Scholarship good in forty Colleges. For terms address.

ODELL & TROUT, Toronto.
September 21st, 1870.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES is the only preparation known which gives prompt and permanent relief in diseases of the Lungs and Bronchial Tubes. It restores the secretions to their healthy condition, allays inflammation of the mucous membrane, and is the most certain remedy for Debilitates Maladies, Full directions accompany each bottle.

HAVE YOU TRIED IT?—If not don't delay another moment, but get a bottle of the "Canadian Pain Destroyer." It is far ahead of any other medicine and was never known to fail. All aches and pains are immediately and permanently removed by it and the price places it within the reach of all. Sold by all medicine Dealers.

Farm for Sale.

Select Poetry.

Sandy Maguire.

BY CHIQUITA.

Well, yes, I can tell you about it—
Come in and set down by the fire—
Whe! you've come a'mosin' long way
To hear about Sandy Maguire.
'Twas a mighty queer job, that's sartin—
Just bring in a candle, Marier.

You see, when Sandy was sober
There wasn't a better man here;
He worked along with the rest of us.
And always done more'en his sheer
Till Canada Jim came over,
And gambled around for a year.

Now, Sandy's wife was right han'some,
A delikit sort of a thing;
He'd married her out in your section.
And fetched her here in the spring—
And Canada Jim was flashy,
And he wore a diamond ring.

So things went on rather steady,
Till Sandy and Jim, one night,
Went over to Donovan's tavern,
And sandy got powerful tight—
I s'pose they dragged his liquor,
And got him to-bed, out o' sight—

For Canada Jim he was missin'
Next mornin', with Sandy's wife.
And Sandy—didn't be cuss 'em.
And flourish around with his knife!
And then if he'd found that couple,
I wouldn't gin much for their life!

Well by Jove! Sandy kept workin',
And didn't take more a drink;
If you'd see him two years after
You wouldn't 'a' known him, I think,
Most men would 'a' went to ruin,
And jumped clean over the brink.

Out in your section sich doin's
Is frequent, the papers say;
And the person that mixed himself in the p
Is sure to get han'some pay!
But here in Chleary Hollow,
Things work in a different way.

One night, when the rain was pourin',
And the creek was beginnin'-to roar,
There came a strange noise at the window,
And Sandy he went to the door;
And his wife, poor thing, jest tottered in
And stumbled onto the floor!

Did he cuss her, did Sandy Maguire?
Did he kick her out into the rain?
God bless you! he hugged the poor creature,
And was glad to see her again;
And to-day he's happy and peaceful,
And never has cause to complain.

And now I have told you about it—
I reckon it goes for to show
That a man has feelin' way down in his heart
Whoever may call him "low."
You're welcome to stay all night, if you will,
And your breakfast afore you go.

A farmer whose load of hay found to envelope several healthy boulders, remembered that he "drew pretty close to a stun fill" on his way to market.

An Irishman, upon seeing a squirrel shot from a tree, said: "Earth, and that's a waste of powder. The fall itself would have killed the squirrel.

A lively Hibernian exclaimed, at a party where Theodore Hook showed as the evening star, "Och! Master Theodore, but you are a book that nobody can bate.

A watch maker has a watch to repair that (according to the owner's statement frequently stops while it is going and sometimes loses an hour in twenty minutes.

He was evidently not beyond the reach of consolation, that sad Hoosier widower, who replied to a sympathizing visitor, the funeral of his wife, "well yes I shall miss her. Old Lady. "When does the next train go here?"

Porter (explaining) "Well 'm, ye see the next train don't ere at all, and the next train as stops ere don't go no further and the next is a through express.

[Old lady ismuch better for the explanation.]

A great violinist accepted an invitation from a vulgar notary at Brussels, and was induced kind enough to play during the evening to the guests. A month after the notaress sent the musician another invitation with this postscript; "Above all don't forget your instrument." The musician sent back a violin and those lines: "Madame, I regret that personally I cannot accept your invitation for the———the I am sure you will the more readily forgive the apparent neglect, as I send my instrument.

Lady Yarmouth asked Gorrick one day why love was always represented as a child He replied "because love never reaches the age of wisdom and experience."

—Two cooks in a Chicago hotel got into a riot, and one had her head broken with a skillet. The coroner recommended that people should pay more attention to the thickness of the skull, or such accidents would be very common. A cook's skull ought to be at least half an inch thick the way skillets are made now.

—Mark Twain produces one of the most striking cases of meanness on record. He says he knows a society which hired a man to blast rocks, and as he was pounding the powder with a crowbar an explosion took place, sending the man and crowbar out of sight. Both came down all right, and the man went to work promptly. But though he was gone only about fifteen minutes, the company "docked him for lost time."

Their was a Dutch woman whose husband, Dietrich Van Peoak kicked the Bucket, and left her inconsolable. Folks said grief would kill the widow. She had a figure of wood carved that looked very much like her late husband, in order to be constantly reminded of her dear departed. In about six months she became interested with a young shoemaker, who finally married her. He had visited the widow not more then a fortnight when the servants told her that they were out of kindling wood, and asked what was to be done—After a pause "Maybe it ish yell enough now to split up old Van Prouk vat ish up shtairs.

To "Do-up" Black Silk.—Boil an old kid glove (cut into small shreads) in a pint of water till the water is reduced half a pint, then spouge your silk with it; fold it down tight, and ten minutes after iron it on the rong side while wet. The silk will restour its softness and lustre, and at the same time the "body" or new silk.

Phyrography is a new art invented in England and consists as the name indicates in printing by fire through a system of metallic cylinders, which burn into the wood any design required, which is indestructable From its domial costeand great beauty, it seems likely to take the places of much of the expensive ornamentations and inlaid work done by hand.

will, in from ONE to TWENTY MINUTES, afford ease and comfort; and this medicine, so rapid in stopping pain, can be purchased by 25 cents per bottle at almost every druggist's and country merchant's store on this continent, and within one hour's distance of almost every habitation in this country

RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.
RHEUMATISM & NEURALGIA.

If these who are now suffering Pain—no matter what the cause may be, or by what name it is called—of external apply the Radway's Ready Relief to the part of the body where the pain is present. If internal,

30 Drops Diluted in Water.

As a drink; whether Cramps, Spasms, Inflammation, Congestion, Asiatic Cholera, Chills and Fever, the most violent, excruciating, and tortaring pains will be stopped

In from One to Twenty Minutes.

PAINFUL ATTACKS WHERE

RADWAY'S READY RELIEF

WILL AFFORD INSTANT EASE—

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart,
Hysterics, Croup, Diphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the *READY RELIEF* to the part or parts where the pain or difficulty exists, will afford ease and comfort.

30 Drops in a half tumbler of water will, in a few moments, cure

Cramps, Spasms, Sour Stomach,
Heartburn, Sick Headache,
Diarrhœa, Dysentery, Colic
Wind in the Bowels,
and all Internal Pains.

Travellers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

IT IS BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

FEVER AND AGUE.

Fever and Ague Cured.
Fever and Ague Cured.
Fever and Ague Cured.
Bilious Fever Cured.
Ship Fever Cured.
Yellow Fever Cured.
All Prevented.
And Prevented.

FEVER & AGUE CURED

FOR FIFTY CENTS.

There is not a remedial agent in this world that will cure FEVER & AGUE, and all other Malarious, Bilious, Scarlet, Typhoid, Yellow, and other Fevers (aided by Radway's Pills), so quick as Radway's Ready Relief.

RADWAY'S READY RELIEF

has proved infallible, and will cure these terrible fevers quicker, and without exciting the frightful penalties of Congested Liver, Fat Spleen, Disordered Kidneys, and Saffron-Colored Skin, that are sure to follow the use of the "Cholagogues," "Ague Cures" and other agents of the heroic Quinine, Mercurial, Arsenic, and other treatments where the medicines used accumulate, and become deposited in the system.

HEALTH! BEAUTY!!

Strong, Pure and Rich Blood — Increase of Flesh and Weight — Clear Skin and Beautiful Complexion, Secured to ALL

RADWAY'S SARSAPARILLIAN RESOLVENT

has made the most astonishing cures. So quick, so rapid are the changes the body undergoes under the influence of this truly WONDERFUL MEDICINE, that

Every Day an Increase in Flesh and Weight is Seen and Felt.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal, in its many forms; Glandular diseases, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands, and other parts of the systems, Sore Eyes, Blemishes Discharges from the Ears, Eyes, Blemishes Discharges of the Eyes, Nose, Mouth, Erupted Diseases of the Skin, Diseases, Eruptions and the worst forms of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all Weakening and Painful Discharges, Night Sweats, Loss of Sperm and all wastes of the life principles are soon cured by the use of Radway's Sarsaparillian Resolvent, and a few days' within the curative range of Radway's Sarsaparillian Resolvent, and a few days' use will prove to any person making it for either of these forms of disease, its potent power to cure them.

Not only does the Sarsaparillian Resolvent excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional Skin and Syphilitic diseases, but it is the only positive remedy for Kidney, Bladder, Urinary, and Womb Diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's disease, Albuminuria, and in all cases where there are Brick dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid dark, bilious appearance, and white bone dust deposits, and where there is a pricking, burning sensation when passing water, and pain in the small of the back, and along the Loins. In all these conditions Radway's Sarsaparillian Resolvent, aided by the application of Radway's Ready Relief to the Spine and Small of the Back, and the Bowels regulated with one or two of Radway's Regulating Pills per day, will soon make a complete cure. In a few days, the patient will be enabled to hold out discharges his water naturally without pain, and the Urine will be restored to its natural clear, and amber or sherry colors.

THE WASTES OF THE BODY

are supplied with new, healthy and vigorous blood, that furnishes sound structure. Hence all suffering from WEARING DISCHARGES, either MALE or FEMALE, of the Womb, Uterus, or other organs, whether Leucorrhea, Sperm, or Eruptive discharges of every kind, or from violence of "Self-abuse," from the Genital Glands, or Venereal discharges, or Ulcers, or Sores, through the reparative process of Radway's Sarsaparillian are arrested, and the ruptured organs healed.

THE TRUE THEORY OF CURE.

Radway's Sarsaparillian Resolvent supplies the system, through the blood, urine, sweat, and structure-making constituents, with Tissue-making, Flesh-making, Heat or Calorii, and Fat-making elements. All of its constituents are wonder-making, purifying, and strengthening. It Removes, Heals, Disorders, and drives out of the body the products of Decay and Corruption. CONSUMPTION, WHITE SWELLING, DROPSY, SYPHILIS, CANCERS, TUMORS, &c., are all of a scrofulous diathesis, and as such are within the curative range of the Sarsaparillian Resolvent!

That Scrofula, by whatever name designated, is the result of deposits from the blood, caused by chronic inflammation. That these deposits take place when the blood is poor, weak, watery, and incapable of holding in solution its proper constituents, or from the presence of some virus or poison in the blood, as Mercury, Calomel, Corrosive Sublimate, which is the Corrosive Chloride of Mercury, or other agents given in medicines and which enter largely in the common sarsaparilla Sarsaparillas. NOT ALTERED OR CHANGED FROM THEIR NATURAL CONDITION.

That unless the repairs or nutriments are greater than the wastes, that decomposition and decay will supervene, and the issues of life become exhausted.

That the dying body cannot be sustained on any treatment of medication that exhausts the system, or fails to nourish the blood, the only medium through which the vital forces are preserved, and on which the growth of the body depends.

That Radway's Sarsaparillian Resolvent supplies a want never before possessed or known to exist in medicine: that this new tonal principle in Chemical science, which has been brought to such a perfect system of cure, is exhibited as follows:

1. Its great power in assimilating the food in its first stage of distillation in the process of digestion, as chyme and chyle with the nourishing elements of blood, separating from these liquids refuse and inert qualities before they are taken up by the lacteals and are formed into blood. Here we see that by its wonderful power it charges the system with the very essence or principle that forms the vital powers of the body, and its chemical action on the blood in its primitive and complete condition separates every atom of refuse material or stomach, all of which the virus of disease is formed.

MONEY TO LEND.

The undersigned has a few thousand dollars of private funds which he is prepared to lend on mortgages, on improved farms.

P. W. DUMBLE.

January, 1871. 1-tf.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that when it does cure it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cases are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For *Dyspepsia or Indigestion, Listlessness, Lowness and Loss of Appetite*, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For *Liver Complaint* and its various symptoms, *Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers*, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For *Dysentery or Diarrhœa*, but a small dose is generally required.

For *Rheumatism, Gout, Gravel, Palpitations of the Heart, Pain in the Side, Back and Loins*, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For *Dropsy* and *Dropsical Swellings*, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For *Suppression* a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

As a occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

DR. J. C. AYER & CO., Practical Chemists,
LOWELL, MASS., U. S. A.

NORTHROP & LYMAN.
Newcastle,
General Agents for Ontario.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as has our CHERRY PECTORAL for pulmonary complaints. Through a long series of years, and among much of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most efficient remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not Oil. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our space is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Those debilitated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold by all the world.

PRICE $1.00 PER BOTTLE.

WILLIAM TOOLE,

Being about to REMOVE his Manufacturing Establishment from the Ashburnham Mill Race to his own Factory in course of erection,

On Murray Street, Immediately West of the Drill Shed,

Where he is fitting up with almost entire NEW MACHINERY, NEW MEN of long city experience, and, in fact, New Everything, begs to return thanks to his numerous town and country patrons for the very liberal patronage which he has enjoyed for the past fifteen years, and hopes by constant attention to business and fair, liberal treatment o customers, to continue in the enjoyment of the same. He would also intimate to his country friends, that he is manufacturing a few of

The Celebrated McKenzie Fanning Mills,

THE BEST MILL IN THE DOMINION,

Which he will sell at a very moderate price, and take in exchange any kind of FARM PRODUCE.

Peterboro, Feb. 9, 1870. 6

Novembe 1, 1870. 45

HUMBUG EXPOSED.

THE Subscriber begs to inform his customers and the public generally, particularly those intending to buy Furs, NOT TO RETAIN their orders, as there never was a better chance to select Furs than at my store. The stock consists of my own manufacture, and of nothing but the real article. I have none, nor ever had any of the so called German Mink, French Seal, Sea Otter, British Sable, and numerous other high sounding, fictitious names, by which trashy imported articles are disposed of at fabulous prices. Is it not also true that Russian and Western Mink, being colored, is disposed of as Canada Mink? Goods made up for wholesale trade are of inferior quality.

Whether my own manufacture compares favorably with city manufactures, the following will show for itself. It was my own workmanship which secured to Mr. Melver, of Montreal, the First Prize for a set of Ladies' Furs, at the exhibition in 1858, held in the Grand Trunk Sheds at Montreal, against the following competitors:—Messrs Greene & Sons, Brahadi, Henderson, Brown, and several others, Mr. F. W. Lassack, of New York, being one of the Judges for Furs. The same Lady's set was sold to a Baltimore lady for the handsome sum of nearly $400. I believe myself capable of doing now, as I did then.

An Examination of my Stock is solicited.

The Highest Price Paid for RAW FURS.

W. LECH.

Peterboro, October 19, 1870. 42-17in

NEW

CARDING MILL!

The subscriber, in returning thanks to his friends and customers, for the liberal patronage extended to him during the last fourteen years, would beg to intimate that, in addition to the Implement Department of his Foundry, he has added and placed in

Best Stock of Genera Furniture

EVER ON SALE IN THE TOWN OF PETERBORO.

THE UNDERTAKING BUSINESS

Is also more complete than ever, with a good supply of READY-MADE COFFINS.

N. B.—The subscriber wishes to give the Geuinses of this town and vicinity a gentle hint not to encroach on the manufacture of the Patent Hammock Folding Chair, as it is no humbug, but patented by Mr. Willoughby, Clerk, and I have purchased the sole right for this County from J. D. Mayer, the executive proprietor.

GEO. TANNER.

Peterboro, March 2, 1870. 9

WILSON, BOWMAN & CO.

Hamilton, Ontario

MANUFACTURERS OF THE CELEBRATED

LOCKMAN SEWING MACHINE,

Take pleasure in announcing that the popularity of the Sewing Machine manufactured by them is still on the increase. They are now turning them out at the rate of 600 per month and yet have been compelled within the last two weeks to increase their facilities to a capacity of one thousand per month.

The Lockman Machine, from its capacity to sew the heaviest fabrics with linen thread, as well as the finest cambrics with No. 150 Cotton, is pre-eminently the Farmer's Favorite Family Friend.

It is so exceedingly simple in its parts, and so strongly and durably made, that it does not require a mechanical genius for its management.

The manufacturers challenge the world to produce its equal, and yet its price is from Forty to Fifty per cent. Lower than that of any other first-class Shuttle Lock-stitch Sewing Machine.

EVERY MACHINE IS WARRANTED.

☞ Sole Agent for the County of Peterborough—

UNFAILING EYE PRESERVERS.

LAZURUS, MORRIS & Co's

CELEBRATED

Perfected Spectacles

AND EYE GLASSES.

The large and increasing sales of these Perfected Glasses is a sure proof of their superiority. We were satisfied that they would be appreciated here as elsewhere, and that the reality of the advantages offered to wearers of our beautiful lenses, viz: the ease and comfort, the assured and readily ascertained improvement of the sight, and the brilliant assistance they give in all cases, were in themselves so apparent on trial, that the result could be no otherwise than it has, in the almost general adoption of our Celebrated Perfected Spectacles by the residents of this locality.

With a full knowledge of the value of the assertion, we claim that they are the most perfect optical aids ever manufactured. To those needing spectacles, we afford at all times an opportunity of procuring the best and most desirable.

DR. W. H. TAYLOR

Corner of George and Hunter Streets,

Has always on hand a full assortment, suitable for every difficulty.

We take occasion to notify the public that we employ no pedlars, and to caution them against those pretending to have our goods for sale.

Peterboro, February 8, 1871.

DARLEY'S

ARABIAN OIL,

FOR HORSES AND CATTLE.

A NEVER-FAILING REMEDY.

THIS valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient properties for the cure of Flesh Wounds, Sprains, Bruises, Galls of all kinds, Cracked Heels, Ring Bone, Spavin, Callus, Fistula, Sweeney, External Poisons, Scratches or Grease, Strains, Lameness, Mange, Wiltiows, Corns, Sand Cracks, Foundered Feet, Horn Distemper, Swellings, and many other diseases which horses and cattle are subject to.

This celebrated Liniment has been used for many years, and its curative properties thoroughly tested, and it is conceded to be the cheapest and most reliable remedy for all external complaints ever offered to the public—it never fails when timely used and faithfully applied.

To be had of all Druggists and Country Merchants throughout the Dominion. Price 25c. per bottle.

Choice Poetry.

Spring.

Now comes the Spring from southern lands;
And looking upward from the sod,
Bits Nature, holding empty hands,
For fresh replenishing from God.

The birds now sing on every spray
That late had not one song of hope:
To sing of love on lovely day,
Is clearly all their vocal scope.

The brooks, too, warble as they run;
They sing together, brook and bird,
And always in such unison,
'Tis often doubtful which is heard.

And over each with other play—
The fleecy clouds in highest sphere,
As through the dreary winter-day
They wept together, tear for tear.

Soft winds prevail, sweet scents are rife,
And every day fresh germs doth bring;
More than a match for Death is Life,
More than a match for Winter, Spring.

Choice Literature.

A Work-Woman's Fortune.

BY A RETIRED LAWYER.

I was called to the jail in C——, one evening, to confer with a client whose trial came on in a day or two; and as I passed the half dozen cells between the inner door of the prison and the apartment where my patron was now confined. I caught sight of a troubled but handsome face of a young woman, who sat leaning against the iron bars of one of the little rooms, and I halted for an instant to look at her.

She shrank away timidly to the rear of the cell, however, and I had the opportunity simply to observe that she bore in her general contour, the trace of a poor unfortunate, in the usual acceptation of that unfortunate term.

I concluded the interview with my client in a few moments, and just before leaving him I inquired:

'Who is your neighbor, yonder?'

'The young woman?' he asked in a whisper,

'Yes—next door.'

'I do not know,' he replied.

'How long has she been here?' I asked.

'Since yesterday only,' he added.

'What is she here for?'

'I do not know that either. I only observe that she weeps and sobs incessantly, and has in vain applied to the Deputy, who passes up and down this corridor, to learn why she is confined here.'

'The old story,' I suggested. 'A repentant—too late.'

'Perhaps so,' replied my client. 'Or it may be a case of oppression, hardship, injustice.—She certainly is very pretty,' I added, 'and really looks too poorly tidy to be a criminal.'

'I have not seen her,' he added. 'Why don't you speak with her as you go out?' he inquired, suggestively.

'She shuns observation,' I said, 'and does not seem desirous to communicate with a stranger, I judge.'

'Naturally enough,' responded my client.

'And this indicates that she may not be so bad as her present position here might lead one to suspect, perhaps.'

'Good night,' I replied. 'I will stop as I pass out.'

And turning away from the young man's cell, I halted again before the door of the girl's apartment and accosted her.

'Good evening, Miss,' I ventured, in a friendly tone.

She was sitting upon the side of her little bed, away from the barred grating, and for an instant she did not answer.—Then, rising and coming timorously towards me, she asked, in a gentle way.—'Who is it?'

'I am a stranger to you, Miss,' I answered. 'I had occasion to call upon your next door neighbor professionally to-night I am his legal attorney. I saw you as I passed, and—though it is not my habit to do so—I could not resist the impulse to ask you if I could be of service to you.—Have you any counsel engaged?'

'No sir—no,' she replied, with a sigh.

'Will you permit me, then, to enquire what brings you here?'

'Poverty and misfortune, sir.'

'Not crime?'

'Oh, no, sir! On my honor, no,' she exclaimed, with singular earnestness and candor. And then her tears flowed copiously, as she briefly recounted the circumstance, of her hard case and present peril.

'I don't know,' she continued, precisely why I am in this place. It is not a prison sir, she inquired, artlessly.

'Yes, Miss.'

'But I have not been accused. I have had no trial. I have never been in court even at all.'

'When did you come here?'

'Yesterday.'

'What were the allegations made against you?'

'That I cannot explain. I do not know sir. I am very poor, and entirely friendless. I am a seamstress. I have been compelled for several years to toil very hard, sir, to support myself and an invalid younger brother, with my needle; but the scanty pay we women command for such labor, as you may know, is but miserable at the best.'

'Yes,' I said, I am aware of this.

'We occupied an attic room,' she continued, 'in a remote part of the city, and I had struggled along, and kept soul and body together, as well as providing for the needs of my poor brother, until up to a week ago when, yesterday morning, I overheard confused talk in the story below us, which was occupied by some rude people—for persons in our humble position cannot choose the location where we may 'stay,' you know sir—and I soon learned that some goods had been purloined by certain parties suspected there, and the premises were being searched by officers.

'A portion of the missing goods were found there, and four or five persons were arrested, as being concerned in the affair. I was simply a passing looker on at the moment of the trouble, and was astounded, when the others were called upon to accompany the officials, to find that they insisted upon taking me with them.

'I remonstrated in vain. My poor little invalid brother must starve, if they do not care for him, sir. And all I have been able to learn, in my extremity, is, that I must 'give bail.' What is it to 'give bail,' sir, if you please?'

'Security for your appearance at court, Miss,' I replied.

'But how?—In what way?'

'Some friend must recognize to the authorities in a required sum, to forfeit, should you disappear, or attempt to evade a trial or examination,' I informed her.

'For what? What have I done, sir?'

'That is precisely what I would like to learn, Miss,' I said. 'But if you are accused even, you must give the bail, or be detained.

Her handsome countenance fell at this remark, and she said, after a moment's hesitation, 'I have no friend on earth to do this. No friend to call upon; none whatever!'

'It is late,' I replied, 'and a night of rest will do you no harm now, Miss. Be of good cheer. I will examine into your case before I sleep; and at an early hour in the morning you shall see me again.—Good-night, Miss; and rest quietly with the assurance that I will do what is in my power to serve you, and promptly.'

She stared upon me with her great flashing eyes, evidently not clearly comprehending my good intentions; and I departed with the impression, if she were a guilty person, that she certainly was the most innocent looking one I had for a long time seen. On my way out I inquired at the jail-office who she was.

'What number?' inquired the grouty Deputy, roughly.

'Number 13, south wing,' I said.

'A woman?' he added, briefly.

'Yes, she came in yesterday.

'Oh—ah—yes. One of a gang o' shop lifters. Five on 'em in all. Number 13 is Mary Howell. The rest give bail.'

'And all the others released?' I asked.

'In course they are. She'd a gone too, only she couldn't give no s'curity, you see.'

I left the prisoner with a heavy heart.

On further inquiry outside, I ascertained that the invalid boy had been taken care of temporarily; and subsequently I learned the following particulars of this curious, but not very uncommon case of hardship and wrong.

Oliver Howell had lived, twenty years before, in a fine house in a fashionable quarter of the city, in affluent circumstances. The fire of 35 beggared hundreds of men of fortune, and Howell among the unlucky number.

He had two children—a daughter and a crippled son. The mother died, and then the father. The children were left to the cold charity of relatives, who threw them off their hands at the earliest convenient opportunity; and the girl found herself, at sixteen, alone in the world with the encumbrance of her sick brother on her hand, whom she never forsook or neglected.

After trying various experiments, she obtained needle-work, and continued to keep herself and brother alive, in the attic room of a poor house in an obscure part of the town; and the wolf had been kept from the door until she had been suddenly turn from her garret by the officers, who arrested all they could find at hand, and was charged with being accessory to the robbery mentioned.

She had never associated with these persons in any manner whatever, nor did she know anything of their character. She supposed them to be poor, like herself, and she had no occasion to inquire as to any body's reputation. She had little leisure—heaven help her—to look into the affairs of others. But the police seized her, and she was a prisoner.

I rose at an earlier hour than usual the next morning, and made my appearance at the chambers of Judge S——. I stated the case briefly to him, and expressed my surprise that a woman should have been thus detained in a prison cell, for eight and forty hous, upon suspicion, without a hearing. He said it was not uncommon. There was a vat deal of crime transpiring constantly; and the innocent suffered with or even for the guilty. He would give this case his only attention; which, fortunately for Mary, soon righted, as it eventuated.

Upon reachin the jail, I found Mary awaiting me anously, but evidently relieved in mind, a I gave her 'good morning.'

'I am happy to see you, sir,' she said pleasantly. 'Bi I have most unexpectedly found a frien since you were here last night.'

'I am glad to now it, Mary,' I responded.

'I should rathr say, sir, properly, that he has found me however. And it is one whom I had supposed had forgotten me, long ago.'

'Who has call, Mary?'

'The last pern I expected to see, sir,' she added, modely. 'I had not seen him for many months and had no sort of claim upon him, sir. —was William Edson, a discarded lover, s.'

'Indeed! I exaimed. 'Then you have found one friendat least. 'And he appears to be one in your need.'

'He has just gne, sir. He is able, and will furnish the necsary bail for me at once.'

'This is well, Ary, but I think you will have no occasn for it. I have represented your case to the proper quarter, and I think an ord for your release will shortly be here.

An! so it turned out an hour afterwards.

I had the pleasu of seeing Mary discharged a very hap being, without further trouble. A carge waited at the door into which young Ison placed her, and they rode away in cellent spirits.

Mary sought on her sick brother at once, and under Edn's advice, she forthwith left her old quars for more acceptable lodgings. It ened that although Mary had discarded Edson a year before, when he had made reensions to her, he persisted in looking fr her, and had that day made inquiries frier and learned of her unfortunate misdventure.

He hastened to seprison, where the young woman quidly explained everything, and he lost n time in getting her relieved—though hi offered aid in this instance was not need, as it proved.

He however, agaioffered her his hand, and I was gratifi at learning, a few months subsequent, that Mary Howell became Mrs. Willis Edson; and that she proved a faithful w to one of the best of husbands, though 'did find her at last, in the cell of a jail

A bill now before the Wisconsin Assembly provides that whenever eleven jurors, impanneled to try a criminal case or civil action, shall ne upon a verdict, such agreement, duknnounced in court, shall be taken and h to be the verdict of the whole jury. e proposed change appeals to the commensense of everybody Frequently it happens that a single obstinate juror defeats thds of justice, his opinions practically weighing the unanimous convictions of eleven colleagues. It is almost incredible that such an absurdity can so long have existed in our present system, and the soonsin innovation will, we think, be regard by both lawyers and the public a decided improvement worthy of more neral adoption.—*American paper.*

If Brigham Yocag re an additional wead on his hat everyne he lost a wife or mother-in-law, it intimated that he would have to have hat [illegible] feet high.

Miscellaneous Reasons Why I Became a Recruit.

When a healthy man's normal condition undergoes a change, and he apprehends serious consequences thereby, his first object is to arrest disease and recruit health, by going abroad in search of means to restore nature.

When the army of a nation becomes decimated either by death, discharge, dissertion, special orders or court-martials, the Dept. issues an order to stimulate recruiting.

When an individual becomes a bankrupt socially, morally, and otherwise, when he has distinguished himself as a failure in all the means which men usually practice to gain an honest return for their labor, when has become a total wreck on the sea of life, and is suffering for the want of the common necessaries thereof; it is quite [illegible] would become [illegible] jects to the more important one of recruiting, i. e. becoming a recruit.

Thoughts analogous to these, occupied my mind on a summer's night, in the flowery month of June, A. D. 1869, as I occupied an airy apartment on the west bank of the Missouri river, which in vulgar parlance is the St. Louis levee, the universal lodgings of the street arab, the loafer, the victim of confidence, operators, and the honest but unfortunate needy stranger (I wish it distinctly understood that I class myself with the latter.) My slumbers were somewhat disturbed by the force with which the resolution of becoming a recruit had taken possession of me, nevertheless I arose in the morning somewhat refreshed, and for once adhering to the same opinions I had formed the previous night, I proceeded to make my toilet, using the murky waters, whose bank I had used as a couch, for a developer of the human face divine; the *levee* had by this time assumed the usual air of business and bustle, that characterize and distinguish the river side from the inland city, I concluded to start immediately in search of a Recruiting Officer, whom I found after travelling through inumerable streets, alleys, places and courts. It is a singular fact every person I asked to direct me, knew exactly where it was not: one man would say, well, let's see; yes, I know now, there is one next to the Varieties Theatre. I felt somewhat relieved by this information, as it appeared less degrading to inquire for the latter; after arriving there however, I was doomed to be disappointed, as I could discover no signs of the object of my search: I saw a seedy looking fellow, whom I judged to be the leading villian of the temple of amusement. He stood with arms folded and one foot resting on the upper step of the Green Room Saloon, adjunct to the Theatre; his appearance struck my feelings of awe, he appeared so evidently self-satisfied, possessing an eye that could penetrate a chilled steel safe. I am sure he knew my position in the human family at half a glance, also the condition of my financial basis, that I was no patron of the theatre, and could not stand the drinks. I approached him and said "good morning," as a sort of feeler; he returned the salute in tragics' voice I ever remembered hearing, and said, "destitute youth,—no dustal—dry—hungury—wants occupation will introduce you to the Captain of the Supes." I cut him off in the midst of his exclamations, and requested him to direct me to the recruiting office; he sent me 21 blocks in the wrong direction.

At a later hour in the mornirg, I accidentally discovered the Star-spangled Banner, the emblem of liberty and protection, gently floating in the breeze; it hung outside the door of the recruiting office. I stood at a respectful distance, gazing on it with admiration,—it was lodging, clothing and food for me. I removed my eyes from the emblem of all my earthly hopes, and they rested on the form of a native-born American, on the opposite side of the street, holding up a lamp-post—or the lamp-post was holding him up, I could not tell which. I began to calculate in my mind about his object in standing so intently absorbed in the flutter of the flag; I concluded he had made up his mind to exchange the liberties of a starving citizen for that of a well contented and full rationed soldier. I don't know why I came to such conclusions, as any man had a right to do just as he was doing, without eliciting comments from any other man. His general appearance may have influenced my mind as I viewed him from my side of the street; his description would read thus; height, 6 2-12 feet; weight 140 lbs.; feet and hands the only members of his body in proportion to his height, whose *tout ensemble* indicated verdancy—temperment, mischievous, not malicious; a wasp had stung him on the upper lip of the left eye, at some remote period of his existence, the swelling of which had not yet succumbed to the influence of time; it gave, not offensive—rather comical.

I timidly approached the entrance to the Recruiting Office, as I began to have some doubts about my passing the ordeal examination satisfactorily. I had just entered the hall of the building when I felt, as though by instinct, some one behind me. I looked around and up into the face of him whom I have just described. He looked down on me and said, "Going to 'list?" I answered in the affirmative. He said, "Let's go cahoots." I understood by that, he wanted we should enlist as partners. I agreed, he said "shake," and we shook. He informed me that he was "busted" financially, and had slept on the east bank of the same river I had the previous night. I remarked it was a singular coincidence, especially as we had come to similar conclusions. He proposed if we were not accepted as able-bodied recruits, and life presenting no new charm before night, that it would be a good idea to make our everlasting beds that night between the banks of the Big Muddy. I didn't like to commit myself rashly, so I asked for time to consider, which favor he kindly extended to me. A Sergeant made his appearance, and after we had related the cause of our presence, he sent us into a reception room to await the arrival of the recruiting officer and surgeon. My new-found partner seated himself on a bench, and remarked that he experienced a "gone-ness" in the region of the stomach; that he had been using that organ only as a reservoir for the past week; no solids of any description, except a peanut he had larcenied from a stand on the *levee*, had dassed its sacred portals during the time specified. When I learned the full extent of his miserable condition, I sympathized with him accordingly, and was pleased to call him my cohoot; I said 'shake,' and we shook; it was a singul r impulse, considering my exhausted condition; but I believe we shook each other's hands at least a dozen times during our short acquaintance.

The walls of the room we occupied were literally covered with the names of our predecessors in recruiting the army; the benches and window-sills bore evidence of no mean skill in handling the knife; my cohoot originated a whit to see his name registered among noble companions in arms, and on the 'knots steps' tracking the [illegible] art of forming pothooks that he graduated at. I inscribed his name for him as follows: "Isaac Tryon, Posey Co., Indiana." The basement of the room we were in was the sleeping apartment assigned to recruits, out of which emerged a young defender of liberty &c., and says, "Boys, going to don the blues and brass buttons?" We answered, Yes! He says 'shake,' and we all shook. He very thoughtfully inquired if we had breakfasted. Ike replied by remarking that "he had no," that he wasn't hungary,—had got over all primary stages of hunger, and was empty." Our new friend,—as such he proved himself, and who was a Kentuckian,—invited us to go with him and get our 'chuck,' as he styled it. The recruit boarding house was situated in the alley in rear of the offices; we lost no time in repairing hither; the dining room was up stairs, presided over by a Dutchman, who eyed Ike and myself rather closely as we took seats at the table; he no doubt made up his mind [illegible] rapidly than was profitable. As long as I live I will never forgive myself for sitting at the same end that Ike did; I shall ever regret that one act of indiscretion; we could have taken separate ends of the table and equalized the destruction of its contents; but as it was, we both attacked the same end simultaneously; when I was seated I thought I could get away with the Dutch landlord, two full-grown waiteresses, and all the table contained; and I am satisfied that Ike was of the same opinion. We fairly made things jump; Ike and myself displayed more sleight of hand tricks during the beginning of that meal than was ever accomplished except at a magician's table. Every time I raised my eyes from the work of storing away chuck, the Dutchman bored me nearly through with his little gimblet eyes. I suppose every person in the room was looking at me, but I only looked at the landlord, as I knew he was the greatest sufferer. We finally got filled —everything in the shape of eatables being invisible at our end of the table. Kentucky cautioned Ike to be careful in descending the stairs, and not fall, they being somewhat rickety; the Dutchman sang out, "by tam, if he falls he vill bust."—I never felt so well in my life as I did after that chucking, although I was not so affectionate with Ike as I had been. I hadn't 'shook' with him since eating breakfast; I believe our natures became stultified by our success. It is always so in life —the more prosperous, the less friendship one has to spare. We all adjourned to a basement saloon, and Kentucky being the possessor of the wherewithal (the result of a sale of his citizen wardrobe), he purchased the drinks. Ike said he intended to sell his as soon as the government supplied him with another. After taking several decoctions of a stimulating nature, we returned to the reception room before mentioned, and learned that the officers were ready to interview us. I am happy to state we were both accepted. I had no difficulty in my examination, but Ike was tested pretty thoroughly in regard to his eyes; he however stood the test, which consisted of holding a common playing-card at a distance of across the room, and naming Ike placed his hand over his right eye and told the spots on the card. Ike said "cards was his testament; they couldn't fool him on cards, no how, if he was acquainted with Isaac, and he rather guessed he was!" His familiarity with pasteboards secured his acceptance.

There being 20 recruits at the depot, we were ordered to the frontier that afternoon. When we arrived at St. Joseph, Mo. next morning, our number was diminished one half. I was astonished to learn from an old veteran, that a great number of young men enlisted for no other purpose than to get transportation. However, Ike, Kentucky and myself reached our destination, and have ever since continued friends, eating bacon and breaking hard tack, in peace with one another and the rest of mankind.

C. E. M.

Potatoes.

(*From the Farmers Advocate.*)

As several are writing to us to know more about the different varieties of potatoes we deem it our duty to reply.

As the Rose has been making the greatest talk in Canada, we must say that on light, dry and quick land, in good heart, they have done well, and the parties receiving them are well satisfied. For early cropping, quality and yield, they will be extensively planted. We do not find them of equal quality with the Calico for winter or fall eating. On clay soils and damp land they do not answer. They are more liable to rot than any other variety we have tried. In clay soils.

THE GOODRICH

Has given far more satisfaction than the Rose. They stand most in public favor; are very prolific, of good, fair quality as early potatoes, but are not equal to other sorts as a fall potato.

The Harrisons have out-yielded anything we have yet fully tested. The crop is prefectly astonishing.

The Calicos, on suitable locations, have yieldved largely, but cannot be called as prolific as some other varities. For quality it stands No. 1 in our estimation, far surpassing either of the above varieties.

We have raised a few of the following varieties, but not sufficient to fully report on, and must take our information mainly from others. We believe they are destined to surpass the foregoing varieties, as the above varieties have surpassed the old common sorts.

The Willard Seedling appears a very handsome, well shaped, red potato, and is highly spoken of. Its appearance equals any. They should be tried; we intend doing so, as we are pleased with their appearance. We should judge them to be a very hardy variety.

We will quote from Bliss's Catalogue the account of the following, and the culture of potatoes.

We have made our selection from the best varieties known. We imported the Peach Blow from England. Many now think it a superior potato, but we struck it off our list for four reasons: they are very late in ripening; they are the worst potatoes to dig; they do not yield as largely as the new varieties. The Mitches rot badly, and do not yield as well as the new varieties.

The Pinkeyes are about played out.

The Australians do not crop well, and rot badly.

Pinkes, Flouaders, and Neshonics are coarse. This is as we find them in this locality.

CULTURE.—A deep, thoroughly drained, light, sandy loam or pearly soil is most suitable for the potato. If the soil is new, (other things being equal,) as much the better; well drained much soil, if manured by culture is appropriate. The application of stable manure, is less thorough decomposed, is now generally considered to increase their liability to diseases, to bring it on at an earlier period than would otherwise be the case, and also to produce the crops of imperfectly matured tubers, which, if they escape the disease while in the ground, are more liable to be attacked after they are lifted than those grown on poorer soil. The ground selected, therefore, should be in fair condition from having been moderately manured for some exhausting green crop in the previous season. But if the only land to be had is so poor as to render it necessary to apply manure in order to insure a fair crop then use charred vegetable refuse, superphosphate of lime, or a very light dressing of well decayed farm yard manure. If green manure only can be had, it should be carted to the field late in the fall, spread evenly upon the surface, and plowed under in the spring; or it may be plowed before applying the manure, and cross-plowed again in the spring. Plow deep and subsoil. Many prefer fall plowing, in order that the soil may be thoroughly disintegrated by the action of frost. Plant as early as the ground can be found in fair working condition; let it be well levelled, harrowed and rolled. Cut the potatoes to single eyes, commencing towards the butt; hold the tuber in the left hand, and with a sharp knife cut as large a piece of the tuber with each eye as their number will admit, drawing your knife towards the centre of the butt, and turn the tuber in your hand as if you were sharpening a pencil. By this method the tubers are more equally divided, and the eyes of uniform size. They should be allowed to dry two or three days after cutting. Should this not be convenient, let the sets be well rolled in plaster before planting absorb the the moisture. Plant in hills or drills, as you may prefer. Mark out your ground as if for corn, if in hills three feet apart each way, if in drills they should be three feet apart and one foot in the drills. A single eye is sufficient in either case, though may prefer two eyes when planting in hills. By this method a great saving of seed is effected, with equally satisfactory results. An acre of ground will require about two barrels of seed when cut and planted in this way. The sets should be covered about six inches leaving the soil over them, if at all heavy, as open and loose as possible, if light, slightly pressed down. Before planting place in each hill a handfull of compost, prepared as follows:—Take one cask of lime and slake it with water, stir in one bushel of fine salt, and mix in wood ashes so that it may not be too wet to handle; it will make about five barrels. When the tops are two or three inches above the ground, cultivate or hoe, drawing the soil carefully about them. In the case of early sorts which may be in danger of suffering from frost, the soil should be kept ridged up about the shoots as soon as the appear above the ground, keeping them nearly covered until four to six inches, and all danger of frost is past. Before earthing up, the ground should be well stirred between the rows with a cultivator, or if in gardens, lightly forked so as to pulverize the soil. Keep the ground clear of weeds if you wish for a good crop of potatoes. In digging take advantage of clear and dry weather, as soon as the tops are dead. Let them dry upon the barn floor, and stow away in a cool dry cellar.

BREESE'S KING OF THE EARLIES, OR NO. 4.—This is without exception the earliest variety in cultivation, having been carefully tested by many prominent agriculturists in various parts of the country the past season, and by them pronounced from five to ten days earlier than the celebrated Early Rose, and fully its equal in quality, productiveness and general appearance. It is described by the originator as follows:—"Raised in 1862 by Albert Breese of Hubbardton, Vt., from a seed ball of the Garnet Chili; vines quite dwarf, averaging from ten to twelve inches; bears no seed balls, leaves large, tubers large and handsome, roundish, and slightly flattened; eyes small and somewhat pinkish, skin flesh color, or dull pinkish white, hoary, cooks well, and is of the best quality for the table. Has thus far proved very hardy and the earliest in cultivation. It possesses one great advantage over all other varieties on account of the dwarf of the vines, in consequence of which they can be planted much closer, both

CHANGE OF BUSINESS

New Foundry Firm.

The Subscriber is retiring from the Foundry Business in which he has been engaged for the past 15 years, begs to return thanks to his friends and the public in general, for the liberal patronage conferred upon him, at the same time he would beg to state that the business in future will be carried on by his BROTHER JAMES and JAMES A. DAVIS, under the firm of White & Davis. Mr. Davis is well known as a First Class Machinist and Millwright, therefore I have every confidence in recommending the New Firm to the public, feeling assured that all orders entrusted to them will be executed in the most satisfactory manner, and with dispatch.

JOHN WHYTE.

Peterborough, April 1st, 1871.

N. B.—Parties having Notes and Accounts to settle, will please bear in mind that the Books of account and Notes will be at my Woolen Mill, West of Whyte & Hamilton's Foundries.—J. W.

The Subscribers having Commenced Business in the Old Stand of John Whyte, Esq., as (Founders, Machinists and Agricultural Implement Manufacturers.) beg to say that they keep on hand al. kinds of

AGRICULTURAL IMPLEMENTS,

SUCH AS

STEEL, COMMON, AND GANG PLOWS, HARROWS, ROOT CUTTERS, CULTIVATORS, HORSE HOES, GARDEN AND FIELD ROLLERS, HAY AND STRAW CUTTERS, with almost every Implement used on the Farm.

General Repairing of Reapers, Mowers, Threshing Machines and Implements of Husbandry on the Shortest Notice.

Parties about purchasing any of the above Implements will do well to call and inspect our Stock on hand, before making a purchase elsewhere.

WHYTE & DAVIS.

Peterborough, April 1st, 1871. 15-tf.

Peterborough, April 13th, 1871.

Carpet Ware House.

The Subscribers have opened in connection with their business, a **Carpet Ware Room**, where they have now in Stock a Choice Supply of BRUSSELS, TAPESTRY, ALL WOOL, AND OTHER CARPETS; Floor Oil Cloths, Crumb Cloths, Door Mats, Window Curtains and Furnishings, All of which they offer for sale at **City Prices.**

Their Tapestry Carpets, which are very beautiful, are **Private Patterns**, made for a New York Establishment, and they cannot be bought in any House here.

CLUXTON, HENDERSON & CLUXTON.

April 13, 1871. 15-3ins

DAILY LINE TO

ROCHESTER.

The Superb new Lake Upper Stare Cabin Steamer.

NORSEMAN,

Carrying United States and Canadian Mails and Express

Leaves Port Hope every Morning!

FOR ROCHESTER

All trains leave Port Hope on arrival of Grand Trunk Railway Trains from East and West, arriving at 9 o'clock (except Saturday), when the leaves at two P. M., for brighton.)

RETURNING,

leaves Port of Rochester (Charlotte) every morning at 9 o'clock (except Saturday), when the leaves at two P. M., for brighton.)

This is the favourite summer route from Toronto to Rochester, Albany, &c. The cheapest and quickest route from points East of Port Hope on the Grand Trunk, to Rochester, Buffalo, &c. The favourite route to Avon and Clifton Springs, &c.

Passengers and freight take cars alongside steamer at Rochester Landing.

Connection made at Cobourg ask Port Hope with Several Rail Line Steamers flop Hamilton and Montreal.

Address R. C. CARTER, PORT HOPE, ONT.

NOTICE.

Municipality of Eurleigh.

The Court of Revision

For the Townships of Burleigh, Anstruther, Chandos, Cardiff and Monmouth, will hold its first sitting at Eastland's, Apsley, on

FRIDAY, 5th DAY of MAY,

Commencing at 10 o'clock, a. m.

HENRY EASTLAND,
Township Clerk.

Apsley, 3rd April, 1871. 15-td.

NOTICE.

The first sitting of the

COURT OF REVISION

For the united Townships of Galway and Cavendish, will be held at the Union School House, No. 2, on

Saturday, 13th Day of May, 1871

At 10 o'clock, a. m. Of which all interested will govern themselves accordingly.

C. IRWIN,
Township Clerk.

Galway, April 3rd, 1871. 15-td.

NEW ADVERTISEMENTS.

Change of Business.—John Whyte.
New Foundry Firm.—Whyte & Davis.

Abstract.—Peterboro Union, Grammar and Common School.
Carpet Warehouse.—Cluxton, Henderson, & Cluxton.
Return of Convictions.—C. A. Weller.
Court of Revision.—Municipality of Burleigh, &c.
Court of Revision.—Municipality of Galway and Cavendish.
Daily line to Rochester.—R. C. Carter.
To the Ladies—Ferguson & Elder.
Farewell Visit—Miss Jeanie Watson.

The Peterborough Examiner

PETERBOROUGH, APRIL 13, 1871.

Editorial Items.

The Show of the West Riding will be held in Peterborough, on the 22nd Inst.

The fall wheat in the Towhships of Monaghan, Smith, Cavan, and this section of the country generally, looks well.

EAST RIDING.—The Spring Show of Horses, in connection with the Riding Agricultural Society will be held in Keene on the 20th instant.

Miss Jeanie Watson—"Scottish Nightingale"—will give an entertainment, on Monday evening, in the Music Hall, under the auspices of the St. Andrew's Society. She was very favorably received in Toronto. The *Globe* says:—"The lady acquitted herself with her usual ability, and rendered the songs of Auld Scotia in a style which won the hearty applause of all present." The lovers of Scottish Song, should all go and hear Miss Watson on Monday evening.

MAPLE LEAF CRICKET CLUB.—According to announcement a meeting of this Club was held on Monday evening, and although the night was unfavourable, there was a good turn out of the young men. We feel sure that this Club will gain for itself during the present season a name worthy of the "Maple Leaf." The following are the names of the Officers for the present year: J. Dolan, President; Wm. Spence, Vice President; Thos. Rutherford, Captain; Geo. Chalmers, Sec. & Treas.; W. Walsh J. Montgomery, Wm. Hartley and Thos. Montgomery, Managing Committee. The Club, we believe, intend playing several foreign matches this season.

There is a general cry of dissatisfaction about the number of hogs and cows running at large in the town. The cows are not such a nuisance as the hogs, but still many of them are sources of constant trouble and annoyance, by breaking down fences gates and doors, and some of them opening latches. with no common readines Very often too, there are ten or twelve in waiting to make a rush as soon as an entrance is made by the leader. There should be a strict law against those animals that are breachy, or that open gates or doors, so as to prevent their being at large. It would often be more profitable for a few to rent a pasture field and give it free to keep those cattle off the streets, as they are fearful enemies to shade trees, gardens and pleasure grounds. There are some harmless cows, which perhaps do very little if any harm beyond the amount of dirt they leave on the side-walks. They could be borne with, but the most stringent bylaws should be made against the other class which to the latter evil add all their other depredations. Pigs, however, have few advocates for general liberty for them, and the fewer the better. Yet they are to be found almost everywhere through town. We see from the last council minutes that something is being done to provide Pounds, and then there will be, likely, more care to keep them in close quarters. They should not be allowed to run at large.

Shade Trees.

This is the season for planting ornamental trees. Already a considerable number of trees have been planted along the streets, but there is still room for extending the work. At a very little outlay handsome rows of shade trees might be secured almost along every street in the Town. In a few years they become quite an ornament to the Town, and afford a pleasant shade from the rays of the sun, besides lending an agreeable and lovely appearance to the residences on the streets where planted.

There is not, however as much interest taken in the work as could be desired, nor is there as much protection against injury to the young trees as there should be. Thoughless boys and men are too often found barking them with their knives while hanging round in the evenings Cattle, too, do their part in breaking and thus destroying them. Still we should not be discouraged, but go on planting, and in a few years their beauty will ensure them from thoughless boys and a By-Law would ensure them from struggling cattle.

The Council too, might aid the work by offering a trifle for every young tree planted—if the sum should be only 25 cents—enough, to pay for the trees; or perhaps for putting up defences around each. What Councillor will take the lead in getting something done to ensure a row of maple or elm, or some other handsome tree, on every street in town. Hereafter, the citizens would have a monument to his honor, that would not be ruthlessly demolished, or easily forgotten.

France.

The Rebellion in Paris has assumed a very serious aspect. The communists have possession of Paris, and are making every effort to maintain their position by force of arms; already several engagements have taken place in which the communists have been worsted, but not completely defeated. The streets are barricaded every where, and the Versailes Government are bombarding the city. Paris is, therefore, besieged by Frenchmen, instead of by Prussians, and as much blood is likely to be shed in the Rebellion against the Versailes Government as there would have been in taking the city by the Prussians.

A special dispatch from Versailles to the *Tribune* on Monday states that the insurgents made two sorties on Sunday—one against Chatillion Plateau. A sharp fusilade was kept up for two hours, and the sorties was repulsed. Ten hundred men occupy chatillion. A Versailles brigade about leaving was ordered to remain and reinforcements were sent forward. Another sortie by Autenil and the Point du Jour gates has taken place. The Communists occupies Bastions and other villages on the Seine and has arrested the municipal councils for refusing to obey it. The cannonade from Montmartre drove away the inhabitants of Puteaux and Courbevoie. To-night there was a violent cannonade towards Meudon. 23,000 French regulars are expected from Germany on Wednesday The Prussian garrison at St. Denis has been reinforced with five thousands Royal Guards.

London, April, 11.—The Nationals were attacked at Asnieres and claim a victory. The strength of the army of Paris is 200,000. Torpedoes have been placed in the avenue of the Grand Army.

Chatillon is occupied by twelve thousand insurgents who have made a sortie against the plateau in which the ware repulsed.

The insurgents are said to have made a demand upon the church for one million francs and avow that they will kill the Archbishop of Paris if it is not paid.

London, April 11.—The Versaillists are completely masters of the situation at Neuilly, but spare the inhabitants as far as possible from bombardment. The fire of Valerien is consequently very slow.

Affairs are, therefore, in a very unsettled state but there can be no doubt of the overthrow of the communists and that ere long.

Dominion Parliament.

There has been considerable debate in the House of Commons, but there is an evident disposition on the part of the supporters of the government to stick to them no matter what may come of the Country. There is a want of confidence apparent, but the Members are afraid to allow their convictions to direct their votes. Members who have been looking for office are not willing to spoil their chances by opposing the party in power, and the consequence is, that Cartier is able to carry matters his own way. The Members for Manitoba have taken their seats in the House, and Mr. Delorme, the member for Provencher, was almost forced to answer before a committee for the part he had taken in the rebellion last winter. But owing to the lateness of the Session, and the doubts that a committee would not be able to report before its close, it was thought best to accept Mr. *Delorme's* declaration that he had no part in the murder of Scott, and that he did not know of it till two days after it had taken place.

There is great dissatisfaction everywhere on account of the immense amount voted at once for the Railway to British Columbia, but right or wrong it is done, and the result can only be awaited. The end of the Session must be near at hand, but the day of proroguing has not yet been announced.

It may be that several office-seekers will be enabled to secure place on the great Pacific R. R. and save themselves from rendering an account of the Session's votes.

The people of Ontario never can endorse the scandalous extravagance of the present government in voting the Dominion into such an enormous debt.

Town Council.

APRIL 10th, 1871.

The Council met. The Mayor in the Chair.—Present, Messrs. Toole, Denniston, Morrow, Rutherford, Edmison, Stevenson, Doherty, Henthorn, Smith, Lundy and English.

The minutes of last meeting were read and confirmed.

A circular from the Hon. J. Carling, Commissioner of Public Works, on Emigration, was submitted and received.

Communications were read from George Rule, asking compensation for a sheep killed by dogs on the 22nd March From T. B. Clementi, calling attention to the absence of any traces of the Original survey of the Town, and the consequent difficulty of establishing any permanent basis, by which surveys would be governed—and suggesting the planting of stone monuments at such places as might be deemed advisable. The latter was referred to the Street and Bridge Committee; the former to the Committee on Finance.

Petitions were received from D. Lynch and others, asking for a sidewalk on Downie Street. From Thos. Lannin and others, asking the Council to grade and lift up the East side of Simcoe; from Lisa Switch and others, asking leave to lisa switch down on Bethune Street, near McGlover's Store House. From Mr. Whyte and others, against the said switch—were referred to the Street and Bridge Committee.

On motion of Mr. Smith, seconded by Mr. Rutherford, Mr. Smith and the Mayor's names were added to the comittee to which the petitions of Mr. Glover and Mr. Whyte were refered.

On motion of Mr. Denniston the communication of Mr. Clementi is referred to the Street and Bridge Committee, with instructions to consider the advability of acting on the suggestion contained therein, and to report at next meeting of the Council.

The special committee on Mr. Croft's communication reported—recommending more care in future. The rport was received.

In the absence of the chairman of the Finance Committee; Mr. Stevenson read and submitted the following report, which was received and adopted—

The Committee on Finance beg leave to report that they have examined into the following accounts and claims—and recommend that they be paid.

John Howden in pursuit of person who escaped.....	$2.00
5 pelling places for bg. cotion,	$11.00
John Duig drawing wood.....	.25

As to the claim of E. C. H. your committee cannot recommend its payment.

The other matters referred your committee, are laid over for further consideration.

All of which is respectfully submitted.

Jas. Stevenson,
Acting Chairman.

The Committee on the Mayor's salary submitted the following report, which was received and adopted:

"The committee appointed to consider the question of salary to the Mayor for the present year, have met and are of the opinion that the fees of the police court, being funded for the benefit of the town, and the Mayor discharging the duties of Police Magistrate, he should be remunerated for the services in this behalf rendered to the town, and recommend that so long as he continues to discharge these duties, he be paid at the rate of one hundred dollars per quarter, one quarter's allowance to be paid forthwith, the second quarter's allowance to be paid on the first day of July next. The third quarter's allowance to be paid on the first day of October next, and the last quarter's allowance to be paid on the last day of the present year."

Your committee is further of opinion that the town is now sufficiently large to accomiate the appointment of a police magistrate, and would recommend that the attention of the proper authorities be called to this matter, and further that upon such appointment being made it should be understood, that no further salary or allowance should be paid to the mayor of the Town, as such payment is only justifiable as a compen ation for discharging the duties of a police magistrate.

JAMES STEVENSON.
Chairman.

The Mayor, as chairman of the special committee, to which was referred the extension of the Town limits, read and submitted a report suggesting such extension, and the metes and boundaries of the several wards so extended; the report was received and adopted.

Moved by Mr. Denniston, seconded by Mr. Lundy, That it is expedient that the limits of the Town be extended, as set out in the report of the special committee, adopted by this Council on this evening, the 10th of April, 1871; and that it is expedient that a new division into wards be made of the town and proposed extension as aforesaid and out described in the said report. That in the opinion of this Council the probable exigencies of the town require that the proposed addition should be made, and new Divisions into wards as proposed, be carried into effect as soon as possible—and that for this purpose, the Mayor be requested to prepare a memorial from this Council to his Excellency the Lieut. Governor in Council—setting out the said report and this resolution and the votes taken thereon, and containing a prayer that his Excellency may be pleased to cause the necessary steps to be taken, and the necessary proclamations to be issued to carry into effect the desires of this Council as expressed in said report and in this resolution—and that his Worship the Mayor and the Town Clerk sign the said memorial on behalf of this Council and affix the Corporate seal thereto, and remit the same to the Provincial Secretary.

All the members present voted "yea" on this motion.

On reference to the matter of the parties on Bethune Street, who suffered damage by the extension of the Railway North, and which was referred to the Mayor, His Worship read and submitted his opinion thereon, which was referred to the Finance Committee.

On motion of Mr. Stevenson, seconded by Mr. G. Edmison, the Council went into committee of the whole on the second reading of By-law, for the erection of a new Town Hall. Mr. Smith in the chair. The By-law was read, and blanks filled in.

On motion of Mr. Stevenson, seconded by Mr. Doherty, the By-law was referred to the Mayor with power to affix the seal to it before submitted to the people, if necessary.

On motion of Mr. Toole, seconded by Mr. Rutherford, the Street and Bridge Committee were authorized to make arrangements with one or more persons who would accept the office of pound keepers for the present year, and to report at next meeting.

On motion of Mr. Smith, seconded by Mr. Lundy, the Street and Bridge Committee were instructed to examine all the streets, bridges and sidewalks in Town, in order to report to the Council what amount will be necessary for repairs and to report at an early day; and that notice be given that all persons wanting repairs done on streets, bridges and sidewalks, petition the Council before the 1st of July, as no new work will be taken into consideration after that date.

On motion of Mr. Toole, the tenders for printing were referred to the printing committee with power to dispose of the applications.

On motion of Mr. English, seconded by Mr. Stevenson, the Council adjourned for two weeks.

Admission of British Columbia.

(From South Simcoe News.)

Of late, owing to interest taken in the Ontario Elections, the proceedings of the Dominion Parliament, have excited but little notice or comment, and the pressure of local matter has excluded any notice of them. Now that comparative calm and leisure has returned, we shall endeavour to keep our readers posted to the end of the Session.

The most important measure that has occupied the House, has been the Bill for the admission of British Columbia. The resolutions introduced by the Government as a foundation for this Bill, provided for a much larger representation than Columbia, according to the Confederation Act is entitled to; for the payment of heavy subsidy, and for the construction of a Pacific Railway, within 10 years, and estimated to cost over *One Hundred Millions of Dollars.* These propositions have been the subject of a long and exciting debate. The opposition made a vigorous effort to secure a modification of the terms, and especially to prevent the country being pledged to such a fearful expenditure in so short a time. But in every instance they were voted down, though by small majorities. The resolutions have been carried, and a mad scheme undertaken, which will completely cripple us, by imposing burdens altogether beyond our strength. The following brief notes will give some idea of what the Government Bill involves:—

1st. We are pledged, within ten years, to build a Pacific Railroad, between 2,500 and 3,000 miles long, at an estimated cost of, from *One Hundred, to One Hundred and Eight Millions of Dollars*

2nd. The working expenses of the line, and interest upon its cost, will vary from fourteen to twenty millions, or more than the whole present revenue of the Dominion.

3rd. This expenditure we are pledged to: thatis positive; while the amount that it will be reduced by the sale of public lands, and returns from traffic is purely speculative; and seeing that the country through which the road is to pass, is for the most part a wilderness, said reduction for yeras after the completion of the road must be very trifling.

4th. The expenditure for this road will increase our public debt to over two hundred and fifty millions of dollars—in fact, according to some estimates to four hundred million dollars—vastly greater in proportion to our resources than that of the United States.

5th. The interest on such a sum, together with the vastly increased expense of administration, would necessitate, after making every allowance for increased returns, more than twice the burden of present taxation. The following extracts from Mr. Anglin's speech made during the debate present the matter in a clear light.

Hon. Mr. Anglin said he frankly and fully accepted the scheme of Confederation and the legimate consequences of the adoption of that scheme. One of these consequences was the admission of British Columbia at some time, but he did not believe that this proposed bargain was a legimate consequence of the Act of Confederation and he did believe it was a realization of many of the forebodings of those who opposed Confederation. Looking at this scheme purely on its merits it was from beginning to end utterly objectionable. He would not object to the admission of British Columbia on fair terms, though he thought there should be no hurry about the matter, but these terms were not fair or reasonable. The very fundamental principles of the constitution were were trampled upon in the matter of representation. He also disapproved of the pensioning of a number of the officials of that Province. Then again, according to the calculation of the Minister of Finance; the Dominion was to pay at least $100,000 more than she received from the Province. The mere fact of Sherbrooke estimated it at $175,000, and the member for South Wellington at $300,000, and the latter sum, he thought, would be found to be below the actual amount to be paid to the Province in excess of what she paid to the Dominion. He contended that it was not open, or honest, or manly to give $100,000 per year for lands along the line of railway, for the Minister of Customs had admitted that it was only an excuse to give the money, and that the lands were not wanted.

He wished the House could have the secret history of the measure now before it, for he was convinced that no Canadian Government of their own motion dare take the responsibility of making such a monstrous proposition. He went on to argue that the terms of the resolution compelled them to build the railway whether the work was practical or not (Hear, hear.) What did this proposed obligation mean They knew very little of the route, but from Nipissing to Fort Garry, it was pretty well known, was a rough, rocky, barren, and swampy country. That was the concurrent testimony of all the correspondents with the Red River Expedition yet that was the route over which the road would have to be built and they were to be pledged to do it within a definite period of time and without any exploratory survey. Beyond the Rocky Mountains the country was again hilly, and rocky. In reference to that part he quoted from an article in the Victoria *Colonist* to corroborate what the Hon. member for Lambton had said the other night with respect to the sterile character of some parts of the route. He (Hon. Mr. Anglin) liked to be frank, and would say that the article was written to support one railway scheme against a rival scheme. The article spoke of the "Horrible Fraser River Country." "The appalling character of the difficulties," "Stupendous mountains of enormous height," from which land slides perpetually in summer and avalanches sweep down in winter, carrying all before them. The cost of carrying a railway through these rocky defiles would be money thrown away and abolitions on the neck of the Dominion. These extracts, of which he might read more, would serve to give some slight idea of the country. Now the question came up, what must be the cost of railway through such a country as that? The cost of forwarding supplies far into the interior to support the men engaged in the work must be enormous, and the wages of the men would be very large. Under any circumstances, it was the duty of the Government, before asking the House to adopt this proposal, to have been in a position to bring down a complete survey of the whole line, so that they could say upon authority that it was practicable and how much it would cost.

He (Mr. Anglin) thought the estimate of $100,000,000 would be found too small. At any rate the Government knew very little about what it would cost. The member for Wentworth, (Mr. Rymal) had estimated the cost of the railway at two hundred millions of dollars. The member for Lennox, (Mr. Cartwright,) who was well known as a careful calculator, had estimated it at two hundred and forty millions of dollars. Who could say that the Dominion with its present resources could pay their present debt and assume a debt of two hundred and forty millions of dollars, such a debt would be infinitely larger, in proportion to their numbers, than the debt of the United States.

If they assumed that debt, their debt would be as large in proportion to numbers and in proportion to means, vastly larger than the United States. Compared with the revenues of England, this addition of one hundred million dollars would be an addition of £44,000,000 sterling. How were they to meet that large increase of debt? It was to be hoped that population and wealth would increase; but could any one rest mainly suppose that the increase would be sufficient within ten years to enable them to pay this enormous amount? It was well known that prior to Confederation in the old Province of Canada, there was an annual recurring deficit, and yet last year the Finance Minister had to ask an increase of taxation, and it was only owing to the unusual prosperity that he had a surplus this year as well. In connection with that surplus it should be remember that it was principally made up by surplus interest on the Intercolonial Railroad loan, and payments from the Great Western in liquidation for their debt. In view of these facts, was it wise, was it prudent, to add one hundred million to the burden of the country? If they went into the matter not too lightly that amount they would do it for less than he expected if they got it at par. It would cost at least 8 per cent, 4 per cent for management and 1 per cent for sinking fund; that would make $76,000 a year But in addition to that it would cost at least $1,250,000 to run the railway after it was built; that would make an annual burden upon the country of $1,325,000. Where was that enormous sum to come from, and for what object was that great demand made? Merely because the Ministers chose to suppose that if British Columbia was not immediately annexed to the country she would go over to the United States. That was the argument for this extraordinary basis. He could not suppose that the House would believe the absurd statement. He believed no company could be found to build that road, and no sane the Government were simply relying upon the credulity of their friends when they state that any company could be found to construct the work. He would ask were there men in that House representing the people of the country so lost to the sense of duty and responsibility as to give a vote like that, which would plunge the country into irretrievable ruin.

THE RAILWAY.—The Cobourg *World* says:—The movement for the resuscitation of the Cobourg and Peterborough Railway, and its continuation to Bobcaygeon is still in progress; and confidence in the success of the scheme is rapidly gaining strength. A very encouraging meeting was held at Peterborough on Thursday evening of last week, at which a deputation attended from this town. All of the localities interested seem to be alive to the importance of the work; and Mr. Fowler will assuredly lose no time and spare no pains in pushing to a successful completion the enterprise he has taken in hands. We are sure the voice of the ratepayers will be with the Council in their resolution to assist the work by a reasonable bonus; and we trust the day is not very far distant when we shall see our communication re-opened with the "back lakes." We shall refer to this matter, from time to time, as the work proceeds.

PERSONAL.—We learn that Mr. Jos. A. Clark, M. A., formerly of this town, has resigned his position as Principal of the Newburgh High School, and accepted an offer from the Board of Trustees of the Peterboro Collegiate Institute. He bears flattering testimonials from the Newburgh school board, and we doubt not but in his new situation he will discharge the duties devolving upon him in a manner creditable to himself, and to the entire satisfaction of those concerned. He goes to Peterboro in a few days. *Lennox Post.*

The vote against concurring the conduct of Dr Tupper in the Manitoba scandal was styled by the ministerial papers "a crushing defeat of the Oppositionists." It was more. It was "a crushing defeat" of an attempt to show the world that equity, honesty and manliness were not altogether unknown in the Parliament of Canada.

We had fain hoped that we had read the last newspaper apology for the Halifax scandal, and tried to think that if the guilty parties were not to be tabooted the society of honest men, it would be well to forget that such men as Dr. Tupper and his associates in crime ever lived. But ministerial organs persist in raking over the foul heap and exposing fresh abominations. On Saturday we quoted from the Toronto *Telegraph* to show how culpable was Dr. Tupper even if no barefaced and shameless attempt at bribery had been made. In Friday's issue of that paper we find a reiteration of the damaging statements. In an exceedingly weak article purporting to be an attack or, the *Globe* for the part it has taken in exposing the affair, it says:—

"On the testimony of a man who is known—even outside his own locality—as a tattered prodigal and a characterless vagabond, he takes upon himself to charge a Minister of the crown with the foulest motives, and with a misdemeanor of the gravest possible nature. . . . McNab had for some time been promised an office by Dr. Tupper at the request of his father, the Hon. Mr. McNab.

The *Telegraph* told us all this on Thursday; why reiterate statements so disgraceful? It is motive is to screen the country by a full appreciation of the iniquity of Tupper & Co., the course it is pursuing is right enough, but to play the part of apologist and assert day after day that Dr. Tupper had promised "a characterless vagabond and tattered prodigal" a Government situation is really too outrageous, it is positively insulting.

For decency's sake let us hear no more of this.—*Evening (Montreal) Star.*

UNITED STATES TOBACCO TRADE.—The production of tobacco and cigars in the United States fr the 30th of September. 1832, to the 20th of June, 1868, amounted in the whole to 312,839,886 lbs. of tobacco, paying a revenue $80,090,660 and to 3,727,421,219 cigars, paying a revenue of $1,853,904. The returns to the Bureau of Internal Revenue for the year ending the 30th of June, 1870, give the production of tobacco and snuff at 61,869,938 lbs. on which a tax of 33 cents o lb. was paid, and 28,698,142 lbs. on which a tax of 16c. was paid. The revenue from tobacco and cigars during that period was $31,260,767, of which New-York paid $7,922,396. Between Michaelmas, 1862, and midsummer, 1870, the United States Government derived from tobacco, snuff and cigars, an aggregate revenue of $141,295,303.

DOES ADVERTISING PAY.—This question is easily answered by the following, which we clip from a contempory:—The Joseph Hall Agricultural Works, of Oshawa paid the Globe $1500 for a whole page advertisement, one insertion in the daily and one in the weekly. From two sales which they trace to that advertisement, they cleared the whole amount.—Who will now say that advertising does not pay?

DIED.

In Dummer, near Norwood, on the 30th ult., Malcolm Jamce, youngest son of Mr. Wm. McMillan, aged 5 years, 10 months and 15 days.

At Dummer, on the 30th of March, Richard Ennis, in the 97th year of his age.

At Peterborough, on the 7th instant, Mrs. Hefferan, aged 33 years.

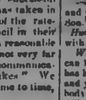
A Good Horse.

There is much pleasure and profit in the service of a good horse, and but very little of either in a bad one: a person from choice will select a good horse; many however are possessed of one who need not be. We think there are few horses so bad, but that their condition can improved and rendered more valuable and useful by the use of that which there is nothing equal to Durkee's Condition Powder and Arabian Heave Remedy; it has effected astonishing results in thousans of cases, Remember the name and see that the signature of Hurd & Co is on each package.—Northrop & Lyman Newcastle C. W., proprietors for Canada. Sold by all medicine dealers.

The mind governs the muscles through the Nervous system, as the telegraph apparatus is influenced by a remote operator through the wire. If the mind is impartured by age or other causes, the somathetic nerves become debilited, and though the nerves the muscles of the Stomach Liver, Heart, Lungs or Genital organs become weakened, and disease in the form of Dyspepsia, Disease of the Heart, Weak Lungs or General Debility follows, with their accompanying train of evil. FELLOWS COMPOUND SYRUP OF HYPOPHOSPHITES restores tone to the mind, the nerves and the muscles. In this way it overcomes disease.

HEALTH IS STRENGTH.—To prevent or conquer disease is one of the greatest attainment ever aimed at by man; and Byron's Pulmonic Wafers will as sure cure coughs, colds, tickling in the throat and Pulmonary complaints as war and pestilence will destroy. Neglected colds if not attended to sooner or later lead to incurable consumption, and the strength of the strongest men falls if neglected. The readiest and best means ever known for the cure of these complaints is "Byron's Pulmonic Wafers" which have been throughly tried for the last twenty years and have never been known to fail. Singers and public speakers will also derive great benefit from the use of them Sold by all medicine dealers, at 25 cts. per box



Wife to husband:—Charles, I wish whenever you are in the village to-day that you would step into the Druggist's and buy a bottle of the Pain Killer. Be sure and get the genuine made by "Perry Davis & Son."

Husband.—What on earth do you intend doing with the PAIN KILLER my dear?

Wife:—Fredy caught severe cold last night can hardly speak, he is so hoarse and Georgy has had the toothache since yesterday morning, and yourself with Rheumatism. If what every body says can be believed, the PAIN KILLER will cure these complaints and such a host as this is we are always in trouble, and it would be a perfect God-send if we could find something to ease our lesser afflictions.

Husband.—Well, Mary, anything for a quiet house we will try the PAIN KILLER.

(To be continued.)

IF The PAIN KILLER is an internal and external remedy for pain For internal pains, Cramps, Spasms, Sudden Cold and Bowel Difficulties, a few drops on sugar will give immediate relief. As a liniment it is without an equal; it stops pain almost instantly. Be sure and get the genuine made by Perry Davis & Son and sold by all Druggists and Grocers.

THE GREAT FEMALE REMEDY.
Job Moses' Perfected Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all exsdes and removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES.

It is peculiarly suited. It will be a short time, bring on the monthly period with regularity.

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Ayscrics, and Whites, the Pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved

JOB MOSES', NEW YORK, SOLE PROPRIETOR

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will ensure a bottle, containing over 50 pills, by return mail.

Iron ore, taken from the back hills, near the highest level of the Union Pacific Railway, has been smelted at Omaha and found of excellent quality, yielding 60 per cent, of superior metal These hills of the ore lie near the railroad.

CANADIAN PAIN DESTROYER.

A Family Medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been proper y followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

THE CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier, alterative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phathisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, Diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatism and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, br less, sprains, chilblains, cholera morbus, bilious cholic, cholera infantum, dysentery, &c.

Price only twenty-five cents per bottle.

NORTHROP & LYMAN.

Flax! Flax!!

Farmers intending to grow flax will please apply for their seed early. Seed supplied and payment taken in flax by calling on

SAMUEL TAYLOR
or H. CALCUTT.

I would beg to call the attention of farmers that I have a machine for pulling Flax, which will pull 4 acres a day. I will let the machine and send a man with it for $2 per day. By the assistance of the puller. Flax is the cheapest crop harvested. For information I would refer you to—Jonathan Stephenson, Smith; W. Kilburn, Smith; J. Parnell, Smith; A. Scott Smith; I. Scott Otonabee; W. Rutherford Otonabee.

SAMUEL TAYLOR,
Flax Mill,
Ashburnham

Ashburnham, March, 1871. 11-3ins

CHANGE OF BUSINESS.

NEW FIRM!

The Subscribers respectfully beg leave to announce that they have commenced the business of

General Dry Goods Merchants,

In the Premises lately occupied by Mr. Cluxton, at the

SIGN OF THE GOLDEN FLEECE!

They are now Receiving their FIRST NEW STOCK of

Staple and Fancy Dry Goods

MILLINERY, MANTLES, &c.,

Which they have purchased under most favorable circumstances; goods being much Cheaper at the present time than they have been during the past seven years, and indeed, fully as cheap as they were in the markets before the American war. It is their determination to do a lively business, in fact, to "keep the ball rolling," by putting on *Light Profits*, and keeping

FRESH AND FASHIONABLE GOODS,

They wish to conduct their business upon the same principles on which it has hitherto been carried on in these premises, viz.:—"Even Justice to all," and they hope to be able, not only, to retain the old friends of the establishment, but to add to the number.

Their business will be conducted upon the Cash System, but in the few instances where Credit may be required, the accounts will be made out quarterly, when if not paid, interest at the rate of 7 per cent will be added.

They will keep no trashy goods, but will endeavor to retain the good name of the old establishment, by keeping a good article at a moderate price.

They now beg respectfully to solicit the patronage of the public.

CLUXTON, HENDERSON & CLUXTON.

Peterboro, March, 1871. 13-3in

GIVING UP BUSINESS.

The Subscriber having sold his stock in trade to

MESSRS. McKEE & DAVIDSON,

And being about to retire from business, begs to return his sincere thanks to his numerous friends for their liberal patronage during the last Ten Years. He would also respectfully solicit the Continuance of the same for his successors, who will, no doubt, treat their customers honorably, and be prepared to supply them with every article in their line at moderate prices.

R. HAMILTON.

Peterboro, March 29, 1871

In reference to the above, we beg to announce to the public generally that we have purchased Mr R. HAMILTON'S entire

Stock of Hardware,

And will carry on the business in all its branches in his old stand, at the "Sign of the Circular Saw" George Street. We are also receiving large additions of New Goods, consisting of

Shelf and Heavy Hardware. Paints, Oils, Glass,

Agricultural Implements, &c.

We are prepared to deal with customers on liberal terms. An inspection of our stock is respectfully solicited.

McKEE & DAVIDSON.

Peterboro, March 29th, 1871.

NOTICE.

The subscriber would remind those indebted to him, that all Accounts and Notes due must be paid forthwith, otherwise they will be placed in Court for collection.

R. HAMILTON

OFFICE—At his Store in W. A. Scott's Warehouse—Charlotte Street.

Select Poetry.

The Simple Wife.

BY JOSEPH TAYLOR.

How very late it is, she sighs;
I listened for him hours ago;
It is not right, night after night,
His business should keep him so.

I know his loving, anxious heart,
And why he burns the midnight oil;
With all the gains his care obtains,
He makes of life itself a toil.

How often at the dawn of day,
Between the hopes of love and fear,
Worn out in mind he fails to find,
The key wherewith to ope the door.

How often, in his great fatigue,
He comes, o'erweighed by all his woes,
Some rest to seek, but is so weak,
He goes to sleep in all his clothes.

How often, in the dead of night,
He tosses round when all is still,
And leaves his bed with aching head,
At morning light, and seems so ill,

How often, too, when he essays,
In broken words my heart to tell
Of all the cares for me he bears,
I cannot understand him well,

And though they tell her that he goes,
Each night with ancient chums to dine—
To smoke and drink, and not to think,
And there partakes of too much wine—

She only sighs, "How late it is!
I listened for him hours ago;
It is not right, night after night,
His business should keep him so."

The Average Jurors.

Question alternately by the Court, the State's Attorney and the defence, as usually answered by "an intelligent juror;"

'Are you opposed to capital punishment?'

'Oh, yes—yes, sir.'

'If you were on a jury then, where a man was being tried for his life, you wouldn't agree to a verdict to hang him?'

"Yes, sir—yes I would."

"Have you formed or expressed an opinion as to the guilt or innocence of the accused?"

"Yes, sir!"

"Your mind, then; is made up?"

'Oh, no—no, it ain't."

"Have you any bias for or against the prisoner?"

"Yes, I think I have."

"Are you prejudiced?"

"Oh, no, not a bit."

"Have you ever heard of this case?"

"I think I have."

"Would you decide, if on the jury according to the evidence of mere rumor?"

"Mere rumor."

"Perhaps you don't understand; would you decide according to evidence?"

"Evidence."

"If it was in your power to do so, would you change the law of capital punishment or let it stand?"

"Let it stand."

The Court; 'Would you let it stand or change it?"

"Change it."

"Now, which would you do?"

"Don't know, sir."

"Are you a freeholder?"

"Yes, sir, oh yes."

"Do you own a house and land, or rent?"

"Neither—I'm a boarder."

"Have you formed an opinion?"

"No, sir."

"Have you expressed an opinion?"

"Think I have."

The Court: "Gentlemen, I think the juror is competent. It is very evident he has never formed or express an opinion on any subject."

California has a female engineer.

That which goes up and down the hill and across moves. The road.

Rome before its occupation by the Italians, had two newspapers: now it has twenty.

Home-music—Hus-bands.

An ugly idea—A black eye, dear.

Working generally on a strike—Blacksmith.

A pledge of love—Pawning the engagement ring.

A great noise—The one you make putting on the coals.

What's the proper age for a person?—The Parsonage, of course.

A Michigander has written 'an idle in four enstoes.'

A Misanthrope said 'Don't believe half what people tell you.' 'Very well,' said another, 'but which half?'

A man in St. Louis has been guilty of one of the most utterly reckless acts on record. He has defiantly thrown temptation in the way of his heirs by insuring his life for $400,000.

A Bridgeport paper noticing the death of a young man, remarks pathetically: 'His connections are said to be respectable, and his sister was recently killed in Hartford by a horse-carriage.'

A loquacious author, after chattering some time about his piece to shenidon, said: Sir, I fear I have been intruding upon your attention.' Not at all, I assure you,' I was thinking of something else.'

A gentleman who has seen it, thus describes the Tennessee panther: 'When it switches its tail from side to side, and flashes fire out of its big yaller eyes, it 'peered to open jaw if it was streakedly spotted like by furse; but when it goes sorter move gentler, then it 'peered to seem of a dirty—colored brown.

Eternity has no gray hairs. The flowers fade, the hearts withers, man grows old and dies; the world lies down in the sepulchre of ages; but time wrinkles on eternity!—Stupendous thought! The ever present unborn, undecaying and undying—the endless chain, compassing the life of God—the golden thread, entwining its beauties, but old Time shrouds them for the grave its honors are but the sunshine of an hour; its palaces—they are but gilded sepulchers; its pleasures they are but as bursting bubbles. Not so is the storied bourse. In the dwelling of the Almighty can come no footsteps of decay. Its ways of all know no darkness eternal splendor forbids the approaches of night.

A Dabbler in literature and the fine arts, who prided himself on his language, came upon a youngster sitting upon the bank of the river angling for gudgeons, and thus addressed him; 'A dolescence, art thou not endeavouring to entice the finny tribe to ingulph into their denticulated mouths a barbed hook, upon whose point is affixed a dainty allurement?' 'No,' said the boy, 'I'm fishin'.'

Whether of the Lungs, Stomach, Bowels, or other glands and organs,

By Using One to Twenty Minutes.

No matter how violent or excruciating the pain, the RHEUMATIC, Bed-ridden, Infirm, Crippled, Nervous, Sleepless, or prostrated with disease may suffer,

RADWAY'S READY RELIEF

will, in from ONE to TWENTY MINUTES, afford ease and comfort; and this wonderful, so rapid in stopping pain, can be purchased for 25 cents per bottle at almost every druggist's and country merchant's store on this continent, and within one hour's distance of almost every habitation in this country.

RHEUMATISM & NEURALGIA.

If those who are now suffering Pain—no matter what the cause may be, or by what name it is called—if external apply the Radway's Ready Relief to the part of the body where the pain is present. If internal,

30 Drops Diluted in Water,

As a drink; whether Cramps, Spasms, Inflammation, Cholic, Diarrhœa, Dysentery, Colic Wind in the Bowels, and all Internal Pains.

Travellers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pain from change of water.

IT IS BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

FEVER AND AGUE.

Fever and Ague Cured.
Fever and Ague Cured.

Bilious Fever Cured.
Ship Fever Cured.
Yellow Fever Cured.
And Prevented.
And Prevented.

FEVER & AGUE CURED

FOR FIFTY CENTS.

There is not a remedial agent in this world that will cure FEVER & AGUE, and all other Malarious, Bilious, Scarlet, Typhoid, Yellow, and other Fevers (aided by Radway's Pills), so quick as Radway's Ready Relief.

RADWAY'S READY RELIEF

has proved infallible, and will cure these terrible fevers quicker, and without entailing the frightful penalties of Kasgrged Liver, Fat Spleen, Disordered Kidneys, and Saffron-Colored Skin, that are sure to follow the use of the "Cholagogues," "Ague Cures" and other specifics of the horrid Quinine, Mercurial, Arsenic, and other treatments where the medicines used accumulate, and become deposited in the system.

HEALTH! BEAUTY!!

Strong, Pure and Rich Blood — Increase of Flesh and Weight — Clear Skin and Beautiful Complexion, Secured to ALL.

RADWAY'S SARSAPARILLIAN RESOLVENT

has made the most astonishing cures. So quick, so rapid are the changes the body undergoes under the influence of this truly WONDERFUL MEDICINE, that

Every Day an Increase in Flesh and Weight is Seen and Felt.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal, in its many forms, Glandular disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands, and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, Irregular Diseases of the Eyes, Nose, Mouth; and the worst forms of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all Weakening and Painful Discharges, Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of Radway's Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of disease, its potent power to cure them.

Not only does the Sarsaparillian Resolvent stand all known remedial agents in the cure of Chronic, Scrofulous, Constitutional Skin and Syphilitic diseases, but it is the only positive remedy for Kidney, Bladder, Urinary, and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's disease, Albuminuria, and in all cases where there are Brick dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid dark, bilious appearance, and white bone dust deposits, and where there is a pricking, burning sensation when passing water, and pain in the small of the Back, and along the Loins. In all these conditions Radway's Sarsaparillian Resolvent, aided by the application of Radway's Ready Relief to the Spine and Small of the Back, and the Bowels regulated with one or two of Radway's Regulating Pills per day, will soon make a complete cure. In a few days, the patient will be enabled to hold and discharge his water naturally without pain, and the Urine will be restored to its natural clear, and amber or sherry colors.

THE WASTES OF THE BODY

are supplied with new, healthy and vigorous blood, that furnishes sound structure. Hence all suffering from WEAKNESS, DISCHARGES, either MALE or FEMALE, of the Womb, Ulcers, or other organs, whether Leucorrhea, Sperm, or Eruptive discharges of every kind, or from violence of "Self-abuse," from the Genital Glands, or Venereal discharges, or Ulcers, or Sores, through the reparative process of Radway's Sarsaparillian, are arrested, and the ruptured organs healed

THE TRUE THEORY OF CURE.

Radway's Sarsaparillian Resolvent supplies the system, through the blood, urine, sweat, and structure-making constituents, with Tissue-making elements. Flesh-making, Heat or Carbon, and Force-making elements. All of its constituents are nourishing, purifying, and strengthening. *Ulcerous, fetid, fluorous, and drious out of the body* the products of Decay and Corruption. CONSUMPTION, WHITES, SWELLING, DROPSY, SYPHILIS, CANCERS, TUMORS, &c., are all of a scrofulous diathesis, and as such are within the curative range of the Sarsaparillian Resolvent!

1. That Scrofula, by whatever name designated, is the result of deposits from the blood, induced or caused by Chronic Inflammation. That those deposits take place when the blood is *poor, weak, watery*, and incapable of building in solution its proper constituents, or from the presence of some virus or poison in the blood, as Mercury, Cinnabar, Corrosive Sublimate, which is the Corrosive Chloride of Mercury, or other agents given in medicine and which taste, many in the course, corrupted Sarsaparillas, NOT ASSIMILATED OR CHANGED FROM THEIR NATURAL CONDITION.

2. That unless the impurity or nutriments are greater than the wasting, that decomposition and decay will supervene, and the powers of life become exhausted.

3. That the dying body cannot be sustained on any treatment of medicines that do not nourish the system, or fails to nourish the blood, the only medium through which the vital forces are preserved, and on which the growth of the body depends.

4. That Radway's Sarsaparillian Resolvent supplies a want never before presented or known to exist in medicine; that this new found principle in Chemical science, which has been brought to such a perfect system of cure, is established as follows:

1. Its great power in assimilating the food in its first stage of distillation in the process of digestion, or chyme and chyle with the nourishing elements of blood, separating from these liquids refuse and impurities before they are taken up by the lacteals and are formed into blood. Here we see that by its wonderful power it enables the system with the very elements or principles that forms the vital powers of the body, and its chemical action on the blood in its primitive and complete condition separates every atom of effete and imperfect or impure, and of this the true or disease is formed.

MONEY TO LEND.

The undersigned has a few thousand dollars of private funds which he is prepared to lend on mortgage on improved farms.

D. W. DUMBLE.

January, 1871. tf

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

PRACTICAL AND ANALYTICAL CHEMISTS,

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination and disorders, which were aggravated by the scrofulous contamination and they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: Salt Rheum, Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous disease*. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Uterous* affections of the muscular and nervous systems.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for wielding these obstinate maladies to any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa or Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Plain Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaint, Torpidity, Congestion or Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions or Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

HUMBUG EXPOSED.

THE Subscriber begs to inform his customers and the public generally, particularly those intending to buy Furs, NOT TO RETAIN their orders, as there never was a better chance to select Furs than at my store. The stock consists of my own manufacture, and of nothing but the real article. I have none, nor ever had any of the so called German Mink, French Seal, Sea Otter, British Sable, and numerous other high sounding, fictitious names, by which trashy imported articles are disposed of at fabulous prices. Is it not also true that Russian and Western Mink, being colored, is disposed of as Canada Mink? Goods made up for wholesale trade are of inferior quality.

Whether my own manufacture compares favorably with city manufactures, the following will show for itself. It was my own workmanship which secured to Mr. McIver, of Montreal, the First Prize for a set of Ladies' Furs, at the exhibition in 1868, held in the Grand Trunk Sheds at Montreal, against the following competitors:—Messrs Greene & Sons, Brahadi, Henderson, Brown, and several others. Mr. F. W. Lassack, of New York, being one of the Judges for Furs. The same Lady's set was sold to a Baltimore lady for the handsome sum of nearly $400. I believe myself capable of doing now, as I did then.

An Examination of my Stock is solicited.

The Highest Price Paid for RAW FURS.

W. LECH.

Peterboro, October 19, 1870. 42-17m

WILSON, BOWMAN & CO.

Hamilton, Ontario

MANUFACTURERS OF THE CELEBRATED

LOCKMAN SEWING MACHINE,

Take pleasure in announcing that the popularity of the Sewing Machine manufactured by them is still on the increase. They are now turning them out at the rate of 600 per month and yet have been compelled within the last two weeks to increase their facilities to a capacity of 800 thousand per month.

The Lockman Machine from its capacity to sew the heaviest fabrics with linen thread, as well as the finest cambrics with No. 150 Cotton, is pre-eminently the Farmer's Favorite Family Friend.

It is so exceedingly simple in its parts, and so strongly and durably made, that it does not require a mechanical genius for its management.

The manufacturers challenge the world to produce its equal, and yet its price is from Forty to Fifty per cent. Lower than that of any other first-class Shuttle Lock-stitch Sewing Machine.

EVERY MACHINE IS WARRANTED.

Choice Poetry.

Two Picture.

BY EMILY H. MILLER.

I—LOOKING OUT.

Rosy and warm the firelight falls,
In the rich man's home to night.
On the pictures hanging against the wall,
And the children's faces bright.
They have parted the curtain's crimson folds,
Away from the window high,
And their eyes looked out on the whirling snow
And the dull and stormy sky.

Their dainty garments are rich and rare.
Their faces are fair to see,
And the golden gleam of their shiny hair
Is as bright as a crown might be;
And many a stranger stops to smile
At the picture warm and bright,
The beautiful children looking out
On the dark and stormy sky.

II—LOOKING IN.

With tattered clothes and faces thin.
Abroad in the bitter cold,
The poor man's children are looking in
Through the curtains's crimson fold,
The bleak winds toss their rags in scorn.
Their feet are aching and bare.
While they gaze at the beauty and light within
And the children's face fair.

I think as I hasten along the street
Of the beautiful home above,
Where the rich and the poor alike will meet,
And share in the Father's love,
And the Lord will open the shining door.
And gather the dear ones in,
The rich, with their soft and dainty robes,
And the poor with their garments thin.

Choice Literature.

Doomed.

On a handsome lawn fronting an o'd ivy-grown mansion in the State of Virginia, one pleasant afternoon, not many years ago, a group of young people of both sexes were gathered. Standing in their midst was a young woman, bent down with age, looking as if she stood on the brink of the grave; but her dark, restless eyes showed that there was a vigorous life in her mind, if not in her body.

She had been "telling fortunes" for the young people gathered around her, and to all but one she had foretold a bright and happy future. The exception of this rule of blessedness through life was a handsome boy of nineteen, with a dark, passionate face, and an expression which indicated perfect fearlessness.

Five years before the opening of this story an old gentleman and his nephew had moved to Virginia from some northern state, and buying a farm, had made it their home Mr. Mercer and his nephew Frank, were treated with kindness by the gentlemen of the neighborhood, and they received invitations to visit the plantations near them. Frank soon became acquainted with all in the country; but his uncle never left his farm, and seemed to shun society. For this many reasons were given, but the true one was that he had lost his whole family, and Frank's parents having left him to Mr. Mercer's charge he determined to devote himself to the boy, and found sufficient enjoyment in his company and in cultivating his farm.—Though reported very wealthy, and that he always kept a large sum of gold in the house, Mr. Mercer and Frank lived in a quiet way, and made no display.

Thus passed Frank's early youth from his fourteenth until his seventeenth year, when our story opens. A man of superior education, Mr. Mercer had been himnephew's teacher, and had imparted unto him much knowledge of the world, of letters, and people. so that Frank, at nineteen, was as well informed as if he had possessed a cultivated education.—There were those in the neighborhood who was reported that the boy was wild and dissipated, and this found ready believers in others; so that Frank had some enemies as well as many friends.

Thus we find him; and the evening of the commencement of our story he had been invited to an entertainment given by a wealthy planter to his children.

Mr. Dewes, the planter, had three children, the youngest and the lovelie-t of whom was Mary, a girl of twelve. Mary and Frank were the best of friends, and loved each other dearly; so when the fortune teller predicted a dark and stormy future for Frank [illegible] to the children's ears, and she said, 'Do not listen to her, Frank.'

But the boy laughed, and turning on his heel walked away.

Two days afterwards, he left home for a week's hunting in the mountains; but the second night after his departure, the neighborhood was aroused by the startling news that old Mr. Mercer had been murdered by his nephew. One of the servants passing the house at night heard a cry, and seeing Frank's window open, he sprang in and walked across the hall to Mr. Mercer's chamber, from whence the cry came. Lying upon the floor was the old man, dead, while near him stood his nephew, with a bloody knife in his his hand. In fright, the negro rushed from the house and gave the alarm. Persons from the nighborhood were sent for, and Frank was reized against every protestation that he did not kill his uncle, and thrown into jail.

The feeling against the youth was intense, for the negro told the story of how he had found Frank; and a wayfaring peller, who had ascended the front steps to ask to stay all night, corroborated the man's statement.

The trial came off, and the charges were made known. Frank was accused of starting upon a hunting expedition as a blind, and then returning from the mountain by night, had entered the room, and attempting to remove a large bag of gold kept by his uncle, had aroused by him, and upon being discovered had driven his hunting knife into the heart of Mr. Mercer; the gold was on the floor, its weight having torn through the bag when it was raised. The knife with which Mr. Mercer was killed was one he had given to Frank some days before and was a large dirk knife enca-ed in a silver scabbard.

Pale as death, but showing no sign of fear or guilt upon his handsome face, the prisoner sat unmoved by his sentence which was to die upon the gallows.—When asked if he had aught to say, Frank arose, and looking around the court room in a clear voice answered:

"I have! Circumstantial evidence has condemned me! I admit it looks as if I did the deed, but I am guiltless of murder! Dropping my percussion-box in a mountain stream, I returned for more; for without white caps my gun was useless. It was a lovely night, and I determined to enter the house by my room window, get the caps, and return without awaking my uncle. I tied my horse to the fence, sprang into the window, and then heard a loud crash, a call out, and a shriek in the direction of my uncle's room—and I fell over something upon the floor. With fear in my heart I arose, lighted a candle, and saw my uncle's body covered with blood, gold scattered upon the floor, and my own knife, which had done the deed, lying near. I picked up the knife; and thus I was found by the negro and seen by the pedlar. As God is my witness, I did not murder the good old man who has protected me throughout life, and whom I loved as my own father. I am guiltless of the deed, but submit to my fate."

A silence fell upon all; there were, however, but a few who believed the youth's statement; among the latter was Mr. Dewes and his family, who, through all, remained staunch friends.

Frank Mercer was to be hung, to die an ignominious death on the gallows, and hundreds flocked to the little town where the execution was to take place, to see him die. How were they disappointed to find that the night before he had escaped! How, no one knew, but he had left a note addressed to the jailer, thanking him for the kindness shown him while he was in his charge, and his regrets that his escape might cause him trouble, but saying he had had an opportunity of escaping, and took the advantage of it, for he had no idea of dying an ignominious death for an act he was not guilty of, merely to gratify the curiosity of a gaping crowd. Freedom was offered him, and he hoped he would yet be able to prove his innocence.

This was about the subject of the letter, and when it was published in the local paper, there were some who were glad that the boy had escaped the gallows.

Mr. Mercer's property was, in his will, all left to Frank and it was found to be considerable. Trustees assumed charge of it, and before long the quiet community had settled down to its usual routine, and the murder and the escape were, in a short time, almost forgotten.

Ten years passed away, and no work of the fugitive had been heard, and people believed him dead. One exception was Mary Dewes, now grown to womanhood. She had never believed him dead, and through her life had treasured Frank's image in her inmost heart, the mystery that hung around him but adding strength to her regard. Her sisters had married, her mother was dead, and, together with her father, they had lived at the old homestead.

Business calling Mr. Dewes to Havana, he took Mary with him, and they set sail from Charleston in a fine ship running south. They had been some time at sea, when in the dead of night the fearfulest cry of fire was heard which aroused all from slumber. In vain were efforts made to quench the flames. The seamen in fright rushed into the only available boat, and it sank with them, and left them struggling in the ocean, borne away by the wind and waves, while Mr. Dewes and Mary, the captain of the ship and a few others, were huddled away upon the stern, awaiting the fearful doom that must to all overtake them.

"Sail-ho!"

The joyous cry came from the captain who had been straining his eyes over the ocean, in hopes of seeing some vessel coming to save them. Swiftly flying towards them came a low, rakish, three-masted schooner, which ever and anon sent up a light, to prove to those on board the burning ship that succour was near.

Hark! the deep boom of a gun is heard, and as the captain listens he exclaims, "Miss Eewes, we are all right now; cheer up, for there comes a vessel-of-war to our aid."

"Ship ahoy!" came in ringing tones from the schooner, as she came near the burning ship, which was being driven rapidly along by the wind.

"Ahoy!" answered the captain.

"Throw a line from your ship, and I will send you a boat," came in the same clear tones.

The line was thrown, the boat attached, and after a little difficulty, the people from the ship were transferred to the schooner; and Mary was soon in the comfortable cabin, rejoicing over their escape from a horrible death.

At breakfast the next morning, the young captain of the war-schooner, descended to join his guests at the table, and, as he entered, Mary sprang towards him.

"Frank Mercer! Oh! it is you—is it not?"

One glance at the beautiful girl, and though years had passed, Frank Mercer, for it was no other, recognized the playmate whom he loved so well, and whom he had never ceased to think of.

Mr. Dewes came forward, and what a joyful meeting was there; but see a cloud, as if of bitter memories, came over the young captain's face. Mr. Dewes said, "First, let me relieve your mind of one thing. Your innocence in Virginia has been thoroughly established for a negro runaway, hung the other day for killing a woman, confessed just before his death, that he had murdered your uncle, and your arriving when you did had prevented him from getting the gold, made him escape from the house.—He knew your uncle kept a large amount of money, and you being away, as he thought, he procured your knife, and with it committed the fatal deed!"

Frank listened to Mr. Dewes, almost breathless, and then, when he had concluded, he bowed his face in his hands and wept like a child.

"But come in," said Mr. Dewes, at length, we are hungry and need breakfast; and are dying to know how you became a captain in the Mexican Navy."

"My story is easily told, my dear friends; for, after escaping from the prison through your kindness, I went to Mexico, entered the navy, and, having rendered some service rose to my present command, which has been the means of saving your lives."

Little more can be added.

Frank resigned his commission and returned home, when he was lionized by the entire community. He came in possession of his estates, which were greatly increased in value; and, six months afterwards, in the very town where he was to have had the hangman's halter placed around his neck for death, he had the noose of matrimony thrown around him for life, and the bride was Mary Dewes. Thus his life had been both dark and bright in a remarkable degree,

SOCIAL INFLUENCE.—The indifference of most young women to the cause of intemperence is deeper to be regretted. If they would set their faces as steel against social drinking, discountence the visits and discourage all friendly intimacy with those who use liquor, they would save thousands and thousands of young men from a fearful vice, and thousands and thousands of their own sex from the wretched fate of drunkard's wives. But, solar from this being the rule, it is, alas! almost the exception. In social parties, where wine is served, you see young women, with scarcely an exception, drink with young men, and giving smiling countenance to the most dangerous form of all self-indulgence. And who suffers most in the end for all this! Woman herself. On her head falls the sorrow and the suffering. As society now is, every generation grows its harvest of drunkards, and women reap the sad fruits of that harvest in broken hearts and premature graves.

The Japanese, instead of spending their time in listening to a long sermon, march decorously to the temple wherein their priests are performing service, throw in a printed prayer and a little money, and go about their business with a satisfied conscience.

Manufacture of Saws in Sheffield.

ALTHOUGH some of our readers are doubtless well acquainted with the manufacture of the above named articles, says the *British Ironmonger*, we think that the greater part of them are ignorant of any thing connected with the manufacture of saws, and that a few facts relative to this subject will be pursued by them with interest.

We therefore purpose giving an account of a visit we paid to one of the principle saw manufactories in Sheffield. On reaching the factory, we were shown into a comfortable office, and we were told that one of the principal would wait upon us in a minutes, and we were soon after introduced to the managing partner, who, after receiving us with great politeness, told us that he would have great pleasure in sending the saw manager to show us over the works, and explain the various processes.

We were first taken into the rolling mill, in order to witness the manufacturing process from its beginning, and we must confess we were at first startled by the sight that met our unaccustomed eyes, and by the sounds with which were greeted. From every side, while red hot metal was being thrown about in every direction, sounding the loud whirring of rolls, creaking of engines, snicking of shears, rumbling of wheels, and roaring of furnaces. Men stripped to their shirts, with perspiration starting from every pore were busisy employed in rolling ingots of steele, weich are cast on the premises, into sheets, bars, rods, etc. ; but we at present have only to do with sheets. Accordingly our conductor led us to a furnace of moderate dimensions, from which the furnace-man took a red or rather white-hot ingot. We may here remark that the ingots which are used for sheet-rolling are of different shapes and dimensions, according to the size and description of saw they are intended to produce. The ingot having been taken from the furnace is handed to the roller, (we mean the man not the rolling apparatus,) who passes it between the rolls, it being received on the opposite side by another work-man called the backer, and by him passed again to the roller. After passing and repassing between the rolls several times, the ingot is transferred into a sheet of steel, the degree of thickness being determined by a gauge, which the roller carries with him; he however seldom uses the gauge, as long practise has enabled him to determie to a nicety the degree of thickness to which the ingot is to be rolled. We may here remark that the handling above spoken of is performed by tongs of a peculiar description, great dexterity being required in the use of these tongs, in order to prevent the sheet of steel slipping from the nippers.

The next operation the steel underwent was that of paring, which is simply the cutting, by means of a pair of shears worked by steam power, the sheet of steel into the shape and size required. In this case the sheet under operation was intended for an ordinary carpenter's or hand-saw. We next accompanied our obliging guide to a workshop on the second floor of the building, where the toothing is performed. This operation is performed with more ease and celerity than would be imagined. The workman is seated on a high stool before a table or counter, and, by means of a small fly, strikes out the cogs or teeth of the saw with great rapidity. The saw he acted upon for our information contained about 116 teeth, and it will scarcely be believed that this number of teeth were made in the space of less than two minutes. The tooth-cutter informed us, in reply to a few questions which we put to him, that he could cut as many as twenty-four dozen of ordinary sized hand-saws (say twenty-four inches long) in a day, the day consisting of about eight hours.

We next went into the hardening-shop, in which the hardening and tempering of the saw is performed. For this purpose a large oven is built over a furnace, which, being surrounded in every direction by fire, is continually in a state of red heat. Into this oven the saw is introduced, and when red hot is taken out and plunged into a tank or bath containing oil. After remaining in this bath for a few minutes, it is taken out, and we were informed that by this process the saw made hard, or, we should say, stiff. The saw becoming very bent, and out of shape by this process, it is necessary to smith it, or reduce it to its proper shape. But as in the process of hardening the saw has become very brittle it is necessary to reduce it to a slight degree of softness in order to allow of its being smithed or straightened without danger of braking. This process of softening is termed tempering; but our readers will, of course, understand that the saw, even after the softening process, is still very much harder than before undergoing the hardening operation.

The next porocess which the saw underwent was that of grinding; this is not, as might be supposed, for the purpose of sharpening the edge of the saw; it is done in order to take off the rough and dull-looking surface of the saw, the grinding operation having the effect of giving the surface of the saw a bright and highly polished appearance.

We were next taken into the grinding-wheel, which is simply the shed or building within which the grind-stones are placed, and there witnessed the grinding of our saw, which was performed by a grinder standing or sitting upon a horse (the block of wood placed at the back of the grind-stones, upon which the workman stands or sits) and pressing the saw with all his weight and strength upon the grindstone. We must confess that we were agreeably surprised by the appearance of the saw-grinders, they being, we thought, remarkably mild and inoffensive looking men, and exhibiting none of those signs of brutal ferocity which which we had almost expected to find among the associates of the notorious Broadhead and Crookes, of saw-grinders' trade union celebrity. We noticed one thing with reference to the vocation of the saw-grinders, which was, that their work must, to say the least of it, be very disagreeable in cold weather, owing to the continuous stream of water that is pouring over their hands, our readers, being no doubt, aware that cold water is always flowing over the grindstones in order to neutralize the friction proceeding from the contact of the steel with the stone. The grinders, we are sorry to say, labor under the disadvantage of great danger in their work. Apart from the danger which is always threatening them—and which can not always be effectually guarded against, of the grindstones flying or breaking, thereby perhaps killing or seriously injuring all or a great number of the men in the grinding-wheel, or, as they term it, grinding-hull—the men know that they are inhaling poison, and consequently death, with every breath they take, the particles of steel and of stone entering into their lungs, and sending them off the face of the earth at, in many cases, a premature age. This being the case with the wet-grinders, how then must it be with the dry grinders, who have not the advantages which the others enjoy (!) of having many of the deadly particles taken off by the water? Besides this, in the case of the wet grinders the stone rotates *from* the workman; in the case of the dry grinders, the stone rotates in the opposite direction, that is to say, *full in their faces*. We left the grinding-wheel with feelings saddened by the reflection that the fine-looking young men we had just seen employed, in full vigor of their youth and strength, were dying by inches.

On reaching the outside of the grinding-wheel our guide, after consulting his watch informed us that dinner-time was at hand, and at the same moment a shrill whistle sounded from the mill, upon which, as if by magic, all sounds of work ceased, and nothing was heard save the tramping of the work-people to their respective homes.

The glazing or polishing-room was the department first visited by us after dinner and our saw was handed to a workman, who immediately proceeded to glaze or polish it. This he did by passing the saw over a wheel, in the same manner as the grinder had done; but as the wheel was of a different construction from the other we saw, we endeavor to describe it to our readers. The wheel is made of very hard-wood and is placed in front of a stand or horse, upon which the operator stands with his feet resting upon a description of stirrup, the workman being, in fact, in the same position as the wet grinder. The wooden wheel being painted with a glutinous substance, is covered with emery, wnich sticking to the wheel, has the effect of imparting a very bright polish to the saw. And now we approach the close of our visit, and witnessed the finishing touches being put to our saw.

We were taken into a room on the second floor(next to the toothing-room) of the building, which we must say appeared to be the most comfortable department of the establishment. At a long table sat two or three females at work, varnishing the saw-handles, while at different benches men were cutting the handles out of planks of wood. We may as well remark here that the handles are made of several kinds of wood, common saws having beech-wood handles, and the best saws generally having handles made of ebony or mahogany. The saw-handle-maker, taking a plank of beech-wood, marked with a pencil six or eight handles upon the wood; then, with a small saw divided the wood into as many blocks, and gradually, and with great care, cut those blocks, by aid of the small saw, into the shape of saw-handles. He then with a file filed every portion of the handle down to smoothness, and passed it over to a woman sitting at a varnish-table, who covered it by means of a small brush with varnish. The handle being then placed on a rock with a number of others, was left to got dry.

The saw manager here informed us that this was all we could witness of the operation, as the handle would take twenty-four hours to dry. He also told us that all that remained to be done to complete the saw was to set and sharpen it, and then fasten the handle on by means of steel or brass screw and to have the saw rubbed by hand with emery, in order to impart to it a superficial polish, and then to rub the saw with a cloth dipped in olive-oil to prevent it from getting rusty. We withdrew, very much pleased with our visit, after heartily thanking our kind conductor.

The Massacres in Paris.

THE MURDERS IN THE PLACE VENDOME.

The cable despatches have given some account of the dreadful massacre which was committed in the place Vendome, Paris, by the revoltionists on the 22nd ult. The special correspondents of the London *Times* was an eye-witness of the affair and writes a vivid description of the cowardly and cold-blood slaughter. A "demonstration" of the party of order having been made on the previous day and produced a good effect, it was resolved to hold another; and accordingly all persons interested in the support of order were summoned by a notification in the public journals to meet unarmed on the Boulevards at the head of the Rue de la Paix. At one o'clock in the afternoon an immense crowd assembled, composed exclusively of the better classes of Paris and all completely unarmed. Having agreed upon the cry of "*Vive l'Assemble Nationale—Vive le Suffrage Universel!*" the crowd moved towards the Rue de la Paix with the object of advancing to the Place Vendome; but they were met at its entrance by a thin line of soldiers, who fell back as they approached without attempting to offer any forcible resistance. The correspondent says:—

"Thus encouraged, with loud cheers and waving of hats, and amid frantic applause from the balconies and windows, the great procession of black coats and hats moved on, strange alike in its composition and its confidence in the power of the purely moral influence by which it hoped—alas! as it soon proved delusively—to achieve its victory.

"It seemed, however, that the shopkeepers did not altogether share this confidence, for every shop was shut, and a great many more of the Menetian shutters were closed than yesterday. The crowd, moreover, gradually divided into a front and rear division, the latter composed of the more timid and irresolute, who lingered near the top of the street. Suddenly there was a panic in the front, and I found myself with my companion, Mr. Furley, carried some paces back by the retreating mass. We were at this time nearer to the Place Vendome than to the Boulevards, close to the corner of the Rues des Capucines, and we determined to take refuge in the house under which we were standing. No 3, Rue de la Paix, the well-known bank of Mr. Blount, who has been acting as British Consul, throughout the siege. The large doors, like those of every other house in the street, were closed, and it was some time before we could effect an entrance and, as it turned out, not a moment too soon. Looking from the first floor window, we observed the crowd again begining to press forward on a triple cordon of *Nationaux* drawn across the entrance to the Place Vendome, and immediately beneath us a group of upturned faces, evidently expecting something from above. Soon there appeared a tri-colored flag lowered past our window from the floor above. I mention the fact because it led to an incident later.

Up to this time the demonstration had been without a flag, and its appearance was the signal of a general rush towards it. Then came a curious sort of a scuffle between some discreet men who wanted to carry it to the rear and lead back the crowd, and other more ardent spirits who desired to push forward with it to the front. The question was decided by a dashing young officer in a military uniform, but without a sword, whom I had observed taking an active part in the [illegible] of yesterday, when I heard his name, which I regret I have forgotten, as he displayed a personal daring which, if it partook somewhat of recklessness, was none the less noble to witness. Like [illegible] knight of old he seized the banner in his right hand in a moment, overcoming all opposition, and, waving it aloft, rushed forward, cheering in ringing tones to the crowd to follow him.—It was impossible to resist the contagion of his enthusiasm, the wavering mass wavered no longer, in a moment they were close up to the line of bayonets, exposing their defenceless breasts to the merciless muzzles of the rifles, and crying with one accord *La crosse en l'air.*' The appeal was so earnest and unanimous that some of the guards responded, and half a dozen butts were reversed. It almost seemed a signal for treachery, for in another moment, and without a moment's warning, down went the muzzles of those all round and belched forth a volley into the unarmed mass that was almost touching them. I saw the banner go down, but the red kepi, of its brave young bearer seemed for a moment visible through the smoke, apparently struggling with some of the fiends in human shape, who now seemed to revel in their work of slaughter, and poured volley after volley into the flying crowd. Those who know the position of Mr Blount's house will at once perceive that this horrid tragedy was being enacted immediately under my eyes. I was riveted to the window as if by some horrid nightmare, and even now I seem as one dreaming. I saw a handsome, gray-haired old man, whose distinguished appearance had struck me as I walked near him a few moments before, fall a lifeless corpse and a dozen people behind him, in the agony of their flight, stumble over his body and make a living struggling heap, into which the bullets, not thirty yards off, rained pitiless.

"Two more are stretched by the old man's side before the entangled victims have disengaged themselves. They lie still for a moment; one, who is quite a youth, though in National Guard uniform, tries slowly to drag himself out of the bloody pool towards the shelter of a doorway. The movement is no sooner perceived than a shot puts an end to his efforts, and his agony. I see him, with eyes starting, stumbling and falling in the extremity of their terror as the bullets whistle round them and glance from the walls and iron shutters of the shops. Here a man limps slowly away, fired at all the time and never hit again; there a dog and his master are lying side by side; the minutes seem hours. I know not how long I have been gazing with suspended breath and the most awful feeling of horror that I have ever known; when suddenly a bullet crashes through the pane next the one through which I am looking, and flattens itself on the wall behind us. A splinter of glass hits Mr. Furley's hat; we are alone in the room, and for some time we do not dare to look out; but still the firing goes on in a dropping, irregular manner. It is probably with some difficulty now that a victim could be seen at whom to fire. At last I peeped out, and saw one of those demons slowly drop on his knee, point his rifle down the Rue Neuve des Petits Champs, take a long aim, and fire. The angle of the street prevented me from seeing the object at which he aimed. A door slowly opened; and a person, evidently with the intention of trying to drag in the wounded, stepped cautiously out; a volley warns him precipitately back. Tiger-like, they look anxiously out for more blood; but the streets are all lifeless and deserted—nothing left in them but hats and bodies. I am thankful on closer inspection, to observe that a good many of those lying prone are not dead or even wounded, but have only taken that attitude for safety, and many have managed to lie in a line behind a lamp-post, or quite under the arch of a doorway. One old man is standing exactly opposite, with his face against the wall, concealed apparently by a slight irregularity; he is motionless as a statute, and flattens himself, as it were, out of sight. At this moment a solitary man appears from the Rue des Capucines waving a white handkerchief. He approaches unmolested to within about

W. G. THOMSON & Co's

MILLINERY ROOMS!

WILL BE OPENED ON

WEDNESDAY, APRIL 26th, 1871,

WITH A RICH DISPLAY OF

NEW AND FASHIONABLE GOODS!

The Peterborough Examiner

PETERBOROUGH, APRIL 20, 1871.

Editorial Items.

On the 11th instant, one man killed another, in New-York, while quarrelling about a dog.

TORONTO MARKETS.—Flour, $5.20 to $5.25; Wheat, $1.39; Barley, 66 to 68; Oats 50c to 52; Pease, 94 to 96.

Brigham Young, the Mormon Chief, is dead. He leaves 60 wives and an innumerable family to mourn his decease.

Burglars have been attempting to open Cobourg stores. The *Star* says:—The results will be a man or two shot, an inquest, and a newspaper item.

MONTREAL MARKETS.—Butter, 12½c to 19c; Cheese, Factory, 12½to 13c; Timothy Seed, (per 45 lb) $3.10 to $3.25; Pork per bl, $15 to $20.

Lo. ion Society, for April, has been received from Messrs. Copp & Clark, Toronto. It can, also, be obtained at Mr. Kidd's or Menzie's Book Store.

A contemporary says:—"The remuneration for being census enumerator is $3 for ever eighteen families." This of course does not include the Commissioner's Fees.

The Ladies' Committee of the "Protestant Home," desire to acknowledge with many thanks the sum of $20, granted by the Ashburnham Council to that Institute.

ACCIDENT.—A man named Peter Windsor while rolling logs into Eels Creek, on Sunday last, got his leg broken, our informant says that Windsor was on a drive for Messrs. Campbell & Co., at the time.

Thirty-one infants died last week, in one charitable institution, in the City of Montreal. An artile in the Evening *Star*, on the subject, deserves the perusal of every christian, or professor, even, in the country

The *Irish Canadian* says:—The "Campaign Sheets" used in this county, at the late election, were got up at the *Telegraph* Office. For pay of course. Who paid for them? The Government or the Candidate for the East Riding? Rumor says two "Lawyers" in town wrote them.

A newspaper quarrel, between editors, in London, the less, ended at the York Assizes in a libel suit for $10,000 damages. The jury could not agree. Ten were for rendering a verdict for def't's; and two, it is said, for rendering a verdict of one shilling damages.

The *Herald and Settler's Guide* is the title of a neat little sheet published at Minden in this County, by Messrs. Mason & Curry of that place. The object of the publishers is to afford information concerning the "back Country." The Herald has our best wishes for its success.

DROWNED.—A correspondent on the Burleigh Road, writes to us that while F. Elmhirst, M. Galaher and a son of Mr. Reighle, were attempting to cross Eels Creek, on a raft, on Monday last; the raft began to sink and Elmhirst and Galaher jumped of and got safe to land. Young Reigle remained on for a while longer, but attempting to jump off at a different place, failed, and getting into the river was drowned. The body was not found at the time of writing, on Tuesday. Mr. Reighle moved into Anstruther, last winter, we understand.

TEACHER'S EXAMINATION.—Instructions have been received from the Chief Superintendent of Education, that the Boards of Instruction under the old School Law are now "defunct," consequently there can be no examination of teachers in May or June, as advertised. Instead thereof there will be an examination in July, under the provisions of the new school act, of which, we suppose, timely notice will be given. Expiring certificates, issued by the Boards, will remain in force until the meeting of the newly constituted Boards of Examiners, in July.

MARKET BY-LAW:—Farmers and others having produce to dispose of in town, would do well to remember that it is contrary to the Market By-law to sell any place except on the marquet square, and that any infringement of the By-law leaves the party guilty, liable to a fine. We understand the market clerk has put the law in force against a few persons already. Hence, all interested would do well to keep the law, and avoid the risk of having to appear in the Police Court.

A NEW PAPER.—We have received the first number of the *Ontario Reformer*, published in Oshawa by Mr. Climie, of the Bowmanville *Statesman*. The *Reformer* is a good sized sheet and neatly printed. The office is new, Mr. Climie having just commenced to publish the *Reformer* at the earnest solicitation of the Reformers of the County of Ontario, who felt that they required an independent organ to represent their views in that Reform County.—From the number of advertisements, and liberal patronage promised Mr. Climie, the *Reformer* is no venture. He has our best wishes in the enterprise, and we believe Reform principles will have in him a faithful advocate.

Our dear friend the *Review* takes the late defeat with very bad grace. He must feel the verdict of the Electors as condemnationary of his course during his public career. With *his private acts* we have nothing to do, nor shall the least reference to any of them appear in our columns, neither shall anything that he may write against the proprietor of this paper either as editor or in any other capacity, induce us to swerve to the right hand or to the left from this course. The vindication of our character we leave to time, and to the intelligence of the people of the County. Three years ago an Editor of the *Review* thought he could destroy the Editor of the *Examiner*, but he (the Editor of the *Review*) was forced to remove to other quaters first. A second Editor of the *Review* tried the same game—about two years ago—where *is he* now? Let the present Editor of our contemporary take the hint.

The Canada Farmer for April is before us. It is an excellent farmers paper.

The Cornwall Woolen Factory is to be rebuilt without loss of time. The Town of Cornwall gives $600 per annum bonds for ten years, and remits taxes for twenty-one years, and also gives $4,000 bonds, with the necessary land and remission of taxes, if a Cotton Factory is built.

A NEW CHEESE FACTORY:—Several Farmers on the River Road, Otonabee, in the Stewart settlement, have formed a Company for manufacturing cheese. The Factory will be completed by 1st of May.

Mr. R. Jackson was chosen president; Messrs. D. Kennedy and J. Stewart directors.

THAT REFORM BANQUET:—The Editor of the *Review* is very much agitated over a reform banquet that haunts him in his dreams. We would advise him to apply a dram of cold water to his over-heated brain. The banquet will come soon enough to trouble his soul. Although we have no "water works," the river and creek have abundance at present.

What is being done about the Railway to Bobcaygeon, also in reference to the resuscitation of the Cobourg road? Has the matter fallen into the hands of those who are opposed to the interest of the Town? Should not a meeting of the Citizens be called, and the matter laid before them at once? A wrong move now may destroy our prospects forever.

The Manitoba *News Letter*, published at Winnipeg comes to us in a very neat style of workmanship. It is issued semi-weekly and appears to have the task assigned to it, of watching the "powers that be," in Manitoba. The articles are well written, and from the general tone of the *News Letter*, It deserves the support of all in that new province who desire to secure good government for the North West Territory.

Master D. English, son of our respected Townsman, John English, Esq., is Foreman and General Manager in the *News Letter* Office.

The following paragraph from our Manitoba Contemporary affords a faint idea of the state of things at Winnipeg:

The closing paragraph of the speech where, His Excellency rejoices at receiving the support of the "respectable" people of this Province might as well have been omitted altogether. What needs he to have told the people of the Dominion that there are respectable people in this province and people who are not respectable. Who are the respectable people that have lent him such support? Are they the honourable members of the Company around the Fort into whose embraces he threw himself since entering this province? Or are they the men who have supported the ministerial candidates at last election? If so, of course the American deserters who crossed the border a few previous to the election, swallowed the oaths and voted for D. A. Smith must be reckoned amongst his "respectable supporters." Who, ever heard of Her Majesty, or a single governor of a British Colony, coming down to inform the House that they were supported by respectable people, just as if they were not equally the representatives of all. We hope we are not on the eve of being governed by a family compact, such as that which governed Canada for years.

Parliamentary.

The Parliament of Canada passed a number of Acts during the last session, perhaps many of them of minor importance to the people generally—but not all so. Perhaps never in the history of a province of the same population and resources was there such disregard manifested of running into an immense debt.

For many years there were large deficits to chronicle—and great uneasiness exhibited in ministerial quarters as to how to meet them.
